Dear Reader:

I am pleased to share our 2017 Louisiana Medicaid Annual Report with you.

Louisiana Medicaid is one of the largest state programs, with total expenditures of approximately \$10.6 billion in state fiscal year (SFY) 2017 providing health care to more than 1.8 million Louisianans. As stewards of state funds, we believe it is imperative that we show how that money is invested in our state. This publication includes a wealth of detailed information about the populations we serve and the costs associated with delivering their care. We have also included a multi-year, progressive overview of the impact of our efforts shown through tracked health outcomes.

This has been a significant year for Louisiana Medicaid. Most notably, on July 1, 2016, we marked the culmination of our Medicaid expansion efforts with active enrollment for our new adult population. Those populations are now included in this report, and we have continued to track the progress of enrollment and the health effects on this newly eligible group in real-time with our online dashboard. I invite you to follow along here: www.ldh.la.gov/HealthyLaDashboard.

In early 2016, we rebranded our program as “Healthy Louisiana” – a name that more directly reflects our focus on the health and improved health outcomes of our Medicaid recipients. We continued working toward that goal throughout SFY 2017, including efforts to expand coverage to vulnerable populations, streamline our operations through improvement projects and establish additional resources for a number of health care crisis areas. These endeavors are detailed in our highlights section, on page 1 of the publication.

While our efforts are specifically focused on the medical and behavioral health needs of low-income families and individuals with disabilities, we recognize our agency’s “big picture” impact – improvements to the physical health and well-being of the population as a whole will also yield improvements in the economic health of our entire state. Our staff is motivated by the possibility of such progress and dedicated to working toward a healthier Louisiana in every sense of the word.

Thank you for your interest in our agency. Please let us know if we can be of assistance.

Jen Steele
Medicaid Director

AGENCY OVERVIEW

The **Secretary** of the **Louisiana Department of Health (LDH)**, who is appointed by the **Governor**, provides leadership and overall support services while maximizing resources to fulfill the mission of the Department.

The **Undersecretary** of the Louisiana Department of Health is responsible for the management of the **Office of Management and Finance (OMF)** and is also appointed by the Governor. The Undersecretary reports to the Secretary and oversees several administrative bureaus and divisions, including the Bureau of Health Services Financing (Medicaid).

The **Medicaid Director** is a classified civil service position that reports to the Undersecretary and is responsible for administering the Medicaid program including eligibility, program operations, financial management and policy implementation and support.

The **Deputy Directors** hold a classified civil service position that reports to the Medicaid Director and are responsible for overseeing a single aspect of the Medicaid program which may consist of multiple sections.

The **Bureau of Health Services Financing (BHSF)** is the state agency responsible for the Medicaid Program, with regional offices that provide in-person assistance with Medicaid eligibility applications and information along with numerous application centers throughout Louisiana.

For additional agency information, please visit the Louisiana Department of Health website at www.ldh.la.gov.

We **ENVISION** a future where everyone in Louisiana has the best care and health possible.

Our **MISSION** is to improve health and health care in Louisiana.

Our **PHILOSOPHY** is to operate the Medicaid program in a manner that achieves the Triple Aim of optimizing health system performance by:

- Improving the patient experience of care (including quality and satisfaction).
- Improving the health of populations.
- Reducing the per capita cost of health care.

HIGHLIGHTS OF STATE FISCAL YEAR 2016/17

Medicaid Expansion

Louisiana began delivering care to the low-income adults in the **Medicaid expansion** population on July 1, 2016. Outreach and enrollment efforts started in late state fiscal year (SFY) 2016 continued throughout SFY 2017, contributing to the enrollment of more than 433,000 individuals and a 21.7 percent drop in uninsured rates in Louisiana.

These opportunities for early detection and proper health management have been tracked on a web-based dashboard (www.ldh.la.gov/healthyladashboard) that monitors both health outcomes and enrollment. In just one year of expansion coverage, more than 100,000 individuals have received preventive care services. Some 15,000 individuals have received breast cancer screenings, resulting in 154 diagnoses. Diabetes diagnoses were made for around 2,600 individuals and 10,500 colon cancer screenings have also taken place. Mental health services have been provided to more than 25,000 adults on an outpatient basis and just over 4,000 enrollees have had substance use assistance through outpatient services, with 4,200+ getting residential substance use care.

In addition to providing greater access to care, Medicaid expansion saved Louisiana \$199 million in SFY 2017, with additional savings expected in subsequent years.

Incarcerated Population

As part of a collaborative effort between the **Louisiana Department of Health (LDH)** and the **Department of Public Safety & Corrections (DOC)**, Louisiana Medicaid began enrolling individuals slated for release from the state's adult prison facilities into the managed care program, in January 2017. This pre-release "justice-involved" enrollment includes offenders aged 19–64 who may be enrolled as part of the **New Adult Group** established as part of Medicaid expansion. All enrollees will receive their post-release care through one of the five managed care organizations (MCOs) and those identified as "high-need" are given the option of receiving case management from the MCOs prior to release.

The initial launch only included the seven state DOC prison facilities, with the intention of eventually including DOC's regional re-entry centers and parish-level jails. The enrollment process can begin some nine months prior to release with application and education. DOC staff in each prison provide education on the program and enrollment basics to the offenders prior to release. Medicaid benefits are active within seven to 10 business days post-release. Members are required to verify continued income eligibility 90 days post-release.

LaHIPP Renewal

The **Louisiana Health Insurance Premium Payment (LaHIPP)** program was reinstated in April 2017. LaHIPP reimburses eligible Medicaid recipients for some costs related to employer-sponsored insurance, including co-pays and deductibles when the provider bills Medicaid secondary. The program aims to save costs by preventing individuals from dropping employer insurance and enrolling in Medicaid. At least one person in the family must have Medicaid and LaHIPP enrollment must be cost-effective for the state for the applicant to qualify.

Hospital Payment Modernization

The confluence of new federal Medicaid rules, growth in managed care through expansion and a renewed interest in value-based payments prompted Medicaid to amplify the focus on hospital payment modernization efforts in SFY 2017. In Louisiana, more than half of all Medicaid dollars go to hospitals in the form of supplemental payments. Working in consultation with hospital partners and relying upon data-driven processes, Medicaid defined steps toward more appropriate payment models. The group concluded that a transition from inpatient per diems to **Diagnosis-Related Groups (DRGs)** while shifting some supplemental payments toward base payments would lay the groundwork for a payment system that is modern, efficient, transparent and sustainable.

Electronic Visit Verification

Medicaid launched a regional phase-in of its **Electronic Visit Verification (EVV)** system for in-home personal care service providers. EVV is a web-based system that electronically records and documents the precise date, start and end times that services are provided to participants.

Part of the **21st Century Cares Act**, EVV enables validation of service delivery with the aim of reducing improper claims payment and safeguarding against fraud. Implementation included mandatory training for all providers. The staged roll-out allowed Medicaid to collect practical feedback to address system or usability issues as they occurred. EVV was implemented for facility-based providers in SFY 2016.

Opioid Abuse Efforts

Medicaid implemented several measures in support of the ongoing agency-wide effort to reduce and prevent opioid abuse. Quantity limits for opioids were revised for fee-for-service providers in January 2017 to ensure appropriate and medically necessary utilization, in keeping with CDC guidelines. In March 2017, the limits were extended to **managed care organizations (MCOs)** for opioid naive (no opioid prescriptions in the last 90 days) recipients. Override provisions and exemptions were included in both limitations to ensure medically necessary drugs were not restricted.

Naloxone, a lifesaving antidote medication that reverses an opioid overdose, was made available to laypeople who are trying to aid an individual who has overdosed on an opioid drug, such as heroin or morphine. The drug has been used by medical professionals for years to counteract an overdose and save lives. Through a standing order, pharmacists can now dispense the drug to caregivers, family and friends of an opioid user. The standing order also includes direction on how to administer naloxone and is accompanied with instruction on how to recognize an overdose, how to store and administer the medication and emergency follow-up procedures.

Covering Mosquito Repellent

As part of Zika virus prevention efforts, Louisiana Medicaid added mosquito repellent as a covered pharmacy benefit. Coverage is limited to Medicaid recipients who are pregnant or women and men of child-bearing years who are trying to conceive. A prescription is required.

Systems Modernization

The advent of the **Affordable Care Act** included a federal mandate that Louisiana Medicaid overhaul its eligibility and enrollment system and architecture. The **Medicaid Modernization** team was formed to take on this project, supported by a competitively selected contractor, Deloitte Consulting, and the Office of Technology Services.

Throughout SFY 2017, Modernization was laser-focused on design to configure Deloitte's transfer solution for Louisiana. The new **Eligibility & Enrollment (E&E)** system, known as **LaMEDS**, will replace the legacy **Medicaid Eligibility Data System (MEDS)** as well as all ancillary systems used by Medicaid analysts to determine eligibility. Replacements include a new version of the online application used by the public and partners such as Medicaid Application Centers.

The reconfiguration effort included all-day joint application design sessions between the contractor and staff, allowing both parties to work through every task, workflow, application, process and procedure associated with Medicaid's complex eligibility systems. Concurrent sessions were held with different areas of concentration to keep the project on track to meet established milestones and deadlines. The statewide implementation of LaMEDS will go live November 13, 2018, followed by an enhancement release the following July.

Provider Relations Team

A robust provider relations team was established as part of ongoing efforts to improve the oversight of the five contacted managed care organizations (MCOs). The team was staffed with strategic hires with private sector provider experience. The goal was to bring a broader understanding of MCO practices and policies where provider relationships are concerned, including knowledge in contracting, billing and claims payment. This experienced perspective allows the team to work more proactively to assess and address potential concerns before they become complaints.

LOUISIANA MEDICAID OUTCOMES

The mission of the Bureau of Health Services Financing (BHSF), which administers Medicaid in Louisiana, is to improve health and health care in Louisiana. An additional goal for BHSF was to improve quality of care by the transition of Louisiana Medicaid from fee-for-service to a managed care system in 2012. Pursuant to these goals, BHSF regularly monitors the performance of Healthy Louisiana managed care organizations (MCOs) on a number of **Healthcare Effectiveness Data and Information Set (HEDIS®)** quality metrics.^{1,2} BHSF uses HEDIS, established by the **National Committee for Quality Assurance (NCQA)**, to evaluate MCO performance, improvements and outcomes.¹ The measures expressed in this report include a performance rate or percentage by each MCO, as well as the related benchmark and pre-managed care baseline data.

The HEDIS performance data provides useful information about children and adults enrolled in Medicaid who are/are not taking advantage of beneficial and potentially cost-saving preventive medical services. The use of preventive services could help improve the enrollee's health and longevity of life, as well as reduce costs to tax payers. Each of the five MCOs reports the HEDIS data below for reporting years 2016 and 2017 (measurement years 2015 and 2016). In addition, the 2012 pre-managed care baseline (measurement year 2011) is provided to illustrate the starting point at the initiation of managed care. The NCQA Quality Compass South Central 50th percentile benchmark is provided to assess, compare and measure progress

HEDIS Performance Measures

In reporting year 2017 (which is composed of data that was actually collected in calendar year 2016), Healthy Louisiana MCOs performed above the NCQA Quality South Central 50th percentile benchmark on 12 out of 22 HEDIS performance metrics. These include: Adolescent Well-Care Visits, Antidepressant Medication Management (84 Days), Antidepressant Medication Management (180 Days), Breast Cancer Screening, Cervical Cancer Screening, Child and Adolescents' Access to Primary Care Practitioners (25 Months–6 Years), Child and Adolescents' Access to Primary Care Practitioners (12–19 Years), Chlamydia Screening in Women, Postpartum Care, Immunization Status for Adolescents (HPV), Immunization Status for Adolescents (Combo 1), and Ambulatory Care (AMB) – Outpatient Visits/1,000 Member Months.

Among 2017 HEDIS (2016 measurement year) metrics below the NCQA Quality Compass South Central 50th percentile benchmark, eight measures had substantial improvement from the 2012 fee-for-service baseline. These include: Timeliness of Prenatal Care, Childhood Immunization Status (Combo 2), Childhood Immunization Status (Combo 3), Child and Adolescents' Access to Primary Care Practitioners (12–24 Months), Child and Adolescents' Access to Primary Care Practitioners (7–11 Years), Comprehensive Diabetes Care – Hemoglobin A1c (HBA1c) testing, Well-Child Visits in the First 15 Months of Life (Six or More Well-Child Visits), Well-Child Visits in the Third, Fourth, Fifth and Sixth Years of Life.

One measure was slightly below the NCQA Quality Compass South Central 50th percentile benchmark and has no fee-for-service baseline since it was a new measure: Adherence to Antipsychotic Medications for Individuals with Schizophrenia.

One measure was below the NCQA Quality Compass South Central 50th percentile benchmark and worsened in 2017 when compared to the 2012 fee-for-service baseline: Ambulatory Care – ED Visits/1,000 Member Months.

Guidance for Reviewing Chart Illustrations

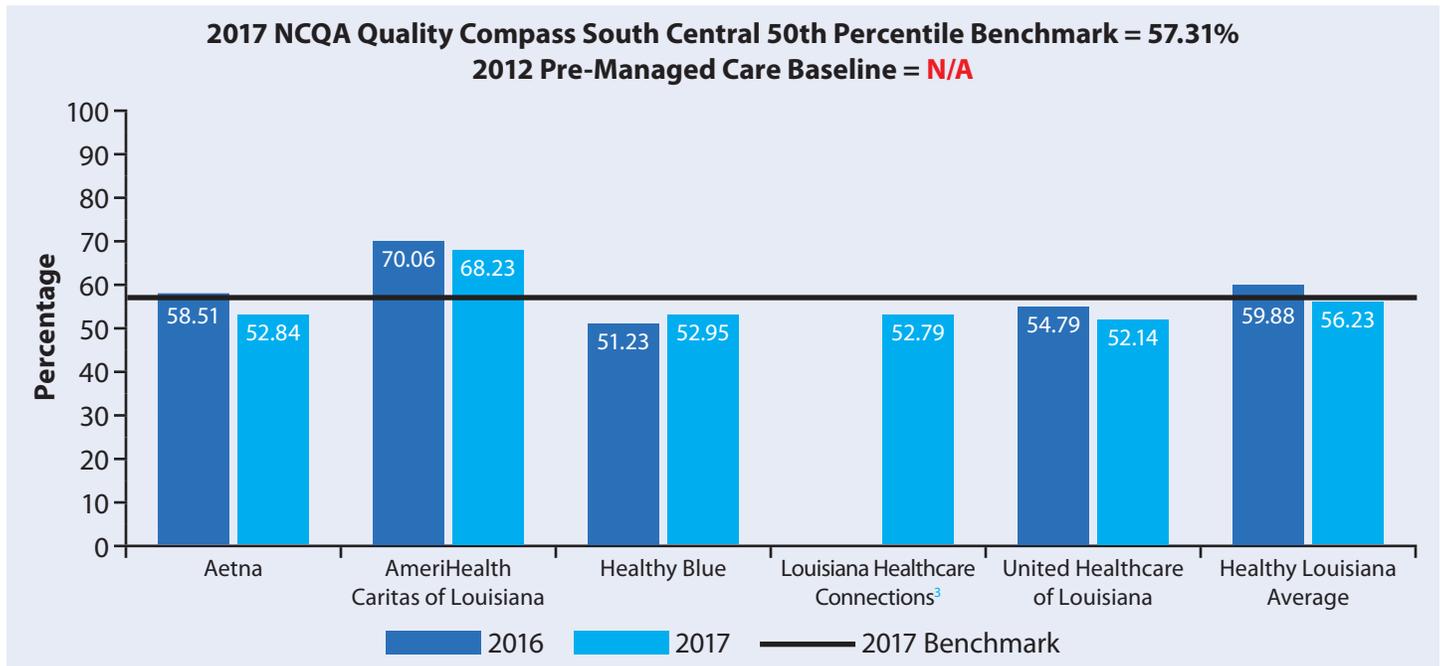

The data presented in the following charts were reported to the **External Quality Review Organization (EQRO)** by the MCOs. The 2012 Baselines (2011 measurement year) only exist for those measures that were reported at that time. Aetna was a newly added plan in February 2015 and was unable to report some data because they had small denominators and/or did not have enough data to meet continuous enrollment for 2015 and 2016 for some measures. Louisiana Healthcare Connections (LHC) acquired Community Health Solutions (CHS) during 2014, and therefore there is no data from CHS from 2015 and 2016 for some measures

¹ National Committee for Quality Assurance, 2017 State of Health Care Quality, HMO Medicaid. Retrieved from <http://www.ncqa.org/report-cards/health-plans/state-of-health-care-quality/2017-table-of-contents>.

² National Quality Measures Clearinghouse, National Committee for Quality Assurance (2017), HEDIS® 2017: Healthcare Effectiveness Data and Information. Retrieved from <http://www.qualitymeasures.ahrq.gov>.

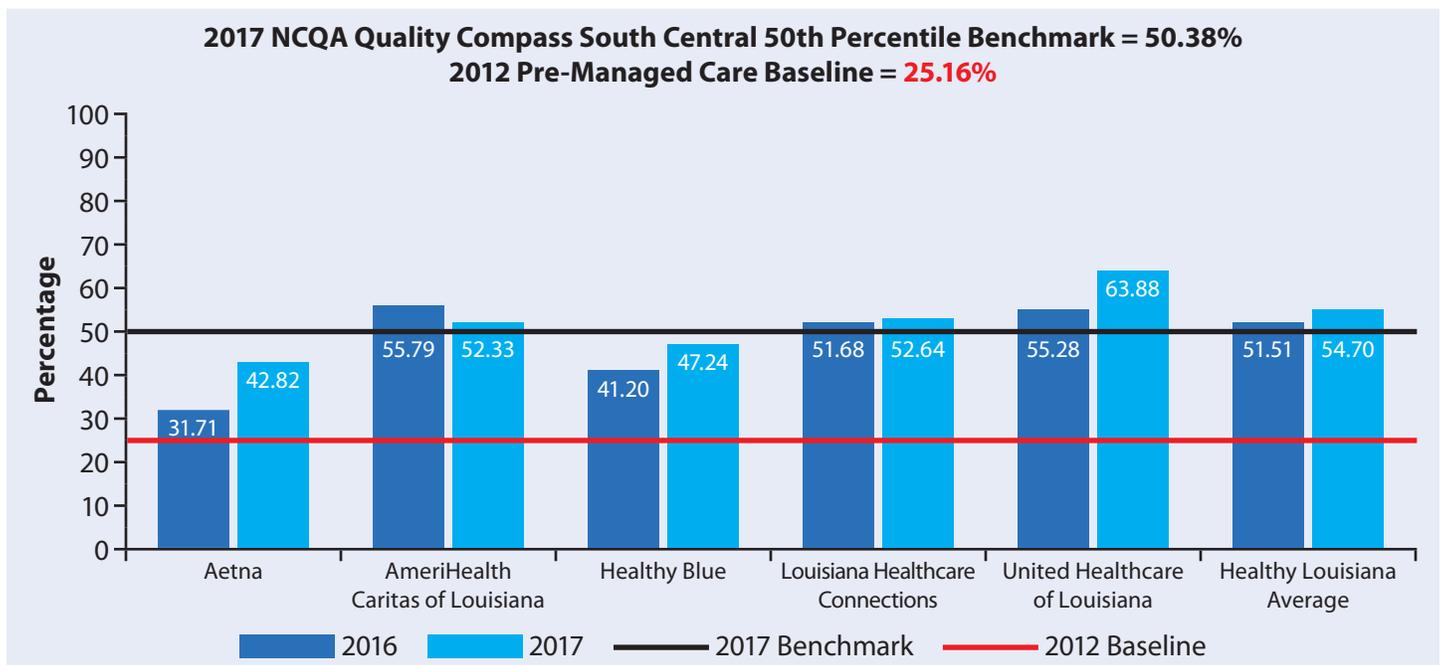

Adherence to Antipsychotic Medications for Individuals with Schizophrenia

This measure calculates the percentage of members 19–64 years of age during the measurement year with schizophrenia who were dispensed and remained on an antipsychotic medication for at least 80 percent of the treatment period. The chart illustrates antipsychotic adherence rates for reporting years 2016 and 2017. This measure was added in 2015 and therefore has no fee-for-service baseline.

Adolescent Well-Care Visits

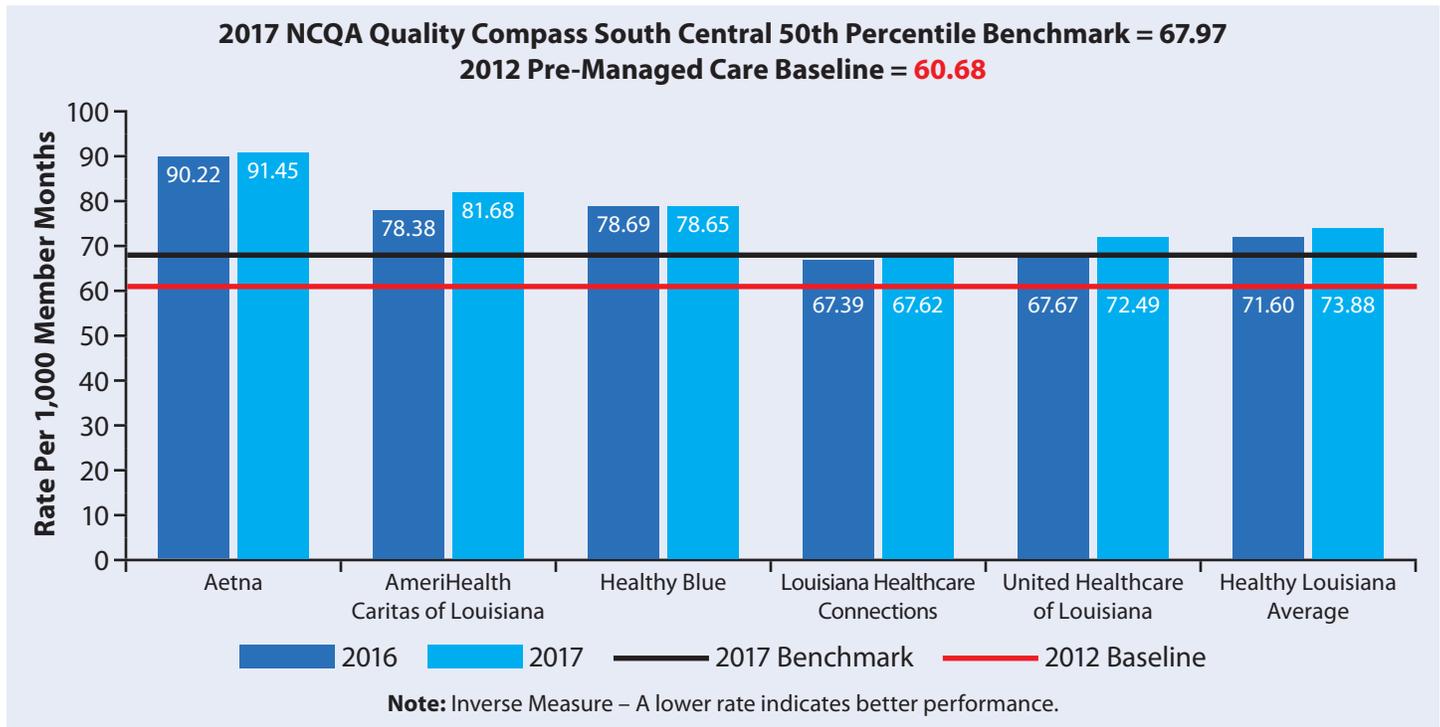

This measure is the percentage of enrolled members 12–21 years of age who had at least one comprehensive well-care visit with a PCP or an OB/GYN practitioner during the measurement year. It is important for adolescents to visit a PCP or OB/GYN to assess any physical, emotional or social adolescent problems. The chart illustrates the percentage of children who received adolescent well-child visits for reporting years 2016 and 2017.

³ This is a newly reported measure for 2015. Louisiana Healthcare Connections did not report data to the EQRO for 2016.

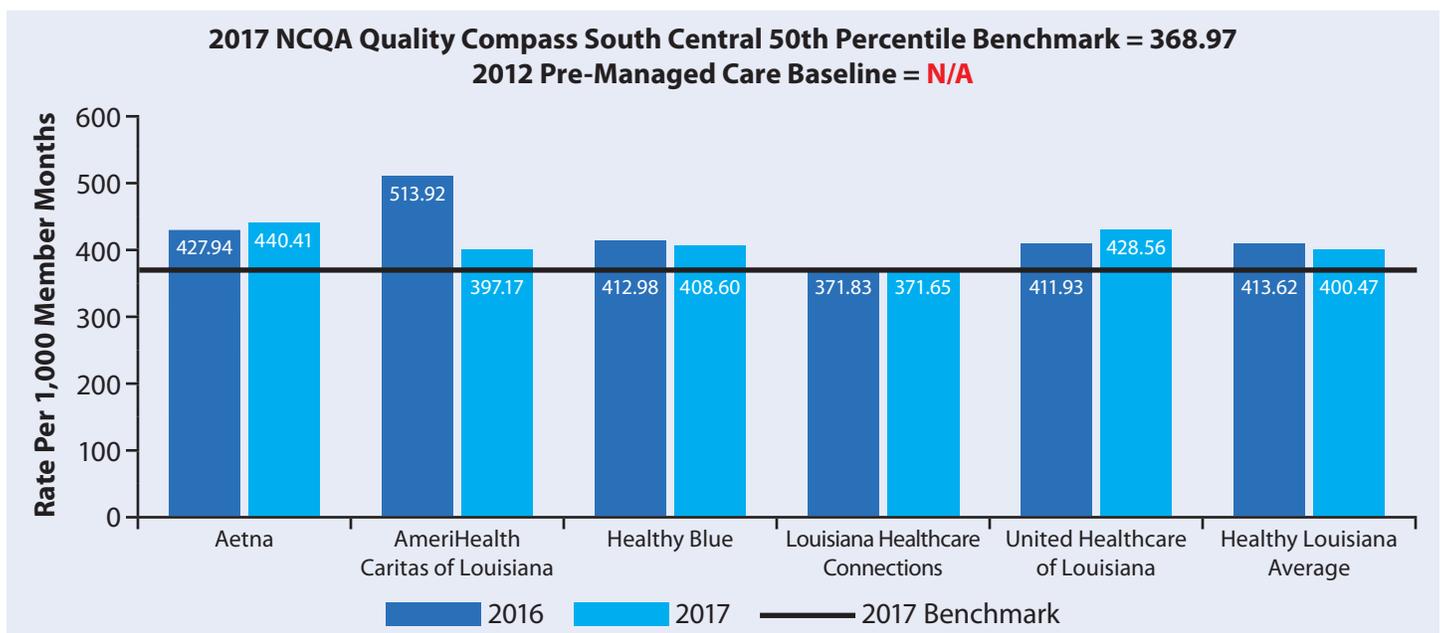

Ambulatory Care – ED Visits/1,000 Member Months

This measure reports the number of emergency department visits per 1,000 member months. Since this is an inverse measure, a lower rate indicates better performance. The utilization of ED visits for non-emergent care significantly increases costs. It is important to assess utilization and promote primary care and outpatient visits for non-emergencies. The chart illustrates rates of ambulatory ED visits per 1,000 member months.

