

Louisiana Department of Health and Hospitals
Health Plan Advisory 16-5
February 26, 2016

2016 Healthcare Common Procedure Coding System (HCPCS) Update for Professional Services, Laboratory, Radiology, Ambulatory Surgical Centers (ASC) and Outpatient Hospital Fee Schedules

Our files have been updated to reflect new and deleted codes effective for dates of service Jan. 1, 2016 and forward. The “Professional, Laboratory, Radiology, and Ambulatory Surgical Centers” (ASC) fee schedules as well as the “Outpatient Hospital” fee schedules are now available on the Louisiana Medicaid website (www.lamedicaid.com).

Fee for service claims which have been denied due to the new 2016 codes not being on file, will be systematically recycled without any action required by the provider. Health Plans are expected to recycle all denied claims related to the new 2016 codes not being on file, once claim processing systems are updated with the new 2016 codes.
