

Application for a §1915(c) Home and Community-Based Services Waiver

PURPOSE OF THE HCBS WAIVER PROGRAM

The Medicaid Home and Community-Based Services (HCBS) waiver program is authorized in section 1915(c) of the Social Security Act. The program permits a state to furnish an array of home and community-based services that assist Medicaid beneficiaries to live in the community and avoid institutionalization. The state has broad discretion to design its waiver program to address the needs of the waiver's target population. Waiver services complement and/or supplement the services that are available to participants through the Medicaid state plan and other federal, state and local public programs as well as the supports that families and communities provide.

The Centers for Medicare & Medicaid Services (CMS) recognizes that the design and operational features of a waiver program will vary depending on the specific needs of the target population, the resources available to the state, service delivery system structure, state goals and objectives, and other factors. A state has the latitude to design a waiver program that is cost-effective and employs a variety of service delivery approaches, including participant direction of services.

Request for an Amendment to a §1915(c) Home and Community-Based Services Waiver

1. Request Information

A. The **State** of **Louisiana** requests approval for an amendment to the following Medicaid home and community-based services waiver approved under authority of §1915(c) of the Social Security Act.

B. Program Title:

Residential Options Waiver (ROW)

C. Waiver Number: LA.0472

D. Amendment Number:

E. Proposed Effective Date: (mm/dd/yy)

01/01/26

Approved Effective Date of Waiver being Amended: 07/01/23

2. Purpose(s) of Amendment

Purpose(s) of the Amendment. Describe the purpose(s) of the amendment:

Appendix B.6.c, B.6.d, B.6.f and B.6.i - Align the 90L language with Louisiana State Law- signature acceptance.

Appendix C.1.

Updated services definition/ align wording (Participant to Beneficiary/sentence structure) for Environmental Accessibility Adaptations, Assistive Technology/Specialized Medical Equipment and Supplies, Supported Employment, Community Rehabilitation Program (CRP) who are enrolled Medicaid providers of Supported Employment Services, Support Coordination, Monitored In Home Caregiving, Prevocational Services, Companion Care, Community Living Supports, Skilled Nursing, Host Home, Respite Services- Out of Home, and Shared Living Services.

Updated limits for prevocational, respite, and Supported Employment.

Update/Added a provider type to prevocational services.

Add new services Nurse Consult (Personal Care Attendant)

C.2.d

Provision of Personal Care or Similar Services by Legally Responsible Individuals- Remove reference to Guidelines for Support Planning.

J.2.d.

Add Nurse Consult- Derivation of Estimates
Estimate of Factor D

3. Nature of the Amendment

A. Component(s) of the Approved Waiver Affected by the Amendment. This amendment affects the following component(s) of the approved waiver. Revisions to the affected subsection(s) of these component(s) are being submitted concurrently (*check each that applies*):

Component of the Approved Waiver	Subsection(s)
☐ Waiver Application	
☐ Appendix A - Waiver Administration and Operation	
☒ Appendix B - Participant Access and Eligibility	B.6.c., B.6.d, B.6.f, B.6.i
☒ Appendix C - Participant Services	C.1
☐ Appendix D - Participant Centered Service Planning and Delivery	
☐ Appendix E - Participant Direction of Services	

Component of the Approved Waiver	Subsection(s)
☐ Appendix F - Participant Rights	
☐ Appendix G - Participant Safeguards	
☐ Appendix H	
☐ Appendix I - Financial Accountability	
☒ Appendix J - Cost-Neutrality Demonstration	J.2.d

B. Nature of the Amendment. Indicate the nature of the changes to the waiver that are proposed in the amendment (*check each that applies*):

- ☐ Modify target group(s)
 - ☐ Modify Medicaid eligibility
 - ☒ Add/delete services
 - ☒ Revise service specifications
 - ☒ Revise provider qualifications
 - ☐ Increase/decrease number of participants
 - ☐ Revise cost neutrality demonstration
 - ☐ Add participant-direction of services
 - ☒ Other
- Specify:

Appendix B.6.c, B.6.d, B.6.f and B.6.i - Align the 90L language with Louisiana State Law- signature acceptance.

Appendix C.1.

Updated services definition/ align wording (Participant to Beneficiary/sentence structure) for Environmental Accessibility Adaptations, Assistive Technology/Specialized Medical Equipment and Supplies, Supported Employment, Community Rehabilitation Program (CRP) who are enrolled Medicaid providers of Supported Employment Services, Support Coordination, Monitored In Home Caregiving, Prevocational Services, Companion Care, Community Living Supports, Skilled Nursing, Host Home, Respite Services- Out of Home, and Shared Living Services.

Updated limits for prevocational, respite, and Supported Employment.

Update/Added a provider type to prevocational services.

Add new services Nurse Consult (Personal Care Attendant)

C.2.d

Provision of Personal Care or Similar Services by Legally Responsible Individuals- Remove reference to Guidelines for Support Planning.

J.2.d.

Add Nurse Consult- Derivation of Estimates
Estimate of Factor D

Application for a §1915(c) Home and Community-Based Services Waiver

1. Request Information (1 of 3)

A. The State of Louisiana requests approval for a Medicaid home and community-based services (HCBS) waiver under the authority of section 1915(c) of the Social Security Act (the Act).

B. Program Title (optional - this title will be used to locate this waiver in the finder):

Residential Options Waiver (ROW)

C. Type of Request: amendment

Requested Approval Period: (For new waivers requesting five year approval periods, the waiver must serve individuals who are dually eligible for Medicaid and Medicare.)

☐ 3 years ☒ 5 years

Draft ID: LA.005.03.03

D. Type of Waiver (select only one):

Regular Waiver

E. Proposed Effective Date of Waiver being Amended: 07/01/23

Approved Effective Date of Waiver being Amended: 07/01/23

PRA Disclosure Statement

The purpose of this application is for states to request a Medicaid Section 1915(c) home and community-based services (HCBS) waiver. Section 1915(c) of the Social Security Act authorizes the Secretary of Health and Human Services to waive certain specific Medicaid statutory requirements so

that a state may voluntarily offer HCBS to state-specified target group(s) of Medicaid beneficiaries who need a level of institutional care that is provided under the Medicaid state plan. Under the Privacy Act of 1974 any personally identifying information obtained will be kept private to the extent of the law.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-0449 (Expires: July 31, 2027). The time required to complete this information collection is estimated to average 163 hours per response for a new waiver application and 78 hours per response for a renewal application, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

1. Request Information (2 of 3)

F. Level(s) of Care. This waiver is requested in order to provide home and community-based waiver services to individuals who, but for the provision of such services, would require the following level(s) of care, the costs of which would be reimbursed under the approved Medicaid state plan (*check each that applies*):

☐ **Hospital**

Select applicable level of care

☐ **Hospital as defined in 42 CFR § 440.10**

If applicable, specify whether the state additionally limits the waiver to subcategories of the hospital level of care:

☐ **Inpatient psychiatric facility for individuals age 21 and under as provided in 42 CFR § 440.160**

☐ **Nursing Facility**

Select applicable level of care

☐ **Nursing Facility as defined in 42 CFR § 440.40 and 42 CFR § 440.155**

If applicable, specify whether the state additionally limits the waiver to subcategories of the nursing facility level of care:

☐ **Institution for Mental Disease for persons with mental illnesses aged 65 and older as provided in 42 CFR § 440.140**

☒ **Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) (as defined in 42 CFR § 440.150)**

If applicable, specify whether the state additionally limits the waiver to subcategories of the ICF/IID level of care:

1. Request Information (3 of 3)

G. Concurrent Operation with Other Programs. This waiver operates concurrently with another program (or programs) approved under the following authorities

Select one:

☐ Not applicable

☒ **Applicable**

Check the applicable authority or authorities:

☐ **Services furnished under the provisions of section 1915(a)(1)(a) of the Act and described in Appendix I**

☒ **Waiver(s) authorized under section 1915(b) of the Act.**

Specify the section 1915(b) waiver program and indicate whether a section 1915(b) waiver application has been submitted or previously approved:

LA.0005 Dental Benefit Program (PAHPs)

Specify the section 1915(b) authorities under which this program operates (check each that applies):

☒ **section 1915(b)(1) (mandated enrollment to managed care)**

☒ **section 1915(b)(2) (central broker)**

☐ **section 1915(b)(3) (employ cost savings to furnish additional services)**

☒ **section 1915(b)(4) (selective contracting/limit number of providers)**

☐ **A program operated under section 1932(a) of the Act.**

Specify the nature of the state plan benefit and indicate whether the state plan amendment has been submitted or previously approved:

☐ **A program authorized under section 1915(i) of the Act.**

☐ **A program authorized under section 1915(j) of the Act.**

☐ **A program authorized under section 1115 of the Act.**

Specify the program:

H. Dual Eligibility for Medicaid and Medicare.

Check if applicable:

☒ **This waiver provides services for individuals who are eligible for both Medicare and Medicaid.**

2. Brief Waiver Description

Brief Waiver Description. *In one page or less*, briefly describe the purpose of the waiver, including its goals, objectives, organizational structure (e.g., the roles of state, local and other entities), and service delivery methods.

The purpose of the Residential Options Waiver, a 1915 C waiver, is to assist participants in leading healthy, independent and productive lives to the fullest extent possible and promote the full exercise of their rights as citizens of the state of Louisiana. Services are provided with the goal of promoting independence through strengthening the participant's capacity for self-care and self-sufficiency. The Residential Options Waiver is person-centered incorporating the participant's support needs and preferences with a goal of integrating the participant into their community. The Residential Options Waiver provides opportunities for eligible individuals with developmental disabilities to receive HCBS services that allow them to transition to and/or remain in the community.

The objectives of the Residential Options Waiver are to:

Promote independence for participants through the provision of services meeting the highest standards of quality and national best practices, while ensuring health and safety through a comprehensive system of participant safeguards;

Offer an alternative to institutionalization and costly comprehensive services through the provision of an array of services and supports that promote community inclusion and independence by enhancing and not replacing existing informal networks; and

Offer access to services which would protect the health and safety of the participant.

The Louisiana Department of Health (LDH) Bureau of Health Services Financing (BHSF) is the Single State agency which maintains administrative and supervisory oversight of the ROW. The department within BHSF which has oversight authority of the Residential Options Waiver is the Medicaid Program Support and Waivers (MPSW) section. BHSF MPSW designates the authority for implementing the program(s) and for programmatic oversight of the waiver to the responsible entity, Office for Citizen's with Developmental Disabilities (OCDD) with responsibility for day to day operations delegated to Human Services Authorities or Districts. This authority has been made through a Memorandum of Understanding between LDH BHSF Medicaid Program Support and Waivers and OCDD. A separate Memorandum of Understanding has also been established between BHSF Medicaid Program Support and Waivers and the Human Services Districts or Authorities.

Legislation passed in 2008, 2012, and 2013 created Human Services Districts or Authorities referred to as Local Governing Entities (LGE). The LGEs are the regional arm of OCDD to direct the operation and management of services for developmental disabilities. There are ten LGEs' offices within the state of Louisiana who manage the day to day operations of the ROW for citizens within their geographic location.

Services are accessed through a single point of entry in the LGE. When criteria are met, individual's names are placed on the registry. All waiver participants choose their Support Coordination and Direct Service Provider Agencies through the Freedom of Choice process. As part of OCDD's Tiered Waiver approach, all children under age 22 enter the waiver system into the Children's Choice Waiver and all adults enter into the Supports Waiver. A person-centered planning process, which includes completion of a needs-based assessment, is utilized during the initial phase to develop the individual's life vision/goals and develop support strategies and identify services/supports needed. If an individual's needs cannot be met with the initial waiver they may request moving up to the next waiver in the Tiers- the Residential Options Waiver. The ROW is the second tier within the OCDD Tiered Waiver process. The initial plan of care (POC) is developed during this person-centered planning process and approved by the LGE. Case Management Agencies are designated as Support Coordination agencies throughout this application. All services must be prior authorized and delivered in accordance with the approved plan of care. Prior authorization is completed by a contracted data source with LDH. The average participant's expenditures for all waiver services shall not exceed the average Medicaid expenditures for ICF/IID services.

3. Components of the Waiver Request

The waiver application consists of the following components. *Note: Item 3-E must be completed.*

A. Waiver Administration and Operation. Appendix A specifies the administrative and operational structure of this waiver.

B. Participant Access and Eligibility. Appendix B specifies the target group(s) of individuals who are served in this waiver, the number of participants that the state expects to serve during each year that the waiver is in effect, applicable Medicaid eligibility and post-eligibility (if applicable) requirements, and procedures for the evaluation and reevaluation of level of care.

C. Participant Services. Appendix C specifies the home and community-based waiver services that are furnished through

the waiver, including applicable limitations on such services.

D. Participant-Centered Service Planning and Delivery. **Appendix D** specifies the procedures and methods that the state uses to develop, implement and monitor the participant-centered service plan (of care).

E. Participant-Direction of Services. When the state provides for participant direction of services, **Appendix E** specifies the participant direction opportunities that are offered in the waiver and the supports that are available to participants who direct their services. (*Select one*):

- ☒ **Yes. This waiver provides participant direction opportunities.** *Appendix E is required.*
- ☐ **No. This waiver does not provide participant direction opportunities.** *Appendix E is not required.*

F. Participant Rights. **Appendix F** specifies how the state informs participants of their Medicaid Fair Hearing rights and other procedures to address participant grievances and complaints.

G. Participant Safeguards. **Appendix G** describes the safeguards that the state has established to assure the health and welfare of waiver participants in specified areas.

H. Quality Improvement Strategy. **Appendix H** contains the quality improvement strategy for this waiver.

I. Financial Accountability. **Appendix I** describes the methods by which the state makes payments for waiver services, ensures the integrity of these payments, and complies with applicable federal requirements concerning payments and federal financial participation.

J. Cost-Neutrality Demonstration. **Appendix J** contains the state's demonstration that the waiver is cost-neutral.

4. Waiver(s) Requested

A. Comparability. The state requests a waiver of the requirements contained in section 1902(a)(10)(B) of the Act in order to provide the services specified in **Appendix C** that are not otherwise available under the approved Medicaid state plan to individuals who: (a) require the level(s) of care specified in Item 1.F and (b) meet the target group criteria specified in **Appendix B**.

B. Income and Resources for the Medically Needy. Indicate whether the state requests a waiver of section 1902(a)(10)(C)(i)(III) of the Act in order to use institutional income and resource rules for the medically needy (*select one*):

- ☐ **Not Applicable**
- ☒ **No**
- ☐ **Yes**

C. Statewidelessness. Indicate whether the state requests a waiver of the statewidelessness requirements in section 1902(a)(1) of the Act (*select one*):

- ☒ **No**
- ☐ **Yes**

If yes, specify the waiver of statewidelessness that is requested (*check each that applies*):

- ☐ **Geographic Limitation.** A waiver of statewidelessness is requested in order to furnish services under this waiver only to individuals who reside in the following geographic areas or political subdivisions of the state. *Specify the areas to which this waiver applies and, as applicable, the phase-in schedule of the waiver by geographic area:*

- ☐ **Limited Implementation of Participant-Direction.** A waiver of statewidelessness is requested in order to make *participant-direction of services* as specified in **Appendix E** available only to individuals who reside in the following geographic areas or political subdivisions of the state. Participants who reside in these areas may elect to direct their services as provided by the state or receive comparable services through the service delivery methods that are in effect elsewhere in the state. *Specify the areas of the state affected by this waiver and, as applicable, the phase-in schedule of the waiver by*

geographic area:

--

5. Assurances

In accordance with 42 CFR § 441.302, the state provides the following assurances to CMS:

- A. Health & Welfare:** The state assures that necessary safeguards have been taken to protect the health and welfare of persons receiving services under this waiver. These safeguards include:
1. As specified in **Appendix C**, adequate standards for all types of providers that provide services under this waiver;
 2. Assurance that the standards of any state licensure or certification requirements specified in **Appendix C** are met for services or for individuals furnishing services that are provided under the waiver. The state assures that these requirements are met on the date that the services are furnished; and,
 3. Assurance that all facilities subject to section 1616(e) of the Act where home and community-based waiver services are provided comply with the applicable state standards for board and care facilities as specified in **Appendix C**.
- B. Financial Accountability.** The state assures financial accountability for funds expended for home and community-based services and maintains and makes available to the Department of Health and Human Services (including the Office of the Inspector General), the Comptroller General, or other designees, appropriate financial records documenting the cost of services provided under the waiver. Methods of financial accountability are specified in **Appendix I**.
- C. Evaluation of Need:** The state assures that it provides for an initial evaluation (and periodic reevaluations, at least annually) of the need for a level of care specified for this waiver, when there is a reasonable indication that an individual might need such services in the near future (one month or less) but for the receipt of home and community-based services under this waiver. The procedures for evaluation and reevaluation of level of care are specified in **Appendix B**.
- D. Choice of Alternatives:** The state assures that when an individual is determined to be likely to require the level of care specified for this waiver and is in a target group specified in **Appendix B**, the individual (or, legal representative, if applicable) is:
1. Informed of any feasible alternatives under the waiver; and,
 2. Given the choice of either institutional or home and community-based waiver services. **Appendix B** specifies the procedures that the state employs to ensure that individuals are informed of feasible alternatives under the waiver and given the choice of institutional or home and community-based waiver services.
- E. Average Per Capita Expenditures:** The state assures that, for any year that the waiver is in effect, the average per capita expenditures under the waiver will not exceed 100 percent of the average per capita expenditures that would have been made under the Medicaid state plan for the level(s) of care specified for this waiver had the waiver not been granted. Cost-neutrality is demonstrated in **Appendix J**.
- F. Actual Total Expenditures:** The state assures that the actual total expenditures for home and community-based waiver and other Medicaid services and its claim for FFP in expenditures for the services provided to individuals under the waiver will not, in any year of the waiver period, exceed 100 percent of the amount that would be incurred in the absence of the waiver by the state's Medicaid program for these individuals in the institutional setting(s) specified for this waiver.
- G. Institutionalization Absent Waiver:** The state assures that, absent the waiver, individuals served in the waiver would receive the appropriate type of Medicaid-funded institutional care for the level of care specified for this waiver.
- H. Reporting:** The state assures that annually it will provide CMS with information concerning the impact of the waiver on the type, amount and cost of services provided under the Medicaid state plan and on the health and welfare of waiver participants. This information will be consistent with a data collection plan designed by CMS.
- I. Habilitation Services.** The state assures that prevocational, educational, or supported employment services, or a

combination of these services, if provided as habilitation services under the waiver are: (1) not otherwise available to the individual through a local educational agency under the Individuals with Disabilities Education Act (IDEA) or the Rehabilitation Act of 1973; and, (2) furnished as part of expanded habilitation services.

J. Services for Individuals with Chronic Mental Illness. The state assures that federal financial participation (FFP) will not be claimed in expenditures for waiver services including, but not limited to, day treatment or partial hospitalization, psychosocial rehabilitation services, and clinic services provided as home and community-based services to individuals with chronic mental illnesses if these individuals, in the absence of a waiver, would be placed in an IMD and are: (1) age 22 to 64; (2) age 65 and older and the state has not included the optional Medicaid benefit cited in 42 CFR § 440.140; or (3) age 21 and under and the state has not included the optional Medicaid benefit cited in 42 CFR § 440.160.

6. Additional Requirements

Note: Item 6-I must be completed.

- A. Service Plan.** In accordance with 42 CFR § 441.301(b)(1)(i), a participant-centered service plan (of care) is developed for each participant employing the procedures specified in **Appendix D**. All waiver services are furnished pursuant to the service plan. The service plan describes: (a) the waiver services that are furnished to the participant, their projected frequency and the type of provider that furnishes each service and (b) the other services (regardless of funding source, including state plan services) and informal supports that complement waiver services in meeting the needs of the participant. The service plan is subject to the approval of the Medicaid agency. Federal financial participation (FFP) is not claimed for waiver services furnished prior to the development of the service plan or for services that are not included in the service plan.
- B. Inpatients.** In accordance with 42 CFR § 441.301(b)(1)(ii), waiver services are not furnished to individuals who are inpatients of a hospital, nursing facility or ICF/IID.
- C. Room and Board.** In accordance with 42 CFR § 441.310(a)(2), FFP is not claimed for the cost of room and board except when: (a) provided as part of respite services in a facility approved by the state that is not a private residence or (b) claimed as a portion of the rent and food that may be reasonably attributed to an unrelated caregiver who resides in the same household as the participant, as provided in **Appendix I**.
- D. Access to Services.** The state does not limit or restrict participant access to waiver services except as provided in **Appendix C**.
- E. Free Choice of Provider.** In accordance with 42 CFR § 431.151, a participant may select any willing and qualified provider to furnish waiver services included in the service plan unless the state has received approval to limit the number of providers under the provisions of section 1915(b) or another provision of the Act.
- F. FFP Limitation.** In accordance with 42 CFR Part 433 Subpart D, FFP is not claimed for services when another third-party (e.g., another third party health insurer or other federal or state program) is legally liable and responsible for the provision and payment of the service. If a provider certifies that a particular legally liable third-party insurer does not pay for the service(s), the provider may not generate further bills for that insurer for that annual period.
- G. Fair Hearing:** The state provides the opportunity to request a Fair Hearing under 42 CFR Part 431 Subpart E, to individuals: (a) who are not given the choice of home and community-based waiver services as an alternative to institutional level of care specified for this waiver; (b) who are denied the service(s) of their choice or the provider(s) of their choice; or (c) whose services are denied, suspended, reduced or terminated. **Appendix F** specifies the state's procedures to provide individuals the opportunity to request a Fair Hearing, including providing notice of action as required in 42 CFR § 431.210.
- H. Quality Improvement.** The state operates a formal, comprehensive system to ensure that the waiver meets the assurances and other requirements contained in this application. Through an ongoing process of discovery, remediation and improvement, the state assures the health and welfare of participants by monitoring: (a) level of care determinations; (b) individual plans and services delivery; (c) provider qualifications; (d) participant health and welfare; (e) financial oversight and (f) administrative oversight of the waiver. The state further assures that all problems identified through its discovery processes are addressed in an appropriate and timely manner, consistent with the severity and nature of the problem. During the period that the waiver is in effect, the state will implement the quality improvement strategy specified in **Appendix H**.

I. Public Input. Describe how the state secures public input into the development of the waiver:

The Louisiana Department of Health, Bureau of Health Services Financing and the Office for Citizens with Developmental Disabilities (OCDD) currently provide home and community-based services through the New Opportunities Waiver (NOW), Residential Options Waiver (ROW), Supports Waiver (SW), and Children's Choice Waiver (CC) to eligible Medicaid recipients.

OCDD hereby gives public notice of its intent to seek approval from the U.S. Department of Health and Human Services, Centers for Medicare and Medicaid Services (CMS) to amend waiver services in the ROW to add value based supplemental payment language effective January 1, 2025 (Appendix I.2 and I.3). OCDD will also seek approval to amend the ROW to align with CC and the SW to reflect the implementation of a new program integrity process (Appendix I.1); and to increase the number of unduplicated waiver slots (Appendix B-3 and Appendix J-2).

In compliance with CMS requirements, OCDD is posting these amendments for public comment from October 30, 2024 through November 30, 2024. CMS regulations require the Louisiana Department of Health to actively engage the public and give program participants, advocates, providers and other community partners the chance to provide input regarding changes made to current waiver applications prior to submission of final versions to CMS.

OCDD will post the waiver amendments to its website at the following address: <https://ldh.la.gov/page/2526>. A hard copy of the application is available for viewing at the Human Services District/Authority (HSD/A) in your region. The HSD/A in your region can be found online at <https://ldh.la.gov/page/locate-services>, or by calling 866-783-5555.

Implementation of the provisions of these waiver amendments is contingent upon CMS approval.

Interested persons may submit written comments to the Office for Citizens with Developmental Disabilities, P.O. Box 3117 (Bin #21), Baton Rouge, LA 70821-3117 or by email to ocdd-hcbs@la.gov. The deadline for receipt of all written comments is November 30, 2024 by 4:30 p.m.

Public Comment:

OCDD could consider applying value-based payment incentives to support coordination agencies in addition to direct service providers to incorporate person-centered planning components into support coordination service delivery for home- and community-based service recipients. Support coordination agencies could achieve this by certification of support coordination staff on the use of person-centered planning tools and plan writing.

Response:

After taking the comment that was received during the public comment period under review, OCDD has adjusted Incentive #3, "Establish incentive payments for direct support providers implementing person-centered hiring practices." to include the following language to: ii. Incentive payments will be made to support coordination providers whose supervisors and newly hired Support Coordinators effectively use person centered tools to develop person focused and driven plans of support as evidence by:

1. Completion of person-centered training modules and demonstrated used of person-centered tools.
2. Completion of person-centered plan development training and demonstrated competency through plan review.
3. Demonstrate in-house person-centered planning capacity through policy or training requirements.

No Tribal comments received.

J. Notice to Tribal Governments. The state assures that it has notified in writing all federally-recognized Tribal Governments that maintain a primary office and/or majority population within the state of the state's intent to submit a Medicaid waiver request or renewal request to CMS at least 60 days before the anticipated submission date is provided by Presidential Executive Order 13175 of November 6, 2000. Evidence of the applicable notice is available through the Medicaid Agency.

K. Limited English Proficient Persons. The state assures that it provides meaningful access to waiver services by Limited English Proficient persons in accordance with: (a) Presidential Executive Order 13166 of August 11, 2000 (65 FR 50121) and (b) Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003). **Appendix B** describes how the state assures meaningful access to waiver services by Limited English Proficient persons.

7. Contact Person(s)

A. The Medicaid agency representative with whom CMS should communicate regarding the waiver is:

8. Authorizing Signature

This document, together with the attached revisions to the affected components of the waiver, constitutes the state's request to amend its approved waiver under section 1915(c) of the Social Security Act. The state affirms that it will abide by all provisions of the waiver, including the provisions of this amendment when approved by CMS. The state further attests that it will continuously operate the waiver in accordance with the assurances specified in Section V and the additional requirements specified in Section VI of the approved waiver. The state certifies that additional proposed revisions to the waiver request will be submitted by the Medicaid agency in the form of additional waiver amendments.

Attachment #1: Transition Plan

Check the box next to any of the following changes from the current approved waiver. Check all boxes that apply.

- ☐ Replacing an approved waiver with this waiver.
- ☐ Combining waivers.
- ☐ Splitting one waiver into two waivers.
- ☐ Eliminating a service.
- ☐ Adding or decreasing an individual cost limit pertaining to eligibility.
- ☐ Adding or decreasing limits to a service or a set of services, as specified in Appendix C.
- ☐ Reducing the unduplicated count of participants (Factor C).
- ☐ Adding new, or decreasing, a limitation on the number of participants served at any point in time.
- ☐ Making any changes that could result in some participants losing eligibility or being transferred to another waiver under 1915(c) or another Medicaid authority.
- ☐ Making any changes that could result in reduced services to participants.

Specify the transition plan for the waiver:

Additional Needed Information (Optional)

Provide additional needed information for the waiver (optional):

CONTINUED FROM APPENDIX I-2-A:

Rates for the payment of services are determined by the Office of Citizens with Developmental Disabilities (OCDD) upon approval by Medicaid. OCDD sets these rates with input from a group of interested parties, including but not limited to providers and or provider groups, program participants, advocates, and Medicaid representatives. Proposed service rates are promulgated through the Medicaid rulemaking process which includes opportunity for public input and comment. Final approval of proposed rates and oversight of the rate determination process is done by the Medicaid Director or his designee. Medicaid provides the oversight of the rate determination process.

The last rate increase occurred in April 2024. Rates are reviewed every two years.

The Non-federal funding sources for the value based payment incentives will be made from state general fund realized through the temporary 10 percentage point increase to the federal medical assistance percentage (FMAP) under section 9817 of the American Rescue Plan Act of 2021 (ARPA) Fund appropriated by Louisiana. Long term, permanent funding would be appropriated by the Louisiana legislature and reflected in the Department's existing operating budget.

CONTINUED FROM APPENDIX I-3-C:

ii. Incentive payments will be made to support coordination providers who's supervisors and newly hired Support Coordinators effectively use person centered tools to develop person focused and driven plans of support as evidence by:

1. Completion of person centered training modules and demonstrated used of person centered tools.
2. Completion of person centered plan development training and demonstrated competency through plan review.
3. Demonstrate in house person centered planning capacity through policy or training requirements.

iii. Incentive payment amount is equivalent to agency's pro rata percentage of population serviced during the evaluation period.

4. Establish Incentive Payments for LDH OCDD waiver providers (DSPs and SCs) who close critical incidents within 30 days.

- i. Incentive payment is applicable when HCBS waiver providers take all necessary and appropriate actions to close at least 86% of critical incidents within 30 days; unless extension is granted.
- ii. Using LDH/OCDD's critical incident management system, HCBS waiver providers with 86% or higher of critical incidents will be eligible for payment.
- iii. Performance target percentage – 90% - This is a Medicaid performance indicator that CMS requires 90% and a corrective action plan is required if not met.
- iv. Payment frequency and amount– (Quarterly payment)
 1. Payment for 86% - 89% (60% of pro rata share of population served)
 2. Payment for 90% - 95% (100% of pro rata share of population served)

5. Establish Incentive Payments for LDH OCDD waiver providers who complete the National Core Indicator (NCI) State of the Workforce Survey and subsequent annual NCI-IDD State of the Workforces Surveys.

- i. Incentive payments will be made to direct support providers who submit all of appropriate evidence of completion.
- ii. Incentive payment amounts will range from \$500 to \$3000, based upon size of population served by HCBS provider.

6. Establish Incentive Payments for LDH OCDD waiver providers whose families agree their support coordinator has adequately explained the waiver process and can thoroughly answer questions. (SC based)..

- i. Incentives will be made to HCBS support coordination providers Obtain feedback from families in terms of support coordinators adequately explaining the waiver process and can thoroughly answer questions.
- ii. Incentive payment amounts will range from \$500 to \$2500 for support coordination providers who have survey completion rates above 75% (pay range is based upon size of population served by support coordination provider).
- iii. An addition Incentive payment ranging from \$500 to \$2500 will be made to support coordination providers who achieve overall positive survey feedback (pay range is based upon size of population served by support coordination provider).

7. Establish technology based incentives for agencies that implement OCDD approved technology enhancements. (SC and DSP eligible)

- i. Criteria for completion – agency will submit written summary/proof of concept of technology implemented or intended to be implemented. Technology must increase efficiency and improve quality of services provided to waiver recipients.
- ii. Payment amount - will be based on type of implementation and impact as determined by OCDD. But not to exceed \$25,000.
- iii. Payments will not be made until approved technology has been fully implemented.

8. Establish Incentive Payments for LDH/ OCDD waiver providers (SC Agencies (trainer)) who complete the State

Employment Leadership Network training course “Supporting a Vision for Employment” and subsequently train support coordinators within each respective agency initially and annually thereafter.

- i. Incentive payments will be made to support coordination agencies who submit all of the appropriate evidence of completion.
 - ii. Incentive payment amounts will be distributed as follows:
 1. \$500.00 to complete the initial training for the SC agency trainer and making it a part of initial and annual training for all Support Coordinators.
 2. \$1,500 once the trainer has trained 100% of support coordinators who are currently employed within each agency on the ‘Supporting a Vision for Employment’ training and providing evidence of completion.
- Evaluation period will be on a calendar year cycle starting January, 2025.
 - The pro rata share is determined by taking the percentage of the population each provider serves, then using that percentage to determine how much (or the max amount) each provider can receive via a lump sum payment. For example, if a provider service 40 percent of the eligible waiver population, then that provider will be eligible for up to 40 percent of the overall dollar amount assigned to that initiative.

Appendix I-2A continued:

Please refer to LA.0005, Section D and accompanying Cost Effectiveness workbook for rate determination methods. Dental services are capitated and rates are submitted to CMS for approval as part of the Dental Benefit Plan Manager (PAHP) rate certification and contract amendment process. The State’s implementation of Electronic Visit Verification (EVV) has not impacted rates for services subject to EVV. Fiscal Management Services: The Medicaid agency determines the rate for Fiscal Management Services. The state uses the Fee Schedule model of rate setting for this service. The initial rate was determined in November 2022 using rates included in contracts executed as a result of the state’s last Request for Proposal process in 2019. Rates for the two contractors were averaged to calculate the base rate for this service. An add-on to this rate was calculated to cover the cost of criminal background checks using six months of historical costs for background checks invoiced by the contractors. Each provider will submit its cost data at least every five years to determine if a change in the base rate is warranted. The add-on component for criminal background checks will be re-calculated using actual cost data from providers at least every five years. The ability to adjust rates is contingent on the availability of appropriated funding in the state budget.

