

Heroin & Opioid Crisis Interagency Survey

Heroin and Opioid Crisis Interagency Coordination Survey

During the 2017 Regular Legislative Session, Act 88 established the Advisory Council on Heroin and Opioid Prevention and Education (HOPE). The Council's purpose is to create an Interagency Heroin and Opioid Coordination Plan, coordinate parish-level data on opioid overdoses and usage of overdose-reversal medication (Naloxone), and coordinate a central online location to disseminate information and resources, including the Interagency Heroin and Opioid Coordination Plan. Two sub-committees were formed to address this body of work: a Data Workgroup, and an Interagency Coordination Plan Workgroup.

The objective of the Interagency Coordination Plan Workgroup is to coordinate and organize existing initiatives and resources to assist in developing a statewide coordination plan. We are asking for your participation in this survey so we may gather information on heroin and opioid initiatives taking place within your organization **since July 1, 2016 (State Fiscal Year 2017)** and the impacts of these initiatives. We request a response to this survey by **close-of-business on April 5th, 2018**. Please send completed survey responses to Brad Wellons with the Office of Behavioral Health at brad.wellons@la.gov

Feel free to share this survey with other agencies, organizations or departments, as well. Thank you for your time, and we look forward to your response.

Agency/Organization Mission

1. What is your agency's (or organization's) mission?

Clarity Hospice of Baton Rouge provides an individualized program of physical, emotional, spiritual, and practical care for people in the last phases of life-limiting illness, with an emphasis on control of pain and other symptoms.

2. How does addressing the opioid crisis impact your mission?

Due to the existing and worsening opioid crisis our patients sometimes have difficulty getting medications. It is difficult to find the correct dosage of prescribed opioid due to pharmacy shortage. Also, unfortunately there are concerns of the patient receiving the medication as prescribed at times.

Every patient deserves to have a pain free comfortable death. If there possible opioid diversion in the home we sometimes struggle managing the patients pain.

Current Initiatives:

3. Identify your agency's (or organization's) initiatives that address the opioid crisis since **July 1, 2016** **(State Fiscal Year 2017)**

Initiative #1

A. Describe initiative:

First and foremost, we educate every patient and caregiver about safe medication handling, medication administration, storage, and wasting. We monitor the number of opioids prescribed to the patient from hospice and count the remaining opioids at every skilled nurse visit. If there are drug diversion concerns a limited daily supply of medications is ordered at one time. At the time of death or discharge caregivers are strongly encouraged to destroy remaining opioids. A count is made of remaining opioids and documented in the medical record whether it was destroyed.

B. Initiative can be categorized as: (check all that apply)

- Prevention – type of Prevention initiative: Education Awareness Outreach
 Treatment

H. Can you identify any gaps or opportunities for partnerships?

As an agency there is nothing we can do when a caregiver refuses to waste remaining opioids. Partnership with the local law enforcement to force the wasting of remaining opioids would help.

If your agency has no other initiatives, go to question 4, page 18