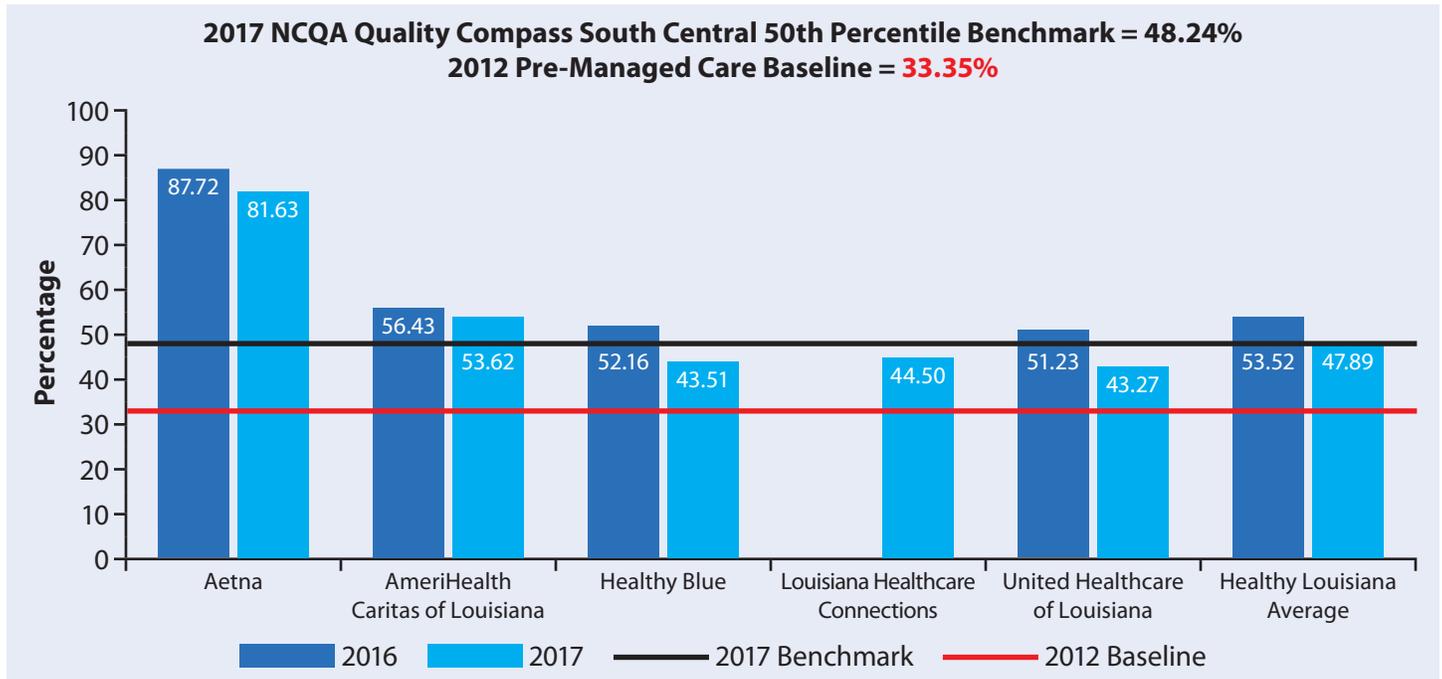

Ambulatory Care (AMB) – Outpatient Visits/1,000 Member Months

This measure assesses the utilization of ambulatory care outpatient visits for 1,000 member months. The utilization of outpatient office visits and routine visits to the hospital outpatient departments is important in terms of service, preventative care and disease management. The chart illustrates rates of ambulatory outpatient visits per 1,000 member months.

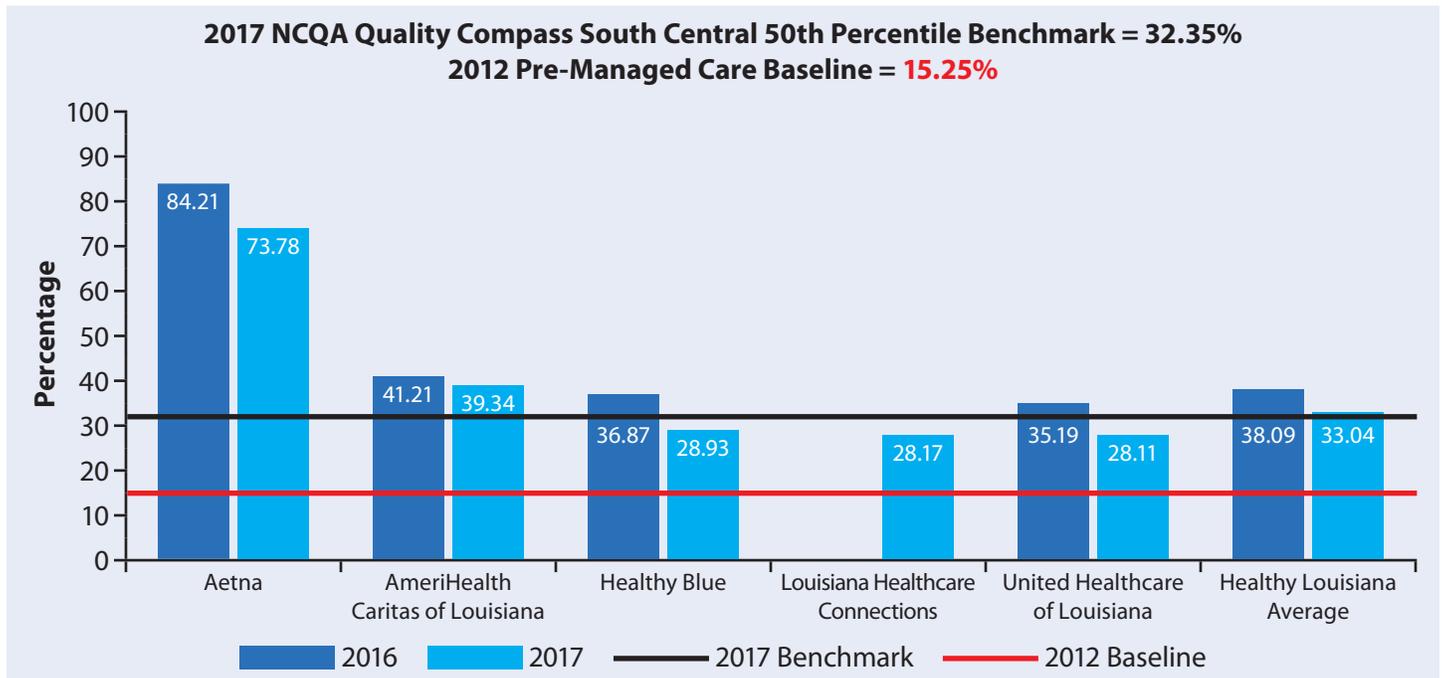

Antidepressant Medication Management (84 Days)

This measure assesses the percentage of members aged 18 and older who were treated with antidepressant medication, had a diagnosis of major depression and who remained on an antidepressant medication for at least 84 days. The chart illustrates antidepressant medication management rates of the acute phase for reporting years 2016 and 2017.

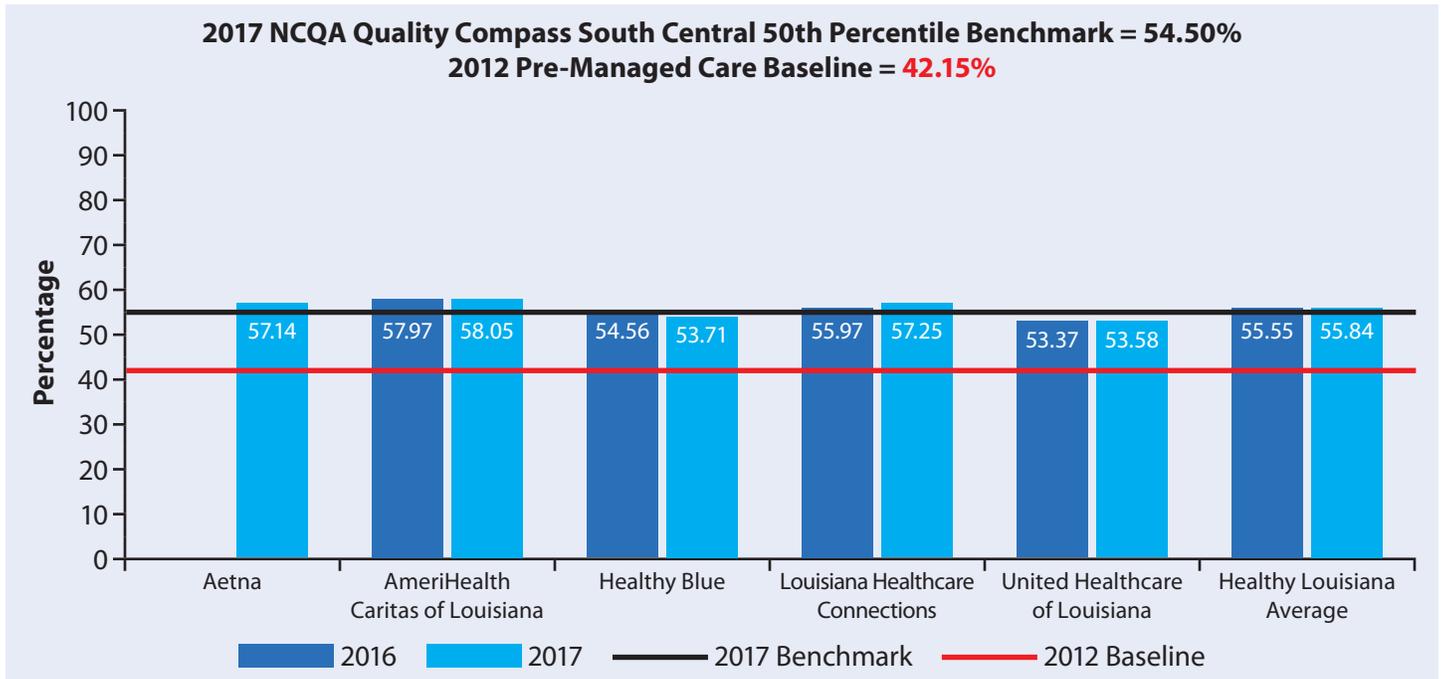

Antidepressant Medication Management (180 Days)

This measure assesses the percentage of members aged 18 and older who were treated with antidepressant medication, had a diagnosis of major depression and who remained on an antidepressant medication for at least 180 days. The chart illustrates antidepressant medication management rates of the continuation phase for reporting years 2016 and 2017.

Breast Cancer Screening

This measure looks at the percentage of women 50–74 years of age who had a mammogram to screen for breast cancer. Regular screening can greatly improve the outcomes for women with breast cancer and lead to a greater range of treatment options and lower health care costs. The chart illustrates rates of breast cancer screenings for 2016 and 2017.

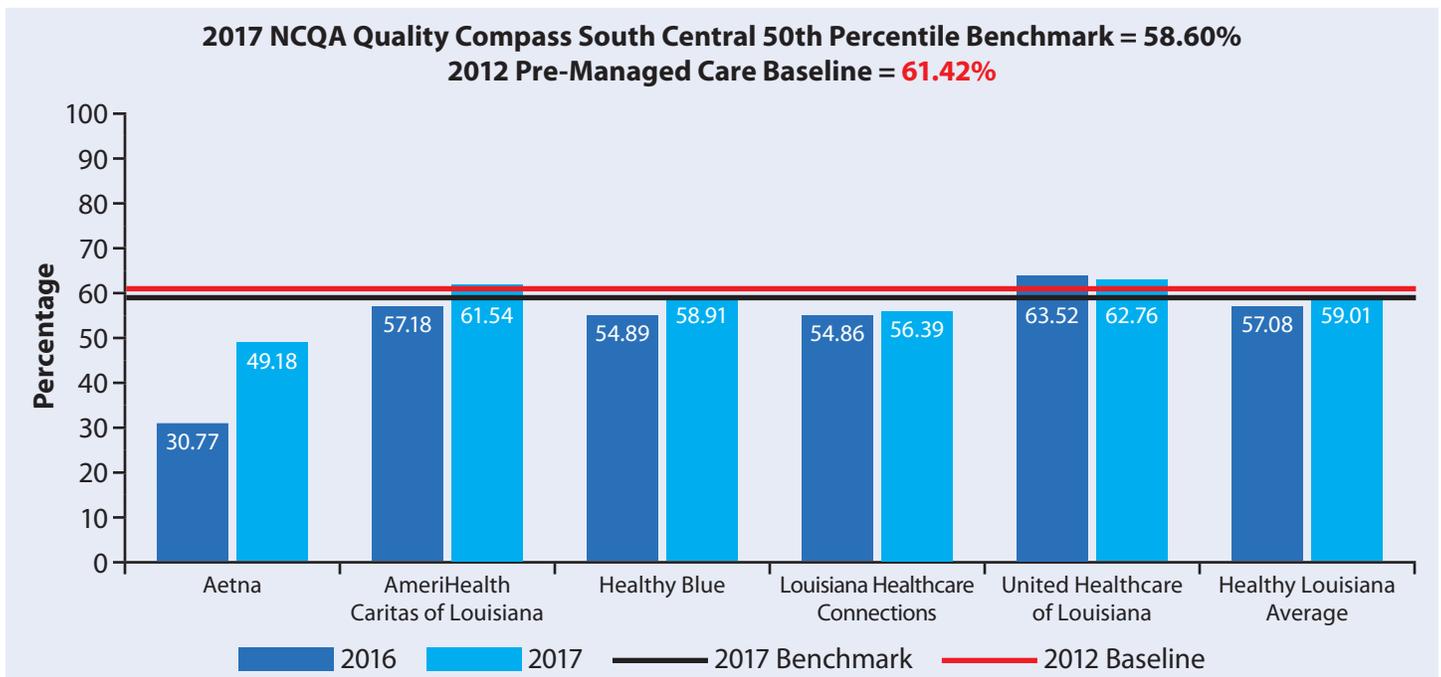

Cervical Cancer Screening

This measure looks at the percentage of women 21–64 years of age who were screened for cervical cancer:

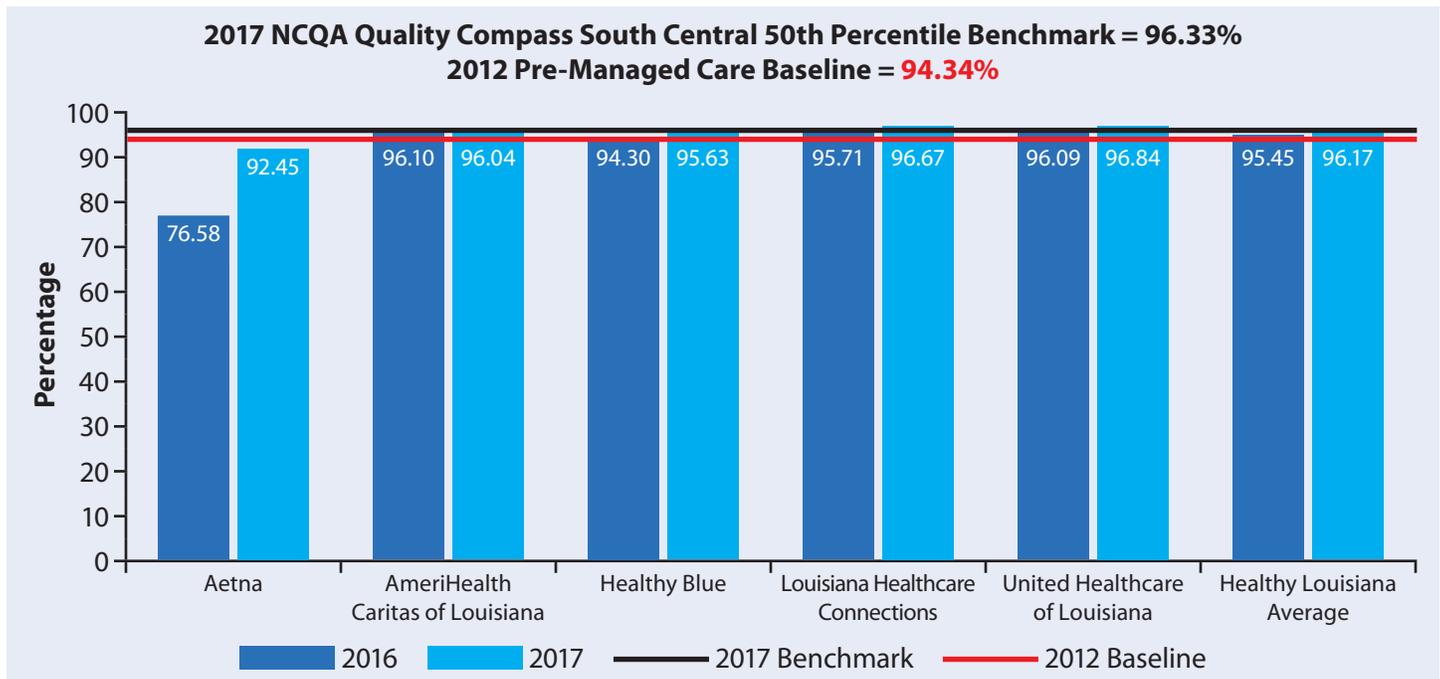

- Women 21–64 who had cervical cytology performed every three years
- Women 30–64 who had cervical cytology/HPV co-testing performed every five years

The chart illustrates rates of cervical cancer screenings for 2016 and 2017.

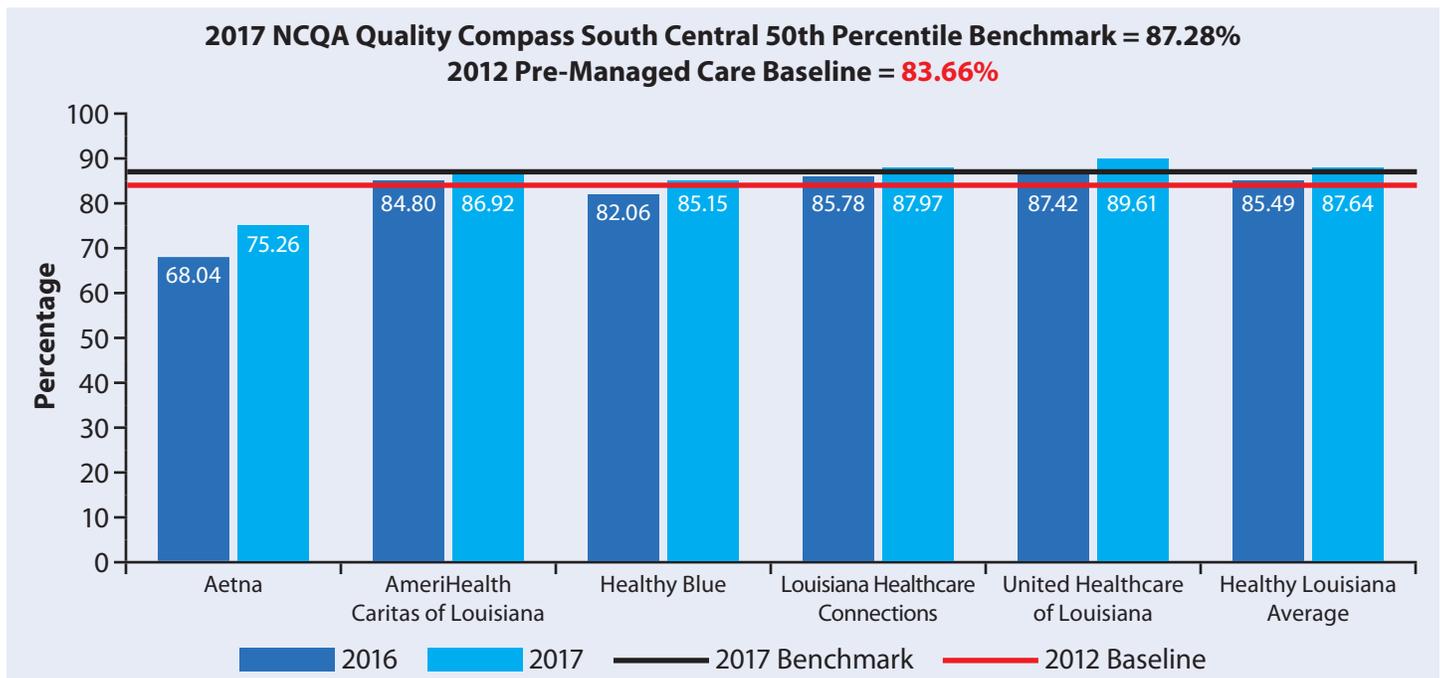

Child and Adolescents' Access to Primary Care Practitioners (12–24 Months)

This measure looks at the percentage of children aged 12–24 months who had a visit with a PCP during the measurement year. Patient visits allows members to receive counseling on various health care needs and maintains access to care. The chart illustrates child and adolescents' access to primary care practitioners 12–24 months.

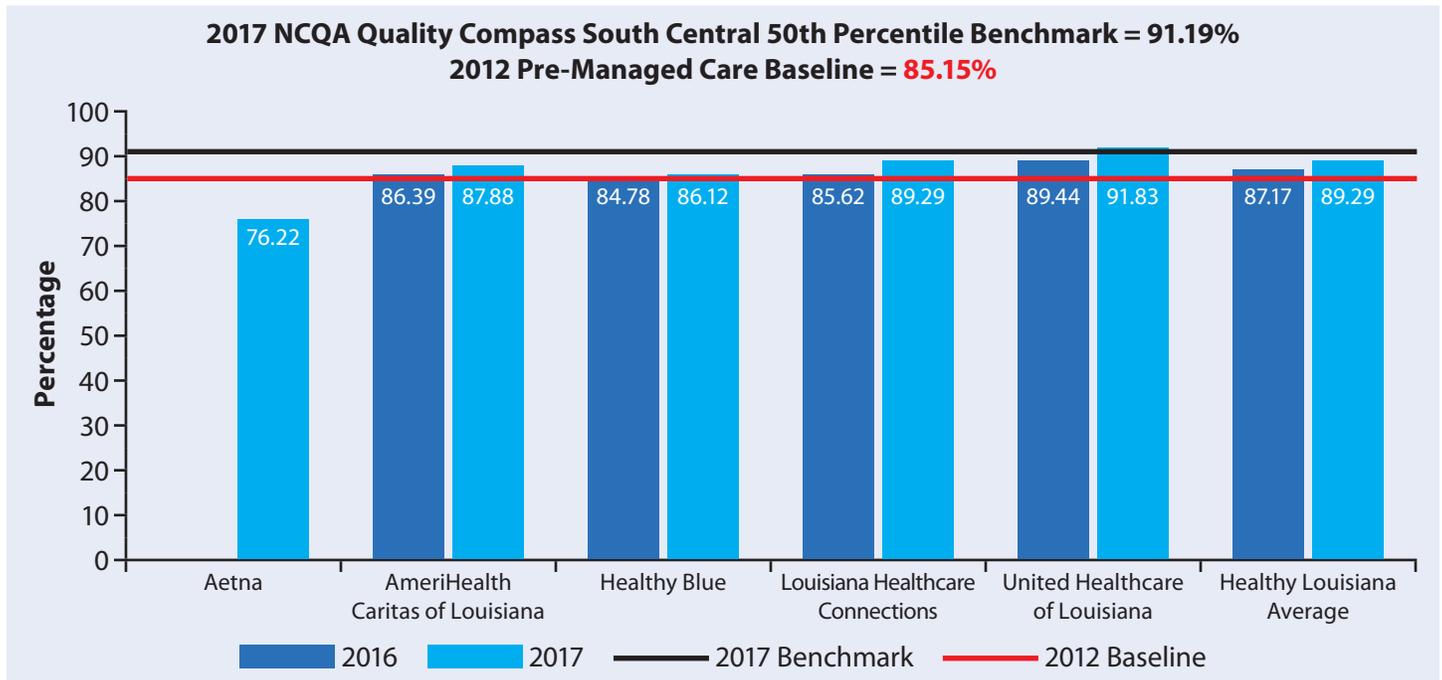

Child and Adolescents' Access to Primary Care Practitioners (25 Months–6 Years)

This measure examines the percentage of children aged 25 months–6 years who had a visit with a PCP during the measurement year. Patient visits allows members to receive counseling on various health care needs and maintains access to care. The chart illustrates child and adolescents' access to primary care practitioners 25 months–6 years.

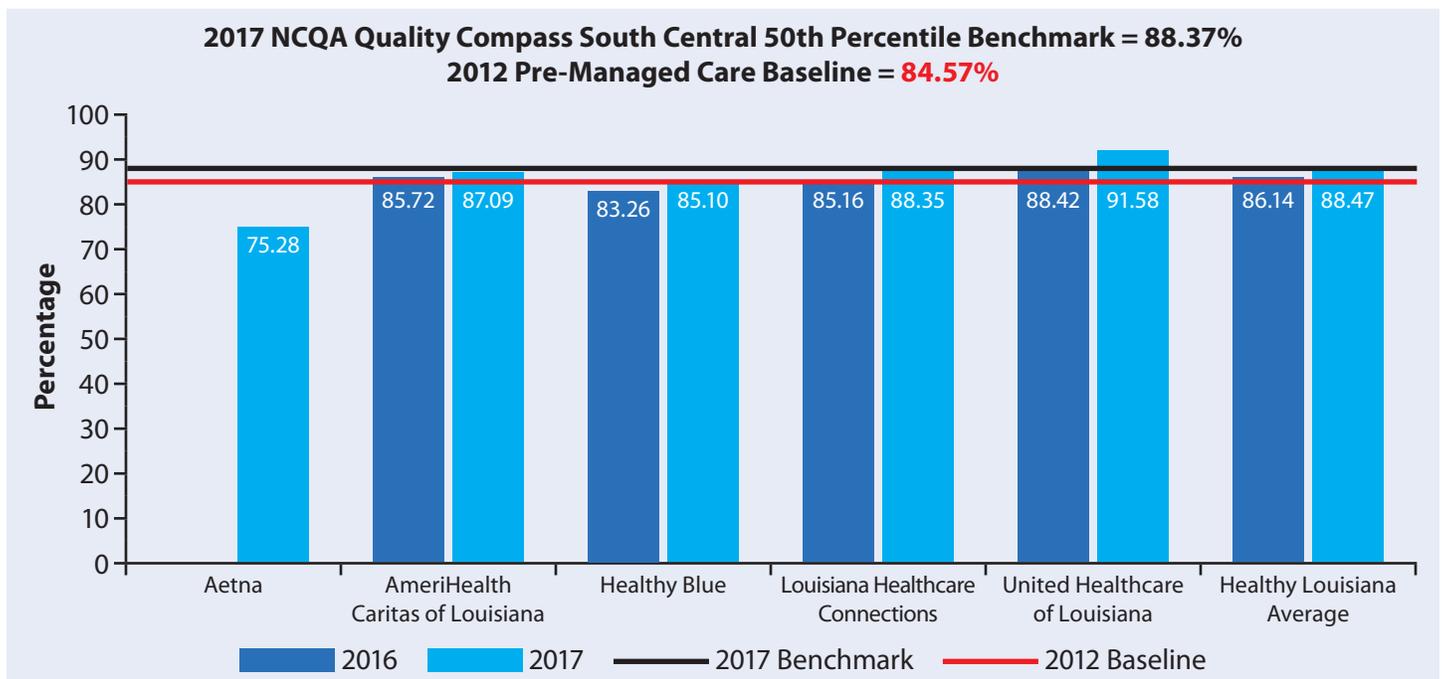

Child and Adolescents' Access to Primary Care Practitioners (7–11 Years)

This measure examines the percentage of children aged 7–11 years who had a visit with a PCP during the measurement year or the year prior to the measurement year. Patient visits allow members to receive counseling on various health care needs and maintains access to care. The chart illustrates child and adolescents' access to primary care practitioners 7–11 years of age.