Appendix I-1 continued: 11.Beneficiary Potential Prescription Drug Diversion: This alert identifies beneficiaries with opioid prescriptions but without evaluation & management (E&M) services within 12 months, ranking them based on the total paid dollars associated with high-risk prescriptions. 12.Provider Peer Comparison - Paid Amount Per Beneficiary: It highlights providers with a high average paid amount per beneficiary compared to peers, flagging the top 1% providers with higher risk and above-average paid amounts. 13. HCPCS/NDC Conflict- Identifies providers billing for conflicting HCPCS Code and NDC combinations. 14.Beneficiary Procedure/Age Conflict- identifies beneficiaries with claims or encounters for services that appear inappropriate for the beneficiary's age. 15. Providers with Excessive Hours per Day- Identifies billing providers with servicing providers who are outliers based on number of service dates with at least 10 hours of services provided. 16. Provider Outlier for Sunday Claims- Identifies the top 100 billing providers based on number of claims filed for a date of service which falls on a Sunday. Collectively, these alerts provide a robust defense against fraudulent activities in the healthcare system, allowing for timely intervention and the preservation of valuable resources. They empower LDH to uphold integrity, compliance, and operational efficiency by converting the information into an actionable preliminary investigation. Preliminary Investigations, Law Enforcement Referrals and Program Assessments: LDH's Case Tracking system streamlines the automated assignment of preliminary cases directly to investigators, seamlessly integrating Fraud Detect, MCO Tips, and public complaints. Publicly submitted complaints and tips are generated electronically through the connection between LDH's phone system and MCO 145 reporting. When Fraud Detect flags a case, it enters the Case Tracking system, where referrals, complaints, and tips related to potential Medicaid program violations are documented and routed to the specialized Special Investigations team within LDH. The Special Investigations team plays a pivotal role in this endeavor by conducting preliminary investigations. They thoroughly examine flagged cases, leveraging the comprehensive data and insights provided by Fraud Detect to assess the validity and severity of billing anomalies. SURS unit is compliant with 42 CFR § 455.13 and 42 CFR § 455.14 that states if the agency receives a complaint of Medicaid fraud or abuse from any source or identifies any questionable practices, it must conduct a preliminary investigation to determine whether there is sufficient basis to warrant a full investigation. SURS will receive complaints, referrals, data mining leads and tips that identify potential questionable practices. Once the information is received a preliminary investigation is done, the case is either closed with a resolution or moved into a full investigation if a more comprehensive review is needed. SURS unit is complaint with 42 CFR §455.21 which requires States with a Medicaid fraud control unit established and certified under subpart C of this part, The agency must refer all cases of suspected provider fraud to the unit. If the unit determines that it may be useful in carrying out the unit's responsibilities, promptly comply with a request from the unit for PI will provide Access to any records or information kept by the agency or its contractors. Upon referral from

the unit, initiate any available administrative or judicial action to recover improper payments to a provider. SURS unit conducts programmatic assessments and make recommendations regarding system enhancements, law/policy/contract provisions, and identifies and refers issues of particular significance to SURS. PI utilizes risk models by performing a deep dive on each provider type by factoring current FWA schemes, SIRIS and HFPP data, and provider anomalies. LDH Programs submit referral of policy violation to SURS unit encouraging providers self-reporting. In so doing, providers can mitigate additional risk exposure, minimize penalty and present to the Department and law enforcement that they do not support nor condone improper, unethical and illegal activities of their employees. SURS unit is complaint with 42 CFR §455.20 (a) requires the State to have a method for verifying with recipients whether services billed by providers were received. Agency must have means of beneficiary verification of services paid on their behalf. Medicaid sends out recipient explanation of benefits (REOMB) to recipients where service was provided. If the recipient reviews the REOMB and determines services described were not provided, SURS unit will receive a call, email or correspondence from recipient where provider will be review for services not rendered prior to opening a full investigation. Full Investigations: The provided information describes the workflow involved in the Medicaid Program Integrity investigation process. This workflow is crucial for maintaining compliance among Medicaid providers and identifying potential overpayments. At the outset, the workflow status and sub-status indicators serve as tracking tools to monitor the progress of individual cases. The Management Compliance Incident stage marks the initiation of a case's investigation and comprises several sub-stages. In New Case Assigned, an initial review of provider and beneficiary history is conducted to identify the area of investigation. Subsequently, in Overview Analysis, analysts perform an in-depth assessment of provider history, payments, eligibility, and case initiation issues. This is followed by Researching, where analysts gather information from various sources, including Medicaid policies and previous sanctions. In Data Review, analysts examine claims history to determine the scope of the review. Statistical Sample involves a detailed analysis of scientific sample reports. The Record Review sub-stage entails collecting and organizing relevant documents. Policy Clarification involves reviewing Medicaid policies, and Consultant Review requires collaboration with medical experts. Analysts calculate initial overpayments in Initial Findings, and cases are then submitted for Quality Control in Quality Control. In exceptional cases, investigations may temporarily be On Hold. Provider Correspondence and Appeal Process: Under the Medical Assistance Program Integrity Law (MAPIL) in Louisiana, providers have rights and avenues of appeal when they are accused of fraud, waste, abuse, or other ill practices related to the medical assistance programs. MAPIL is designed to combat and prevent fraud and abuse within these programs and protect their fiscal and programmatic integrity. The law empowers the Secretary of the Department of Health and Hospitals, the Attorney General, and even private citizens of Louisiana to act as agents of the state in pursuing civil monetary penalties, liquidated damages, or other remedies against healthcare providers and individuals engaged in fraudulent activities that result in unwarranted payments. Providers accused of fraudulent or abusive practices have the right to appeal these accusations. The appeal process provides them with the opportunity to challenge the allegations and defend their actions. This process typically involves several steps, including notification of the allegations, an opportunity to present evidence and arguments, and a formal review by a designated authority or administrative body. Throughout the appeal process, providers are entitled to due process rights, including the right to legal representation, the right to be heard, and the right to a fair and impartial review. These safeguards are crucial to ensure that providers are given a fair chance to contest the accusations and present their side of the case. While the specifics of the appeal process and the rights of providers may vary depending on the circumstances and procedures outlined in MAPIL, the overall intention is to ensure a fair and transparent process for addressing allegations of fraud and abuse within the medical assistance programs in Louisiana. This approach helps protect both the integrity of these programs and the rights of healthcare providers who may be subject to allegations. Overpayment Recovery and Adverse Actions: Under the provisions of the Medical Assistance Program Integrity Law (MAPIL) in Louisiana, the state possesses the authority to take various adverse actions against healthcare providers and individuals found to have engaged in fraudulent or abusive practices within the medical assistance programs. These actions are implemented to uphold the fiscal and programmatic integrity of these healthcare programs. Adverse actions available under MAPIL encompass a range of measures, such as the imposition of Civil Monetary Penalties (CMPs) and liquidated damages, both of which involve financial penalties. The state may seek to recoup overpayments made as a result of fraudulent activities, while also having the power to temporarily or permanently exclude wrongdoers from participating in the medical assistance programs. In cases of severe misconduct, MAPIL permits the state to refer matters for criminal prosecution, potentially leading to fines, imprisonment, or other legal consequences. Moreover, it grants the state authority to suspend payments to providers or individuals during the investigation of alleged fraud or abuse to safeguard program funds. Providers found guilty of fraud or abuse may also face sanctions, including the revocation of their professional licenses or certifications necessary for program participation. Additionally, the law may offer flexibility for the pursuit of other suitable remedies to address specific instances of misconduct within the medical assistance programs. These adverse actions are integral to deterring fraudulent and abusive behavior, recovering misappropriated funds, and preserving the integrity of Louisiana's medical assistance programs. Upon the identification of an overpayment, SURS initiates a process to address this issue. An initial step involves sending a notification to LDH Fiscal to establish a negative balance on the provider's online record. This negative balance is used to reconcile payments through remittance advices or, in cases where providers submit checks via postal mail, through offline means. Critical information provided to Fiscal includes the recoupment amount, provider name and number, and the dates of the review. As part of this process, a copy of the provider recoupment letter is sent to serve as supplementary documentation. Fiscal, in turn, undertakes the necessary paperwork, including the completion of the CMS-64 form, to facilitate the return of the federal share within the prescribed timeframes stipulated by CMS. The provider is

notified through a recoupment letter that specifies the areas of review. Within this framework, the provider maintains the option to submit additional information, request an informal hearing with LDH, or seek an appeal. Furthermore, the provider has the flexibility to either remit the full overpayment amount or propose a payment plan. In addition to the recovery of overpayments, SURS may also request the formulation of a corrective action plan to address any billing or programmatic issues identified during the review process. This multifaceted approach ensures the resolution of overpayment issues while allowing providers avenues to self-report. Program Integrity's Surveillance and Utilization Review (SUR) Unit is responsible for conducting post-payment reviews of all fee-for-service Medicaid providers. The post-payment review process used by the Program Integrity (PI) Section within the Louisiana Department of Health (LDH) is described in the Louisiana Surveillance and Utilization Review Subsystem (SURS) Rule and the Medical Assistance Program Integrity Law (MAPIL). The SURS Rule is available online through the Louisiana Register at the following website address: <http://www.doa.la.gov/osr/reg/1211/1211.pdf> (Pages 97-111 of the pdf or 2774-2788 of the hardcopy). Specifically the rule may be found through the following citation: Louisiana Administrative Code 50:I.Chapter 41. Waiver providers are selected and profiled. Providers meeting the exception criteria in the Surge run are screened/reviewed. Cases on Waiver providers are derived from multiple sources such as ad hoc data mining, Surge by Region run, HCPCs Outlier run, projects (such as services billed while the recipient is in the hospital) and complaints.

Appendix A: Waiver Administration and Operation

1. State Line of Authority for Waiver Operation. Specify the state line of authority for the operation of the waiver (*select one*):

- ☐ **The waiver is operated by the state Medicaid agency.**

Specify the Medicaid agency division/unit that has line authority for the operation of the waiver program (*select one*):

- ☐ **The Medical Assistance Unit.**

Specify the unit name:

(Do not complete item A-2)

- ☐ **Another division/unit within the state Medicaid agency that is separate from the Medical Assistance Unit.**

Specify the division/unit name. This includes administrations/divisions under the umbrella agency that has been identified as the Single State Medicaid Agency.

(Complete item A-2-a).

- ☒ **The waiver is operated by a separate agency of the state that is not a division/unit of the Medicaid agency.**

Specify the division/unit name:

The Office for Citizens with Developmental Disabilities

In accordance with 42 CFR § 431.10, the Medicaid agency exercises administrative discretion in the administration and supervision of the waiver and issues policies, rules and regulations related to the waiver. The interagency agreement or memorandum of understanding that sets forth the authority and arrangements for this policy is available through the Medicaid agency to CMS upon request. (Complete item A-2-b).

Appendix A: Waiver Administration and Operation

2. Oversight of Performance.

a. Medicaid Director Oversight of Performance When the Waiver is Operated by another Division/Unit within the State Medicaid Agency. When the waiver is operated by another division/administration within the umbrella agency designated as the Single State Medicaid Agency. Specify (a) the functions performed by that division/administration (i.e., the Developmental Disabilities Administration within the Single State Medicaid Agency), (b) the document utilized to outline the roles and responsibilities related to waiver operation, and (c) the methods that are employed by the designated State Medicaid Director (in some instances, the head of umbrella

agency) in the oversight of these activities:

As indicated in section 1 of this appendix, the waiver is not operated by another division/unit within the state Medicaid agency. Thus this section does not need to be completed.

--

- b. Medicaid Agency Oversight of Operating Agency Performance.** When the waiver is not operated by the Medicaid agency, specify the functions that are expressly delegated through a memorandum of understanding (MOU) or other written document, and indicate the frequency of review and update for that document. Specify the methods that the Medicaid agency uses to ensure that the operating agency performs its assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify the frequency of Medicaid agency assessment of operating agency performance:

The State Medicaid Agency, BHSF, and the operating agency OCDD, have an Interagency Agreement (IA) defining the responsibilities of each. The IA is to be reviewed yearly and updated as necessary. Among other activities, this interagency agreement requires BHSF and OCDD to meet quarterly to evaluate the waiver program and initiate necessary changes to policy and/or reimbursement rates and to meet quarterly with the Division of Health Economics to review the financial accountability reports for the waiver program.

There are ten Local Governing Entities (LGE) offices within the state of Louisiana which contract with BHSF to perform regional waiver operation functions for the OCDD waivers as delegated and described in the CMS approved waiver document. The LGE offices perform under the guidance and supervision of OCDD, the state waiver operating agency. The LGE must comply with all regional Quality Improvement Strategy activities as described in the approved waiver document. Both the state operating agency (OCDD) and each of the LGE share responsibility to meet the federally mandated assurances and sub-assurances for: Level of Care; Service Plan; and Health and Welfare. The contract agreements with the LGE are to be reviewed yearly and updated as necessary. To ensure compliance with federal regulations governing waivers, BHSF created the Medicaid Program Support and Waivers Section (MPSW) which oversees the administration of the Medicaid Home and Community Based Services (HCBS) programs operated by OCDD and the Office of Aging and Adult Services (OAAS). Oversight is completed under the direction of the Medicaid Program Support and Waivers Section Chief.

Medicaid oversight of operating agency performance is facilitated through the following committees:

LDH Variance Committee – meets at least quarterly to review financial utilization and expenditure performance of all OCDD waivers. Members are composed of representatives from OCDD, Division of Health Economics, and MPSW.

Medicaid HCBS Oversight Committee - meets at least quarterly with the specific purpose to ensure proper oversight of the OAAS and OCDD operated HCBS Medicaid programs. Goals are to review current performance reports, determine need for new activities concerning quality and oversight in waiver programs and ensure adequate remediation enforcement. Quality recommendations or issues which cannot be resolved at this level are placed on the agenda of the Medicaid/Program Offices Quarterly Meeting. Members include HCBS quality management staff from MPSW and OCDD and it is chaired by the MPSW Section Chief or designee. The committee meets at least quarterly with the following standing agenda items:

- OCDD operating agency staff present their analysis of all performance measure findings, remediation activities and systemic improvements to MPSW as defined in the 1915(c) waiver quality strategy;
- MPSW Section Chief or designee indicates approval or disapproval of quarterly/annual data and activities;
- Based on evidence presented, MPSW staff provides technical assistance, guidance and support to the operating agency staff;
- MPSW performs administrative oversight functions for OCDD HCBS programs.

Medicaid/Program Offices Quarterly Meeting – Convenes at least quarterly to perform executive level oversight of the performance of HCBS waivers, assure their effectiveness and efficiency, and discuss any other programmatic issues common to the program offices and Medicaid. Goals are to act upon issues and recommendations received from the Medicaid HCBS Oversight Committee and other HCBS workgroups. This meeting is a forum for executive level problem resolution, planning, and development of quality redesign strategies. Members include representatives from MPSW, the Medicaid Director or Deputy Director, the OCDD Assistant Secretary, and other designated staff.

MPSW/OCDD/HCBS Data Contactor Meetings– MPSW facilitates monthly meetings with OCDD and the Medicaid data contractor to discuss waiver issues, problems, and situations which have arisen and do not comport with program policy. At these meetings solutions are formulated, corrective actions are agreed upon, follow-up implemented by OCDD as necessary in the form of internal policy or provider policy.

Ad Hoc Cross-Population HCBS Oversight Meetings - Additional meetings will be held jointly between MPSW, OCDD and the Office of Aging and Adult Services on an as needed basis for the following purposes:

- Collaborate on design and implementation of a robust system of cross- population continuous quality improvement;
- Present Quality Improvement Projects (QIP);
- Share ongoing communication of what works, doesn't work, and best practices.

Oversight specific to each Appendix A-7 function delegated to OCDD:

1. Participant waiver enrollment – BHSF maintains supervision by approving the process for entry of individuals into the waiver. Supervision of compliant entry processes occurs during the monthly MPSW/OCDD/HCBS Data Contractor Meetings.
2. Waiver enrollment managed against approved limits –The variance committee meets quarterly to manage waiver enrollment against approved limits. This committee is composed of representatives from OCDD, LDH's Division of Health Economics, and MPSW. This function is accomplished through the review of ongoing data reports received through the Medicaid data contractor and Medicaid Management Information Systems (MMIS). These data reports include the number of participants receiving services, exiting the waiver, offered a waiver opportunity, waiver closure summary, admissions summary, level of care intake, acute care utilization, and waiver expenditures.
3. Waiver expenditures managed against approved levels– MPSW is responsible for completing the annual CMS-372 report utilizing data, submitting it to OCDD for review, and submitting to the Medicaid Director for final approval prior to submission. The variance committee meets quarterly to manage waiver expenditures against approved limits. This committee is composed of representatives from OCDD, LDH's Division of Health Economics, and MPSW. This function is accomplished through the review of ongoing data reports received through the Medicaid data contractor and MMIS. These data reports include the number of participants receiving services, exiting the waiver, offered a waiver opportunity, waiver closure summary, admissions summary, level of care intake, acute care utilization, and waiver expenditures. The variance committee discusses waiver administration and reviews financial participation and budget forecasts in order to determine if any adjustments are needed.
4. Level of care evaluation – OCDD is responsible for submitting aggregated reports on level of care assurances to BHSF on an established basis as described in the Appendix B Quality Improvement Strategy (QIS) of the waiver application. OCDD formally presents level of care performance measures findings/remediation actions to MPSW via the Medicaid HCBS Oversight Committee.
5. Review participant service plans- OCDD is responsible for submitting aggregated reports on service plan assurances to BHSF on an established basis as specified in Appendix D of the waiver application. OCDD formally presents service plan performance measures findings/remediation actions to MPSW via the Medicaid HCBS Oversight Committee.
6. Prior authorization of waiver services - To ensure that payments are accurate for the services rendered OCDD monitors and oversees the requirements of the provider through the prior authorization process and the approved plan of care (POC). BHSF oversees OCDD's exercise of prior authorization activities through reports issued by the Medicaid data contractor and through monthly MPSW/OCDD/HCBS Data Contractor Meetings. System changes related to claims processing and prior authorization can only be facilitated by BHSF. OCDD formally presents service plan performance measure findings/remediation actions to MPSW quarterly via the Medicaid HCBS Oversight Committee as described in Appendix D: QIS sub-assurance c.
7. Utilization management – Reports are generated quarterly from the Medicaid data contractor which include: number of participants who received all types of services specified in their service plan and number of participants who received services in the amount, frequency, and duration specified in the service plan. OCDD reviews these reports for trends and patterns of under-utilization of services. OCDD formally presents service plan performance measure findings/remediation actions to MPSW quarterly via the Medicaid HCBS Oversight Committee as described in Appendix D: QIS sub-assurance d.
8. Establishment of a statewide rate methodology - BHSF determines all waiver payment amounts/rates in collaboration with OCDD, Division of Health Economics, and as necessary the Rate & Audit section. MPSW monitors adherence to the rate methodology as described in Appendix I QIS.
9. Rules, policies, procedures, and information development governing the waiver program – OCDD develops and implements written policies and procedures to operate the waiver and must obtain BHSF approval prior to release of any rulemaking, provider notices, waiver amendments/requests or policy changes. BHSF develops and distributes brochures, flyers, and other informational material regarding available programs to Louisiana citizens. BHSF oversees the website information, as well as communication distribution via Help Lines regarding waiver eligibility and policy administration.
10. Quality assurance and quality improvement activities - To ensure compliance with federal regulations governing waivers, BHSF created the Medicaid Program Support and Waivers (MPSW) Section to oversee the

administration of all Louisiana Medicaid waiver programs. Monitoring is completed under the direction of the MPSW Section Chief. The MPSW Section, through performance measures listed in the Quality Improvement Strategy (QIS) and systems described in Appendix H, ensures that OCDD performs its assigned waiver operational functions including participant health and welfare assurances in accordance with this document. OCDD formally presents performance measures findings/remediation actions to MPSW quarterly via the Medicaid HCBS Oversight Committee.

Appendix A: Waiver Administration and Operation

3. Use of Contracted Entities. Specify whether contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable) (*select one*):

- ☒ **Yes. Contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or operating agency (if applicable).**

Specify the types of contracted entities and briefly describe the functions that they perform. *Complete Items A-5 and A-6.:*

Medicaid Data/Prior Authorization Contractor - The Medicaid data contractor compiles and aggregates data on plans of care, such as date the initial plan is submitted and approved, date the annual POC is approved, and date the POC is received by the regional office. The Medicaid data contractor also compiles and aggregates data on support coordination, provider services, waiver slots (both occupied and vacant); compiles and aggregates information on time lines, offerings of waiver slots and linkages to support coordination agencies; compiles and aggregates data on the Waiver certification process; provides prior authorization functions; maintains the Request for Services Registry(RFSR); issues freedom of choice forms to the participant/family members to allow selection of a Support Coordination Agency; collects data from providers and provides various notifications to providers upon direction of OCDD or BHSF.

Support Coordination Agencies - Support coordination agencies enrolled in Medicaid to serve participants in the ROW perform delegated operational functions for level of care re-evaluation as described in B-6.f. and for review of participant service plans as described in D-1.d.

Provider Enrollment Contractor – The Provider Enrollment unit of the Fiscal Intermediary Contractor performs fee –for-service provider enrollment and execution of Medicaid provider agreements on behalf of Medicaid.

Dental Benefit Plan Manager will manage the dental benefit for the dental services. In accordance with contracts with the State, each dental plan will prior authorize services and contract with providers.

- ☐ **No. Contracted entities do not perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable).**

Appendix A: Waiver Administration and Operation

4. Role of Local/Regional Non-State Entities. Indicate whether local or regional non-state entities perform waiver operational and administrative functions and, if so, specify the type of entity (*Select One*):

- ☒ **Not applicable**
- ☐ **Applicable** - Local/regional non-state agencies perform waiver operational and administrative functions.

Check each that applies:

- ☐ **Local/Regional non-state public agencies** perform waiver operational and administrative functions at the local or regional level. There is an **interagency agreement or memorandum of understanding** between the state and these agencies that sets forth responsibilities and performance requirements for these agencies that is available through the Medicaid agency.

Specify the nature of these agencies and complete items A-5 and A-6:

-
- ☐ **Local/Regional non-governmental non-state entities** conduct waiver operational and administrative functions at the local or regional level. There is a contract between the Medicaid agency and/or the operating agency (when authorized by the Medicaid agency) and each local/regional non-state entity that sets forth the responsibilities and performance requirements of the local/regional entity. The **contract(s)** under which private entities conduct waiver operational functions are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Specify the nature of these entities and complete items A-5 and A-6:

Appendix A: Waiver Administration and Operation

- 5. Responsibility for Assessment of Performance of Contracted and/or Local/Regional Non-State Entities.** Specify the state agency or agencies responsible for assessing the performance of contracted and/or local/regional non-state entities in conducting waiver operational and administrative functions:

The Louisiana Department of Health (LDH) Bureau of Health Services Financing (BHSF), with input from the operating agency, is responsible for assessing the performance of the Medicaid Data/Prior Authorization Contractor, Support Coordination Agencies and Provider Enrollment Contractor.

The State Medicaid agency is responsible for the assessment of performance of contracted dental plans (PAHPs).

Appendix A: Waiver Administration and Operation

- 6. Assessment Methods and Frequency.** Describe the methods that are used to assess the performance of contracted and/or local/regional non-state entities to ensure that they perform assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify how frequently the performance of contracted and/or local/regional non-state entities is assessed:

Medicaid Data/Prior Authorization Contractor - The Medicaid contract monitor for the Medicaid Data/Prior Authorization Contractor reviews monthly a report tracking volume and timelines for contract activities and deliverables in the previous month. This report includes support coordination linkages, period of time between linkage and service delivery, number of new and closed support coordination linkages, and other summary statistics. The previous months billing information is also included in the report so that report and invoice are linked together.

In addition, the data contractor submits a breakdown of staff resources allocated to the contract. MPSW staff, including the contract monitor, meets monthly with contractor to review performance. The data contractor also submits data files quarterly which are reviewed and archived by the contract monitor. If there is substandard performance, MPSW will require a corrective action plan and will monitor implementation.

Support Coordination Agencies - Retrospective review of Medicaid enrolled support coordinators in their performance of level of care evaluation and service plan review will occur on an annual basis through a Support Coordination Monitoring (SCM) review process performed by regional LGE waiver staff under the programmatic oversight of OCDD. The SCM process includes a representative sample record review with performance measures described in the Level of Care, Service Plan and Health & Welfare Quality Improvement Strategies. The results of this monitoring will be entered into a Support Coordination Monitoring Data base which will generate aggregate reports annually by waiver population and by support coordination agency. Additionally, data with one hundred percent representativeness is available from the Medicaid data contractor for measures of timeliness. The results of this data will be analyzed and utilized by regional OCDD staff on a monthly basis to request and monitor corrective action based on the SCM results and enter remediation and compliance- related activities into the SCM data base. The state-wide report of discovery, remediation and improvement activities for level of care and service plan review will also be analyzed and acted upon by the appropriate committees as described in appendix H-1.a.i.

Provider Enrollment/ Provider Agreements Contractor - The LDH Program Integrity Provider Enrollment (PE) unit manages the PE activities of the fiscal intermediary contractor's PE unit. All enrollments are cleared against the Office of State Inspector General (OIG) List of Excluded Individuals/Entities (LEIE) and the System of Award Management (SAM) List of Debarred Entities and Individuals. BHSF receives monthly Program Integrity reports for aberrant billing practices and enrollment as well as ongoing reports from Health Standards regarding provider licensing and certification.

Dental Benefit Plan Managers (PAHPs) - See LA.0005 Section B Part I (Monitoring Plan)

Appendix A: Waiver Administration and Operation

7. Distribution of Waiver Operational and Administrative Functions. In the following table, specify the entity or entities that have responsibility for conducting each of the waiver operational and administrative functions listed (*check each that applies*):

In accordance with 42 CFR § 431.10, when the Medicaid agency does not directly conduct a function, it supervises the performance of the function and establishes and/or approves policies that affect the function. All functions not performed directly by the Medicaid agency must be delegated in writing and monitored by the Medicaid Agency. *Note: More than one box may be checked per item. Ensure that Medicaid is checked when the Single State Medicaid Agency (1) conducts the function directly; (2) supervises the delegated function; and/or (3) establishes and/or approves policies related to the function.* Note: Medicaid eligibility determinations can only be performed by the State Medicaid Agency (SMA) or a government agency delegated by the SMA in accordance with 42 CFR § 431.10. Thus, eligibility determinations for the group described in 42 CFR § 435.217 (which includes a level-of-care evaluation, because meeting a 1915(c) level of care is a factor of determining Medicaid eligibility for the group) must comply with 42 CFR § 431.10. Non-governmental entities can support administrative functions of the eligibility determination process that do not require discretion including, for example, data entry functions, IT support, and implementation of a standardized level-of-care evaluation tool. States should ensure that any use of an evaluation tool by a non-governmental entity to evaluate/determine an individual's required level-of-care involves no discretion by the non-governmental entity and that the development of the requirements, rules, and policies operationalized by the tool are overseen by the state agency.

Appendix A: Waiver Administration and Operation

Quality Improvement: Administrative Authority of the Single State Medicaid Agency

As a distinct component of the state's quality improvement strategy, provide information in the following fields to detail the state's methods for discovery and remediation.

a. Methods for Discovery: Administrative Authority

The Medicaid Agency retains ultimate administrative authority and responsibility for the operation of the waiver program by exercising oversight of the performance of waiver functions by other state and local/regional non-state agencies (if appropriate) and contracted entities.

i. Performance Measures

For each performance measure the state will use to assess compliance with the statutory assurance, complete the following. Performance measures for administrative authority should not duplicate measures found in other appendices of the waiver application. As necessary and applicable, performance measures should focus on:

- Uniformity of development/execution of provider agreements throughout all geographic areas covered by the waiver
- Equitable distribution of waiver openings in all geographic areas covered by the waiver
- Compliance with HCB settings requirements and other new regulatory components (for waiver actions submitted on or after March 17, 2014)

Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the state to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

A.a.i.6. Number and percentage of changes in waiver policies that were approved by BHSF and presented for public notice prior to implementation by the operating agency. Percentage = Number of changes in waiver policies that were approved by BHSF and presented for public notice prior to implementation by the operating agency / Total number of changes in waiver policies.

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the state to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

The SMA retains administrative authority and responsibility of the waiver through its review of proposed changes to the waiver submitted by the operating agency that involve any of the delegated functions listed in Appendix A.7. Prior to posting for public/tribal notice, the SMA (Medicaid Program Support and Waivers section staff) reviews any changes proposed in the waiver amendment/renewal to ensure that the requested change aligns with Medicaid policy. This performance measure reflects the SMA's oversight of changes to waiver policy for all delegated functions not performed by the SMA.

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the state's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction and the state's method for analyzing information from individual problems, identifying systemic deficiencies, and implementing remediation actions. In addition, provide information on the methods used by the state to document these items.

A.a.i.1 – A.a.i.6

Aggregated data collected for Performance Measures A.a.i.1 – A.a.i.6 are reviewed and analyzed quarterly by via the Medicaid HCBS Oversight Committee. When remediation is indicated, the Committee discusses appropriate remediation activities to resolve identified compliance issues and address systemic improvements. To achieve this end, MPSW provides technical assistance, guidance, and support to the operating agency staff. Committee minutes document remediation actions and results of these actions are presented at subsequent meetings to verify effectiveness.

The Medicaid HCBS Oversight Committee meets at least quarterly with the specific purpose to ensure proper oversight of the OAAS and OCDD operated HCBS Medicaid programs. Goals are to review current performance reports, determine need for new activities concerning quality and oversight in waiver programs and ensure adequate remediation enforcement. Quality recommendations or issues which cannot be resolved at this level are placed on the agenda of the BHSE/Program Offices HCBS Executive Committee. Members of the Medicaid HCBS Oversight Committee include HCBS quality management staff from MPSW and OCDD and it is chaired by the MPSW Section Chief or designee.

A.a.i.7

MPSW and OCDD meet monthly with the Medicaid data contractor to discuss problems/issues identified and how to remediate. At these meetings, the members review the Daily Count of Offers, Linkages and Certifications report generated by the data contractor which includes: waiver slots available; pre-linkage, linkages to support coordinator; offers accepted; offers too recent for a response; vacancies to be offered; offers accepted and linked; recipients linked and certified; recipients linked and not certified. This report is reviewed and analyzed to determine whether the yearly maximum number of unduplicated participants offered a waiver opportunity is nearing the limit. If the yearly maximum number of unduplicated participants offered a waiver opportunity is approaching the limit, the state will submit a waiver amendment to CMS to modify the number of participants.

Remediation of specific problems/issues/discrepancies identified are addressed in the monthly meetings and documented in the Medicaid data contractor meeting minutes (which are shared with OCDD) and the MPSW Tracking System.

A.a.i.8

MPSW and OCDD meet monthly with the Medicaid data contractor to discuss problems/issues identified and how to remediate. At these meetings, the members review the Count of Slot Types report generated by the data contractor which includes: initial allocated slots; reallocated slots due to closures; current number of allocated slots; current number of slots linked; number of remaining slots open. This report is reviewed and analyzed to identify the number of slots available for offers. OCDD and MPSW supervise whether offers are made appropriately according to established policy and criteria. If there are instances identified where offers were made inappropriately, MPSW meets with the data contractor and OCDD to address the situation and develop a plan for corrective action for resolution.

Remediation of specific problems/issues/discrepancies identified are addressed in the monthly meetings and documented in the Medicaid data contractor meeting minutes (which are shared with OCDD) and the MPSW Tracking System.

ii. Remediation Data Aggregation

	☐ Other Specify:

c. Timelines

When the state does not have all elements of the quality improvement strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Administrative Authority that are currently non-operational.

☒ No

☐ Yes

Please provide a detailed strategy for assuring Administrative Authority, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-1: Specification of the Waiver Target Group(s)

a. Target Group(s). Under the waiver of Section 1902(a)(10)(B) of the Act, the state limits waiver services to one or more groups or subgroups of individuals. Please see the instruction manual for specifics regarding age limits. *In accordance with 42 CFR § 441.301(b)(6), select one or more waiver target groups, check each of the subgroups in the selected target group(s) that may receive services under the waiver, and specify the minimum and maximum (if any) age of individuals served in each subgroup:*

Target Group	Included	Target Sub Group	Minimum Age	Maximum Age			
				Maximum Age Limit	No Maximum Age Limit		
☐ Aged or Disabled, or Both - General							
	☐	Aged					☐
	☐	Disabled (Physical)					
	☐	Disabled (Other)					
☐ Aged or Disabled, or Both - Specific Recognized Subgroups							
	☐	Brain Injury					☐
	☐	HIV/AIDS					☐
	☐	Medically Fragile					☐
	☐	Technology Dependent					☐
☒ Intellectual Disability or Developmental Disability, or Both							
	☒	Autism		0			☒
	☒	Developmental Disability		0			☒
	☒	Intellectual Disability		0			☒
☐ Mental Illness							
	☐	Mental Illness					☐
	☐	Serious Emotional Disturbance					

b. Additional Criteria. The state further specifies its target group(s) as follows:

The State further specifies its target group(s) as follows:

OCDD waiver opportunities shall be offered based on the following groups:

1. Individuals living at publicly operated ICF-IIDs or who lived at a publicly operated ICF-IID when it was transitioned to a private ICF-DD through a cooperative endeavor agreement (CEA facility), or their alternates. Alternates are defined as individuals living in a private ICF-IID who will give up the private ICF-IID bed to an individual living at a publicly operated ICD-IID or to an individual who was living in a publicly operated ICF-IID when it was transitioned to a private ICF-IID through a cooperative endeavor agreement (CEA facility).

Individuals requesting to transition from a publicly operated ICF-IID are awarded a slot when one is requested, and their health and safety can be assured in an OCDD waiver. This also applies to individuals who were residing in a publicly operated facility at the time the facility was privatized and became a Cooperative Endeavor Agreement (CEA) facility.

2. Individuals on the registry who have a current unmet need as defined by a SUN score of urgent [3] or emergent [4] and the earliest registry date shall be notified in writing when a funded OCDD waiver opportunity is available and a waiver offer is available.

3. Individuals Transitioning from ICF/IID facilities utilizing ROW Conversion

4. Transition of eligible Individuals with Intellectual and Developmental Disability services in either OAAS Community Choices Wavier (CCW) or OAAS Adult Day Health Care Waiver (ADHC) to the ROW.

As enacted through R.S. 28:827 Act No. 286 of the 2010 Regular Legislative Session, any active duty member of the armed forces who has been temporarily assigned to work outside of Louisiana and any member of his/her immediate family who was qualified for and was receiving Louisiana Medicaid Waiver services for individuals with developmental disabilities at the time they were placed on active duty will be eligible to receive the next available waiver opportunity upon the individual's resumed residence in Louisiana.

Medicaid's data contractor has responsibility for maintenance of the IDD Request for Services Registry (the registry). Slot offers are made for persons on the registry by the Medicaid data contractor based upon the above stated policies and procedures and as written in B-3-f. Also, BHSE/MPSW has oversight of the data contractor's role in maintaining the registry according to policy. In addition, monthly meetings are held between the Medicaid data contractor, OCDD, and BHSE/MPSW to review and to assure adherence to these regulations along with fairness in slot allocations and distributions.

c. Transition of Individuals Affected by Maximum Age Limitation. When there is a maximum age limit that applies to individuals who may be served in the waiver, describe the transition planning procedures that are undertaken on behalf of participants affected by the age limit (*select one*):

- ☒ **Not applicable. There is no maximum age limit**
- ☐ **The following transition planning procedures are employed for participants who will reach the waiver's maximum age limit.**

Specify:

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (1 of 2)

a. Individual Cost Limit. The following individual cost limit applies when determining whether to deny home and community-based services or entrance to the waiver to an otherwise eligible individual (*select one*). Please note that a state may have only ONE individual cost limit for the purposes of determining eligibility for the waiver:

- ☐ **No Cost Limit.** The state does not apply an individual cost limit. *Do not complete Item B-2-b or item B-2-c.*

- ☐ **Cost Limit in Excess of Institutional Costs.** The state refuses entrance to the waiver to any otherwise eligible individual when the state reasonably expects that the cost of the home and community-based services furnished to that individual would exceed the cost of a level of care specified for the waiver up to an amount specified by the state. Complete Items B-2-b and B-2-c.

