Rehabilitation Therapy Services

A Speech Therapist, Physical Therapist, or Occupational Therapist may contract with a Medicaid managed care organization (MCO) as an individual provider to deliver services to managed care enrollees in the settings designated by the MCOs.

Therapists enrolled with Louisiana Medicaid as Early Steps providers may continue to provide services to the Early Steps recipients through fee-for-service Medicaid only. Early Steps services are carved out of managed care coverage.

Contact information for each MCO can be found [online](#).
