UnitedHealthcare Contract 90-Day Extension

The Louisiana Department of Health (LDH) will extend its Medicaid managed care contract with UnitedHealthcare (UHC) for 90 days. The contract will continue through March 31, 2026.

Members currently enrolled with UHC will remain with that plan during this period and will not be reassigned to a new health plan on January 1, 2026. No action is required by members at this time. These changes do not affect Medicaid members who are not enrolled with UnitedHealthcare.

LDH will continue to share updates as additional information becomes available.

Questions regarding managed care organization (MCO) contracts or other MCO-related issues should be submitted through the appropriate contacts outlined in [Informational Bulletin 19-3](#).
