<td><strong>Note:</strong> Per Act 284 of the 2018 Regular Session of the Louisiana Legislature, an adverse determination involved in litigation or arbitration or not associated with a Medicaid enrollee shall not be eligible for independent review.</td>

- The independent review process was established by La-RS 46:460.90, et seq. to resolve claims disputes when a provider believes a DBPM has partially or totally denied claims incorrectly. A DBPM’s failure to send a provider a remittance advice or other written or electronic notice either partially or totally denying a claim within 60 days of the DBPM’s receipt of the claim is considered a claims denial.

- Independent review is a two-step process which may be initiated by submitting an independent review reconsideration request form to the DBPM within 180 calendar days of the remittance advice paid, denial, or recoupment date. Request forms are available on DBPM websites or at the link below.

- If a provider remains dissatisfied with the outcome of an independent review reconsideration request, the provider may submit an independent review request form to LDH within 60 calendar days of the DBPM’s decision. Request forms are available at the link below.

- Effective Aug. 1, 2018 there is a $250 fee associated with an independent review request. If the independent reviewer finds in favor of the provider, the DBPM is responsible for paying the fee. Conversely, if the independent reviewer finds in favor of the DBPM, the provider is responsible for paying the fee.

- SIU post-payment reviews are not considered claims denials or underpayment disputes, therefore, SIU findings are exempt from the independent review process.

- Additional detailed information and copies of above referenced forms are available at: [https://ldh.la.gov/index.cfm/page/3284](https://ldh.la.gov/index.cfm/page/3284)
Provider Issue Escalation and Resolution

LDH and the DBPMs recognize there will be instances when a provider may desire to escalate issue resolution to the attention of LDH or the DBPMs’ executive teams. While the above grid is specific to claim issue resolution, the following options are available for resolution of all issue types (including claims). Each DBPM is required to maintain a Provider Complaint System for in-network and out-of-network providers to dispute the DBPM’s policies, procedures, or any aspect of the plan’s administrative functions. Providers should first seek resolution with the DBPM, using the DBPM contacts outlined below. If a provider is unable to reach satisfactory resolution or get a timely response through the DBPM escalation process, direct contact with LDH is also an option. The following chart outlines provider complaint and escalation contacts for each DBPM and LDH.
