

Louisiana Medicaid
Diabetes – Hypoglycemics – Sodium Glucose Co-Transporter-2 (SGLT2) Inhibitors

The *Louisiana Uniform Prescription Drug Prior Authorization Form* should be utilized to request prior authorization for non-preferred SGLT2s.

Additional Point-Of-Sale edits may apply.

By submitting the authorization request, the prescriber attests to the conditions available HERE.
~~*These agents may have **Black Box Warnings** and/or may be subject to **Risk Evaluation and Mitigation Strategy (REMS)** under FDA safety regulations. Please refer to individual prescribing information for details.*~~

Approval Criteria for Initiation and Continuation of Therapy

Approval Criteria for Initial and Reauthorization Requests

- There is no preferred alternative that is the exact same chemical entity, formulation, strength, etc.; **AND**
- Previous use of a preferred product* - ~~ONE~~ of the following is required:
 - The recipient has tried at least TWO preferred products that resulted in:
 - ~~a treatment failure with at least one TWO preferred products;~~ **OR**
 - ~~The recipient has had an intolerable side effect to at least one the preferred products;~~ **OR**
 - The recipient has *documented contraindication(s)* to the preferred products that are appropriate to use for the condition being treated; **OR**
 - There is *no preferred product that is appropriate* to use for the condition being treated (e.g., established cardiovascular disease); **OR**
 - The prescriber **states on the request** that the recipient is currently using the requested medication **AND ONE** of the following ~~applies is true and is stated on the request~~:
 - There is evidence in pharmacy claims of at least 60 days of the requested medication within the previous 90-day period; **OR**
 - There is evidence in pharmacy claims of less than 60 days of the requested medication **AND** the prescriber states the recipient has been treated with the requested medication in an inpatient facility; **OR**
 - There is evidence in pharmacy claims of less than 60 days of the requested medication **AND** the prescriber has verified that the pharmacy has dispensed at least 60 days of medication (billed to other insurance, and therefore not viewable in pharmacy claims).; **AND**

~~By submitting the authorization request, the prescriber attests to the following:~~

**NOTE: Some therapeutic classes may only have one preferred product. Some may only have one preferred product that is appropriate for the condition being treated. The recipient may have documented contraindications to all but one preferred product. In these or similar cases, failure with only one preferred product is sufficient to meet this criterion.*

- ~~○ The prescribing information for the requested medication has been thoroughly reviewed, including any Black Box Warning, Risk Evaluation and Mitigation Strategy (REMS), contraindications, minimum age requirements, recommended dosing, and prior treatment requirements; AND~~
- ~~○ All laboratory testing and clinical monitoring recommended in the prescribing information have been completed as of the date of the request and will be repeated as recommended; AND~~
- ~~○ The recipient has no concomitant drug therapies or disease states that limit the use of the requested medication and will not be receiving the requested medication in combination with any other medication that is contraindicated or not recommended per FDA labeling.~~

Duration of approval for initiation and continuation of therapy: 12 months

Duration of initial and reauthorization approval: 12 months