The limit specified by the state is (select one)

- ☐ A level higher than 100% of the institutional average.

Specify the percentage:

- ☐ Other

Specify:

- ☐ **Institutional Cost Limit.** Pursuant to 42 CFR § 441.301(a)(3), the state refuses entrance to the waiver to any otherwise eligible individual when the state reasonably expects that the cost of the home and community-based services furnished to that individual would exceed 100% of the cost of the level of care specified for the waiver. Complete Items B-2-b and B-2-c.

- ☒ **Cost Limit Lower Than Institutional Costs.** The state refuses entrance to the waiver to any otherwise qualified individual when the state reasonably expects that the cost of home and community-based services furnished to that individual would exceed the following amount specified by the state that is less than the cost of a level of care specified for the waiver.

Specify the basis of the limit, including evidence that the limit is sufficient to assure the health and welfare of waiver participants. Complete Items B-2-b and B-2-c.

The Individual Cost Limit is 100% of the cost of care for the highest acuity level for persons in private ICFs/IID. This is evidenced by figures included in Appendix J-1 where factor G costs in column 5 (representing an average of all ICFs/IID institutional costs) exceed estimates for the annual average costs for ROW participants in factor D column 2 (which are based on the highest acuity levels for persons in private ICFs/IID). All comparisons are based on utilization data for target groups similar to those who will be participating in the ROW.

Factor D costs are only community costs for ROW participants. There are no institutional costs reflected in factor D. Louisiana uses scores from the Inventory for Client and Agency Planning (ICAP) assessment to determine reimbursement rates specific to four acuity levels of need (intermittent, limited, extensive, pervasive) identified in the ICAP. Those same acuity levels and rates are applied to ROW participants living in the community. This assures fairness and cost effectiveness since the individual cost limit for ROW participants does not exceed 100% of the cost of care for the highest acuity level for persons in private ICFs/IID.

The cost limit specified by the state is (select one):

- ☐ The following dollar amount:

Specify dollar amount:

The dollar amount (select one)

- ☐ Is adjusted each year that the waiver is in effect by applying the following formula:

Specify the formula:

- ☐ May be adjusted during the period the waiver is in effect. The state will submit a waiver amendment to CMS to adjust the dollar amount.
- ☐ The following percentage that is less than 100% of the institutional average:

Specify percent:

- ☒ Other:

Specify:

The Individual Cost Limit is 100% of the cost of care for the highest acuity level for persons in private ICFs/IID.

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (2 of 2)

- b. Method of Implementation of the Individual Cost Limit.** When an individual cost limit is specified in Item B-2-a, specify the procedures that are followed to determine in advance of waiver entrance that the individual's health and welfare can be assured within the cost limit:

OCDD will use the following procedures to determine in advance that each individual entering the ROW will have his/her health and safety needs met within the ROW's established Individual Cost Limit.

A person-centered planning process guided by the support coordinator and a team involving residential, vocational, medical, behavioral and other professional service providers along with the individual and his family that culminates in a Plan of Care. This planning process selects and prioritizes each service needed by the individual into objectives and documents their frequency, duration, location, time, method of delivery and cost, consistent with the participant's strengths, health status, choices, goals and desired outcomes. The support coordinator also arranges any additional assessments or professional evaluations needed to develop strategies for successful implementation of this plan and considers all available natural and community resources, SSI funding and food/housing subsidies available.

- o The planning process also considers each individual's daily schedule, need for assistance with activities of daily living, capacity for functioning independently and health status in determining whether more cost-effective or shared services may be used. Examples may include shared direct support staff, shared nursing services and the use of technological devices for emergency situations (e.g. personal emergency response systems) in lieu of direct support staff.

- o Each Plan of Care contains a detailed budget sheet which outlines the cost of each service multiplied by the total number of service units and frequency required for an individual within his/her overall budget amount and will allow for unanticipated increases in service needs due to emergency or crisis situations.

- o The LGE or the Support Coordination Supervisor is responsible for approving each participant's Plan of Care relative to his/her health and safety needs being assured within the array of services selected and each provider's ability to deliver those services. This is done prior to service delivery and through communication with the support coordinator so that rejected Plans of Care may be revised with technical assistance from the LGE or Support Coordinator Supervisor.

- o Each residential and vocational provider must document completion of their own service plans which mirror the Plan of Care. The support coordinator is responsible for reviewing and assuring that these plans correctly implement the objectives within the approved Plan of Care. The Support coordination Supervisor can approve annual plans of care based on OCDD policy.

OCDD State Office staff are available to provide technical assistance to support coordinators or LGE when difficulties arise in overcoming barriers to successful service planning or when health and safety factors cannot be overcome at the local level or when assistance is needed to mitigate risk factors or utilization issues.

If an individual is denied admission to the waiver they are provided with written notification of the denial and the opportunity to request a fair hearing as described below:

The Louisiana Medicaid Eligibility Manual states, Every applicant for and enrollee of Louisiana Medicaid benefits has the right to appeal any agency action or decision and has the right to a fair hearing of the appeal in the presence of an impartial hearing officer. (Medicaid Eligibility Manual, T-100/Fair Hearings/General Information).

Both applicants and participants are afforded the right to request a fair hearing for services which have been denied, not acted upon with reasonable promptness, suspended, terminated, reduced or discontinued, La. R.S. 46:107. A person may file an administrative appeal to the Division of Administrative Law - Office of the Secretary regarding the following determinations:

- o A finding by the office that the person does not qualify for system entry;
- o Denial of entrance into a home and community-based service waiver;
- o Involuntary reduction or termination of a support or service;
- o Discharge from the system; and/or
- o Other cases as stated in office policy or as promulgated in regulation.

During the initial assessment process, the Support Coordinator will give a participant and his/her legal representatives an OCDD information sheet entitled Rights and Responsibilities for Applicants/Participants of a Home and Community Based Waiver which includes information on how to file a complaint, grievance, or appeal with the Louisiana Department of Health. A copy of this information sheet is kept in the participant's record at the Support Coordination agency's physical location of business. In addition, the Plan of Care contains a section that addresses the right to a fair hearing within ten days, and how to request a fair hearing, if the participant and his/her legal representatives disagree with any decision rendered regarding approval of the Plan of Care. Dated signatures of the participant, his/her legal representatives, and a witness are required on this section. Copies of the Plan of Care, including this section are kept in the appropriate LGE and the Support Coordination agency's physical location of business.

If an individual does not receive the Louisiana Medicaid Long Term Care Choice of Service form offering the choice of home and community based services as an alternative to institutional care, and/or the Freedom of Choice form for case management and/or direct service providers, he/she or his/her legal representatives may request a fair hearing with the Division of Administrative Law -Office of the Secretary in writing, by phone or e-mail. The LGE are responsible for giving information to the individual and his/her legal representatives of how to contact the Division of Administrative Law - Office of the Secretary by writing, phone or e-mail, and how to contact the Disability Rights Center (formerly the Advocacy Center) by phone or mail. This is done at the time of enrollment and at any other time the participant and his/her legal representative requests the number(s).

BHSF utilizes the Adequate Notice of Home and Community Based Services (Waiver) Decision Notice 18-W to notify individuals by mail if they have not been approved for Home and Community Based Waiver services due to financial ineligibility. A separate page is attached to this form entitled Your Fair Hearing Rights. This page contains information on how to request a fair hearing, how to obtain free legal assistance, and a section to complete if the individual is requesting a fair hearing. If the participant does not return this form, it does not prohibit his/her right to appeal and receive a fair hearing.

In accordance with 42CFR 431.206, 210 and 211, participants receiving waiver services, and their legal representatives are sent a certified letter with return receipt to ensure the participant receives it by the appropriate LGE providing ten days advance and adequate notification of any proposed denial, reduction, or termination of waiver services. Included in the letter are instructions for requesting a fair hearing, and notification that an oral or written request must be made within ten days of receipt of a proposed adverse action by the LGE in order for current waiver services to remain in place during the appeal process. If the appeal request is not made within ten days, but is made within thirty days, all Medicaid waiver services are discontinued on the eleventh day; services that are continued until the final decision is rendered are not billable under the Medicaid waiver. If the final decision of the Administrative Law Judge is favorable to the appellant, services are re-implemented from the date of the final decision. An appeal hearing is not granted if the appeal request is made later than thirty days following receipt of a proposed adverse action sent by the LGE. Once a request for an appeal is received, the LGE must submit the request to the Division of Administrative Law - Office of the Secretary no later than seven calendar days after receipt. A copy of the letter and the response/request is kept in the participant's record at the appropriate LGE.

During an appeal request and/or fair hearing the Support Coordinator provides:

- o Assistance as requested by the participant and his/her legal representatives;
- o Documentation in progress notes of the status of the appeal; and
- o Information the participant and his/her legal representatives need to complete the appeal or prepare for a fair hearing.

Anyone requesting an appeal has the right to withdraw the appeal request at any time prior to the hearing. The appellant may contact the Division of Administrative Law -Office of the Secretary directly, or may request withdrawal through the LGE. Requests for withdrawal are kept in the participant's record at the appropriate LGE.

Enrolled providers of waiver services provide participants and their legal representatives notice in writing at least thirty days prior to the transfer or discharge from the provider agency with the proposed date of the transfer/discharge, the reason for the action, and the names of personnel available to assist the participant throughout the process. The enrolled provider of waiver services must also provide the participant and his/her legal representatives with information on how to request an appeal of a decision for involuntary discharge. A copy of the notice of intent to transfer/discharge, and information that was provided on how to access the appeal process is kept in the participant's record at the enrolled provider of waiver services physical location of business.

All Administrative Hearings are conducted in accordance with the Louisiana Administrative Procedure Act, La. R.S. 49:950 et seq. Any party may appear and be heard at any appeals proceeding through an attorney-at-law or through a designated representative.

- c. Participant Safeguards.** When the state specifies an individual cost limit in Item B-2-a and there is a change in the participant's condition or circumstances post-entrance to the waiver that requires the provision of services in an amount that exceeds the cost limit in order to assure the participant's health and welfare, the state has established the following safeguards to avoid an adverse impact on the participant (*check each that applies*):

☐ The participant is referred to another waiver that can accommodate the individual's needs.

☐ Additional services in excess of the individual cost limit may be authorized.

Specify the procedures for authorizing additional services, including the amount that may be authorized:

☒ Other safeguard(s)

Specify:

The participant's Plan of Care is reviewed quarterly or more frequently as needed, to ensure that services continue to meet the participant's health and safety needs. The Support Coordinator will review and ensure that all other services provided through the waiver are being provided in a cost effective manner.

ROW acuity/budget cap level(s) are based upon each participant's Inventory for Agency and Client Planning (ICAP) assessment tool results and may change as the participant's needs change. A reassessment of the participant's ICAP level will be conducted to determine the most appropriate support level. Participants may exceed assigned ROW acuity/budget cap level(s) to access defined additional support needs to prevent institutionalization on a case by case basis according to policy and as approved by the OCDD Assistant Secretary or his/her designee. If it is determined that the ROW can no longer meet the participant's health and safety and/or support the participant, the case management agency will conduct person centered discovery activities.

All Medicaid services options will be explored, including ICF/IID placement, based upon the assessed need.

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (1 of 4)

a. Unduplicated Number of Participants. The following table specifies the maximum number of unduplicated participants who are served in each year that the waiver is in effect. The state will submit a waiver amendment to CMS to modify the number of participants specified for any year(s), including when a modification is necessary due to legislative appropriation or another reason. The number of unduplicated participants specified in this table is basis for the cost-neutrality calculations in Appendix J:

Table: B-3-a

Waiver Year	Unduplicated Number of Participants
Year 1	2000
Year 2	2400
Year 3	2800
Year 4	3100
Year 5	3400

b. Limitation on the Number of Participants Served at Any Point in Time. Consistent with the unduplicated number of participants specified in Item B-3-a, the state may limit to a lesser number the number of participants who will be served at any point in time during a waiver year. Indicate whether the state limits the number of participants in this way: *(select one)* :

- ☒ The state does not limit the number of participants that it serves at any point in time during a waiver year.
- ☐ The state limits the number of participants that it serves at any point in time during a waiver year.

The limit that applies to each year of the waiver period is specified in the following table:

Table: B-3-b

Waiver Year	Maximum Number of Participants Served At Any Point During the Year
Year 1	
Year 2	
Year 3	
Year 4	
Year 5	

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

c. Reserved Waiver Capacity. The state may reserve a portion of the participant capacity of the waiver for specified purposes (e.g., provide for the community transition of institutionalized persons or furnish waiver services to individuals experiencing a crisis) subject to CMS review and approval. The state (*select one*):

- ☒ **Not applicable. The state does not reserve capacity.**
- ☐ **The state reserves capacity for the following purpose(s).**

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (3 of 4)

d. Scheduled Phase-In or Phase-Out. Within a waiver year, the state may make the number of participants who are served subject to a phase-in or phase-out schedule (*select one*):

- ☒ **The waiver is not subject to a phase-in or a phase-out schedule.**
- ☐ **The waiver is subject to a phase-in or phase-out schedule that is included in Attachment #1 to Appendix B-3. This schedule constitutes an intra-year limitation on the number of participants who are served in the waiver.**

e. Allocation of Waiver Capacity.

Select one:

- ☒ **Waiver capacity is allocated/managed on a statewide basis.**
- ☐ **Waiver capacity is allocated to local/regional non-state entities.**

Specify: (a) the entities to which waiver capacity is allocated; (b) the methodology that is used to allocate capacity and how often the methodology is reevaluated; and, (c) policies for the reallocation of unused capacity among local/regional non-state entities:

f. Selection of Entrants to the Waiver. Specify the policies that apply to the selection of individuals for entrance to the waiver:

Entrance to the Residential Options Waiver Allocation of Waiver Opportunities

OCDD maintains the intellectual/developmental disabilities request for services registry, hereafter referred to as “the registry,” which identifies persons with intellectual and/or developmental disabilities who are found eligible for developmental disabilities services using standardized tools, and who request waiver services.

1. Services are accessed through a single point of entry in the LGE. When criteria are met, individual’s names are placed on the registry and a screening of urgency of need (SUN) is completed.
2. Individuals determined to have current unmet needs as defined as a SUN score of urgent [3] or emergent [4] are offered a waiver opportunity.
3. As part of OCDD’s Tiered Waiver approach, all children under age 22 enter the waiver system into the Children’s Choice Waiver and all adults enter with current unmet needs into the Supports Waiver. A person-centered planning process, which includes completion of a needs-based assessment, is utilized during the initial phase to develop the individual’s life vision/goals and develop support strategies and identify services/supports needed. If an individual’s needs cannot be met with the initial waiver they may request moving up to the next waiver in the Tiers. The ROW is the second Tier within the OCDD Tiered Waiver process.
4. The request for services registry (RFSR) is arranged by the urgency of need and date of application for developmentally disabled (DD) waiver services.

OCDD waiver opportunities shall be offered based on the following priority groups:

- a. Individuals living at publicly operated ICF-IIDs or who lived at a publicly operated ICF-IID when it was transitioned to a private ICF-IID through a cooperative endeavor agreement (CEA facility), or their alternates. Alternates are defined as individuals living in a private ICF-IID who will give up the private ICF-IID bed to an individual living at a publicly operated ICD-IID or to an individual who was living in a publicly operated ICF-IID when it was transitioned to a private ICF-IID through a cooperative endeavor agreement (CEA facility). Individuals requesting to transition from a publicly operated ICF-IID are awarded a slot when one is requested, and their health and safety can be assured in an OCDD waiver. This also applies to individuals who were residing in a publicly operated facility at the time the facility was privatized and became a Cooperative Endeavor Agreement (CEA) facility.
- b. Individuals on the registry who have a current unmet need as defined by a SUN score of urgent [3] or emergent [4] and the earliest registry date shall be notified in writing when a funded OCDD waiver opportunity is available and a waiver offer is available.
- c. Individuals Transitioning from ICF/IID facilities utilizing ROW Conversion.
- d. Transition of eligible individuals with intellectual and Developmental Disability services in either OAAS Community Choices Wavier (CCW) or OAAS Adult Day Health Care Waiver (ADHC) to the ROW.

ROW Needs Based Assessment

Inventory for Client and Agency Planning (ICAP) is a standardized assessment instrument that is designed to assess the status, adaptive functioning, and service needs of an individual. The ICAP is applicable to participants of all ages (infant to adult). Information is obtained from the participant's family, advocate, and/or direct care staff. The ROW level of care and budget level is determined by the ICAP assessment. The ICAP results indicate which ROW level of care and budget level the participant meets. There are four level of care and budget levels within the ROW. There are four levels, level 1 is least needs to level 4 which is highest needs. A comprehensive plan of care is developed utilizing the information obtained from the discovery process and the ICAP assessment. Reassessments are conducted with significant life changes and at least annually. The assessment process should be ongoing and reflect changes in the participant’s life, needs, personal outcomes and preferences.

All waiver participants choose their Support Coordination and Direct Service Provider Agencies through the Freedom of Choice process. The initial plan of care (POC) is developed during this person-centered planning process and approved by the LGE. Case Management Agencies are designated as Support Coordination agencies throughout this application. All services must be prior authorized and delivered in accordance with the approved plan of care. Prior authorization is completed by a contracted data source with LDH. The average participant’s expenditures for all waiver services shall not exceed the average Medicaid expenditures for ICF/IID services.

As enacted through R.S. 28:827 Act No. 286 of the 2010 Regular Legislative Session, any active duty member of the

armed forces who has been temporarily assigned to work outside of Louisiana and any member of his/her immediate family who was qualified for and was receiving Louisiana Medicaid Waiver services for individuals with developmental disabilities at the time they were placed on active duty will be eligible to receive the next available waiver opportunity upon the individual's resumed residence in Louisiana.

Medicaid's data contractor has responsibility for maintenance of the IDD Request for Services Registry (the registry). Slot offers are made for persons on the registry by the Medicaid data contractor based upon the above stated policies and procedures. Also, BHSF/MPSW has oversight of the data contractor's role in maintaining the registry according to policy. In addition, monthly meetings are held between the Medicaid data contractor, OCDD, and BHSF/MPSW to review and to assure adherence to these regulations along with fairness in slot allocations and distributions.

BHSF/MPSW and OCDD have the responsibility to monitor the utilization of the ROW opportunities. At the discretion of BHSF and OCDD, specifically allocated waiver opportunities may be reallocated to better meet the needs of citizens with developmental disabilities in the State of Louisiana.

The State Medicaid Agency retains ultimate administrative authority and oversight for all Medicaid waiver programs. OCDD is required to provide State Medicaid Agency with all rulemaking, policy, proposed changes and waiver amendments prior to implementation.

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served - Attachment #1 (4 of 4)

Answers provided in Appendix B-3-d indicate that you do not need to complete this section.

Appendix B: Participant Access and Eligibility

B-4: Eligibility Groups Served in the Waiver

a. **1. State Classification.** The state is a (*select one*):

- ☒ Section 1634 State
- ☐ SSI Criteria State
- ☐ 209(b) State

2. Miller Trust State.

Indicate whether the state is a Miller Trust State (*select one*):

- ☒ No
- ☐ Yes

b. **Medicaid Eligibility Groups Served in the Waiver.** Individuals who receive services under this waiver are eligible under the following eligibility groups contained in the state plan. The state applies all applicable federal financial participation limits under the plan. *Check all that apply:*

Eligibility Groups Served in the Waiver (excluding the special home and community-based waiver group under 42 CFR § 435.217)

- ☐ Parents and Other Caretaker Relatives (42 CFR § 435.110)
- ☐ Pregnant Women (42 CFR § 435.116)
- ☐ Infants and Children under Age 19 (42 CFR § 435.118)
- ☒ SSI recipients
- ☐ Aged, blind or disabled in 209(b) states who are eligible under 42 CFR § 435.121
- ☐ Optional state supplement recipients
- ☐ Optional categorically needy aged and/or disabled individuals who have income at:

Select one:

- ☐ 100% of the Federal poverty level (FPL)
- ☐ % of FPL, which is lower than 100% of FPL.

Specify percentage:

- ☐ Working individuals with disabilities who buy into Medicaid (BBA working disabled group as provided in section 1902(a)(10)(A)(ii)(XIII) of the Act)
- ☐ Working individuals with disabilities who buy into Medicaid (TWWIIA Basic Coverage Group as provided in section 1902(a)(10)(A)(ii)(XV) of the Act)
- ☐ Working individuals with disabilities who buy into Medicaid (TWWIIA Medical Improvement Coverage Group as provided in section 1902(a)(10)(A)(ii)(XVI) of the Act)
- ☐ Disabled individuals age 18 or younger who would require an institutional level of care (TEFRA 134 eligibility group as provided in section 1902(e)(3) of the Act)
- ☐ Medically needy in 209(b) States (42 CFR § 435.330)
- ☐ Medically needy in 1634 States and SSI Criteria States (42 CFR § 435.320, § 435.322 and § 435.324)
- ☐ Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the state plan that may receive services under this waiver)

Specify:

Special home and community-based waiver group under 42 CFR § 435.217) Note: When the special home and community-based waiver group under 42 CFR § 435.217 is included, Appendix B-5 must be completed

- ☐ No. The state does not furnish waiver services to individuals in the special home and community-based waiver group under 42 CFR § 435.217. Appendix B-5 is not submitted.
- ☒ Yes. The state furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR § 435.217.

Select one and complete Appendix B-5.

- ☐ All individuals in the special home and community-based waiver group under 42 CFR § 435.217
- ☒ Only the following groups of individuals in the special home and community-based waiver group under 42 CFR § 435.217

Check each that applies:

- ☒ A special income level equal to:

Select one:

- ☒ 300% of the SSI Federal Benefit Rate (FBR)
- ☐ A percentage of FBR, which is lower than 300% (42 CFR § 435.236)

Specify percentage:

- ☐ A dollar amount which is lower than 300%.

Specify dollar amount:

- ☐ Aged, blind and disabled individuals who meet requirements that are more restrictive than the SSI program (42 CFR § 435.121)
- ☐ Medically needy without spend down in states which also provide Medicaid to recipients of SSI (42

CFR § 435.320, § 435.322 and § 435.324)

- ☐ Medically needy without spend down in 209(b) States (42 CFR § 435.330)
- ☐ Aged and disabled individuals who have income at:

Select one:

- ☐ 100% of FPL
- ☐ % of FPL, which is lower than 100%.

Specify percentage amount:

- ☒ Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the state plan that may receive services under this waiver)

Specify:

Medically needy with spend down to or below the medically needy income standard using the state average monthly Medicaid rate for residents of Intermediate Care Facilities/Developmental Disability and other incurred expenses to reduce an individual's income.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (1 of 7)

In accordance with 42 CFR § 441.303(e), Appendix B-5 must be completed when the state furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR § 435.217, as indicated in Appendix B-4. Post-eligibility applies only to the 42 CFR § 435.217 group.

- a. Use of Spousal Impoverishment Rules.** Indicate whether spousal impoverishment rules are used to determine eligibility for the special home and community-based waiver group under 42 CFR § 435.217:

Note: For the period beginning January 1, 2014 and extending through September 30, 2027 (or other date as required by law), the following instructions are mandatory. The following box should be checked for all waivers that furnish waiver services to the 42 CFR § 435.217 group effective at any point during this time period.

- ☒ **Spousal impoverishment rules under section 1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group. In the case of a participant with a community spouse, the state uses spousal post-eligibility rules under section 1924 of the Act.**
Complete Items B-5-e (if the selection for B-4-a-i is SSI State or section 1634) or B-5-f (if the selection for B-4-a-i is 209b State) and Item B-5-g unless the state indicates that it also uses spousal post-eligibility rules for the time period after September 30, 2027 (or other date as required by law).

Note: The following selections apply for the time period after September 30, 2027 (or other date as required by law) (select one).

- ☒ **Spousal impoverishment rules under section 1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group.**

In the case of a participant with a community spouse, the state elects to (select one):

- ☒ **Use spousal post-eligibility rules under section 1924 of the Act.**
(Complete Item B-5-b (SSI State) and Item B-5-d)
- ☐ **Use regular post-eligibility rules under 42 CFR § 435.726 (Section 1634 State/SSI Criteria State) or under § 435.735 (209b State)**
(Complete Item B-5-b (SSI State). Do not complete Item B-5-d)
- ☐ **Spousal impoverishment rules under section 1924 of the Act are not used to determine eligibility of individuals with a community spouse for the special home and community-based waiver group. The state uses regular post-eligibility rules for individuals with a community spouse.**
(Complete Item B-5-b (SSI State). Do not complete Item B-5-d)

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (2 of 7)

Note: The following selections apply for the time period after September 30, 2027 (or other date as required by law).

b. Regular Post-Eligibility Treatment of Income: Section 1634 State and SSI Criteria State after September 30, 2027 (or other date as required by law).

The state uses the post-eligibility rules at 42 CFR § 435.726 for individuals who do not have a spouse or have a spouse who is not a community spouse as specified in §1924 of the Act. Payment for home and community-based waiver services is reduced by the amount remaining after deducting the following allowances and expenses from the waiver participant's income:

i. Allowance for the needs of the waiver participant (select one):

☒ **The following standard included under the state plan**

Select one:

- ☐ SSI standard
- ☐ Optional state supplement standard
- ☐ Medically needy income standard
- ☒ **The special income level for institutionalized persons**

(select one):

- ☒ **300% of the SSI Federal Benefit Rate (FBR)**
- ☐ **A percentage of the FBR, which is less than 300%**

Specify the percentage:

- ☐ **A dollar amount which is less than 300%.**

Specify dollar amount:

- ☐ **A percentage of the Federal poverty level**

Specify percentage:

- ☐ **Other standard included under the state plan**

Specify:

- ☐ **The following dollar amount**

Specify dollar amount: If this amount changes, this item will be revised.

- ☐ **The following formula is used to determine the needs allowance:**

Specify:

- ☐ **Other**

Specify:

ii. Allowance for the spouse only (select one):

- ☒ Not Applicable
- ☐ The state provides an allowance for a spouse who does not meet the definition of a community spouse in section 1924 of the Act. Describe the circumstances under which this allowance is provided:

Specify:

Specify the amount of the allowance (select one):

- ☐ SSI standard
- ☐ Optional state supplement standard
- ☐ Medically needy income standard
- ☐ The following dollar amount:

Specify dollar amount: If this amount changes, this item will be revised.

- ☐ The amount is determined using the following formula:

Specify:

iii. Allowance for the family (select one):

- ☐ Not Applicable (see instructions)
- ☐ AFDC need standard
- ☒ Medically needy income standard
- ☐ The following dollar amount:

Specify dollar amount: The amount specified cannot exceed the higher of the need standard for a family of the same size used to determine eligibility under the state's approved AFDC plan or the medically needy income standard established under 42 CFR § 435.811 for a family of the same size. If this amount changes, this item will be revised.

- ☐ The amount is determined using the following formula:

Specify:

- ☐ Other

Specify:

iv. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 CFR § 435.726:

- a. Health insurance premiums, deductibles and co-insurance charges
- b. Necessary medical or remedial care expenses recognized under state law but not covered under the state's Medicaid plan, subject to reasonable limits that the state may establish on the amounts of these expenses.

Select one:

- ☐ **Not Applicable (see instructions)** *Note: If the state protects the maximum amount for the waiver participant, not applicable must be selected.*
- ☒ **The state does not establish reasonable limits.**
- ☐ **The state establishes the following reasonable limits**

Specify:

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (3 of 7)

Note: The following selections apply for the time period after September 30, 2027 (or other date as required by law).

c. Regular Post-Eligibility Treatment of Income: 209(b) State or after September 30, 2027 (or other date as required by law).

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (4 of 7)

Note: The following selections apply for the time period after September 30, 2027 (or other date as required by law).

d. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules after September 30, 2027 (or other date as required by law)

The state uses the post-eligibility rules of section 1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care if it determines the individual's eligibility under section 1924 of the Act. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the state Medicaid Plan. The state must also protect amounts for incurred expenses for medical or remedial care (as specified below).

i. Allowance for the personal needs of the waiver participant

(select one):

- ☐ **SSI standard**
- ☐ **Optional state supplement standard**
- ☐ **Medically needy income standard**

- ☒ The special income level for institutionalized persons
- ☐ A percentage of the Federal poverty level

Specify percentage:

- ☐ The following dollar amount:

Specify dollar amount:

If this amount changes, this item will be revised

- ☐ The following formula is used to determine the needs allowance:

Specify formula:

- ☐ Other

Specify:

ii. If the allowance for the personal needs of a waiver participant with a community spouse is different from the amount used for the individual's maintenance allowance under 42 CFR § 435.726 or 42 CFR § 435.735, explain why this amount is reasonable to meet the individual's maintenance needs in the community.

Select one:

- ☒ Allowance is the same
- ☐ Allowance is different.

Explanation of difference:

iii. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 CFR § 435.726 or 42 CFR § 435.735:

- a. Health insurance premiums, deductibles and co-insurance charges
- b. Necessary medical or remedial care expenses recognized under state law but not covered under the state's Medicaid plan, subject to reasonable limits that the state may establish on the amounts of these expenses.

Select one:

- ☐ Not Applicable (see instructions) *Note: If the state protects the maximum amount for the waiver participant, not applicable must be selected.*
- ☒ The state does not establish reasonable limits.
- ☐ The state uses the same reasonable limits as are used for regular (non-spousal) post-eligibility.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (5 of 7)

Note: The following selections apply for the period beginning January 1, 2014 and extending through September 30, 2027 (or other date as required by law).

- e. Regular Post-Eligibility Treatment of Income: Section 1634 State or SSI Criteria State – January 1, 2014 through September 30, 2027 (or other date as required by law).**

Answers provided in Appendix B-5-a indicate the selections in B-5-b also apply to B-5-e.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (6 of 7)

Note: The following selections apply for the period beginning January 1, 2014 and extending through September 30, 2027 (or other date as required by law).

- f. Regular Post-Eligibility Treatment of Income: 209(b) State – January 1, 2014 through September 30, 2027 (or other date as required by law).**

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (7 of 7)

Note: The following selections apply for the period beginning January 1, 2014 and extending through September 30, 2027 (or other date as required by law).

- g. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules – January 1, 2014 through September 30, 2027 (or other date as required by law).**

The state uses the post-eligibility rules of section 1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the state Medicaid Plan. The state must also protect amounts for incurred expenses for medical or remedial care (as specified below).

Answers provided in Appendix B-5-a indicate the selections in B-5-d also apply to B-5-g.

Appendix B: Participant Access and Eligibility

B-6: Evaluation/Reevaluation of Level of Care

As specified in 42 CFR § 441.302(c), the state provides for an evaluation (and periodic reevaluations) of the need for the level(s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.

- a. Reasonable Indication of Need for Services.** In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, and (b) the provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the state's policies concerning the reasonable indication of the need for services:

i. Minimum number of services.

The minimum number of waiver services (one or more) that an individual must require in order to be determined to need waiver services is:

ii. Frequency of services. The state requires (select one):

- ☒ The provision of waiver services at least monthly
☐ Monthly monitoring of the individual when services are furnished on a less than monthly basis

If the state also requires a minimum frequency for the provision of waiver services other than monthly (e.g., quarterly), specify the frequency:

b. Responsibility for Performing Evaluations and Reevaluations. Level of care evaluations and reevaluations are performed (*select one*):

- ☐ Directly by the Medicaid agency
- ☒ By the operating agency specified in Appendix A
- ☐ By an entity under contract with the Medicaid agency.

Specify the entity:

- ☐ Other
Specify:

c. Qualifications of Individuals Performing Initial Evaluation: Per 42 CFR § 441.303(c)(1), specify the educational/professional qualifications of individuals who perform the initial evaluation of level of care for waiver applicants:

An initial evaluation of a participant's Level of Care (LOC) is determined by an authorized healthcare provider as outlined in OCDD policies who must evaluate the participant, then complete and sign the OCDD form 90-L.

The LGE staff that initially evaluate participants and issue a Statement of Approval (SOA) are required to meet the minimum qualifications as follows:

A baccalaureate degree in psychology; counseling; social work; sociology; criminal justice; nursing; public health; public health administration; public administration; hospital administration; education with twenty-four semester hours in psychology, special education or early childhood education; speech communications/pathology; physical therapy; occupational therapy; therapeutic recreation; music therapy; or family and consumer sciences (with a concentration in child, family and social services) followed by one year of professional level experience providing any of the following services: developmentally disabled services, alcohol/drug abuse counseling or treatment, mental health treatment, health care management, or social services.

The LGE staff, who are responsible for reviewing the initial LOC and approving initial plans of care, are required to meet, as a minimum, the following qualifications : A baccalaureate degree plus two years of professional level experience in hospital or nursing home administration, public health administration, social services, nursing, pharmacy, dietetics/nutrition, physical therapy, occupational therapy, medical technology, or surveying and/or assessing health or social service programs or facilities for compliance with state and federal regulations. A current valid Louisiana license in one of the qualifying fields will substitute for the required baccalaureate degree. A master's degree in one of the qualifying fields will substitute for a maximum of one year of the required experience.

The OCDD form 90-L is used in conjunction with the Statement of Approval (SOA) to initially determine a person's qualifications for Developmental Disabilities services and approve them for services according to the LOC determined in the discovery process.

d. Level of Care Criteria. Fully specify the level of care criteria that are used to evaluate and reevaluate whether an individual needs services through the waiver and that serve as the basis of the state's level of care instrument/tool. Specify the level of care instrument/tool that is employed. State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the operating agency (if applicable), including the instrument/tool utilized.

The level of care criteria is based upon the following:

La. R.S. 28:451.2. Definitions:

"...(12) Developmental Disability means either:

(a) A severe chronic disability of a person that:

(i) Is attributable to an intellectual or physical impairment or combination of intellectual and physical impairments.

(ii) Is manifested before the person reaches age twenty-two.

(iii) Is likely to continue indefinitely.

(iv) Results in substantial functional limitations in three or more of the following areas of major life activity:

(aa) Self-care

(bb) Receptive and expressive language.

(cc) Learning.

(dd) Mobility.

(ee) Self-direction.

(ff) Capacity for independent living.

(gg) Economic self-sufficiency.

(v) Is not attributed solely to mental illness.

(vi) Reflects the persons need for a combination and sequence of special, interdisciplinary, or generic care, treatment, or other services which are of lifelong or extended duration and are individually planned and coordinated.

