

Heroin & Opioid Crisis Interagency Survey

Heroin and Opioid Crisis Interagency Coordination Survey

During the 2017 Regular Legislative Session, Act 88 established the Advisory Council on Heroin and Opioid Prevention and Education (HOPE). The Council's purpose is to create an Interagency Heroin and Opioid Coordination Plan, coordinate parish-level data on opioid overdoses and usage of overdose-reversal medication (Naloxone), and coordinate a central online location to disseminate information and resources, including the Interagency Heroin and Opioid Coordination Plan. Two sub-committees were formed to address this body of work: a Data Workgroup, and an Interagency Coordination Plan Workgroup.

The objective of the Interagency Coordination Plan Workgroup is to coordinate and organize existing initiatives and resources to assist in developing a statewide coordination plan. We are asking for your participation in this survey so we may gather information on heroin and opioid initiatives taking place within your organization **since July 1, 2016 (State Fiscal Year 2017)** and the impacts of these initiatives. We request a response to this survey by **close-of-business on April 5th, 2018**. Please send completed survey responses to Brad Wellons with the Office of Behavioral Health at brad.wellons@la.gov

Feel free to share this survey with other agencies, organizations or departments, as well. Thank you for your time, and we look forward to your response.

Agency/Organization Mission

1. What is your agency's (or organization's) mission?

The mission of the Louisiana Psychiatric Medical Association, a district branch of the American Psychiatric Association, is to:

- promote mental health
- support quality treatment of psychiatric disorders
- support the professional agenda and standards of our national organization

We pursue these goals through educating our members, our colleagues, our patients, our community and our policy makers regarding the symptoms, treatment, and prevention of mental illness.

We encourage interaction and networking within our membership.

Further, we foster the formation of coalitions and alliances among individuals and groups concerned about improving mental health care.

2. How does addressing the opioid crisis impact your mission?

Recognizing heroin and opioid abuse as a public health crisis brings light to addiction as a mental health issue. This has a positive impact on our mission by educating the community at large about the harmful affects of heroin and opioid addiction/abuse. Our hope is that they will seek qualified mental health professionals to treat their addiction.

Current Initiatives:

3. Identify your agency's (or organization's) initiatives that address the opioid crisis since **July 1, 2016** **(State Fiscal Year 2017)**

Initiative #1

A. Describe initiative:

Louisiana Psychiatric Medical Association (LPMA) has included addiction topics as part of their ongoing education at their annual spring and fall meetings. In light of the heroin and opioid crisis, LPMA and our co-presenting spring meeting partner, the Mississippi Psychiatric Association partnered with the Louisiana Chapter of the American Society of Addiction Medicine at this year's spring meeting held in March. Two thirds of the topics at this meeting focused exclusively on addiction including heroin and opioid abuse.
