FROM:

SUBJECT: Reimbursement Rates for July 1, 2009

DATE: August 4, 2009

A calculation of your facility's rate effective for services from July 1, 2009 through June 30, 2010 is attached. This rate reflects the full amount of the rebase.

This calculation includes a \$4.67 reduction which will remain in effect until the ADHC provider's rate is rebased using cost reports that do not include the cost of delivering support coordination services.

Facilities are required by the ADHC Payment Methodology Rule published October 20, 2008, to spend no less than 90% of the direct care component in the rate. If a facility fails to expend the direct care expenditure floor, the department will cost settle their direct care.

If additional information is required, please contact Rate and Audit Review at (225) 342-6116.