(b) A substantial developmental delay or specific congenital or acquired condition in a person from birth through age nine which, without services and support, has a high probability of resulting in those criteria in Subparagraph (a) of this Paragraph, later in life that may be considered to be a developmental disability.

The Office for Citizens with Developmental Disabilities (OCDD) form 90-L is used to determine the ICF/DD Level of Care. The form must be completed and signed by an authorized healthcare provider as outlined in OCDD policies and procedures. This form must be completed at initial evaluation and annually thereafter to determine if the individuals still meets the ICF/DD level of care.

The 90-L is used in conjunction with the Statement of Approval (SOA) to establish a level of care criteria and to complete the Plan of Care. SOA is a notification to an individual who has requested waiver services that it has been determined by the LGE they meet the developmental disability criteria (Developmental Disability Law- La. R.S. 28:451) for participation in programs administered by OCDD and that they have been placed on the OCDD Request for Services Registry for waiver services and their protected date of request. The 90-L, SOA and initial plan of care documents are submitted by the Support Coordination Agency to the LGE for staff review to assure that the applicant/participant meets/continues to meet the level of care criteria.

The Developmental Disability (DD) decision is made by the LGE utilizing the systems entry process. If the individual is determined to meet the DD criteria they are issued a Statement of Approval (SOA), if they do not meet the DD criteria they are issued a Statement of Denial (SOD). Individuals who receive a SOD are informed of their rights to appeal and are provided information regarding the appeals process. Please refer to Fair Hearings/Appeals process as outlined in Appendix F-section F-1 of the waiver document.

The LGE staff conduct a pre-certification home visit to verify accuracy of level of care for all initial evaluations only.

e. Level of Care Instrument(s). Per 42 CFR § 441.303(c)(2), indicate whether the instrument/tool used to evaluate level of care for the waiver differs from the instrument/tool used to evaluate institutional level of care (*select one*):

- ☒ **The same instrument is used in determining the level of care for the waiver and for institutional care under the state plan.**
- ☐ **A different instrument is used to determine the level of care for the waiver than for institutional care under the state plan.**

Describe how and why this instrument differs from the form used to evaluate institutional level of care and explain how the outcome of the determination is reliable, valid, and fully comparable.

- f. Process for Level of Care Evaluation/Reevaluation:** Per 42 CFR § 441.303(c)(1), describe the process for evaluating waiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the evaluation process, describe the differences:

The Office for Citizens with Developmental Disabilities (OCDD) form 90-L is used to determine the ICF/DD Level of Care. The form must be completed and signed by an authorized healthcare provider as outlined in OCDD policies and procedures. This form must be completed at initial evaluation and annually thereafter to determine if the individuals still meets the ICF/DD level of care.

The 90-L is used in conjunction with the Statement of Approval to establish a level of care criteria and to assist in completion of the plan of care. The 90-L, Statement of Approval and plan of care documents are submitted to the OCDD LGE for staff review to assure that the applicant/participant meets/continues to meet the level of care criteria. For Plans of Care approved by the Support Coordination supervisor, the 90-L, Statement of Approval, and Plan of Care are reviewed to assure the participant continues to meet the level of care criteria.

There is no difference in the process for the LOC evaluations and re-evaluations except that LGE staff conduct a pre-certification home visit to verify accuracy of level of care for all initial evaluations. Support Coordination Supervisors approve subsequent annual LOC evaluations as defined by OCDD's policy.

The Developmental Disability decision is made by the LGE staff utilizing the systems entry process. If the individual is determined to meet the DD criteria they are issued a Statement of Approval (SOA), if they do not meet the DD criteria they are issued a Statement of Denial (SOD). Individuals who receive a SOD are informed of their rights to appeal and are provided information regarding the appeals process. Please refer to Fair Hearings/Appeals process as outlined in Appendix F-section F-1 of the waiver document.

- g. Reevaluation Schedule.** Per 42 CFR § 441.303(c)(4), reevaluations of the level of care required by a participant are conducted no less frequently than annually according to the following schedule (*select one*):

- ☐ Every three months
- ☐ Every six months
- ☒ Every twelve months
- ☐ Other schedule

Specify the other schedule:

- h. Qualifications of Individuals Who Perform Reevaluations.** Specify the qualifications of individuals who perform reevaluations (*select one*):

- ☐ The qualifications of individuals who perform reevaluations are the same as individuals who perform initial evaluations.
- ☒ The qualifications are different.

Specify the qualifications:

All support coordinator/case management supervisors must meet one of the following education and experience requirements:

1. A bachelor or master's degree in social work from a program accredited by the Council on Social Work Education and two years of paid post degree experience in providing Support Coordination services, or
2. a currently licensed Registered Nurse (RN) with at least two years of paid post degree experience or
3. A bachelor' or master's degree in a human service related field which includes; psychology, education, counseling, social services, sociology, philosophy, family and consumer sciences, criminal justice, rehab services, child development, substance abuse, gerontology, and vocational rehabilitation and two years of paid post degree experience in providing Support Coordination services; or
4. A bachelor's degree in liberal arts or general studies with a concentration of at least 16 hours in one of the fields listed in item 3 of this part and two years of paid post degree experience in providing Support Coordination services.

i. Procedures to Ensure Timely Reevaluations. Per 42 CFR § 441.303(c)(4), specify the procedures that the state employs to ensure timely reevaluations of level of care (*specify*):

The Medicaid Data Contractor has edits in the database system for tracking to ensure timely re-evaluations for the level of care.

When the LGE or Support Coordination agency sends an approved Plan of Care to the Medicaid data contractor, the information contains the date of the 90L which is the date of the authorized healthcare provider's signature. This date is tracked in the data contractor's database for every POC. The 90L date is compared to the POC begin date to determine if the reevaluation was timely performed. The database generates a report which is shared with OCDD, LGEs, Support Coordination and BHSF.

j. Maintenance of Evaluation/Reevaluation Records. Per 42 CFR § 441.303(c)(3), the state assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3 years as required in 45 CFR § 92.42. Specify the location(s) where records of evaluations and reevaluations of level of care are maintained:

Records of level of care are maintained by the LGE and in the physical office of the Support Coordination Agency.

Appendix B: Evaluation/Reevaluation of Level of Care

Quality Improvement: Level of Care

As a distinct component of the state's quality improvement strategy, provide information in the following fields to detail the state's methods for discovery and remediation.

a. Methods for Discovery: Level of Care Assurance/Sub-assurances

The state demonstrates that it implements the processes and instrument(s) specified in its approved waiver for evaluating/reevaluating an applicant's/waiver participant's level of care consistent with level of care provided in a hospital, NF or ICF/IID.

i. Sub-Assurances:

- a. Sub-assurance:** *An evaluation for LOC is provided to all applicants for whom there is reasonable indication that services may be needed in the future.*

Performance Measures

For each performance measure the state will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the state to analyze and assess progress toward the performance measure. In this section provide information on the

method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

B.a.i.a.1. Number and percentage of initial waiver applicants who have been determined to meet the ICF/ID level of care prior to waiver certification. Percentage = Number of initial applicants in the sample who were determined to have met the level of care determination criteria /Number of initial applicants reviewed in the sample.

Data Source (Select one):

Record reviews, on-site

If 'Other' is selected, specify:

Responsible Party for data collection/generation (check each that applies):	Frequency of data collection/generation (check each that applies):	Sampling Approach (check each that applies):
☐ State Medicaid Agency	☐ Weekly	☐ 100% Review
☒ Operating Agency	☐ Monthly	☒ Less than 100% Review
☐ Sub-State Entity	☒ Quarterly	☒ Representative Sample Confidence Interval = 95% +/- 5%
☐ Other Specify: 	☐ Annually	☐ Stratified Describe Group:
	☐ Continuously and Ongoing	☐ Other Specify:
	☐ Other Specify: 	

Data Aggregation and Analysis:

Responsible Party for data aggregation and analysis (check each that applies):	Frequency of data aggregation and analysis (check each that applies):
☐ State Medicaid Agency	☐ Weekly
☒ Operating Agency	☐ Monthly
☐ Sub-State Entity	☐ Quarterly
☐ Other Specify: 	☒ Annually
	☐ Continuously and Ongoing
	☐ Other Specify:

- b. Sub-assurance: The levels of care of enrolled participants are reevaluated at least annually or as specified in the approved waiver.**

Performance Measures

For each performance measure the state will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the state to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

- c. Sub-assurance: The processes and instruments described in the approved waiver are applied appropriately and according to the approved description to determine participant level of care.**

Performance Measures

For each performance measure the state will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the state to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

B.a.i.c.2 Number and percentage of initial waiver applicants level of care evaluation

determined to be accurate according to the State's procedures. Percentage: Number of initial waiver applicants with level of care evaluations determined to be accurate/Total number of initial waiver applications reviewed in the sample.

Data Source (Select one):

Record reviews, on-site

If 'Other' is selected, specify:

Responsible Party for data collection/generation (check each that applies):	Frequency of data collection/generation (check each that applies):	Sampling Approach (check each that applies):
☐ State Medicaid Agency	☐ Weekly	☐ 100% Review
☒ Operating Agency	☐ Monthly	☒ Less than 100% Review

Responsible Party for data aggregation and analysis (check each that applies):	Frequency of data aggregation and analysis(check each that applies):
☐ State Medicaid Agency	☐ Weekly
☒ Operating Agency	☐ Monthly
☐ Sub-State Entity	☐ Quarterly
☐ Other Specify: 	☒ Annually
	☐ Continuously and Ongoing
	☐ Other Specify:

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the state to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

Performance Measure B.a.i.a.1, B.a.i.c.1 and B.a.i.c.2: The LGE office reviews all initial applications to ensure that they contain all required information needed to confirm the LOC determination. Any incomplete, untimely, or inaccurate applications are returned by the LGE staff to the support coordinator for correction/clarification. The LGE staff will submit written documentation outlining the reason for the return to the support coordinator. If the system entry eligibility is questioned by the LGE staff as a result of the face to face visit, then the LGE system entry staff will be contacted to ascertain if eligibility re-determination is required.

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the state's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction and the state's method for analyzing information from individual problems, identifying systemic deficiencies, and implementing remediation actions. In addition, provide information on the methods used by the state to document these items.

Performance Measures B.a.i.a.1, B.a.i.c.1, B.a.i.c.2:

During the Level of Care/Plan of Care (LOC/POC) Quality Review at the LGE:

- Items needing remediation are flagged by the data system;
- Specific information related to the flagged item is entered into the data system;
- Remediation is tracked by verification of actions taken; and
- Once remediation is completed, the case is closed.

On a quarterly basis at the OCDD State Office (SO) level, remediation data is aggregated and reviewed by the Program Manager to assure that all cases needing remediation are addressed. If adverse trends and patterns are identified, then recommendations are made by the Program Manager to the OCDD SO Quality Enhancement Section for review and corrective action, if needed, with the specific LGE. If the adverse trends and patterns identified are systemic in nature (across more than one LGE), then the Program Manager will forward the item to the Performance Review Committee for review and corrective action assignment.

A variety of mechanisms are employed by BHSF/MPSW to ensure all remediation and appropriate action has been completed:

- MPSW reviews the quarterly aggregated quality reports and remediation reports provided by the operating agency to ensure all instances of non-compliance are remediated within 30 days of notification.
- MPSW meets with OCDD State Office agency staff on a quarterly basis to discuss delegated functions, pending issues, and remediation plans. Systemic issues requiring remediation are will be identified and discussed at the Cross-Waiver (which includes staff from MPSW, OAAS, and OCDD) and Medicaid Oversight Review Team (which includes Medicaid staff) meetings. A plan for remediation and person responsible will be is developed and person responsible is assigned for each item identified. Remediation strategies and progress towards correction will be are reviewed and documented at the next scheduled meeting until the item is closed out.
- MPSW, the Medicaid Director or Deputy Director, the OCDD Assistant Secretary, and other pertinent staff meet on at least a quarterly basis to discuss any pending issues and remediation plans.
- Memorandums are sent from BHSF to OCDD to ensure all necessary leadership is informed of the support actions needed to correct problems or make improvements.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

Responsible Party(<i>check each that applies</i>):	Frequency of data aggregation and analysis (<i>check each that applies</i>):
☐ State Medicaid Agency	☐ Weekly
☒ Operating Agency	☐ Monthly
☐ Sub-State Entity	☐ Quarterly
☐ Other Specify: 	☒ Annually
	☐ Continuously and Ongoing
	☐ Other Specify:

c. Timelines

When the state does not have all elements of the quality improvement strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Level of Care that are currently non-operational.

☒ No

☐ Yes

Please provide a detailed strategy for assuring Level of Care, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-7: Freedom of Choice

Freedom of Choice. As provided in 42 CFR § 441.302(d), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:

- i. informed of any feasible alternatives under the waiver; and
- ii. given the choice of either institutional or home and community-based services.

a. Procedures. Specify the state's procedures for informing eligible individuals (or their legal representatives) of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services. Identify the form(s) that are employed to document freedom of choice. The form or forms are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The Louisiana Department of Health, Bureau of Health Services Financing, Medicaid Eligibility Determination Regional Office, informs individuals and/or their authorized representatives of the "feasible alternatives" under the waiver. When the waiver offer is made, the LGE ensures that the individuals and/or their authorized representatives are given the choice of either institutional or home and community-based services. The LGE currently utilizes the "Case Management Choice and Release of Information Form" to allow the person to state that they understand their choices and the alternatives under the waiver. The information is reviewed with the participant and/or authorized representative at a pre-certification home visit prior to approval of the initial plan of care and annually thereafter.

b. Maintenance of Forms. Per 45 CFR § 92.42, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.

The forms are maintained in the records at the LGE and the physical office of the Support Coordination Agency.

Appendix B: Participant Access and Eligibility

B-8: Access to Services by Limited English Proficiency Persons

Access to Services by Limited English Proficient Persons. Specify the methods that the state uses to provide meaningful access to the waiver by Limited English Proficient persons in accordance with the Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003):

The Louisiana Department of Health has a Medicaid Eligibility Supports Section to assist individuals who have language barriers. When the LGE identifies an individual who needs language assistance, the request is submitted to the MPSW Section who reviews and forwards the request to the Eligibility Supports Section to assist the individual. A contracted interpreter is utilized to assist the individual. All forms are published in English, Spanish, and Vietnamese and are available in alternative format upon request.

Appendix C: Participant Services

C-1: Summary of Services Covered (1 of 2)

a. Waiver Services Summary. List the services that are furnished under the waiver in the following table. If case management is not a service under the waiver, complete items C-1-b and C-1-c:

Service Type	Service		
Statutory Service	Adult Day Health Care		
Statutory Service	Day Habilitation		
Statutory Service	Monitored In Home Caregiving		
Statutory Service	Prevocational Services		
Statutory Service	Respite Services - Out of Home		
Statutory Service	Shared Living Services		
Statutory Service	Support Coordination		
Statutory Service	Supported Employment		
Extended State Plan Service	Assistive Technology/Specialized Medical Equipment and Supplies		
Supports for Participant Direction	Financial Management Services		
Other Service	Community Life Engagement Development		
Other Service	Community Living Supports		
Other Service	Companion Care		
Other Service	Dental Services		
Other Service	Environmental Accessibility Adaptations		
Other Service	Host Home		
Other Service	Housing Stabilization Service		
Other Service	Housing Stabilization Transition Service		
Other Service	Nurse Consult		
Other Service	One-Time Transitional Services		
Other Service	Personal Emergency Response System		
Other Service	Professional Services		
Other Service	Skilled Nursing		
Other Service	Transportation-Community Access		

Appendix C: Participant Services

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Statutory Service

Service:

Adult Day Health

Alternate Service Title (if any):

Adult Day Health Care

HCBS Taxonomy:

Category 1:

Sub-Category 1:

Category 2:

Sub-Category 2:

Category 3:**Sub-Category 3:****Category 4:****Sub-Category 4:****Service Definition (Scope):**

Services furnished as specified in the plan of care at an ADHC center, in a non-institutional, community-based setting encompassing both health/medical and social services needed to ensure the optimal functioning of the participant.

Adult Day Health Care Services include:

- Meals - shall not constitute a “full nutritional regimen” (3 meals per day) but shall include a minimum of 2 snacks and a hot nutritious lunch.
- Transportation between the participant's place of residence and the ADHC in accordance with licensing standards;
- Assistance with activities of daily living;
- Health and nutrition counseling;
- Individualized exercise program;
- Individualized goal-directed recreation program;
- Health education classes; and
- Individualized health/nursing services.

The number of people included in the service per day depends on the licensed capacity and attendance at each facility; the average capacity is 49.

Nurses are involved in the participant’s service delivery, as specified in the plan of care or as needed. Each participant has a plan of care from which the ADHC provider develops an individualized service plan. If the individualized service plan calls for certain health and nursing services, the nurse on staff ensures that said services are delivered while the participant is at the ADHC center.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

ADHC services may be provided no more than 10 hours per day and no more than 50 hours per week

Service Delivery Method (check each that applies):

- ☐ Participant-directed as specified in Appendix E
- ☒ Provider managed
- ☐ Remote/via Telehealth

Specify whether the service may be provided by (check each that applies):

- ☐ Legally Responsible Person
- ☐ Relative
- ☐ Legal Guardian

Service Type:**Service:****Alternate Service Title (if any):****HCBS Taxonomy:****Category 1:****Sub-Category 1:****Category 2:****Sub-Category 2:**

Category 3:**Sub-Category 3:****Category 4:****Sub-Category 4:****Service Definition (Scope):**

Day habilitation services focus on the person centered planning process, which would allow the participant a choice in how they spend their day. Day Habilitation is furnished in a variety of community settings, (i.e. local recreation department, garden clubs, libraries) other than the person's residence and is not to be limited to a fixed- site. Day habilitation activities should assist the participant to gain their desired community living experience, including the acquisition, retention or improvement in self-help, socialization and adaptive skills, and/or to provide the individual an opportunity to contribute to his or her community. Day Habilitation activities should be educational or recreational in nature, which would include activities that are related to the individual's interests, hobbies, clubs, or sports. For individuals with degenerative conditions, day habilitation may include training and supports designed to maintain skills and functioning and to slow or prevent regression rather than acquiring new skills or improving existing skills. Day Habilitation Services may be coordinated with needed therapies in the individual's person centered Plan of Care. The individual of retirement age may also be supported in senior community activities or other meaningful retirement activities in the community, such as the local council on aging or senior centers. Career planning activities may be a component of the participant's plan and may be used to develop learning opportunities and career options consistent with the person's skills and interests. Day habilitation may not provide for the payment of services that are vocational in nature – for example, the primary purpose of producing goods or performing services.

Transportation services (including wheelchair) are offered and billable as a component of Day Habilitation. Transportation may be provided to and/or from the participant's residence or a location agreed upon by the participant or authorized representative.

Assistance with personal care may be a component part of day habilitation services as necessary to meet the needs of a participant, but may not comprise the entirety of the service.

Volunteer activities should be provided under the guidelines of the United States Fair Labor Standards Act of 1985 as amended.

Day Habilitation can be delivered in 3 separate delivery methods:

1. Onsite Day Habilitation (ODH) is typically delivered in a ratio of 1:8. Services can be delivered onsite inside of a day program building. This service should focus on the person centered planning process, which allows the participant a choice in how they spend their day and should take into account the how their time is spent when using Community Life Engagement services. ODH activities should be consistent with the individual's interests, skills and desires and should assist the participant to gain their desired meaningful day. ODH can be offered in a variety of community settings, (i.e. local recreation department, garden clubs, libraries). The community should be a regular part of ODH activities including volunteers and community partnerships and engagement. However, the use of 'reverse integration' does not supplant the inclusion of community life engagement.

2. Community Life Engagement (CLE) is delivered in a small group of 1-2/4 or 1:1. When planning for this service, the Person Centered Planning Process should be used for each person to develop a plan for how they want to engage in their community including the frequency and activities.

CLE refers to services that help support individuals with disabilities to access and participate in purposeful and meaningful activities in their communities. The role of CLE varies depending on the particular needs of the individual. This service promotes opportunities and support for community inclusion; building interests and developing skills and potential for not only meaningful community engagement but also it can help the individual in figuring out areas of interests for possible competitive integrated employment in the community. Services should be completed in the community in small groups of 2 to 4 or 1:1 individuals, which allows for a more person centered planning of activities. Services should result in active, valued participation and engagement in a broad range of integrated activities that build on the participant's interests, preferences, gifts, and strengths while reflecting his or her desired outcomes related to community involvement and membership. This service involves participation in integrated community settings, in activities that include persons without disabilities and with people who are not paid or unpaid caregivers. This service is expected to result in the individual developing and maintaining social roles and relationships; building natural supports; increasing independence; increasing potential for employment and/or experiencing meaningful community participation and inclusion. Volunteering is expected to be a part of this service as well.

Requirements:

- Use an approved activity log to document activities done in the community
- Electronic Visit Verification must be utilized

•Services may be delivered during the days and times that activities are available. There are no limits to the days or times.

Services can be delivered during the day, evenings and/or weekends.

•CLE cannot be delivered at the same time as any other service.

3. Virtual Delivery of Day Habilitation(VDDH) should be delivered in a 1:8 ratio and should be person centered and tailored to the interest and needs of each person much like the in person services. VDDH service is intended to provide opportunities for individuals to interact and receive services through an online format where face-to-face interaction can occur that is in line with their expectations for a meaningful day. VDDH service is meant to keep an individual engaged with peers and the community during times where the individual is unable to interact in person, such as during a pandemic or state of emergency or when an individual is unable to attend in-person activities such as events due to medical situations that will keep them from receiving services in-person.

VDDH is a delivery method with the same components and scope as in-person Day Habilitation services with the exception of the transportation component. Selection of in-person versus virtual delivery of this service will be based on the beneficiary's choice and needs. The percentage of time used in virtual delivery will be determined by each beneficiary's choice and needs.

VDDH services will be facilitated by the provider agency who will continue to incorporate already established community partners into the VDDH. Providers will seek opportunities for beneficiaries to join community online groups and seek out such activities as online church services and groups, exercise classes, cooking and drawing classes. Through virtual delivery of this service, beneficiaries can continue to interact with their friends and community connections during the times when in person services are not taking place. Providers will encourage beneficiaries to attend in person community activities of their choice to facilitate and increase community integration. VDDH will be utilized during times that do not allow for the beneficiary to attend in person (i.e.medical issues/surgery), an emergency situation where a provider agency may be closed or when the beneficiary might choose to not attend in person for personal reasons. Virtual delivery is not the typical delivery method. The beneficiary must be independent or have natural supports as this service cannot be billed at the same time as another service. The beneficiary must have the means necessary to participate in the virtual service. VDDH is not preferred as beneficiaries are encouraged to participate in the community. VDDH will be discussed with each beneficiary by the support coordinator and will be included in the plan of care if chosen.All VDDH services must be approved by the Local Governing Entity or the OCDD State Office and should be delivered as outlined in the OCDD Policy and Procedures manual. An initial assessment of beneficiary, home, HIPAA compliance prior to beginning virtual services. Providers will receive written instructions on the delivery of virtual services based on the HIPAA compliance officer's instructions.

When using virtual delivery, providers will follow these guidelines:

- Confidentiality still applies for services delivered through virtual delivery. The session must not be recorded without consent from the beneficiary or authorized representative.
- Develop a back-up plan (e.g., phone number where beneficiary can be reached) to restart the session or to reschedule it, in the event of technical problems.
- Develop a safety plan that includes at least one emergency contact and the closest ER location, in the event of a crisis.
- Verify beneficiary's identity, if needed.
- Providers need the consent of the beneficiary and the beneficiary's parent or legal guardian (and their contact information) prior to initiating a telemedicine/telehealth service with the beneficiary if the beneficiary is 18 years old or under.
- The beneficiary must be informed of all persons who are present and the role of each person.
- Beneficiaries may refuse services delivered through telehealth.
- It is important for the provider and the beneficiary to be in a quiet, private space that is free of distractions during the session

Beneficiaries are instructed to find a space out of their bedroom that allows for privacy while participating in the service delivery of virtual day habilitation. Beneficiaries are instructed to turn their camera off and mute the session if they leave to go to the bathroom or if someone who is not part of the group comes into the room. Providers will ensure the beneficiaries understand the guidelines for participation in the virtual service. Written instructions will be provided to each beneficiary. The provider will instruct the beneficiary/natural support to understand how to utilize the technology required to participate in the virtual delivery of day habilitation, including how to utilize the specific format, signing in and out. The provider will provide written instructions.

If the beneficiary is able to be unsupported during this service, an existing protocol is in place for the person if a health and safety issue arises during this virtual service.The provider agency staff, who is conducting the virtual delivery of this service, will be able to support the beneficiary through any health and safety situation that might arise during the virtual day habilitation service time. If the beneficiary is participating in virtual services with the assistance of natural supports, the natural supports will ensure the health and safety of the beneficiary.

Minimum Requirements for VDDH:

- Must utilize a format that allows for face-to-face interaction
- Must be approved by LGE based off the criteria as outlined in the OCDD policy and procedures manual.
- Must utilize EVV to check in and out of VDDH
- Must utilize an approved Activity Log to track the days, times and activities that the participant is utilizing VDDH

Day Habilitation Services may be coordinated with needed therapies in the individual's person-centered Plan of Care. The Day Habilitation provider is responsible for all transportation between day habilitation sites. Time spent in transportation between the participants residence/location and the day habilitation site is not to be included in the total number of day habilitation services hours per day, except when the transportation is for the purpose of travel training. Travel training must be included in the participants Plan of Care.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Services shall be furnished on a regularly scheduled basis, for up to 8 hours, one or more days per week based on a 15 minute unit of service. Any time less than 15 minutes of service is not billable or payable. No rounding up of units is allowed.

Cannot be billed for at the same time on the same day as Community Living Supports, Respite-Out of Home, Prevocational Services, Supported Employment, Adult Day Health Care or Monitored in Home Care Giving (MIHC).

Cannot be billed for at the same time on the same day as Professional services except when there are direct contacts needed in the development of a support plan.

Service Definition (Scope):

Monitored In-Home Caregiving are services provided to a participant living in a private home with a principal caregiver. The goal of this service is to provide a community-based option that provides continuous care, supports, and professional oversight. This goal is achieved by promoting a cooperative relationship between a participant, a principal caregiver, the professional staff of a Monitored In-Home Caregiver agency provider, and the participant's support coordinator.

The principal caregiver is responsible for supporting the participant to maximize the highest level of independence possible by providing necessary care and supports that may include:

1. Supervision or assistance in performing activities of daily living.
2. Supervision or assistance in performing instrumental activities of daily living.
3. Protective supervision provided solely to assure the health and welfare of a participant.
4. Supervision or assistance with health related tasks (any health related procedures governed under the Nurse Practice Act) in accordance with applicable laws governing the delegation of medical tasks/medication administration.
5. Supervision or assistance while escorting / accompanying the individual outside of the home to perform tasks, including

instrumental activities of daily living, health maintenance or other needs as identified in the plan of care, and to provide the same supervision or assistance as would be rendered in the home.

6. Extension of therapy services to maximize independence when the caregiver has been instructed in the performance of the activities by a licensed therapist or registered nurse.

7. Provide supports to the beneficiary to participate in community activities of the individual's choosing and support the person to have a life that the individual chooses. The individual should have the ability to make choices of how they spend their day including work and activities in the community.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Participants electing Monitored In-Home Caregiving are not eligible to receive the following Residential Options Waiver services: Community Living Supports (CLS), Companion Care Supports, Host Home, or Shared Living Supports during the period of time the participants is receiving Monitored In-Home Caregiving.

Service Definition (Scope):

Prevocational Services also referred to as Career Planning services, are designed to create a path to integrated, individual, community-based employment for which an individual is compensated at or above minimum wage, but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities.

Good candidates for prevocational services may include individuals who want to work but may not be sure where their interests lie and need to explore further options.

Career Planning is not a required pre-requisite for individual supported employment services and at any time during this service, one may choose to leave it either because they want to go to work immediately or because they are no longer interested in working.

This service is best completed in the community and in practical situations, but there are some options for activities that can be completed onsite. This service should be delivered in the community utilizing locations such as businesses, Workforce Job Centers and other places that can assist the individual in developing skills and competencies necessary for an individual to be employed in a competitive job. A variety of career exploration activities such as individual discovery activities, career education, career assessments and financial education should occur during this service. Activities that could occur include volunteering, internships and mentoring. The outcome of this service should be a personal career profile and will provide valuable information for the next phase of the career path.

Career Planning services may be provided in a variety of settings including home visits conducted as part of individual discovery and getting to know the individual in their day to day life.

This service is a time limited service as defined in the OCDD policy and procedures manual and a targeted service for people wanting to become employed but may need additional information and experiences in order to determine such things as their areas of interests for work, skills and strengths and conditions needed for successful employment.

Assistance with personal care may be a component of prevocational services, but may not comprise the entirety of the service.

PREVOCATIONAL SERVICES has two distinct services.

1. Onsite Prevocational Services also referred to as onsite career planning services can be delivered in a 1:8 ratio depending upon the individual's needs.

These services are intended to support the individual in developing general, non-job-task-specific strengths and skills that contribute to employability in paid employment in integrated community settings. Examples of general skill development include: how to communicate effectively with supervisors, co-workers, and customers; accepted community workplace conduct and dress; attention to tasks and directions; workplace problem solving skills and general workplace safety and mobility training.

Onsite Services could consist of activities such as: making contact with businesses and research via the internet opportunities for career options through internships, mentoring opportunities, volunteer positions and community exploration. As part of this service business tours can be completed to assist in determining a direction for employment. Career exploration and discovery activities should be part of this service. This service should be individualized and should be used in the development of a career plan 'profile' for each person.

Onsite Career Planning services should consider the community career planning services and should work together to accomplish the goals set forth.

2. Community Career Planning is delivered in a small group with a ratio of 1:2/4 but can also be delivered in a 1:1 ratio. This service is an individualized, person-centered, comprehensive service that assists the individual in establishing their path to obtain individual, competitive integrated employment in the community. The outcome of this service is to create a 'Profile' for each person that can be utilized to create their employment plan.

Career Planning Services are designed to create a path to individual, integrated community based employment for which an individual is compensated at or above minimum wage, but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities.

Career Planning services are intended to use the person centered planning process to discover the various interest, skills and general information about each person that will assist in developing a path to employment in the community. Based off the person centered planning, activities should be tailored for each person in preparing them for paid employment in the community.

Transportation is a separate billable service and can be billed by the provider on the same day as one of these services is delivered in person.

Virtual delivery of Prevocational services may occur.

There is not a predetermined percentage of time that virtual delivery of services will occur as this is an individual choice to participate in this delivery method or not. Virtual service delivery is an option during times that does not allow the beneficiary to attend in person (i.e. medical issues/surgery), an emergency or when the beneficiary chooses to not attend in-person for personal reasons. The beneficiary should be independent or have natural supports, as this service cannot be billed at the same time as another service. The beneficiary must have the means necessary to participate in the virtual service, (i.e. laptop, tablet, etc.).

Virtual delivery is not the preferred method as beneficiaries are encouraged to participate in the community through either onsite prevocational or community career planning services and are offered these options as well. Virtual delivery will be included in the discussion with each beneficiary by the support coordinator and the service provider and will only be included in the plan of care if chosen by the individual. Prior to the beginning of virtual delivery the following In-person visits are required:

- An initial assessment of beneficiary and home to determine if it's feasible
- HIPPA compliance training prior to beginning virtual delivery

To assure that virtual delivery of this service meets HIPAA requirements, the following will occur:

Providers will receive written instructions on the delivery of virtual services based on the HIPAA compliance officer's instructions.

When using virtual delivery, providers will follow these guidelines:

- Confidentiality still applies for services delivered through virtual delivery. The session must not be recorded without consent from the beneficiary or authorized representative.
- Develop a back-up plan (e.g., phone number where beneficiary can be reached) to restart the session or to reschedule it, in the event of technical problems.
- Develop a safety plan that includes at least one emergency contact and the closest ER location, in the event of a crisis.
- Verify beneficiary's identity, if needed.
- Providers need the consent of the beneficiary and the beneficiary's parent or legal guardian (and their contact information) prior to initiating a telemedicine/telehealth service with the beneficiary if the beneficiary is 18 years old or under.
- The beneficiary must be informed of all persons who are present and the role of each person.
- Beneficiaries may refuse services delivered through telehealth.
- It is important for the provider and the beneficiary to be in a quiet, private space that is free of distractions during the session

Providers will ensure that beneficiaries understand the guidelines for participation in a virtual service delivery and HIPAA. Written instructions and guidelines will be provided to each beneficiary.

Beneficiaries and natural supports will be instructed on the following:

- finding a space that allows for privacy while participating in the service
- turn the camera off and mute the session if they leave to go to the bathroom or leave the room while participating in the session, or if someone who is not part of the group comes into the room.
- how to utilize the technology required to participate in the virtual delivery of this service, including how to utilize the specific format, signing in and out etc. The provider will also provide written instructions.

To ensure that virtual delivery of this service facilitates community integration, the provider agency will continue to incorporate already established community partners into the virtual delivery of the service. For instance, if the beneficiary typically attends a career exploration class in the community with community participation occurring, the beneficiary will join via a face-to-face format virtually and therefore still be included in the meeting. Providers will also seek opportunities for beneficiaries to join community online groups in a face-to-face format and seek out such activities as career preparation, mock interview sessions etc. Through virtual delivery of this service, beneficiaries can continue to interact with their friends and community connections during the times when the beneficiary is not participating in person but will allow for the beneficiary to not miss out on opportunities for inclusion.

If the beneficiary is able to be unsupported during this service, an existing protocol is in place for the person if a health and safety issue arises during this virtual service. The provider agency staff, who is conducting the virtual delivery of this service, will be able to support the beneficiary through any health and safety situation that might arise during the virtual delivery of prevoc. If the beneficiary is participating in virtual services with the assistance of natural supports, the natural supports will ensure the health and safety of the beneficiary.

All virtual delivery of prevocational services must be on the approved Plan of Care and must be delivered as outlined in an OCDD Policy and Procedures manual.

Minimum Requirements for virtual delivery:

- Must utilize a virtual format that allows for face-to-face interaction
- Must utilize EVV to check in and out of the service
- Must utilize an approved Activity Log to track the days, times and activities that the participant is utilizing virtual delivery

Participation in Prevoc/CP is not a requirement in order for the individual to go to work.

