ReportViewer ActiveX Information

Option 1

Please follow the steps to install ReportViewer ActiveX on client machine.

 The ReportViewer Web server control provides an ActiveX print control for server reports. This control downloads automatically the first time the **Print** command on the ReportViewer toolbar is clicked, and is installed on the client computer (if you see a yellow bar on your browser, choose to download the ActiveX and click on **Print** button again to install the ActiveX. If the user does not install the control, or if support for the print control is disabled on the report server, the **Print** command cannot be used. After the control is installed, users can use the print control to print server reports configured to run in the ReportViewer Web server control.

Depending on browser settings, each user might need to configure the browser to enable an ActiveX control download. To configure Internet Explorer to allow ActiveX control downloads, follow these steps:

1. In Microsoft Internet Explorer, from the **Tools** menu, choose **Internet Options**, and then click the **Security** tab.
2. Select the **Trusted sites** Web content zone, and then click **Sites**.
3. Type the website server URL. By default, this is https://<LEERS Site name> if you are using Secure Sockets Layer (SSL).
4. Click **Add**, and then click **OK**.
5. Click the **Custom Level** button. Scroll to the **ActiveX controls and plug-ins** node.
6. Click **Enable** for **Download signed ActiveX controls**, and then click **OK**.

Option 2

If you **copy** the files listed below from **RSClientPrint.cab file (Reporting Services attached in the email, this is a windows 7 cab file)** under the folder **C:\WINNT\system32** for client computers. **This option will need access rights to the folder**.

RSClientPrint.dll
RSClientPrint_1028.rll
RSClientPrint_1031.rll
RSClientPrint_1033.rll
RSClientPrint_1036.rll
RSClientPrint_1040.rll
RSClientPrint_1041.rll
RSClientPrint_1042.rll
RSClientPrint_1043.rll
RSClientPrint_1046.rll
RSClientPrint_1053.rll
RSClientPrint_2052.rll
RSClientPrint_3082.rll

Register the RSClientPrint.dll dll file by running the regsvr32.exe command on the command prompt as shown.
c:\regsvr32.exe c:\winnt\system32\rsclientprint.dll
