

## Heroin & Opioid Crisis Interagency Survey

### Heroin and Opioid Crisis Interagency Coordination Survey

During the 2017 Regular Legislative Session, Act 88 established the Advisory Council on Heroin and Opioid Prevention and Education (HOPE). The Council's purpose is to create an Interagency Heroin and Opioid Coordination Plan, coordinate parish-level data on opioid overdoses and usage of overdose-reversal medication (Naloxone), and coordinate a central online location to disseminate information and resources, including the Interagency Heroin and Opioid Coordination Plan. Two sub-committees were formed to address this body of work: a Data Workgroup, and an Interagency Coordination Plan Workgroup.

The objective of the Interagency Coordination Plan Workgroup is to coordinate and organize existing initiatives and resources to assist in developing a statewide coordination plan. We are asking for your participation in this survey so we may gather information on heroin and opioid initiatives taking place within your organization **since July 1, 2016 (State Fiscal Year 2017)** and the impacts of these initiatives. We request a response to this survey by **close-of-business on April 5<sup>th</sup>, 2018**. Please send completed survey responses to Brad Wellons with the Office of Behavioral Health at [brad.wellons@la.gov](mailto:brad.wellons@la.gov)

Feel free to share this survey with other agencies, organizations or departments, as well. Thank you for your time, and we look forward to your response.

## Agency/Organization Mission

---

### 1. What is your agency's (or organization's) mission?

The mission of the Tensas Basin Levee District Police Department is to ensure that the geographic location of the Tensas Basin Levee District is protected from the seasonal rises of rivers and certain tributaries. This is done by ensuring that the infrastructure systems which are in place are protected.

---

### 2. How does addressing the opioid crisis impact your mission?

The opioid crisis has little impact on the mission of our police department. The only interaction that our officers have is the occasional encounter with subjects who are using or who are in possession of these narcotics. This happens from time to time while officers are in the course of conducting their primary mission.

## Current Initiatives:

3. Identify your agency's (or organization's) initiatives that address the opioid crisis since **July 1, 2016** **(State Fiscal Year 2017)**

### Initiative #1

#### A. Describe initiative:

The Tensas Basin Levee District Police Department is currently in the process of ensuring that all officers are current on recognizing the use of opioids by individuals. This plan will also ensure that the officers are familiar with the administering of Narcan when necessary on individuals who have been impacted by the use of opioids.

## Future Opportunities

4. Identify any potential opportunities to partner with other agencies or organizations to expand the scope of your initiatives:

I believe that staying present on the changing in opioid trends is a good idea. Having first responders who are aware of what to look for from a medical side as well as a criminal investigative side is a must.

5. What new initiatives would you undertake if funding were available?

Our agency is relatively small and are only constrained by man power and not funding.

- 
6. Please provide any additional information that you feel necessary to explain or help us understand any of your responses to this survey:

Our agency is primarily an investigative agency. Due to the fact that our mission is primarily to protect critical infrastructure we are in the process of ensuring that all officers are familiar with opioid use and the administering of Narcan.

**Thank you for taking the time to fill out this survey. Your input is greatly appreciated. Please remember to save the survey document and send to [brad.wellons@la.gov](mailto:brad.wellons@la.gov)**