Volunteer activities should be provided under the guidelines of the United States Fair Labor Standards Act of 1985 as amended.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Services shall be furnished on a regularly scheduled basis, one or more days per week based on a unit of service. The participant must spend the 15-minute unit of service at the service site. Any time less than 15 minutes of service is not billable or payable. No rounding up of units is allowed.

Prevocational/CP services are time limited as outlined in an OCDD policy and procedures manual.

Post authorization may be approved upon verification of services rendered.

Participants receiving Prevocational Services may receive other services on the same day but not during the same time period with the exception of community life engagement development.

Prevocational Services are not available to individuals who are eligible to participate in programs funded under Section 110 of the Rehabilitation Act of 1973 or Section 602 (16) and (17) of the Individuals with Disabilities Education Act, 20 U.S.C. 1401 (16) and (71).

Cannot be billed for at the same time on the same day as Professional services except when there are direct contacts needed in the development of a support plan.

Through special permission from the Local Governing Entity and under special circumstances as outlined in the OCDD Policy and Procedures manual, a person can complete this service more than once.

Service Definition (Scope):

Respite Services-Out of Home is a service provided to a beneficiary who is unable to care for themselves; furnished on a short-term basis due to the absence or need for relief for those who provide care in the form of natural supports. It is most commonly used when families take vacations, or have a sudden emergency such as a death in the family. These services are necessary to keep individuals from being institutionalized.

Center-based Respite care will only be provided in a center-based respite care facility licensed by Health Standards.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Center based respite cannot be provided in a personal residence.

Community Living Supports services cannot be provided while an individual is in a center based respite care setting

Respite Services-Out of Home is not a billable waiver service to participants receiving the following services:

Community Living Supports
Companion Care
Host Home
Shared Living

Payment will not be made for:
Transportation-Community Access

Shared Living services are provided to a beneficiary in his/her home and community to achieve, improve, and/or maintain social and adaptive skills necessary to enable the beneficiary to reside in the community and to participate as independently as possible.

Shared Living services focus on the beneficiary's preferences and goals. Supports provided are related to the acquisition, improvement, and maintenance in level of independence, autonomy, and adaptive skills and are to be included in each beneficiary's Plan of Care.

The Shared Living service setting is integrated in, and facilitates each beneficiary's full access to the greater community, which includes opportunities for each beneficiary to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community, like individuals without disabilities.

Shared Living service providers are responsible for providing 24-hour staff availability along with other identified responsibilities as indicated in each beneficiary's individualized Plan of Care. This includes each beneficiary's routine daily schedule and ensuring the health and welfare of each beneficiary while in their place of residence, community and for any other waiver services provided by the Shared Living services provider.

Shared Living services may be provided in a residence that is owned or leased by the provider or that is owned or leased by the beneficiary. Services may not be provided in a residence that is owned or leased by any legally responsible relative of the beneficiary. If Shared Living services are provided in a residence that is owned or leased by the provider, any modification of the conditions must be supported by specific assessed needs and documented in the beneficiary's Plan of Care. The provider is responsible for the cost of and implementation of the modification when the residence is owned or leased by the provider.

The Shared Living services rate includes the cost of transportation. The provider is responsible for providing transportation for all community activities except for vocational services.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Shared Living services aren't available to participants 17 and under.

All Medicaid State Plan nursing services must be utilized and exhausted.

Payment will not be made for services provided by a relative who is a:

- Parent(s) of a minor child;
- Legal guardian of an adult or child with developmental disabilities;
- Parent(s) for an adult child regardless of whether or not the adult child has been interdicted; or
- Spouse

The Shared Living staff may not live in the participant's place of residence.

Payment does not include room and board or maintenance, upkeep and improvement of the participant's or provider's property.

Payment will not be made for the following services:

- Community Living Supports
- Companion Care
- Host Home
- Respite Care Services-Out of Home
- Transportation-Community Access
- Environmental Accessibility Adaptations (if housing is leased or owned by the provider)
- or Monitored in Home Care giving (MIHC)

Service Definition (Scope):

Support Coordination services consists of the coordination of supports and services that will assist beneficiaries in gaining access to needed waiver and other Medicaid services, as well as needed medical, social, educational and other services, regardless of the funding source. The support coordinator is responsible for convening the person-centered planning team, comprised of the beneficiary, beneficiary's family, direct service providers, medical and social work professionals, employer, as necessary, and advocates, who assist in determining the appropriate supports and strategies to meet the beneficiary's needs and preferences. The support coordinator shall be responsible for the ongoing coordination of supports and services, no matter the funding, included in the beneficiary's plan of care and continuous monitoring to ensure that the individual's needs and preferences are being met.

The support coordination agency should follow state policies and guidance as provided.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- At least monthly phone contact and quarterly face to face visits.
- Virtual meeting in place of face to face meeting may be allowed if criteria is met as defined in the OCDD Policy and Procedures manual. If a virtual meeting is held, electronic verification is acceptable.

Billed in a monthly unit for 12 months.

OCDD Supports and Services Centers are prohibited from providing Case Management/Support Coordination services in the Residential Options Waiver (ROW).

Case Management

LAC 48:1 Chapter 49 (8/20/94)

Certificate (specify):

Other Standard (specify):

Louisiana identifies Case Management as Support Coordination. Support Coordinators' qualifications are the same as case managers.

Case Manager and Case Manager Supervisor Qualifications: Must meet the following:

1. Bachelor or Master Degree in social work from a program accredited by the Council on Social Work Education; or
2. a currently licensed registered nurse (RN); or
3. a bachelor or master degree in a human service field which includes; psychology, education, counseling, social services, sociology, philosophy, family and consumer sciences, criminal justice, rehabilitation services, child development, substance abuse, gerontology, and vocational rehabilitation; or
4. a bachelor in liberal arts or general studies with a concentration of at least 16 hours in a human service field which includes; psychology, education, counseling, social services, sociology, philosophy, family and consumer sciences, criminal justice, rehab services, child development, substance abuse, gerontology, and vocational rehabilitation

Case Management Supervisor qualifications include an additional two years of paid post degree experience in providing case management services.

1. a bachelor's or master's degree in social work from a program accredited by the Council on Social Work Education and two years of paid post degree experience in providing support coordination services; or
2. a currently licensed registered nurse with at least two years of paid nursing experience; or
3. a bachelor's or master's degree in a human service related field which includes psychology, education, counseling, social services, sociology, philosophy, family and consumer sciences, criminal justice, rehabilitation services, child development, substance abuse, gerontology, and vocational rehabilitation and two years of paid post degree experience in providing support coordination services; or
4. a bachelor's degree in liberal arts or general studies with a concentration of at least 16 hours in one of the fields listed in #3 and two years of paid post degree experience in providing support coordination services.

All training as identified and mandated by LDH is required in addition to the following: Orientation and Training for New Employees

New Staff Orientation

Orientation of at least sixteen (16) hours must be provided to all staff, volunteers, and students within five (5) working days of employment

A minimum of eight (8) hours of the orientation training must cover orientation to the target population including, but not limited to, specific service needs and resources

This orientation must include, at a minimum the following: Case Management Provider policies and procedures Medicaid and other applicable DHH policies and procedures Confidentiality
Documentation in case records
Participant rights protection and reporting of violations Participant abuse and neglect reporting policies and procedures
Recognizing and defining abuse and neglect
Emergency and safety procedures Data management and record keeping
Infection control and universal precautions Working with the target or waiver populations Professional ethics
Outcome measures

Training for New Staff

In addition to the required sixteen (16) hours of orientation, all new employees with no documented training must receive an additional minimum sixteen (16) hours of training during the first ninety (90) calendar days of employment

Training must be related to the target or waiver populations to be served and include specific knowledge, skills, and techniques necessary to provide case management to the target or waiver populations

Training must be provided by an individual with demonstrated knowledge of both the training topics and the target or waiver populations

This training must include at a minimum the following: Assessment techniques

Support and service planning

Support and service planning for people with complex medical needs, including information on bowel management, aspiration, decubitus, nutrition

Resource identification Interviewing and interpersonal skills

Data management and record keeping Cultural awareness

Personal outcome measures

A new employee may not be given case management responsibility until the orientation is satisfactorily completed.

NOTE: Routine supervision may not be considered training.

Annual Training

It is important for case managers to receive continuing training to maintain and improve skills. Each case manager must satisfactorily complete twenty (20) hours of case-management related training annually which may include training updates on subjects covered in orientation and initial training. Case managers' annual training year begins with the date of hire.

The sixteen (16) hours of training for new staff required in the first ninety (90) days of employment may be part of the twenty (20) hour minimum annual training requirement. Appropriate updates of topics covered in orientation and training for a new case manager must be included in the required twenty (20) hours of annual training.

The following is a list of suggested additional topics for training: Nature of illness or disability, including symptoms and behavior Pharmacology

Potential array of services for the population Building natural support systems

Family dynamics Developmental life stages Crisis management

First Aid/CPR

Signs and symptoms of mental illness, alcohol and drug addiction, intellectual/developmental disabilities and head injuries

Recognition of illegal substances Monitoring techniques Advocacy

Behavior management techniques. Values clarification/goals and objectives Available community resources Accessing special education services Cultural diversity

Pregnancy and prenatal care Health management

Team building/interagency collaboration Transition/closure

Age and condition-appropriate preventive health care Facilitating team meetings

Computers

Stress and time management Legal issues

Outcome measures Person-centered planning

Self-determination or recipient-directed services

Universal Precaution Training

Training for Supervisors

Each case management supervisor must complete a minimum of forty (40) hours of training a year. In addition to the required and suggested topics for case managers, the following are suggested topics for supervisory training:

- Professional identification/ethics
- Process for interviewing, screening, and hiring of staff
- Orientation/in service training of staff
- Evaluating staff
- Approaches to supervision
- Managing caseload size
- Conflict resolution
- Documentation
- Time management

Category 4:**Sub-Category 4:****Service Definition (Scope):**

Supported Employment - Individual

Individual Employment support services are the ongoing supports provided to beneficiaries who, because of their disabilities, need intensive on- going support to obtain and maintain an individual job in competitive or customized employment or self- employment in an integrated work setting in the general workforce for which an individual is compensated at or above the minimum wage but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities.

The outcome of this service is sustained paid employment in an integrated setting in the general workforce in the community in a job that meets personal and career goals. May also include support to establish or maintain self-employment, including home based self-employment.

Supported employment services may include any combination of the following services: vocational/job related discovery or assessment, person centered employment planning, job placement, job development, negotiation with prospective employers, job analysis, job carving, training and systematic instructions, job coaching, benefits support, training and planning, transportation, asset development, and career advancement services, and other workplace support services including services not specifically related to job skill training that enable the waiver beneficiary to be successful in integrating into the job setting.

Beneficiaries who have the most significant disabilities may also need long-term employment supports to successfully maintain a job due to the ongoing nature of the waiver beneficiary's support needs, changes in life situations or evolving and changing job responsibilities and where natural supports would not meet this need.

SE individual employment supports does not include volunteer work.

SE individual employment supports does not include facility based or other types of vocational services furnished in specialized facilities that are not a part of the general work place.

Virtual Individual SE Follow-along Services are delivered in a 1:1 ratio. These services are delivered based on the already determined amount of follow along services necessary for the individual to maintain their employment. There is not a predetermined percentage of time that virtual services will occur as this is an individual choice. Virtual delivery of one to one Ongoing Supported Employment Follow Along is based on the beneficiary's needs for what is required to support the beneficiary on the job.

In-person visits are required in the following circumstances as outlined:

- An initial assessment of beneficiary, job site,
- Discussion of HIPAA compliance prior to beginning virtual services

VIRTUAL DELIVERY:

Specific circumstances should be present for Virtual follow-along services to occur and those circumstances are defined in the OCDD Policy and Procedures manual.

In all circumstances, the employer/supervisor and the individual must be in agreement with a virtual visit and if the individual needs a means to conduct the virtual visit, the employer/supervisor must be willing to assist the individual in doing a virtual visit if the individual requires assistance. The visit should be coordinated with the employer/supervisor and the individual.

Providers will receive written instructions on the delivery of virtual services based on the HIPAA compliance officer's instructions.

When using virtual delivery, providers are expected to follow these guidelines:

- Confidentiality still applies for services delivered through virtual delivery. The session must not be recorded without consent from the beneficiary or authorized representative.
- Develop a back-up plan (e.g., phone number where beneficiary can be reached) to restart the session or to reschedule it, in the event of technical problems.
- Develop a safety plan that includes at least one emergency contact and the closest ER location, in the event of a crisis.
- Verify beneficiary's identity, if needed.
- Providers need the consent of the beneficiary and the beneficiary's parent or legal guardian (and their contact information) prior to initiating a telemedicine/telehealth service with the beneficiary if the beneficiary is 18 years old or under.
- The beneficiary must be informed of all persons who are present and the role of each person.
- Beneficiaries may refuse services delivered through telehealth.
- It is important for the provider and the beneficiary and the employer to be in a quiet, private space that is free of distractions during the session.

Providers will ensure that beneficiaries understand the guidelines for participation in a virtual service delivery, HIPAA and the use of the technology. Written instructions and guidelines will be provided to each beneficiary.

Beneficiaries and employer will be instructed on the following:

- finding a space that allows for privacy while participating in the virtual delivery of the service
- to turn the camera off and mute the session if the beneficiary leaves the room while participating in the session, or if someone who is not part of the session enters the room
- how to utilize the technology required to participate in the virtual delivery of this service, including how to utilize the specific format, signing in and out etc. The provider will also provide written instructions to the beneficiary.

- Schedule the delivery of services
- Directions if job coach is needed expectantly

The beneficiary's need for hands on/ physical assistance on the job will already be established and therefore if the beneficiary requires hands on assistance, someone will be present to provide assistance to the beneficiary. If the need for virtual delivery of job coaching services arises, a process will be in place with the support worker and the job coach in order for the beneficiary to receive the assistance required on the job but that both services will not be billed at the same time.

Requirements for virtual visits include:

- Must utilize some type of format that allows for face to face interaction
- Must be approved by LGE or OCDD State Office
- Utilize the Virtual Supported Employment Follow-along Services Report
- This service cannot be utilized at the same time another service

Individual Supported Employment is broken down into the following categories:

Work-based Learning Experience, Job Development and Placement, Initial Job Support and Stabilization, Extended job Support and Follow Along Supports which may be delivered virtually.

Supported Employment-Group:

Services and training activities provided in regular business, industry, and community settings for groups of ratios of 1:5-8. SE group must be provided in a manner that promotes integration into the workplace and interaction between beneficiaries and people without disabilities in those workplaces.

The outcome of this service is sustained paid employment and work experience leading to further career development and individual integrated community-based employment.

At any time an individual can decide to pursue individual employment and leave group employment.

An individual can participate in the Community Career Planning service to further explore interest to pursue individual community employment.

Personal care/assistance may be a component part of supported employment small group employment support services, but may not comprise the entirety of the service.

Group employment does not include vocational services provided in facility based work settings.

Group employment does not include volunteer work.

Transportation is a separate billing component of Group Employment Services. However All transportation costs for travel between job sites are included in the reimbursement for group employment support.

Group Employment Services may also receive other services but these services cannot be provided in the same period of the day.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Individual SE services are delivered in a 15 minute increment with the exception of assessment and follow along services which are delivered in a per diem.

All individual SE services are delivered in a 1:1 ratio

Group Employment services are delivered in a 1:5-8 ratio.

Group Employment services are delivered in 15 minute increments.

Beneficiaries receiving Individual Supported Employment Services and/or Group Employment services may receive other services on the same day but these services cannot be provided during the same time period of the day with the exception of Community Life Engagement Development.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Individual SE services are delivered in a 15 minute increment with the exception of WBLE which is fee for service and in

person follow along services which are delivered in a per diem.

All individual SE services are delivered in a 1:1 ratio

Group Employment services are delivered in a 1:5-8 ratio.

Group Employment services are delivered in 15 minute increments.

Beneficiaries receiving Individual Supported Employment Services and/or Group Employment services may receive other services on the same day but these services cannot be provided during the same time period of the day with the exception of Community Life Engagement Development .

There must be documentation in the Participant's file that group employment services are not available from programs funded under section 110 of the Rehabilitation Act of 1973 or the Individuals with Disabilities Education Act (20 U.S.C. 1401 et seq.) if it applies.

HCBS Taxonomy:

Category 1:

Sub-Category 1:

Category 2:

Sub-Category 2:

Category 3:

Sub-Category 3:

Category 4:

Sub-Category 4:

Service Definition (Scope):

Assistive Technology/Specialized Medical Equipment and Supplies service includes specialized devices, controls, or appliances which enable a beneficiary to increase his/her ability to perform activities of daily living, ensure safety, and/or to perceive, control, and communicate within his/her environment. This service also includes medically necessary durable and non-durable equipment not available under the Medicaid State Plan and repairs to such items and equipment necessary to increase/maintain the independence and well-being of the beneficiary. All equipment, accessories and supplies must meet all applicable manufacture, design and installation requirements. The services under the (waiver) are limited to additional services not otherwise covered under the state plan.

This service includes:

1. Specialized Medical Equipment and Supplies includes items necessary for life support or to address physical conditions along with ancillary supplies and equipment necessary to the proper functioning of such items. These are items of direct remedial benefit to the individual which are not covered under State Plan;
2. Technology Supports, which may include remote features, is a service intended to increase the individual's ability to perform activities more independently in their home, at their job, traveling around their community and/or communicating with others. The service may include equipment and applications that are used to support an individual remotely and increase their safety, independence and control. A remote technology service and support fee may be accessed if needed. An assessment or consult is required for Technology Supports to ensure the appropriate technology is provided;
3. Incontinence products are available to beneficiaries, age 21 years and older, such as incontinence briefs and other incontinence related items as defined in state policy. Supports provided by this service will allow the beneficiary to improve and maintain their ability to remain engaged in community related activities. This service is intended to be a supplement for incontinence supplies.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Services unit is determined per services based on budget limits.

All request over \$20,000 must be reviewed by State Office.

Specialized Medical Equipment and Technology Supports with Remote Features. Excluded are those specialized equipment and supplies that are not of direct medical or remedial benefit to the beneficiary and/or those items that are available under Medicaid State Plan. Support coordinators shall pursue and document all alternate funding sources that are available to the beneficiary before submitting a request for approval to purchase or lease specialized medical equipment and supplies or Technology Supports with Remote Features.

Incontinence products are capped at \$2500.00 per Plan of Care (POC) year per beneficiary. If the beneficiary requires additional incontinence products beyond the \$2500.00 limit, the support coordinator will assist the individual in obtaining the supplies needed through other funding sources. This budget limit is separate from the Specialized Medical Equipment and Supplies/Technology Supports budget.

Financial Management Services (FMS) are provided by a Medicaid enrolled Fiscal Employer Agency. The Fiscal Employer Agency (FEA) is the fiscal agent that assures financial accountability for self-direction services.

FMS is provided to participants who have chosen and are capable of self-directing his/her waiver services. FMS assists the participant to live independently in the community while controlling his/her services by choosing the staff who work with him/her. FMS must be included and prior authorized in his/her approved plan of care prior to participation in self-direction.

The FEA is to assist participants and direct support workers in enrolling with the FEA provider and training participants and staff regarding self-direction activities and processes. The FEA provider is to assist the participant in understanding billing and documentation requirements. The FMS provider must ensure a state approved EVV system is successfully in place and operational prior to services being initiated.

The FEA provider is to perform the employer responsibilities of payroll processing which includes: issuance of paychecks; withholding federal, state and local tax and making tax payments to the appropriate tax authorities; issuance of W-2 forms; and meeting worker's compensation insurance requirements. The FEA provider is responsible for performing all fiscal accounting procedures including issuance of expenditure reports to the member, his/her representative, Louisiana Department of Health. The FEA provider must maintain a separate account for each participant while continually tracking and monthly reporting of funds, disbursements and the balance of the participant's service units. The FEA provider must have customer service available in order to assist participants and direct support workers with complaints/issues and to address questions regarding self-direction. The FEA provider must comply with all requirements included in the Fiscal Employer Agency Readiness Review and Performance Agreement.

Participant responsibilities include functioning as the employer for his/her direct support worker(s) or designate a representative to manage/assist with management of direct support workers; hire direct support workers and refer them to the FEA provider for completion of enrollment requirements; establish the wage/rate of pay for each direct support worker; provide or arrange for appropriate orientation and training of direct support workers; determine direct support worker schedules, determine tasks to be performed as indicated in the plan of care; manage and supervise the day-to-day work activities of the direct support staff, verify time worked by direct support workers and that services were delivered in accordance to his/her plan of care, assure utilization of the EVV system to capture the time worked by each direct support worker, and other documentation required by the state and by CMS (The EVV system will indicate the actual hours worked in accordance with his/her approved plan of care); completion of required documents needed by the FEA for processing and payment in accordance with established FEA, State, and Federal requirements; report work-related injuries incurred by the DSW(s) to the FEA provider; develop an emergency plan and a worker back-up plan; assure all appropriate service documentation is recorded as required by the State; inform the FEA of any changes in the status of direct support workers,

including, but not limited to changes of address or telephone number inform the FEA of the dismissal of a direct support worker inform the FEA of any changes in the status of the participant or participant's representative, such as the participant's address, telephone number, email address within three (3) working days; participate in required quality assurance visits/oversight with the participant's support coordinator, or other Federal and State authorized reviewers/auditors.

Payment for FMS will be reimbursed via a monthly PMPM rate.

This service is not duplicative with other waiver services.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Each participant is limited to one unit of FMS a month.

Financial Management Services must be prior authorized.

Service Definition (Scope):

Community Life development should be utilized for the purpose of development of opportunities to assist individuals in becoming involved in their community and helping to develop a meaningful day for each individual. The purpose is to encourage and foster the development of meaningful relationships and memberships in the community, reflecting the person's choices and values. This service will be person-centered with an outcome of increased community activities and involvement in areas of interest as expressed by the individual. This should include church involvement, civic involvement, volunteering opportunities, as well as recreational activities. The activities should be integrated with the community and not segregated groups.

The role of the Community Life Engagement Developer (CLED) should be to develop individual activities, memberships and volunteer positions within the individual's community based off each individual's person centered plan and expressed interests and desires.

Transportation cost is included in the rate paid to the provider.

To utilize this service, the beneficiary may or may not be present.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

This service can be billed at the same time the beneficiary is receiving a day or employment service.

Service Definition (Scope):

Community Living Supports is defined as a service provided directly to beneficiaries in their residence or community to achieve and/or maintain the outcomes of increased independence, productivity, enhanced family functioning, provide relief of the caregiver, and inclusion in the community.

This service may be shared by up to three beneficiaries who may or may not live together and who have a common direct service provider agency, however sharing supports must be agreed to by all beneficiaries and their health and welfare can be assured.

Beneficiaries may share a DSW across waivers with the same service type.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

All family members living in the home with the beneficiary are allowed to be a DSW staff if they meet the requirements as outlined in state policies. However, hours will be capped at 40 hours per week Sunday to Saturday per person who lives in the same home with the beneficiary.

May not be billed at the same time on the same day as:

Transportation-Community Access

Day Habilitation

Prevocational Services

Service Title:

Companion Care

HCBS Taxonomy:

Category 1:**Sub-Category 1:****Category 2:****Sub-Category 2:****Category 3:****Sub-Category 3:****Category 4:****Sub-Category 4:****Service Definition (Scope):**

Companion Care services provide personal care and supportive services to a beneficiary who resides as a roommate with his/her caregiver. Companion Care services provide supports to assist the beneficiary in achieving and/or maintaining increased independence, productivity, and community inclusion as identified in the beneficiary's Plan of Care.

Companion Care providers assist the beneficiary in locating an appropriate companion who will be compatible with the beneficiary. The companion is a contracted employee of the provider agency and is paid as such by the provider. The provider assists in the development of an agreement between the beneficiary and companion. The agreement defines all shared responsibilities between the beneficiary and companion including a typical weekly schedule. This agreement becomes a part of the beneficiary's Plan of Care. Revisions to this agreement must be facilitated by the provider and approved as part of the beneficiary's Plan of Care following the same process as would any revision to a Plan of Care. Revisions can be initialized by the beneficiary, the companion, the provider, or a member of the beneficiary's support team.

The provider is responsible for providing 24 hour oversight, back-up staff, and companion supervision. The provider must provide relief staff for scheduled and unscheduled absences, available for up to 360 hours (15 days) per Plan of Care year. The Companion Care provider's rate includes funding for relief staff for scheduled and unscheduled absences.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Companion Care services are not available to participants under the age of 18.

Payment will not be made for:

- Community Living Supports
- Shared Living
- Host Home
- Respite Care Services-Out of Home
- Transportation-Community Access
- Monitored in home caregiving (MIHC)

Skilled Nursing is only available under home health services but not as a waiver service.

Payment does not include room and board or maintenance, upkeep and improvement of the participants or providers property.

Transportation to and from vocational programs are to be billed by the vocational provider as this is included in the specific vocational service.

Service Title:

Environmental Accessibility Adaptations

HCBS Taxonomy:

Category 1:

Sub-Category 1:

Category 2:

Sub-Category 2:

Category 3:

Sub-Category 3:

Category 4:

Sub-Category 4:

Service Definition (Scope):

Environmental Accessibility Adaptations include physical adaptations to the beneficiary's home or vehicle which are necessary to ensure health, welfare and safety to the beneficiary, or which enable the beneficiary to function with greater independence, without which the beneficiary would require additional supports or institutionalization. Environmental Adaptations must be specified in the beneficiary's Plan of Care and may require an assessment by an Environmental Adaptation Assessor or other professional to ensure the modification meets the needs of the beneficiary.

Home Adaptations pertain to modifications that are made to a beneficiary's primary residence. Such adaptations to the home may include bathroom modifications, non-portable ramps, and other adaptations to make the home accessible to the beneficiary. The service must be for a specific approved adaptation.

Vehicle adaptations pertain to modifications that are made to a vehicle which is the beneficiary's primary means of transportation. Such adaptations to the vehicle may include a lift, or other adaptations to make the vehicle accessible to the beneficiary or for the beneficiary to drive. Vehicle adaptations may include the performance of necessary assessments to determine the type(s) of necessary modifications. The service must be for a specific approved adaptation.

Adaptations to home and vehicle include the following:

- Training the beneficiary and provider in the use and maintenance of the Environmental Adaptation(s)
- Repair of equipment and or devices, including battery purchases for vehicle lifts and other reoccurring replacement items that contribute to the ongoing maintenance of the approved adaptation(s) and
- Standard manufacturer provided service contracts and warranties
- Modifications may be applied to rental or leased property with the written approval of the landlord and approval of the LGE.

All Environmental Accessibility Adaptations to home and vehicle must meet all applicable standards of manufacture, design and installation.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Services unit is determined per services based on budget limits. All requests over \$20,000 must be reviewed by State Office.

Home adaptation exclusions:

Not intended to cover basic construction cost. May not include modifications which add to the total square footage of the home except when the additional square footage is necessary to make the required adaptations function appropriately. (For example, if a bathroom is very small and a modification cannot be done without increasing the total square footage, this would be considered as an approvable cost). When new construction or remodeling is a component of the service, payment

for the service is to only cover the difference between the cost of typical construction and the cost of specialized construction.

May not include modifications to the home which are of general utility and not of direct medical or remedial benefit to the participant (i.e., flooring, roof repair, central air conditioning, hot tubs, swimming pools, exterior fencing, general home repair, maintenance, etc).

May not be furnished to adapt living arrangements that are owned or leased by paid caregivers or providers of waiver services; and

Service warranties and contracts above those provided by the manufacturer at the time of purchase (e.g. extended warranties, extended service contracts)

Vehicle adaptation exclusions:

Modifications which are of general utility and are not of direct medical or remedial benefit to the participant; Purchase or lease of a vehicle;

Regularly scheduled upkeep and maintenance of a vehicle except upkeep and maintenance of the modifications; Car seats; and

Service warranties and contracts above those provided by the manufacturer at the time of purchase (e.g. extended warranties, extended service contracts)

Service Delivery Method (check each that applies):

Environmental Modification Agency

Provider Qualifications

License (specify):

Home Adaptations:

Current license from the State Licensing Board of Contractors for any of the following building trade classifications:

- General Contractor
- Home Improvement
- Residential Building

Or

If a current Louisiana Medicaid provider of Durable Medical Equipment, documentation from the manufacturing company (on their letterhead) that confirms the provider is an authorized distributor of a specific product that attaches to a building.

Letter must specify the product and state that the provider has been trained on its installation.

Vehicle Adaptations:

Current License as a Specialty Vehicle Dealer with accreditation for Structural Vehicle Modifier in state of licensure.

All Environmental Adaptations providers must comply with all applicable Local (City or Parish) Occupational License(s).

Certificate (*specify*):

Other Standard (*specify*):

All Environmental Adaptation providers must meet any state or local requirements for licensure or certification, as well as the person performing the service (i.e., building contractors, plumbers, electricians, engineers, etc.). When state and local building or housing code standards are applicable, modifications to the home shall meet such standards and all services shall be provided in accordance with applicable State or local requirements.

License for Assessor:

An assessor must have, either through their own attainments or by contracting with other professionals:

1. Clinical expertise - licensed clinical personnel (i.e. physical therapist, occupational therapist, rehabilitation engineer, etc.).

AND

2. Construction expertise - meet the requirements of EAA contractor (described below).

AND

3. Specialized certification – either the clinical or construction expert must have a specialized certification in Home Modification. Specialized certification in Home Modification may consist of a supplemental certification through a licensed clinical professional's respective board, or, for the contractor, a comparable certification.

NOTE: Examples of acceptable certifications include, but are not limited to: Certified Aging in Place Specialist (CAPS), Executive Certificate in Home Modifications, Certified Environmental Accessibility Environmental Access Consultant (C.E.A.C).

Assessors are not allowed to be the contractor of the service.

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Host Home

HCBS Taxonomy:**Category 1:****Sub-Category 1:****Category 2:****Sub-Category 2:****Category 3:****Sub-Category 3:****Category 4:****Sub-Category 4:****Service Definition (Scope):**

Host Home services are personal care and supportive services provided to a participant who lives in a private home with a family who is not the participant's parent, legal representative, or spouse. Host Home Families are a stand-alone family living arrangement in which the principle caregiver in the Host Home assumes the direct responsibility for the participant's physical, social, and emotional well-being and growth in a family environment. Host Home services are to take into account compatibility with the Host Home Family members including age, support needs, privacy needs.

If the participant is a child, the Host Home Family is to provide the supports required to meet the needs of a child as any family would for a minor child. Support needs are based on the child's age, capabilities, health, and special needs. A Host Home Family can provide compensated supports for up to two participants, regardless of the funding source.

Host Home services include assistance with personal care, leisure activities, social development, family inclusion, and community inclusion. Natural supports are also encouraged and supported when possible. Supports are to be consistent with the participant's skill level, goals, and interests.

Host Home Provider:

Ensure availability, quality and continuity of Host Home services

Arrange, train, and oversee Host Home services (Host Home Family)

Have 24 hour responsibility which includes back-up staffing for scheduled and unscheduled absences of the Host Home Family for up to 360 hours (15 days) as authorized by the participant's Plan of Care.

Relief staffing may be provided in the participant's home or in another Host Home Family's home.

Host Home Family:

Must attend participant's Plan of Care meeting and participate including providing information needed in the development of the plan

Must follow all aspects of the participant's Plan of Care and any support plans

Must assist the participant in attending appointments (i.e., medical, therapy, etc.)

Must provide transportation as would a natural family member

Must maintain participant's documentation

Must follow all requirements for staff as in any other waiver service

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Children eligible for Title IV-E services are not eligible for Host Home services.

Payment will not be made for services provided by a relative who is a:

Parent(s) of a minor child;

Legal guardian of an adult or child with developmental disabilities;

Parent(s) for an adult child regardless of whether or not the adult child has been interdicted;

or Spouse

Payment will not be made for services provided by a relative who is a:

Payment does not include room and board or maintenance, upkeep and improvement of the Host Home Familys residence. Environmental Adaptations are not available to participants receiving Host Home services since the participants place of residence is owned or leased by the Host Home Family.

Payment will not be made for:

Community Living Supports
Companion Care
Shared Living
Respite Care Services-Out of Home
Transportation-Community Access
One-Time Transition Services or Monitored in Home Care giving (MIHC)

Housing Stabilization Service

HCBS Taxonomy:

Category 1:

Sub-Category 1:

Category 2:

Sub-Category 2:

Category 3:

Sub-Category 3:

Category 4:

Sub-Category 4:

Service Definition (Scope):

Housing Stabilization Service enables waiver participants to maintain their own housing as set forth in the participant's approved plan of care (POC). Services must be provided in the home or a community setting. The service includes the following components:

1. Conduct a housing assessment identifying the participant's preferences related to housing (type, location, living alone or

with someone else, accommodations needed, other important preferences) and needs for support to maintain housing (including access to, meeting terms of lease, and eviction prevention), budgeting for housing/living expenses, obtaining/accessing sources of income necessary for rent, home management, establishing credit and understanding and meeting obligations of tenancy as defined in lease terms.

2. Assist participant to view and secure housing as needed. This may include arranging or providing transportation. Assist participant to secure supporting documents/records, completing/submitted applications, securing deposits, locate furnishings.

3. Develop an individualized housing stabilization service provider plan based upon the housing assessment that includes short and long-term measurable goals for each issue, establishes the participant's approach to meeting the goal, and identifies where other provider(s) or services may be required to meet the goal.

4. Participate in the development of the plan of care, incorporating elements of the housing stabilization service provider plan. Participate in plan of care renewal and updates as needed.

5. Provide supports and interventions per the individualized housing stabilization service provider plan. If additional supports or services are identified as needed outside the scope of Housing Stabilization Services, communicate the needs to the Support Coordinator.

6. Communicate with the landlord or property manager regarding the participant's disability, accommodations needed, and components of emergency procedures involving the landlord or property manager.

7. If at any time the participant's housing is placed at risk (eg., eviction, loss of roommate or income), Housing Stabilization Services will provide supports to retain housing or locate and secure housing to continue community based supports including locating new housing, sources of income, etc.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Available only to participants who:

- Are residing in a State of Louisiana Permanent Supportive Housing unit or
- Are linked for the State of Louisiana Permanent Supportive Housing selection process

Limited to:

- No more than 165 combined units of this service and the Housing Stabilization Transition service (units can only be exceeded with written approval from OCDD)

Nurse Consult

HCBS Taxonomy:**Category 1:****Sub-Category 1:****Category 2:****Sub-Category 2:****Category 3:****Sub-Category 3:****Category 4:****Sub-Category 4:****Service Definition (Scope):**

Nurse Professional Services assist paid caregivers and paid support staff in carrying out individual treatment and support plans, not covered by the Medicaid state plan, and are necessary to improve the individual's independence, integration and quality of life in their community.

