Independent Accountants' Report on Applying Agreed-Upon Procedures

The Board of Directors
AMERIGROUP Louisiana, Inc.:

We have performed the procedures enumerated in the attached Schedule of Procedures and Findings (Exhibit I), which were agreed to by management of AMERIGROUP Louisiana, Inc. (the Company or the Contractor) and the State of Louisiana Department of Health & Hospitals (Louisiana DHH), solely to assist the parties in evaluating management's assertion about the Company's compliance with the reporting requirements of the contract between the Company and Louisiana DHH (the Contract) in connection with AMERIGROUP Louisiana, Inc.'s Prepaid Health Plan Quarterly and Year to Date Financial Reports for the year ended December 31, 2012 (Exhibit II) for the year ended December 31, 2012. Management of the Company is responsible for the Prepaid Health Plan Quarterly and Year to Date Financial Reports and for maintaining records in support of the compliance requirements of the Contract. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the Company and Louisiana DHH. Consequently, we make no representation regarding the sufficiency of the procedures described in the attached Exhibit I either for the purpose for which this report has been requested or for any other purpose.

The procedures performed and the findings are included in the attached Exhibit I.

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on the Company's compliance with the requirements of the Contract for the year ended December 31, 2012. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

The Company's responses to the findings identified in our agreed-upon procedures are included in Exhibit I. We did not perform any procedures related to AMERIGROUP Louisiana Inc.'s responses, and, accordingly, express no opinion on these responses.

This report is intended solely for the information and use of the Board of Directors and management of AMERIGROUP Louisiana, Inc. and the State of Louisiana Department of Health & Hospitals, and is not intended to be and should not be used by anyone other than these specified parties.

KPMG LLP is a Delaware limited liability partnership, the U.S. member firm of KPMG International Cooperative ("KPMG International"), a Swiss entity.

Exhibit I

Schedule of Procedures and Findings

Schedule A – Income Statement
Unless directed otherwise, all agreed upon procedures for this section are to be performed on the 4th Quarter Year-to-Date (YTD) Schedule A – Income Statement.

Step 1: Trace and agree reported **Member Months.**

a. Trace and agree the membership reports, received and/or accrued for the 12-month period ending December 31st received from the DHH to the membership amounts reported in the 4th Quarter YTD Income Statement. Provide Contractor's explanation for any discrepancies.

KPMG LLP (KPMG) traced and agreed total member months received and accrued from DHH for the year ended December 31, 2012 which totaled 1,264,685 to the member months reported on Line 1 in the YTD column of Schedule A for the year ended December 31, 2012, included at Exhibit III. No exceptions were noted.

b. Trace and agree the membership reports, received and/or accrued for the 12-month period ending December 31st from the Contractor's internal enrollment reports to the membership amounts reported in the 4th Quarter YTD Income Statement. Provide Contractor's explanation for any discrepancies.

KPMG traced and agreed the member months received and accrued for the 12-month period ending December 31, 2012 from the Contractor's internal enrollment reports which totaled 1,264,685 to the member months reported on Line 1 in the YTD column of Schedule A for the year ended December 31, 2012. No exceptions were noted.

Step 2: Trace and agree reported **Maternity Delivery Payment Count.**

a. Trace and agree the maternity delivery payment count, received and/or accrued for the 12-month period ending December 31st received from the DHH to the maternity counts reported in the 4th Quarter YTD Income Statement. Provide Contractor's explanation for any discrepancies.

KPMG traced and agreed the maternity delivery payment count amounts received and accrued for the 12 month period ending December 31, 2012 received from the DHH which totaled 5,565 to the maternity count amount reported on Line 2 in the YTD column of Schedule A for the year ended December 31, 2012 of 5,566. We noted a variance of 1 delivery payment.

Management's response: The Company manually accrued for an additional birth that was identified as a valid birth in 2012.

b. Trace and agree the maternity delivery payment count, received and/or accrued for the 12-month period ending December 31st from the Contractor's internal maternity count reports to the maternity delivery counts reported in the 4th Quarter YTD Income Statement. Provide contractor's explanation for any discrepancies.

KPMG traced and agreed the maternity delivery payment count amounts received and accrued for the 12-month period ending December 31, 2012 from the Contractor's internal maternity count reports which totaled 5,566 to the maternity delivery count amount reported on Line 2 in the YTD column of Schedule A for the year ended December 31, 2012. No exceptions were noted.

Exhibit I

Schedule of Procedures and Findings

Step 3: Trace and agree the dollar amounts reported as **Capitation.**

a. Trace and agree each of the monthly capitation files received from DHH during the year to the proper posting in the Contractor's general ledger. Obtain representation from the Contractor's management that the Contractor is reporting on an accrual or cash basis as prescribed in the Guide. Provide Contractor's explanation for any discrepancies.

KPMG traced and agreed each of the monthly capitation files received from DHH during the year ended December 31, 2012 to the related posting in the Contractor's general ledger during the year ended December 31, 2012. No exceptions were noted, except for October 2012 as noted below.

Capitation File Name	Month Received	Payment amount per capitation file	Amount posted to the general ledger	Variance
CAP-2162519-20121015.txt	October 2012	$ 176,676	$ 173,025	$ 3,651

Management's response: In October 2012, the Company received a cash payment in the amount of $173,025. An 820 capitation file listing a total amount of $176,676 had also been received previously. However, at the time the payment was received, the Company did not possess enough information to properly associate the 820 capitation file with the related cash payment. Premium revenue of $173,025 was recorded when the payment was received. The difference of $3,651 is immaterial and was recorded in 2013 when confirmation was received from the state of Louisiana that the 820 capitation file and the payment were related.

In addition, KPMG obtained representations from the Contractor's management indicating that the Contractor is reporting amounts related to capitation revenue on an accrual basis.

b. Trace and agree that the total general ledger postings of capitation files during the year (plus/minus accruals for under/over-payments as necessary for proper accrual-based reporting) to the 4th Quarter YTD Income Statement. Obtain reconciliation for any differences other than adjustments for accrual-based reporting and a Contractor's explanation for any discrepancies.

KPMG traced and agreed the total general ledger postings related to the monthly capitation payment files received from DHH during the year ended December 31, 2012 plus or minus accruals for a total of $218,199,657 to the amount reported on Line 3 in the YTD column of Schedule A for the year ended December 31, 2012. No exceptions were noted.

Step 4: Trace and agree the dollar amounts reported as **Maternity Delivery Payments**

a. Trace and agree each of the monthly payment files received from DHH during the year to the proper posting in the Contractor's general ledger. Obtain representation from the Contractor's management that the Contractor is reporting on an accrual or cash basis as prescribed in the Guide. Provide Contractor's explanation for any discrepancies.

Exhibit I

Schedule of Procedures and Findings

KPMG traced and agreed each of the monthly payment files received from DHH during the year ended December 31, 2012 related to maternity delivery payments to the related posting in the Contractor's general ledger. No exceptions were noted other than the following:

Month	Maternity delivery payment amount per the DHH monthly file	Maternity delivery payment amont per the General Ledger	Variance
August 2012	$ 3,638,302	$ 3,575,919	$ 62,383
December 2012	$ 2,975,412	$ 2,920,631	$ 54,781

Management's response: The difference above for August 2012 was due to retro revenue from the Medicare Recovery Process from March 2012. The difference above for December 2012 was due to May 2012 maternity kick payment adjustments for April 2012 deliveries that were initially paid at the wrong rate.

In addition, KPMG obtained representations from the Contractor's management indicating that the Contractor is reporting amounts related to maternity delivery payments on an accrual basis.

b. Trace and agree that the total general ledger postings of payment files during the year (plus/minus accruals for under/over-payments as necessary for proper accrual-based reporting) to the 4th Quarter YTD Income Statement. Obtain a reconciliation for any differences other than adjustments for accrual-based reporting and a Contractor's explanation for any discrepancies.

KPMG obtained the detailed general ledger for maternity delivery payments received during the year ended December 31, 2012 from the Contractor and traced and agreed the total general ledger postings related to the monthly maternity delivery payment files received from DHH during the year ended December 31, 2012 plus or minus accruals for a total of $29,084,124 to the amount reported on Line 4 in the YTD column of Schedule A for the year ended December 31, 2012. No exceptions were noted.

Step 5: Trace and agree the amounts reported as **Medical Expenses**.

a. Select total hospitalization (Line 15), total outpatient services (Line 22), total physician services (Line 40) and total other medical expenses (Line 56) from each of the income statement categories and the three largest (greatest dollar amount) sub category expense line items within each total category (hospitalization, outpatient, physician and other medical).

