Executive Summary

Louisiana law requires the Louisiana Department of Health to provide an annual report of its Coordinated System of Care, or CSoC program. Children and youth who are eligible for these services are enrolled in the CSoC program.

CSoC is a Medicaid waiver that allows the Department of Health to offer a network of coordinated behavioral health services to children who meet certain eligibility requirements. Magellan Health of Louisiana, Inc. coordinates, administers and manages the services for the children and youth who may be eligible for or enrolled in the CSoC waiver.

This report address questions and requests made by the Legislature about the program and its management. Data included in this report are for provider participation, member enrollment, requests for services and referrals as well as claims and payment information.

The measures included in this report are used to demonstrate that the following outcomes expressed in the legislation are achieved:

- Continued implementation of the Coordinated System of Care;
- Advancement of resiliency, recovery and a consumer-focused system of person-centered care; and
- Implementation of best practices and evidence-based practices that are effective and supported by data collected from measuring outcomes, quality and accountability.

Preface

In December 2015, LDH integrated specialized behavioral health services that were previously provided under the Louisiana Behavioral Health Partnership (LBHP), by adding them to the services offered through the state's Healthy Louisiana managed care program for physical and primary healthcare.

The Coordinated System of Care (CSoC) is a specialty waiver program that remains excluded from the Healthy Louisiana program. The CSoC is a specialized program for children and youth who have the most complex behavioral health needs and are in or at the most risk of out-of-home placement. The CSoC offers a comprehensive array of intensive services with the goal of enabling high-risk children and youth to remain in or return to their homes and communities. Wraparound, the model used to meet the goals of CSoC, is a process to help youth with complex behavioral health needs benefit from individualized, coordinated care planning. This process produces a single plan of care that coordinates all agencies and providers. The Department applied for statewide implementation of CSoC with the Centers for Medicare and Medicaid Services (CMS) in state fiscal year (SFY) 2014 and received approval for statewide expansion in September 2014. With statewide expansion, a maximum of approximately 2,400 youth who are at greatest risk and have the most complex needs may be enrolled in the program.

LDH offers the following measures and outcomes as part of this CSoC annual report. As required by R.S. 40:1253.3, the reporting period enclosed includes SFY 2019 (July 2018-June 2019) with Magellan. In preparation for the submission of this report, LDH worked with a governmental auditing firm to independently review the data submitted by Magellan. The data submitted by Magellan was found to be within a reasonable and expected variance from the review performed.

1 PROVIDER INFORMATION

Since implementation of CSoC, OBH and Magellan have overseen the expansion of the network of providers available to deliver CSoC services across the state. This provider number is defined by entry point, so a provider is identified by each location where services are provided. Magellan’s provider network includes providers of specialized behavioral health state plan services and specialized CSoC services including Short Term Respite, Youth Support and Training, Parent Support and Training, and Independent Living Skills Building. CSoC provider network data captures a point in time in the cycle of provider credentialing and contracting. For purposes of this transparency report, provider data is reflective of the CSoC network as of June 30, 2019.

Provider Type:	Number of Contracted Providers (6.30.19)
Facility	396
Independent Practitioner	1988
Credentialing Status:	
Credentialed	2,384
Specialty of Service:	
ASAM Level I -Outpatient	165
ASAM Level II.1 - Intensive Outpatient	42
ASAM Level IV.D - Medically Managed Inpatient Detoxification	7
Community Psychiatric Support and Treatment (CPST)	329
Crisis Intervention (CI)	301
Crisis Stabilization (CS) (CSoC Service)	1
Functional Family Therapy (FFT)	27
Homebuilders®	10
Independent Living/Skills Building (CSoC Service)	160
Inpatient Psych Hospital	21
Parent Support and Training (CSoC Service)	1

Psych Outpatient	2,321
Psychosocial Rehabilitation (PSR)	324
Short Term Respite (CSoC Service)	21
Wraparound Facilitation (CSoC)	9
Youth Support and Training (CSoC Service)	1

Please note that many independent practitioners have separate subspecialties of service that are not listed above. The comprehensive list of providers enrolled in the Magellan network prior to June 30, 2019, along with their specialties and subspecialties, credentialing date and provider type, can be found at the following link:

<http://ldh.la.gov/index.cfm/newsroom/detail/5640>.

2 MEMBER INFORMATION

Over 4,400 individuals were enrolled as members in Magellan's health plan for CSoC. These members had access to information, education and services under the CSoC program. Details of the following legislative request can be found in the attached Appendix II. The data represents the 2019 fiscal year (07/01/18-06/30/19).

