\*For ACLA, counts by parish will differ from provider type and taxonomy due to a provider(s) being associated with multiple organizations that may have practices in multiple parishes. Practitioners may have multiple primary addresses where they provide services, particularly in rural parts of the state. ACLA counts by parish differ based upon these provider/organizational relationships and primary locations of service.

\*For ACLA, counts by parish will differ from provider type and taxonomy due to a provider(s) being associated with multiple organizations that may have practices in multiple parishes. Practitioners may have multiple primary addresses where they provide services, particularly in rural parts of the state. ACLA counts by parish differ based upon these provider/organizational relationships and primary locations of service.