   KPMG selected the three largest (greatest dollar amount) sub category expense line items from the total number of sub category expense line items that were included in Line 15 (Total Hospitalization), Line 22 (Total Outpatient Services), Line 40 (Total Physician Services), and Line 56 (Total Other Medical Expenses), which represent subtotals of each respective medical expense category on Schedule A for the year ended December 31, 2012.

Exhibit I

Schedule of Procedures and Findings

Subcategories selected related to Line 15 - Total Hospitalization

Line No.	Medical Expense Subcategory	YTD Amount
Line 8	Inpatient Medical	14,661,147
Line 9	Inpatient Surgical	17,516,579
Line 11	Inpatient Maternity and Nursery	25,088,592

Subcategories selected related to Line 22 - Total Outpatient Services

Line No.	Medical Expense Subcategory	YTD Amount
Line 16	Outpatient ER	22,640,787
Line 17	Outpatient Surgery/Anesthesia	4,432,222
Line 21	Outpatient Other	10,019,181

Subcategories selected related to Line 40 - Total Physician Compensation

Line No.	Medical Expense Subcategory	YTD Amount
Line 23	Primary Care Provider	11,558,967
Line 27	Physician Visits - Emergency Room	6,413,240
Line 34	Other Physician Visits - Maternity	6,542,420

Subcategories selected related to Line 56 - Total Other Medical Expenses

Line No.	Medical Expense Subcategory	YTD Amount
Line 45	Dialysis	6,621,672
Line 46	Family Planning	22,649,865
Line 50	Pharmaceuticals	23,249,823

b. For the total categories (hospitalization, outpatient, physician and other medical) and for the sample of sub categories selected in Step 5a, trace and agree selected cells to the supporting documentation used by the Contractor to complete the report for the 4th Quarter YTD amounts. Provide Contractor's explanation for any discrepancies.

For the each of the subcategories selected in Step 5a, KPMG traced and agreed the amounts reported on each respective line in the YTD column of Schedule A for the year ended December 31, 2012 to the supporting documentation used by the Contractor to complete the report. No exceptions were noted.

c. For the total categories (hospitalization, outpatient, physician and other medical) and for the sample of sub categories selected in Step 5a, trace and agree amount reported in each cell to actual claims paid and an allocation of expenses incurred but not reported. Provide Contractor's explanation for any discrepancies.

Schedule of Procedures and Findings

For the each of the subcategories selected in Step 5a, KPMG traced and agreed the amounts reported on each respective line in the YTD column of Schedule A for the year ended December 31, 2012 to the total of actual claims paid, as detailed in the claims system (FACETS), plus an allocation of expenses incurred but not reported (IBNR). Note that none of the subcategories selected in Step 5a included amounts related to subcapitation payments. No exceptions were noted.

d. For the total categories (hospitalization, outpatient, physician and other medical) and for the sample of sub categories selected in Step 5a, recalculate the allocation of IBNR expenses to each income statement line to determine if they are in the same proportional amounts as received (and allowed) and/or paid claims. If they are not in the same proportion, describe the methodology used by the Contractor to allocate IBNR expenses for the completion of the report and recalculate the allocation based upon the Contractor's methodology. Provide Contractor's explanation for any discrepancies.

For the each of the subcategories selected in Step 5a, KPMG recalculated the allocation of IBNR expenses to each subcategory using the methodology provided by the Contractor. KPMG noted that the allocation of IBNR expenses to each subcategory was not in the same proportional amounts as received (and allowed) or paid claims. The methodology used by the Contractor to allocate IBNR expenses is described in Exhibit IX which was prepared by the Contractor.

e. For the total categories (hospitalization, outpatient, physician and other medical) and for the sample of sub categories selected in Step 5a, select two paid claims from each group.

KPMG selected two claims from each of the subcategories selected in Step 5a for a total of 24 claims. KPMG selected the following claims:

23	Pharmaceuticals	50	111852655900
24	Pharmaceuticals	50	112538792100

f. For the sample selected in Step 5e, trace and agree the classification of the medical expense to the classification reported within the Income Statement. Determine the claims selected from Step 5e are included in an appropriate Income Statement medical expenses category, using a legend provided by the Contractor. Provide Contractor's explanation for any discrepancies.

For each of the items in the sample selected in Step 5e, KPMG agreed the classification and medical expense category of the payment made for the selected claim line(s) based on information from the claim form and the claims system (FACETS) to the classification and medical expense category reported within the Income Statement utilizing a legend provided by the Contractor and included at Exhibit III as described below:

Exhibit I

Schedule of Procedures and Findings

For each claim, KPMG used Matrix 1 from Exhibit III to determine the Finance Service Type Code for the claim based on the type of provider as well as the bill type code and the combination of procedure codes, revenue codes, and diagnosis codes present on the claim form submitted by the provider.

Next, KPMG used Matrix 2 from Exhibit III to determine the Detailed Category of Service Identifier for the claim based on the Finance Service Type Code determined using Matrix 1, the type of provider, and the combination of procedure codes, revenue codes, and diagnosis codes present on the claim form submitted by the provider.

Then, KPMG used Matrix 3 from Exhibit III to determine the appropriate lag report for the claim based on the Detailed Category of Service Identifier determined using Matrix 2, the place of service code and the gender of the member related to the claim and/or specific combinations of revenue and procedure codes if they were present on the claim.

See Exhibit III for the Contractor's instructions with respect to Matrix 1, Matrix 2, and Matrix 3.

KPMG noted the following exception as shown below:

Sample no.	Claim no.	Paid amount	Revenue code on claim	Classification reported for claim	Classification corresponding to revenue code on claim per Matrix 3 of the legend
11	112612153600	$ 27.23	99211	Line 21 - Outpatient Other (Outpatient Services)	Line 46 - Family Planning (Other Medical Expenses)

Management's response: We agree that the claim should have been reported on Line 46-Family Planning (Other Medical Expenses), instead of on Line 21-Outpatient Other (Outpatient Services). An issue with the classification was identified during this process and subsequently resolved. All future submissions of the report will reflect the corrected classification.

Step 6: Trace and agree the amounts reported as **Medical Expense Adjustments**.

a. Trace and agree the 4th Quarter YTD Income Statement total for Reinsurance Premiums, Reinsurance Recoveries, Third Party Liability Subrogation, Fraud and Abuse Recoveries and Other Recoveries to the supporting documentation and files of the Contractor. Provide Contractor's explanation for any discrepancies.

KPMG traced and agreed the Reinsurance Premiums amount of $140,819 reported on line 58 in the YTD column of Schedule A for the year ended December 31, 2012 to the supporting documentation used by the Contractor to complete the report. KPMG noted no exceptions, except for the exception shown below related to reinsurance broker fees (which are included with the reinsurance premiums) for the month of April 2012.

Exhibit I

Schedule of Procedures and Findings

Reinsurance Premiums -April 2012 Broker Fees

Product	Per the general ledger	Per the broker fee allocation schedule	Difference
TANF	$ 282.47	$ 280.88	$ 1.59
ABD	46.92	46.65	0.27
CHIP	58.05	57.72	0.33
	$ 387.44	$ 385.25	$ 2.19

Management's response: The variances noted above are due to rounding.

KPMG traced and agreed the Third Party Liability Subrogation amount of $5,621 reported on line 61 in the YTD column of Schedule A for the year ended December 31, 2012 to the amount in the supporting documentation used by the Contractor to complete the report of $5,622. We noted a variance of $1.

Management's response: The variance noted above is due to rounding.

KPMG noted that this procedure is not applicable to Reinsurance Recoveries and Fraud and Abuse Recoveries and Other Recoveries as no amounts were reported related to these items in the YTD column on Schedule A for the year ended December 31, 2012.

b. For Reinsurance Premiums, recalculate the annual premium based upon the Contractor's reinsurance agreement and agree to the amount reported as the 4th Quarter YTD Income Statement value. Provide Contractor's explanation for any discrepancies.

   KPMG obtained and reviewed the Contractor's reinsurance agreement and recalculated the annual premium for the year ended December 31, 2012 based on the agreements in effect. KPMG noted that one agreement covered the period from January 1, 2012 through June 30, 2012 and obtained second agreement covered the period from July 1, 2012 through December 31, 2012. No exceptions were noted.

c. For Reinsurance Recoveries, select four individual cases (an individual case is defined as a member that met the threshold of the reinsurance agreement and that resulted in a recovery from the reinsurance provider) that resulted in a reinsurance recovery.