Statutory Number:	Data Book Tab Label:	Statewide Total 2019
SECTION 5:	Appendix II: CSoC Members Receiving Services	4,432

*Counts reflect unduplicated recipients or enrollees

3 PERCENTAGE OF REFERRALS CONSIDERED IMMEDIATE, URGENT AND ROUTINE

Referrals are processed based on the behavioral health needs of the client when presenting for authorization by Magellan for services. Referrals for service are grouped into the following classifications: a life-threatening emergency requiring immediate attention; an urgent need, which is generally when a client could face severe harm or pain if not expediently linked to services through urgent care(within 48 hours) ; or a routine behavioral health service need (within 10 days). Upon referral, Magellan authorizes services based on the necessary clinical criteria.

Percentage of Referrals Considered Immediate, Urgent and Routine (SFY 2019)

Parish Name	EMERGENT		URGENT		ROUTINE		Overall Avg Hours to Decision

4 CLEAN CLAIMS

The Centers for Medicare and Medicaid Services (CMS) defines a clean claim as one that can be processed without obtaining additional information from the provider of the service or from a third party. It includes a claim with errors originating in the state or contractor's system. It does not include a claim from a provider who is under investigation for fraud and abuse or a claim under review for medical necessity. A provider submits a clean claim by providing the required data elements on the standard claims forms along with any attachments, additional elements or revisions of which the provider has knowledge. However, Magellan does not typically require attachments or other information in addition to the standard forms.

The requested data includes the percentage of clean claims paid within 30 days for each facility. This information is provided by parish. Also included in this data element is the average number of days taken to pay all claims at each facility by parish. Overall, Magellan paid over 98% of Clean Claims within 30 days.

5 CLAIMS DENIED

There were 63,079 denied claims compared to 261,926 paid claims during the SFY 2019, which means that denials account for 24% of all claims. This overall 24% denial rate (count denied / count paid) does not take into account that providers are often paid on resubmissions of previously denied claims and that all claims denied as duplicates have an associated paid claim.

There are multiple reasons a claim may be denied. Most frequently, a claim is denied due to errors in the submission process. Common errors include the provider submitting duplicate claims, the member being ineligible for the service submitted for reimbursement, or a lack of prior authorization. For the SFY 2019, duplicate claims is the primary reason for claims denial at 25%, 16% account for no authorization on file, and another 15% of denied claims account for invalid procedure code/modifier combination. Please note that this requested list of items is not exhaustive of causes for claims denial.

Top 5 Reasons for Denial of Claims (SFY 2019)

Denial Type	Denial Type Count	All Denial Count	% of All Denials
Duplicate, previously submitted	15,794	63,079	25%
No Authorization on File	10,296	63,079	16%
Invalid procedure code/modifier combination	9,839	63,079	15%
Roster Provider Not Registered	6,248	63,079	10%
Patient not eligible	4,378	63,079	7%

6 PERCENTAGE OF MEMBERS ASKED TO PROVIDE CONSENT FOR RELEASE OF INFORMATION TO COORDINATE WITH PRIMARY CARE PHYSICIAN

Magellan monitored the percent of members asked to provide consent for Release of Information to coordinate with Primary Care Physician through the Treatment Record Review Process. Details of the Treatment Record Review process are as follows:

- Treatment record review is one component of Magellan’s oversight of the quality of its network providers. It is a process in which documentation and record keeping processes are reviewed to ensure compliance with quality standards and federal/state guidelines.
- Treatment record review results are reviewed by the Quality Improvement Committee and the Regional Network and Credentialing Committees (RNCC) for the purpose of identifying opportunities for improvement in individual provider and overall network treatment documentation and adherence to clinical practice guidelines.
- Results of individual practitioner/provider treatment record reviews are also reviewed by an RNCC and/or local designated medical director prior to making decisions about credentialing, re-credentialing, corrective or disciplinary action, or termination from Magellan’s provider network.

The results for the time period 07/01/2018 through 06/30/2019 are outlined in the table below.

**Percentage of Members Asked to Provide
Consent for Release of Information to
Coordinate with Primary Care Physicians
July 1, 2018- June 30, 2019**

Total Providers Reviewed	80
Total Records Reviewed	580
Total Records in Compliance	520
% of Records with Release of Information of Primary Care Physician	89.7%

A total of 80 providers were reviewed from July 1, 2018 to June 30, 2019 as part of the treatment record review process. Of the 580 records reviewed, 520 were in compliance for releases of information with primary care physicians (PCPs) and other healthcare providers for a total compliance rate of 89.7%. Magellan implemented provider remediation actions for any provider not meeting the minimum performance threshold.

7 BEHAVIORAL HEALTH IN EMERGENCY ROOMS

Magellan is responsible for professional services claims provided by Psychiatrist or Licensed Mental Health Professionals during an Emergency Room visit.

