General Notes FY 2018

Louisiana

URS Table Number	General Notes
5A	Medicaid Expansion in Louisiana (beginning in July 2016) has increased the number of Medicaid recipients
6	In November 2016, Louisiana OBH closed its Acute Care unit and now only operates intermediate care facilities. The decreased client turnover results in decreased state hospital admissions during Fiscal Year 2018.
12	Due to more in-depth and thorough data validation process, the OBH has been able to improve the overall quality of client-level data. This includes the reduction of missing information for clients with co-occurring MH/SA diagnoses.
14A	Office of Behavioral Health has worked with the Local Governing Entities to improve reporting for Mental Health (MH) target population of SMI/SED. These efforts, with more thorough data validation process, have resulted in reduced number of missing information for SMI/SED.
16	Most of the Local Governing Entities (LGEs) do not provide Supported Housing, Supported Employment, ACT, and Therapeutic Foster Care as Evidence-based Practices (EBPs) for SMI and EBD priority population. Some other EBPs are provided, which are not included as options in this list.
16, 17, 19a/b	OBH is collaborating with the LGEs and their EHR vendors to resolve the data submission concerns.
