

Heroin & Opioid Crisis Interagency Survey

Heroin and Opioid Crisis Interagency Coordination Survey

During the 2017 Regular Legislative Session, Act 88 established the Advisory Council on Heroin and Opioid Prevention and Education (HOPE). The Council's purpose is to create an Interagency Heroin and Opioid Coordination Plan, coordinate parish-level data on opioid overdoses and usage of overdose-reversal medication (Naloxone), and coordinate a central online location to disseminate information and resources, including the Interagency Heroin and Opioid Coordination Plan. Two sub-committees were formed to address this body of work: a Data Workgroup, and an Interagency Coordination Plan Workgroup.

The objective of the Interagency Coordination Plan Workgroup is to coordinate and organize existing initiatives and resources to assist in developing a statewide coordination plan. We are asking for your participation in this survey so we may gather information on heroin and opioid initiatives taking place within your organization **since July 1, 2016 (State Fiscal Year 2017)** and the impacts of these initiatives. We request a response to this survey by **close-of-business on April 5th, 2018**. Please send completed survey responses to Brad Wellons with the Office of Behavioral Health at brad.wellons@la.gov

Feel free to share this survey with other agencies, organizations or departments, as well. Thank you for your time, and we look forward to your response.

Agency/Organization Mission

1. What is your agency's (or organization's) mission?

SPRINGFIELD POLICE DEPARTMENT MISSION STATEMENT

Mission Statement | Vision Statement

Statement of Purpose

We, the members of the Springfield Police Department, are committed to excellence in law enforcement and are dedicated to the people, traditions and diversity of our town. In order to protect life and property, prevent crime and reduce the fear of crime, we will provide service with understanding, response with compassion, performance with integrity and law enforcement with vision.

Our Statement of Values

These values guide the operation of the Department and the conduct of its members. These are our fundamental beliefs from which our agency sets policy, delivers services and implements programs. Values set standards for our members in executing their public safety duties. These values guide our actions.

Our Highest Priority is the Protection of Human Life. There is no more important priority to the Springfield police Department than protection of human life. This belief is reflected in every aspect of police conduct. Our highest priority will always be the protection of human life. In violent situations, we are committed in using all reasonable means to prevent injury to the public.

We believe that while Crime Prevention is our Principal Goal, We should Vigorously Pursue those who commit Serious Crimes. The Department's primary focus must be crime prevention. However, when a crime does occur, the Department must react with vigorous law enforcement, moving aggressively toward arrest and prosecution of the perpetrator. Vigorous law enforcement is an important deterrent to serious crime.

We Treat Members of the Public with Respect and Dignity. We Maintain the Highest Levels of Integrity and Professionalism in all Actions. We will treat all those we serve in a compassionate, sensitive, courteous and professional manner, regardless of sex, race, lifestyle or reason for police contact. The integrity of the Department must not be compromised. There can be no question or suspicion among the citizenry regarding Department ethics. Professionalism requires impeccable conduct, careful protection of all citizens' rights and the maintenance of high levels of accountability from all members of the Department.

We will Maintain Open Communication with all the citizens We Serve. Their Input Helps to Determine Police Policies, Priorities. The Department recognizes the need to collaborate with the public in order to reduce crime, disorder, fear and all those negative factors lessening the quality of life. We cannot effectively deal with these by ourselves. Through open communication, we strive to increase public understanding of law enforcement complexities, to ensure the certainty that Department priorities match community expectations, and to inform the public of the reasons for police

actions.

We Believe That Policing Strategies Must Preserve and Advance Democratic Values. The Law enforcement officer in a democratic country must be the living expression of the values and potentialities of democracy. Police officers must, as a matter of course, know and use the most effective techniques for enforcing the law and maintaining order. Moreover, they must perform their duties in a manner that helps to preserve and extend the precious values of a democratic society. Thus, police must respect and protect the rights of all citizens as guaranteed by the States Constitution. These rights include the right to move throughout the town without fear, the right to be free of harassment and discrimination and the right to speak and/or demonstrate one's opinion in a lawful and orderly way.

We are committed to Managing Our Resources in a Careful, Efficient and Effective Manner. The Management of a police department is very similar to the operation of a business with the ultimate objective being quality service delivery to clients with a minimum of costs. The police department must be managed so that there is a maximum return from the expenditure of each tax dollar appropriated. Issues such as employee productivity, fiscal accountability, and planning and resource utilization will be carefully studied and systematically addressed.