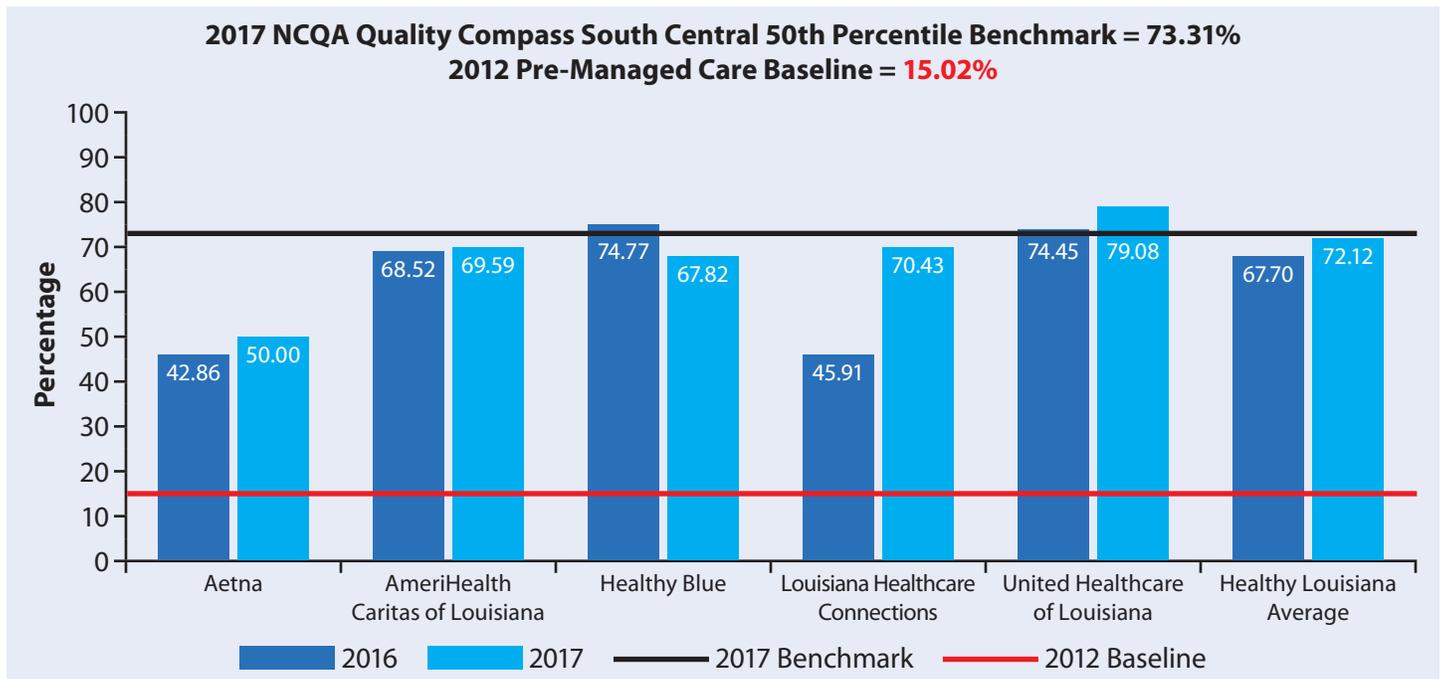

Child and Adolescents' Access to Primary Care Practitioners (12–19 Years)

This measure examines the percentage of adolescents aged 12–19 years who had a visit with a PCP during the measurement year or the year prior to the measurement year. Patient visits allows members to receive counseling various health care needs and maintains access to care. The chart illustrates child and adolescents' access to primary care practitioners 12–19 years of age.

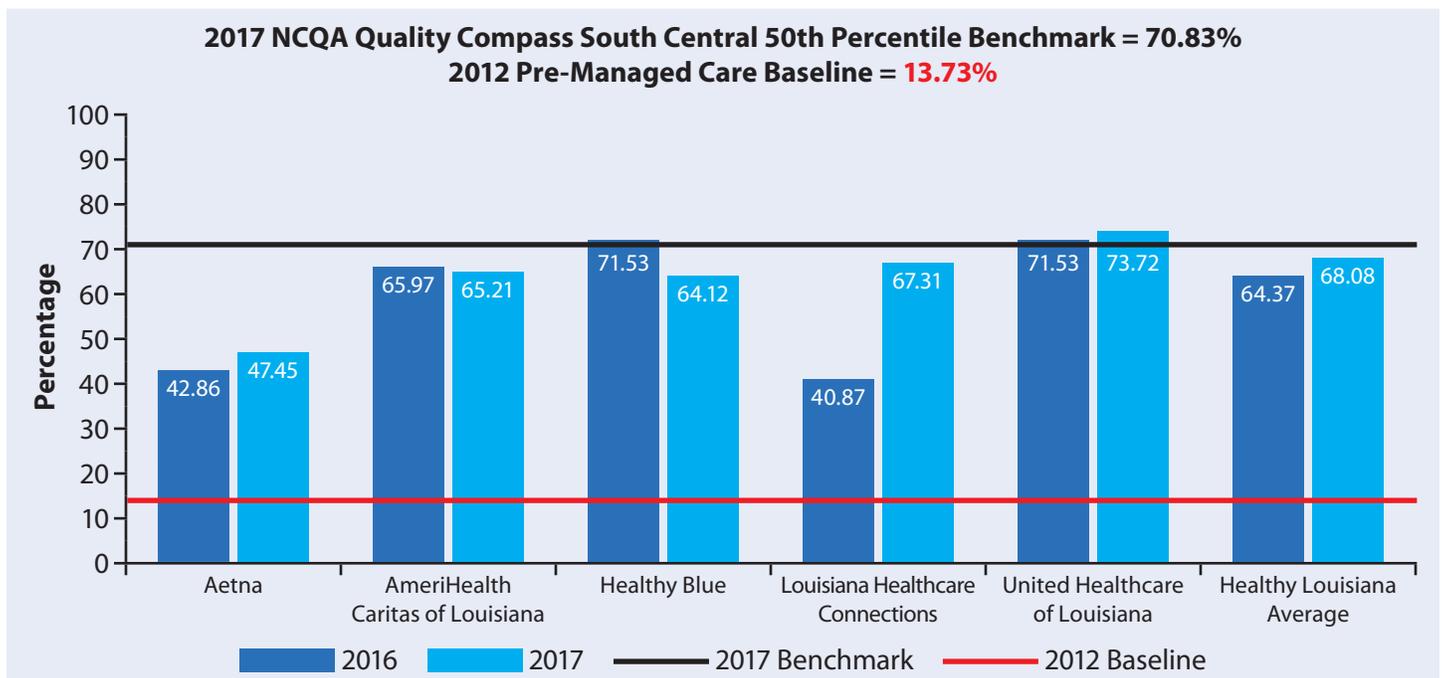

Childhood Immunization Status (Combo 2)

This measure looks at the percentage of children 2 years of age who had four diphtheria, tetanus and acellular pertussis (DTaP); three polio (IPV); one measles, mumps and rubella (MMR); three haemophilus influenza type B (HiB); three hepatitis B (HepB); and one chicken pox (VZV) vaccines by their second birthday.

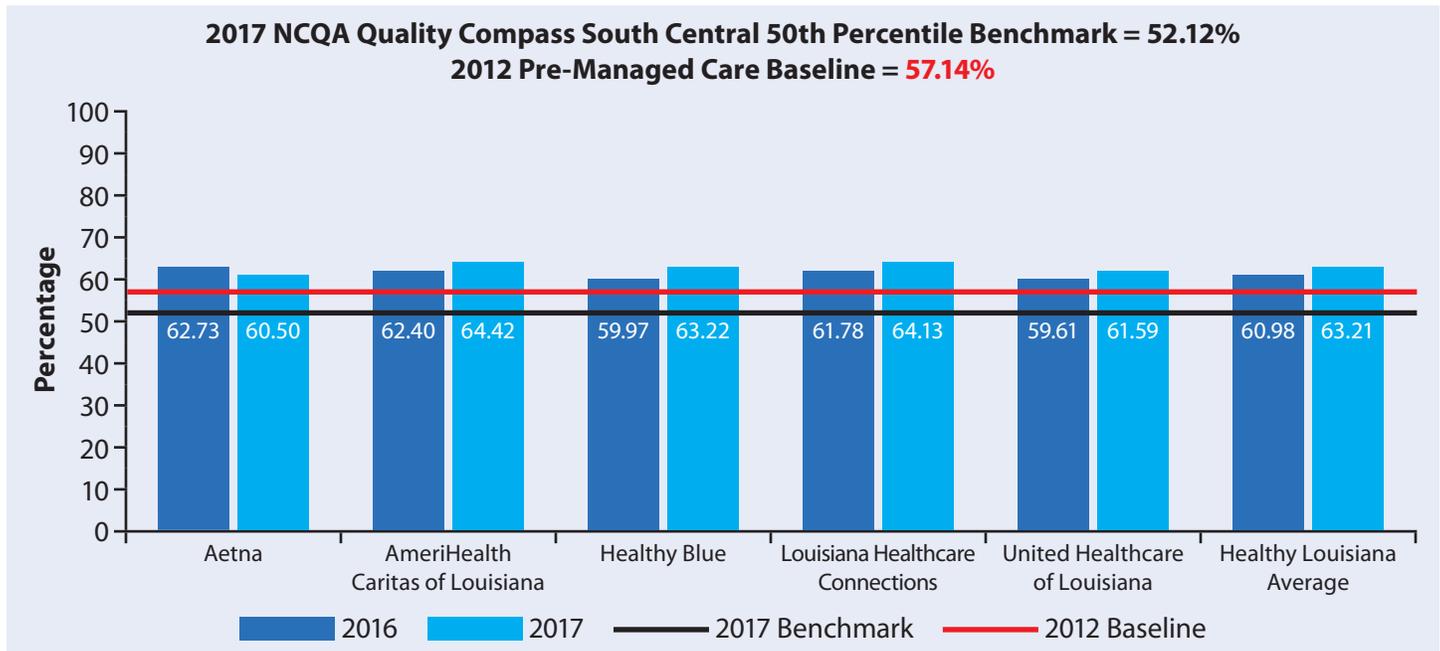

Childhood Immunization Status (Combo 3)

This measure assesses the percentage of children 2 years of age who had four diphtheria, tetanus and acellular pertussis (DTaP); three polio (IPV); one measles, mumps and rubella (MMR); three haemophilus influenza type B (HiB); three hepatitis B (HepB), one chicken pox (VZV); and four pneumococcal conjugate (PCV) vaccines by their second birthday.

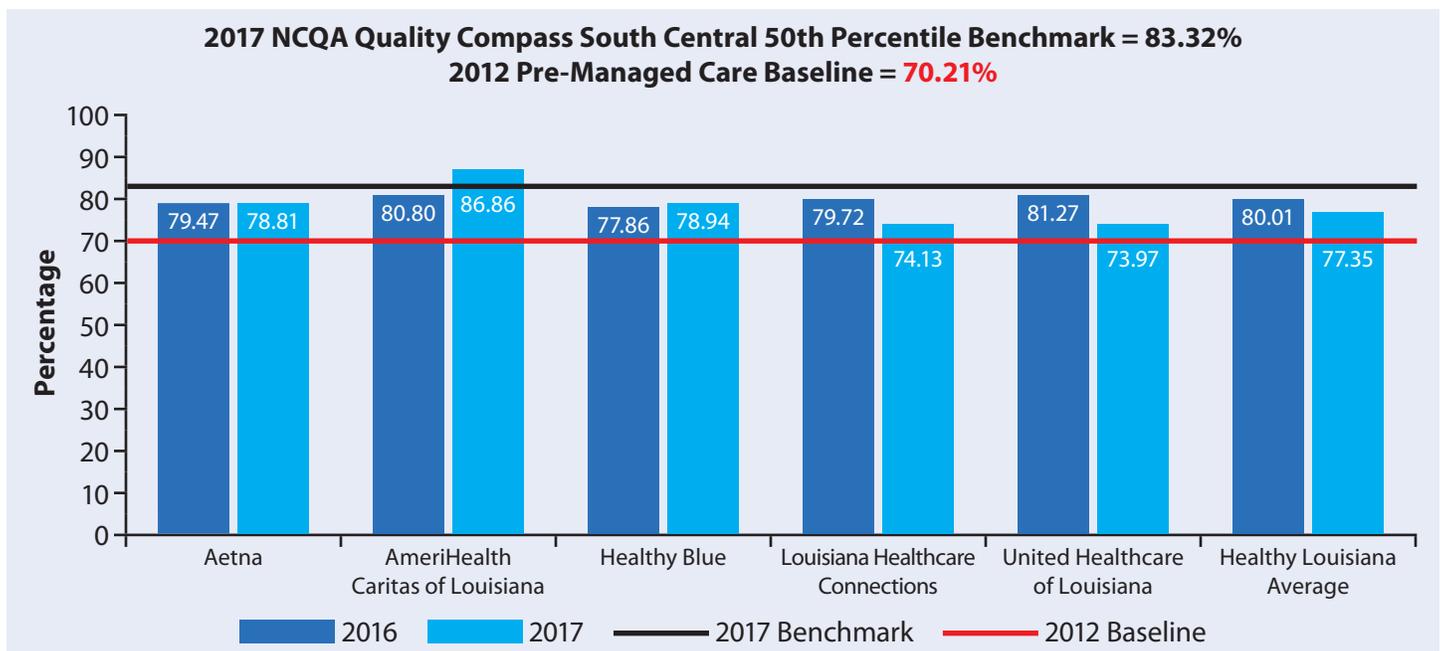

Chlamydia Screening in Women

This measure examines the percentage of women 16–24 years of age who were identified as sexually active and who had at least one test for chlamydia during the measurement year. It is important for women to be screened for chlamydia to prevent adverse medical conditions such as pelvic inflammatory disease, infertility and ectopic pregnancy. The chart illustrates rates of chlamydia screening for 2016 and 2017.

Comprehensive Diabetes Care – HbA1c Testing

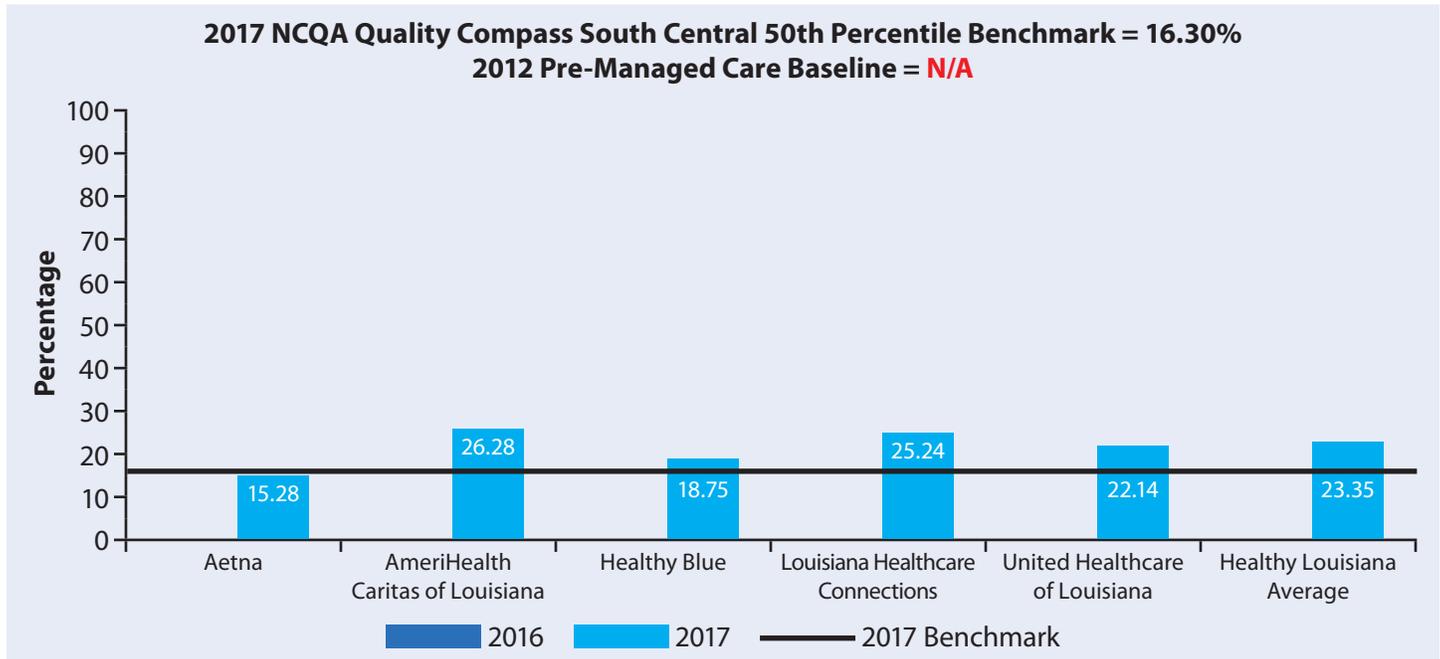

This measure looks at the percentage of members 18–75 years of age with diabetes (type 1 and type 2) who received an HbA1c test during the measurement year. “Diabetes is one of the most costly and highly prevalent chronic diseases in the United States. Many complications can be prevented if detected and addressed in the early stages.”⁴ The chart illustrates the percentage of comprehensive diabetes care HbA1c testing for 2016 and 2017.

⁴ Agency for Healthcare Research and Quality, National Quality Measures Clearinghouse, National Committee for Quality Assurance (HEDIS 2017). Retrieved from https://www.qualitymeasures.ahrq.gov/search?f_DocType=302&fLockTerm=Measure Summaries.

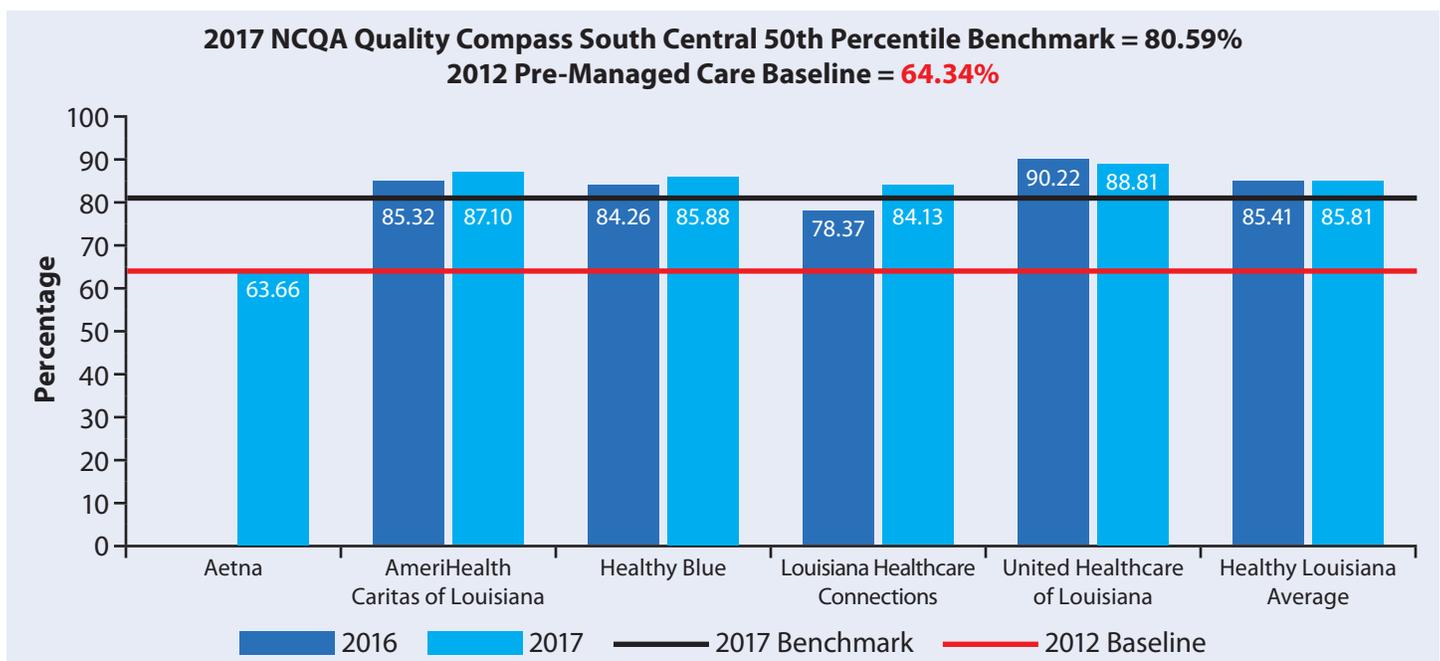

Immunization Status for Adolescents (HPV)

This measure reports the percentage of adolescents who turned 13 during the measurement year and received at least two doses of the human papillomavirus (HPV) vaccine by their 13th birthday. This vaccination has the potential to reduce the number of adolescents diagnosed with HPV infections. HPV was added to the Immunization Status for Adolescents measure in 2017 and is not comparable to previous rates from the Human Papillomavirus Vaccine for Female Adolescents measure. The chart illustrates rates of HPV vaccination in adolescents for 2017.

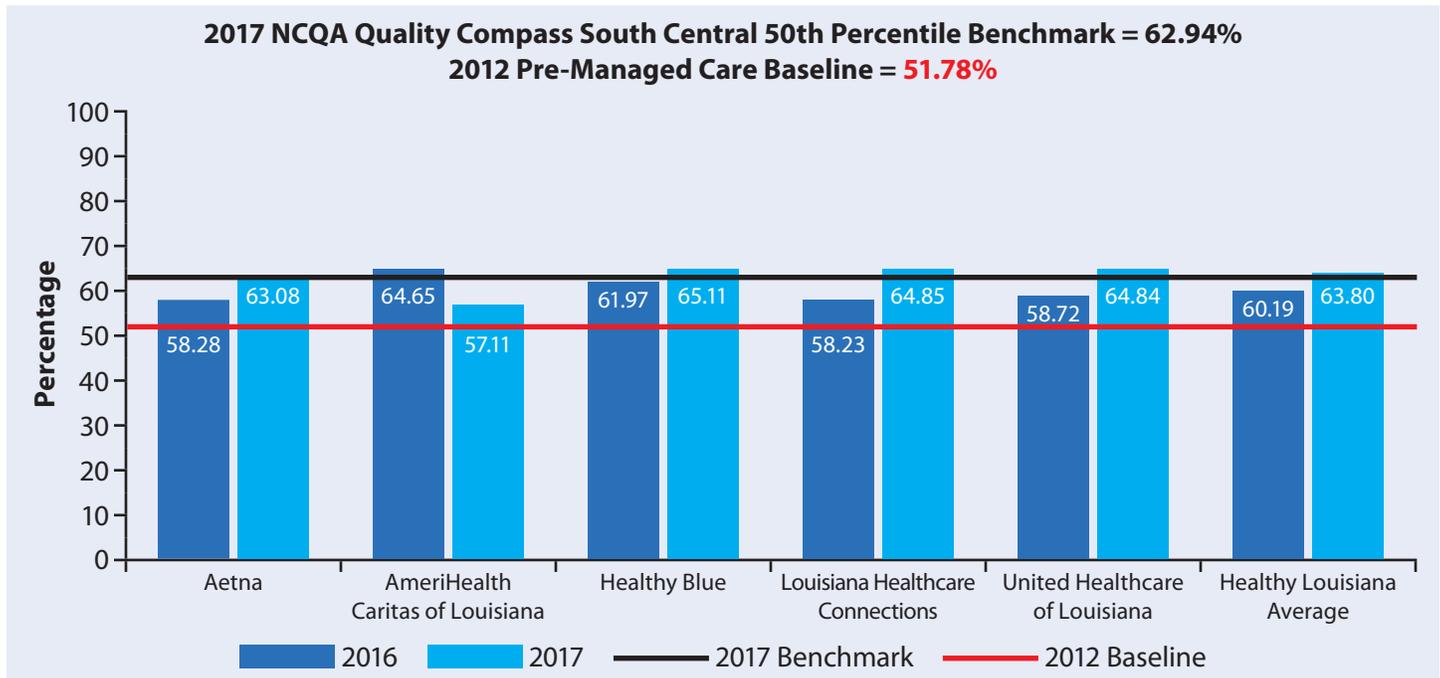

Immunization Status for Adolescents (Combo 1)

This measure assesses the percentage of adolescents who turned 13 during the measurement year and who received one dose of meningococcal conjugate vaccine and one tetanus, diphtheria toxoids and acellular pertussis (Tdap) vaccine or one tetanus, diphtheria toxoids vaccine (Td) by their 13th birthday. The immunizations help protect children from potentially serious childhood illnesses. The chart illustrates rates of immunizations status for adolescents for reporting years 2016 and 2017.

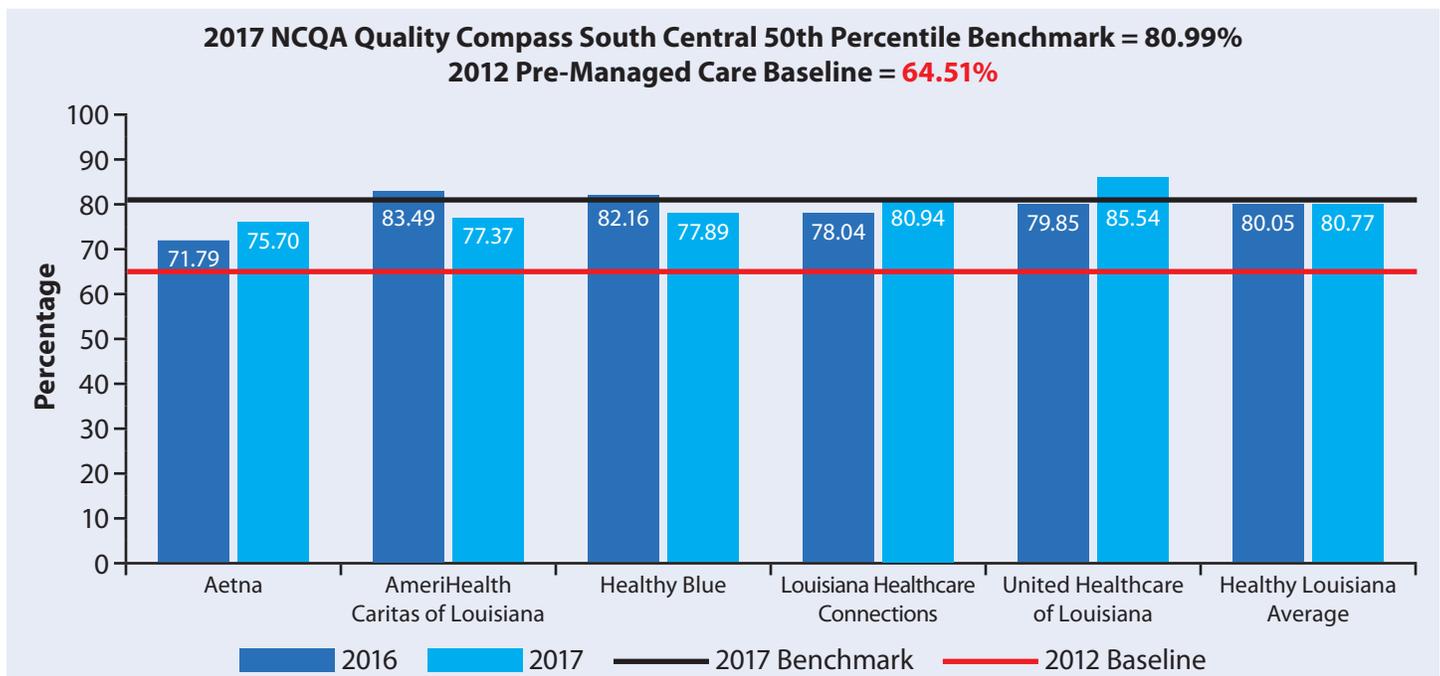

Postpartum Care

The measure is used to assess the percentage of deliveries between November 6 of the year prior to the measurement year and November 5 of the measurement year that had a postpartum visit on or between 21 and 56 days after delivery. It is important that women have a postpartum visit to receive a physical examination, family guidance and counseling. The chart illustrates rates of postpartum care for 2016 and 2017.

