

**Table 1: Healthy Louisiana Incentive Measures and Measurement Year 2023 Targets**

| Identifier   | Healthy Louisiana Incentive Measure   | Target for Measurement Year 2023 <sup>1</sup>   |
|--------------|---|---|
| CIS<br>\$\$  | Childhood Immunization Status (Combo 3: DTAP, IPV, MMR, HIB, Hepatitis B, VZV, and PCV)       | <b>63.26</b><br>NCQA Quality Compass 2022 (MY21) Medicaid National 50th percentile (All LOBs [Excluding PPOs and EPOs]: Average) for the year prior to the measurement year   |
| IMA<br>\$\$  | Immunizations for Adolescents Evidence-Based Treatment (Combo 2: meningococcal, TDAP/TD, HPV) | <b>35.04</b><br>NCQA Quality Compass 2022 (MY21) Medicaid National 50th percentile (All LOBs [Excluding PPOs and EPOs]: Average) for the year prior to the measurement year   |
| LRCD<br>\$\$ | Cesarean Rate for Low-Risk First Birth Women <sup>2</sup>                                     | <b>28.62</b><br>Targets for non-HEDIS incentive-based measures will be equal to the best performance reported to LDH by any MCO for MY2021                                    |
| COL<br>\$\$  | Colorectal Cancer Screening   | <b>43.80</b><br>Targets for HEDIS incentive-based measures without an NCQA Quality Compass target will be equal to the best performance reported to LDH by any MCO for MY2021 |
| CCS<br>\$\$  | Cervical Cancer Screening   | <b>57.64</b><br>NCQA Quality Compass 2022 (MY21) Medicaid National 50th percentile (All LOBs [Excluding PPOs and EPOs]: Average) for the year prior to the measurement year   |
| HIV<br>\$\$  | HIV Viral Load Suppression  | <b>81.65</b><br>Targets for non-HEDIS incentive-based measures will be equal to the best performance reported to LDH by any MCO for MY2021                                    |
| FUH<br>\$\$  | Follow-Up After Hospitalization for Mental Illness — follow-up within 30 days after discharge | <b>59.42</b><br>NCQA Quality Compass 2022 (MY21) Medicaid National 50th percentile (All LOBs [Excluding PPOs and EPOs]: Average) for the year prior to the measurement year   |
| FUM<br>\$\$  | Follow-Up After Emergency Department Visit for Mental Illness —within 30 days of the ED visit | <b>54.51</b><br>NCQA Quality Compass 2022 (MY21) Medicaid National 50th percentile (All LOBs [Excluding PPOs and EPOs]: Average) for the year prior to the measurement year   |
| FUA<br>\$\$  | Follow-up After Emergency Department Visit for Substance Use —within 30 days of the ED visit  | <b>21.24</b><br>NCQA Quality Compass 2022 (MY21) Medicaid National 50th percentile (All LOBs [Excluding PPOs and EPOs]: Average) for the year prior to the measurement year   |
| HBD<br>\$\$  | Hemoglobin A1c Control for Patients With Diabetes <sup>2</sup> (HbA1c poor control, >9.0%)    | <b>39.90</b><br>NCQA Quality Compass 2022 (MY21) Medicaid National 50th percentile (All LOBs [Excluding PPOs and EPOs]: Average) for the year prior to the measurement year   |
| CBP<br>\$\$  | Controlling High Blood Pressure   | <b>59.85</b><br>NCQA Quality Compass 2022 (MY21) Medicaid National 50th percentile (All LOBs [Excluding PPOs and EPOs]: Average) for the year prior to the measurement year   |

<sup>1</sup>Values shown represent achievement targets. Improvement targets are set at a 2.0 point improvement from the previous year.

<sup>2</sup> A lower rate indicates better performance.

NCQA: National Committee for Quality Assurance; LOB: line of business; PPO: preferred provider organization; EPO: exclusive provider organization; HEDIS: Healthcare Effectiveness Data and Information Set; LDH: Louisiana Department of Health; MCO: managed care organization.