KPMG noted this step is not applicable as no amount was reported for Reinsurance Recoveries in the YTD column on Schedule A for the year ended December 31, 2012.

d. For the sample selected in Step 6c, review the individual members' claim payment history and recalculate and agree that the amount reported as reinsurance recovery is consistent with the terms of the Contractor's reinsurance agreement and the individual members' paid claims. Provide Contractor's explanation for any discrepancies.

KPMG noted this step is not applicable as no amounts were reported as Reinsurance Recoveries in the YTD column on Schedule A for the year ended December 31, 2012.

Exhibit I

Schedule of Procedures and Findings

Step 7: Trace and agree the amounts reported as **Administrative Services Expenses.**

a. Read the BAYOU HEALTH Prepaid Health Plan Financial Reporting Guide Instructions for guidance on administrative expenses that are "allowable" and "excludable" from Health Care Quality Improvement (HCQI) expenses.

KPMG obtained the "BAYOU HEALTH Prepaid Health Plan Financial Reporting Guide Instructions" and read the guidance on administrative expenses that are "allowable" and "excludable" from Health Care Quality Improvement (HCQI) expenses. The definition is included in Exhibit IV which was prepared by the Contractor.

b. Obtain and read the Contractor's definition of HCQI "allowable" and "excludable" expenses policy and compare to item(s) from Step 7a. Report the discrepancies and provide Contractor's explanation for any discrepancies.

KPMG obtained and read the Contractor's definition of HCQI "allowable" and "excludable" expenses. The definition is included in Exhibit IV which was prepared by the Contractor.

c. Read the BAYOU HEALTH Prepaid Health Plan Financial Reporting Guide Instructions for guidance on "methods used to allocate expenses".

KPMG obtained the "BAYOU HEALTH Prepaid Health Plan Financial Reporting Guide Instructions" and read the guidance on "methods used to allocate expenses. The definition is included in Exhibit V which was prepared by the Contractor.

d. Obtain and read a summary of the Contractor's allocation methodologies and compare to item(s) from Step 7c. Report the discrepancies and provide Contractor's explanation for any discrepancies.

KPMG obtained and read a summary of the Contractor's allocation methodologies related to methods used to allocate expenses. The definition is included in Exhibit V which was prepared by the Contractor.

e. Trace and agree amounts from the Contractor's summarized general ledger to total administrative expense (line 90). Provide Contractor's explanation for any discrepancies.

KPMG traced and agreed total administrative expenses of $29,780,342 from the Contractor's summarized general ledger to the amount reported on Line 90 in the YTD column on Schedule A for the year ended December 31, 2012. No exceptions were noted.

f. Trace and agree supporting documentation to the dollar amounts reported in lines 65 – 74 and lines 76 – 88. Provide explanation for any discrepancies.

KPMG obtained the administrative expense reconciliation prepared by the Contractor that reconciled the general ledger to the amounts reported on lines 65 – 74 and lines 76 – 88 in the YTD column of Schedule A for the year ended December 31, 2012. KPMG traced and agreed the dollar amounts from the reconciliation to the amounts reported on lines 65 – 74 and lines 76 – 88 in the YTD column on Schedule A for the year ended December 31, 2012. No exceptions were noted except for the following:

Schedule of Procedures and Findings

Line 81 – Accounting and Finance	
Amount on Supporting Documentation	*270,721*
Amount in the YTD Column on Schedule A	*270,712*
Variance	*9*
Line 88 – Other Administrative Costs	
Amount on Supporting Documentation	*181,607*
Amount in the YTD Column on Schedule A	*181,616*
Variance	(9)

Management's response: The variance of $9 is interest expense that was intentionally included in administrative expenses instead of in investment income.

g. Select the three largest (greatest dollar amount) and one other subcategories reported as HCQI expenses (lines 65 – 74) and obtain representations from the Contractor's management that the expenses are appropriately classified as HCQI expenses consistent with Step 7a and Step 7b.

KPMG selected the three largest (greatest dollar amount) and one other sub category administrative expense line items from the expenses reported as HCQI expenses based on the amounts in the YTD column of Schedule A for the year ended December 31, 2012. KPMG selected the following subcategories:

Line Number	Description	FY2012 YTD Amount
Line 66	Care Coordination	1,068,770
Line 69	Quality Reporting and Documentation	1,078,225
Line 70	HIT Quality and Outcome Improvements	45,485
Line 72	Clinical Practice Improvement Oversight	1,304,839

KPMG obtained representations from the Contractor's management that the expenses reported for the subcategories selected above are appropriately classified as HCQI expenses consistent with the definitions obtained in Step 7a and Step 7b, respectively, which are summarized in Exhibit IV.

Step 8: Trace and agree the amounts reported as **Non-operating Income (Loss), Income Taxes, Premium Tax Assessments** and **Other.**

a. Trace and agree the 4th Quarter YTD Income Statement total for Non-operating Income (Loss), Income Taxes, Premium Tax Assessments and Other to the supporting documentation and files of the Contractor. Provide Contractor's explanation for any discrepancies.

KPMG noted that this procedure was not applicable to line 93 Non-operating Income (Loss), line 95 Income Taxes, and line 97 Other as no amounts were reported on these line in the YTD column of Schedule A for the year ended December 31, 2012.

KPMG traced and agreed the amount reported as Premium Tax Assessments of $5,563,886 on line 96 of Schedule A for the year ended December 31, 2012 to the amount in the supporting documentation used by the Contractor to complete the report of $5,568,885. KPMG noted a variance of $1.

Management's response: The variance noted above is due to rounding.

b. Obtain representation from the Contractor's management that line 95 (Income Taxes) includes all State, Federal, and Local Income Taxes and that these taxes are not reported as an administrative expense within lines 65 ─ 90. Review the general ledger account descriptions for administrative expenses within lines 65 – 90 and confirm that no descriptions are labeled State, Federal and Local Income Taxes. Provide Contractor's explanation for any discrepancies.

KPMG noted that no amounts were reported on line 95 in the YTD column of Schedule A for the year ended December 31, 2012. KPMG then read the general ledger for administrative expenses and noted that there were two lines that contained the descriptor "Taxes – Federal Income" in the administrative expenses general ledger detail; however, the amount associated with these lines was zero.

In addition, KPMG obtained representations from the Contractor's management indicating that no State, Federal, or Local Income Taxes are reported as administrative expense within lines 65 ─ 90 of Schedule A for the year ended December 30, 2012.

c. Obtain representations from the Contractor's management that line 96 (Premium Tax Assessments) includes all State Premium Tax Assessments and that these taxes are not reported as an administrative expense within lines 65 ─ 90. The Contractor should calculate the 2.25 percent premium tax and the auditor should confirm the accuracy of this calculation in accordance with Contract requirements and agree the amount calculated to Line 96 (Premium Tax Assessments). Provide Contractor's explanation for any discrepancies.

KPMG obtained representations from the Contractor's management indicating that line 96 (Premium Tax Assessments) included all State Premium Tax Assessments and that those taxes were not reported as an administrative expense within lines 65 – 90.

KPMG obtained the Contractor's calculation of the 2.25 percent premium tax for the year ended December 31, 2012. KPMG also agreed the 2.25 percent premium tax rate to the Contractor's contract with Louisiana DHH. KPMG recalculated the premium tax assessment of $5,563,886 and agreed the amount to the Contractor's calculation. No exceptions were noted.

In addition, KPMG agreed the recalculated premium tax assessments of $5,563,886 to the amount reported on line 96 in the YTD column of Schedule A for the year ended December 31, 2012 of $5,563,885. We noted a variance of $1.

Management's response: The variance noted above is due to rounding.

Step 9: Identify and trace and agree the amount and payment methodology for **related party transactions** reported within Schedule A – Income Statement. The term **related party** refers to any entity(ies) that is(are) associated with the Contractor by any form of common, privately held ownership, control, or investment.

Exhibit I

Schedule of Procedures and Findings

a. Obtain and provide a list of transactions between the Contractor and any related party reported within Schedule A – Income Statement. The list of transactions must include the name of related party, relationship to Contractor, description of transaction (a series of transactions for the same purpose can be listed as on transaction), total dollar amount reported within Schedule A – Income Statement and payment/contract terms.

KPMG obtained a list of transactions between the Contractor and any related party reported within Schedule A – Income Statement. The list of transactions is included at Exhibit VI which was prepared by the Contractor.

b. For related party administrative service expenses, identify those expenses that are allocated to the Contractor. For all allocated administrative service expenses, report whether the allocation is based on cost or cost plus. If cost plus, report the percentage above cost.