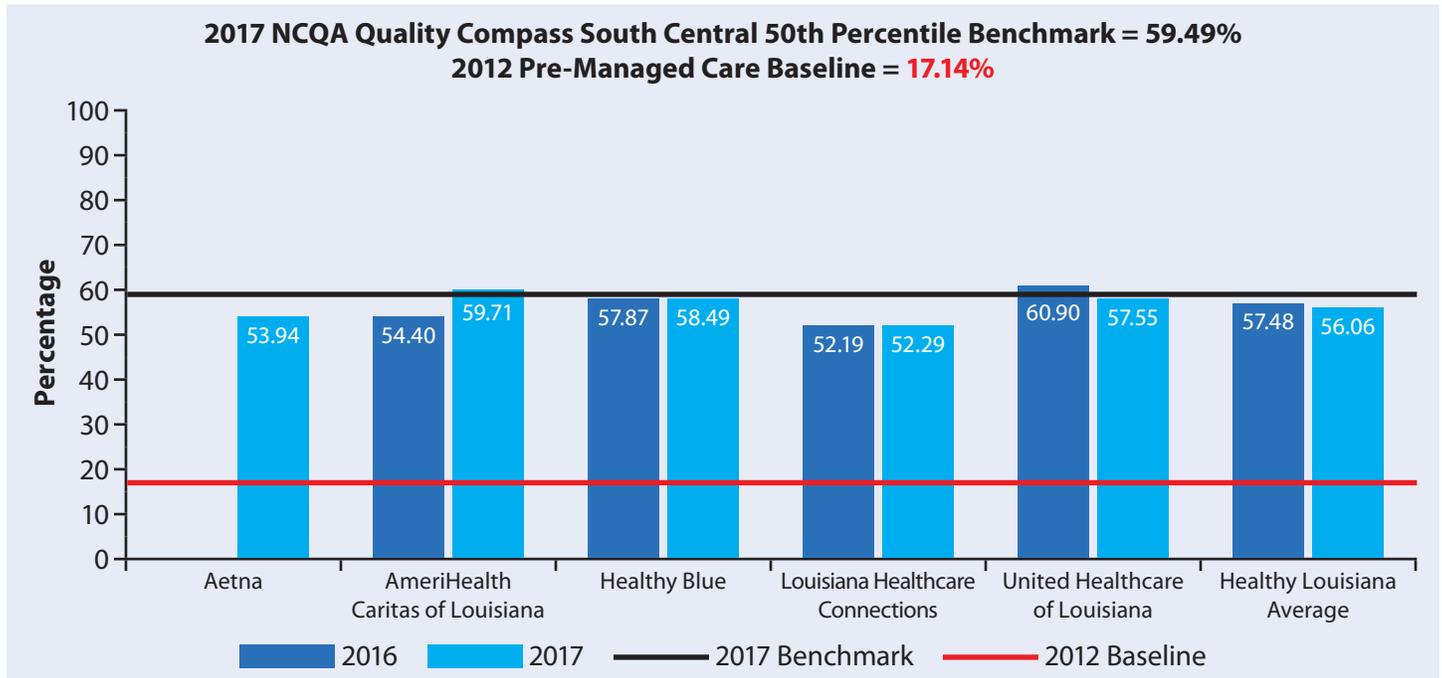

Timeliness of Prenatal Care

This measure examines the percentage of deliveries of live births that occurred between November 6 of the year prior to the measurement year and November 5 of the measurement year and received prenatal care in a timely manner. Timeliness of prenatal care is defined as either during the first trimester, if enrolled during that timeframe, or within 42 days of enrollment. The chart illustrates rates of timeliness of prenatal care for 2016 and 2017.

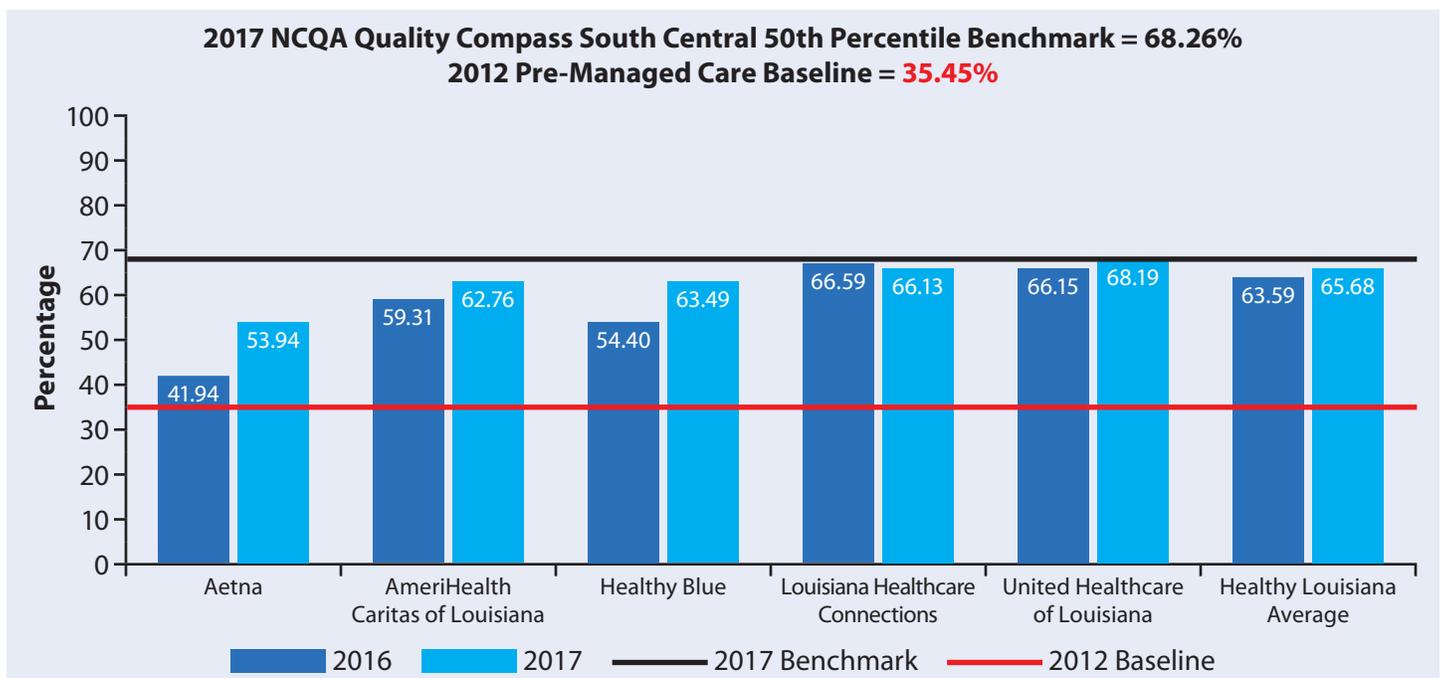

Well-Child Visits in the First 15 Months of Life (6 or More Visits)

The measure assesses the percentage of members who turned 15 months old during the measurement year and who had the following number of well-child visits with a PCP during their first 15 months of life. The first year of life is particularly crucial for monitoring a child’s development. These visits to the PCP helps detect physical, developmental and behavioral problems and provide or recommend treatment or guidance to parents. The chart illustrates the percentage of children who received six well-child visits in the first 15 months of life for 2016 and 2017.

Well-Child Visits in the Third, Fourth, Fifth, and Sixth Years of Life

This measure is the percentage of members 3–6 years of age who had one or more well-child visits with a PCP during the measurement year. These visits provide preventive medical care and help the PCP detect vision, speech and language problems and provide or recommend the needed therapy or intervention program. The chart illustrates rates of children in Louisiana Medicaid between the ages of 3–6 with a well-child visit for 2016 and 2017.

TECHNICAL NOTES

State Fiscal Year and Federal Fiscal Year

Louisiana's **State Fiscal Year (SFY)** runs from July 1 through June 30 of the following calendar year. The **Federal Fiscal Year (FFY)** begins October 1 and ends September 30 of the following calendar year. The information presented in this report is based on a SFY basis unless otherwise noted.

Expenditures versus Payments

The data in this report comes from two primary sources. The first source is from the **Integrated Statewide Information System (ISIS)**, which is the accounting system of record for the state of Louisiana. ISIS reports the program dollar amounts after all claims and financial adjustments have been made. Financial adjustments are amounts often paid in lump-sum that are not necessarily attributable to any specific individual. These financial adjustments could include transactions related to cost settlements including supplemental and Upper Payment Limit payments, **Uncompensated Care Costs (UCC)**, pharmacy rebates received from pharmaceutical manufacturers and the amounts paid to **Centers for Medicare and Medicaid Services (CMS)** for Medicare Buy-ins and Part D. ISIS does not capture recipient and provider-specific information.

To capture detailed recipient and provider related information, the **Medicaid Management Information System (MMIS)** and **Medicare Modernization Act (MMA)** Response File from CMS is used. MMIS has a claims reporting system, known as the **Management Administrative Reporting Subsystem (MARS)** Data Warehouse, which is managed by the Medicaid program **Fiscal Intermediary (FI)**. Recipient and provider-specific information is drawn from data extracted from **MARS Data Warehouse (MDW)** and is specifically derived for this annual report according to the criteria specified in this technical note. The MMA Response File contains payments made on behalf of recipients for a Medicare Buy-in and/or Part D/Clawback premium.

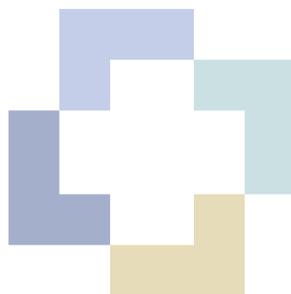

Due to the differences noted above, dollar amounts drawn from the two data sources may not match exactly. To differentiate between the amounts obtained from different sources in this report, we define the term "**Expenditures**" as fiscal information derived from ISIS and "**Payments**" as information drawn from the other data sources.

The amounts listed in the tables are rounded up and may not add up to the totals presented.

Enrollee, Recipient and Payment Counts

Enrollee and recipient counts are referenced throughout this report. Enrollee refers to an individual who was enrolled in Medicaid during the SFY. Recipient refers to an individual for whom Medicaid made a payment during the SFY. Due to a lag in claims processing, retroactive enrollment and other issues, it is possible to have payments made for recipients who were not enrollees during the SFY.

To have a complete perspective of enrollees, recipients and payments, all Medicare Buy-ins and Part D duals data is included in enrollee and recipient counts and payment amounts in reports from SFY 2007/08 forward.

YEAR IN REVIEW

Expenditures

During State Fiscal Year (SFY) 2016/17, Louisiana Medicaid’s programmatic expenditures totaled \$10.6 billion. This is the amount of total program expenditures recorded in the state’s accounting system (ISIS) and does not include administrative expenditures. Compared to SFY 2015/16, programmatic expenditures increased by \$2.3 billion (2.8 percent). For a further breakdown of expenditures please see [Tables 1–4](#).

Medicaid expenditures are grouped into two types, **Medical Vendor Payments (MVP)** and **Medical Vendor Administration (MVA)**. The means of finance for MVP expenditures is presented in [Table 1](#). For this report, unless otherwise stated, Medicaid numbers include Medicaid Title XIX and LaCHIP Title XXI. The effective overall state match rate was approximately 30.11 percent while federal match rate was approximately 69.89 percent for SFY 2016/17. The actual state share of Medicaid expenditures varies based on qualified expenditures, and ranges from 100 percent federal funds for items such as **Health Information Technology (HIT) Electronic Health Records** incentive payments, to 100 percent state funds for Clawback (Medicare Part D) payments.

SFY 2016/17 Medicaid MVP \$10.6 billion expenditures by program appropriation are presented in [Table 2](#). [Table 3](#) presents the means of finance for the MVA expenditures for SFY 2016/17. During SFY 2016/17, total Medicaid MVP expenditures were approximately \$10.6 billion for health care services delivery. This means that, taking both MVA and MVP into account, about 97 cents of every Medicaid dollar was payment for medical services.

Table 1: Medical Vendor Program Expenditures Means of Finance by State Fiscal Year

Financing Category	2014/15 Expenditures	Percent	2015/16 Expenditures	Percent	2016/17 Expenditures	Percent

Major Budget Categories

The **Appropriations Act** allocates Medicaid MVP funds into four broad budget programs:

A. Private Providers

Payments to non-state owned providers and facilities, including city and parish owned, and managed care organizations.

B. Public Providers

Payments to state providers and facilities, including certain local government entities and school boards.

C. Medicare Buy-Ins & Supplements

Payments to the Centers for Medicare and Medicaid Services (CMS) on behalf of dual eligibles for Part A, Part B and Part D (Clawback), and for **Electronic Health Record (EHR)** incentive payments paid to providers that participate in the EHR technology program.

D. Uncompensated Care Costs (UCC)

Payments toward compensation for care given in qualifying hospitals to uninsured individuals and those eligible for Medicaid with Medicaid reimbursement lower than the cost of service, and payments for GNOCHC waiver recipients.

Each of these budget appropriations are grouped into separate **Budget Categories of Service (BCOS)** and are presented in **Table 4** along with their respective expenditures. The individual BCOSes are described in more detail in **Appendix B** on page 118.

Table 4: Expenditures by Budget Category of Service

A – Private Providers		Expenditures
A_01	Ambulatory Surgical Clinics	\$1,857,987

Total Uncompensated Care Costs		\$1,038,048,350

GRAND TOTAL MEDICAL VENDOR PROGRAM \$10,636,119,498

Payments

During SFY 2016/17, over \$9.8 billion payments were made on behalf of 1.8 million Medicaid recipients, averaging about \$5,358 per recipient⁵, which is approximately 9 percent more than the previous SFY (Figure 1; Table AA1, which can be found on page 68 in Appendix A). The nominal data reflects the actual dollar amount paid as of the year reported. The real data reflects the dollar amount adjusted for inflation, with SFY 2011/12 as the base period. The real overall annual payment per recipient was approximately \$4,634 for SFY 2016/17, which is a 4.7 percent increase from SFY 2015/16, and a 5 percent increase compared to SFY 2011/12. For a detailed explanation of the differences between expenditures and payments, please see the technical notes on page 15.

Figure 1: Louisiana Medicaid Average Annual Payment Per Recipient

Average annual real cost per recipient is calculated based on Consumer Price Index (CPI). CPI source: Bureau of Labor Statistics (2016). Consumer Price Index – All Urban Consumers – U.S. Medical Care, Series ID: CUUR0000SAM. Retrieved from <http://data.bls.gov/cgi-bin/surveymost?cu>.

⁵ Simple average, not a weighted average.

Enrollees and Recipients

During SFY 2016/17, 1,790,956 people—about 38 percent of Louisiana’s population of 4,681,666—were enrolled in the Medicaid program and payments were made on behalf of 1,830,954 recipients (Figure 2; Table AA1, which can be found on page 68 in Appendix A). See the technical notes on page 15 for an explanation of how recipients may outnumber enrollees. The overall number of enrollees increased by 11.7 percent since the previous year, largely due to Medicaid expansion. Figure 3 shows the change in enrollment as a percentage of the population over time. Even though the overall number of enrollees increased by 11.7 percent from SFY 2015/16 to SFY 2016/17, the percentage of the population enrolled only increased by 4 percent.

Figure 2: Louisiana Medicaid Enrollees and Recipients

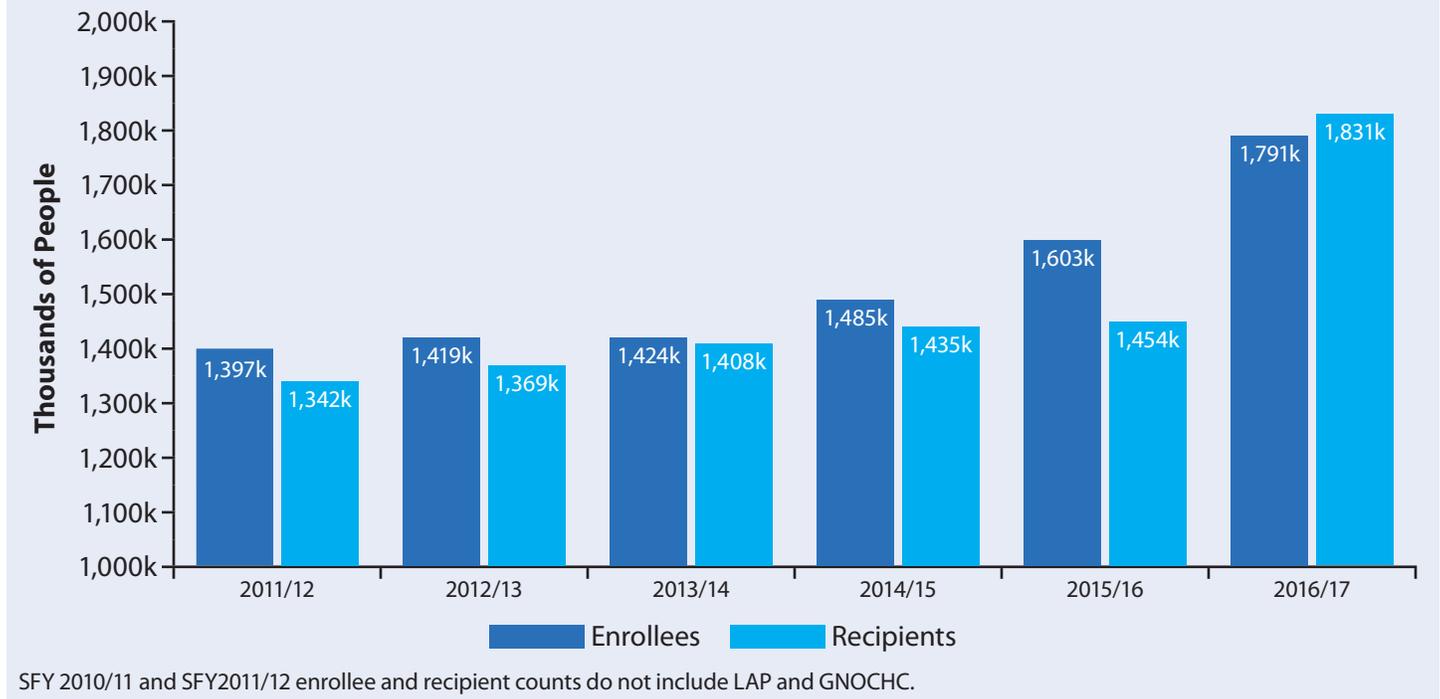

Figure 3: Enrollment Compared to Total Population

MEDICAID FINANCES

Means of Finance

Medicaid is a means-tested, open-ended entitlement public assistance program established in 1965 by Title XIX of the **Social Security Act**, often referred to as “**Title XIX**.” Since Medicaid is an entitlement program, the federal and state governments cannot limit the number of eligible people who meet the established criteria and enroll into the various eligibility categories in Medicaid.

The Medicaid program is funded through federal and state funds. The federal share is based on **Federal Medical Assistance Percentages (FMAP)**, which are updated each Federal Fiscal Year (FFY). State FMAPs normally range from 50 percent to 83 percent of program cost based on their latest available three year average **Per Capita Personal Income (PCPI)** in relation to the national PCPI. During SFY 2016/17, Louisiana’s regular blended FMAP was 62.26 percent. This means that federal funds are used to pay for 62 cents of every dollar spent on Medicaid programs. The regular FMAP is based on the FFY, so the blended FMAP is calculated to fit the State Fiscal Year by using three months of the previous FFY FMAP and nine months of the current FFY FMAP. The federal government also offers an enhanced FMAP for recipients in the **State Children’s Health Insurance Program (SCHIP)**. Louisiana’s SCHIP program, known as **LaCHIP**, had a blended enhanced FMAP of 96.59 percent (including a 3.41 percent increase) during SFY 2016/17.

Financial Factors

Medicaid enrollment numbers and corresponding expenditures are impacted by economic and demographic (age, gender, etc.) factors. Examining these factors can help determine enrollment and financial characteristics of the Medicaid population.

The percentage of a state’s population that is living in poverty, as defined by the **Federal Poverty Guidelines (FPG)**, influences the level of state population reliant on Medicaid program services. Based on an average of the Current Population Survey’s Calendar Year 2015 and 2016 data, 19.40 percent of the Louisiana population was considered living under 100 percent of the FPG, while 38.80 percent were living below 200 percent of the FPG (**Table 5**). These percentages compare to 13.10 percent and 30.75 percent respectively for the U.S. population, which categorizes Louisiana as a low income state. In comparison to the 2014/15 poverty averages, the percentage living in poverty has decreased.

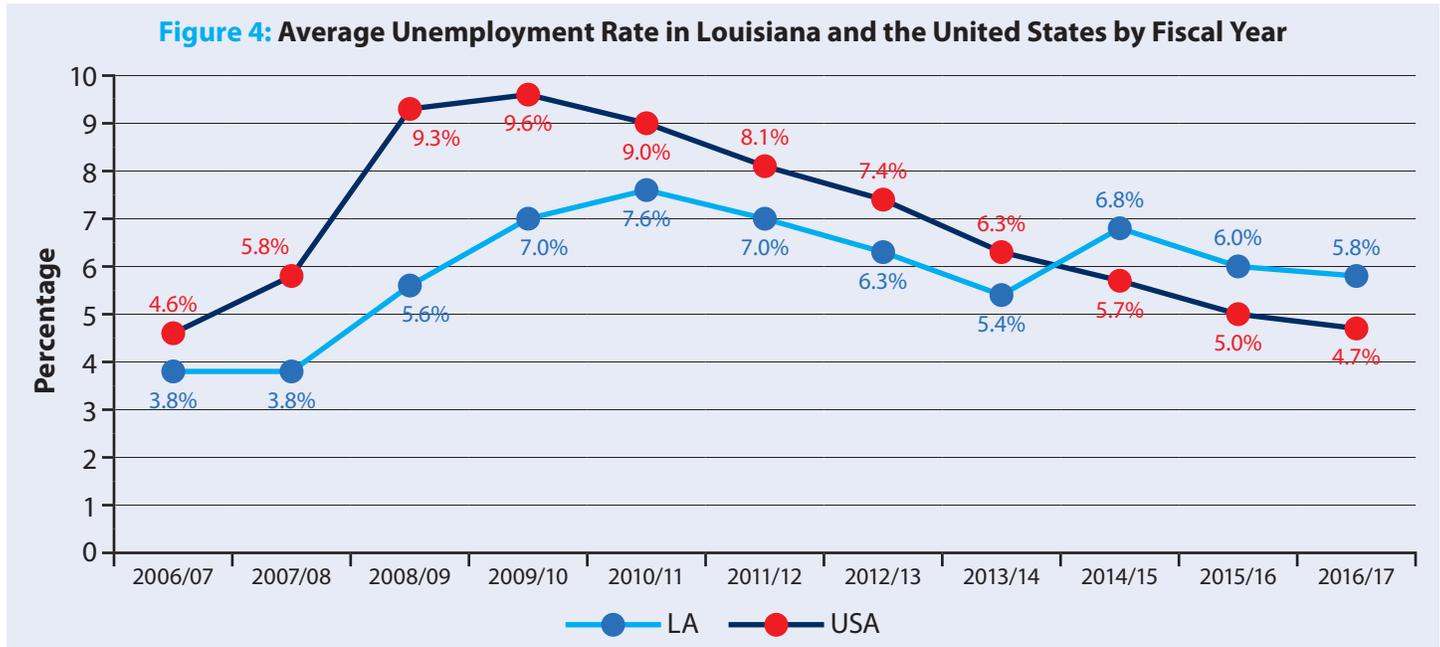

Table 5: Population Poverty Status for All Income Levels, Average of Calendar Years 2015 and 2016

Poverty Level	Louisiana	United States
≤ 100% of Poverty	19.40%	13.10%
101% to 125% of Poverty	5.55%	4.35%
126% to 138% of Poverty	3.05%	2.25%
139% to 150% of Poverty	2.10%	2.15%
151% to 185% of Poverty	6.40%	6.25%
186% to 200% of Poverty	2.30%	2.65%
Total ≤ 200% of Poverty	38.80%	30.75%
Remainder of Population	61.20%	69.25%

U.S. Census Bureau (2016). Current Population Survey: 2016 Annual Social and Economic Supplement, POV46 – Poverty Status by State: 2016. Retrieved from <http://www.census.gov/data/tables/time-series/demo/income-poverty/cps-pov/pov-46.html>.

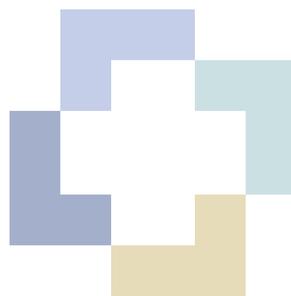

U.S. Census Bureau (2015). Current Population Survey, Annual Social and Economic Supplement, Income and Poverty in the United States: 2015. Retrieved from <http://www.census.gov/data/tables/time-series/demo/income-poverty/cps-pov/pov-46.html>.

In addition to poverty rates, unemployment rates are also a major factor in the state population reliant on Medicaid programs. As represented in **Figure 4**, the unemployment rate in Louisiana was below the national average from SFY 2006/07 until SFY 2014/15. In SFY 2016/17, Louisiana's average unemployment rate was 5.8 percent, which was higher than the national average unemployment rate of 4.7 percent.

Louisiana State University (LSU), through the **Louisiana Population Data Center**, projected that Louisiana's population will increase an average of 3 percent every five years⁶. In addition to the increase in population, the population age mix is predicted to change greatly. The 65+ age group is projected to increase while the other age groups are projected to decrease.

The **Louisiana Health Insurance Survey** conducted by the **LSU Public Policy Research Lab**⁷ for the Louisiana Department of Health is published every two years. As of publication, the most recent version was the 2015 edition. In this survey LSU projected that 3.9 percent of Louisiana children (under the age of 19) and 22.8 percent of non-elderly (age 19 to 64) adults were uninsured in 2015. For children under the age of 19, this represented a decrease from the 4.4 percent rate reported in the previous survey in 2013, and was an increase in coverage for around 5,600 children. This is largely due to increased coverage for children under Medicaid and LaCHIP. For the adults age 19 to 64, the uninsured rate represented an increase from the 2013 estimate of 22.0 percent, which was a decrease in coverage for more than 26,000 adults.

MEDICAID ELIGIBILITY

Medicaid provides funding for health care to individuals and families who meet the eligibility criteria established by the state and approved by CMS. This report provides an overview of Louisiana Medicaid eligibility. For further details about the Louisiana Medicaid Program please visit our website at www.medicaid.la.gov. The **Medicaid Eligibility Manual** is available online at <http://ldh.la.gov/index.cfm/page/1681>. Information is also available when calling the toll-free line at **1-888-342-6207** or **1-877-252-2447**.

Eligibility Requirements and the Enrollment Process

Medicaid is an entitlement program that pays for health care on behalf of those who meet the established criteria and are enrolled. Louisiana is a Section 1634 state, which means that all individuals who receive **Supplemental Security Income (SSI)** are automatically enrolled in Medicaid. In addition, families who receive financial assistance through Louisiana’s **Temporary Aid to Needy Families (TANF)** program, also known as **Family Independence Temporary Assistance Program (FITAP)**, are automatically enrolled in Medicaid.

For an individual or family who does not receive SSI or FITAP (TANF), the eligibility process begins with the completion of a Medicaid application. Either the prospective beneficiary or an authorized representative may apply online, by mail, at a local Medicaid office or at a Medicaid Application Center. A face-to-face interview is not required. Contact information for local offices is listed on page 127 in **Appendix E**.

Individuals who are not automatically eligible and apply for Medicaid must meet all of the eligibility requirements of one or more programs. An overview of the Medicaid programs offered in Louisiana is presented in **Table 6**. For definitions of the abbreviations in this table please see **Appendix C** and **Appendix D** starting on page 121.

Table 6: Eligibility Requirements for Louisiana Medicaid

Program	Description	Income Limit	
A. Children	Ages 0–18 (through 19th birthday) with other insurance	142% of poverty; No assets test	
	A1. CHAMP – Low Income Children	Ages 6–18 (through 19th birthday) uninsured; Individuals receive an enhanced LaCHIP rate	>108% and up to 142% of poverty; No assets test
	A2. LaCHIP (Title XXI)	Ages 0–5 uninsured	142% of poverty; No assets test
	A3. LaCHIP Affordable Plan (LAP)	Ages 0–18 (through 19th birthday)	>142% and up to 212% of poverty; No assets test
	A4. Deemed Eligible Child	Ages 0–18 (through 19th birthday)	>212% and up to 250% of poverty; Some cost sharing involved; No assets test
A5. CWO Children	Age 0 (through first birthday)	Infants born to Medicaid eligible pregnant women	
B. Families	Children under age 18 in Foster Care programs through the Department of Children & Family Services’ Child Welfare Office (CWO)	Eligibility determined by the Child Welfare Office	
	B1. Parent/Caretaker Relative (PCR) Group	Parent/Caretaker relative who lives with a dependent child	19% of poverty; No assets test
	B2. MAGI – Related Medically Needy	Children and families who have income below regular Medically Needy income standards and are ineligible for other MAGI-related groups	15% of poverty (individuals and couples); No assets test
B3. MAGI – Related Spend Down Medically Needy	Children and families who have more income than allowed but qualify once the amount spent on medical expenses is considered	No Limit. All income over 15% of poverty considered available to meet medical expenses for quarter; No assets test	

continued on next page...

