MEMORANDUM

From: Cindy Rives *Cindy Rives*
Undersecretary
Date: December 4, 2019
Subject: SFY 2019/20 Medicaid Monthly Forecast Report – November, 2019

Attached, please find the Medicaid Forecast Report for November 2019. The report utilizes actual revenue and expenditures through November 30, 2019 and trends expenditures forward through June 30, 2020.

The increased expenditure trends are driven by the following: 1) higher than budgeted premiums and enrollment in the Medicare Savings Buy-In program and 2) higher than budgeted Per Member Per Month premiums for the Managed Care Organizations (MCO) with the new rating period effective January 1, 2020.

The decreased expenditure trends resulting in excess budget authority are driven by the following: 1) decreased enrollment in the MCO Expansion population resulting in decreases in Inter-Governmental Transfers which are classified as Self-Generated Revenue, and decreases in Premium Taxes which are classified as Statutory Dedications 2) the excess Federal budget authority is also associated with the lower MCO Expansion population enrollment; however, the main driver is excess budget authority resulting from the Medical Loss Ratio refund (\$162M). This is the first time that the medical loss ratio results required the MCO to refund the Medicaid program. At the time the budget was developed, the department did not have clear guidance from Centers for Medicare and Medicaid Services (CMS) on the appropriate treatment of these refunds; however, CMS recently provided direction to adjust the amount on the quarterly CMS expenditure report.

Included in the report is the recipient enrollment numbers which can also be accessed via the department's web site at <http://ldh.la.gov/index.cfm/page/1275>. The department continues to monitor enrollment data and will update the associated assumptions and trends in our budget model in future monthly reports.

1) This report projects expenditures through the state fiscal year which ends on June 30th. However, the Medicaid program, which is funded by the federal government, operates on a federal fiscal year which ends on October 31st. Excess federal budget authority is used by the department to reconcile the 4th quarter of the federal fiscal year.

2) For revenues (Table-1), positive variances reported in the Over/(Under) column mean that projected revenues are greater than budget appropriations while negative variances indicate revenue shortfalls. However, for expenditures (Table-2), positive variances mean that projections are less than budget appropriations while negative variances indicate projections in excess of budget.
