Overview

• The purpose and regulations of PASRR (Preadmission Screening and Resident Review)
• Louisiana specific process
• Specific information for OBH
• Tips for Hospitals
• Resources
The Purposes of PASRR

• PASRR was created in 1987 through language in the Omnibus Budget Reconciliation Act (OBRA). It has three goals
  – To ensure that individuals are evaluated for evidence of possible mental illness (MI) and/or intellectual disabilities, developmental disabilities and related conditions (ID/DD/RC).
  – To see that they are placed appropriately, in the least restrictive setting possible.
  – To recommend that they receive the services they need, wherever they are placed.
A Few Preliminaries

• Medicaid is a partnership between States and the Federal government.
• PASRR is part of Medicaid.
• PASRR is a required part of the Medicaid State Plan.
Who does PASRR apply to?

All persons seeking admission to Medicaid certified NF including:

– Individuals who are private pay
– Individuals whose stay will be paid by private insurance
– Individuals whose stay will be paid by Medicare
– Individuals whose stay will be paid by Medicaid
Roles of Agencies

• Medicaid has ultimate authority over PASRR
  – LA-Medicaid has dedicated Level I review to OAAS.
  – Level II is the responsibility of the State Mental Health Authority (SMHA) or State Mental Retardation Authority (SMRA).
    – However, Medicaid can’t countermand determinations made by Level II authorities.

Nursing Home Admission

• PASRR is a part of the nursing home admission process.
  1. Step One: Level I Process
     • PASRR Level I faxed to OAAS 225-389-8198
     • Level of Care Eligibility Tool (LOCET) called into 1-877-456-1146
  2. Step Two: Level II Process
Level I (broad screening of eligibility)

- Applies to **every** admission to **every** Medicaid certified NF
- Screen person for any/all signs of MI, ID/DD/RC
- Typically done by hospital/health care entity who is referring the person (e.g., NF, referring hospital or MD, or contracted health services agencies)
- Must be signed by Louisiana licensed MD
- PASRR Level I is good for 30 days from the date signed by the MD. Therefore, an individual must be admitted within these 30 days or a new PASRR Level I must be completed.
REMINDERS

- MD signs each section that is completed.

- If MI is noted, complete the 3rd page in its entirety.

- If MI/ID/DD/RC, send required documents to OAAS when submitting Level I to expedite the process.

- Provide documentation/evidence of primary dementia and or categorical admissions.
Level II (in-depth evaluation of eligibility)

- Individuals identified by the Level I authority as possibly having MI/ID/DD/RC are referred for a Level II evaluation.
- Level II evaluation is conducted by the state’s Mental Health Authority (SMHA) if MI and by the state’s Mental Retardation Authority (SMRA) if ID/DD/RC. For LA-PASRR, this is the Office of Behavioral Health (OBH) and Office for Citizens with Developmental Disabilities (OCDD) respectively.
- Applicants who show signs of MI, ID/DD/RC in Level I, and who do not have previous evaluations that can render determination, must undergo Level II Pre-Admission Screening.
- If, at any time during the Level II, the SMHA/SMRA finds the individual being evaluated does not meet criteria for MI/ID/DD/RC, the evaluation ends.
Level II Screening

- Determines the need for NF services based on physical and mental condition.
- Determines the need for specialized services.
- **Timeliness:** Must be made in writing within an annual average of 7-9 working days of referral to MI or ID/DD/RC.

*Pre-Admission Screening must be completed PRIOR to Nursing Home admission*
Required Information for Level II Review-MI

- **Comprehensive history and physical**
  - complete medical history, review of all body systems, specific evaluation of the person’s neurological system in the areas of motor functioning, sensory functioning, gait, deep tendon reflexes, cranial nerves, abnormal reflexes, and in the case of abnormal finding that are the basis for NF placement, additional evaluations conducted by appropriate specialists.

- **Comprehensive drug history** including current and immediate-past use of medications that could mask or mimic mental illness, side-effects and adverse drug reactions.

- **Psychosocial evaluation**, including current living arrangements and medical and social supports.

- **Comprehensive psychiatric evaluation**
  - Evaluation of intellectual functioning, memory functioning, and orientation, description of current attitudes and overt behaviors, affect, suicidal or homicidal ideation, paranoia, and degree of reality testing (presence of content of delusions) and hallucinations.

- **Functional Assessment**

- **Primary Dementia**: Corroborative testing or other information available to verify the presence of progression of dementia (Dementia work up, comprehensive mental status exam, CT scan, etc.).

- **Records that speak to the reason for NF placement**, including documentation of categoricals.

Submitting with Level I will expedite the process
How to expedite the process of discharge to a NF

• Submit all required documentation with the Level I PASRR.

• Ensure documentation is consistent with diagnosis and disability.