	Program	Description	Income Limit
B. Families	B4. Temporary Aid for Needy Families (TANF) Recipients	Recipients of cash assistance as determined by the Department of Children & Family Services	15% of poverty; Assets limit: \$2,000
	B5. Transitional Medicaid	Continues coverage for families who lost PCR or TANF eligibility because of an increase in earnings	No limit for first six months and 185% of poverty for coverage in seventh through twelfth month of transitional eligibility period; No assets test
C. Women	C1. CHAMP/LaMOMS – Pregnant Women	Covers each month of pregnancy and two-month postpartum period	133% of poverty; No assets test
	C2. LaCHIP IV (Title XXI)	Covers conception to birth for low-income, pregnant mothers who are not otherwise eligible for Medicaid regardless of citizenship	209% of poverty; No assets test
	C3. Breast and Cervical Cancer	Women under age 65 diagnosed with breast or cervical cancer, in a precancerous condition or early stage cancer	250% of poverty; No assets test
D. Aged, Blind, or Disabled	D1. Disabled Adult Child (DAC)	Individuals over age 18 who became blind or disabled before age 22 and lost SSI eligibility on or after 7/1/87 as a result of entitlement to or increase in Social Security Administration Child Insurance Benefits	Social Security benefits are disregarded in determining countable income with limit 74% ¹ of poverty (+\$20); Asset limits: \$2,000 individual and \$3,000 couple
	D2. Disabled Widows/Widowers	Disabled individuals who lost SSI because of the 1984 Social Security Widow/er's re-computation	Social Security 1984 Widow/er's adjustment is disregarded in determining countable income with limit 74% ¹ of poverty (+\$20); Asset limits: \$2,000 individual and \$3,000 couple
	D3. SSI Recipients	Aged and/or disabled individuals receiving SSI cash payments as determined by SSA	74% ¹ of poverty (+\$20); Asset limits: \$2,000 individual and \$3,000 couple
	D4. SGA Disabled Widows/Widowers/ Surviving Divorced Spouses	Individuals who are not entitled to Medicare Part A and lost SSI because of receipt of Social Security Disabled Widow/er's benefits	All cost of living raises and Social Security Disabled Widow/er's benefits are disregarded in determining countable income with 74% ¹ of poverty (+\$20); Asset limits: \$2,000 individual and \$3,000 couple
	D5. PICKLE	Former SSI Recipients of two different groups of aged, blind and disabled who lost SSI eligibility due to Retirement, Survivors' and Disability Insurance (RDSI) cost of living increase	All cost of living raises are disregarded in determining countable income with limit 74% ¹ of poverty (+\$20); Asset limits: \$2,000 individual and \$3,000 couple
	D6. Provisional Medicaid	Aged and disabled individuals who meet SSI criteria without first having a SSI determination made by SSA	74% ¹ of poverty (+\$20); Asset limits: \$2,000 individual and \$3,000 couple
	D7. Early Widows/Widowers	Individuals who lost SSI because of receipt of RSDI Early Widow/er's Benefits	Social Security Early Widow/er's benefits are disregarded in determining countable income with limit 74% ¹ of poverty (+\$20); Asset limits: \$2,000 individual and \$3,000 couple
	D8. QMB – Qualified Medicare Beneficiary	Pays Medicare Part A and B premiums, deductibles and co-insurance	100% of poverty (+\$20); Asset limits: \$7,560 individual and \$11,340 couple
	D9. SLMB – Specified Low-Income Medicare Beneficiary	Pays Medicare Part B premium only	>100% and up to 120% of poverty (+\$20); Asset limits: \$7,560 individual and \$11,340 couple
	D10. QI-1 – Qualified Individual Category 1	Pays Medicare Part B premium only	>120% and up to 135% of poverty (+\$20); Asset limits: \$7,560 individual and \$11,340 couple
	D11. QDWI – Qualified Disabled Working Individual	Pays Medicare Part A for individuals under age 65 who lost SSA disability benefits and premium free Part A coverage	200% of poverty; Asset limits: \$4,000 individual and \$6,000 couple

continued on next page...

	Program	Description	Income Limit
D. Aged, Blind, or Disabled	D12. Long Term Care (Home and Community Based)	Individuals who meet the level of care criteria for institutional care (nursing homes and ICF/ID) or home and community-based services	222% ¹ of poverty (3 times the limit for SSI recipients); Asset limits: \$2,000 individual and \$3,000 couple (both reside in an institution) or \$123,600 for an institutionalized individual with a community spouse (one not residing in an institution)
	D13. Long Term Care and Home and Community-Based Services Medically Needy Spend-Down	Individuals who meet the level of care criteria for institutionalized care or home and community-based services	All income over 222% ¹ of poverty is considered available to meet medical expenses. Asset limits: \$2,000 individual or \$123,600 for an institutionalized individual with a community spouse
	D14. Non-MAGI Medically Needy Spend-Down	Qualified individuals and families who have more income than allowed but qualify once the amount spent on medical expenses is considered.	All income over 15% of poverty is considered available to meet medical expenses for quarter; For Long Term Care (institutions only) all income over 222% ¹ of poverty; Asset limits: \$2,000 individual or \$123,600 for an institutionalized individual with a community spouse.
	D15. Acute Care	Individuals who have been or are expected to be in a medical institution for a continuous period of 30 days	74% ¹ of poverty (+\$20); Asset limits: \$2,000 individual and \$3,000 couple or \$123,600 for an institutionalized individual with a community spouse
	D16. Medicaid Purchase Plan (MPP)	Working individuals that are ages 16–64 with disabilities that matches SSA standards that can buy health coverage offered by Louisiana Medicaid	100% (+\$20) of poverty; Asset limit: \$10,000 individual/couple
	D17. Family Opportunity Act (FOA)	Offers Medicaid Buy-in for children under age 19 with disabilities who are not eligible for SSI disability benefits due to income	300% of poverty; Families above 200% of poverty must pay a premium; No assets test
	E. Other	E1. TB infected	Persons who have been diagnosed as, or are suspected of, being infected with tuberculosis
E2. Emergency Services for Illegal/Ineligible Aliens		Coverage of illegal/undocumented aliens and documented aliens under the Medicaid five-year bar for life-threatening emergency situations and labor/delivery of newborns	Must meet all requirements of another Medicaid program except for U.S. citizenship
E3. Youth Aging Out of Foster Care		Individuals ages 18–21 released from the Foster Care program due to turning age 18	No income or assets test
E4. Former Foster Children		Individuals ages 18–26 released from the Foster Care program due to turning age 18	No income or assets test
E5. Take Charge Plus		Women and men of any age for family planning-related services	133% of poverty; No assets test
F. Adult	F1. Expansion Group	Individuals ages 19–64 who are not eligible for Medicaid in another program and are not eligible for or enrolled in Medicare	133% of poverty with a 5% disregard for a possible 138%; No assets test

¹ Percentages based on 2016 Federal Poverty Guidelines (FPG).

Each state sets an income limit within federal guidelines for Medicaid eligibility groups and determines what income counts toward that limit. Part of the financial qualification for Medicaid is based upon the family size and relation of monthly income to the Federal Poverty Guidelines (FPG). Federal Poverty Guidelines are established by the federal government regarding what is considered the poverty level standard of living. **Table 7** shows 2017 Federal Poverty Guidelines, with annual and monthly incomes according to family size. For example, a four person family with an annual income of \$24,600 is considered living at 100 percent of FPG.

Table 7: 2017 Federal Poverty Guidelines for All States (Except Alaska and Hawaii)

Family Size	Monthly Income in Dollars ¹

² For family units more than eight members, add \$4,180 annually and \$348 monthly for each additional member.

Figure 5 summarizes income requirements for many of the Medicaid programs. The major qualifying categories are listed along the bottom of the chart. Along the left axis of the chart is income as a percentage of the FPG. As shown in the eligibility chart, maximum income levels for different groupings of eligibility, such as age, disability and parental status, allow access to the Medicaid program depending upon the group in which the individual falls. While most eligibility categories allow access to the full array of Medicaid services, the individual's economic and medical circumstances may assign an enrollee to a more limited set of benefits.

Figure 5: Louisiana Medicaid Coverage Groups and Income Eligibility Requirements

Eligibility determination is a federally approved process which is operated in the same manner throughout the state. In Louisiana, caseworkers in each of the nine regions of the Department of Health determine an individual's eligibility for Medicaid in accordance with standardized written policy. Processing times for applications vary depending on the coverage group and program under consideration, the amount of information the person is able to provide and how quickly all needed information is made available to Medicaid staff. Eligibility can be retroactive up to three months prior to the date of application. Eligibility is reviewed annually for most cases but more often in some programs. Decisions must be made within 45 days (90 days if a disability determination by the agency is required) from the date of application in most cases. Eligible individuals and families enrolled in the Louisiana Medicaid Program are issued a Medicaid identification card.

Enrollment Statistics

Before presenting the statistical data, it is important to establish the difference between the terms Medicaid eligible, enrollee and recipient. These terms can seem synonymous, but they have distinct meanings within the context of Medicaid.

A “**Medicaid eligible**” is a person who fits the established eligibility criteria of the program, whether or not the person applied for Medicaid.

A “**Medicaid enrollee**” is a Medicaid eligible person who applied for and was approved by the Medicaid program to receive benefits regardless of whether he or she received any service and/or any claims or managed care encounters were filed on his or her behalf.

A “**Medicaid recipient**” is an enrollee with at least one **Per-Member-Per-Month (PMPM)** payment to a managed care organization, a fee-for-service processed claim or any person with Medicare Buy-in and Part D premiums paid on his or her behalf during the time period involved, in this case during SFY 2016/17 (July 1, 2016 to June 30, 2017). The recipient may not have been enrolled during the time the PMPM or claim was paid. For example, there may be a processed claim during this particular period for services that were provided in a prior period for an individual though his or her eligibility ended before this SFY.

The number of recipients reported in some categories (e.g. within a parish) may exceed the number of enrollees. An enrollee’s case may have closed before SFY 2016/17 but a claim was paid on his or her behalf during SFY 2016/17. Thus, when a claim was paid in SFY 2016/17 for a person who received a service before SFY 2016/17, she or he will be counted as a recipient in SFY 2016/17 although this person is no longer eligible for Medicaid in SFY 2016/17. Providers may delay the submission of claims for many months. Medicaid’s timely filing rule gives providers up to one year to submit a claim and up to two years for payment of the timely filed claim. Thus, it is possible for a claim paid in SFY 2016/17 to be for a service rendered before SFY 2016/17. The payment could, therefore, occur long after the person identified as the recipient on the claim has left the program and is no longer an enrollee. There are many ways to interpret enrollment under Medicaid, which will be discussed in the following sections.

Percentage of the Population

The percentage of the population enrolled in Louisiana Medicaid has consistently increased through the years (**Table 8**). During SFY 2016/17, 38.3 percent of Louisianans were enrolled in Medicaid. **Figure 6** shows Medicaid enrollment as a percentage of the full population of Louisiana.

Table 8: Enrollment, Population and Percentage of Population Enrolled by State Fiscal Year

State Fiscal Year (SFY)	SFY Population Estimate	Medicaid Enrollment ²	Percent of Population Enrolled
2012/13	4,601,893	1,414,370	30.7%
2013/14	4,625,470	1,417,304	30.6%
2014/15	4,649,676	1,485,012	31.9%
2015/16	4,670,724	1,602,954	34.3%
2016/17	4,681,666	1,790,956	38.3%

¹ SFY Population estimates are based on the average of the two most recent census population estimates. U.S. Census Bureau, Population Division (December 2016). Annual Estimates of the Resident Population for Counties of Louisiana: July 1, 2016. Retrieved from <https://www.census.gov/data/tables/2016/demo/popest/state-total.html>.

² Enrollment data was obtained in December 2017 from MARS Data Warehouse and includes all “premium only” duals. Enrollment will vary depending on the date extracted due to processing. Enrollment counts are unduplicated for each SFY.

Table AA1 (which can be found on page 68 in **Appendix A**) presents total population, enrollees, percentage of the population enrolled in Medicaid, percentage of the population in poverty, recipients, payments and payments per recipient by parish during SFY 2016/17. Parishes with high poverty rates have large percentages of Medicaid enrollment. Bienville, Caldwell, Catahoula, Concordia, East Carroll, Evangeline, Franklin, Madison, Morehouse, Red River, Richland, St. Bernard, St. Landry, St. Mary, Tensas, Washington and West Carroll Parishes all have 50 percent or more of their population enrolled in Medicaid, as shown in **Figure 6**. Cameron Parish had the smallest percentage of Medicaid enrolled with only 16% of the parish’s population enrolled in Medicaid.

Figure 6: Parish Percentage of Population Enrolled in Medicaid

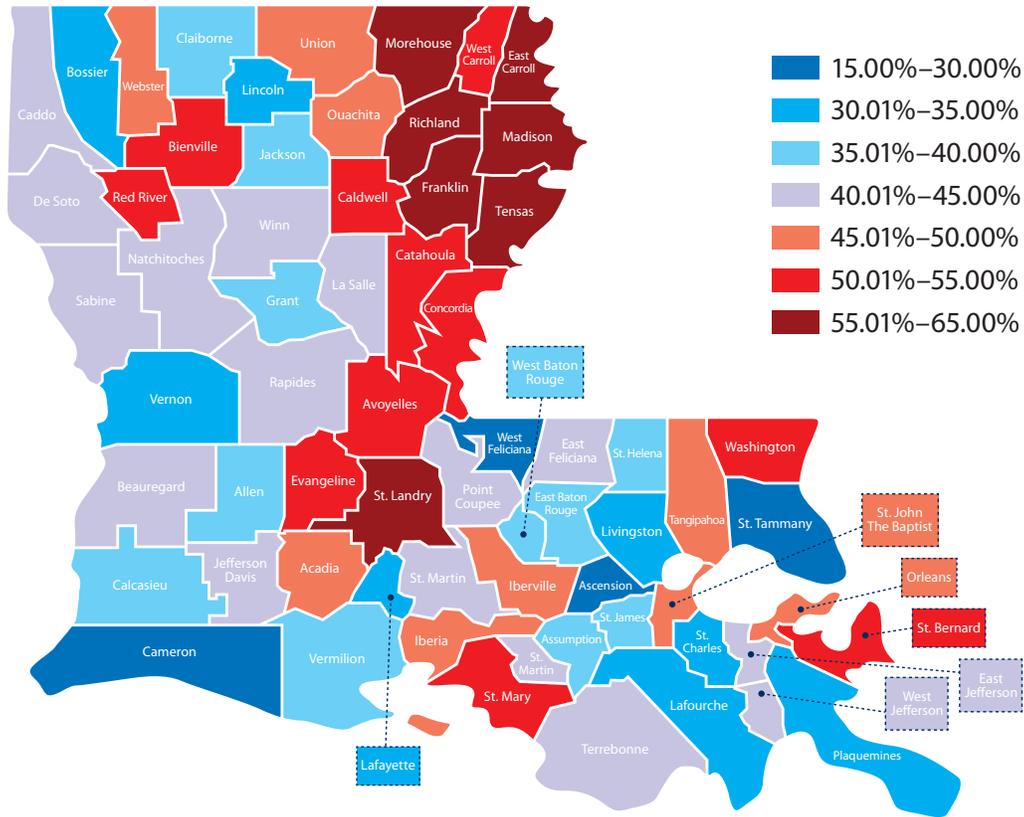

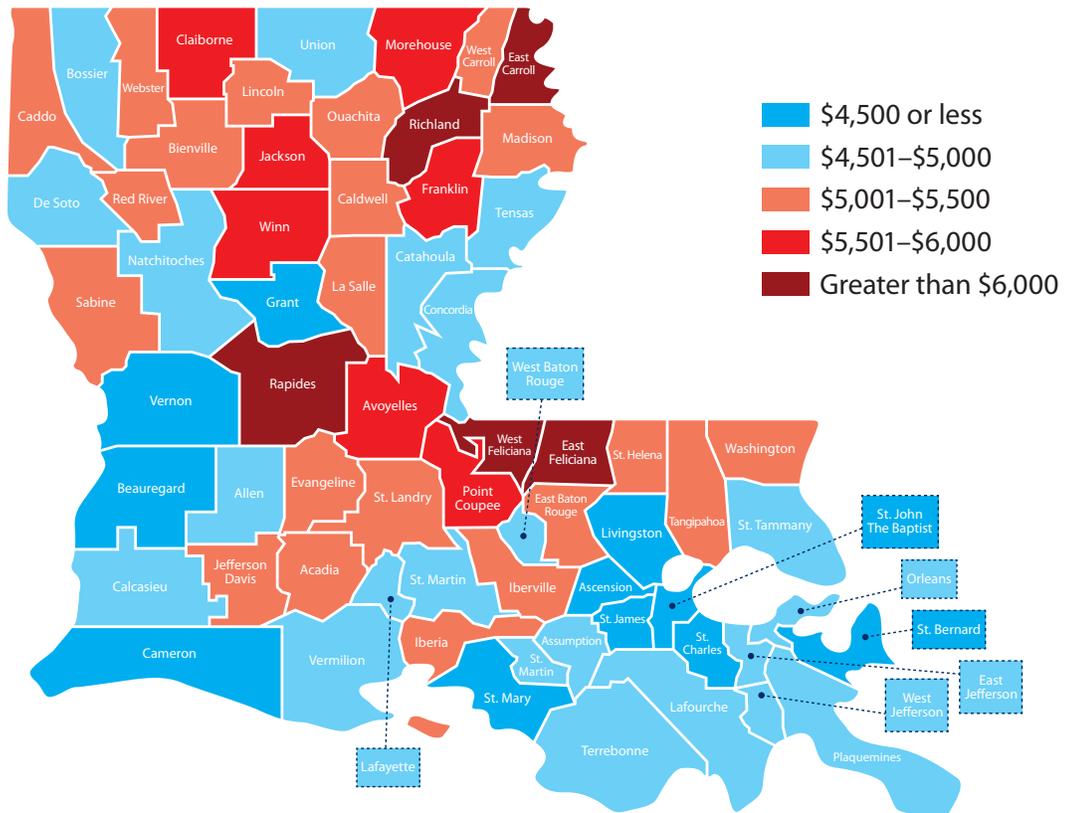

Figure 7: Parish Payments Per Recipient

Orleans Parish had the highest payments paid on behalf of their recipients at about \$914.3 million, while Cameron Parish had the least amount paid on behalf of their recipients at about \$4.3 million. Despite having the highest total number of payments, Orleans Parish has a very low rate of payments per recipient due to its high population. The per recipient numbers show the average amount spent on each person in the given parish throughout the year (Figure 7).

Table AA2 (which can be found on page 70 in Appendix A) shows population, enrollment, recipients and payment in each parish by race. The “Other” column includes individuals of two or more races as well as white/non-white Hispanics.

Table 9 presents total population, enrollees, percentage of population enrolled, recipients, payments and payments per recipient by region during SFY 2016/17. Northeast Louisiana had 46 percent of their population enrolled in Medicaid, the highest numbers in the state. The Capital Area and Northshore had the smallest percentage of population enrolled in Medicaid at 35 percent.

Table 9: Population, Enrollees, Recipients and Payments by Region

Region	2016 Population ¹	Medicaid Enrollees ²	Enrollees/Population Ratio	Rank	Medicaid Recipients ³	Payments ³	Payment per Recipient
1 Greater New Orleans Area	897,170	377,173	42%	2	385,258	\$1,879,426,436	\$4,878
2 Capital Area	684,525	237,686	35%	9	243,850	\$1,289,320,114	\$5,287
3 South Central Louisiana	404,424	157,659	39%	6	162,386	\$755,937,456	\$4,655
4 Acadiana	609,120	244,022	40%	4	248,952	\$1,323,229,218	\$5,315
5 Southwest Louisiana	301,507	115,903	38%	7	119,274	\$587,771,620	\$4,928
6 Central Louisiana	305,744	128,488	42%	3	132,093	\$848,739,682	\$6,425
7 Northwest Louisiana	543,453	217,620	40%	5	223,243	\$1,194,408,170	\$5,350
8 Northeast Louisiana	354,451	162,584	46%	1	166,198	\$913,931,744	\$5,499
9 Northshore Area	581,272	201,885	35%	8	207,896	\$1,017,473,496	\$4,894
State Total	4,681,666	1,790,956	38%	—	1,830,954	\$9,810,237,936	\$5,358

¹ Population estimates are based on the beginning of the SFY. U.S. Census Bureau, Population Division (December 2016). Annual Estimates of the Resident Population for Counties of Louisiana: July 1, 2016. Retrieved from <https://www.census.gov/data/tables/2016/demo/popest/counties-total.html>.

² Individual region enrollee and recipient counts will not sum to the total state count due to movement between regions during the SFY; the state figures are unduplicated for entire state, while numbers are unduplicated within the region.

³ Payments are based on recipient region payments.

The Greater New Orleans Area had the highest payments paid on behalf of their recipients at \$1.3 million, while Southwest Louisiana had the least amount paid on behalf of their recipients at \$428 million. South Central Louisiana had the lowest average rate of payments per recipient at \$4,253, while the highest ratio was in Central Louisiana with \$6,437 per recipient. Table AA1 (which can be found on page 68 in Appendix A) shows more detail in the payments per recipient by parish.

Age, Gender and Race

The breakdown of enrollees by age group (Tables 10–13 and Figure 8) shows that the majority of Medicaid enrollees are children, with those aged 20 and under making up 49.6 percent of the total enrolled. Those between the ages of 21 and 64 comprised 43.1 percent of the enrolled population and account for 56.5 percent of payments; and those 65 and over made up the smallest component at 7.3 percent of enrollment but account for 14.5 percent of payments. Also, as expected, statistics reveal that certain age groups account for more costs than others. The reason for this is that the medical needs of these age groups tend to require more expensive services.

Table 10: Enrollees, Recipients and Payments by Age Group and Gender

Age Group	Enrollees			Recipients			Payments		
	Male	Female	Total	Male	Female	Total	Male	Female	Total

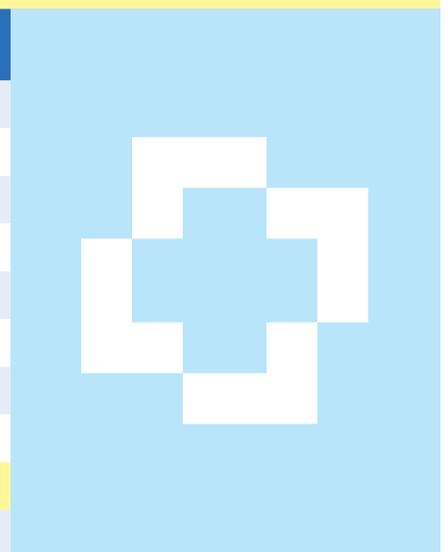

Figure 8: Enrollment by Age Group

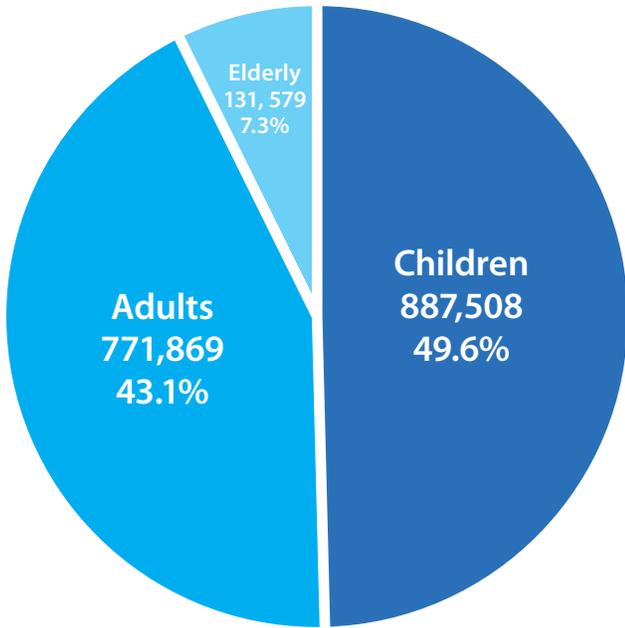

Figure 9: Enrollment by Gender

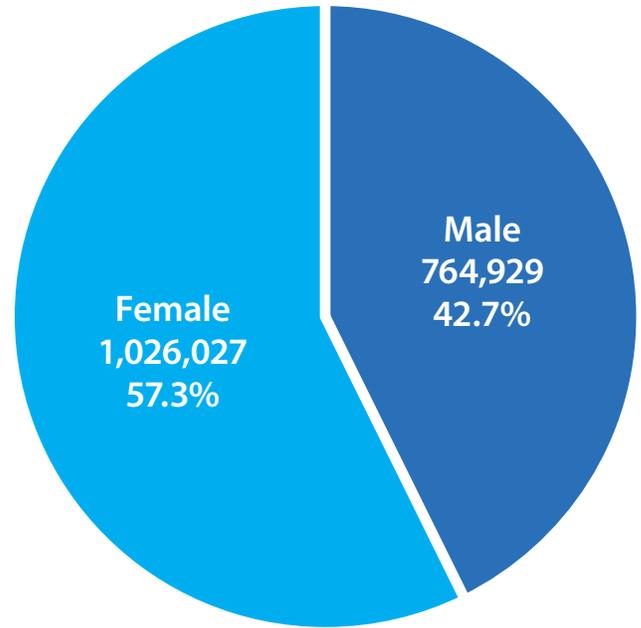

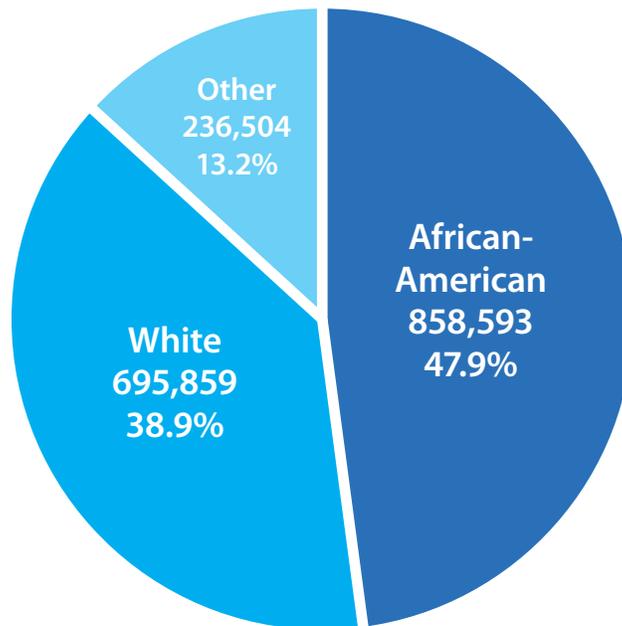

Figure 10: Enrollment by Race

Overall there are more females than males enrolled in Medicaid (**Figure 9**). Though children age 18 and under are almost evenly split between female and male, for enrollees of ages 19 and above, women account for 64.3 percent of enrollment. This can probably be explained by the pregnant women programs, disproportionate number of female parents in very low income households, and longer life expectancy of females. These trends are true of all racial groups. **Tables 14–16** break down regional payments, enrollees and recipients by race and gender. **Figure 10** shows the percentage of enrollment by race.

¹ Payments are based on recipient region payments.

² Individual region enrollee and recipient counts may not sum to the total state count due to movement between regions during the SFY. The state figures are unduplicated for entire state, while numbers are unduplicated within the region.

Basis of Eligibility

During SFY 2016/17, there were 1,790,956 unduplicated Medicaid enrollees. All enrollees are placed into one of four **Basis of Eligibility (BOE)** categories depending on age or disability according to the hierarchy shown in **Figure 11** below. Based on total payments by BOE, children and adults together made up of 80 percent of enrollment, but only 51.5 percent of payments (**Figure 12**). The elderly category and disabled category collectively accounted for 20 percent of enrollment, but 48.5 percent of payments.

Tables 17–19 present BOE by race and gender. **Table 17** shows the payments for each BOE by race and gender. The highest portion of payments went to disability with \$3.4 billion (34.3 percent), while the lowest went to elderly with \$1.4 billion (14.2 percent). Payments for children totaled \$2.1 billion (21.3 percent). As shown in **Tables 18 and 19**, children account for the highest number of unduplicated enrollees and recipients in the Medicaid program, with 828,728 (44.9 percent) in SFY 2016/17.

¹ Enrollee and recipient counts may not sum to the total due to movement between BOE categories during the SFY. The figures are unduplicated for each BOE, while numbers are unduplicated for total enrollee and recipient count.

