

## Heroin & Opioid Crisis Interagency Survey

### Heroin and Opioid Crisis Interagency Coordination Survey

During the 2017 Regular Legislative Session, Act 88 established the Advisory Council on Heroin and Opioid Prevention and Education (HOPE). The Council's purpose is to create an Interagency Heroin and Opioid Coordination Plan, coordinate parish-level data on opioid overdoses and usage of overdose-reversal medication (Naloxone), and coordinate a central online location to disseminate information and resources, including the Interagency Heroin and Opioid Coordination Plan. Two sub-committees were formed to address this body of work: a Data Workgroup, and an Interagency Coordination Plan Workgroup.

The objective of the Interagency Coordination Plan Workgroup is to coordinate and organize existing initiatives and resources to assist in developing a statewide coordination plan. We are asking for your participation in this survey so we may gather information on heroin and opioid initiatives taking place within your organization **since July 1, 2016 (State Fiscal Year 2017)** and the impacts of these initiatives. We request a response to this survey by **close-of-business on April 5<sup>th</sup>, 2018**. Please send completed survey responses to Brad Wellons with the Office of Behavioral Health at [brad.wellons@la.gov](mailto:brad.wellons@la.gov)

Feel free to share this survey with other agencies, organizations or departments, as well. Thank you for your time, and we look forward to your response.

## Agency/Organization Mission

---

### 1. What is your agency's (or organization's) mission?

To provide professional, effective, and ethical treatment to individuals and families affected by addictive disorders.

---

### 2. How does addressing the opioid crisis impact your mission?

Addressing the opioid crisis is central to our mission and impact everything that we do. Our patients are at great risk before they are able to access help, and remain at risk in the event of relapse. Addiction is a chronic disease and relapse is, unfortunately, a part of the experience for many patients. And the opioids available are lethal.

## Current Initiatives:

3. Identify your agency's (or organization's) initiatives that address the opioid crisis since **July 1, 2016** **(State Fiscal Year 2017)**

### Initiative #1

#### A. Describe initiative:

We are a treatment program with multiple levels of care. We focus on treatment for the patients that present to us, but also have a lecture series that is open to the public and support community efforts to inform the public. We are convinced by the available science that medication to treat addiction involving the use of opioids should be discussed and considered in all cases, and we have facilitated the availability of Narcan to patients and families in case of relapse.

#### B. Initiative can be categorized as: (check all that apply)

- Prevention – type of Prevention initiative:       Education  Awareness  Outreach
- Treatment
- Other

#### C. Current status of this initiative:

1. Start Date: Before the crisis was called a crisis
2. In Progress:  Yes     No
3. End Date: Ongoing

## Future Opportunities

4. Identify any potential opportunities to partner with other agencies or organizations to expand the scope of your initiatives:

We are open to public-private partnerships for the treatment of addiction

5. What new initiatives would you undertake if funding were available?

Treatment for more people. Detoxification initiatives

- 
6. Please provide any additional information that you feel necessary to explain or help us understand any of your responses to this survey:

We are a broad spectrum treatment program in the private sector. Our services are available to patients with commercial insurance and with Medicaid for all of the various levels of care. To provide services we must be compensated for those services and we do not have any grant of government funding (we do, however, provide services for agencies who do have grant of government funding). Our goal is to provide services that are in the mainstream of healthcare and integrated with the healthcare community.

**Thank you for taking the time to fill out this survey. Your input is greatly appreciated. Please remember to save the survey document and send to [brad.wellons@la.gov](mailto:brad.wellons@la.gov)**