• Submit for NH admission in a timely manner taking into consideration:
  – Hospital discharge timelines
  – Timelines for PASRR Level II completion and 30 day timeline for Level I.

• Include correct fax # and contact person
Forms the hospital will receive from OBH

Forms are faxed by OBH PASRR to the Hospital

- Form 142: Authorization authenticating Medicaid payment and decision for NF
- OBH Level II Evaluation Summary & Determination Notice
- PASRR Level II Independent Behavioral Health Comprehensive Evaluation
- Specialized Services Tracking form

ALL FORMS SHOULD BE SENT TO THE NURSING HOME BY HOSPITAL
What will the forms include?

• Recommendations for Nursing Home placement
• Length of time for Nursing Home placement
• Recommendations for Services
• Explanation of decisions
• Appeals Process
### OBH-PASRR Level II Evaluation Summary & Determination Notice

**Type of Referral**

Type of Referral: Pre-Admission

**Medical Eligibility Determination**

The individual meets medical eligibility for nursing home placement: Yes

**Evaluation Placement Recommendations**

- The individual does not have a serious mental illness and a level II is not required: No
- The individual has a serious mental illness and requires specialized services in an acute setting: Select
- The individual has a serious mental illness and an alternative setting is recommended: Select
- The individual has a serious mental illness and meets criteria for nursing home admission: Yes

**Categorical Determination**

Categorical Decision: No

Type of Categorical Determination:

**Recommendations for Services**

Lesser services are recommended: Yes

Specialized services are recommended: Yes

Additional services are recommended: Yes

The recommendations for specialized services are only recommendations. The individual must contact their insurance provider for services. For individuals with Medicaid, please contact Magellan Health Services at 1-800-424-4399 or go to www.magellanlouisiana.com. The individual is not required to accept the services recommended and is free to choose providers and the type of services.

**Recommendations for Lesser Services**

- Medical Management: Yes
- Supportive Counseling from NF staff: Yes
- Speech/Language therapy:
- Neurological evaluation:

A minimum of a yearly comprehensive psychiatric evaluation to clarify the current diagnosis and appropriate treatment

**Specialized Services Recommendations**

- Psychiatric, psychosocial, psychological evaluation is recommended: __
- Physician services (i.e., Psychiatrist): __
- Individual/Group therapy: __
- Family Therapy: __
- Other specialized services: __

**Intensive outpatient treatment program for substance use:** __
**Individual/Group therapy for substance use:** __
**Substance use detoxification services:** __
**Residential treatment services for substance use:** __

**Additional services if returning to the community**

- Care management/service coordination: __
- Vocational services: __
- Referral to Louisiana Behavioral Health Partnership, Statewide Managed Care Organization: __
- Other services: __

**Evaluation Comments**

Evaluation Comments:

- Dental evaluation: __
- Foreign language services: __
- Referral to other agencies or community programs: __
- Assistance in obtaining medical appliances and devices: __
- Case management services to explore community living needs: __
- Family Involvement: __
- Obtain archive psychiatric records to clarify history: __
- Evaluation for a diagnosis of dementia (Alzheimer's or other organic mental disorder): __
- Ongoing evaluation of the effectiveness of current psychotropic medications to target symptoms: __
- A behaviorally-based treatment plan: __
- A guardian/conservator for decisions regarding health and safety: __
- Crisis intervention plan/safety plan: __
- Substance use recovery support group (AA, NA, etc.): __
- Other: __

**DETERMINATION RESULTS**

Determination: Admit, retain, or readmit to a Medicaid certified NF, if the individual's specified treatment needs do not exceed the level of services available at the selected NF on a long-term basis.

Authorization Date: 05/23/14

**Determination Reviewer Comments**

DRL White's recommendations. Additional recommendations. Please ensure applicant is reevaluated for medical issues that seem to com...

Diagnoses: Serious Mental Illness

• Make or confirm a diagnosis of major mental illness diagnosed by DSM, 3rd Edition, revised 1987.
  – Ex: schizophrenia, mood, paranoid, panic, or other severe anxiety disorder.
  – Not primary diagnosis of dementia.
  – Not episodic/situational

• Timing
  – Recent major treatment episodes or significant disruption within the past 2 years.