KPMG noted that the list of transactions included at Exhibit VI identified expenses that are allocated to the Contractor. KPMG obtained representations from the Contractor's management indicating that for the allocated administrative service expense identified in the list of transactions included at Exhibit VI, the allocation is based on a formula of cost plus 10 percent where cost is equal to the portion of the total budgeted administrative expenses that are expected to be allocated to the Contractor by AMERIGROUP Corporation, the Contractor's parent company.

c. From the list of transactions in Step 9a, select the three highest dollar amount transactions and one other random transaction. Note: include a series of transactions as one transaction for this selection.

KPMG noted that the list of transactions included at Exhibit VI contained only two transactions; therefore, KPMG selected all of the transactions from the list.

d. For the sample of transactions selected in Step 9b, recalculate the total dollar amount reported within Schedule A – Income Statement based upon the payment/contract terms of the agreement between the Contractor and related party. List discrepancies and provide Contractor's explanation for such discrepancies.

KPMG obtained the calculation of the allocated administrative service expenses prepared by the Contractor and recalculated the amount calculated by the Contractor of $15,668,868. However, KPMG noted that this amount did not agree to the amount charged by the Contractor as shown on Exhibit VI of $15,561,689. We noted a variance of $107,179.

Management's response: Beginning in November 2012, the Company included pharmacy in its benefit package. Based on the Administrative Services Agreement, the Company should have been charged additional amounts related to the pharmacy benefits for November and December 2012 totaling $107,179. However, these amounts were not charged to the Company in 2012. The amounts were charged to the Company in 2013 as part of an analysis of 2012 management fees performed by AMERIGROUP Corporation, the Company's parent.

KPMG obtained the Contractor's summarized general ledger and agreed the total amount of direct costs paid by AMERIGROUP Corporation, the Contractor's parent company, on behalf of the Contractor that were reimbursed by the Contractor of $878,175 to the amount shown on Exhibit VI. No exceptions were noted.

Schedule of Procedures and Findings

Schedule O - R: Lag Reports

Step 1: Trace and agree the amounts paid for each month (Total Paid by Month – Column AN) for the most recent 12 month period ending December 31st.

a. Trace and agree each monthly amount to the supporting documentation used by the Contractor to complete each lag report. Provide Contractor's explanation for any discrepancies.

KPMG agreed each monthly amount to the supporting documentation used by the Contractor to complete each lag report. KPMG performed the procedure for Schedule O Hospitalization Services, Schedule P Outpatient Facility Services, Schedule Q Physician Services, and Schedule R Other Medical Services (collectively referred to as Schedules O – R) for the year ended December 31, 2012. No exceptions were noted.

b. Trace and agree each monthly amount to the monthly check register or claims system monthly summary. Provide Contractor's explanation for any discrepancies.

KPMG obtained the claims system monthly summary from the Contractor and noted that the schedule reconciled the amounts paid per the data in reported in Schedules O – R to the amounts per the claims system monthly summary. KPMG noted the following exceptions:

Schedule	Schedule O - Hospitization	Schedule P - Outpatient	Schedule Q - Physician	Schedule R - Other Medical	Total of Schedules O - R	Amount per Monthly Claims Summary	Variance
Dec-12	7,641,337	4,986,962	5,261,355	15,200,868	33,090,522	33,505,024	(414,502)

Management's response: In the case of claims paid through Facets, any monthly variances are due to timing. There is at most a day in between when the monthly summary is generated and the date that the claims data used to prepare the report is pulled. During this time, we may receive updated member information that may lead to small variances. Furthermore, the lag reports include claims that are first processed by subcontractors, then subsequently provided to Amerigroup. The paid date for the lag reports is determined by the date on which the

subcontractor reports having paid the claim, whereas the paid date on the claim summary is based on when Amerigroup pays the subcontractor. Certain subcontractors pay claims to providers after Amerigroup is billed, whereas other subcontractors bill Amerigroup after paying providers. In other words, variances between months are due to differences between when the subcontractors pay providers and when Amerigroup pays the subcontractors.

c. Obtain representations from the Contractor's management that medical cost is reported net of third party liability (TPL) and coordination of benefits (COB). Provide Contractor's explanation for any discrepancies.

KPMG obtained representations from the Contractor's management indicating that medical cost is reported net of third party liability (TPL) and coordination of benefits (COB).

Step 2: Trace and agree the amounts paid in the individual cells for the most recent 12 month incurral period ending December 31st.

a. For the claims paid and incurred on Schedules O – R, trace and agree 4 cells from each lag report (a total of 16 cells) to the supporting documentation used by the Contractor to complete the lag report. Provide Contractor's explanation for any discrepancies.

For the claims paid and incurred on Schedules O – R, KPMG agreed the following selected cells (on each of the four applicable lag reports) to the supporting claims database information used by the Contractor to complete the report. No exceptions were noted.

Month of Service	Month of payments
October 2012	November 2012
September 2012	September 2012
June 2012	August 2012
May 2012	July 2012

b. Validate that the amounts within the 4th Quarter lag report have not changed from the prior quarter. Specifically, trace and agree amounts reported in lines 4 through 37 to the corresponding paid and incurred months within the 3rd quarter lag reports. Provide Contractor's explanation for any discrepancies.

KPMG compared the amounts reported in each of the cells on Schedules O – R lag reports for the Third Quarter filing as of September 30, 2012 to the corresponding cells (i.e. the cells for the same month of service and month of payment combination) reported on Schedules O – R lag reports for the year ended December 31, 2012. KPMG noted no exceptions, except as shown below:

Management's response: The amounts within the 4th Quarter lag report were restated from the prior quarter to reflect retroactive payments. In other words, claim amounts associated with retroactive member enrollment or disenrollment were "pushed back" to the month of service to which the claim amount was associated.

Step 3: Trace and agree the amounts that comprise the individual cells.

a. From the sample selected in Step 2a, select 3 claims from each cell (a total of 48 claims).

KPMG selected the following claims (three from each of the four cells selected from each of the four lag reports in Step 2a for a total of 48 individual claims):

b. For the sample selected in Step 3a, verify the claim is reported in the correct month of service by tracing and agreeing to the date of service on the claim. Provide Contractor’s explanation for any discrepancies.

For each claim selected in Step 3a, KPMG traced and agreed the incurred month of service from the supporting Medicaid database claims information purported to be used by the Contractor to complete the lag reports to the date of service on the supporting provider claim submission form. No exceptions were noted.

c. For the sample selected in Step 3a, verify the claim is reported in the correct month of payment by tracing and agreeing to the claim payment system or underlying check register. Provide Contractor's explanation for any discrepancies.

For each claim selected in Step 3a, KPMG traced and agreed the applicable claim check number and date it was paid on, to the check number and amount of the total check on the applicable bank statement for each selected claim processed directly by the Contractor. In cases where the check did not clear the bank in the same month in which it was written, KPMG agreed the check number and amount to the outstanding checklist of the bank reconciliation for the month in which it was written. For each payment made via Electronic Funds Transfer (EFT), KPMG agreed the provider and the amount paid for each selected claim to a listing showing all of the EFT's that cleared the bank statement on the applicable day and then traced the total of the listing to the total of all "Automated debits" shown on the bank statement for that date. For each selected claim processed on the Contractor's behalf (pharmacy and dental claims) by a subcontractor, KPMG traced and agreed the month of payment provided by the subcontractor to the Contractor for the given claim. For pharmacy claims, the fill date was considered to be the paid date. No exceptions noted.

d. For the sample selected in Step 3a, verify the claim is reported in the appropriate lag report (hospital, outpatient, physician or other) by tracing and agreeing type of service to the hard/electronic copy of the claim, using a legend provided by the Contractor. Provide Contractor's explanation for any discrepancies.

For each item in the sample selected in Step 3a, KPMG traced and agreed the type of service information contained in the claims system (FACETS) to the classification from the supporting Medicaid database claims information purported to be used by the Contractor to complete the lag reports using the legend provided by the Contractor and included at Exhibit III as described below:

For each claim, KPMG used Matrix 1 from Exhibit III to determine the Finance Service Type Code for the claim based on the type of provider as well as the bill type code and the combination of procedure codes, revenue codes, and diagnosis codes present on the claim form submitted by the provider.

Next, KPMG used Matrix 2 from Exhibit III to determine the Detailed Category of Service Identifier for the claim based on the Finance Service Type Code determined using Matrix 1, the type of provider, and the combination of procedure codes, revenue codes, and diagnosis codes present on the claim form submitted by the provider.

Then, KPMG used Matrix 3 from Exhibit III to determine the appropriate lag report for the claim based on the Detailed Category of Service Identifier determined using Matrix 2, the place of service code and the gender of the member related to the claim and/or specific combinations of revenue and procedure codes if they were present on the claim.

See Exhibit III for the Contractor's instructions for using Matrix 1, Matrix 2, and Matrix 3.