Table 19: Enrollees¹ by Basis of Eligibility, Race and Gender

Race	Gender	Basis of Eligibility				Total
		Elderly	Disabled	Children	Adults	
African-American	Male	17,989	69,742	197,936	89,246	361,355
	Female	36,901	63,061	204,601	208,740	497,238
	Total	54,890	132,803	402,537	297,986	858,593
White	Male	16,055	41,211	156,596	92,290	298,224
	Female	34,923	43,456	155,212	175,028	397,635
	Total	50,978	84,667	311,808	267,318	695,859
Other	Male	7,798	13,114	54,916	31,818	105,350
	Female	14,821	9,998	59,467	49,774	131,154
	Total	22,619	23,112	114,383	81,592	236,504
Total	Male	41,842	124,067	409,448	213,354	764,929
	Female	86,645	116,515	419,280	433,542	1,026,027
	Total	128,487	240,582	828,728	646,896	1,790,956

¹ Enrollee and recipient counts may not sum to the total due to movement between BOE categories during the SFY. The figures are unduplicated for each BOE, while numbers are unduplicated for total enrollee and recipient count.

Enrollment data for the last two state fiscal years by Basis of Eligibility (BOE) are presented in [Table 20](#). Monthly and SFY total enrollment numbers are unduplicated for their respective periods of time. All categories except Disabled and Children saw their enrollment numbers increase in SFY 2016/17. The highest increase was in the Adults category. Overall enrollment increased by 11.73 percent, largely due to Medicaid expansion.

Table 20: Enrollees per Month by Basis of Eligibility for SFY 2015/16 and SFY 2016/17

	Month	Elderly	Disabled	Children	Adults	Total

	Total¹	128,487	240,582	828,728	646,896	1,790,956
Total Percent Change Between SFYs		3.73%	-2.99%	-1.92%	50.70%	11.73%

¹ SFY totals may not equal the sum of monthly basis of eligibility categories due to movement across categories and duplication across months. Both are pure unduplicated enrollee counts.

Recipients Ranked by Payments

Medicaid provides health care coverage to elderly, disabled and low income families. Since Medicaid is an entitlement program, Louisiana cannot limit the number of enrollees in Medicaid, nor can they be selective in who is allowed to receive services as long as the Medicaid eligibility requirements are met. **Figure 12** shows the percentage of payments and recipients ranked by payments. The majority of recipients only require minimal services (note the “lowest” payments group covers care for 50 percent of all Medicaid recipients). A few recipients with intensive care needs account for a disproportionate share of total payments, as evidenced by the “high” payments group which includes 28 percent of payments, but accounts for only 3 percent of all Medicaid recipients.

Figure 12: Percentage of Recipients and Payments Ranked by Payments

The cumulative top 50 percent of recipients accounted for approximately 84 percent of total payments, while the least expensive recipients, the other 50 percent, only made up approximately 16 percent of total payments. **Table 21** breaks down the top 3 percent of recipients based on their top 10 type cases. The majority of payments on behalf of this group go to Long-Term Care (LTC) or waiver services.

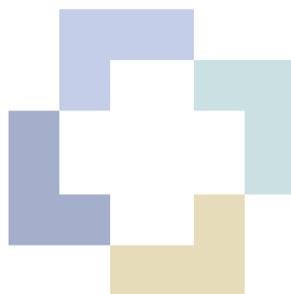

Table 21: Top 10 Case Types of Top 3 Percent of Medicaid Recipients

Case Types	Recipients	Provider Types					Total	
		Waiver	Personal Care Services	Pharmacy	Nursing Facilities	Personal Care Attendant		
SSI/LTC	3,256	—	\$17,094	\$14,385,218	\$151,998,152	\$6,288	\$32,335,319	\$198,742,072

MEDICAID PROGRAMS

Medicaid Data

Medicaid data can be presented either by “**Date of Payment**” or “**Date of Service**,” in which results may differ based on the methodology employed. The difference between the two types of methodologies is given below.

- **Date of Payment (DOP):** Reported data, such as payments, services, recipients, etc., reflects claims that are paid during the period (July 2016 to June 2017) irrespective of the time the services were provided. Some of the payments made during this time period may be for services provided in the previous SFY. DOP is typically used for budget and financial analysis and is also known as “cash basis accounting.”
- **Date of Service (DOS):** Reported data reflects the services provided during the period irrespective of the date that payments were paid. Services may be provided during this particular period but payments may be paid during a subsequent period, say after one year. DOS is typically used for clinical/policy interventions and is also known as “accrual accounting.”

Both approaches are valid and examine similar data, but each has a specific function in terms of analyzing results. Because they are set in different time frames, the analytical results may be different and the disparity may simply be that the data sets are obtained using different underlying methodologies.

In general, most of the Medicaid budgetary/financial statistics that are published are based on date of payment. Therefore, most of the data in this report is presented on DOP methodology unless otherwise stated.

Managed Care and Fee-for-Service

In February 2012, Louisiana Medicaid initiated its transition from its legacy **fee-for-service (FFS)** program to a managed health care delivery system that offers medical services to many Louisiana Medicaid enrollees. Fee-for-service is a model of payment in which Louisiana Medicaid pays each service provider directly based on the services provided to Medicaid recipients. Providers submit claims to Medicaid that include the services provided, recipients, and costs of the services. Medicaid then pays the providers based on the claims information.

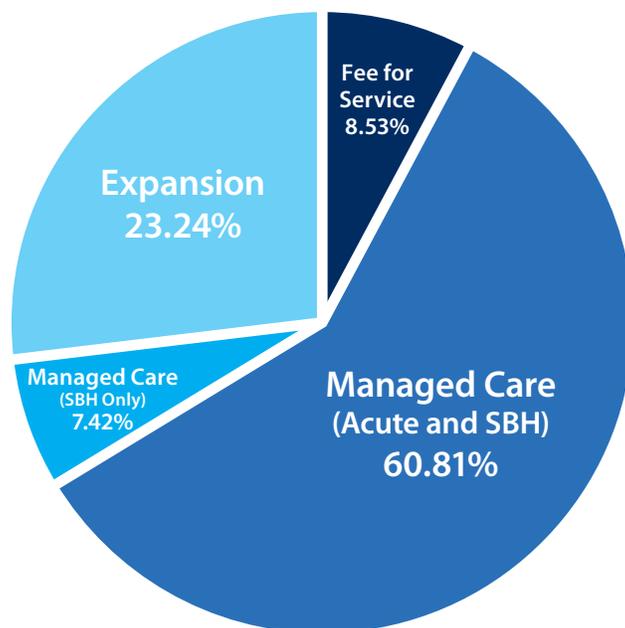

FFS enrollees are only considered recipients if they received a Medicaid-covered service. This means that some recipients will incur more costs than others. However, there are Medicaid eligible individuals who are not eligible for managed care services, or who choose to opt out of managed care. The following populations are excluded from managed care: dual-eligibles, waiver recipients, and individuals in long-term care programs. You can find more detailed information on FFS programs starting on page 54.

The managed care programs use a Per-Member-Per-Month (PMPM) payment model, in which Louisiana Medicaid pays the managed care organizations a monthly fee to manage the health needs of the Medicaid population. Managed care providers are paid by the managed care health plans rather than being paid directly by Louisiana Medicaid. Services provided to managed care recipients are submitted to Medicaid as encounters.

Louisiana Medicaid includes three managed care programs: **Healthy Louisiana**, the **Louisiana Behavioral Health Partnership (LBHP)** and the **Dental Benefits Program**. The managed care programs can have overlapping enrollment, and some managed care enrollees may receive services through FFS.

Figure 13 shows the makeup of Medicaid enrollment according to enrollment groupings: Fee-for-Service, Expansion, Managed Care – **Specialized Behavioral Health (SBH)** and Managed Care – Acute and SBH. Enrollment in this case is measured by member months, where each month that an individual is enrolled is counted as one member month. Out of all Medicaid member months in SFY 2016/17, 91.5 percent were in a managed care program. Only 8.5 percent of all Medicaid enrollment was not in any managed care program.

Figure 13: Percentage of Enrollee Member Months by Medicaid Enrollment Groups

Louisiana Behavioral Health Partnership

The majority of Behavioral Health services were transferred to Healthy Louisiana beginning in December 2015, with the exception of the **Coordinated System of Care (CSoC)** services. CSoC is a specialized program for children and youth with the most complex behavioral health needs who are in or most at risk of out-of-home placement. CSoC offers a comprehensive array of intensive services with the goal of enabling these children to remain in or return to their homes and communities. **Wraparound Agencies (WAAs)** provide individualized care planning and management through **Child and Family Teams (CFTs)**, which are charged with the development of the plan of care. **Family Support Organizations (FSOs)** also have been formed to provide both parent and youth support and training. In SFY 2016/17 CSoC provided \$23,064,941 in services to 5,042 recipients.

Managed Care Payments

This section presents the payments made to providers by managed care plans. Louisiana Medicaid pays the managed care companies a Per-Member-Per-Month fee to manage the health needs of the Medicaid population. Managed care providers are paid by the managed care health plans rather than being paid directly by Louisiana Medicaid. The information in this section comes from managed care encounter records, and shows how much the managed care plans paid to providers.

Top ten provider types of total Medicaid managed care payments grouped by in-state and **out-of-state (OOS)** are presented in **Table 23**. Due to the delay in processing encounters, the information provided in this section may be less than the actuals. Approximately \$4.2 billion (96 percent) of the total \$4.4 billion in managed care payments were paid to providers within Louisiana, while approximately \$183 million (4 percent) of payments were made to out-of-state providers.

Table 24 presents the number of participating in-state and out-of-state providers grouped by top ten provider types based on total encounter payments. Physician provider type accounted for 23,606 (52.81 percent) of the 44,698 total participating providers, making up the highest number of individual providers. With respect to in-state and out-of-state provider distribution, 40 percent of participating providers of all types are from out-of-state.

Table 23: Managed Care Encounter Payments for the Top Ten Provider Types Ranked by Payment

Provider Type	Payments			Ratio of Each Program			Ratio Between IS & OOS	
	In-State	Out-of-State	Total	In-State	Out-of-State	Total	In-State	Out-of-State

¹ Provider numbers may not add up to Total because providers can be listed under multiple provider types. Providers are unduplicated for each cell.

² Providers with no Parish listed are included in In-State and are counted as one provider.

Table 25 presents a regional comparison of managed care payments made to the top ten provider types based on total payments. The Greater New Orleans Area ranked number one, with about \$1.06 billion in payments going into the region. Payments to the top ten providers in each region will differ according to a variety of factors (e.g., availability of providers, medical need of the population, etc.).

Table 25: Managed Care Encounter Payments by Region for the Top Ten Provider Types Ranked by Payment

¹ Providers with no Parish listed are included in In-State.

Table 26 presents managed care payments made to out-of-state providers, as well as the number of providers and recipients by state and territory. Texas ranked the highest in out-of-state payments with \$36.3 million (19.8 percent). Provider participation was represented by 49 states as well as Washington D.C., Puerto Rico and the U.S. Virgin Islands. Texas had the highest number of Louisiana recipients (104,161). Pennsylvania is an outlier due to a large number of providers whose billing locations are in Pennsylvania but mostly provide services in Louisiana.

¹ State provider and recipient counts may not sum to the total out-of-state count due to providers offering services in more than one state during the SFY and recipients receiving services in more than one state during the SFY. Total out-of-state figures are unduplicated for the entire out-of-state count, while other numbers are unduplicated for each state.

HEALTHY LOUISIANA

Louisiana's managed care program, known as **Healthy Louisiana**, was implemented in an effort to improve health outcomes for Louisiana's Medicaid population, while improving budget predictability.

Five managed care organizations (MCOs) deliver services for Healthy Louisiana enrollees. These risk-bearing private entities provide, at a minimum, Medicaid-covered benefits and services to enrolled members in exchange for a monthly capitation payment for each member. While all core benefits and services are maintained in all MCOs, each offers a different package of enhanced benefits such as eyeglasses or preventive dental care for adults. The majority of enrollees receive coverage for both acute physical care and specialized behavioral health (SBH) services.

A much smaller group of enrollees receive a limited service called **Maternity Kick Payments**. These are one-time payments made to the MCOs for each obstetrical delivery. Maternity Kick Payments are intended to cover prenatal care, delivery, postpartum care, and normal newborn hospital costs.

Frequently asked questions regarding Healthy Louisiana are addressed through a series of informational bulletins on Medicaid's provider and plan resources web page at www.makingmedicaidbetter.com. MCO comparisons can be found on the Healthy Louisiana enrollment broker website at myplan.healthy.la.gov.

Table AA3 (which can be found on page 74 in **Appendix A**) presents the payments made to the Healthy Louisiana Plans and the number of recipients by parish. During SFY 2016/17, total payments to Healthy Louisiana were \$6,482,391,405 on behalf of 1,690,382 recipients. **Tables AA4** and **AA5** (which can be found on pages 78 and 82) show the payments and recipients by parish, race and gender. Note that some Healthy Louisiana recipients may also receive services through Dental Benefits, LBHP or Fee-for-Service programs.

Managed Care Enrollment

In July 2016, Louisiana expanded the Medicaid program under the Affordable Care Act. Medicaid expansion allows adults with incomes at or below 138 percent (133 percent with a possible five percent disregard) of the Federal Poverty Guidelines (FPG) to receive Medicaid. All expansion recipients were placed in Healthy Louisiana. Medicaid expansion coverage is equivalent to the acute care coverage that is available to regular managed care recipients. All expansion recipients have access to full Medicaid benefits as well as additional benefits as offered by each MCO.

Out of the total 1,790,956 unduplicated individuals enrolled in Louisiana Medicaid, 1,659,897 were enrolled in Healthy Louisiana. **Table 27** reflects the enrollment by region, health plan and service enrollment type. The majority of Healthy Louisiana enrollees received acute care coverage. Only 128,792 of the total 1,659,897 enrollees received SBH-Only coverage. **Table 28** breaks down enrollment by health plan, age group and gender. **Table 29** breaks down enrollment by age group, race and gender. **Figure 14** shows the proportion of enrollee member months by health plan and **Figure 15** shows the proportion of enrollment by age group. **Figure 16** shows the number of expansion enrollees by parish.

Figure 14: Healthy Louisiana Enrollee Member Months by Healthy Louisiana Plans

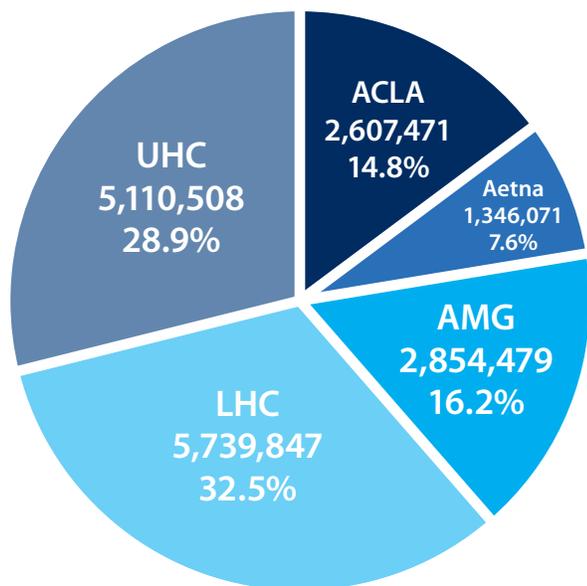

Figure 15: Healthy Louisiana Enrollee Member Months by Age Group

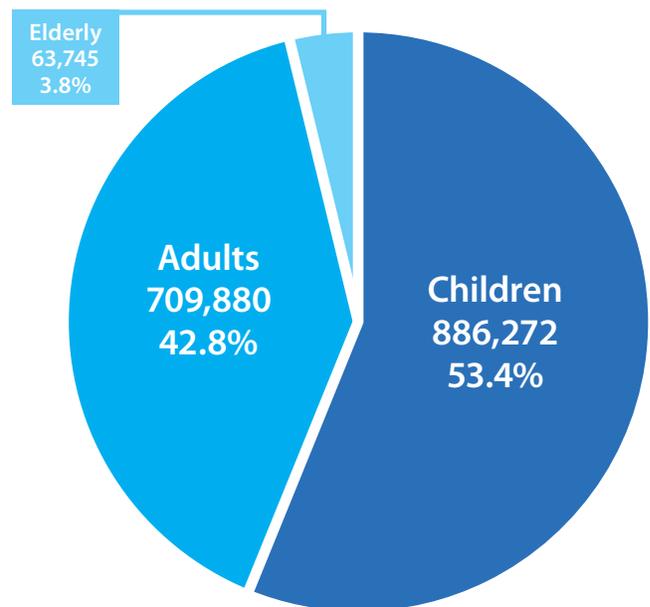

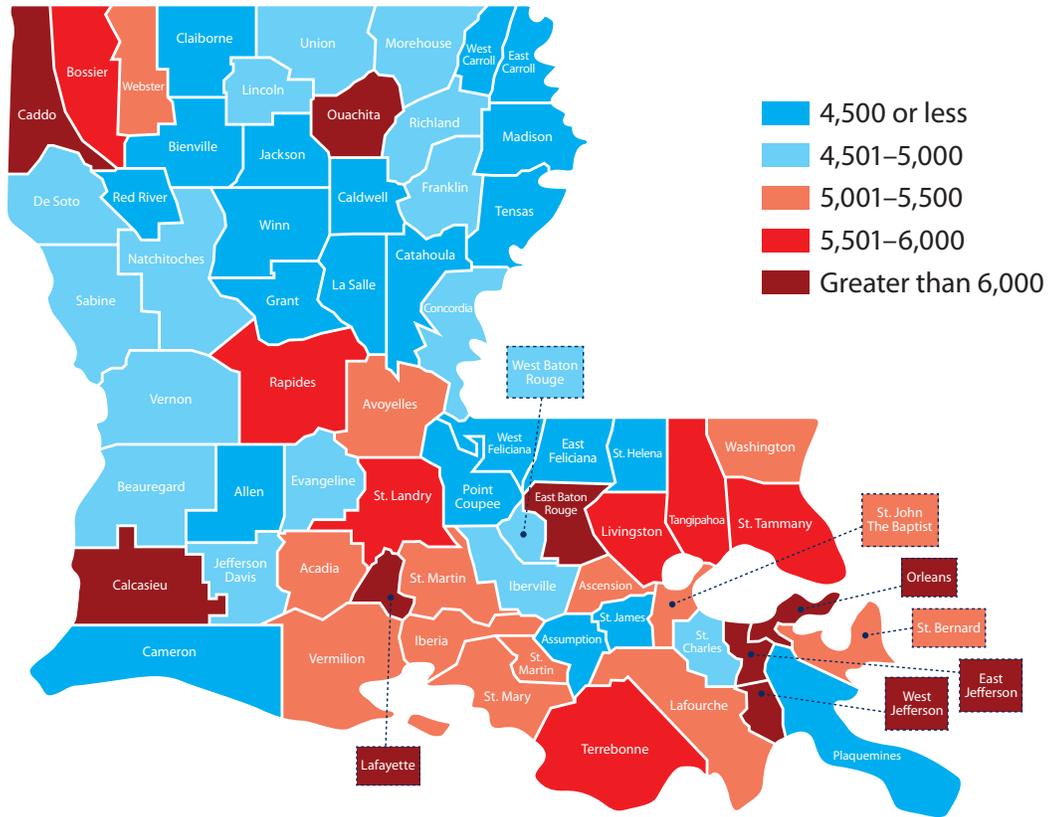

Figure 16: Expansion Enrollment by Parish

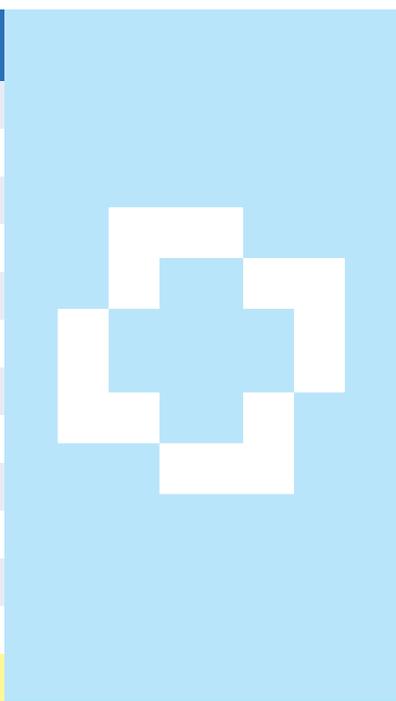

In the first year of Medicaid expansion, there were 499,175 unduplicated enrollees. Of these, 310,813 were female and 188,362 were male (Tables 30 and 31). The largest age group was ages 25–39 with 196,332 enrollees, and the smallest was ages 40–49 with 82,165. A full parish breakdown of expansion enrollment is available in Table AA6 (which can be found on page 84 in Appendix A).

Categories of Assistance

Healthy Louisiana enrollees are grouped into the following **Categories of Assistance (CoA)** for payment purposes:

Supplemental Security Income (SSI) related seniors and people with disabilities

SSI includes individuals who are aged 65 and above as well as individuals of any age with disabilities.

Breast and Cervical Cancer

Includes uninsured women who have already been diagnosed by a **Centers for Disease Control and Prevention (CDC)** approved screening entity with breast or cervical cancer or a precancerous condition and who are not otherwise eligible for Medicaid.

Home and Community Based Services

Includes individuals under age 21 who require in-home personal care, community hospice care, ABA recipients covered by the Chisholm court ruling and individuals who receive **Home and Community Based Services (HCBS)** waivers for acute care and have opted to join a managed health program.

Expansion

The Medicaid expansion group covers individuals between the ages of 19 and 64 who do not meet other Medicaid criteria but have incomes of up to 138% of the FPG.

Families and Children

The Families and Children group includes children and teens under the age of 19 whose basis of Medicaid or CHIP eligibility is age, as well as their parents/caregivers. It also includes pregnant women whose sole basis of eligibility for Medicaid is pregnancy. This group does not include children who are eligible based on disability.

Foster Children

Foster Children are those who receive 24-hour substitute care from someone other than their parents or guardians and for whom the **Department of Children and Family Services** has responsibility for placement and care.

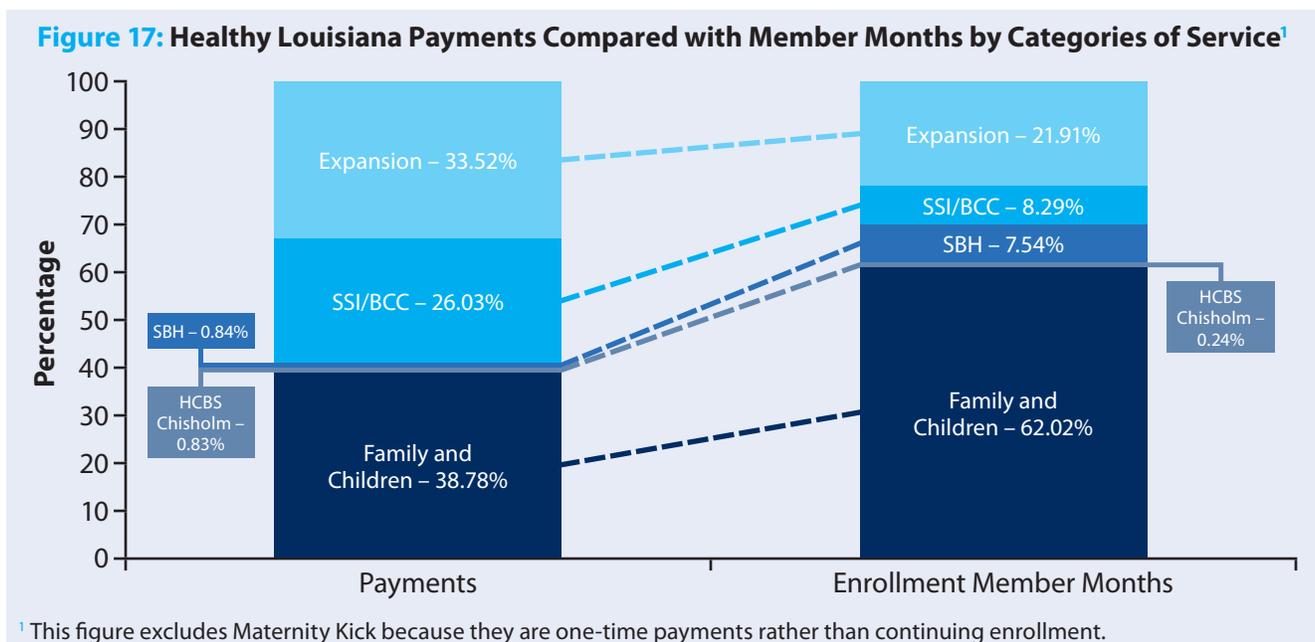

LaCHIP Affordable Plan (LAP)

The LaCHIP Affordable Plan group includes children and youth under the age of 19 with incomes over the limit of 212 percent of FPG for regular CHIP enrollment but with incomes lower than 250 percent of FPG. Families pay a monthly premium of \$50.

Specialized Behavioral Health Services

Adults and Children who primarily require aid for specialized behavioral health services. The majority of the people in this category were enrolled in Louisiana Behavioral Health Partnership (LBHP) prior to December 2015. Specialized behavioral health services are provided to all managed care recipients, but this population is ineligible for full physical care services.

Appendix **Table AA7** (which can be found on page 86 in **Appendix A**) shows the Healthy Louisiana payments and recipients broken down by the Categories of Assistance. **Figure 17** compares the payments and enrollment member months for each category of assistance. Family and Children group has the majority of enrollment (62.02 percent) and payments (38.78 percent). Maternity Kick is not included in this figure since it is a one-time payment rather than continuing enrollment.

DENTAL BENEFITS PROGRAM

Louisiana Medicaid contracts with **Managed Care of North America (MCNA)** to provide dental benefits for Medicaid enrollees under the **Dental Benefits Program (DBP)**. The DBP began to coordinate dental care for Medicaid recipients in July 2014. In SFY 2016/17 the program covered 1,637,564 recipients for a total expenditure of \$156 million.

The Dental Benefits Program includes children in **Early and Periodic Screening, Diagnostic and Treatment (EPSDT)**, the LaCHIP Affordable Plan (LAP), and adults. Children under the DBP receive preventive and diagnostic services such as regular exams and sealants as well as therapeutic services to treat dental medical problems. Adults receive denture services and comprehensive oral exams. All individuals except ICF/DD recipients who are eligible for full Medicaid benefits are eligible for the Dental Benefits Program. ICF/DD recipients receive dental care as a part of the institutional per diem rate.

Children under the age of 21 account for the majority of payments to the Dental Benefits Program.

There are four payment groups in the Dental Benefits Program: Expansion Adults, Adult Dentures, EPSDT, and LaCHIP. The majority of payments and recipients are in EPSDT, with \$137,123,576 out of \$152,148,022 total dental (90.1 percent) in payments on behalf of 855,498 recipients. Similarly, expansion made \$10,082,939 (6.6 percent) in payments for 484,709 recipients. Adult Dentures made \$4,281,580 (2.8 percent) in payments for 368,246 recipients. LaCHIP is the smallest group with only \$659,927 (0.4 percent) in payments to 5,016 recipients.

Table AA8 (which can be found on page 90 in **Appendix A**) shows DBP payments and recipients based on payment group. **Tables AA9** and **AA10** (which can be found on pages 94 and 98) break down DBP payments and recipients by Parish, Race and Gender. **Figures 18** and **19** below compare the payment groups by payment and recipients. An explanation of the differences between payments and expenditures can be found in the technical notes on page 18.

