Questions for Consideration:

MEMBERS, BENEFITS AND CARE COORDINATION

- What special provisions should exist for health plan requirements for treating individuals with serious mental illness (SMI), co-occurring disorders, or at-risk youth who have been served in the Coordinated System of Care (CSoC)?
- What technology requirements should exist for the health plans for care coordination and data transmission?
- How can we promote the use of multidisciplinary care teams to use methods such as co-management and co-rounding for patient care needs?
- What protections are necessary to ensure continuity of care during the transition?