KPMG noted no exceptions, except as noted below:

Exhibit I

Schedule of Procedures and Findings

Claim type classification reported	Claim no.	Provider Type	Bill type code	Revenue code	Diagnosis code	Classification corresponding to information on claim
Schedule P - Outpatient	113478833900	Hospital	82105	82105	V220	Schedule R - Other Medical
Schedule P - Outpatient	112446017400	Hospital	77416	77416	V580	Schedule R - Other Medical

Management's response: We agree that the claims should have been reported on Schedule R -Other Medical Services instead of Schedule P –Outpatient Facility Services. An issue with the classification was identified during this process and subsequently resolved. All future submissions of the report will reflect the corrected classification.

e. For the sample selected in Step 3a, verify the claim is related to a BAYOU HEALTH Prepaid Medicaid beneficiary by tracing and agreeing to the Contractor's member eligibility system. Provide Contractor's explanation for any discrepancies.

For each claim selected in Step 3a, KPMG verified the claim is related to a BAYOU HEALTH Prepaid Medicaid beneficiary by tracing and agreeing to the Contractor's member eligibility system. No exceptions were noted.

f. For the sample selected in Step 3a, verify the claim was paid in accordance with the terms of the applicable provider contract in effect at the date of service. Provide Contractor's explanation for any discrepancies.

For each of the claims in the sample selected in Step 3a, KPMG agreed the amounts paid for each service code, based on date of service to the fee schedule as referenced in the provider contract. No exceptions were noted except as follows:

Schedule O - Hospitalization Services

Sample no.	Claim no.	Paid amount reported for claim	Contractual payment amount	Difference
1	113523474000	$ 393.10	$ -	$ 393.10
4	112832211000	$ 393.10	$ -	$ 393.10
7	112523912300	$ 407.34	$ -	$ 407.34
8	112387083700	$ 800.94	$ -	$ 800.94

Management's response: We agree that these claims were not paid correctly when they were initially processed. These payments were made to providers for services billed as "Well Baby Per Diem". However, upon subsequent review, it was determined that these providers were not on the list of six providers eligible for reimbursement for these specific services. Therefore, management initiated a project to readjudicate the claims and recoup the funds after December 31, 2012 but prior to the performance of these agreed-upon procedures. In addition, claims processors have been reeducated regarding the reimbursement policy for these specific services.

Exhibit I

Schedule of Procedures and Findings

Step 4: Trace and agree the Global/Subcapitation Payments (Line 39-Global/Subcapitation Payments) for the most recent 12 month incurral period ending December 31st. This step is not applicable if the lag report does not contain subcapitation payments.

a. Trace and agree each monthly amount to the supporting documentation used by the Contractor to complete the lag report. Provide Contractor's explanation for any discrepancies.

KPMG traced and agreed each monthly amount reported on line 39 of Schedule Q Physician Services and Schedule R Other Medical for the year ended December 31, 2012 to the supporting documentation used by the Contractor to complete the lag report. KPMG noted that the lag reports Schedule O Hospitalization and Schedule P Outpatient Facility Services did not contain subcapitation payments for the year ended December 31, 2012. No exceptions were noted.

b. Trace and agree each monthly amount to the general ledger. Provide Contractor's explanation for any discrepancies.

KPMG traced and agreed each monthly amount for 2012 to the general ledger. KPMG noted the following exceptions as shown below:

Management's response: The above differences between subcapitation payments reflected in Schedules O-R compared in each case to the general ledger result from the underlying methods used to prepare these schedules for the Louisiana Prepaid Health Plan Quarterly and Year to Date Reports. Schedules O-R reflect subcapitation payments to providers for individual members in the month the member was eligible. In other words, payments or recoupments for retroactive member enrollment or disenrollment are "pushed back" to the month of service to which the subcapitation payment or recoupment is related. In comparison, subcapitation payments are recorded to the general ledger on an accrual basis but reflect payment in the month the information becomes known. Therefore, retroactive payments or recoupments are reflected in the general ledger in the month of payment.

c. In the event that there are no subcapitation payments, obtain representations from the Contractor confirming that the Contractor did not have payments of this nature during the reporting period.

KPMG obtained representations from the Contractor's management indicating that the Contractor did not have subcapitation payments for Schedule O Hospitalization or Schedule P Outpatient Facility Services during the year ended December 31, 2012.

Step 5: Trace and agree the amounts that comprise global/subcapitation payments. This step is not applicable if the lag report does not contain subcapitation payments.

a. From each lag report select 2 cells. From each cell, select 2 (a total of 4 subcapitation payments per lag report) subcapitation payments.

Exhibit I

Schedule of Procedures and Findings

KPMG selected the following subcapitation payments from the most recent 12-month incurral period ended December 31, 2012 within each applicable lag report:

Subcapitation payments selected from Schedule Q - Physician Services

KPMG noted that Schedule O Hospitalization and Schedule P Outpatient Facility Services did not contain subcapitation payments.

b. For the sample selected in Step 5a, recalculate the monthly payment based upon the provider contract in effect during the month of payment. Provide Contractor's explanation for any discrepancies.

For each item in the sample selected in Step 5a, KPMG recalculated the monthly payment by multiplying the number of members by the per member per month capitation for the applicable age/sex cell within the provider contract information contained in the Contractor's member eligibility system (FACETS). No exceptions were noted.

c. For the sample selected in Step 5a, verify that the transaction is recorded in the correct month of service by tracing and agreeing to the invoice or check request that substantiates the check. Provide Contractor's explanation for any discrepancies.

For each payment selected in Step 5a, KPMG agreed the payment date to the applicable check date contained in the claims payment system (FACETS). No exceptions were noted.

d. For the sample selected in Step 5a, verify that the check has cleared the bank by tracing and agreeing to the bank statement. Provide Contractor's explanation for any discrepancies.

For each payment selected in Step 5a, KPMG traced and agreed the check number and amount to the applicable bank statement. In cases where the check did not clear the bank statement in the month in which it was written, KPMG traced and agreed the check number and amount to the outstanding checklist of the appropriate applicable bank reconciliation for the month in which the check was written. For each payment made via EFT,

KPMG traced and agreed the provider and the amount paid for each selected claim to a listing showing all of the EFT's that cleared the bank statement on the applicable day and then traced the total of the listing to the total of all "Automated debits" shown on the bank statement for that date. No exceptions were noted.

e. For the sample selected in Step 5a, verify the transaction is reported in the appropriate lag report by tracing and agreeing to the contract provider type and covered services, using a legend provided by the Contractor. Provide Contractor's explanation for any discrepancies.

For each item in the sample selected in Step 5a, KPMG traced and agreed the contract provider type (fund name) to the covered services legend included at Exhibit VII which was prepared by the Contractor. KPMG noted that the Contractor had only Physician Services and Other Medical Services sub-capitation arrangements. No exceptions were noted.

Step 6: Trace and agree the amounts reported as settlements (Line 40-Settlements) of the most recent 12 month incurral period ending December 31st. This step is not applicable if the lag report does not contain settlements.

a. Trace and agree all settlement amounts to the supporting documentation used by the Contractor to complete the report. Provide Contractor's explanation for any discrepancies.

KPMG traced and agreed each monthly settlement amount reported on Line 40 of Schedule R Other Medical Services for the year ended December 31, 2012 to the supporting documentation used by the Contractor to complete the lag report. KPMG noted that settlement amounts totaling $35,000 ($5,000 per month for June 2012 through December 2012) were not reported on Line 40 of Schedule R Other Medical Services for the year ended December 31, 2012.

Management's response: Invoices dated for the last seven months of 2012 were inadvertently excluded from the report. All future reports will include these settlements.

KPMG noted that the lag reports Schedule O Hospitalization, Schedule P Outpatient Facility Services, and Schedule Q Physician Services did not contain any settlement amounts for the year ended December 31, 2012. No were exceptions noted.

b. For the reported settlement amounts, verify the transaction is reported in the appropriate lag report by tracing and agreeing to the supporting documentation. Provide Contractor's explanation for any discrepancies.

For the reported settlement amounts, KPMG agreed the description of the settlement amounts to the description of the amounts to be reported in the respective lag report contained in the BAYOU HEALTH Prepaid Health Plan Financial Reporting Guide Instructions. No exceptions were noted.

c. In the event that there are no settlements reported, obtain representations from the Contractor confirming that the Contractor did not have settlements during the reporting period.

KPMG obtained representations from the Contractor's management indicating that the Contractor did not have settlements for Schedule O Hospitalization, Schedule P Outpatient Facility Services, or Schedule Q Physician Services during the year ended December 31, 2012.