8 REPORT ON QUALITY MANAGEMENT

Magellan operates the CSoC Care Management Center in Baton Rouge that serves as the hub of its Louisiana operations for the CSoC program. Further information on the specific reporting request made in Act 158 (formerly Act 212) relative to Magellan’s performance on quality management can be found in the following attached reports:

- Quality Program Description (2018-2019)
- Louisiana Coordinated System of Care Annual Evaluation of the Quality Program (November 1, 2018 – December 31, 2018)

The staffing resources allocated to the quality program are detailed in the Quality Program Description (2018-2019). The team consists of multiple Louisiana-based and corporate level staff, with at least eight full-time devoted personnel to support quality functions as indicated in the table below.

Louisiana CSoC CMC Staff	Percent of FTE Allocated to QI
CSoC Program Director	10%
Medical Director	25%
CSoC Clinical Director	25%
Manager Clinical Services	10%
Member Service Administrator	10%
Compliance Officer	25%
Quality and Outcomes Director	100%
QI Project Manager (2)	100%
Family Support Organization (FSO) Coordinator	100%
QI Clinical Reviewer (2)	100%
Appeal and Grievance Coordinator	100%
Lead Data Reporting Analyst (1.5)	100%
Managed Care Organization Liaison	25%
CSoC Coordinators (5)	50%
Provider Network Director	20%
Network Coordinators (2)	50%

Corporate Staff	Percent of FTE Allocated to QI
Vice President Quality Improvement	25%
National Director, Quality Improvement	10%
National Director, Quality & Accreditation	15%
Vice President, Outcomes & Evaluations	20%
Chief Medical Officer – Behavioral Health	10%

Magellan used the following mechanisms for generating input and participation of members, families/caregivers, and other stakeholders in the monitoring of service quality and determining strategies to improve outcomes:

- Member satisfaction surveys, which are administered on an annual basis for the purpose of assessing member satisfaction with service delivery, access and outcomes of care.
- Fidelity monitoring surveys, which are conducted on an annual basis to assess member and caregiver satisfaction with wraparound facilitators.
- Wraparound facilitator contacts with members and caregivers on a monthly basis to identify and remediate any reported access to care issues.
- CSoC Governance Board participation.

In order to demonstrate its compliance with all federal regulations at 42 CFR 438.240 and the utilization management requirements by the Medicaid program as described at 42 CFR 456, Magellan provided the following:

42 CFR 456

For the purpose of meeting the mandates of federal regulation 42 CFR 456, Magellan’s clinical services department includes personnel responsible for the utilization management (UM) functions. The UM program is supported at both the corporate and regional levels with designated staff and committees that include a behavioral health practitioner. Each care management center (CMC) has an independent utilization management committee or standing utilization management agenda items integrated within its quality improvement committee (QIC) to monitor the utilization management/case management program for effectiveness and impact on its member population. Guidelines have been established for density and geographic distribution based on the covered population and statewide service area. These guidelines are used by Magellan to develop and maintain a network of contracted behavioral healthcare providers from individual practitioners to

organizational providers with a wide range of expertise and clinical specialties to support member access to covered behavioral health services. Industry credentialing standards for behavioral health providers are followed, and contracted providers are made aware of the utilization management program activities conducted by Magellan via the Magellan Behavioral Health Provider Handbook.

Further details surrounding the utilization management program and its outcomes and measures can be found in the attached documents titled Utilization Management and Care Management Program Description and Louisiana Coordinated System of Care Quality Improvement Program Evaluation.

42 CFR 438.240

As per the requirements of 42 CFR 438.240, Magellan's Quality department monitors performance measures on an ongoing basis for the purpose of assessing the quality and appropriateness of care furnished to CSoC members and to detect and address under and over-utilization. Magellan further works to enhance quality through the implementation of performance improvement projects (PIPs), which are required by the Centers for Medicare & Medicaid Services (CMS) and are part of the external quality review (EQR) function of managed care. Performance improvement projects are focused initiatives used to improve specific quality performance measures through ongoing measurements and interventions that are expected to have a favorable effect on health outcomes and member satisfaction. The PIP implemented for contract year two was Improving the Rate of Attendance to Follow-up Appointments after Hospitalization for Mental Illness with the goal of meeting or exceeding the national 90th percentile. Performance slightly decreased from baseline to the re-measurement period, which was not considered statistically significant; however, performance remained slightly below the national 90th percentile. In addition, Magellan implemented a PIP titled Improving Suicide Risk Assessment and Management for Children and Youth aged 5-20. There were 2 measures established as part of this PIP: 1.) assessment of current and past suicidal ideation and risk in provider treatment record reviews and 2.) individual crisis plan is documented in provider treatment records. Both measures showed improvement from baseline to the re-measurement period.

