CELEBRATE NATIONAL MINORITY HEALTH MONTH 2021

#Vaccine Ready

This NMHM, we focus on the disproportionate impact the COVID-19 pandemic is having on racial and ethnic minority and American Indian and Alaska Native communities and underscore the need for these vulnerable communities to get vaccinated as more vaccines become available. COVID-19 vaccination is an important tool to help us get back to normal, and to prevent the spread of COVID-19 to bring this pandemic to an end.