Schedule of Procedures and Findings

Step 7: Report on the Contractor's total IBNRs (Line 42 –Current Estimate of Remaining Liability - Claims Incurred But Not Reported).

a. Obtain and read the Contractor's policy, procedures and methodologies for calculating IBNR medical claim liability.

KPMG obtained and read the Contractor's policies, procedures and methodologies for calculating the IBNR medical claim liability. The Contractor's policies, procedures, and methodologies are included at Exhibit VIII and Exhibit IX which were prepared by the Contractor.

b. If the IBNR estimation includes a premium deficiency reserve and/or built-in cushion/reserve obtain and provide the amount for each and the methodology for calculation.

The Contractor's additional policy documentation included at Exhibit IX indicated that the IBNR estimation does not include a premium deficiency reserve and/or built-in cushion/reserve.

c. Include the item(s) obtained in 7a and 7b as an attachment to the AUP report.

KPMG included the items obtained in procedures 7a and 7b at Exhibit VIII and Exhibit IX, respectively.

Step 8: Trace and agree the allocation of IBNRs (Line 42 –Current Estimate of Remaining Liability - Claims Incurred But Not Reported) by month of service.

a. Trace and agree the IBNR reported by month for the lag triangles to the supporting documentation used by the Contractor to complete the report. Provide Contractor's explanation for any discrepancies.

KPMG traced and agreed the IBNR amounts reported by month on line 42 of Schedule O Hospitalization, Schedule P Outpatient Facility Services, Schedule Q Physician Services, and Schedule R Other Medical Services for the year ended December 31, 2012 to the supporting documentation used by the Contractor to complete the report. No exceptions were noted.

Expenses reported in Line 21 can be split into the following procedure codes which account for 63.2% of the total in this line in descending order:
T1015 (Clinic Visit) - **87.2%**, 36415 (Venipuncture) - **3.7%**, 87491 (Chlamydia trachomatis) - **3.40%**, 93306 (Echocardiography) - **3.1%**, 82261 (Biotinidase) - **2.6%**.

11 AMERIGROUP Louisiana, Inc. was charged $16,439,862 by AMERIGROUP Corporation for management fees for the period ending December 31, 2012. AMERIGROUP Corporation allocates compensation expense related to share-based payments made to employees of the Company. The amount of compensation expense for the period ending December 31, 2012 was $154,987. The Company reflects these allocated expenses as capital contributions since AMERIGROUP Corporation does not bill the Company for these amounts, which are included in selling, general and administrative expenses.

12 During the period ending December 31, 2012, AMERIGROUP Corporation made cash and noncash capital contributions of $55,000,000 and $154,987, respectively.

23 Allocation Methods:

- o NSPs were allocated across all regions/rate cells by membership.
- o Reinsurance premium was allocated across all regions/rate cells by membership.
- o Accounting entries that are not claim specific (e.g. change in margin, contingency, etc.) are allocated by paid medical dollars.

25 For the period ending December 31, 2012 there was $5,903 of non-covered services and amounts paid included in the total administrative expenses.
Value-added benefits identified in medical expenses equal $0 and are identified by the following codes:

- o HCPCS Code S5150: Unskilled Respite Care Not Hospice Per 15 Min
- o Revenue Code 0660: Respite Care - General

27 Foster Care Assessments line was populated using HCPCS code G0155.

28 Settlements line in the appropriate lag schedule includes contingency, changes in margin, and Univita wire payment.

29 Dollars associated with Third Party Liability Subrogation, Fraud And Abuse Recoveries, and Other Recoveries equal $4,847 for the reporting period ending December 31, 2012.

30 Dollars associated with Reinsurance Recoveries equal zero ($0) for the reporting period.

31 Checks Figures Table notes:

- o Variances in first four lines are due to rounding.
- o Schedule S-Utilization Report does not reflect full-risk cap or ASO arrangements which will cause a variance between Schedule S and Income Statement line 57.
- o Grand Total Net Income (Loss) on Total Profitability Statement does not equal QTR Net Income (Loss) on Income Statement due to rounding.

32 Schedule T-Sub-Capitated contains lines named "Various Providers". These are our providers that fall on the PCP line of the report (line 23)
Line 73 of the Income Statement (Public Health Education) does not have a a formula carrying over to column G

33 from column C, however, Total Health Care Quality Improvement Expenses is correctly reported.

34 Data for IP COS was completed using the same completion factors for all categories.

35 LA Pharmacy Carve-in (11/1/2012) notes:

- o Dollars are reported in Other Medical Expenses on Line 50, Pharmaceuticals.
- o Outpatient Pharmacy dollars are also reported on Line 50, Pharmaceuticals, which explains the expenses reported on Line 50, Pharmaceuticals prior to the quarter ending December 31, 2012.

NF Logic

- Use authorization for these claims to reclassify to NF
  - If the claim is considered Inpatient Acute and ONLY has Leave of Absence or Generic R&B, review the authorizations to see if the authorization has 1 of 3 NF Room types
    - R&B codes
      - Leave of Absence = 0180 to 0189
      - Generic R&B = 0100, 0101 & 0160 to 0169
    - Auth NF Room Types
      - 50 – Normal NF
      - 53 – Low Level of Care
      - 54 – High Level of Care
  - If there is more than 1 authorization, ensure all are for NF, otherwise leave as acute
  - Classify the entire claim as NF and bucket everything through the currently defined NF logic

Sub Acute Logic

- Use authorization for these claims to reclassify to Inpatient Subacute
  - If the claim is considered Inpatient Acute review the authorizations to see if the authorization has 1 of the listed BH or Subacute Room types

  - If there is more than 1 authorization, ensure all are for BH or Subacute, otherwise leave as Inpatient Acute
  - If the total authorized days is greater than 45, classify as Inpatient Subacute, otherwise leave as Inpatient Acute
  - Classify the entire claim as Inpatient Subacute and bucket everything through the currently defined Inpatient Subacute logic

IMPORTANT NOTES AND COMMENTS

(1) A **combination** of the criteria in columns (C1) through (C5) must be met in order for a claim to be bucketed into any specific report line numb
e.g. In order for a claim to be bucketed into Report Line #19, a **combination** of (C1) one of the listed DETAIL_COS_IDs **and** (C3) the AGE_CD **and** (C4) the GENDER_CD **and** (C5) one of the listed revenue or diagnosis codes must be tru
(2) If any two report lines have any identical DETAIL_COS_IDs, the report line that uses additional medical billing codes will override any overl
e.g. Report Lines #18 and #19 both list DETAIL_COS_ID 16 as one of the criteria; however, since Report Line #19 has revenue/Dx code criteria, if a combination of criteria for Report Line #19 is met, then the claim will be bucketed into Report Line #19 r
than #18.
(3) Report Lines #20 and #46 share the same set of possible procedure codes. Given these procedure codes, if the CLM_LINE_PLACE_OF_SVC_CD = **and** the DETAIL_COS_ID is not 26, 27, 28, or 29, then the claim gets bucketed into Line #2
otherwise, the claim will get bucketed into Report Line #4
(4) Report Lines #51 and #52 share the DETAIL_COS_ID 75, but these report lines require different procedure codes; thus, there is no overl
(5) DETAIL_COS_ID 28 is the preliminary identifier for Report Lines #24-33, #36. In order to split claims into each of the aforementioned Report Lines, procedure codes and/or CLM_LINE_PLACE_OF_SVC_CDs are
The following is the order in which the aforementioned Report Line numbers are identified (the report lines that are identified last override any logic used to bucket claims into previously listed report lines): 24, 33, 30, 31, 32, 36, 25, 27, 26, 2

LA 2012 Rate Cell Report AUP Category of Service Matrix Instructions and Walkthrough:

Three matrices (Matrix 1, Matrix 2, and Matrix 3) have been provided in order to show how claims are classified within various lines in the report.

Select one of claims that have been randomly selected for classification testing and note to which report line number this claim has ultimately been mapped.

If the report line number is 43, 44, or 46, then the claim line revenue code or claim line procedure code on the screenshot for the claim will be sufficient for mapping, and Matrix 1 and Matrix 2 will not be needed. For all claim lines that have been reported on lines 43, 44, or 46, simply match either the revenue or procedure code listed in Matrix 3 to that shown on the claim screenshot in order to confirm that the claim has been mapped to the correct report line.

For all other report line numbers, the FINANCE_SVC_TYPE_CD on a claim (or claim line, in certain instances) must be determined, using Matrix 1. Note that all claim lines will share the same FINANCE_SVC_TYPE_CD, with the exception of Inpatient claims for Acute and Sub-Acute. For Inpatient Acute and Sub-Acute claims, claim lines on a specific claim will not necessarily share the same FINANCE_SVC_TYPE_CD, because these are based on room and board and need to be classified by claim *lines* to get different levels of NICU.