A registered nurse, or a licensed practical nurse under the supervision of a Registered nurse, licensed to practice in the State of Louisiana, must provide this service.

This service may be delivered in the beneficiary's home and/or in the community as described in the service plan. This service shall be provided in person, virtually or via telehealth as deemed appropriate by the professional nurse.

This service is available to beneficiaries 21 and over in the New Opportunities Waiver (NOW) and the Residential Options Waiver (ROW) who do not live with natural supports and are unable to self-administer their own medication, and require an RN delegation for medication administration.

Services Exclusion:

- RN/LPN will not provide direct medical care.
- Nurse professional Service cannot be provided in a hospital, nursing facility, ICF-IDD facility or licensed medical facility.
- Nurse professional Service cannot be provided in a Licensed Respite Facility.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Services are capped at \$750 per beneficiary, per Plan of Care year.

HCBS Taxonomy:**Category 1:****Sub-Category 1:****Category 2:****Sub-Category 2:****Category 3:****Sub-Category 3:****Category 4:****Sub-Category 4:****Service Definition (Scope):**

One Time Transitional Services are non-reoccurring set-up expenses to assist a participant who is moving from an institutional setting to their own home.

One-Time Transitional Services may be accessed for the following:

- Non-refundable security deposit;
- Utility deposits;
- Bedroom furniture;
- Living room furniture;
- Table and chairs;
- Window blinds;
- Kitchen items (i.e., food preparation items, eating utensils, etc);
- Moving expenses; and

Health and safety assurances (i.e., pest eradication, one-time cleaning prior to occupancy, etc.).

The participants support coordinator assists in accessing funds and making arrangements in preparation for moving into the residence.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

There is a one-time, life time maximum service of \$3,000 per participant. Service expenditures will be prior authorized and tracked by the prior authorization contractor.

One Time Transitional Services may not be used to pay for furnishings or setting up living arrangements that are owned or leased by a waiver provider.

Security deposits are not to include rental payments.

Sub-Category 4:

Service Definition (Scope):

Personal Emergency Response System service is an electronic device connected to the participants phone which enables him/her to secure help in an emergency. The service also includes an option in which the participant would wear a portable help button. The device is programmed to emit a signal to the Personal Emergency Response System Response Center where trained professionals respond to the participants emergency situation.

Personal Emergency Response System service is most appropriate for participants who are able to identify when they are in an emergency situation and are then able to activate the system requesting assistance. This service would be beneficial to participants who are unable to summon assistance by dialing 911 or other emergency services available to the general public.

Installation, participant training, a monthly monitoring fee, and the cost of maintenance are included in the Personal Emergency Response System service. Cell phone service is not included and is not a covered waiver service. In addition to the current system that plugs into a landline, a system that uses cellular service may be used and the landline is not required; this system will have a fall detection pendant.

Enhance Services- Mobile Emergency Response System (MERS) an on-the go mobile medical alert system, used in and outside the home.

This system will have cellular/GPS technology, two-way speakers and no base station will be required.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Not available to participants who receive 24 hour direct care supports.

Providers must comply with all applicable federal, state, county (parish) and local laws and regulations and meet manufacturers specifications, response requirements, maintenance records, and enrollee education. The providers Response Center shall be staffed by trained professionals.

Qualifications for staff working in the response centers: Emergency Medical Dispatcher

The Emergency Medical Dispatcher is a professional telecommunicator who will fill a number of critical functions, including the identification of basic call information, including the location and telephone number of the caller, the location of the patient, the general nature of the problem, and any special circumstances. The Emergency Medical Dispatcher will then use an approved set of protocols to provide first aid and pre-arrival assistance and instructions by voice to the subscriber and/or bystander prior to the arrival of Emergency Medical Services.

Category 1:

Sub-Category 1:

Category 2:

Sub-Category 2:

Category 3:

Sub-Category 3:

Category 4:

Sub-Category 4:

Service Definition (Scope):

Professional services include nutritional services, speech therapy, occupational therapy, physical therapy, social work, and psychological services which assist the participant, unpaid caregivers, and/or paid caregivers in carrying out the participant's approved plan and which are necessary to improve the participant's independence and inclusion in his/her community.

Professional Services are direct services to participants and are based on the participant's need. The participant must be present in order for the professional to bill for services. All services are to be included in the participant's Plan of Care. The specific service provided to a participant must be within the professional's area of specialty and licensing.

Professional Services can include:

- Assistance in increasing independence, participation and productivity in the participant's home, work and/or community environments

- Assessments and/or re-assessments specific to the area of specialty with the goal of identifying status and developing recommendations, treatment, and follow-up

- Providing information to the participant, family, caregivers, along with other support team members to assist in planning, developing, and implementing a participant's Plan of Care

- Providing consultative services and recommendations as the need arises

- Providing training to the participant, family, and caregivers with the goal of increased skill acquisition and proficiency.

- Providing therapy to the participant necessary to the development of critical skills

- Intervening in a crisis situation with the goal of stabilizing and addressing issues related to the cause(s) of the crisis; activities may include development of support plan(s), training, documentation strategies, counseling, on-call supports; back-up crisis supports, on-going monitoring and intervention

- Providing training and counseling services for natural supports and caregivers in a home setting with the goal of developing and maintaining healthy, stable relationships.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Private Insurance must be billed and exhausted prior to accessing waiver funds.

Children must access and exhaust services through EPSDT prior to accessing waiver funds.

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Skilled Nursing

HCBS Taxonomy:**Category 1:**

Sub-Category 1:

Category 2:**Sub-Category 2:****Category 3:****Sub-Category 3:****Category 4:****Sub-Category 4:****Service Definition (Scope):**

Skilled Nursing services are medically necessary services and supports provided to a beneficiary that can only be provided by a registered nurse, or a licensed practical nurse under the supervision of a registered nurse, licensed to practice in the State of Louisiana.

In order to receive skilled nursing services, the following must be included in the request in the beneficiary's Plan of Care:

- Authorized Healthcare provider order,
- Authorized Healthcare provider letter of medical necessity,
- Individual nursing service plan and
- Summary of medical history and

An approval from the LDH Medical Director is required for over 12 hours a day of skilled nursing services

The beneficiary's nurse must submit updates to the nursing plan of care in accordance with licensing rules.

Assessments services are offered on an individualized basis only and must be performed by a Registered Nurse.

Health related training and education service is the only nursing procedure which can be provided to more than one participant simultaneously

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Beneficiary must access and exhaust all available Medicaid State Plan services prior to accessing ROW Nursing services.

- All requests for over 12 hours of skilled nursing per day must be reviewed and approved by the LDH Medical Director. The LGE Staff can approve up to 12 hours per day of Skilled Nursing services.
- Skilled nursing is only provided to beneficiaries age 21 and over. All medically necessary skilled nursing services for beneficiaries under the age of 21 are covered in the state plan pursuant to the EPSDT benefit.

Adults have access only to Home Health nursing services under Medicaid State Plan. Beneficiaries must access and exhaust all available Medicaid State Plan services prior to accessing ROW Skilled Nursing services.

- ☐ **As a primary care case management system service under a concurrent managed care authority.** Complete

item C-1-c.

- ☐ As a Medicaid state plan service under section 1945 and/or section 1945A of the Act (Health Homes Comprehensive Care Management). Complete item C-1-c.

c. Delivery of Case Management Services. Specify the entity or entities that conduct case management functions on behalf of waiver participants and the requirements for their training on the HCBS settings regulation and person-centered planning requirements:

d. Remote/Telehealth Delivery of Waiver Services. Specify whether each waiver service that is specified in Appendix C-1/C-3 can be delivered remotely/via telehealth.

No services selected for remote delivery

Appendix C: Participant Services

C-2: General Service Specifications (1 of 3)

a. Criminal History and/or Background Investigations. Specify the state's policies concerning the conduct of criminal history and/or background investigations of individuals who provide waiver services (select one):

- ☐ No. Criminal history and/or background investigations are not required.
- ☒ Yes. Criminal history and/or background investigations are required.

Specify: (a) the types of positions (e.g., personal assistants, attendants) for which such investigations must be conducted; (b) the scope of such investigations (e.g., state, national); and, (c) the process for ensuring that mandatory investigations have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid or the operating agency (if applicable):

In accordance with Home and Community Based Services Provider Licensing Standards-LAC 48:1, Chapter 50, 1500-1532 and Louisiana R.S. 40:1300.52, criminal history/background checks are conducted on all unlicensed persons. The background checks are not conducted by the operating agency, but are done by the Louisiana State Police (LSP) or their authorized agent. A state wide check is performed.

The Louisiana State Police (LSP), or the LSP designee companies they recognize as competent, perform the actual criminal history/background checks and security check on the individual.

New employee background checks/security checks are reviewed by Health Standards Section during licensing and monitoring reviews.

All persons who provide direct waiver services for children and adults who have disabilities are monitored by Health Standards Section for compliance with applicable laws as follows:

Childrens Code Title VI, Chapter 1, Article 601-606 and Title VI, Chapter 5, Article 609-611;

LA. R.S. 14:403, abuse of children;

LA R.S. 14:403.2 XI-B; abuse and neglect of adults (includes disabled adults); and

LA R.S. 40:1300.53, Criminal History Checks on Non-licensed Persons and Licensed Ambulance Personnel The LA R.S. 40:1300.52 statute were redesignated by HCR 84 Act 816 of the 2015 Regular Legislative Session as LA R.S. 40-1203.3 and LA R.S. 40-1203.2 respectively. These statutes require the criminal background check to include a security check. The security check will search the national sex offender public registry. All direct support provider agencies are encouraged to become familiar with, and have on hand, the above mentioned statutes as a reference when hiring.

ACT 816 finalized in 6/30/2006 added security checks for identification of sex offenders & authorized release of potential employees results to the employer.

ACT 35 finalized in 6/15/2009 prohibited providers hiring any staff with a conviction for a list of 17 crimes (non-waivable offenses).

Home & Community-Based Services Providers Minimum Licensing Standards (LAC 48: I Chapter 50) December 20, 2017. This HCBS Licensing rule includes:

- o Criminal background checks and sex offender checks to be done on the owners and continued for all other non-licensed employees who provide personal care or other services and supports to persons with disabilities or the elderly.

- o Includes providers being prohibited in hiring any staff without a criminal background and security check and cannot hire any staff with the specific convictions that are non- waivable (17 specific non-waivable convictions) and;

- o Includes statement that employee is not to work with client until results of criminal background check and security check is back and employee is eligible for employment.

Health Standards Section State Survey Agency conducts Investigations for Complaints and Monitoring for licensing surveys and reviews the staff's criminal background/security checks as well as the criminal background/security checks on the owners.

b. Abuse Registry Screening. Specify whether the state requires the screening of individuals who provide waiver services through a state-maintained abuse registry (select one):

- ☐ **No. The state does not conduct abuse registry screening.**
- ☒ **Yes. The state maintains an abuse registry and requires the screening of individuals through this registry.**

Specify: (a) the entity (entities) responsible for maintaining the abuse registry; (b) the types of positions for which abuse registry screenings must be conducted; (c) the process for ensuring that mandatory screenings have been conducted; and (d) the process for ensuring continuity of care for a waiver participant whose service provider was added to the abuse registry. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

The state maintains a registry that includes the names of all direct service workers who have had findings of abuse, neglect or misappropriation of property placed against them. Providers are required to check this registry prior to hiring a worker and every six months thereafter to assure that no existing workers have had a finding placed against them.

The Louisiana Department of Health (LDH), Health Standards Section has a contractor who maintains the Direct Service Worker Abuse Registry for the state. Health Standards has a RN Program Manager who administers the Direct Service Worker Abuse Registry Program with oversight of the contractor.

Each licensed provider is required to conduct the screening against the registry to assure a finding is not placed prior to employment and every six months thereafter to assure a finding is not placed in accordance with the Direct Service Worker Registry Final Rule published on May 20, 2019 Louisiana Registry.

On each survey conducted at a provider agency, a sample of employee personnel files is pulled. Those files will be reviewed for compliance with any screenings that are required by regulations. If the provider is found to be not in compliance with the requirements, they will be cited and an acceptable plan of correction to assure on-going compliance will be required.

Appendix C: Participant Services

C-2: General Service Specifications (2 of 3)

Note: Required information from this page is contained in response to C-5.

Appendix C: Participant Services

C-2: General Service Specifications (3 of 3)

d. Provision of Personal Care or Similar Services by Legally Responsible Individuals. A legally responsible individual is any person who has a duty under state law or regulations to care for another person (e.g., the parent (biological or adoptive) of a minor child or the guardian of a minor child who must provide care to the child). At the option of the state and under extraordinary circumstances specified by the state, payment may be made to a legally responsible individual for the provision of personal care or similar services. *Select one:*

- ☐ **No. The state does not make payment to legally responsible individuals for furnishing personal care or similar services.**
- ☒ **Yes. The state makes payment to legally responsible individuals for furnishing personal care or similar services when they are qualified to provide the services.**

Specify: (a) the types of legally responsible individuals who may be paid to furnish such services and the services they may provide; (b) the method for determining that the amount of personal care or similar services provided by a legally responsible individual is "**extraordinary care**", exceeding the ordinary care that would be provided to a person without a disability or chronic illness of the same age, and which are necessary to assure the health and welfare of the participant and avoid institutionalization; (c) the state policies to determine that the provision of services by a legally responsible individual is in the best interest of the participant; (d) the state processes to ensure that legally responsible individuals who have decision-making authority over the selection of waiver service providers use substituted judgement on behalf of the individual; (e) any limitations on the circumstances under which payment will be authorized or the amount of personal care or similar services for which payment may be made; (f) any additional safeguards the state implements when legally responsible individuals provide personal care or similar services; and, (g) the procedures that are used to implement required state oversight, such as ensuring that payments are made only for services rendered. *Also, specify in Appendix C-1/C-3 the personal care or similar services for which payment may be made to legally responsible individuals under the state policies specified here.*

The state ensures that the provision of services by a legally responsible individual is in the best interest of the participant using the team approach and must be on the plan of care. Any ROW service may be provided by a member of the participant's family provided that the family member passes all background checks. Family members and individuals that live in the home with the recipient cannot exceed a total of 40 hours per week per staff. Family members that may provide services include parents of an adult child, siblings, grandparents, aunts, uncles, cousins and in-laws. The family member must become an employee of the participant's agency of choice or under self-direction and must meet the same standards as direct support staff that are not related to the individual. Payment for services rendered are approved by prior and post authorization as outlined in the POC. The state ensures that the provision of services by a legally responsible individual is in the best interest of the participant using the team approach and must be on the plan of care. The Legally responsible relative who is the employer cannot be the employee. When a Legally Responsible Individual(LRI) provides a paid service, this will be discussed in the person-centered planning meeting, including meeting established criteria for the provision of extraordinary care vs. ordinary care, and included in the Comprehensive Plan of Care. The Support Coordinator or other designated party will ensure discussion held with the participant when LRI or other family member is not present on at least an annual basis to ensure this is the wishes of the participant. When a relative living in the home or a LRI provides a paid service, all support coordination visits will be conducted face-to-face, with no option for virtual visits.

e. Other State Policies Concerning Payment for Waiver Services Furnished by Relatives/Legal Guardians. Specify state policies concerning making payment to relatives/legal guardians for the provision of waiver services over and above the policies addressed in Item C-2-d. *Select one:*

- ☐ **The state does not make payment to relatives/legal guardians for furnishing waiver services.**
- ☐ **The state makes payment to relatives/legal guardians under specific circumstances and only when the relative/guardian is qualified to furnish services.**

Specify the types of relatives/legal guardians to whom payment may be made, the services for which payment may be made, the specific circumstances under which payment is made, and the method of determining that such circumstances apply. Also specify any limitations on the amount of services that may be furnished by a relative or legal guardian, and any additional safeguards the state implements when relatives/legal guardians provide waiver services. Specify the state policies to determine that the provision of services by a relative/legal guardian is in the best interests of the individual. When the relative/legal guardian has decision-making authority over the selection of providers of waiver services, specify the state's process for ensuring that the relative/legal guardian uses substituted judgement on behalf of the individual. Specify the procedures that are employed to ensure that payments are made only for services rendered. *Also, specify in Appendix C-1/C-3 each waiver service for which payment may be made to relatives/legal guardians.*

- ☒ **Relatives/legal guardians may be paid for providing waiver services whenever the relative/legal guardian is qualified to provide services as specified in Appendix C-1/C-3.**

Specify the controls that are employed to ensure that payments are made only for services rendered.

ROW CLS service may be provided by a member of the participant's family. Family members that may provide services include parents of an adult child, siblings, grandparents, aunts, uncles, and cousins. The family member must become an employee of the participant's agency of choice and must meet the same standards as direct support staff that are not related to the individual. Payment for services rendered are approved by prior and post authorization as outlined in the POC. The state ensures that the provision of services by a legally responsible individual is in the best interest of the participant using the team approach and must be on the plan of care. Any ROW service may be provided by a member of the participant's family provided that the family member passes all background checks. Family members and individuals that live in the home with the recipient cannot exceed a total of 40 hours per week per staff. Family members that may provide services include parents of an adult child, siblings, grandparents, aunts, uncles, cousins and in-laws. The family member must become an employee of the participant's agency of choice and must meet the same standards as direct support staff that are not related to the individual. Payment for services rendered are approved by prior and post authorization as outlined in the POC. The state ensures that the provision of services by a legally responsible individual is in the best interest of the participant using the team approach and must be on the plan of care. Any ROW service may be provided by a member of the participant's family provided that the family member passes all background checks. Family members and individuals that live in the home with the recipient cannot exceed a total of 40 hours per week per staff. Family members that may provide services include parents of an adult child, siblings, grandparents, aunts, uncles, cousins and in-laws. The family member must become an employee of the participant's agency of choice and must meet the same standards as direct support staff that are not related to the individual. Payment for services rendered are approved by prior and post authorization as outlined in the POC. When a Legally Responsible Individual(LRI) provides a paid service, this will be discussed in the person-centered planning meeting, including meeting established criteria for the provision of extraordinary care vs. ordinary care, and included in the Comprehensive Plan of Care. The Support Coordinator or other designated party will ensure discussion held with the participant when LRI or other family member is not present on at least an annual basis to ensure this is the wishes of the participant; which will be documented in the POC. When a relative living in the home or a LRI provides a paid service, all support coordination visits will be conducted face-to-face, with no option for virtual visits. Payments to family members living in the home and LRIs will be audited on a semi-annual basis to ensure payment for services rendered.

☐ **Other policy.**

Specify:

f. Open Enrollment of Providers. Specify the processes that are employed to assure that all willing and qualified providers have the opportunity to enroll as waiver service providers as provided in 42 CFR § 431.51:

Willing and qualified providers can access information regarding becoming an enrolled waiver service provider in several ways:

Via the Louisiana Medicaid website;

Through state facilitated stakeholder meetings regarding waiver services; and

Through state facilitated meetings with provider organizations such as ARC of Louisiana, Alliance of Direct Support Professionals, and Alliance of Support Coordinators.

To date, Louisiana has not experienced a problem in finding enough willing and qualified providers to enroll as waiver service providers.

As per the Interagency Agreement between the Medicaid Bureau of Health Services Financing (BHSF) and the OCDD:

All willing and qualified providers have the opportunity to enroll as waiver service providers by first obtaining a license for the specific service they wish to provide through the Health Standards Section (HSS);

After obtaining a license, the provider applicant must complete a Medicaid Enrollment Application and sign a Louisiana Provider Enrollment form (PE-50) to enroll and participate in the Medicaid program;

BHSF, or its designee, reviews all information, and makes a determination whether to enroll the provider in the Medicaid program;

BHSF, or its designee assigns each new enrolled provider a unique Medicaid provider number and sends the OCDD this information;

The Provider's name is then added to the Freedom of Choice list;

BHSF trains all waiver providers in licensing and certification procedures and requirements;

BHSF, OCDD, or its agent train waiver providers in the proper procedures to follow in submitting claims to the Medicaid program BHSF handles all questions concerning the submission of claims;

BHSF is responsible for insuring that waiver providers remain in compliance with all rules and regulations required for participation in the Medicaid program; and

HSS or its designee notifies OCDD State Office in the event any previously enrolled waiver services provider is removed from the active Medicaid provider files. This notification includes the effective date of the closure and the reason.

All prospective providers must go through a licensing and a Medicaid provider enrollment on-site visit. The provider is listed on the Provider Freedom of Choice form for regions of the state for which they have completed enrollment and licensure. HSS (Health Standards Section) notifies the OCDD State Office when an enrolled provider is removed from the active Medicaid provider file and requires removal from the Freedom of Choice list. Notification will include the reason and the date of closure.

The time frame for obtaining a license is approximately three to four months once a provider has submitted a completed application and paid the required fee. Once the licensing process is completed, the enrollment process takes 15 working days from receipt of a completed enrollment application form.

g. State Option to Provide HCBS in Acute Care Hospitals in accordance with Section 1902(h)(1) of the Act. Specify whether the state chooses the option to provide waiver HCBS in acute care hospitals. *Select one:*

- ☐ **No, the state does not choose the option to provide HCBS in acute care hospitals.**
- ☐ **Yes, the state chooses the option to provide HCBS in acute care hospitals under the following conditions.** *By checking the boxes below, the state assures:*

- ☐ The HCBS are provided to meet the needs of the individual that are not met through the provision of acute care hospital services;
- ☐ The HCBS are in addition to, and may not substitute for, the services the acute care hospital is obligated to provide;
- ☐ The HCBS must be identified in the individual's person-centered service plan; and
- ☐ The HCBS will be used to ensure smooth transitions between acute care setting and community-based settings and to preserve the individual's functional abilities.

And specify: (a) The 1915(c) HCBS in this waiver that can be provided by the 1915(c) HCBS provider that are not duplicative of services available in the acute care hospital setting; (b) How the 1915(c) HCBS will assist the individual in returning to the community; and (c) Whether there is any difference from the typically billed rate for these HCBS provided during a hospitalization. If yes, please specify the rate methodology in Appendix I-2-a.

Appendix C: Participant Services

Quality Improvement: Qualified Providers

As a distinct component of the state's quality improvement strategy, provide information in the following fields to detail the state's methods for discovery and remediation.

a. Methods for Discovery: Qualified Providers

The state demonstrates that it has designed and implemented an adequate system for assuring that all waiver services are provided by qualified providers.

i. Sub-Assurances:

- a. *Sub-Assurance: The state verifies that providers initially and continually meet required licensure and/or certification standards and adhere to other standards prior to their furnishing waiver services.*

Performance Measures

For each performance measure the state will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the state to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

C.a.i.a.1. Number and percentage of new HCBS providers who meet HCBS licensing standards prior to furnishing waiver services. Percentage = number of HCBS providers who meet HCBS licensing standards prior to furnishing waiver services/Total number of initial HCBS providers.

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the state to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

C.a.i.c.1: LDH is required to maintain a registry of individuals to include information concerning any documentation of any

investigation for findings of abuse, neglect, extortion, exploitation and misappropriation of property, including a summary of findings after an action is final. Employers must use the registry to determine if there is a finding of abuse, neglect or misappropriation. An individual with a finding of abuse, neglect or misappropriation on the registry may not be hired.

C.a.i.a.3: A provisional license may be issued to a provider that has deficiencies which are not a danger to the health and welfare of clients. They are issued for a period up to six months. Providers who fail to attain substantial compliance following the issuance of a provisional license may be denied license renewal or may have the license revoked.

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the state's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction and the state's method for analyzing information from individual problems, identifying systemic deficiencies, and implementing remediation actions. In addition, provide information on the methods used by the state to document these items.

For services provided in the ROW, the general remediation procedure the State utilizes is for the LGE staff to review data on corrective actions and identify which items are unclear or need revision. Staff work with the provider to ensure that the corrective action plan is clear, reasonable and has been implemented to address the concerns.

C.a.i.a.1 and C.a.i.a.2: For every deficiency cited, the provider must submit a plan of correction. If acceptable, a follow up survey will be conducted. This will be accomplished either via onsite visit or via written evidence submitted by the provider, depending on the deficiency(ies). The plan of correction will require the provider to give a completion date (no more than 60 days) for each deficiency as well as the staff person responsible for monitoring and assuring continued compliance. Failure to come into substantial compliance could result in non-renewal of the license or license revocation which will result in cancellation of the Medicaid provider agreement. Civil monetary penalties may be imposed for deficiencies resulting in abuse, neglect, actual harm or death to a client or when there are repeat deficiencies within 18 months. Failure to pay the fine results in withholding the money from vendor payment.

C.a.i.a.2: If a provisional license is issued, the provider will be reviewed at the end of the provisional license period to determine compliance. If the provider is still not in compliance, the license may not be renewed or license revocation may be initiated.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

Responsible Party(check each that applies):	Frequency of data aggregation and analysis (check each that applies):
☐ State Medicaid Agency	☐ Weekly
☐ Operating Agency	☐ Monthly
☐ Sub-State Entity	☐ Quarterly
☒ Other Specify: Health Standards Section	☒ Annually
	☐ Continuously and Ongoing
	☐ Other Specify:

c. Timelines

When the state does not have all elements of the quality improvement strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Qualified Providers that are currently non-operational.

☒ No

☐ Yes

Please provide a detailed strategy for assuring Qualified Providers, the specific timeline for implementing identified

strategies, and the parties responsible for its operation.

Appendix C: Participant Services

C-3: Waiver Services Specifications

Section C-3 'Service Specifications' is incorporated into Section C-1 'Waiver Services.'

Appendix C: Participant Services

C-4: Additional Limits on Amount of Waiver Services

a. Additional Limits on Amount of Waiver Services. Indicate whether the waiver employs any of the following additional limits on the amount of waiver services (*select one*).

- ☐ **Not applicable-** The state does not impose a limit on the amount of waiver services except as provided in Appendix C-3.
- ☒ **Applicable** - The state imposes additional limits on the amount of waiver services.

When a limit is employed, specify: (a) the waiver services to which the limit applies; (b) the basis of the limit, including its basis in historical expenditure/utilization patterns and, as applicable, the processes and methodologies that are used to determine the amount of the limit to which a participant's services are subject; (c) how the limit will be adjusted over the course of the waiver period; (d) provisions for adjusting or making exceptions to the limit based on participant health and welfare needs or other factors specified by the state; (e) the safeguards that are in effect when the amount of the limit is insufficient to meet a participant's needs; (f) how participants are notified of the amount of the limit. (*check each that applies*)

- ☐ **Limit(s) on Set(s) of Services.** There is a limit on the maximum dollar amount of waiver services that is authorized for one or more sets of services offered under the waiver.
Furnish the information specified above.

- ☐ **Prospective Individual Budget Amount.** There is a limit on the maximum dollar amount of waiver services authorized for each specific participant.
Furnish the information specified above.

- ☒ **Budget Limits by Level of Support.** Based on an assessment process and/or other factors, participants are assigned to funding levels that are limits on the maximum dollar amount of waiver services.
Furnish the information specified above.

The Inventory for Client and Agency Planning (ICAP) is a standardized assessment instrument that is designed to assess the status, adaptive functioning, and service needs of an individual. The ICAP is applicable to participants of all ages (infant to adult). Information is obtained from the participant's family, advocate, and/or direct care staff. The ROW budget is based on the ICAP acuity score. If participants have increased needs, additional services may be accessed based on assessed needs by moving into a higher acuity level with increased budget amounts. All services are subject to a limit based on the ICAP acuity score.

The ICAP score for a participant is used to determine the participant's level of support needs which is then used to determine the participant's individual budget level. If a participant's level of support needs change, the ICAP is readministered to determine the participant's budget change.

Support levels used in the ROW as identified by classification in the ICAP:

Intermittent: supports on an as needed basis. Characterized as episodic in nature, the person does not always need the support(s), or short-term supports needing during life-span transition.

Limited: supports characterized by consistency over time, time-limited but not of an intermittent nature.

Extensive: supports characterized by regular involvement (e.g., daily) in at least some environments and not time-limited.

Pervasive: supports characterized by their constancy, high intensity, provision across environments, and potential life-sustaining nature.

In addition to being the primary component of budget setting, the ICAP provides information used to identify support needs in the participant's Plan of Care. The support coordinator includes the participants support needs and budget level in the Plan of Care.

Geographic factors do not affect the budget amount.

A participant who contests their score may participate in an ICAP assessment. If participant continues to oppose the results, an appeal can be filed through the Administrative Law forum established by the Louisiana Department of Health, Office of the Secretary (process used for all Medicaid appeals). The Administrative Law Judge's (ALJ) finding/ruling is considered public record in Louisiana. If the participant wishes to make a further appeal after ALJ's findings/ruling, an appeal can be made to the State District Court requesting a Petition for Judicial Review which is also considered public record.

If the participant's needs cannot be met within the highest cost limits of the ROW, all Medicaid services options will be explored, including ICFs/IID.

- ☐ **Other Type of Limit.** The state employs another type of limit.
Describe the limit and furnish the information specified above.

Appendix C: Participant Services

C-5: Home and Community-Based Settings

Explain how residential and non-residential settings in this waiver comply with federal HCB Settings requirements at 42 §§ CFR 441.301(c)(4)-(5) and associated CMS guidance. Include:

1. Description of the settings in which 1915(c) HCBS are received. (*Specify and describe the types of settings in which waiver services are received.*)

2. Description of the means by which the state Medicaid agency ascertains that all waiver settings meet federal HCB Setting requirements, at the time of this submission and in the future as part of ongoing monitoring. *(Describe the process that the state will use to assess each setting including a detailed explanation of how the state will perform on-going monitoring across residential and non-residential settings in which waiver HCBS are received.)*

3. By checking each box below, the state assures that the process will ensure that each setting will meet each requirement:

- ☐ The setting is integrated in and supports full access of individuals receiving Medicaid HCBS to the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community, to the same degree of access as individuals not receiving Medicaid HCBS.
- ☐ The setting is selected by the individual from among setting options including non-disability specific settings and an option for a private unit in a residential setting. The setting options are identified and documented in the person-centered service plan and are based on the individual's needs, preferences, and, for residential settings, resources available for room and board. *(see Appendix D-1-d-ii)*
- ☐ Ensures an individual's rights of privacy, dignity and respect, and freedom from coercion and restraint.
- ☐ Optimizes, but does not regiment, individual initiative, autonomy, and independence in making life choices, including but not limited to, daily activities, physical environment, and with whom to interact.
- ☐ Facilitates individual choice regarding services and supports, and who provides them.
- ☐ Home and community-based settings do not include a nursing facility, an institution for mental diseases, an intermediate care facility for individuals with intellectual disabilities, a hospital; or any other locations that have qualities of an institutional setting.

Provider-owned or controlled residential settings. *(Specify whether the waiver includes provider-owned or controlled settings.)*

- ☐ No, the waiver does not include provider-owned or controlled settings.
- ☐ Yes, the waiver includes provider-owned or controlled settings. (By checking each box below, the state assures that each setting, *in addition to meeting the above requirements, will meet the following additional conditions*):
 - ☐ The unit or dwelling is a specific physical place that can be owned, rented, or occupied under a legally enforceable agreement by the individual receiving services, and the individual has, at a minimum, the same responsibilities and protections from eviction that tenants have under the landlord/tenant law of the state, county, city, or other designated entity. For settings in which landlord tenant laws do not apply, the state must ensure that a lease, residency agreement or other form of written agreement will be in place for each HCBS participant, and that the document provides protections that address eviction processes and appeals comparable to those provided under the jurisdiction's landlord tenant law.
 - ☐ Each individual has privacy in their sleeping or living unit:
 - ☐ Units have entrance doors lockable by the individual.
 - ☐ Only appropriate staff have keys to unit entrance doors.
 - ☐ Individuals sharing units have a choice of roommates in that setting.
 - ☐ Individuals have the freedom to furnish and decorate their sleeping or living units within the lease or other agreement.
 - ☐ Individuals have the freedom and support to control their own schedules and activities.
 - ☐ Individuals have access to food at any time.

- ☐ Individuals are able to have visitors of their choosing at any time.
- ☐ The setting is physically accessible to the individual.
- ☐ Any modification of these additional conditions for provider-owned or controlled settings, under § 441.301(c)(4)(vi)(A) through (D), must be supported by a specific assessed need and justified in the person-centered service plan(see *Appendix D-1-d-ii of this waiver application*).

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (1 of 8)

State Participant-Centered Service Plan Title:

Plan of Care

a. Responsibility for Service Plan Development. Per 42 CFR § 441.301(b)(2), specify who is responsible for the development of the service plan and the qualifications of these individuals. Given the importance of the role of the person-centered service plan in HCBS provision, the qualifications should include the training or competency requirements for the HCBS settings criteria and person-centered service plan development. *(Select each that applies):*

- ☐ Registered nurse, licensed to practice in the state
- ☐ Licensed practical or vocational nurse, acting within the scope of practice under state law
- ☐ Licensed physician (M.D. or D.O)
- ☒ Case Manager (qualifications specified in Appendix C-1/C-3)
- ☐ Case Manager (qualifications not specified in Appendix C-1/C-3).

Specify qualifications:

- ☐ Social Worker

Specify qualifications:

- ☐ Other

Specify the individuals and their qualifications:

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (2 of 8)

b. Service Plan Development Safeguards. Providers of HCBS for the individual, or those who have interest in or are employed by a provider of HCBS; are not permitted to have responsibility for service plan development except, at the option of the state, when providers are given responsibility to perform assessments and plans of care because such individuals are the only willing and qualified entity in a geographic area, and the state devises conflict of interest protections. *Select one:*

- ☒ Entities and/or individuals that have responsibility for service plan development may not provide other direct waiver services to the participant.
- ☐ Entities and/or individuals that have responsibility for service plan development may provide other direct waiver services to the participant. *Explain how the HCBS waiver service provider is the only willing and*

qualified entity in a geographic area who can develop the service plan:

(Complete only if the second option is selected) The state has established the following safeguards to mitigate the potential for conflict of interest in service plan development. *By checking each box, the state attests to having a process in place to ensure:*

- ☐ Full disclosure to participants and assurance that participants are supported in exercising their right to free choice of providers and are provided information about the full range of waiver services, not just the services furnished by the entity that is responsible for the person-centered service plan development;
- ☐ An opportunity for the participant to dispute the state's assertion that there is not another entity or individual that is not that individual's provider to develop the person-centered service plan through a clear and accessible alternative dispute resolution process;
- ☐ Direct oversight of the process or periodic evaluation by a state agency;
- ☐ Restriction of the entity that develops the person-centered service plan from providing services without the direct approval of the state; and
- ☐ Requirement for the agency that develops the person-centered service plan to administratively separate the plan development function from the direct service provider functions.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (3 of 8)

- c. Supporting the Participant in Service Plan Development.** Specify: (a) the supports and information that are made available to the participant (and/or family or legal representative, as appropriate) to direct and be actively engaged in the service plan development process and (b) the participant's authority to determine who is included in the process.