Figure 18: Dental Benefit Program Payments by Payment Group

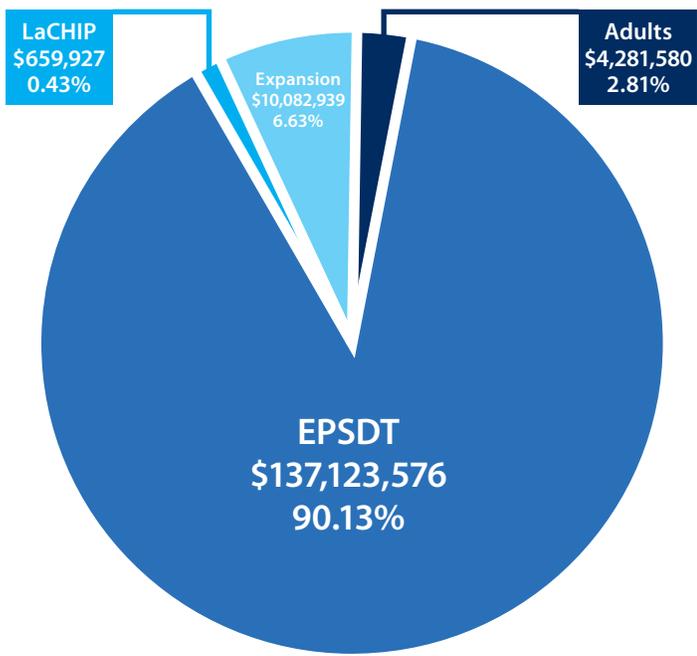

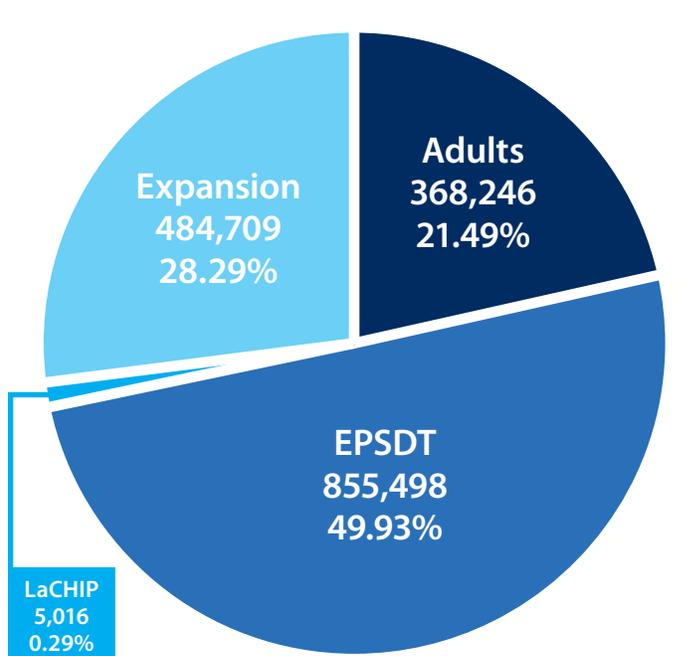

Figure 19: Dental Benefit Program Recipients by Payment Group

FEE-FOR-SERVICE

Fee-for-Service (FFS) is a model of payment in which Louisiana Medicaid pays each service provider directly based on the services provided to Medicaid recipients. Louisiana Medicaid has been moving away from the FFS model in favor of managed care. However, there are still FFS programs and enrollees. Some populations are excluded from managed care, and there are some services which are exclusive to the FFS population. The following section provides an overview of the FFS programs.

Applied Behavioral Analysis

Applied Behavioral Analysis (ABA) services were made available through Medicaid in 2014. The program provides community-based behavioral and psychological services to individuals under 21 years of age who have been diagnosed with a condition for which ABA services are considered appropriate, such as autism spectrum disorders. ABA services are highly specialized intervention programs which improve socially significant behavior in patients. Prior authorization by a physician or appropriate specialist must be obtained for any service deemed medically necessary. In 2016/17 a total of \$27,618,092 in payments were provided on behalf of 1,461 recipients. **Table 32** shows recipient age groups and associated payments.

Table 32: Applied Behavior Analysis Payments and Recipients by Age Group

Age Group	Payments	Recipients
18–36 months	\$882,80	69
37–48 months	10,112,521	365
5–6 years	6,882,292	345
7–12 years	7,085,848	510
13–17 years	2,352,889	149
18+	301,741	23
Total	\$27,618,092	1,461

¹ Recipient counts are distinct and unduplicated for their given categories.

Family Opportunity Act

The **Family Opportunity Act (FOA)** Medicaid Buy-In Program was created through the **Federal Deficit Reduction Act (DRA)** of 2005. The program grants Medicaid access to children through age 18 for families up to 300 percent FPG who have a disability and are ineligible for Supplemental Security Income (SSI), Medicaid or LaCHIP because of parent income or private health insurance. Cost sharing is required for enrollment in FOA. The program offers full Medicaid benefits, though most of FOA enrollees have other health care coverage and only use the Medicaid coverage for wrap-around of services and benefits not covered through their private plan. FOA enrollees are required to keep employer sponsored insurance if the employer is paying at least 50 percent of the total annual premium. During SFY 2016/17, a total of \$71,934 was collected in premiums charged to these families for their children's coverage and \$9,403,508 in payments were made on behalf of 971 recipients.

Take Charge Plus

The Take Charge waiver program was replaced with the **Take Charge Plus** state plan program in July 2014. Under this new state plan program, women and men of any age with an income at or below 138 percent of the FPG are eligible to receive family planning services. These services include education and counseling, contraceptive medication and supplies, sexually transmitted infection (STI) screening and treatment, voluntary sterilization procedures and yearly physical exams. In SFY 2016/17, a total of \$193,084 payments were made on behalf of 23,684 recipients.

LaMOMS Program

The **LaMOMS** program increases access to pre-natal care, to improve birth outcomes and to ultimately reduce the state's infant mortality rate. Medicaid pays for pregnancy-related services, delivery and care up to 60 days after the pregnancy ends, including doctor visits, lab work, prescriptions and hospital care. LaMOMS covers women with an income of up to 138 percent FPG. The program provided payments of \$276,340,055 to 58,760 recipients in SFY 2016/17.

Louisiana Children's Health Insurance Program

Louisiana Children's Health Insurance Program (LaCHIP) is Louisiana's version of the federal State Children's Health Insurance Program (SCHIP) authorized by Title XXI of the Social Security Act. LaCHIP enrollees have the same enrollment process and benefit package as Title XIX Medicaid. To ensure stability of coverage and reduce "churning," the program provides 12 months of continuous eligibility, with the exception of LaCHIP IV, in which coverage is based on the pregnancy.

CMS pays enhanced FMAP for both services and program administration costs. LaCHIP is set up as a combination of a Medicaid expansion model for LaCHIP I, II & III, and a separate SCHIP model for LaCHIP IV and LaCHIP V (LAP).

LDH initiated the expansion LaCHIP model (LaCHIP I, II and III) in 1998 to provide quality health care coverage to additional uninsured children below 212 percent FPG and up to age 19 who are not covered by health insurance. The first phase was implemented in November 1998, the second in October 1999 and the third in January 2001. In May 2007, Louisiana implemented a SCHIP expansion program, LaCHIP IV, to extend coverage for children from conception to birth if their mothers were non-citizens and otherwise ineligible for Medicaid. Since December 2013, LaCHIP IV has covered unborn children of citizens and non-citizens with an income of up to 209 percent FPG. In SFY 2016/17, LaCHIP IV recipients are also eligible for behavioral health services under LBHP.

In June 2008, through an expansion SCHIP model, Louisiana expanded coverage for children up to age 19 between 212 percent and 250 percent FPG, known as the LaCHIP Affordable Plan (LAP) or LaCHIP V. Some cost sharing is associated with LAP through monthly premiums of \$50 a month. In SFY 2016/17 a total of \$1,058,045 was collected in premiums charged to these families for their children's coverage. In SFY 2016/17 LAP paid \$8,178,472 on behalf of 6,435 recipients.

Table 33 presents Regular Medicaid (XIX) children and LaCHIP enrollees, recipients and payments by major age groupings. Of the age groups, those between the age of 6 and 14 had the most enrollees, making up about 54 percent of the total enrolled Medicaid children under the age of 19. Also, Regular Medicaid children and LaCHIP enrollees, recipients and payments by parish are presented in **Table AA11** (which can be found on page 100 in **Appendix A**). For SFY 2016/17, LaCHIP provided \$358,801,150 in payments to 190,405 recipients.

Table 33: Regular Medicaid Children and LaCHIP Enrollees, Recipients and Payments by Age Group

Age Group	Payments	LaCHIP Enrollees ¹	Recipients	Payments	Medicaid Enrollees ²	Recipients	Payments	Total Enrollees	Recipients ³
Under 1	\$5,937,999	2,309	1,891	\$387,012,356	60,380	54,735	\$392,950,355	61,586	55,806

Total	\$358,801,150	167,651	190,405	\$2,554,307,596	775,713	816,278	\$2,913,108,746	895,976	931,276

¹ Age as of January 2017.

² LaCHIP payment and recipient amounts are underestimated due to LaCHIP's previous payment methodology.

³ Enrollee and recipient counts of LaCHIP and Regular Medicaid will not sum to the total Medicaid children count due to movement between the two types of Medicaid during the SFY. The figures are unduplicated for each Medicaid type, while numbers are unduplicated for total Medicaid children.

Medicaid Purchase Plan

The **Medicaid Purchase Plan (MPP)**, implemented in January 2004, allows working individuals with disabilities access to Louisiana Medicaid health coverage. This optional Medicaid program was authorized by the **Ticket to Work Act** and **Work Incentives Improvement Act** of 1999. Before SFY 2014/15, individuals whose income exceeded 100 percent of FPG were allowed to pay a premium to gain access to this program. As of July 2014, individuals were only allowed to take part in this program if they had an income of 100 percent of the FPG or less and do not pay any premiums. MPP provides full medical coverage. During SFY 2016/17, there were total payments of \$8,302,748 on behalf of 1,253 recipients.

Spend-Down Medically Needy

The **Medically Needy Program (MNP)** provides Medicaid coverage to individuals or families whose income is not sufficient to meet their medical needs despite being too high to qualify for categorical assistance programs. Within the MNP there are two groups of individuals or families whose medical expenses spend down (reduce) their income to levels at or below the **Medically Needy Income Eligibility Standards (MNIES)**. The first of these is **Spend-down Medically Needy**, which can apply to Children, Parents and Caretaker Relatives as well as individuals who are aged, blind, or have a disability and are not institutionalized. The second Spend-down group is **Long Term Care (LTC) Spend-down Medically Needy**, which is available to individuals or couples residing in Medicaid LTC facilities whose resources are within Medicaid limits but whose income exceeds the special income limit. Similar to regular Spend-down Medically Needy, LTC Spend-down applicants must have a reduced income due to medical expenses. During SFY 2016/17 there were 6,877 recipients in the Spend-down Medically Needy group, with payments of \$26,187,877. The LTC Spend-down Medically Needy group provided payments of \$45,489,118 on behalf of 2,476 recipients.

Provisional Medicaid

Provisional Medicaid was implemented in February 2014 to cover individuals with disabilities and those age 65 and older who meet criteria for Supplemental Security Income (SSI) but are not currently receiving it. This program allows individuals to receive full Medicaid services while their application for SSI is being considered by the Social Security Administration (SSA). Provisional Medicaid covers individuals with incomes of up to 74 percent of the FPG and assets of up to \$2,000 (\$3,000 for couples). In SFY 2016/17 payments of \$100,595,581 were made on behalf of 16,312 recipients.

Women Diagnosed with Breast or Cervical Cancer

The **Breast and Cervical Cancer Program** provides full Medicaid benefits to uninsured women who are identified through the Centers for Disease Control (CDC) **National Breast and Cervical Cancer Early Detection Program**. These women have been diagnosed with breast or cervical cancer or a pre-cancerous condition and are in need of treatment. The Medicaid program does not have income or resource limits, but the CDC requires that the income be less than 200 percent of the FPG. After February 2016 most individuals covered by this program were eligible for Healthy Louisiana. During SFY 2016/17, a total of \$24,474,571 payments were made on behalf of 1,500 recipients.

Medicare Buy-in and Medicare Savings Program

Medicare Buy-in results in major cost avoidance for Louisiana Medicaid by making Medicare the primary payer for people who are eligible for both Medicare and Medicaid ("full" dual eligibles). **Medicare Part A** premiums for those Medicaid enrollees receiving Supplemental Security Income (SSI) payments who become entitled to Medicare at age 65 are paid by the State. The State also pays **Medicare Part B** premiums for certain low income "full" dual eligibles and **Medicare Part D (Clawback)** payments for individuals receiving Part D who are dual eligible.

The **Medicare Savings Program** also provides Medicare Buy-in benefits to people with Medicare who are not eligible for full Medicaid services but have limited income and assets. Depending on income, an individual may be classified as a **Qualified Medicare Beneficiary (QMB)**, which covers both the Medicare Part A and B premiums and some co-payments and deductibles; **Specified Low-Income Medicare Beneficiary (SLMB)**, which covers the Medicare Part B premium only; or **Qualified Individual (QI-1)**, which covers the Medicare Part B premium through 100 percent federal dollars. All three programs automatically entitle the enrollee to **Low Income Subsidy (LIS)** or "Extra Help" status for the **Medicare Prescription Drug Plan** (Part D), which is funded by state funds only.

Medicare standard base premium and deductible amounts are presented in **Table 34**. Due to the cost efficiency of having Medicare as the first payer, a concerted effort is ongoing to ensure that anyone meeting the Medicare Savings Program eligibility criteria is enrolled. All recipients must be currently enrolled in Part A Medicare to receive assistance on Part B or Part D.

Table 35 presents the income eligibility requirements for each buy-in program. **Table 36** presents the expenditures and recipients for the Medicare Buy-In program over three State Fiscal Years. During SFY 2016/17, Louisiana Medicaid paid \$39,212,906 on behalf of 9,443 individuals for Part A, \$304,927,577 on behalf of 214,130 individuals for Part B and \$129,896,001 on behalf of 121,380 individuals for Part D (all state funds).

Table 34: Medicare Premiums and Deductibles¹

Calendar Year	Part A Monthly Premiums ² by Eligible Work History		Part A Deductible	Part B Monthly Premium	Part B Deductible	Part D Base Monthly Premium	Part D Deductible
	7½ years or fewer	7½–10 years

¹ Part D expenditures are all state funds.

² Recipient data comes from MMA Response File from CMS and is unduplicated by each type.

FEE-FOR-SERVICE PROVIDERS

During SFY 2016/17, over 23,000 Fee-for-Service (FFS) providers participated and offered services to Louisiana Medicaid enrollees. **Figure 20** represents total FFS payments to private and public providers (excluding managed care). The hospital category includes inpatient and outpatient services. Nursing facility payments rank at the top with 38.2 percent, personal care attendant waiver payments in second with 16.8 percent and ICF/DD payments in third place with 14 percent of total payments

Top ten provider types of total Medicaid FFS payments grouped by in-state and out-of-state (OOS) are presented in **Table 37** in addition to managed care payments and payments to the Centers for Medicare and Medicaid Services (CMS). About \$2.8 billion (98.6 percent) of the total \$2.9 billion in payments (excluding managed care and CMS payments) were paid as FFS to providers within Louisiana, while about \$39.5 million (1.4 percent) of payments were made to out-of-state providers. The negative numbers noted for out-of-state payments for the Louisiana Behavioral Health Partnership are reflective of adjustments made following the integration of specialized behavioral health into the MCOs in SFY2016.

Managed care payments accounted for \$6.6 billion for SFY 2016/17, which is about 68 percent of the total \$9.8 billion payments. Other than **Table 37**, all provider tables in this section exclude managed care and CMS payments. You can find more information about managed care providers starting on page 41.

Table 38 presents the number of participating in-state and out-of-state providers grouped by top ten provider types based on total FFS payments. Physician provider type accounted for 12,283 (49.4 percent) of the 24,881 total participating providers, making up the highest number of individual providers. With respect to in-state and out-of-state provider distribution, about 6.3 percent of participating providers of all types are from out-of-state.

¹ Provider parish is based on service provider's enrolled location on file at the time of payment.
² Excluding payments to CMS.

A ratio of 100 indicates that the sum of payments made to the providers of the parish is equal to the sum of payments made on behalf of recipients of that parish.

A ratio of less than 100 means that some of the payments made on behalf of the recipients of that parish went to providers outside of their respective parish. For example, a ratio of 95 indicates that about 5% of payments made on behalf of recipients of the parish are going out of that parish.

A ratio greater than 100 implies that providers of that parish received some payments made on behalf of recipients of other parishes. For example, a ratio of 120 implies that about 20% of payments made to the providers of that parish are made on behalf of recipients from other parishes.

Table 40 shows a regional comparison of FFS payments made on behalf of the top ten provider types based on total payments. For the remainder of this section, unless otherwise stated, all data is based on the service providers' enrolled location (parish/region/state) on file at the time of payment. The Greater New Orleans Area ranked number one, with about \$391.1 million in payments going into the region. Payments to the top ten providers in each region will differ according to a variety of factors (e.g., availability of providers, medical need of the population, etc.).

¹ The “All Others” OOS category includes payments made to CMS for Medicare Buy-ins and Part D premiums.

Table AA12–AA15 (which can be found starting on page 102 in **Appendix A**) show parish-level data about the top ten provider types. **Table AA12** reports payment distribution across provider parishes to the top ten provider types in the state based on total payments. East Baton Rouge Parish ranked number one with about \$274 million (10 percent of total) in payments going into the parish, while Cameron Parish ranked last with a negative \$61,972 in payments. This means that more money left the parish than went in. **Table AA13** presents the number of service providers by parish, **Table AA14** presents the number of recipients by parish and **Table AA15** presents payments per recipient by parish for the top ten provider types based on payments during this SFY.

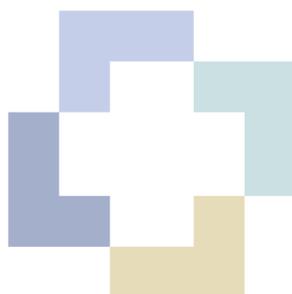

Table 41 presents FFS payments made to out-of-state providers, as well as the number of providers and recipients by state. Arizona ranked the highest in out-of-state payments with \$29.5 million (76 percent). This is due to a large number of providers whose billing locations are in Arizona but provide services in Louisiana. Provider participation was represented by 47 states. Texas had the highest number of Louisiana recipients (7,223) due to being a neighboring state.

Grand Total	\$513,041,479	1,571	241,817

¹ State provider counts may not sum to the total out-of-state count due to providers offering services in more than one state during the SFY. Also, state recipient counts may not sum to the total out-of-state count due to recipients receiving services in more than one state during the SFY. Total out-of-state figures are unduplicated for the entire out-of-state count, while other numbers are unduplicated for each state.

MEDICAID HOME AND COMMUNITY-BASED SERVICE WAIVERS

In 1981, the Federal Government created Title XIX, Home and Community-Based Services (HCBS), in order to provide home and community-based services to the elderly and persons with physical disabilities, developmental disabilities and/or mental illnesses. Since this act made an exception to the traditional Medicaid requirements, it required a waiver. **Waivers** allow flexibility for states to develop and test creative alternatives for operating their Medicaid programs that are cost neutral compared to what Medicaid would have paid in absence of the waiver.

The administration of the HCBS programs was divided into two offices, **Office for Citizens with Developmental Disabilities (OCDD)** and **Office of Aging and Adult Services (OAAS)**. OCDD has the responsibility of administering the waiver programs that serve persons with developmental disabilities, which includes Children's Choice Waiver, New Opportunities Waiver, Residential Options Waiver and Supports Waiver. OAAS has the responsibility of administering the waivers that serve the elderly and persons with adult onset disabilities, which includes the Adult Day Health Care Waiver and the Community Choices Waiver.

These waiver programs allow Louisiana residents to receive Medicaid State Plan benefits while having greater flexibility to choose where they want to live and to choose the waiver services and supports that best suit their needs. They also allow individuals to preserve their independence by staying out of institutional settings and maintaining ties to families and friends. The types of HCBS Waivers available in Louisiana during the SFY 2016/17 included:

Adult Day Health Care Waiver

The **Adult Day Health Care (ADHC) Waiver** provides health care services and activities for elderly and disabled adults at a licensed facility for five or more hours per day. This waiver thereby allows family members to assist in the care of the recipient while maintaining employment and other daily responsibilities. Transportation is provided to and from the facility. In SFY 2016/17, a total of 590 slots were filled with total payments of about \$17.3 million for waiver (\$7.8 million) and non-waiver (acute care) services (\$9.4 million).

Community Choices Waiver

The **Community Choices (CC) Waiver**, which was transitioned from the **Elderly and Disabled Adult (EDA) Waiver** on October 1, 2011, provides a more diverse and flexible array of cost effective services such as home-delivered meals, in-home sensor monitoring, assistive devices/technology, and nursing and skilled maintenance therapies. CC also provides the services that were offered under the EDA waiver which included support coordination, transition intensive support coordination, companion services, environmental accessibility adaptations, personal emergency response system, adult day health care and transitional services. The program filled a total of 4,316 slots in SFY 2016/17 with total payments of almost \$135.9 million for waiver (\$107.1 million) and non-waiver (acute care) services (\$28.8 million).

Children's Choice Waiver

The **Children's Choice Waiver** is designed to help families who provide in-home care and support for their children with developmental disabilities. The waiver, which is capped at \$16,410 for direct waiver payments per year for each waiver slot, provides family support, support coordination, family training, environmental accessibility adaptations and center based respite to disabled children from birth through age 18. During SFY 2016/17, a total of 1,145 slots were filled with total payments of about \$37.2 million for waiver (\$11.3 million) and non-waiver (acute care) services (\$25.9 million).

New Opportunities Waiver

The **New Opportunities Waiver (NOW)** provides individual and family support services, center-based respite, accessibilities adaptations modifications, employment training and transportation, community integration and development, day habilitation, emergency response systems and specialized medical equipment to disabled children and adults from age three and up. During SFY 2016/17, a total of 8,645 slots were filled with total payments of about \$506.4 million for waiver (\$447.6 million) and non-waiver (acute care) services (\$58.8 million).

Supports Waiver

The **Supports Waiver (SW)** provides supported employment, day habilitation, prevocational services, respite, habilitation and personal emergency response systems to recipients age 18 and older with a developmental disability which manifested prior to age 22. The Supports Waiver filled a total of 1,815 slots in SFY 2016/17 with total payments of about \$25.8 million for waiver (\$12.7 million) and non-waiver (acute care) services (\$13.2 million).

Residential Options Waiver

The **Residential Options Waiver (ROW)** provides an opportunity for individuals with developmental disabilities to transition from ICFs/DD and provides residential and other comprehensive supports for people with complex needs. Some of the services provided by the waiver are support coordination, community living supports, prevocational services, respite, day habilitation, and supported employment. ROW also focuses to prevent institutionalization through “crisis diversion” services and to rebalance the system by converting private ICF/DD beds into ROW shared living waiver homes. During SFY 2016/17, a total of 23 slots were filled with total payments of about \$1.2 million for waiver (\$576,968) and non-waiver (acute care) services (\$579,234).

Waivers are offered on a first-come, first-serve basis (except for the limited number of emergency slots) through the Request for Services Registry. Each waiver has limitations on the number of participants and approval for participation is subject to CMS criteria and the availability of slots and/or state funds.

Table 42 shows the types of HCBS Waivers, with the eligible population description and income limit of each waiver available during SFY 2016/17 in Louisiana. **Table 43** shows the number of allocated and filled slots along with the recipients and payments for the last five state fiscal years (**Figures 21, 22 and 23**). Due to recipients leaving and joining waiver programs throughout the year, some waivers may have higher total recipients than the number of slots available. During SFY 2016/17, 16,729 slots were filled under the HCBS waiver programs, continuing the trend of delivering services outside an institutional facility.

Table 42: Home and Community-Based Service Waivers Eligible Populations and Income Limits

Waiver	Eligible Population	Income Limit
Adult Day Health Care Waiver	Age 22 or older with a disability that meets nursing facility level of care	222% of poverty (3 times the SSI amount); Assets limit: \$2,000 for individual, \$3,000 for a couple who needs LTC, and \$117,240 for a community spouse not receiving LTC
Community Choice Waiver/EDA	Age 21 or older with a disability that meets nursing facility level of care	222% of poverty (3 times the SSI amount); Assets limit: \$2,000 for individual, \$3,000 for a couple who needs LTC, and \$117,240 for a community spouse not receiving LTC
Children's Choice Waiver	Age birth through age 18; Meets ICF-DD level of care for medical and/or psychological criteria, and meets the Louisiana definition for developmental disability	222% of poverty (3 times the SSI amount); Assets limit: \$2,000 individual
New Opportunities Waiver	Age 3 and older with a developmental disability which manifested prior to age 22; Meets ICF-DD level of care for medical and/or psychological criteria, and meets the Louisiana definition for developmental disability	222% of poverty (3 times the SSI amount); Assets limit: \$2,000 individual and \$3,000 for a couple who needs ICF-DD level of care
Supports Waiver	Age 18 and older with a developmental disability which manifested prior to age 22; Meets ICF-DD level of care for medical and/or psychological criteria, and meets the Louisiana definition for developmental disability	222% of poverty (3 times the SSI amount); Assets limit: \$2,000 individual and \$3,000 for a couple who needs ICF-DD level of care
Residential Options Waiver	Age birth and older with a developmental disability which manifested prior to age 22; Meets ICF-DD level of care for medical and/or psychological criteria, and meets the Louisiana definition for developmental disability	222% of poverty (3 times the SSI amount); Assets limit: \$2,000 individual and \$3,000 for a couple who needs ICF-DD level of care

¹ Population estimates are based on the beginning of the State Fiscal Year (SFY). U.S. Census Bureau, Population Division (December 2016). Annual Estimates of the Resident Population for Counties of Louisiana: July 1, 2016. Retrieved from <https://www.census.gov/data/tables/2016/demo/popest/counties-total.html>.

² Individual parish enrollee and recipient counts may not sum to the total state count due to movement between parishes during the SFY. The state figures are unduplicated for entire state, while numbers are unduplicated within the parish.

³ Poverty estimates are from U.S. Census Bureau, Small Area Income and Poverty Estimates (2016). Retrieved from <https://www.census.gov/programs-surveys/saipe.html>.

⁴ Payments are based on recipient parish payments.

¹ Population estimates are based on the beginning of the State Fiscal Year (SFY). U.S. Census Bureau, Population Division (December 2016). Annual Estimates of the Resident Population for Counties of Louisiana: July 1, 2016. Retrieved from <https://www.census.gov/data/tables/2016/demo/popest/counties-total.html>.

² Individual parish enrollee and recipient counts may not sum to the total state count due to movement between parishes during the SFY. The state figures are unduplicated for entire state, while numbers are unduplicated within the parish.

³ Payments are based on recipient parish payments.

¹ Parish recipient counts may not sum to the total state count due to movement between parishes during the State Fiscal Year (SFY). The state figures are unduplicated for the entire state, while numbers are unduplicated within the parish. Also, the individual plans recipient counts may not sum to the total plan type counts due to movement between the plans during the SFY.

¹ Parish recipient counts may not sum to the total state count due to movement between parishes during the State Fiscal Year (SFY). The state figures are unduplicated for the entire state, while numbers are unduplicated within the parish. Also, the individual plans recipient counts may not sum to the total plan type counts due to movement between the plans during the SFY.

¹ Parish recipient counts may not sum to the total state count due to movement between parishes during the State Fiscal Year (SFY). The state figures are unduplicated for the entire state, while numbers are unduplicated within the parish. The individual plans recipient counts may not sum to the total plan type counts nor will the prepaid and shared recipient counts sum to the total MCO count due to movement between the plans during the SFY.

¹ LaCHIP recipient counts and payments are underestimated due to LAP's former payment methodology. See technical note on page 15 for a detailed explanation. Also, LaCHIP includes the pregnant women who qualify for LaCHIP prenatal care services above the age 18 and those over the age 18 with continuous twelve month coverage.

² Individual parish enrollee and recipient counts will not sum to the total state count due to movement between parishes during the State Fiscal Year (SFY). The state figures are unduplicated for entire state, while numbers are unduplicated within the parish. Also, LaCHIP and Regular Medicaid enrollee and recipient counts will not sum to the total Medicaid children count due to movement between the two types of Medicaid during the SFY.

¹ Individual parish provider counts as well as total in-state and out-of-state may not sum to the total state count due to providers offering services in more than one parish/state during the State Fiscal Year (SFY). Cannot add parish providers to get total in-state due to providers operating in more than one parish, and providing multiple services. The state figures are unduplicated for the entire state, while other numbers are unduplicated for each parish.

APPENDIX B: PROVIDER TYPES

Private Providers

A_01. Ambulatory Surgical Clinics

Provides surgical services not requiring hospitalization where expected stay of recipient does not exceed 24 hours.

A_02. Applied Behavioral Analysis

Provides behavioral therapy to persons under 21 years of age who have been diagnosed with a condition for which ABA-based therapy services are recognized as therapeutically appropriate, including autism spectrum disorder, and have received prior authorization for these services.

A_03. Case Management Services

Assists the recipient in prioritizing and defining desired personal outcomes, defining appropriate supports and services, and accessing these supports and services.

A_04. Durable Medical Equipment (DME)

Medically necessary equipment, appliances and supplies. Providers must obtain prior authorization.