1. Use Matrix 1 to determine the FINANCE_SVC_TYPE_CD of the claim:
    a. To do so, first identify the Bill Type on the claim.
        i. If the Bill Type is categorized as Nursing Facility or Inpatient, use the revenue code, diagnosis code, procedure code, age, and gender criteria to determine the FINANCE_SVC_TYPE_CD.
        ii. If the Bill Type is not categorized as Nursing Facility or Inpatient, it will fall into either the Physician or Outpatient bucket.
    b. If you need to determine whether the claim belongs to Physician or Outpatient, check the Provider Detail Type on the claim to determine whether it is a Facility or Physician.
        i. If the Provider is a practitioner, then the claim belongs to one of the Physician categories. If the claim does not show a Mental Health/BH procedure or Dx code listed on one of the separate tabs, the claim will fall into the PHYSOT FINANCE_SVC_TYPE_CD.
        ii. If the Provider Detail Type is a facility, the claim must be bucketed into Outpatient (OPF).
    c. If the claim belongs in one of the OPF categories, check to see if the claim is associated with a Primary Discharge Mental Health Dx and a Dx with a BH procedure code (these are located on the Proc Codes and Diag Codes tabs).
        i. If there are no mental health or BH Dx/procedure codes associated with the claim, this eliminates OPERSA, OPERMH, OPOTSA, and OPOTMH and leaves us with choices OPEROT, OPSURG, and OPOTH.
    d. Now, look at *all* of the claim *lines* associated with the claim.
        i. If there is no indication that the claim is associated with an OPEROT or OPSURG revenue code, the claim will fall into the OPOTH bucket.
        ii. If there is *any* claim line on the claim associated with an OPEROT or OPSURG revenue code, all claim lines on that claim will be categorized as either OPEROT or OPSURG.

iii. These revenue codes are listed on the Revenue Codes tab.
iv. As stated above, for any claims that are categorized to Outpatient by bill type, all claim lines for that claim will share the same FINANCE_SVC_ TYPE _CD.

e. Note to which of the 33 FINANCE_SVC_TYPE_CDs the claim in question has been mapped in order to continue to Step 2 below.

2. Use Matrix 2 to determine the DETAIL_COS_ID:
    a. To do so, filter the DATA tab by the FINANCE_SVC_ TYPE_CD that was determined in Step 1.
    b. Next, determine the corresponding DETAIL_COS_ID.
        i. If there are multiple DETAIL_COS_IDs associated with any particular FINANCE_SVC_TYPE_CD, determine the DETAIL_COS_ID by using the additional claim *line* Dx, procedure, or revenue requirements in the last 5 columns.
    c. Note to which DETAIL_COS_ID the claim line in question has been mapped in order to continue to Step 3 below.

3. Use Matrix 3 to determine the final Report Line Number:
    a. Recall the DETAIL_COS_ID that was determined in Step 2.
    b. Use the Notes and Comments embedded in Matrix 3 in order to determine the final Report Line Number.

4. Once the final Report Line Number is determined, the appropriate lag to which the claim should be mapped will also be determinable.

Exhibit IV – Contractor Definition of HCQI Expenses

(Prepared by the Contractor)

Year ended December 31, 2012

AMERIGROUP Louisiana, Inc.
Allowable and Excludable Health Care Quality (HCQI) Expenses
As of December 31, 2012

Definition of HCQI Expenses as per Bayou Health Prepaid Health Financial Reporting Guide

Activities conducted by the Contractor to improve quality must meet the following requirements.
The activity must be designed to:

- Improve health quality.
- Increase the likelihood of desired health outcomes in ways that are capable of being objectively measured and producing verifiable results and achievements.
- Be directed toward individual enrollees, or incurred for the benefit of specified segments of enrollees, or provide health improvements to the population beyond those enrolled in coverage as long as no additional costs are incurred due to the non-enrollees.
- Be grounded in evidence-based medicine, widely-accepted best clinical practice or criteria issued by recognized professional medical associations, accreditation bodies, government agencies or other nationally-recognized health care quality organizations.
- Improve health outcomes, including increasing the likelihood of desired outcomes compared to a baseline and reduce health disparities among specified populations.

Examples include the direct interaction of the Contractor (including those services delegated by subcontract for which the Contractor retains ultimate responsibility under the terms of the contract with DHH) with providers and the enrollee or the enrollee's representative (for example, face-to-face, telephonic, web-based interactions or other means of communication) to improve health outcomes, including activities such as:

- Effective case management, care coordination, chronic disease management, and medication and care compliance initiatives, including through the use of the medical homes model as defined in the RFP and contract
- Identifying and addressing ethnic, cultural or racial disparities in effectiveness of identified best clinical practices and evidence-based medicine
- Quality reporting and documentation of care in non-electronic format
- Health information technology to support these activities
- Accreditation fees directly related to quality of care activities

Prevent hospital readmissions through a comprehensive program for hospital discharge –
Examples include:

- Comprehensive discharge planning (for example, arranging and managing transitions from one setting to another, such as hospital discharge to home or to a rehabilitation center) in order to help assure appropriate care that will, in all likelihood, avoid readmission to the hospital
- Patient-centered education and counseling
- Personalized post-discharge reinforcement and counseling by an appropriate health care professional
- Any quality reporting and related documentation in non-electronic form for activities to prevent hospital readmission
- Health information technology to support these activities

Improve patient safety, reduce medical errors and lower infection and mortality rates –
Examples of activities primarily designed to improve patient safety, reduce medical errors and lower infection and mortality rates include:

- The appropriate identification and use of best clinical practices to avoid harm
- Activities to identify and encourage evidence-based medicine in addressing independently identified and documented clinical errors or safety concerns
- Activities to lower the risk of facility-acquired infections
- Prospective prescription drug utilization review aimed at identifying potential adverse drug interactions
- Any quality reporting and related documentation in non-electronic form for activities that improve patient safety and reduce medical errors
- Health information technology to support these activities

Implement, promote, and increase wellness and health activities – Examples of activities primarily designed to implement, promote and increase wellness and health activities include:

- Wellness assessments
- Wellness/lifestyle coaching programs designed to achieve specific and measurable improvements
- Coaching programs designed to educate individuals on clinically-effective methods for dealing with a specific chronic disease or condition
- Public health education campaigns that are performed in conjunction with the LA DPH
- Actual rewards, incentives, bonuses, reductions in copayments (excluding administration of such programs) that are not already reflected in payments or claims
- Any quality reporting and related documentation in non-electronic form for wellness and health promotion activities
- Coaching or education programs and health promotion activities designed to change member behavior and conditions (for example, smoking or obesity)
- Health information technology to support these activities
- Enhancing the use of health care data to improve quality, transparency and outcomes, and support meaningful use of health information technology

Exclusions

Expenditures and activities that **must not be included** in quality improving activities are:

- Those that are designed primarily to control or contain costs.
- The *pro rata* share of expenses that are for lines of business or products other than LA Medicaid.
- Those which otherwise meet the definitions for quality improvement activities, but which were paid for with grant money or other funding separate from DHH capitation payments.
- Those activities that can be billed or allocated by a provider for care delivery and which are, therefore, reimbursed as clinical services.
- Establishing or maintaining a claims adjudication system, including costs directly related to upgrades in health information technology that are designed primarily or solely to improve claims payment capabilities or to meet regulatory requirements for processing claims [for example, costs of implementing new administrative simplification standards and code sets adopted pursuant to the Health Insurance Portability and Accountability Act (HIPAA), 42 USC 1320d-2, as amended, including the new ICD-10 requirements].
- That portion of the activities of health care professional hotlines that does not meet the definition of activities that improve health quality.
- All retrospective and concurrent utilization review.

- Fraud prevention activities, other than fraud detection/recovery expenses up to the amount recovered that reduces incurred claims.
- The cost of developing and executing provider contracts and fees associated with establishing or managing a provider network, including fees paid to a vendor for the same reason.
- Provider credentialing.
- Marketing expenses.
- Costs associated with calculating and administering individual enrollee or employee incentives.
- That portion of prospective utilization that does not meet the definition of activities that improve health quality.
- State and federal taxes and regulatory fees.
- Any function or activity not expressly included in paragraph (c) of this section, unless otherwise approved by and within the discretion of DHH, upon adequate showing by the BAYOU Health Contractor that the activity's costs support the definitions and purposes described above or otherwise support monitoring, measuring or reporting health care quality improvement.

