

## **Local Reporting: Louisiana Part C Annual Performance Report 2016-17**

*In accordance with Part C of the Individuals with Disabilities Education Improvement Act (IDEA), each state must have in place a State Performance Plan (SPP) to evaluate the state's efforts to meet the requirements and purposes of the implementation of IDEA and report annually on its performance. Louisiana's statewide performance on the **14** indicators which are used to measure performance is available on the EarlySteps website at [www.earlysteps.dhh.louisiana.gov](http://www.earlysteps.dhh.louisiana.gov). In addition, The U.S. Department of Education, Office of Special Education Programs requires that all States report annually to the public on the performance of its local early intervention programs. Louisiana defines "local program" as each of the 10 regional programs of the state's LDH regions which include family support coordination agencies and the System Point of Entry Offices (SPOEs). In most cases, reporting periods 2012-2016 are shown together for comparison across fiscal years where possible. The results are presented by the whole state as well as by region. Items marked with an asterisk (\*) for national average data results are not available as of this posting.*

### **Monitoring Priority: Indicator 1--Early Intervention Services Received in a Timely Manner**

This indicator is calculated as the percentage of infants and a toddler with IFSPs who receive the early intervention services on their IFSPs in a timely manner. *Timely* is defined as within 30 days of parent consent for services on the IFSP. Data is collected in the first quarter of each fiscal year. IFSPs for each family support coordination agency from all regions of the State were reviewed.

**State target: 100%**  
**2015-16 State Actual: 95.07%**  
**2015-16 National Average: 94%**  
**2016-17 State Actual: 91.58%**

Louisiana achieved 100% for this indicator. This is accomplished through a report sent by the EarlySteps State office to the Louisiana Department of Education monthly. The report provides notice of the children in Part C that are potentially eligible for Part B services from all areas of the state. The report is then sent to the school systems by the Department of Education.

In 2012 the measurement for the indicator changed to:

The percentage of toddlers with disabilities exiting Part C where notification to the SEA and the LEA occurred at least 90 days prior to their third birthday for toddlers potentially eligible for Part B preschool services.

**C. Percent of children exiting Part C and potentially eligible for Part B where the transition conference occurred.**
