H. Can you identify any gaps or opportunities for partnerships?

It has been our experience that AAHSD provides access for persons experiencing substance use disorders to enter any level of care needed and that these treatment resources have not been fully utilized by citizens in Acadiana Area. We have attended and participated in public-awareness forums sponsored by the Criminal Justice Coordinating Committee and the University of Louisiana at Lafayette in order to provide information about our treatment services and the process for making referrals to services, along with discussion about funding sources for those services.
