DME: Standing Frame Criteria and Form

DHH has updated the criteria for Standing Frames effective March 1, 2014. For legacy Medicaid, a new standing frame evaluation form has also been developed which is to be submitted with all prior authorization requests for standing frames. The updated criteria are published in the DME provider manual and the standing frame form is labeled Appendix G. The form can be downloaded at <http://www.lamedicaid.com/provweb1/Forms/PAforms.htm>.

Health Plans may elect to require standing frame requests be submitted with the DHH Standing Frame Evaluation Form.
