

Heroin & Opioid Crisis Interagency Survey

Heroin and Opioid Crisis Interagency Coordination Survey

During the 2017 Regular Legislative Session, Act 88 established the Advisory Council on Heroin and Opioid Prevention and Education (HOPE). The Council's purpose is to create an Interagency Heroin and Opioid Coordination Plan, coordinate parish-level data on opioid overdoses and usage of overdose-reversal medication (Naloxone), and coordinate a central online location to disseminate information and resources, including the Interagency Heroin and Opioid Coordination Plan. Two sub-committees were formed to address this body of work: a Data Workgroup, and an Interagency Coordination Plan Workgroup.

The objective of the Interagency Coordination Plan Workgroup is to coordinate and organize existing initiatives and resources to assist in developing a statewide coordination plan. We are asking for your participation in this survey so we may gather information on heroin and opioid initiatives taking place within your organization **since July 1, 2016 (State Fiscal Year 2017)** and the impacts of these initiatives. We request a response to this survey by **close-of-business on April 5th, 2018**. Please send completed survey responses to Brad Wellons with the Office of Behavioral Health at brad.wellons@la.gov

Feel free to share this survey with other agencies, organizations or departments, as well. Thank you for your time, and we look forward to your response.

Agency/Organization Mission

1. What is your agency's (or organization's) mission?

District Court

2. How does addressing the opioid crisis impact your mission?

The 9th JDC has a drug court and all too often have participants who are/were addicted to opioids. These are often the most challenging of cases. In addition to the drug court, the Juvenile Court serves those parents whose children were removed either at birth due to substance use of the parent and the child testing positive at birth OR parents have been arrested or reported for substance use and their minor children are removed, placed in foster care. All of these individuals require individualized plans for their long term success however limited services are available due to lack of insurance or the amount of "time" allowed by Medicaid in treatment. Relapse is commonplace and unfortunately expected.

Current Initiatives:

3. Identify your agency's (or organization's) initiatives that address the opioid crisis since **July 1, 2016** **(State Fiscal Year 2017)**

Initiative #1

A. Describe initiative:

As mentioned drug court which is an ongoing support that relies upon state funding – incorporating methods to treat those who are addicted remains challenging due to lack of services.

No new initiatives in this parish.

B. Initiative can be categorized as: (check all that apply)

- Prevention – type of Prevention initiative: Education Awareness Outreach
- Treatment
- Other

C. Current status of this initiative:

1. Start Date: ongoing for many years – 10+
2. In Progress: Yes No
3. End Date: [Click or tap here to enter text.](#)

D. Identify the program indicators used to measure the contributions necessary to enable the initiative to be implemented. Indicators may include process and impact. To better understand an indicator, please refer to this link: <https://www.cdc.gov/eval/indicators/index.htm>

- Partnership 3: Click or tap here to enter text.
- Partnership 4: Click or tap here to enter text.

H. Can you identify any gaps or opportunities for partnerships?

The length of time allowed for inpatient treatment is not sufficient. The individuals have barely detoxed before being released. Need more beds and add to the length of stay. Also have challenges in transportation. Our city has limited bus service which does not allow for many to attend evening meetings

Future Opportunities

4. Identify any potential opportunities to partner with other agencies or organizations to expand the scope of your initiatives:

Would love to connect with private providers or foundations to further support the work in progress. Connecting our individuals, once clean to job/educational opportunities needs expansion. Increasing the ability of the individual to earn more money is always an asset.

5. What new initiatives would you undertake if funding were available?

Education and vocational training along with assessments to determine the needs.