Magellan has also documented the implementation and maintenance of a formal outcomes assessment process that is standardized, reliable, and valid in accordance with industry standards (see the Louisiana Coordinated System of Care Quality Improvement Program Evaluation for more information). OBH established the CSoC Quality Monitoring Team (QMT) to facilitate monitoring of the CSoC performance measures. The QMT is composed of subject matter

experts within OBH. The Quality Monitoring Team meets regularly and has established a schedule for reporting and accountability with Magellan, including monthly, quarterly, and annual reporting reviews. The Quality Monitoring Team receives reports, reviews and offers analysis and provides feedback to Magellan. This structure was developed in late 2012, and the Quality Monitoring Team continues to refine its processes.

9 TOTAL FUNDING PAID FOR CLAIMS TO PROVIDERS, ADMINISTRATIVE COSTS AND PROFIT

- a) Please see below for details on payments to providers in answer to part a) of item number 14 from Act 158 relative to CSoC.

Month of Payment	Payment of Claims to Providers
201807	\$555,457.23
201808	\$1,189,362.59
201809	\$1,319,743.81
201810	\$1,445,056.39
201811	\$1,555,223.61
201812	\$1,799,983.91
201901	\$1,646,935.01
201902	\$1,176,409.48
201903	\$1,037,883.57
201904	\$1,109,229.83
201905	\$2,020,867.77
201906	\$1,492,564.29
Total	\$16,348,717.49

- b & c) In answer to requests 14(b) and (c) within Act 158, please reference the attached Merit Health Insurance Company Income Statements (a subsidiary of Magellan that operates the CSoC contract) dated 12/31/2018 and 06/30/2019 that detail its administrative expenses and net profit in Louisiana.

10 EXPLANATION OF PROGRAM CHANGES

a) Changes in standards or processes for submission of claims by behavioral health service providers to the CSoC program

There were no changes in standards or processes for submissions of claims by behavioral health services providers to the CSoC program during the 2019 SFY (07/01/18-06/30/19).

b) Changes in types of behavioral health services covered through CSoC

There were no changes in types of behavioral health services covered through CSoC during the 2019 SFY (07/01/18-06/30/19).

c) Changes in reimbursement rates for covered services

There were no changes in reimbursement rates for covered services during the 2019 SFY (07/01/18-06/30/19).

11 ADDITIONAL METRICS/MEASURES

During the past seven years, more than 16,250 children have been enrolled in the Louisiana Coordinated System of Care. The goals for CSoC are continuously met and positive outcomes are being achieved on average in less than a year for children enrolled in CSoC.

Decreased Utilization of Costly Restrictive Settings

Only 4.5% of the children enrolled in CSoC spent any days in an inpatient hospital setting:

- 90% of the children were seen by an outpatient provider within 30 days of discharge.
- 92% of the children were discharged, or disenrolled, into a home and community-based setting.

Keeping Children in their Communities

CSoC connected youths and family members to behavioral health services in their homes and communities, offering low-cost alternatives to institutional care:

- 100% of CSoC children are enrolled with a Wraparound agency providing intensive care coordination in a single plan of care.
- 96% of members reported they are receiving services in the type, amount, duration, and frequency specified on their Plan of Care.
- 87% of youth and families are receiving behavioral health outpatient and Home and Community-Based services.
- 85% of youth and families are connected with natural and informal community supports to strengthen community ties.

Significant Improvements in Overall Functioning

Over the average length of enrollment (12 months), CSoC children demonstrated significant improvements in overall functioning.

- 74% of the children discharged demonstrated improvements in clinical functioning.
- 97% of youth and families reporting positive overall satisfaction with wraparound process. 88% of guardians reported feeling more confident caring for their youth since starting CSoC.

APPENDICES

APPENDIX I: HEALTHCARE PROVIDERS IN EACH PARISH BY PROVIDER TYPE, APPLICABLE CREDENTIALING STATUS, AND SPECIALTY

APPENDIX II: CHILDREN RECEIVING SERVICES THROUGH CSOC BY PARISH

APPENDIX III: PERCENTAGE OF REFERRALS CONSIDERED IMMEDIATE, URGENT AND ROUTINE

APPENDIX IV: CLEAN CLAIMS

APPENDIX V: TOP FIVE CLAIMS DENIAL REASONS

APPENDIX VI: BEHAVIORAL HEALTH IN EMERGENCY ROOMS

APPENDIX VII: REPORT ON QUALITY MANAGEMENT

APPENDIX VIII: TOTAL FUNDING PAID FOR CLAIMS TO PROVIDERS, ADMINISTRATIVE COSTS AND PROFIT