• Disability
  – Functional limitations in major life activities within the last 6 months. One of the following characteristics on a continuing or intermittent basis:
    • Interpersonal functioning
    • Concentration, persistence, and pace
    • Adaption to change
Diagnoses: Serious Mental Illness
Cont’d

• (ii) *Level of impairment. The disorder* results in functional limitations in major life activities within the past 3 to 6 months that would be appropriate for the individual’s developmental stage. An individual typically has at least one of the following characteristics on a continuing or intermittent basis:

  - (A) *Interpersonal functioning. The individual* has serious difficulty interacting appropriately and communicating effectively with other persons, has a possible history of altercations, evictions, firing, fear of strangers, avoidance of interpersonal relationships and social isolation;

  - (B) *Concentration, persistence, and pace. The individual has serious difficulty* in sustaining focused attention for a long enough period to permit the completion of tasks commonly found in work settings or in work-like structured activities occurring in school or home settings, manifests difficulties in concentration, inability to complete simple tasks within an established time period, makes frequent errors, or requires assistance in the completion of these tasks; and

  - (C) *Adaptation to change. The individual has serious difficulty* in adapting to typical changes in circumstances associated with work, school, family, or social interaction, manifests agitation, exacerbated signs and symptoms associated with the illness, or withdrawal from the situation, or requires intervention by the mental health or judicial system.
SMHA Evaluations & Determinations

• PASRR determinations are made by the SMHA & based on independent physical and mental evaluations performed by a person or entity other than the SMHA.
  – LA may utilize evaluations on pre-existing data to make determinations (information within the past 1yr if representative of person’s condition).
Types PASRR Determinations

• Individualized determinations
• Exemptions/Exclusions
• Advanced Group/Categorical Determinations
  – Developed by the states and included in the state plan.
  – Applies to people with Level II conditions as a way to expedite decisions regarding a person’s needs when a full Level II assessment may not be necessary.
Individualized Determinations

• Based on more extensive assessment information and will be required unless the person meets the criteria for a categorical determination.

• A Full Level II evaluation and Determination is done.

• Permanent Approvals or Time-limited Approvals.
Approvals (Time-Limited/Short-Term)

- OBH & OCDD may approve an individual for a specified time frame rather than a permanent status.

- This is typically done when the Level II authority determines after review that an individual’s condition is expected to improve to the point where transition to the community is likely.
Hospital Exemptions

• The only true exemption from PASRR.
• For post-acute stays for acute illness lasting less than 30 days.
• If longer, a PASRR must be completed by day 40.
• It is the nursing facility’s responsibility to notify the Level II authority by day 30 if they are requesting an extension of the hospital exemption.
• Any request after day 40 and the expiration of the 142 will be treated as a new admission and must re-start the process.

NOT USED TO BYPASS LEVEL II PROCESS
PASRR Exclusion & Primary Dementia

• Invoked only when dementia co-occurs with serious mental illness and:
  – Dementia is primary and advanced such that the mental illness will not likely be the primary focus of treatment attention again for the individual.
  – The burden is on the referral source to clearly support and document that the dementia is both advanced and will remain primary over the mental health diagnosis.
  – If any doubt, a Level II evaluation must be conducted
### Louisiana Advanced Group/Categorical Determinations

</tbody>
</table>
Categorical Definitions

1. **Convalescent care** from an acute physical illness which--
   i. Required hospitalization; and
   ii. Does not meet all the criteria for an exempt hospital discharge, which is not subject to preadmission screening, as specified in § 483.106(b)(2).

2. **Terminal illness**: must be a documented terminal illness. If condition improves to the point where the individual may benefit from specialized services then a request for Level II review must be submitted;

3. **Severe physical illnesses** such as coma, ventilator dependence, functioning at a brain stem level, or diagnoses such as chronic obstructive pulmonary disease, Parkinson's disease, Huntington's disease, amyotrophic lateral sclerosis, and congestive heart failure which result in a level of impairment so severe that the individual could not be expected to benefit from specialized services;
Categorical Definitions Cont’d…

4. Provisional admissions pending further assessment in cases of delirium where an accurate diagnosis cannot be made until the delirium clears;

5. Provisional admissions pending further assessment in emergency situations requiring protective services, with placement in a nursing facility not to exceed 7 days; and

6. Very brief and finite stays of up to a fixed number of days to provide respite to in-home caregivers to whom the individual with MI or ID/DD/RC is expected to return following the brief NF stay.
NH Responsibility

- NFs have ultimate responsibility within PASRR and NF regulations regarding resident’s in NF.
- For individuals entering hospital from NH placement, NH responsible for providing most recent PASRR determinations
- NFs coordinate with hospital if a resident review is needed for Level II.
- NF responsible for notifying Level II authority if requesting extension of the 30 day hospital exemption
  - Any request made after day 40 and the expiration of the 142 will be treated as a new admission and must re-start the process
Hospital Responsibility

• Submitting Level I form within specified timeline along with necessary documents, fax # and contact person to ensure expedited decision
  – Submitting comprehensive information with Level I will expedite the process if Level II is needed

• Forwarding documents received from OBH regarding Medicaid payment and Level II determination to NH
Resident Review

- Triggered when there is a “significant change” in resident’s status while residing in a nursing facility.
  - occurs when there is a physical or mental change in the condition of a resident who has MI or ID/DD/RC. This condition would not normally resolve itself without further intervention by staff or by implementing standard disease-related clinical interventions. This change would have an impact on more than one area of the resident’s health status and would require interdisciplinary review or revision of the plan of care, or both.

