***Report 173 includes the following claims data for January 2013:**

I. Claim service line level detail which impacts the actual number of denials reported, the number of denials reported will be more than the number of claims denied, for example:

- a. If three lines on a claim each deny for one reason (the same or different reason), three denials would be reported; and
- b. If three lines on a claim each deny for two reasons (not a member and not a covered service), six denials would be recorded.

2. Timely Filing

a. Due to an error in the system for provider set-up, an incorrect 90 day timely filing requirement was imposed on claims submitted by several providers. The provider set-up error resulted in denials of claims submitted by the impacted providers.

- i. Provider set-up corrections are in process for all of the impacted providers.
 - ii. System validations are currently being run to ensure that all providers have the appropriate 365 day timely filing requirement.
 - iii. Any claims that have inappropriately denied for timely filing will be reprocessed without the need for the provider to resubmit the claim for payment.
- b. Per the report, it appears that several claims denied for Denial Reason Code 4, claim was submitted after the filing deadline; however, the claims payment system hierarchy requires that a claim be denied first due to timely filing as a primary denial reason and second for coverage not effective at the time of service. Both denial reasons are correct. Given the claim denial hierarchy, claim service lines with dates of service prior to February 1, 2012 were impacted.

This report was based on LA Healthcare Connections' understanding of the current report specifications provided by DHH. The report programming is still under review, thus any changes may result in resubmission of the report. This report should not be used for comparative purposes until all reporting format and specifications have been finalized.
