

Louisiana Department of Health Informational Bulletin 16-11

Revised August 21, 2017

<u>Billing and Ordering Guidance for Long Acting Reversible Contraceptives (LARCs):</u> Intrauterine Devices (IUD) and Implants

This bulletin provides billing and ordering information for <u>long acting reversible contraceptives (LARCs):</u> <u>intrauterine devices (IUD) and implants in the inpatient and outpatient hospital setting.</u> The ultimate goal is to remove barriers for women to access the most effective reversible contraceptives: intrauterine devices and implants.

<u>Inpatient Postpartum LARC Insertion</u>: Effective June 20, 2014, Louisiana Medicaid added coverage of intrauterine devices and implants, in addition to a hospital's per diem payment, for women newly postpartum, prior to discharge. The <u>reimbursement</u> for the LARC device is equal to the fee on the Durable Medical Equipment (DME) fee schedule. <u>Hospitals should bill the claim for the LARC, separate from the inpatient stay, on the CMS 1500 claim form.</u>

<u>LARCs Reimbursement Rate:</u> Effective Fall 2014 reimbursement rates for intrauterine devices and implants were increased to the current wholesale acquisition cost and the rate is adjusted each Jan. 1 to the current wholesale acquisition cost.

<u>Outpatient Hospital Setting LARC Insertion:</u> Louisiana Medicaid extended coverage of intrauterine devices, in addition to the outpatient hospital claim, when inserted in the outpatient hospital setting. Hospitals should bill the outpatient hospital claim on the UB-04 and the LARC device on the CMS 1500 claim form.

The MCOs have been instructed to promptly update their systems to allow payment for the LARC device on the CMS 1500 claim form for place of service 11 (office), place of service 19 (off campus-outpatient hospital), place of service 21 (inpatient hospital) and place of service 22 (on campus-outpatient hospital). Additionally, the MCOs have been instructed to recycle all denied claims by October 31, 2017 and to notify providers of their process and plans for recycling denied claims.

Hospitals should consult the DME fee schedule to see which LARCs are covered and their reimbursement amount. The chart below includes information for each of the five Health Plans in an effort to have a one-page document in order to simplify the various billing and ordering processes for providers.

Long Acting Reversible Contraception (LARC): Billing & Ordering Guide

NO PRIOR AUTHORIZATION REQUIRED BY ANY HEALTH PLAN

J7297 Liletta \$684.38 NDC: 00023585801 (Facilities approved for 340B pricing for Liletta can bill \$50)

J7298 Mirena \$858.33 NDC: 50419042301, 50419042101

J7300 Paragard \$739.00 NDC: 51285020401 J7301 Skyla \$714.70 NDC: 50419042201

J7307 Nexplanon \$847.90 NDC: 00052433001 (68 mg etonogestrel, 15 mg barium sulfate, 0.1 mg magnesium stearate) or

00052027401 (68 mg etonogestrel, 15 mg of barium sulfate)

11981 Insertion, non-biodegradable drug delivery implant 11982 Removal, non-biodegradable drug delivery implant

11983 Removal with reinsertion, non-biodegradable drug delivery implant 58300 Insertion of IUD 58301 Removal of IUD

ICD-10: Z30 series
