

Louisiana Medicaid Outpatient Pharmacy Benefit

Presentation Update

- LDH emailed response to Randal Johnson 10/5/2022
- The set of data in Slide 24 cannot be compared to Enrollment Trends report.
 - The Trends report is the source of the total unduplicated population of 1.9M. This report is populated directly after the month ends and is a point in time report.
 - Previous months being reported do not get an updated enrollment. This is different from the enrollment counts provided on the slide 24, which is an aggregate of SFY'21.
- These reports have different purposes/data sources and aren't meant to be compared.

Pharmacy Data

Medicaid Recipients				
	SFY 19	SFY 20	SFY 21	SFY 22
FFS	338,860	342,744	316,116	342,999
MCO	1,560,646	1,641,797	1,728,514	1,802,508

Medicaid Recipients with Pharmacy Claims				
	SFY 19	SFY 20	SFY 21	SFY 22
FFS	29,905	27,801	24,614	23,702
MCO	1,209,709	1,162,293	1,182,196	1,295,686

Source: LDH Business Analytics September 2022

- The 316,116 FFS enrollees in SFY'21 consist of anyone enrolled in a Medicaid program within the 12 months that did not have full coverage, or 'P', linkage to an MCO.
- Approximately 84%, of the 316K SFY'21 enrollees, were not eligible for full MCO coverage due to having Medicare Part B coverage. Members with Medicare Part B coverage are enrolled in a full Medicaid coverage program, the State is responsible for the co-pay of servicing using FFS.

State Fiscal
Year (SFY)
2021
(July 1, 2020-
June 30,
2021)

Total Number of Scripts	Total Amount Reimbursed	Estimated Total Net Rebates Collected	Unduplicated Pharmacy Recipients
19,179,502	\$1,970,777,387.03	\$998,987,304.64	1,671,301

Louisiana Medicaid pharmacy expenditures, federal (mandatory) rebates and supplemental rebates (state negotiated) are split between the state and federal government according to the Federal Medical Assistance Percentages (FMAP).

SFY 21 Blended Rate: **State 19.15%** / Federal 80.85%

	Total Amount Reimbursed	Estimated Total Net Rebates Collected
State	\$377,403,869.62	\$191,306,068.84
Federal	\$1,593,373,517.41	\$807,681,235.80
Total	\$1,970,777,387.03	\$998,987,304.64

Source: Magellan SIN report October 2021

- Slide 25 is accurate as reported by Magellan SIN report.
- The 1.6M represented in the slide for unduplicated pharmacy recipients is not the total enrolled population figure. It is the number of recipients who had at least one (1) claim that was invoiced.
- The 19,179,502 represents the total number of prescriptions that can be rebated.