Definition of HCQI Expenses as AMERIGROUP Louisiana, Inc.

AMERIGROUP Louisiana, Inc. has complied with the definitions outlined by the Bayou Health Prepaid Health Financial Reporting Guide when preparing Schedule A for allowable and excludable HCQI expenses. We specifically identify the departments that most closely reflect the underlying intentions of the instructions of the report in order to accurately reflect HCQI expenses. Management believes that this completely and accurately captures the expenses that are allowable HCQI expenses in Schedule A.

AMERIGROUP LOUISIANA, INC.

Exhibit V – Methodology of Expense Allocation

(Prepared by the Contractor)

Year ended December 31, 2012

AMERIGROUP Louisiana, Inc.
Allocation of Expenses Methodology
As of December 31, 2012

Definition as per Bayou Health Prepaid Health Plan Financial Reporting Guide

Each expense must be reported under only one type of expense unless a portion of the expense fits under the definition of, or criteria for, one type of expense and the remainder fits into a different type of expense, in which case the expense must be prorated between types of expenses. Expenditures that benefit lines of business other than LA Medicaid must be reported on a pro rata share.

- Allocation to each category should be based on a generally-accepted accounting method that is expected to yield the most accurate results. Specific identification of an expense with an activity that is represented by one of the categories above generally will be the most accurate method. If a specific identification is not feasible, the Contractor must provide an explanation of why it believes the more accurate result will be gained from allocation of expenses based upon pertinent factors or ratios such as studies of employee activities, salary ratios or similar analyses.
- Many entities operate within a group where personnel and facilities are shared. Shared expenses, including expenses under the terms of a management contract, must be apportioned pro rata to the entities incurring the expense.
- Any basis adopted to apportion expenses must be that which is expected to yield the most accurate results and may result from special studies of employee activities, salary ratios, capitation payment ratios or similar analyses. Expenses that relate solely to the operations of a reporting entity, such as personnel costs associated with the adjusting and paying of claims, must be borne solely by the reporting entity and are not to be apportioned to other entities within a group.

Definition as per AMERIGROUP Louisiana, Inc.

Lines 65 through 90 of the Bayou Health Prepaid Health Plan Financial Report most closely resemble our departmental structure. AMERIGROUP Louisiana, Inc. has used specific identification of departments for the preparation of the report.

There are departments identified in the AMERIGROUP structure that should be allocated between two or more separate line items. It has been determined that the health promotion department should be allocated between Line 68 – Racial Disparity Prevention Efforts and Line 73 – Public Health Education. We have allocated 75% of the expenses to Public Health Education and 25% to Racial Disparity Prevention Efforts because of the underlying purpose of the department's activities. The inpatient review department has been allocated to two separate line items as well. According to the department's activities, it has been determined that 50% of the expenses should be allocated to Line 66 – Care Coordination while the remaining 50% should be allocated to Line 76 – Utilization Management and Concurrent Review. AMERIGROUP Louisiana's Plan Executive department includes expense that have a wide variety of purposes. We have used specific identification to look through the department to the underlying expense categories to determine the line items to which the expenses should be allocated. All of these expenses have been allocated to line items in the Other Administrative Costs section of Schedule A.

The Management Fee (or Administrative Services Fee) charged to AMERIGROUP Louisiana, Inc. by AMERIGROUP Corporation is a blended calculation using a PMPM charge as well as a percentage of net premium revenue. We have looked through to the underlying departments that were used to calculate the PMPM charge and percentage of net premium of the management fee to specifically identify departments that should be allocated to line items other than Line 86 – Indirect Costs-Corporate Overhead Allocations, which is where the majority of the Management Fee resides.

Policies, Procedures, and Methodologies for Calculating IBNR Medical Claim Liability

As part of its commitment to strong fiscal management, proven actuarial methods are used to estimate and track the liability for claims incurred but not reported (IBNR) for each of its health plan subsidiaries. Medical liabilities estimates are developed using methods and assumptions that consider historical claims payment patterns, current levels of authorized inpatient days, provider reimbursement changes, historical utilization trends, other medical cost inflation factors, membership levels, benefit design changes, seasonality, demographic mix change, catastrophic claim information, and other relevant factors. These methods are consistent with the Actuarial Standard of Practice No. 5 for Incurred Health and Disability Claims adopted by the Actuarial Standards Board in December 2000.

The historical paid claims are categorized by incurred month to create a claims processing or development pattern. This information is used to help estimate the unprocessed portion of incurred claims, commonly referred to as the "lag" method. Using this method, completion factors for claims experience based on categories of service (inpatient and non-inpatient) are derived within each product and market. The actuarial staff then applies the completion factors to the paid claim data by incurred month to estimate the remaining outstanding liability for each incurred period. This method accounts for both IBNR claims as well as reported but not paid claims.

Each month, the health plans are asked to provide updates on recent activity in the plan concerning membership trends, provider reimbursement changes, and incidences of illness or disease state (such as cardiac heart failure cases, cases of upper respiratory illness, the length and severity of the flu season, diabetes, the number of full-term versus premature births and the number of neonatal intensive care babies). Additional judgments are made to consider these changes and any other operational anomalies such as claims processing pattern changes and number of payment cycles per month. Additional liabilities for contract settlement issues and potential provider legal issues will also be identified.

The internal actuarial staff estimates the claim liabilities on a monthly basis. On a quarterly basis, an external actuarial consultant, Optum Insight Consulting, assesses the reserving methodology and results and provides an actuarial certification of liabilities. In addition, external auditors perform their own actuarial analysis of the health plan's medical liabilities on an annual basis as part of the normal audit process, providing another level of review of year-end medical liabilities.

Provisions for Adverse Deviation

Actuarial Standards of Practice generally require that medical claims liability estimates be adequate to cover obligations under moderately adverse conditions. Each quarter, margin and other provisions for adverse deviation are reviewed in regard to its actuarial best estimate of claims liability. Margin and other provisions for adverse deviation are the estimated amounts required to cover uncertainties related to fluctuations in claims payment patterns, membership, products, and medical trends. We utilize the services of our independent actuarial consultants, Optum Insight (Optum), to review our estimates each quarter and advise us on the adequacy of our medical liability by component and in its entirety. On a quarterly basis, Optum certifies the adequacy of our medical liabilities. In these medical liability estimates, judgments are made based on knowledge and experience about past and current events. Based on the uncertainties noted above, these factors are a necessary component of our medical liabilities.

Lags O-R IBNR Methodology Addendum

The IBNR estimation used in the 2012 Financial Reporting Guide does not include a premium deficiency reserve or a built-in cushion/reserve.

Explanation of IBNR Variances between Schedule A and Schedules O-R

The methodology used to allocate IBNR expenses on the Income Statement (Schedule A) differs from that used to allocate IBNR expenses on the lag reports (Schedules O-R). Please see the excerpt from the Financial Reporting Guide's quarterly report specifications for Schedule A below:

> *"The Contractor shall report revenues and expenses using the full accrual method" (Section 2.01 Schedule A: Income Statement, p. 9).*

Amerigroup Louisiana has interpreted the meaning of the "full accrual method" to be that the medical expenses reported on the Income Statement during the quarterly interims are final and thus cannot be retroactively changed with each subsequent submission (i.e. cannot be restated). The lag reports, however, do restate the claims reported on the triangles. Due to this fundamental difference between how medical expenses are reported on the Income Statement in comparison to how medical expenses are reported on the lag reports, there is a difference in the IBNR reported in Schedules O-R and the IBNR attached to the claims reported on Schedule A, since IBNR cannot be changed on dollars on the Income Statement that have already been fully accrued.

In order to recalculate the year-to-date total medical expense for each line item on the income statement (Schedule A), follow the methodology below for each line item, using the completion factors* specific to the income statement:

- 2012 YTD Medical Expense = {[(FFS claims) + (ancillary FFS vendor-paid vision claims) + (ancillary FFS vendor-paid transportation claims) + (ancillary FFS vendor-paid DME claims)] ÷ (income statement completion factor*)} + (PBM paid claims) + (settlements or payments made outside of the normal claims system) + (subcapitation)

    - "FFS" = Traditional health care payment system under which physicians and other providers receive a payment that does not exceed their billed charge for each unit of service provided.
    - "Ancillary" = A term used to describe additional service performed related to care.
    - "PBM" = Pharmacy benefit manager. A company under contract with managed-care organizations, self-insure companies, and government programs to manage pharmacy network management, drug utilization review, outcomes management, and disease management.

- “Capitation” = A stipulated dollar amount established to cover the cost of health care services delivered for a person.

*Assigned completion factors for the income statement are provided in Appendix A – Income Statement Completion Factors.
