

## Heroin & Opioid Crisis Interagency Survey

### Heroin and Opioid Crisis Interagency Coordination Survey

During the 2017 Regular Legislative Session, Act 88 established the Advisory Council on Heroin and Opioid Prevention and Education (HOPE). The Council's purpose is to create an Interagency Heroin and Opioid Coordination Plan, coordinate parish-level data on opioid overdoses and usage of overdose-reversal medication (Naloxone), and coordinate a central online location to disseminate information and resources, including the Interagency Heroin and Opioid Coordination Plan. Two sub-committees were formed to address this body of work: a Data Workgroup, and an Interagency Coordination Plan Workgroup.

The objective of the Interagency Coordination Plan Workgroup is to coordinate and organize existing initiatives and resources to assist in developing a statewide coordination plan. We are asking for your participation in this survey so we may gather information on heroin and opioid initiatives taking place within your organization **since July 1, 2016 (State Fiscal Year 2017)** and the impacts of these initiatives. We request a response to this survey by **close-of-business on April 5<sup>th</sup>, 2018**. Please send completed survey responses to Brad Wellons with the Office of Behavioral Health at [brad.wellons@la.gov](mailto:brad.wellons@la.gov)

Feel free to share this survey with other agencies, organizations or departments, as well. Thank you for your time, and we look forward to your response.

## Agency/Organization Mission

---

### 1. What is your agency's (or organization's) mission?

The mission of Hill Cross Hospice is to provide physical, mental, spiritual and social support to the client and the family while completing the cycle of life in peace, comfort and dignity in familiar surroundings without artificial means.

---

### 2. How does addressing the opioid crisis impact your mission?

Many of our patients are in severe pain as they face their final hour and our goal is to keep them as comfortable and pain free as possible. Therefore, the opioid crisis has a great impact on our patients as we struggle to provide them with comfort at the EOL.

**Current Initiatives:**

3. Identify your agency's (or organization's) initiatives that address the opioid crisis since **July 1, 2016** **(State Fiscal Year 2017)**

**Initiative #1**

A. Describe initiative:

If our patient is in critical condition and near the end of life, we order pain medication on a weekly basis so as not to have excess.

If the patient is in severe condition and death is not imminent , the opioids are ordered for 15 days at a time again to prevent excess.

If the patient is in minimal pain, rated 1-5, alternative therapies will be instituted such as heat/cold, OTC medicated patches or creams and/or oral OTC analgesics

Patient's pain will be evaluated 2-3 times a week by a nurse and once the pain reaches 6/10 or above, their pain regimen will be reevaluated and as need opioids will be introduced.
