

## Louisiana Medicaid Preferred Drug List (PDL)/Non-Preferred Drug List (NPDL)

- The PDL applies to **all** individuals enrolled in Louisiana Medicaid, including those covered by one of the managed care organizations (MCOs) and those in the Fee-for-Service (FFS) program
- The PDL is a list of over 100 therapeutic classes reviewed by the Pharmaceutical & Therapeutics (P&T) committee. With the exception of excluded drug classes listed in the provider manual, medications that are not included in this PDL are almost always covered without the requirement of prior authorization. **Examples: spironolactone, hydrochlorothiazide, amoxicillin suspension**
- To locate any medication on this list, you may use the keyboard shortcut **CTRL + F** to search.
- There is a mandatory generic substitution **unless** the brand is preferred, and the generic is non-preferred. When the brand is preferred and the generic is non-preferred, no special notations are required by the prescriber and the pharmacist enters “9” in the DAW field 408-D8.
- When the brand is non-preferred and the prescriber has determined it to be medically necessary, “Brand medically necessary” or “Brand necessary” must be written on the prescription in the prescriber’s handwriting or noted via an electronic prescription and the pharmacist enters “1” in the DAW field 408-D8. For more information, please refer to the [Provider Manual](#).
- Medications listed as non-preferred are available through the prior authorization process. Each Managed Care Organization (MCO) and Fee-for-Service (FFS) have their own prior authorization departments. All MCOs and FFS use the same [Prior Authorization Request Form](#).
- Some medications require a diagnosis code at the pharmacy to indicate the condition treated or to override a limit, such as quantity, patient age, or duration limit. These medications are found on the [Diagnosis Code List](#).
- New medications in classes reviewed by P&T will be added as non-preferred and require prior authorization until the next P&T committee meeting. Please refer to the following criteria: [New Drugs Introduced into the Market / Non-Preferred](#)
- This PDL/NPDL applies only to medications dispensed in the outpatient retail pharmacy setting.
- Requests for overrides to use a medication outside of established limits, such as diagnosis or quantity limits, can be made according to the: [Medically Necessary Policy](#)
- Any statement highlighted and underlined in blue is a hyperlink to more information.
