

Heroin & Opioid Crisis Interagency Survey

Heroin and Opioid Crisis Interagency Coordination Survey

During the 2017 Regular Legislative Session, Act 88 established the Advisory Council on Heroin and Opioid Prevention and Education (HOPE). The Council's purpose is to create an Interagency Heroin and Opioid Coordination Plan, coordinate parish-level data on opioid overdoses and usage of overdose-reversal medication (Naloxone), and coordinate a central online location to disseminate information and resources, including the Interagency Heroin and Opioid Coordination Plan. Two sub-committees were formed to address this body of work: a Data Workgroup, and an Interagency Coordination Plan Workgroup.

The objective of the Interagency Coordination Plan Workgroup is to coordinate and organize existing initiatives and resources to assist in developing a statewide coordination plan. We are asking for your participation in this survey so we may gather information on heroin and opioid initiatives taking place within your organization **since July 1, 2016 (State Fiscal Year 2017)** and the impacts of these initiatives. We request a response to this survey by **close-of-business on April 5th, 2018**. Please send completed survey responses to Brad Wellons with the Office of Behavioral Health at brad.wellons@la.gov

Feel free to share this survey with other agencies, organizations or departments, as well. Thank you for your time, and we look forward to your response.

Agency/Organization Mission

1. What is your agency's (or organization's) mission?

Our mission is to provide an individualized program of physical, emotional, spiritual, and practical care for people in the last phases of a life-limiting illness, with an emphasis on control of pain and other symptoms.

2. How does addressing the opioid crisis impact your mission?

We are committed to not contribute to the crisis by managing our patient's supplies of opioids at end of life. We are diligent in monitoring opioid use but have not restricted the use to those who require it. The monitoring of those prescriptions have caused us some additional man power and policies to prevent abuse.

Current Initiatives:

3. Identify your agency's (or organization's) initiatives that address the opioid crisis since **July 1, 2016** **(State Fiscal Year 2017)**

Initiative #1

A. Describe initiative:

All narcotic perscriptions are logged and counted on every visit by the RN. The counts are compared to the order to review for any discrepancies. If any discrepancies are noted the Director of Nursing is notified and an investigation is started. If any patient's are suspected of diverting opioids to a family member or anyone other than the patient, the supply will stop and possible discharge of the patient.