- The nursing facility is responsible for reporting any significant change in the resident’s condition to the Level II authority (OBH and/or OCDD).
Office of Behavioral Health Contact Information

• OBH Level II PASRR Program
  225-342-4827

• Fax# 1-877-652-4995

• DHH Office of Behavioral Health
  http://new.dhh.louisiana.gov/index.cfm/subhome/10/n/328
Both MI & ID/DD/RC

• When Level I screening indicates both MI and ID/DD/RC (ID/DD/RC):
  – Concurrent evaluations occur (OBH/OCDD)
  – OBH defers to OCDD for placement if it is determined MI and ID/DD/RC are both appropriate
Behavioral Health Services Available in Louisiana

• LBHP/Magellan Health Services
• Local Governing Entities (Also known as Districts & Authorities)
Louisiana Behavioral Health Partnership (LBHP)

A new way of delivering behavioral health services in Louisiana that increases access & coordination of services to Medicaid-funding for behavioral healthcare

- Basic package of behavioral health services for most Medicaid recipients
- Enhanced package of services for eligible recipients with Serious Mental Illness
- Uses Magellan as Statewide Management Organization (SMO) and point of access
Basic Package

Benefits for all LBHP members *including NF residents*

• **Mental Health**
  – Inpatient psychiatric hospitalization
  – Physician services (Medication Management visits with a Psychiatrist)
  – Outpatient therapy or counseling appointments

• **Substance Use**
  – Intensive outpatient treatment programs
  – Individual Counseling and Group therapy
  – Detoxification services
  – Residential treatment services
Additional Services for SMI in the community

- State plan services often referred to as “1915i” or “1915i waiver-like”
- Requires an Independent Assessment (IA) to determine eligibility
- Services:
  - Community Psychiatric Supports & Treatment (CPST)
  - Psychosocial Rehabilitation (PSR)
  - Assertive Community Treatment (ACT)
  - Crisis Intervention Services
1915i Services Explained

**Community Psychiatric Supports & Treatment (CPST)**

- Goal-directed & solution-focused interventions.
- It is a face-to-face intervention with the individual with a minimum of 51% CPST contact must occur in the community locations where person lives, works, attends school, and/or socializes.
- All aspects of CPST can be provided by practitioners with master’s degrees in human services field
- Other aspects, except counseling, can be provided by BA level human service workers

**Psychosocial Rehabilitation (PSR)**

- Assists individuals with compensating for/or eliminating functional deficits and interpersonal and/or environmental barriers associated with their mental illness to restore community integration to the fullest extent possible.
- Services may be individually or group setting.
- 51% of time must occur in the community where the person lives, works, attends school and/or socializes.
- Provided by qualified paraprofessionals under the supervision of a LMHP.
1915i Services Explained Cont’d

**Assertive Community Treatment (ACT)**

- Therapeutic interventions that address the functional problems of individuals who have the most complex and/or pervasive conditions associated with a major mental illness or co-occurring addictions disorder. The interventions focus on prompting symptom stability, increasing the individual’s ability to cope and relate to other and enhancing the highest level of functioning in the community.

- Services provided by an interdisciplinary team.

- At least 90% are delivered as community-based outreach services. At least 6 encounters per month. Must have 24 hour a day availability.

**Crisis Intervention Services (Can be provided by all 1915i providers)**

- Short-term & provided to a person who is experiencing a psychiatric crisis and are designed to interrupt and/or ameliorate a crisis experience, immediate crisis resolution, de-escalation and referral and linkage to appropriate community services to avoid more restrictive levels of care. Goals are symptom reduction, stabilization, and restoration to a previous level of functioning.

- Under consultation with a physician or other qualified provider who can assist with specific crisis.
For Dual-Eligibles

- Dual-eligibles are also eligible for Mental Health Intensive Outpatient (IOP) services and Partial Hospitalization. This is not managed by Magellan, but Medicare pays the bulk and Magellan covers the co-payment after Medicare.
Accessing Services through Magellan

• Accessing services
  – Go to www.magellanonflouisiana.com
  – Call Magellan at 1-800-424-4399 and talk to a member service representative
  – Discuss available options with an outpatient support specialist to find and make an appointment with a provider that is right for the resident.
Magellan Provider Search

Enter zip code to locate providers in your area.
Helpful Magellan Resources

• LBHP Service Manual

• Member Handbook

• Library of Resources
Accessing Services through LGEs

- Regional behavioral health services are established in 10 regions across the state.
- They may also be known as Districts and Authorities.
- LGEs are providers under Magellan but may also have services specific to their area.