Following selection of and linkage to a Support Coordinator agency, the assigned Support Coordinator explains all available services in the waiver during the initial contact so that the participant and his/her family/legal representatives can make informed choices. The participant is also informed of any procedural safeguards, their rights and responsibilities, how to request a change of Support Coordination agencies or Direct Service Providers, and the grievance and/or complaint procedures. Printed information is given to the participant at this visit. The Support Coordinator provides assistance in gaining access to the full range of needed services including medical, social, educational, and/or other supports as identified by the participant.

The initial planning meetings are conducted in a face-to-face visit in the participant's place of residence. During the initial visit, the participant chooses who will be part of his/her planning process. The Support Coordinator assists the participant/family in contacting the team members with the date(s) and time(s) of meeting(s). The Support Coordinator facilitates the planning meeting with the participant/family driving the planning process. Virtual meetings may occur for quarterly meetings if established criteria are met. All annual and one other meeting per year must be held face-to-face.

Virtual visits are allowed if the following conditions are met:

1. The beneficiary/family is in agreement that a virtual visit is in the best interest of the beneficiary, and
2. The SC is in agreement, and
3. The provider agencies are in agreement, and
4. The legally responsible individual or family members living in the home are not paid caregivers, and
5. There are no instances in the past two years, and
 - a. Discovery by SC or reported by provider of an accident, incident, injury that meets Critical Incident Review Criteria
 - b. Lack of desired personal outcomes: such as education, employment, and community engagement
 - c. Unsafe living conditions, lack of sanitation, lack of food and supplies
 - d. Change in involvement of natural supports
 - e. Medication issues
 - f. Changes in behavior, medical status or appearance (weight gain/loss)
6. Technology is available to complete the visit with direct observation of the beneficiary and the home, and
7. There is evidence that the requirements for the quarterly visit can be completed virtually.

The SC will obtain an electronic signatures/or electronic verification via secure email consent from service providers and the individual or representative, in accordance with the state's HIPAA requirements at end of Virtual visit.

The employer should act in the best interest of the beneficiary hiring staff to meet his/her needs providing safeguard against exploitation of the beneficiary.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (4 of 8)

- d. **i. Service Plan Development Process.** In four pages or less, describe the process that is used to develop the participant-centered service plan, including: (a) who develops the plan, who participates in the process, and the timing of the plan; (b) the types of assessments that are conducted to support the service plan development process, including securing information about participant needs, preferences and goals, and health status; (c) how the participant is informed of the services that are available under the waiver; (d) how the plan development process ensures that the service plan addresses participant goals, needs (including health care needs), and preferences; (e) how waiver and other services are coordinated; (f) how the plan development process provides for the assignment of responsibilities to implement and monitor the plan; (g) how and when the plan is updated, including when the participant's needs changed; (h) how the participant engages in and/or directs the planning process; and (i) how the state documents consent of the person-centered service plan from the waiver participant or their legal representative. State laws, regulations, and policies cited that affect the service plan development process are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

A. PLAN OF CARE (POC) DEVELOPMENT AND TIMING

Linkage to support coordination through certification for waiver services may take up to 90 days. During the 90 day period, the following activities occur:

- Initial support coordinator (SC) contact with the participant
- The support coordinator contacts the family to arrange a face-to-face meeting at a location convenient to the family.
- The support coordinator will schedule a time with the participant and family to assess the participant's needs utilizing a needs based assessment.

The POC plan is developed through a person centered process that includes the participant and whomever the participant chooses which could include family, supporters, advocates, employment or habilitation providers, and whomever makes up the support team for the participant. During the planning process and planning discussions, it may be determined that there are unmet needs present which neither the current assigned waiver nor other available non-waiver supports or services are able to meet. In these circumstances, it may be appropriate for the participant, with assistance from the support team, to request a move up to the next tier waiver via OCDD's Tiered Waiver Process, if the services available in that waiver can appropriately meet those needs .

A request to move to second Tiered Waiver Process -the Residential Options Waiver. The Inventory for Client and Agency Planning (ICAP) is completed. The ICAP is the needs base assessment for the ROW. The ICAP determine the most appropriate supports level.

- The approvable POC must be approved within 90 days after linkage. An exception to this timeline will be made if housing cannot be secured with a reasonable time period.
- The LGE staff have ten working days in which to review the POC information, complete the precertification home visit and approve the POC prior to waiver services beginning. If Medicaid eligibility is delayed, then the LGE has 5 days from the date of receipt of the Medicaid eligibility determination to approve the POC. Waiver services cannot begin prior to the approved POC.
- The entire team meets at least annually or as needed to review and revise the POC for the upcoming service year

B. INITIAL ASSESSMENTS

The Office for Citizens with Developmental Disabilities (OCDD) has developed the a person centered framework for all activities related to planning for individualized supports and services. The activities below describe the discovery process in which the support coordinator assists the participant in developing a Plan of Care.

Discovery activities include:

1. A review of the participant's records relevant to service planning (i.e. school, vocational, medical, and psychological records).
2. Conducting a personal outcomes assessment, which assists the planning team in determining what is important to the participant and his/her satisfaction or dissatisfaction with different life domain areas.
3. A review of the Inventory for Client and Agency Planning(ICAP).
4. A review and/or completion of any additional interviews, observations, or other needed professional assessments (i.e. occupational therapist, physical therapist, or speech therapist assessments).

Information obtained through the discovery process is shared with the support team in preparation for the POC meeting. Discovery activities are summarized and conclude with the POC meeting.

Based on the findings of the discovery activities described above a POC is developed.

C. PLAN OF CARE (POC) DEVELOPMENT AND TIMING

The Plan of Care is developed through a collaborative process which includes the Support Coordinator, participant and his/her family and friends, legal representatives, appropriate professionals/service providers, and others whom the participant chooses to be involved. This group is hereafter referred to as the support team.

Initial Support Coordinator contact with the participant occurs within 3 business days of being linked to the Support Coordination agency of choice.

For initial participants, the Plan of Care development process must begin within 7 calendar days following linkage to the Support Coordination agency of the participant's choice.

The Support Coordinator contacts the participant and/or his/her family/authorized representative to schedule the initial, annual, and any subsequent support planning meeting at a time and place that is convenient to the participant and/or his/her family/authorized representative.

The Support Coordinator is required to submit the complete initial Plan of Care to the appropriate LGE within sixty (60) days following linkage.

The LGE staff has ten (10) business days to review the information, complete the pre-certification home visit and approve the Plan of Care prior to waiver services beginning. If Medicaid eligibility is delayed, then the LGE has 5 days from the date of receipt of the Medicaid eligibility determination to approve the POC. Waiver services cannot begin prior to the approved POC.

D. ROW LEVEL ASSESSMENTS

The ROW level of care and budget level is determined by the ICAP assessment. The ICAP results indicate which ROW level of care and budget level the participant meets. There are four level of care and budget levels within the ROW. There are four levels, level 1 is least needs to level 4 which is highest needs. A comprehensive plan of care is developed utilizing the information obtained from the discovery process and the ICAP assessment.

Reassessments are conducted with significant life changes and at least annually. The assessment process should be ongoing and reflect changes in the participant's life, needs, personal outcomes and preferences. If the participant disagrees with the ROW level assignment, he/she or the family or authorized representative may present supporting documentation and request a re-assessment which could result in additional services. If the participant or the family or authorized representative is not satisfied with the decision, then an appeal may be made to the Louisiana Department of Health, Bureau of Appeals process as referenced in Appendix F-1, Opportunity to Request a Fair Hearing.

E. HOW PARTICIPANTS ARE INFORMED OF AVAILABLE SERVICES

The Support Coordinator informs the participant and his/her family/authorized representative of all available waiver services during the initial contact with the Support Coordination agency, in quarterly meetings as needed, on an annual basis during the Plan of Care development process, and as requested.

F. INCORPORATION OF PARTICIPANT GOALS/NEEDS/PREFERENCES IN THE PLAN OF CARE

The following components are designed to incorporate the participant's goals, needs, and preferences in the Plan of Care:

Discovery, which involves gathering information about the participant's interests, goals, preferences, and support needs through assessments and interviews. The discovery process ends with the formulation of the participant's vision and goals.

Planning. This involves using the information from the discovery process to develop the Plan of Care. During the planning process, the support team works with the participant to develop strategies to assist him/her in achieving his/her goals and support needs. Strategies should identify all supports needed to assist the participant in achieving his/her goals and meeting other identified support needs and an appropriate action plan. For each personal

outcome/goal identified, the support team will identify the following: the participant's strengths, skills, abilities that can be used to achieve his/her goals; challenges, barriers, health issues, or risk factors that can be deterrents to meeting his/her goals; strategies, treatments, or trainings which can be implemented to overcome barriers; any opportunities available for increasing the participant's independence in achieving his/her goals.

Implementation, which involves the completion of noted strategies and provision of needed supports according to the participant's Plan of Care.

Review, which involves assessing if implementation occurred as planned, if progress was made toward reaching one's goals, and if positive changes have occurred as a result of the plan. The

support team will assess the effectiveness of the strategies implemented and changes will be made as needed.

G. COORDINATION OF SERVICES

The planning process requires the identification and utilization of all appropriate supports available to the participant prior to the support team considering waiver services.

Services are coordinated through the participant's Support Coordinator. The Support Coordinator leads the support team in developing a Plan of Care with and for the participant. The Plan of Care must include the following required components:

The participant's prioritized personal goals and specific strategies to achieve or maintain his/her desired personal goals. These strategies will focus first on the natural and community supports available to the participant and, if needed, paid services will be accessed as a supplement to natural and community supports.

An action plan which will lead to the implementation of strategies to achieve the participant's personal goals, including action steps, review dates, and the names of the persons who are responsible for specific steps.

Identified barriers, including health and safety risks, and specific strategies with timelines and the persons assigned to specific responsibilities, to address each issue.

All the services and supports the participant receives, regardless of the funding source which may include natural support networks, generic community services, and state plan services.

Identification of the frequency and location of services through a daily and alternate schedule.

Identification of providers and specification of the service arrangement.

Identification of the support team members who will assist the support coordinator in the planning process, as well as building and implementing supports for the participant.

Signature of all support team members present in the planning meeting to indicate their agreement with the Plan of Care.

H. ASSIGNMENT OF RESPONSIBILITIES TO IMPLEMENT AND MONITOR PLAN OF CARE

Each participant's Plan of Care includes multiple strategies and actions to achieve his/her life vision and goals, while addressing key support needs. The support team is responsible for:

Identifying any necessary training the participant's family or staff need in order to implement the actions and strategies described in the Plan of Care and determining who will provide the necessary training.

Identifying any resources needed by the participant's family or staff to implement the actions and strategies described in the Plan of Care and determining who will provide or acquire the needed resources.

In addition, the Support Coordinator is required to make a monthly contact with participant and visit the participant in his/her home or complete a virtual visit once per quarter to monitor the implementation of the Plan of Care, the participant's satisfaction with services, and to determine if the participant has any new interests, goals, or needs.

The Support Coordinator is responsible for reviewing the information on the Plan of Care, tracking progress on identified goals and timelines, and obtaining updated information on the participant's natural supports. This includes monitoring how individual providers (e.g. vocational, supported living) implement their portion of the participant's Plan of Care so that all relative goals and objectives are achieved.

During the quarterly monitoring reviews, the support team will review various data sources related to the participant's

goals and objectives in order to determine if progress has been made.

I. HOW AND WHEN PLAN IS UPDATED

At least quarterly, the support team meets to review the Plan of Care to determine if the participant's goals have been achieved, if the participant's needs are being met, and to make any adjustments to the Plan of Care as needed or requested by the participant..

The Plan of Care must be updated at least annually or as necessary to meet the participant's needs. The completed, updated, annual POC must be submitted to the Support Coordination supervisor or LGE as defined in OCDD policy for approval. To be considered timely, the plan of care must be approved prior to the expiration of the previous plan of care.

At any time that the Support Coordinator or any other support team member identifies a condition related to the participant's health status, behavioral change, or any other type of change which is not satisfactorily addressed or which requires updated discussion or planning, the support coordinator will immediately reconvene the support team to revise the Plan of Care to reflect the participant's revised needs and desired outcomes. This change in the participant's condition or health status, behavior or other change may or may not have been identified through re-assessment of the ICAP but may have recently surfaced, been identified through the participant's primary care physician, or been identified through periodic monitoring.

Emergency revisions must be submitted by the support coordinator to the LGE as defined in OCDD policy within twenty-four (24) hours of discovery or by the next working day for approval. Revisions that include routine changes, such as planned vacations, must be submitted by the Support Coordinator at least seven (7) working days prior to the change.

ii. HCBS Settings Requirements for the Service Plan. *By checking these boxes, the state assures that the following will be included in the service plan:*

- ☐ **The setting options are identified and documented in the person-centered service plan and are based on the individual's needs, preferences, and, for residential settings, resources available for room and board.**
- ☐ **For provider owned or controlled settings, any modification of the additional conditions under 42 CFR § 441.301(c)(4)(vi)(A) through (D) must be supported by a specific assessed need and justified in the person-centered service plan and the following will be documented in the person-centered service plan:**
 - ☐ **A specific and individualized assessed need for the modification.**
 - ☐ **Positive interventions and supports used prior to any modifications to the person-centered service plan.**
 - ☐ **Less intrusive methods of meeting the need that have been tried but did not work.**
 - ☐ **A clear description of the condition that is directly proportionate to the specific assessed need.**
 - ☐ **Regular collection and review of data to measure the ongoing effectiveness of the modification.**
 - ☐ **Established time limits for periodic reviews to determine if the modification is still necessary or can be terminated.**
 - ☐ **Informed consent of the individual.**
 - ☐ **An assurance that interventions and supports will cause no harm to the individual.**

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (5 of 8)

e. Risk Assessment and Mitigation. Specify how potential risks to the participant are assessed during the service plan development process and how strategies to mitigate risk are incorporated into the service plan, subject to participant needs and preferences. In addition, describe how the service plan development process addresses backup plans and the arrangements that are used for backup.

Information from various assessments conducted during the planning process is used to identify any potential risks, which are then addressed through mitigation strategies that are included in the Plan of Care.

In addition, information gained during interviews with the participant, his/her legal representative(s), and support team members, as well as information from the LGE pre-certification visit is also used during the initial planning process to identify potential risks to the participant.

The participant and all support team members are given informed choice regarding the inclusion of any strategies recommended to be included in an initial or revised Plan of Care. The initial or revised Plan of Care with the included strategies must be signed and dated by all support team members.

Recommendations from support team members on strategies to mitigate specific risk are incorporated into the Plan of Care. The LGE reviews recommendations, makes additional recommendations, and/or refers the issue to the OCDD State Office for input prior to approval of an initial or revised Plan of care.

The direct service provider is responsible for completing an emergency evacuation plan and back- up plan for each participant. Both are submitted to the Support Coordinator during the Plan of Care development process. The Support Coordinator is responsible for submitting the back-up plan and emergency evacuation plan to the LGE along with the participant's Plan of Care. The Support Coordinator Supervisor or the LGE ensures that the back-up plan and emergency evacuation plan are in place and will not approve the Plan of Care without these documents.

BACK-UP STAFFING PLANS

Support Coordinators are to ensure that back-up and emergency evacuation plans are in place.

All enrolled providers of waiver services must possess the capacity to provide the support and services required by the participant in order to insure the participant's health and safety as outlined in the Plan of Care, and are required to have functional Individualized Back-Up Plans consistent with the participant's Plan of Care. When paid supports are scheduled to be provided by an enrolled provider of waiver services, that provider is responsible for providing all necessary staff to fulfill the health and safety needs of the participant.

The identified enrolled provider of waiver services cannot use the participant's informal support system as a means of meeting the agency's individualized back-up plan, and/or emergency evacuation response plan requirements unless agreed to by the participant/family.

The identified enrolled provider of waiver services must have in place policies and procedures that outline the protocols the agency has established to assure that back-up direct support staff are readily available, lines of communication and chain-of-command have been established, and procedures are in place for dissemination of the back-up plan information to participants, their legal representatives, and support coordinators.

It is the identified enrolled provider of waiver services responsibility to develop the back-up plan and provide it to the Support Coordinator in a time frame that will allow it to be submitted for review/approval as a part of the Plan of Care.

The Support Coordinator is responsible for working with the participant, his/her family, friends, and providers during initial and subsequent Plan of Care meetings to establish plans to address these situations.

The Support Coordinator assists the participant and the support team members to identify individuals who are willing and able to provide a back-up system during times when paid supports are not scheduled on the participant's Plan of Care.

All back-up plans must include detailed strategies and person-specific information that addresses the specialized care and supports needed by the participant as identified in the Plan of Care. Back-up plans must be updated no less than annually to assure information is kept current and applicable to the participant's needs at all times.

- Support coordinators are to ensure that back-up and emergency evacuation plans are in place

EMERGENCY EVACUATION PLANS

An Emergency Evacuation Response Plan must be developed in addition to the individual back-up plan, be included in or attached to the participant's Plan of Care, and reviewed a minimum of once each Plan of Care year.

The Emergency Evacuation Response Plan provides detailed information for responding to potential emergency situations such as fires, hurricanes, hazardous materials release, tropical storms, flash flooding, ice storms, and terrorist acts.

The Emergency Evacuation Response Plan must include at a minimum the following components:

- Individualized risk assessment of potential health emergencies;

- Geographical and natural disaster emergencies, as well as potential for any other emergency conditions;

- A detailed plan to address participant's individualized evacuation needs;

- Policies and procedures outlining the agency's protocols regarding implementation of Emergency Evacuation Response Plans and how these plans are coordinated with the local Office of Emergency Preparedness and Homeland Security;

- Establishment of effective lines of communication and chain-of-command, and procedures for dissemination of Emergency Response Plan to participants and Support Coordinators; and

- Protocols outlining how and when direct support staff and participants are to be trained in Emergency Evacuation Response Plan implementation and post-emergency protocols.

Training for direct support staff must occur prior to any worker being solely responsible for the support of the participant, and participants must be provided with regular, planned opportunities to practice the emergency evacuation response plan.

Support Coordinators are to ensure that back-up and emergency evacuation plans are in place.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (6 of 8)

f. Informed Choice of Providers. Describe how participants are assisted in obtaining information about and selecting from among qualified providers of the waiver services in the service plan.

On acceptance of the waiver offer, the data management contractor offers Freedom of Choice of Support Coordination agencies.

At initial contact and annually with the participant, the Support Coordinator discusses the Provider Freedom of Choice form and the availability of all services. The Support Coordinator is responsible for offering Freedom of Choice of providers.

Part of this contact involves a discussion of Freedom of Choice of enrolled waiver providers, the availability of all services, as well as what the participant and his/her legal representatives require from Support Coordination. The Freedom of Choice list includes all providers in the participant's region that are enrolled to provide specific waiver services. The Support Coordinator is responsible for maintaining a current listing of qualified providers.

The Support Coordinator is responsible for advising the participant that changes in providers can be requested at any time, but only by the participant, family or authorized representative. The Support Coordinator will facilitate any request for a change of all providers.

The participant and his/her legal representative are encouraged by the Support Coordinator to interview or visit each provider agency they are interested in, in order to make informed choices.

The Support Coordinator can assist the participant/family members in setting up appointments to interview the different provider agencies, they can assist the participant/family members on what questions they should ask the potential providers, and they can refer them to Families Helping Families or other advocacy groups. The Support Coordinator will assist with any other needs the participant/family members may have in selecting a qualified provider.

The Support Coordinator is not allowed to make recommendations and does not coerce the participant/family in making his/her decision.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (7 of 8)

- g. Process for Making Service Plan Subject to the Approval of the Medicaid Agency.** Describe the process by which the service plan is made subject to the approval of the Medicaid agency in accordance with 42 CFR § 441.301(b)(1)(i):

Service plans are subject to approval by the State Medicaid Agency (SMA). The SMA does not review and approve all service plans prior to implementation; however, all are subject to SMA's approval. The SMA completes reviews of participant records on a routine basis. Information reviewed includes, but is not limited to: development of an appropriate individualized person-centered service plan, completion of updates and revisions to the service plan, and coordination with other agencies as necessary to ensure that services are provided according to the service plan.

Medicaid Program Support and Waivers (MPSW) section staff has access to the Louisiana Support Coordination Application (LASCA) database which houses results of annual monitoring of Support Coordination Agency performance. These performance results include determinations of level of performance on service plan development, implementation, and service delivery. MPSW compares support coordination service plans and corresponding monthly Support Coordination Documentation (SCD) obtained from the support coordination agency with LASCA results to validate the support coordination monitoring process and to ensure participant's health and welfare. If discrepancies are identified, the Medicaid HCBS Oversight Committee addresses the discrepancies and determines actions necessary to resolve them on a systemic level, e.g. training or policy revision.

The State utilizes a composite sample of all plans in that review period and the sample is calculated using a 95% confidence interval. The frequency of these reviews are annually with a proposal to complete quarterly reviews.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (8 of 8)

- h. Service Plan Review and Update.** The service plan is subject to at least annual periodic review and update, when the

individual's circumstances or needs change significantly, or at the request of the individual, to assess the appropriateness and adequacy of the services as participant needs change. Specify the minimum schedule for the review and update of the service plan:

- ☐ Every three months or more frequently when necessary
- ☐ Every six months or more frequently when necessary
- ☒ Every twelve months or more frequently when necessary
- ☐ Other schedule

Specify the other schedule:

i. Maintenance of Service Plan Forms. Written copies or electronic facsimiles of service plans are maintained for a minimum period of 3 years as required by 45 CFR § 92.42. Service plans are maintained by the following (*check each that applies*):

- ☐ Medicaid agency
- ☒ Operating agency
- ☒ Case manager
- ☒ Other

Specify:

Direct Service Provider agency

Appendix D: Participant-Centered Planning and Service Delivery

D-2: Service Plan Implementation and Monitoring

a. Service Plan Implementation and Monitoring. Specify: (a) the entity (entities) responsible for monitoring the implementation of the service plan, participant health and welfare, and adherence to the HCBS settings requirements under 42 CFR §§ 441.301(c)(4)-(5); (b) the monitoring and follow-up method(s) that are used; and, (c) the frequency with which monitoring is performed.

The Support Coordinator is responsible for monitoring the implementation of the Plan of Care, the participant's health and welfare and the effectiveness of the Plan of Care in meeting the participant's needs and preferences.

The Support Coordinator contacts the participant and his/her legal representative within 10 working days after the initial Plan of Care is approved to assure the appropriateness and adequacy of services delivery.

Support Coordinators make monthly contacts with each participant and/or his/her legal representatives. One contact per quarter must be a face-to-face or virtual visit with the participant in his/her place of residence.

During these contacts the Support Coordinator checks to make sure that:

There is access to waiver and non-waiver services identified in the Plan of Care, including access to health services;

The strategies to meet the participant's personal goals are being implemented and the effectiveness of the strategies;

The services outlined in the Plan of Care are meeting the needs of the participant;

The participant is satisfied with the service providers he/she has chosen;

Services are being furnished in accordance with the Plan of Care;

The participant's health and welfare needs are being met; and

Back-up plans, if utilized, are effective and persons identified as responsible for back-up plans are still active in the participant's life.

Information from the Support Coordinator's monitoring is maintained at the Support Coordination Agency's physical office. Support Coordinators must refer any findings during contacts or visits that appear to be out of compliance with federal or state regulations, and OCDD policies to the LGE for review and recommendations. If the finding cannot be resolved at the local level, LGE will refer it to the OCDD State Office to be resolved.

Revisions to the Plan of Care reflect the results of the monitoring. During the monitoring of the Plan of Care implementation, if changes are needed, a revision to the Plan of Care will be completed. All revisions must be reviewed and prior approved by the Support Coordination Supervisor or LGE as defined by OCDD policy. Emergency revisions to the Plan of Care must be submitted to the LGE as defined by OCDD policy within 24 hours or next business day. Routine revisions must be submitted to the LGE as defined by OCDD policy within at least seven (7) days prior to the change.

If a participant receives a denial, reduction or termination of services, appeal information is provided to them as outlined in Appendix F, section F-1.

b. Monitoring Safeguard. Providers of HCBS for the individual, or those who have interest in or are employed by a provider of HCBS; are not permitted to have responsibility for monitoring the implementation of the service plan except, at the option of the state, when providers are given this responsibility because such individuals are the only willing and qualified entity in a geographic area, and the state devises conflict of interest protections. *Select one:*

- ☒ **Entities and/or individuals that have responsibility to monitor service plan implementation, participant health and welfare, and adherence to the HCBS settings requirements may not provide other direct waiver services to the participant.**
- ☐ **Entities and/or individuals that have responsibility to monitor service plan implementation, participant health and welfare, and adherence to the HCBS settings requirements may provide other direct waiver services to the participant because they are the only the only willing and qualified entity in a geographic area who can monitor service plan implementation.** *(Explain how the HCBS waiver service provider is the only willing and qualified entity in a geographic area who can monitor service plan implementation).*

(Complete only if the second option is selected) The state has established the following safeguards to mitigate the potential for conflict of interest in monitoring of service plan implementation, participant health and welfare, and adherence to the HCBS settings requirements. *By checking each box, the state attests to having a process in place to ensure:*

- ☐ **Full disclosure to participants and assurance that participants are supported in exercising their right to free**

choice of providers and are provided information about the full range of waiver services, not just the services furnished by the entity that is responsible for the person-centered service plan development;

- ☐ An opportunity for the participant to dispute the state's assertion that there is not another entity or individual that is not that individual's provider to develop the person-centered service plan through a clear and accessible alternative dispute resolution process;
- ☐ Direct oversight of the process or periodic evaluation by a state agency;
- ☐ Restriction of the entity that develops the person-centered service plan from providing services without the direct approval of the state; and
- ☐ Requirement for the agency that develops the person-centered service plan to administratively separate the plan development function from the direct service provider functions.

Appendix D: Participant-Centered Planning and Service Delivery

Quality Improvement: Service Plan

As a distinct component of the state's quality improvement strategy, provide information in the following fields to detail the state's methods for discovery and remediation.

a. Methods for Discovery: Service Plan Assurance/Sub-assurances

The state demonstrates it has designed and implemented an effective system for reviewing the adequacy of service plans for waiver participants.

i. Sub-Assurances:

- a. *Sub-assurance: Service plans address all participants' assessed needs (including health and safety risk factors) and personal goals, either by the provision of waiver services or through other means.*

Performance Measures

For each performance measure the state will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the state to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

D.a.i.a.1. Number and percentage of plans of care in which services and supports align with the participants' assessed needs. Percentage = Number of plans of care that meet the assessed needs of waiver participants / Total number of plans of care reviewed in the sample.

Data Source (Select one):

Analyzed collected data (including surveys, focus group, interviews, etc)

If 'Other' is selected, specify:

Responsible Party for data collection/generation (check each that applies):	Frequency of data collection/generation (check each that applies):	Sampling Approach (check each that applies):

	☐ Other Specify:

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the state to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

For all performance measures except D.a.i.c.1 (Updated prior to plan expire), D.a.i.d.1, and D.a.i.d.2, LGE staff perform monitoring of support coordination agencies at least Quarterly and annually utilizing the OCDD Support Coordination Monitoring Tools: Participant Interview, Participant Record Review, Support Coordinator Interview, and Agency Review. The sample size will be large enough for a confidence level of 95% + or - 5%. The number of participants from the statewide sample to be included in each support coordination agency (SCA) sample will be proportional to the percentage of participants linked to each agency on the date the sample is generated. An SCA's sample size will be determined separately for each region in which the SCA operates.

For all performance measures except D.a.i.c.1, D.a.i.d.1 and D.a.i.d.2., the specific criteria for these measures are found in the OCDD Interpretive Guidelines for the OCDD Participant Record Review.

D.a.i.c.1 measures the first part of sub-assurance c., whether the service plan was updated at least annually. The Medicaid Data contractor is responsible for prior authorization of services and authorizes services based up receipt of an approved service plan. Data is then entered into the contractor data system which provides 100% representativeness for this measure.

D.a.i.c.2 measures the second part of sub-assurance c., whether service plans are updated when warranted by changes in the waiver participant's needs. The data source is the OCDD Participant Record Review and the responsible party for data collection/generation is the LGE.

D.a.i.d.1, and D.a.i.d.2: the Medicaid data contractor prior authorizes services according the approved service plan and enters post authorization of service once a provider has verified service delivery. This data is utilized to determine whether the participant received the type, scope, amount, duration, and frequency specified in the service plan. The method for validating this information is collected by the Support Coordination Agency during the quarterly reviews in the home and entered into the Case Management Information System (CMIS) which is accessed by the Medicaid Data Contractor to validate if the services have been delivered in the type, amount, frequency, duration, of services identified in the plan of care. The Support Coordination Agency and the LGE reviews the data quarterly for these measures.

Regarding D.a.i.e.1 and D.a.i.e.2, a valid signature on the service plan is either the signature of a participant with the capacity to approve the plan or a person who has been designated on the OCDD Authorized Representative Form as such.

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the state's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction and the state's method for analyzing information from individual problems, identifying systemic deficiencies, and implementing remediation actions. In addition, provide information on the methods used by the state to document these items.

D.a.i.c.1: The LGE receives quarterly reports from the Medicaid Data Contractor for review. If the participant's annual Plan

of Care (POC) was not submitted within the required timeline, the LGE will contact the support coordination agency. The support coordination agency will have 10 days to respond identifying why the plans of care were not timely submitted. Depending upon the scope and persistence of such problems, OCDD may pursue sanctions as outlined in the Support Coordination Performance Agreement including withholding payment.

D.a.i.d.1: The LGE receives quarterly reports from the Medicaid Data Contractor in order to review trends and patterns of under-utilization of services. If this appears to be an isolated event, the LGE will follow up with the support coordination agency to determine the reason and the support coordinator shall revise the POC as necessary. If the POC revision is not submitted within the timeframe, OCDD shall pursue sanctions as outlined in the Support Coordination Performance Agreement. If this appears to be widespread, the LGE will consult with OCDD State Office who will then bring the issue to the Performance Review Committee and the OCDD Executive Management team for review and resolution.

D.a.i.d.2: The LGE receives quarterly reports from the Medicaid Data Contractor in order to review trends and patterns of under-utilization of services. If the LGE discovers under-utilization due to a particular agency, among certain services, lack of availability of services, etc., the LGE will consult with OCDD State Office who will then bring the issue to the Performance Review Committee and the OCDD Executive Management Team for review and resolution.

The State's method for addressing individual problems identified through the remaining performance measures is as follows: LGE staff perform monitoring of Support Coordinator Agencies (SCA) at least annually utilizing the OCDD Support Coordination Monitoring Tools: Participant Interview; Participant Record Review; Support Coordinator Interview; and Agency Review. The processes for scoring and determining the necessity for corrective actions are located in the "Updated Guidelines for Scoring, Corrective Action and Follow-up Monitoring." After all elements are assessed and scored, the LGE reviewer documents the findings, including the Statement of Determination which delineates every POC remediation required and required responses/plans of correction expected from the SCA. Based on the scope and severity of findings, the SCA is assigned a Statement of Determination at Level I, Level II, or Level III. The LGE office and/or State Office follow-up according to timelines associated with each level to ensure that plans of correction are implemented and effective. Level III determinations are those having the actual or potential for immediate jeopardy. In these cases, the SCA must develop a plan of correction that includes the identification of the problem; full description of the underlying causes of the problem; actions/interventions that target each underlying cause; responsibility, timetable, and resources required to implement interventions; measurable indicators for assessing performance; and plans for monitoring desired progress and reporting results. In addition, OCDD takes enforcement action to assure the health and safety of participants. Actions include, but are not limited to: transfer of participants who are/may be in jeopardy; removal of SCA agency from the freedom of choice list; suspension of all new admissions; financial penalties; suspension of contract/certifications as a provider of SC services.

If a Plan of Correction, Progress Report and/or Follow-up Report remains unapproved by the time of the next annual review the agency placed on the next level with more stringent requirements. With a finding of satisfactory or a recommendation for improvement no remediation is required. These remediation activities will be documented through tracking events in the Support Coordination Monitoring database.

Training will be necessary when trends are detected in plans of care that do not address: participant goals, needs (including health care needs), and preferences; how waiver and other services are coordinated; and identification of responsibilities to implement the plan. The training requirements depend on the Support Coordination Monitoring findings and are based on the criteria found in OCDD Interpretive Guidelines for the OCDD Participant Record Review.

An unsatisfactory plan of care is one with criteria "not met" according to the OCDD Interpretive Guidelines for the OCDD Participant Record Review.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

c. Timelines

When the state does not have all elements of the quality improvement strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Service Plans that are currently non-operational.

- ☒ No
- ☐ Yes

Please provide a detailed strategy for assuring Service Plans, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix E: Participant Direction of Services

Applicability *(from Application Section 3, Components of the Waiver Request):*

- ☒ **Yes. This waiver provides participant direction opportunities.** Complete the remainder of the Appendix.
- ☐ **No. This waiver does not provide participant direction opportunities.** Do not complete the remainder of the Appendix.

CMS urges states to afford all waiver participants the opportunity to direct their services. Participant direction of services includes the participant exercising decision-making authority over workers who provide services, a participant-managed budget or both.

Appendix E: Participant Direction of Services

E-1: Overview (1 of 13)

a. Description of Participant Direction. In no more than two pages, provide an overview of the opportunities for participant direction in the waiver, including: (a) the nature of the opportunities afforded to participants; (b) how participants may take advantage of these opportunities; (c) the entities that support individuals who direct their services and the supports that they provide; and, (d) other relevant information about the waiver's approach to participant direction.