A_05. Early and Periodic Screening, Diagnosis and Treatment (EPSDT)

The child-specific component of Louisiana Medicaid designed to make health care available and accessible to children. The Health Services component of EPSDT provides evaluation and treatment for children, primarily through school-based and early intervention services providers. The Louisiana screening component of EPSDT provides a framework for routine health, mental health and developmental screening of children from birth to age 21 as well as evaluation and treatment for illness, conditions or disabilities.

A_06. Early Steps

Louisiana's Early Intervention System that provides services to families with infants and toddlers from birth to three years who have a medical condition likely to result in or have a developmental delay. Services include family support coordination, occupational therapy, physical therapy, speech therapy, psychology and audiology.

A_07. Family Planning

Services to Medicaid recipients for routine family planning services including doctor's visit, counseling, contraceptives, sexually transmitted infection (STI) screening and certain lab services.

A_08. Federally Qualified Health Centers (FQHC)

Services provided by a physician or other professional, as well as supplies incidental to the physician or other professional services. Commonly known as community health centers, migrant health centers and health care for the homeless programs. FQHCs must meet federal requirements of the U.S. Department of Health and Human Services (DHHS) prior to Medicaid enrollment.

A_09. Hemodialysis Services

Dialysis treatment (including routine laboratory services), medically necessary non-routine laboratory services and medically necessary injections reimbursed to free-standing End Stage Renal Disease (ESRD) facilities.

A_10. Home Health Services

Intermittent or part-time skilled nursing services, personal care services, and physical, occupational and speech therapy services provided by a licensed home health agency in accordance with the plan of treatment ordered by a physician. Certain services may require prior authorization.

A_11. Hospice Services

Palliative care for the terminally ill patient and support for the family.

A_12. Hospital – Inpatient Services

Inpatient hospital care and services. Inpatient services must be pre-certified in most instances if provided by an in-state hospital.

A_13. Hospital – Outpatient Services

Outpatient hospital care and services. Some outpatient services must be prior authorized.

A_14. Intermediate Care Facilities for the Intellectually Disabled (ICF/ID) Community Homes

Homes for the long-term care of intellectually disabled recipients.

A_15. Laboratory and X-Ray Services

Diagnostic testing performed by an independent laboratory or physician's office.

A_16. Long Term Personal Care Services (LT-PCS)

Optional services for elderly or disabled recipients over age 21 who qualify for nursing facility level of care. Personal care services are defined as services that provide assistance with the Activities of Daily Living (ADL) and the Instrumental Activities of Daily Living (IADL).

A_17. Mental Health Inpatient Services

Inpatient hospital care provided for behavioral health treatment not covered by MCOs.

A_18. Nursing Homes

Facilities that provide professional nursing and rehabilitation services on a 24-hours-a-day basis.

A_19. Program for All Inclusive Care for the Elderly (PACE)

A service model that provides health services, as well as in-home supports to individuals who are 55 years of age or older, meet certain qualifications, and choose to participate.

A_20. Pediatric Day Health Care (PDHC)

Facilities that provide an array of services to meet the medical, social and developmental needs of children from birth until 21 years of age who have complex medical conditions requiring skilled nursing care and medical intervention on an ongoing basis. Services require prior authorization.

A_21. Pharmaceutical Products and Services

Prescription services for prescriptions issued by a licensed physician, podiatrist, certified nurse practitioner or dentist.

A_22. Physician Services

Physician and other professional services, including those of the following professionals: physicians (including specialists), certified registered nurse anesthetists, nurse midwives, nurse practitioners, optometrists and podiatrists.

A_23. Rural Health Clinics

Provides physician or other professional services and supplies incidental to the physician or other professional services. Rural health clinics must meet federal requirements of the U.S. Department of Health and Human Services (DHHS) prior to Medicaid enrollment.

A_24. Transportation: Emergency – Ambulance

Transportation provided by an ambulance for an unforeseen combination of circumstances which demands immediate attention at a medical facility to prevent serious impairment or loss of life. All services are subject to review for medical necessity of ambulance transportation.

A_25. Transportation: Non-Emergency – Ambulance

Transportation provided by an ambulance in which no other means of transportation is available and/or the recipient is unable to ride in any other type of vehicle. All services are subject to review for medical necessity of ambulance transportation.

A_26. Waiver: Adult Day Health Care (ADHC)

Provides supervised care during part of the day to adults 22 years of age or older with disabilities or elders in a licensed day care facility.

A_27. Waiver: Children's Choice (CC)

Provides supplemental support to children from birth through age 18 with developmental disabilities in their homes. Includes support coordination, center-based respite, environmental accessibility adaptations, and family training and family support.

A_28. Waiver: Community Choices (CCW)

Provides services to elderly and disabled adults age 21 and older in their homes as an alternative to nursing home placement. Includes support coordination, personal assistance services, environmental modifications, adult day health care, home delivered meals and household supports.

A_29. Waiver: New Opportunities (NOW)

Provides home and community-based care services to individuals, age 3 and older, with developmental disabilities, as an alternative to institutional care. Includes individual/family support, respite, community integration and development, environmental accessibility adaptations, specialized medical equipment and supplies, and others.

A_30. Waiver: Residential Options (ROW)

Allows recipients to utilize the principles of self-determination and supplements the family and/or the community supports that are available to maintain the individual in the community rather than institutional care. Includes support coordination, community living supports, companion care, host home, shared living, transitional services and others.

A_31. Waiver: Supports (SW)

Provides focused, individualized vocational services to individuals age 18 and older as an alternative to institutional care. Includes support coordination, day habilitation, prevocational services, respite, habilitation and personal emergency response system.

A_32. Other Private Provider Services

Audiology, chiropractic, personal care attendant, physical and occupational therapy, prenatal clinics, psychology, social work and other services not covered above are included here.

A_33. Supplemental Payments

Payments that the federal government allows states to reimburse set provider types (hospitals, physicians, graduate medical education, etc.) for certain uncompensated care provided under Medicaid at an amount equal to what Medicare would have paid for the same service.

Managed Care Providers

A_34. Managed Care – Regular

Per Member Per Month (PMPM) payments for Louisiana Medicaid state plan core benefits and services provided through Medicaid managed care program. Healthy Louisiana Plans are operated by private providers.

A_35. Managed Care – Expansion

Per Member Per Month (PMPM) payments for Louisiana Medicaid state plan core benefits and services provided through Medicaid managed care program to individuals made eligible for Medicaid coverage through Medicaid expansion beginning July 1, 2016. Healthy Louisiana Plans are operated by private providers.

A_36. Dental Benefit Program – Regular

Specialized dental care services for adults and children provided through a system of care managed by Managed Care of North America.

A_37. Dental Benefit Program – Expansion

Specialized dental care services for adults provided through a system of care managed by Managed Care of North America to individuals made eligible for Medicaid coverage through Medicaid expansion beginning July 1, 2016.

A_38. Behavioral Health Partnership (LBHP)

Since December 2015 the Behavioral Health Partnership covers the Coordinated System of Care (CSoc), a specialized program for children and youth with complex behavioral health needs who are in or most at risk of out-of-home placement.

Public Providers

B_01. LSU – Facilities

The LSU Medical Facilities have been transitioned to Private-Public Partnerships with the exception of Lallie Kemp Medical Center (Independence), which was still publicly operated as of State Fiscal Year 2016/17.

B_02. LSU – Physicians

Services through LSU-related providers which are not associated with LSU hospitals or distinct part psychiatric units. These may include clinics, professional services, lab work, etc.

B_03. LDH – State Developmentally Disabled Facilities

State-operated homes for developmentally disabled recipients.

B_04. LDH – Villa Feliciana Nursing Home

State-operated facility that provides professional nursing and rehabilitation services provided on a 24-hour basis at Villa Feliciana Medical Complex.

B_05. LDH – Office of Public Health

Provides preventive health services and screenings through community health programs.

B_06. LDH – Office of Behavioral Health

Provides services and supports for individuals with mental illness and addictive disorders.

B_07. LDH – Human Services Districts

10 Regional entities that provide resources and programs for community support and rehabilitation such as supported living, support coordination, and vocational and rehabilitation services. The available programs vary by region.

B_08. State – Education

Louisiana Special Education Center and Louisiana School for the Deaf.

B_09. Local Education Agencies for School Based Health (SBH) Services

Services provided by local education agencies including physical therapy, occupational therapy, speech language therapy, audiology services, behavioral health services and nursing services.

Buy-Ins and Supplements

C_01. Medicare Premiums and Supplements

Payments to CMS permit the state, as part of its total assistance plan, to provide medical insurance protection to designated categories of needy individuals who are eligible for Medicaid and also meet the Medicare eligibility requirements.

C_02. Part D Clawback

Mandatory state dollars paid to CMS beginning in January 2006 to help finance Medicare prescription drug coverage offered under Part D for dual eligibles. The amount a state must pay depends on guidelines the federal government has established under the Medicare Modernization Act (MMA).

Uncompensated Care Costs

D_01. LSU – Facilities

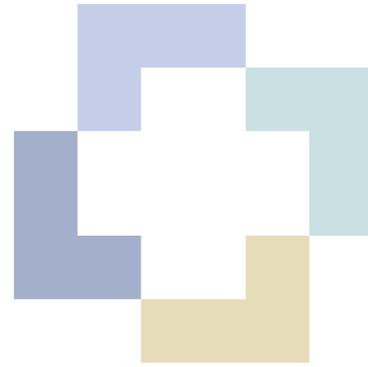

For included hospitals refer to number B_01 under Public Providers.

D_02. LDH – Office of Behavioral Health

D_03. Qualifying Private Hospitals

D_04. Greater New Orleans Community Health Connection (GNOCHC)

An 1115 Waiver established to provide primary and behavioral health services to those that live in the Greater New Orleans Area who are otherwise ineligible for Medicaid. GNOCHC was discontinued as of July 2016

APPENDIX C: GLOSSARY

Bayou Health: See *Healthy Louisiana*.

Child Health and Maternity Program (CHAMP) – Child:

Medicaid eligibility for poverty-level children under the age of 19 who are eligible for Medicaid if they meet all program requirements.

Child Health and Maternity Program (CHAMP) – Pregnant Woman: Medicaid eligibility for a CHAMP Pregnant Woman may begin at any time during a medically verified pregnancy and as early as three months prior to the month of the application if all requirements of the program are met.

Centers for Medicare and Medicaid Services (CMS):

The federal agency charged with overseeing and approving states' implementation and administration of the Medicaid and Medicare programs.

Co-payment: A fixed dollar amount paid by a Medicaid enrollee at the time of receiving a covered service from a participating provider.

United States Department of Health and Human Services (DHHS):

DHHS administers many of the “social” programs at the federal level that deal with the health and welfare of citizens of the United States. It is the federal department responsible for the Centers for Medicare and Medicaid Services.

Disproportionate Share Hospitals (DSH): Payments made by the Medicaid program to hospitals designated as serving a disproportionate share of low-income or uninsured patients. DSH payments are in addition

to regular Medicaid payments for providing care to Medicaid beneficiaries. The maximum amount of federally matched funds available annually to individual states for DSH payments is specified in the federal Medicaid statute.

Disabled Adult Child (DAC): Provides Medicaid coverage to individuals over the age of 18 who became blind or disabled before the age of 22 and has lost SSI eligibility on or after July 1, 1987, as the result of entitlement to or increase in Retirement, Survivors and Disability Insurance (RSDI).

Disabled Widows and Widowers: Provides Medicaid coverage to disabled widows/widowers (between the ages of 50 and 59) who would be eligible for SSI had there been no elimination of the reduction factor in the federal formula and no subsequent cost-of-living adjustments.

Deficit Reduction Act of 2005 (DRA): Enacted in February 2006 to reduce the rate of federal and state Medicaid spending growth through new flexibility on Medicaid premiums, cost sharing and benefits, along with tighter controls on asset transfers in order to qualify for long-term care through Medicaid.

Direct Waiver Payments: Payments made on behalf of HCBS Waiver recipients for services, such as support coordination, assistive devices, home health care, respite care, personal care attendant, supported employment, environmental modifications, personal emergency response systems, companion service, transition and transportation to and from services and/or medical care, etc.

Dual Eligible: Individuals who are entitled to Medicare and are eligible for full or partial Medicaid benefits. Medicaid may pay for all or a portion of Medicare Part A and B premiums, co-payments and deductibles for dual eligibles.

Eligible: A person who is qualified for Medicaid but may or may not be enrolled.

Enrollee: A person who is Medicaid eligible, has applied for and was approved by the Medicaid program to receive benefits regardless of whether he or she received any service and/or any claims were filed on his or her behalf. Refer to the technical note on page 15 for more details.

Expansion: Medicaid expansion under the Affordable Care Act was put into place in Louisiana in SFY 2016/17. Individuals age 19 through 64 with household income less than 138% FPG who are not eligible for Medicaid in another program and are not already enrolled in Medicaid may enroll through Medicaid expansion.

Expenditure: In this report, expenditure refers to fiscal information derived from the financial system of the Integrated State Information System (ISIS). ISIS reports the program expenditures after all claims and financial adjustments have been taken into account.

Family Independence Temporary Assistance Program (FITAP): In Louisiana, Temporary Assistance for Needy Families (TANF) is provided under a program known as the FITAP. This program provides temporary assistance for needy pregnant women and families with minor children under Title IV-A of the Social Security Act. The program provides eligible individuals with cash assistance and supportive services if those families meet eligibility requirements and are otherwise complying with FITAP requirements.

Family Opportunity Act (FOA): Implemented in October 2007 under the DRA, FOA is a buy-in program that grants Medicaid access to children who have a disability, but have maxed out their private health insurance or are ineligible for Supplemental Security Income (SSI), Medicaid, or LaCHIP because of parent income or private health insurance. FOA covers children up to 300 percent of the FPG.

Federal Fiscal Year (FFY): The FFY starts October 1 and ends September 30 of the next calendar year.

Federal Medical Assistance Percentage (FMAP): FMAP is the percentage the federal government will match on

state money spent on Medicaid; also known as Federal Financial Participation (FFP).

Financial Eligibility: Limits on the amount of income and the amount of resources an individual is allowed to have in order to qualify for coverage.

Full Dual Eligible: Medicare beneficiary who is eligible for full Medicaid services. Medicaid pays the deductible and co-payments for Medicare services and may cover other Medicaid services not covered by Medicare.

Healthy Louisiana: The term used for the managed care health plans which coordinate physical health care for Medicaid recipients. Healthy Louisiana consists of five health plans which have the same core benefits and services, but may offer recipients enhanced benefits.

Parents and Caretaker Relative Group: Provides Medicaid coverage to individuals living with and assuming primary responsibility for the care of a dependent child under the age of 18. This group includes individuals with income less than or equal to 19 percent of the FPG.

Personal Care Waiver Services: Services that provide companion services offered by Home and Community-Based Service (HCBS) Waivers.

Inflation: Inflation is an overall general price level increase of goods and services in an economy, usually measured by the Consumer Price Index (CPI) and the Producer Price Index (PPI) by the Bureau of Economic Analysis.

LaMOMS: Medicaid program that provides pregnancy-related services, delivery and care up to 60 days after delivery for pregnant women with income up to 133 percent of the FPG.

Louisiana Behavioral Health Partnership (LBHP): A fully integrated managed care system for behavioral health. LBHP coordinates services across multiple agencies and is operated by Magellan Health Services, Inc.

Long-Term Care (LTC): An applicant/recipient may be eligible for Medicaid services in the LTC program if he or she requires medical assistance for a defined activity of daily living (ADL) such as dressing, eating, bathing, ambulation, etc. These services may be provided either in a facility, in an individual's home or in the community.

Louisiana Children's Health Insurance Program (LaCHIP): As a result of the Federal Balanced Budget Act of 1997 and the Social Security Act, the federal

government has provided states with funding for a state children's health insurance program with enhanced FMAP. In Louisiana, the program is called LaCHIP. LaCHIP is a Medicaid expansion that covers children less than 19 years old and up to 212 percent of the FPG.

LaCHIP Affordable Plan (LAP): A stand-alone program that provides Medicaid coverage for children under the age of 19 not covered by health insurance and is below 250 percent FPG. Some cost sharing is associated with LAP through monthly premiums and co-payments.

Low Income and Needy Care Collaboration

Agreement (LINCCA): Are agreements between private hospitals, and public state and local hospitals, and hospital districts that allow private hospitals to take on services for low-income and needy patients which alleviates the financial strain upon the government entities that can then utilize those funds to supplement the Medicaid program and draw down federal financial participation. There is no legal obligation to contribute funding to the Medicaid supplemental payment program and is done at their sole discretion.

Managed Care: A health care delivery system that manages the delivery of Medicaid services through contracted arrangements between state Medicaid and managed care organizations (MCOs).

Mandatory Services: In order to receive federal Medicaid funding, each state must agree to provide mandatory services to the Medicaid eligible population. Along with mandatory services, states are free to offer optional services and receive federally matched funds for all of them. Some programs are limited by eligibility requirements or service limits, but all Medicaid services must be provided to enrolled children under age 21 if the services are deemed medically necessary.

Medicaid Purchase Plan (MPP): Allows working individuals up to 100 percent of the FPG with disabilities to "buy in" to Louisiana Medicaid health coverage.

Medically Needy Program (MNP): Provides Medicaid coverage in a categorical assistance program when income and resources of the individual or family are sufficient to meet basic needs, but are not sufficient to meet medical needs according to the state's established Medically Needy standards.

Medicare: Like Medicaid, Medicare was created by the Social Security Act of 1965, but the two programs are

different. Medicare is a federally paid and administrated insurance program that has four parts of coverage: Part A, Part B, Part C and Part D.

Medicare Part A: The hospital insurance portion of Medicare. Part A covers inpatient hospital care, skilled nursing facility care, some home health agency services and hospice care.

Medicare Part B: The supplementary or "physicians" insurance portion of Medicare. Part B covers services of physicians/other suppliers, outpatient care, medical equipment and supplies, and other medical services not covered by the hospital insurance part of Medicare.

Medicare Part C: Provides for a managed care delivery system for Medicare services.

Medicare Part D: Provides Medicare beneficiaries with assistance paying for prescription drugs. It was enacted as part of the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (MMA) and went into effect on January 1, 2006. Unlike coverage in Medicare Parts A and B, Part D coverage is not provided within the traditional Medicare program. Instead, beneficiaries must affirmatively enroll in one of the many hundreds of Part D plans offered by private companies.

Non-Waiver Payments: All other payments, besides those for direct waiver services, made on behalf of HCBS Waiver recipients, such as physician, hospital, pharmacy, etc.

Partial Dual Eligible: Medicare beneficiary who does not qualify for full Medicaid services. Medicare Savings Program serves the partial eligibles by assisting with Medicare premium and cost sharing programs through the Medicaid program.

Payment: Refers to information derived from the claims-based data sets produced by the Medicaid fiscal intermediary and the Medicare Buy-in and Part D premiums. Refer to the technical note on page 15 for a detailed explanation.

Personal Care Services (LTC/PCS/PAS): Services under the state plan, that offers EPSDT, Long Term Care, Personal Assistance Services and Personal Care Services.

Prepaid Health Plan: An entity that is risk-bearing, managed care organization health care delivery system that is responsible for the provision of specified Medicaid State Plan services.

Prior Authorization: A management tool used to verify whether proposed treatments/services are medically necessary and appropriate for the patient.

Program for All-Inclusive Care for the Elderly (PACE): Program that coordinates and provides all needed preventive, primary, acute and long term care services so that older individuals can continue to live in the community.

Provider: A person, group or agency that provides a covered Medicaid service to a Medicaid recipient.

Qualified Medicare Beneficiary (QMB): Individuals who have income up to 100% of the FPG or less, have resources that do not exceed twice the limit for SSI eligibility. Medicaid pays their Medicare Part A premiums, if any, Medicare Part B premiums, Part D, Medicare deductibles and coinsurance for Medicare services provided by Medicare providers.

Qualifying Individuals-1 (QI-1): Qualifying Individuals-1 went into effect January 1, 1998. There is an annual cap on the amount of money available, which may limit the number of individuals in the group. These individuals are entitled to Medicare Part B, have income of 120% to 135% of FPG, have resources that do not exceed twice the limit for SSI eligibility and are not otherwise eligible for Medicaid.

Recipient: A person is considered a 'recipient' if any claims related transaction(s) or Medicare Buy-in or Part D premium payment(s) occurred on behalf of that person during the state fiscal year. The data for this report is based on a claim's date of payment (DOP). Refer to the technical note on page 15 for a detailed explanation.

Shared Savings Health Plan: An entity that serves as a primary care manager by providing enhanced primary care case management in addition to contracting with primary care providers for primary care management.

Slot: Medicaid Waivers are limited to a certain number of recipients based on funding availability and recommendations by CMS. The available positions are referred to as slots.

Specified Low-Income Medicare Beneficiary (SLMB): Medicaid pays their Medicare Part B premium only. The eligibility requirements are the same as for the Qualified Medicare Beneficiary (QMB) except that income limits fall between 100% and 120% of FPG.

Spend-Down: When an individual may qualify for Medicaid coverage even though their countable income is higher than the specified income standard by "spending down." Under this process, the medical expenses that an individual incurs during a specified period are deducted from the individual's income during that period. Once the individual's income has been reduced to a state-specified level, the individual qualifies for Medicaid benefits for the remainder of the period.

State Fiscal Year (SFY): The SFY is a 12-month calendar that begins July 1 and ends June 30 of the following calendar year.

State Plan: The State Plan is the formal agreement between Louisiana and Centers for Medicare and Medicaid Services (CMS) regarding the policies governing the administration of the state's Medicaid program. Amendments to the State Plan must be submitted to CMS for review and approval no later than the end of the quarter in which the amendment becomes effective. Federal financial participation (FFP) for any added costs is not available to the state until the amendment is approved.

Supplemental Payments: Payments that the federal government allows states to reimburse set provider types (hospitals, physicians and ambulance) for certain uncompensated care provided under Medicaid at an amount equal to what Medicare would have paid for the same service.

Supplemental Security Income (SSI): A federal cash assistance program for low-income aged, blind and disabled individuals established by Title XVI of the Social Security Act. States may use SSI income limits to establish Medicaid eligibility.

System of Care: A spectrum of effective, community-based services and supports for children and youth with or at risk for mental health or other challenges and their families, that is organized into a coordinated network, builds meaningful partnerships with families and youth, and addresses their cultural and linguistic needs, in order to help them to function better at home, in school, in the community and throughout life.

Temporary Assistance for Needy Families (TANF): TANF, commonly known as welfare, is the monthly cash assistance program for poor families with children under the age of 18. The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA) (Pub. L. 104-193), as amended, is the welfare reform law that established the TANF program.

Uncompensated Care Costs (UCC): Payments to hospitals for providing inpatient and outpatient care for uninsured and low income individuals who are not financially capable of paying for the medical services they receive. These hospitals are Disproportionate Share Hospitals, meaning they provide a certain percentage of their total patient care to the indigent population.

Unduplicated (Eligible/Recipient): An unduplicated eligible/recipient is a uniquely counted eligible/recipient who is counted only once during a given period for any particular category of interest.

Upper Payment Limit (UPL): Payments that the federal government allows states to reimburse hospitals for

certain uncompensated care provided under Medicaid at an amount equal to what Medicare would have paid for the same service, which is typically at a higher amount. UPL is financed with both state and federal matched funds.

Waiver: A Medicaid waiver grants states permission to waive certain federal requirements in order to operate a specific kind of program. Federal law allows states to enact two types of Medicaid waivers: Program Waivers [1915 (b), 1915 (c)] and Research and Demonstration Waivers [1115].

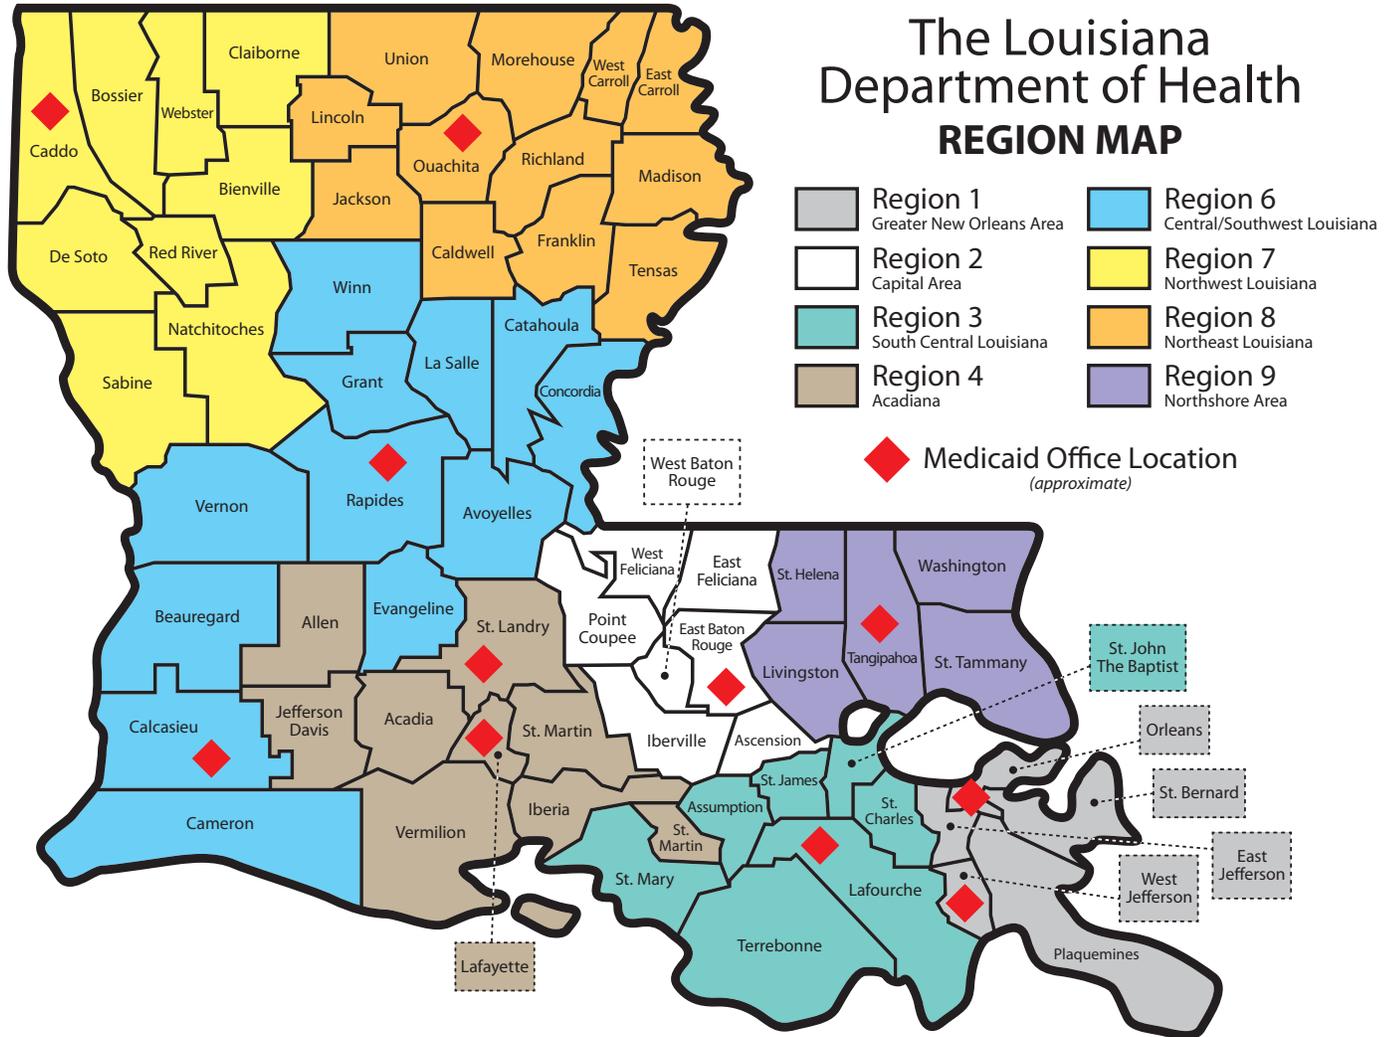

Youth Aging Out of Foster Care: Provides Medicaid coverage to youth between the ages of 18 and 21 who are transitioning out of foster care in Louisiana.
