Subject: Louisiana Bayou Health Program – REVISED Family Planning portion of the Prepaid Plan Rate Development for the Period April 1, 2014 through June 30, 2014

Dear Ms. Johnson:

The Louisiana Department of Health and Hospitals (DHH) has contracted with Mercer Government Human Services Consulting (Mercer) to develop actuarially sound capitation rate ranges for the State of Louisiana's Bayou Health Prepaid program for the period of April 1, 2014 through June 30, 2014. As part of this work, Mercer was asked to develop the family planning component of the capitation rates using the same data that was used to develop the capitation rate ranges. This letter presents an overview of the analyses and methodology used in Mercer's family planning rate development for the purpose of satisfying the requirements of the Centers for Medicare & Medicaid Services (CMS), in order for DHH to receive the 90% federal match for eligible family planning services. This addendum should be read in conjunction with the rate certification letter dated November 6, 2014. Attachment A below displays the per member per month (PMPM) amounts for family planning. These PMPMs do not include load for administration or profit.

This letter includes the Full Medicaid Pricing (FMP) add-on and replaces the family planning services PMPMs in the July 24, 2014 letter for the period January 1, 2014 through June 30, 2014.

Base Data

The capitation rates were developed using the medical expenses incurred during the state fiscal years 2011 and 2012 (July 2011 through January 2012), as reported through the Medicaid Management Information Systems (MMIS) system. All family planning services were assigned to the appropriate rate cells.

Methodology for Identifying Family Planning Services

Using data from the State’s MMIS system, a three-step process was followed to measure the amount of family planning for each fiscal year, region, and rate tier. Each of these steps is described below:

1. Family Planning Service Identification

Family planning can be identified through procedure codes that are specifically indicative of a family planning service. Table 1 and Table 2 contain the lists of procedure codes that were used to identify family planning services, solely on a procedure code match basis. Table 1 contains sterilization services and Table 2 contains contraception services.

Table 1: Sterilization Services Always Reimbursable at the 90% Federal Match Rate

Women	Men
00851	55250
00921	55450
58565

J7307	
S4989	
S4993	

Family planning can also be identified with other procedure codes if the family planning service can be confirmed through the use of contraceptive management diagnosis codes in the V25 series. Table 3 contains the list of procedure codes that require a V25 series diagnosis code to be present in order to classify a service as family planning.

Table 3: Procedure Codes that Require a V25 Series Diagnoses Code

74742	99024	99222	99273	99412	S9446
76830	99050	99223	99274	99420	T1001
76831	99052	99231	99275	99429	T1002
76856	99054	99232	99281	A4550	T1013
76857	99056	99233	99282	A4931	T1015

* Also included: 80047–88189 (except 82143)

** Used to indicate SubQ Depro Provera

Professional service claim lines were classified as family planning if the service contained a procedure code from Table 1 or Table 2, or a procedure code from Table 3 accompanied by a V25 diagnosis code in either the primary or the secondary position.

2. Identification of Family Planning Prescription Drug Claims

In identifying eligible family planning claims from prescription drug data, Mercer identified all drug claims containing one of the HIC3 codes listed in Table 4 below. These codes have been determined by Mercer’s pharmacy team to represent those drugs eligible for the enhanced federal match rate.

Table 4: Drugs Eligible for the Enhanced Federal Match Rate

HIC3	HIC3 Description
G8A	Contraceptives, oral
G8B	Contraceptives, implantable
G8C	Contraceptives, injectable
G8D	Abortifacient, progesterone receptor, antagonist type
G8F	Contraceptives, transdermal
G9A	Contraceptives, intravaginal
G9B	Contraceptives, intravaginal, systemic
X1A	Condoms
X1B	Diaphragms/cervical cap
X1C	Intrauterine devices (IUDs)

Process of Developing Family Planning Portion of Rate

In order to determine what portion of the capitation payment was eligible for the enhanced federal match rate, Mercer totaled all of the family planning-eligible claims for a given rate cell and determined what percentage these claims represented of the total claims for that rate cell.

Page 5
April 3, 2015
Ms. Mary Johnson
Louisiana Department of Health and Hospitals

This percentage was then applied to the claims cost PMPM (without administration, profit, and FMP), at rate cell level, to determine the family planning PMPM that DHH could claim at the enhanced federal match rate.

In a similar manner, Mercer determined what percentage of the FMP add-on was due to family planning services and also eligible for the enhanced federal match rate. This percentage was then applied to the FMP PMPM add-on (without premium tax) at the rate cell level to determine the amount DHH could claim at the enhanced federal match rate. The enhanced match on the claims cost PMPMs and the FMP PMPM were added together to generate the total family planning PMPM DHH could claim at the enhanced rate.

Limitations and Considerations

In preparing these calculations, Mercer has used and relied upon enrollment, fee-for-service claims, encounter claims, and other information supplied by DHH and its fiscal intermediary. DHH and its fiscal intermediary are responsible for the validity and completeness of the data supplied. We have reviewed that data and information for internal consistency and reasonableness but we did not audit it. In our opinion it is appropriate for the intended purposes. If the data and information are incomplete or inaccurate, the values shown in the attached exhibits may need to be revised accordingly. Use of this information for any purposes beyond that stated may not be appropriate.

If you have any questions on any of the information provided, please feel free to call me at +1 404 442 3358.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jared Simons".
