

Heroin & Opioid Crisis Interagency Survey

Heroin and Opioid Crisis Interagency Coordination Survey

During the 2017 Regular Legislative Session, Act 88 established the Advisory Council on Heroin and Opioid Prevention and Education (HOPE). The Council's purpose is to create an Interagency Heroin and Opioid Coordination Plan, coordinate parish-level data on opioid overdoses and usage of overdose-reversal medication (Naloxone), and coordinate a central online location to disseminate information and resources, including the Interagency Heroin and Opioid Coordination Plan. Two sub-committees were formed to address this body of work: a Data Workgroup, and an Interagency Coordination Plan Workgroup.

The objective of the Interagency Coordination Plan Workgroup is to coordinate and organize existing initiatives and resources to assist in developing a statewide coordination plan. We are asking for your participation in this survey so we may gather information on heroin and opioid initiatives taking place within your organization **since July 1, 2016 (State Fiscal Year 2017)** and the impacts of these initiatives. We request a response to this survey by **close-of-business on April 5th, 2018**. Please send completed survey responses to Brad Wellons with the Office of Behavioral Health at brad.wellons@la.gov

Feel free to share this survey with other agencies, organizations or departments, as well. Thank you for your time, and we look forward to your response.

Agency/Organization Mission

1. What is your agency's (or organization's) mission?

To provide quality, safe and effective home care services to persons in need of those services

2. How does addressing the opioid crisis impact your mission?

We haven't seen it much in Home health but have had hospice patients that are already addicted or the family members steal their drugs, which in turn affects us giving effective services.

5. What new initiatives would you undertake if funding were available?

We may have some outreach. Rules about letting patients family after a patient dies dispense of the meds has been a huge problem because they just have control of the meds, which ends up in the wrong hands many times. we need new rules to allow the Hospice nurse to dispense in appropriate containers at time of death.

6. Please provide any additional information that you feel necessary to explain or help us understand any of your responses to this survey:

We are a rural community home health and hospice, we don't do a lot of outreach initiatives other than bereavement services and outreach to explain hospice.

Thank you for taking the time to fill out this survey. Your input is greatly appreciated. Please remember to save the survey document and send to brad.wellons@la.gov
