Louisiana Medicaid Fee Schedule Update Change

Beginning April 28, 2017, the published fee-for-service fee schedules for *Professional Services*, *Laboratory/Radiology*, and *Take Charge Plus* will be refreshed by Molina on a weekly basis. (Previously these fee schedules were refreshed monthly.) This change was implemented to inform providers and managed care organizations (MCOs) of Medicaid fee-for-service procedure file updates in a timelier manner.

This change will supplement the procedure code flat file currently received each week by the MCOs from Molina. The content of the published fee schedule updates may lag slightly behind the weekly flat file due to website publishing and timing constraints.

These, and the other published fee schedules, are found on the Louisiana Medicaid website, www.lamedicaid.com, using the "Fee Schedule" link.