Self-Direction is a service delivery option which allows participants (or their authorized representative) to exercise Employer Authority in the delivery of their authorized self-directed services (Individual Family Support).

Participants are informed of all available services and service delivery options, including Self-Direction, at the time of the initial assessment, annually, or as requested by participants or their authorized representative. Participants, who are interested in Self-Direction, need only notify their Support Coordinator who will facilitate the enrollment process.

A Medicaid enrolled fiscal/employer agent is responsible for processing the participant's employer-related payroll, withholding and depositing the required employment-related taxes, and sending payroll reports to the participant or his/her authorized representative.

Support Coordinators assist participants by providing the following activities:

Providing Freedom of Choice for Self-Direction FEA

- The development of the participant's Plan of Care;
- Organizing the unique resources the participant needs;
- Training participants on their employer responsibilities;
- Completing required forms for participation in Self-Direction;
- Back-up service planning;
- Budget planning;
- Verifying that potential employees meet program qualifications; and
- Ensuring participant's' needs are being met through services.

Appendix E: Participant Direction of Services

E-1: Overview (2 of 13)

b. Participant Direction Opportunities. Specify the participant direction opportunities that are available in the waiver.
Select one:

- ☒ **Participant: Employer Authority.** As specified in **Appendix E-2, Item a**, the participant (or the participant's representative) has decision-making authority over workers who provide waiver services. The participant may function as the common law employer or the co-employer of workers. Supports and protections are available for participants who exercise this authority.
- ☐ **Participant: Budget Authority.** As specified in **Appendix E-2, Item b**, the participant (or the participant's representative) has decision-making authority over a budget for waiver services. Supports and protections are available for participants who have authority over a budget.
- ☐ **Both Authorities.** The waiver provides for both participant direction opportunities as specified in **Appendix E-2**. Supports and protections are available for participants who exercise these authorities.

c. Availability of Participant Direction by Type of Living Arrangement. *Check each that applies:*

- ☒ Participant direction opportunities are available to participants who live in their own private residence or the home of a family member.
- ☐ Participant direction opportunities are available to individuals who reside in other living arrangements where services (regardless of funding source) are furnished to fewer than four persons unrelated to the proprietor.
- ☐ The participant direction opportunities are available to persons in the following other living arrangements

Specify these living arrangements:

Appendix E: Participant Direction of Services

E-1: Overview (3 of 13)

d. Election of Participant Direction. Election of participant direction is subject to the following policy (*select one*):

- ☐ Waiver is designed to support only individuals who want to direct their services.
- ☐ The waiver is designed to afford every participant (or the participant's representative) the opportunity to elect to direct waiver services. Alternate service delivery methods are available for participants who decide not to direct their services.
- ☒ The waiver is designed to offer participants (or their representatives) the opportunity to direct some or all of their services, subject to the following criteria specified by the state. Alternate service delivery methods are available for participants who decide not to direct their services or do not meet the criteria.

Specify the criteria

To be eligible, the participant must:

- Be able to participate in the Self-Direction option without a lapse in or decline in quality of care or an increased risk to health and welfare. Health and welfare safeguards are articulated in Appendix G of this document and include the application of a comprehensive monitoring strategy and risk assessment and management system.
- Complete the training programs (e.g. initial enrollment training) designated by OCDD.
- Understand the rights, risks, and responsibilities of managing his/her own care, effectively managing his/her Plan of Care; or if unable to make decisions independently have a willing decision maker (authorized representative as listed on the participant's Plan of Care) who understands the rights, risks, and responsibilities of managing the care and supports of the participant within their Plan of Care.

Appendix E: Participant Direction of Services

E-1: Overview (4 of 13)

e. Information Furnished to Participant. Specify: (a) the information about participant direction opportunities (e.g., the benefits of participant direction, participant responsibilities, and potential liabilities) that is provided to the participant (or the participant's representative) to inform decision-making concerning the election of participant direction; (b) the entity or entities responsible for furnishing this information; and, (c) how and when this information is provided on a timely basis.

Participants are informed of the Self-Direction option at the time of the initial assessment, annually, or as requested by participants or their authorized representative. If the participant is interested, the Support Coordinator will provide more information on the principles of self-determination, the services that can be self-directed, the roles and responsibilities of each service option, and the benefits and risks of each service option, and the process for enrolling in Self-Direction.

Prior to enrolling in Self-Direction, the participant or his/her authorized representative is trained by the support coordinator on the material contained in the Self-Direction Employer Handbook. This includes training the participant (or his/her authorized representative) on the process for completing the following duties:

- Best practices in recruiting, hiring, training, and supervising staff;
- Determining and verifying staff qualifications;
- The process for obtaining criminal background checks on staff;
- Determining the duties of staff based on the service specifications;
- Determining the wages for staff within the limits set by the state;
- Scheduling staff and determining the number of staff needed.
- Orienting and instructing staff in duties;
- Best practices for evaluating staff performance;
- Verifying time worked by staff and approving timesheets;
- Terminating staff, as necessary;
- Emergency Preparedness planning; and
- Back-up planning.

This training also includes a discussion on the differences between Self-Direction and other service delivery options (which includes the benefits, risks, and responsibilities associated with each service option) and the roles and responsibilities of the employer, support coordinator, and fiscal/employer agent.

Participants who choose Self-Direction are provided with a copy of the Self-Direction Employer Handbook by the Support Coordinator or OCDD. Participants verify that they have received the required training from their support coordinator and a copy of the Self-Direction Employer Handbook by signing the Service Agreement form.

The Self-Direction Employer Handbook was developed through contribution and feedback from participants and families to ensure that the information is easy-to-understand and addresses participant's perspective.

Appendix E: Participant Direction of Services

E-1: Overview (5 of 13)

f. Participant Direction by a Representative. Specify the state's policy concerning the direction of waiver services by a representative (*select one*):

- ☐ The state does not provide for the direction of waiver services by a representative.
- ☒ The state provides for the direction of waiver services by representatives.

Specify the representatives who may direct waiver services: (*check each that applies*):

- ☒ Waiver services may be directed by a legal representative of the participant.
- ☒ Waiver services may be directed by a non-legal representative freely chosen by an adult participant.
Specify the policies that apply regarding the direction of waiver services by participant-appointed representatives, including safeguards to ensure that the representative functions in the best interest of the participant:

Participants have the right to have a non-legal authorized representative perform the employer or managing employer responsibilities. The employer should live in the state of Louisiana and in closer enough proximity to be able to manage the needed day to day activities that a waiver provider would ordinarily perform. The support coordinator is responsible to ensure that the selected authorized representative agrees to fulfill the responsibilities of the employer or managing employer by ensuring the completion of the standard agreement form. If an authorized representative is desired by the participant, they must:

- Effectuate the decision the participant would make for himself/herself;
- Accommodate the participant, to the extent necessary that they can participate as fully as possible in all decisions that affect them;
- Give due consideration to all information including the recommendations of other interested and involved parties; and
- Embody the guiding principles of self-determination.

A participant may designate any person 21 years of age or older as an authorized representative unless a legal representative has been designated by a court or is otherwise limited by existing or pending legal action prohibiting someone from serving as an authorized representative.

An authorized representative may not receive payment for functioning as an authorized representative, nor may they receive payment for any waiver service provided to support the participant. The Employer/authorized self-direction representative and employee cannot be the same person.

The employer should act in the best interest of the beneficiary hiring staff to meet his/her needs providing safeguard against exploitation of the beneficiary.

The support coordinator must recognize the participant's authorized representative as a decision-maker, and provide the authorized representative with all of the information, training, and support the support coordinator would typically provide to a participant who is self-directing. The support coordinator must fully inform the authorized representative of the rights and responsibilities of an authorized representative in accordance with established procedures. The support coordinator must have the authorized representative review and sign a standard agreement form, which must be given to the authorized representative and maintained by the support coordinator. The agreement lists the roles and responsibilities of the authorized representative; asserts that the authorized representative accepts the roles and responsibilities of this function; and asserts that the authorized representative will abide by Medicaid Waiver policies and procedures.

Service plan monitoring takes place with each participant. Several questions on the standard service plan monitoring tool can prompt the identification of any issues with the authorized representative not acting in the best interest of the participant. Issues noted on the monitoring tool are addressed by Support Coordinators, LGE office and OCDD.

The support coordinator is required to address and report any issues identified with the authorized representative's performance including but not limited to compliance to Medicaid Waiver policies on incident reporting and report any incident of suspected fraud or abuse.

Appendix E: Participant Direction of Services

E-1: Overview (6 of 13)

g. Participant-Directed Services. Specify the participant direction opportunity (or opportunities) available for each waiver service that is specified as participant-directed in Appendix C-1/C-3.

Waiver Service	Employer Authority	Budget Authority
Community Living Supports	☒	☐

Appendix E: Participant Direction of Services

E-1: Overview (7 of 13)

h. Financial Management Services. Except in certain circumstances, financial management services are mandatory and

integral to participant direction. A governmental entity and/or another third-party entity must perform necessary financial transactions on behalf of the waiver participant. *Select one:*

- ☒ **Yes. Financial Management Services are furnished through a third party entity.** *(Complete item E-1-i).*

Specify whether governmental and/or private entities furnish these services. *Check each that applies:*

☐ **Governmental entities**

☒ **Private entities**

- ☐ **No. Financial Management Services are not furnished. Standard Medicaid payment mechanisms are used.** *Do not complete Item E-1-i.*

Appendix E: Participant Direction of Services

E-1: Overview (8 of 13)

- i. Provision of Financial Management Services.** Financial management services (FMS) may be furnished as a waiver service or as an administrative activity. *Select one:*

- ☒ **FMS are covered as the waiver service specified in Appendix C-1/C-3**

The waiver service entitled:

Financial Management Services

- ☐ **FMS are provided as an administrative activity.**

Provide the following information

- i. Types of Entities:** Specify the types of entities that furnish FMS and the method of procuring these services:

Fiscal management services are provided by a Medicaid Enrolled fiscal/employer agency.

- ii. Payment for FMS.** Specify how FMS entities are compensated for the administrative activities that they perform:

Fiscal Management entity billed the Fiscal Intermediary monthly for services.

- iii. Scope of FMS.** Specify the scope of the supports that FMS entities provide *(check each that applies):*

Supports furnished when the participant is the employer of direct support workers:

- ☒ **Assist participant in verifying support worker citizenship status**
☒ **Collect and process timesheets of support workers**
☒ **Process payroll, withholding, filing and payment of applicable federal, state and local employment-related taxes and insurance**
☐ **Other**

Specify:

Supports furnished when the participant exercises budget authority:

- ☐ **Maintain a separate account for each participant's participant-directed budget**
☐ **Track and report participant funds, disbursements and the balance of participant funds**

- ☐ Process and pay invoices for goods and services approved in the service plan
- ☐ Provide participant with periodic reports of expenditures and the status of the participant-directed budget
- ☐ Other services and supports

Specify:

Additional functions/activities:

- ☐ Execute and hold Medicaid provider agreements as authorized under a written agreement with the Medicaid agency
- ☒ Receive and disburse funds for the payment of participant-directed services under an agreement with the Medicaid agency or operating agency
- ☐ Provide other entities specified by the state with periodic reports of expenditures and the status of the participant-directed budget
- ☐ Other

Specify:

iv. Oversight of FMS Entities. Specify the methods that are employed to: (a) monitor and assess the performance of FMS entities, including ensuring the integrity of the financial transactions that they perform; (b) the entity (or entities) responsible for this monitoring; and, (c) how frequently performance is assessed.

The Bureau of Health Services Financing (BHSF) is responsible for the monitoring of the performance and financial integrity of FMS. BHSF performs monitoring of the fiscal/employer agent's claims payment activities, billing history, and adherence to the terms of Medicaid enrollment and performance agreement on an on-going basis. OCDD provides BHSF with any data or other relevant information regarding the fiscal/employer agent's performance. If any problems are identified (regardless of origination of issue), BHSF will require a corrective action plan from the fiscal/employer agent and will monitor its implementation.

Semi-monthly statements of participants' employer-related payroll activities are sent to the participant, BHSF, and the OCDD for review to monitor the utilization of plan of care units and payments.

In addition, BHSF requires that the fiscal/employer agent submit an annual independent audit by a Certified Public Accountant (CPA) to verify that expenditures are accounted for and disbursed according to generally accepted accounting principles.

Appendix E: Participant Direction of Services

E-1: Overview (9 of 13)

j. Information and Assistance in Support of Participant Direction. In addition to financial management services, participant direction is facilitated when information and assistance are available to support participants in managing their services. These supports may be furnished by one or more entities, provided that there is no duplication. Specify the payment authority (or authorities) under which these supports are furnished and, where required, provide the additional information requested (*check each that applies*):

- ☒ **Case Management Activity.** Information and assistance in support of participant direction are furnished as an element of Medicaid case management services.

Specify in detail the information and assistance that are furnished through case management for each participant direction opportunity under the waiver:

Support Coordinators will inform participants of the Self-Direction option at the time of initial assessment, annually, and as requested by participants or their authorized representative. If participants or their authorized representative are interested, the Support Coordinator shall provide detailed information regarding the differences between service delivery options, roles and responsibilities in Self-Direction, and benefits and risks associated with Self-Direction. The Support Coordinator is responsible for providing the participant or their authorized representative with the Self-Direction Employer Handbook.

If the participant decides that he/she would like to participate in this option, the support coordinator shall notify the LGE office and the Self-Direction Program Manager. Once notified by LGE office that the participant is eligible to participate in Self-Direction, the Support Coordinator facilitates the scheduling of the initial Self-Direction planning meeting.

The Support Coordinator will assist participants and their authorized representative with determining the number of direct care workers needed, preparing and completing of required forms as needed, determining what resources the participant will need to participate in Self-Direction, and arranging for other needed supports and services. The Support Coordinator will be responsible for training the participant (or his/her authorized representative) on the material contained in the Self-Direction Employer Handbook, which includes information on recruiting, hiring, and managing staff.

The Support Coordinator will then facilitate planning and preparation of the Plan of Care/revision, which will be submitted to the LGE office for approval. Support Coordinator is responsible for monitoring service delivery and implementation dates, and updating the participant's Plan of Care annually or as changes in service needs occur. The Support Coordination supervisor or LGE office, as defined in OCDD policy, will approve changes as needed.

Support Coordinators also act as a resource and advocate for the participant in identifying and obtaining formal and informal supports, assist the participant in working with the fiscal/employer agent, and provide employment support to participants inclusive of the duties specified in Appendix E-2-a-ii.

- ☒ **Waiver Service Coverage.**

Information and assistance in support of participant direction are provided through the following waiver service coverage(s) specified in Appendix C-1/C-3 (check each that applies):

Participant-Directed Waiver Service	Information and Assistance Provided through this Waiver Service Coverage
Adult Day Health Care	☐
Professional Services	☐
Respite Services - Out of Home	☐
Dental Services	☐
Support Coordination	☒
Monitored In Home Caregiving	☐
Supported Employment	☐
One-Time Transitional Services	☐

Participant-Directed Waiver Service	Information and Assistance Provided through this Waiver Service Coverage
Prevocational Services	☐
Nurse Consult	☐
Community Life Engagement Development	☐
Skilled Nursing	☐
Transportation-Community Access	☐
Housing Stabilization Transition Service	☐
Environmental Accessibility Adaptations	☐
Financial Management Services	☐
Host Home	☐
Community Living Supports	☐
Day Habilitation	☐
Housing Stabilization Service	☐
Shared Living Services	☐
Assistive Technology/Specialized Medical Equipment and Supplies	☐
Personal Emergency Response System	☐
Companion Care	☐

- ☐ **Administrative Activity.** Information and assistance in support of participant direction are furnished as an administrative activity.

Specify (a) the types of entities that furnish these supports; (b) how the supports are procured and compensated; (c) describe in detail the supports that are furnished for each participant direction opportunity under the waiver; (d) the methods and frequency of assessing the performance of the entities that furnish these supports; and, (e) the entity or entities responsible for assessing performance:

Appendix E: Participant Direction of Services

E-1: Overview (10 of 13)

k. Independent Advocacy (select one).

- ☐ No. Arrangements have not been made for independent advocacy.
- ☒ Yes. Independent advocacy is available to participants who direct their services.

Describe the nature of this independent advocacy and how participants may access this advocacy:

All waiver participants have access to independent advocacy through the Disability Rights Louisiana (formerly the Advocacy Center) in Louisiana.

The Disability Rights Louisiana has a multi-disciplinary staff of lawyers, paralegals, client advocates and support staff who provide the following services: Information and Referral, Legal Assistance, Systems Advocacy, Outreach and Training, Legislative information and Education, and Investigations of Abuse and Neglect.

The Disability Rights Louisiana is Louisiana's protection and advocacy system. Federal law requires that a protection and advocacy system operate in every state to protect the rights of persons with mental or physical disabilities. The Disability Rights Louisiana serves Louisiana residents with physical disabilities, mental illness, intellectual disabilities, and traumatic brain injury. The Disability Rights Louisiana provides services to people with disabilities and seniors regardless of income.

The Disability Rights Louisiana helps to give individuals ability to gain access to skills and knowledge to act on their own behalf. The Disability Rights Louisiana provides a variety of booklets, reports, flyers, and other resources pertaining to persons 60 years or older and persons with disabilities. The Disability Rights Louisiana does not provide other direct services or perform waiver functions that have a direct impact on a participant.

Support Coordinators are responsible for informing participants of the availability of independent advocacy.

Appendix E: Participant Direction of Services

E-1: Overview (11 of 13)

- l. Voluntary Termination of Participant Direction.** Describe how the state accommodates a participant who voluntarily terminates participant direction in order to receive services through an alternate service delivery method, including how the state assures continuity of services and participant health and welfare during the transition from participant direction:

Selection of the Self-Direction option is strictly voluntary and the participant may choose at any time to withdraw and return to traditional payment option. Withdrawal requires a revision of the Plan of Care, eliminating the FMS and indicating the Medicaid-enrolled waiver service provider of choice. Procedures must follow those outlined by OCDD policy. Proper arrangements will be made by the support coordinator to ensure that there is no lapse in services.

Should the request for voluntary withdrawal occur, the participant will receive counseling and assistance from his/her Support Coordinator immediately upon identification of issues or concerns in any of the above situations

Appendix E: Participant Direction of Services

E-1: Overview (12 of 13)

- m. Involuntary Termination of Participant Direction.** Specify the circumstances when the state will involuntarily terminate the use of participant direction and require the participant to receive provider-managed services instead, including how continuity of services and participant health and welfare is assured during the transition.

Involuntary termination requires a revision of the Plan of Care, eliminating the fiscal/employer agency and indicating the Medicaid-enrolled waiver service provider of choice. Procedures must follow those outlined in the Support Coordination Manual.

Involuntary termination may occur for the following reasons:

If the participant does not receive self-directed services for ninety days or more.

If at any time OCDD determines that the health, safety, and welfare of the participant is compromised by continued participation in the Self-Direction option, the participant will be required to return to the traditional payment option.

If there is evidence that the participant is no longer able to direct his/her own care and there is no responsible representative to direct the care and the Support Coordinator agrees, then the participant will be required to return to the traditional payment option.

If the participant or the authorized representative/co-signer consistently:

- o Permits employees to work over the hours approved in the participants Plan of Care or allowed by the participants program

- o Places barriers to the payment of the salaries and related state and federal payroll taxes of direct support staff, as documented by the fiscal/employer agent.

- o Fails to provide required documentation of expenditures and related items, or fails to cooperate with the fiscal/employer agent or support coordinator in preparing any additional documentation of expenditures, as documented by the fiscal/employer agent and/or the Support Coordinator.

- o Violates Medicaid program rules or guidelines of the of the Self-Direction option.

If the participant becomes ineligible for Medicaid and/or home and community-based waiver services, the applicable rule for case closure/discharge will be applied.

If there is proof of misuse of public funds.

When action is taken to terminate a participant from Self-Direction involuntarily, the Support Coordinator immediately assists the participant in accessing needed and appropriate services through the ROW and other available programs, ensuring that no lapse in necessary services occurs for which the participant is eligible. There is no denial of services, only the transition to a different payment option. The participant and Support Coordinator are provided with a written notice explaining the reason for the action and citing the policy reference.

Appendix E: Participant Direction of Services

E-1: Overview (13 of 13)

n. Goals for Participant Direction. In the following table, provide the state's goals for each year that the waiver is in effect for the unduplicated number of waiver participants who are expected to elect each applicable participant direction opportunity. Annually, the state will report to CMS the number of participants who elect to direct their waiver services.

Table E-1-n

	Employer Authority Only	Budget Authority Only or Budget Authority in Combination with Employer Authority
Waiver Year	Number of Participants	Number of Participants
Year 1	278	
Year 2	305	
Year 3	333	

	Employer Authority Only	Budget Authority Only or Budget Authority in Combination with Employer Authority
Waiver Year	Number of Participants	Number of Participants
Year 4	361	
Year 5	389	

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant Direction (1 of 6)

a. Participant - Employer Authority Complete when the waiver offers the employer authority opportunity as indicated in Item E-1-b:

i. Participant Employer Status. Specify the participant's employer status under the waiver. *Select one or both:*

- ☐ **Participant/Co-Employer.** The participant (or the participant's representative) functions as the co-employer (managing employer) of workers who provide waiver services. An agency is the common law employer of participant-selected/recruited staff and performs necessary payroll and human resources functions. Supports are available to assist the participant in conducting employer-related functions.

Specify the types of agencies (a.k.a., agencies with choice) that serve as co-employers of participant-selected staff:

- ☒ **Participant/Common Law Employer.** The participant (or the participant's representative) is the common law employer of workers who provide waiver services. An IRS-approved Fiscal/Employer Agent functions as the participant's agent in performing payroll and other employer responsibilities that are required by federal and state law. Supports are available to assist the participant in conducting employer-related functions.

ii. Participant Decision Making Authority. The participant (or the participant's representative) has decision making authority over workers who provide waiver services. *Select one or more decision making authorities that participants exercise:*

- ☒ **Recruit staff**
- ☐ **Refer staff to agency for hiring (co-employer)**
- ☐ **Select staff from worker registry**
- ☒ **Hire staff common law employer**
- ☒ **Verify staff qualifications**
- ☒ **Obtain criminal history and/or background investigation of staff**

Specify how the costs of such investigations are compensated:

Criminal background checks are conducted by the Fiscal Employer Agent and results are shared with the employer. The cost of criminal background checks are a component of the FMS rate methodology.

- ☒ **Specify additional staff qualifications based on participant needs and preferences so long as such qualifications are consistent with the qualifications specified in Appendix C-1/C-3.**

Specify the state's method to conduct background checks if it varies from Appendix C-2-a:

As referenced in C-2a, the FEA provider is responsible for assuring that Medicaid exclusion checks, are conducted on all prospective self-direction employees. Once the FEA provider verifies that the employee has cleared the background check and successfully completed all enrollment activities, the employee is approved to provide services.

- ☒ Determine staff duties consistent with the service specifications in Appendix C-1/C-3.
- ☒ Determine staff wages and benefits subject to state limits
- ☒ Schedule staff
- ☒ Orient and instruct staff in duties
- ☒ Supervise staff
- ☒ Evaluate staff performance
- ☒ Verify time worked by staff and approve time sheets
- ☒ Discharge staff (common law employer)
- ☐ Discharge staff from providing services (co-employer)
- ☐ Other

Specify:

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (2 of 6)

b. Participant - Budget Authority Complete when the waiver offers the budget authority opportunity as indicated in Item E-1-b:

Answers provided in Appendix E-1-b indicate that you do not need to complete this section.

i. Participant Decision Making Authority. When the participant has budget authority, indicate the decision-making authority that the participant may exercise over the budget. *Select one or more:*

- ☐ Reallocate funds among services included in the budget
- ☐ Determine the amount paid for services within the state's established limits
- ☐ Substitute service providers
- ☐ Schedule the provision of services
- ☐ Specify additional service provider qualifications consistent with the qualifications specified in Appendix C-1/C-3
- ☐ Specify how services are provided, consistent with the service specifications contained in Appendix C-1/C-3
- ☐ Identify service providers and refer for provider enrollment
- ☐ Authorize payment for waiver goods and services
- ☐ Review and approve provider invoices for services rendered
- ☐ Other

Specify:

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (3 of 6)

b. Participant - Budget Authority

Answers provided in Appendix E-1-b indicate that you do not need to complete this section.

- ii. Participant-Directed Budget** Describe in detail the method(s) that are used to establish the amount of the participant-directed budget for waiver goods and services over which the participant has authority, including how the method makes use of reliable cost estimating information and is applied consistently to each participant. Information about these method(s) must be made publicly available.

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (4 of 6)

b. Participant - Budget Authority

Answers provided in Appendix E-1-b indicate that you do not need to complete this section.

- iii. Informing Participant of Budget Amount.** Describe how the state informs each participant of the amount of the participant-directed budget and the procedures by which the participant may request an adjustment in the budget amount.

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (5 of 6)

b. Participant - Budget Authority

Answers provided in Appendix E-1-b indicate that you do not need to complete this section.

- iv. Participant Exercise of Budget Flexibility.** *Select one:*

- ☐ Modifications to the participant directed budget must be preceded by a change in the service plan.
- ☐ The participant has the authority to modify the services included in the participant directed budget without prior approval.

Specify how changes in the participant-directed budget are documented, including updating the service plan. When prior review of changes is required in certain circumstances, describe the circumstances and specify the entity that reviews the proposed change:

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (6 of 6)

b. Participant - Budget Authority

Answers provided in Appendix E-1-b indicate that you do not need to complete this section.

- v. **Expenditure Safeguards.** Describe the safeguards that have been established for the timely prevention of the premature depletion of the participant-directed budget or to address potential service delivery problems that may be associated with budget underutilization and the entity (or entities) responsible for implementing these safeguards:

Appendix F: Participant Rights

Appendix F-1: Opportunity to Request a Fair Hearing

The state provides an opportunity to request a Fair Hearing under 42 CFR Part 431, Subpart E to individuals: (a) who are not given the choice of home and community-based services as an alternative to the institutional care specified in Item 1-F of the request; (b) are denied the service(s) of their choice or the provider(s) of their choice; or, (c) whose services are denied, suspended, reduced or terminated. The state provides notice of action as required in 42 CFR §431.210.

Procedures for Offering Opportunity to Request a Fair Hearing. Describe how the individual (or his/her legal representative) is informed of the opportunity to request a fair hearing under 42 CFR Part 431, Subpart E. Specify the notice(s) that are used to offer individuals the opportunity to request a Fair Hearing. State laws, regulations, policies and notices referenced in the description are available to CMS upon request through the operating or Medicaid agency.

The Louisiana Medicaid Eligibility Manual states, every applicant for and enrollee of Louisiana Medicaid benefits has the right to appeal any agency action or decision and has the right to a fair hearing in the presence of an impartial hearing officer. (Medicaid Eligibility Manual, T-100/Fair Hearings/General Information).

Both applicants and recipients are afforded the right to request a fair hearing for services which have been denied, not acted upon with reasonable promptness, suspended, terminated, reduced or discontinued'. In accordance with , La. R.S. 46:107 a person may file an administrative appeal to the Division of Administrative Law - A: Department of Health regarding the following determinations:

- 1) A finding by the office that the person does not qualify for system entry;
- 2) Involuntary reduction or termination of a support or service;
- 3) Discharge from the system; and/or
- 4) Other cases as stated in office policy or as promulgated in regulation.

The participant or his/her representative may request a reconsideration and present supporting documentation if he/she disagrees with the specific OCDD waiver offered as a result of the initial needs based assessment and person-centered planning process. If the participant disagrees with the reconsideration decision, he/she may request a fair hearing through the formal appeals process (Louisiana Department of Health, Division of Administration Law (DAL) process as referenced in in this appendix.

During the initial assessment process, the Support Coordinator will give a participant and his/her legal representatives an OCDD information sheet entitled Rights and Responsibilities for Applicants/Participants of a Home and Community Based Waiver which includes information on how to file a complaint, grievance, or appeal with the Louisiana Department of Health . A copy of this information sheet is kept in the participant's record at the Support Coordination agency's physical location of business. In addition, the Plan of Care contains a section that addresses the right to a fair hearing within ten days, and how to request a fair hearing, if the participant and his/her legal representatives disagree with any decision rendered regarding approval of the plan. Dated signatures of the participant, his/her legal representatives, and a witness are required on this section. Copies of the service plan, including this section are kept in the appropriate LGE and the Support Coordination agency's physical location of business.

If an individual does not receive the Louisiana Medicaid Long Term Care Choice of Service form offering the choice of home and community based services as an alternative to institutional care, and/or the Freedom of Choice form for case management and/or direct service providers, he/she or his/her legal representatives may request a fair hearing with the Division of Administrative Law in the Louisiana Department of Health in writing, by phone or e-mail. The LGE is responsible for giving information to the individual and his/her legal representatives of how to contact the Louisiana Department of Health Division of Administrative Law by writing, phone or e-mail, and how to contact The Advocacy Center by phone or mail. This is done at the time of enrollment and at any other time the participant and his/her legal representative requests the number(s).

BHSF utilizes the Adequate Notice of Home and Community Based Services (Waiver) Decision Notice Form 18W to notify individuals by mail if they have not been approved for Home and Community Based Waiver services due to financial ineligibility. A separate page is attached to this form entitled Your Fair Hearing Rights. This page contains information on how to request a fair hearing, how to obtain free legal assistance, and a section to complete if the individual is requesting a fair hearing. If the participant does not return this form, it does not prohibit his right to appeal and receive a fair hearing.

In accordance with 42CFR 431.206, 210 and 211, participants receiving waiver services, and their legal representatives are sent a certified letter with return receipt to ensure the participant receives it by the appropriate LGE providing 10 days advance and adequate notification of any proposed denial, reduction, or termination of waiver services. Included in the letter are instructions for requesting a fair hearing, and notification that an oral or written request must be made within ten days of receipt of a proposed adverse action by the LGE in order for current waiver services remain in place during the appeal process. If the appeal request is not made within ten days, but is made within thirty days, all Medicaid waiver services are discontinued on the eleventh day; services that are continued until the final decision is rendered are not billable under the Medicaid waiver. If the final decision of the Administrative Law Judge is favorable to the appellant, services are re-implemented from the date of the final decision. An appeal hearing is not granted if the appeal request is made later than thirty days following receipt of a proposed adverse action sent by the LGE. Once a request for an appeal is received, the LGE must submit the request to the Division of Administrative Law - Department of Health section no later than seven calendar days after receipt. A copy of the letter and the response/request is kept in the participant's record at the appropriate LGE.

During an appeal request and/or fair hearing the Support Coordinator provides:
Assistance as requested by the participant and his/her legal representatives;
Documentation in progress notes of the status of the appeal; and

Information the participant and his/her legal representatives need to complete the appeal or prepare for a fair hearing.

Anyone requesting an appeal has the right to withdraw the appeal request at any time prior to the hearing. The appellant may contact the Division of Administrative Law directly, or may request withdrawal through the LGE. Requests for withdrawal are kept in the participant's record at the appropriate LGE.

Louisiana Administrative Code Title 48, Part I, Subpart 3, Chapter Home and Community Based Service Provider Licensing Standards, Subchapter C, Admission, Transfer and Discharge Criteria, require that enrolled providers of waiver services provide participants and their legal representatives notice in writing at least thirty days prior to the transfer or discharge from the provider agency with the proposed date of the transfer/discharge, the reason for the action, and the names of personnel available to assist the participant throughout the process. The enrolled provider of waiver services must also provide the participant and his/her legal representatives with information on how to request an appeal of a decision for involuntary discharge. A copy of the notice of intent to transfer/discharge, and information that was provided on how to access the appeal process is kept in the participant's record at the enrolled provider of waiver services physical location of business.

All Administrative Hearings are conducted in accordance with the Louisiana Administrative Procedure Act, La. R.S. 49:950 et seq. Any party may appear and be heard at any appeals proceeding through an attorney at law or through a designated representative.

Fair Hearing regarding dental services refer to LA.0005- Section A Part IV E Grievances

Appendix F: Participant-Rights

Appendix F-2: Additional Dispute Resolution Process

a. Availability of Additional Dispute Resolution Process. Indicate whether the state operates another dispute resolution process that offers participants the opportunity to appeal decisions that adversely affect their services while preserving their right to a Fair Hearing. *Select one:*

- ☒ **No. This Appendix does not apply**
- ☐ **Yes. The state operates an additional dispute resolution process**

- **Description of Additional Dispute Resolution Process.** Describe the additional dispute resolution process, including: (a) the state agency that operates the process; (b) the nature of the process (i.e., procedures and timeframes), including the types of disputes addressed through the process; and, (c) how the right to a Medicaid Fair Hearing is preserved when a participant elects to make use of the process: State laws, regulations, and policies referenced in the description are available to CMS upon request through the operating or Medicaid agency.

Appendix F: Participant-Rights

Appendix F-3: State Grievance/Complaint System

a. Operation of Grievance/Complaint System. *Select one:*

- ☐ **No. This Appendix does not apply**
- ☒ **Yes. The state operates a grievance/complaint system that affords participants the opportunity to register grievances or complaints concerning the provision of services under this waiver**

- **Operational Responsibility.** Specify the state agency that is responsible for the operation of the grievance/complaint system:

LDH Health Standards Section (HSS) is responsible for receiving, responding to and determining the necessity of and/or scope of investigation for all complaints in which the allegations involve potential non-compliance of Home and Community Based (HCBS) licensing standards by the direct service provider.

The LGEs are responsible for receiving, reporting, and responding to customer complaints received for individual supported through the waiver in which the allegations involve alleged violations of waiver policy by the direct service provider and/or non-regulatory matters that are not handled by Health Standards.

Reference LA.0005 for Dental Benefit Plan grievance system.

- **Description of System.** Describe the grievance/complaint system, including: (a) the types of grievances/complaints that participants may register; (b) the process and timelines for addressing grievances/complaints; and, (c) the mechanisms that are used to resolve grievances/complaints. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The Office for Citizens with Developmental Disabilities (OCDD) is responsible for receiving, reporting and responding to customer complaints received for people supported through their office including those supported through the ROW in which the allegations involve alleged violations of waiver policy by the direct service provider and/or non-regulatory matters that are not handled by Health Standards. A complaint is a concern, dissatisfaction, or dispute expressed through written or verbal communication or expressed through other means, such as assistive devices, regarding: care, supports and services, action or inaction of staff, department or agency requirement, regulation or policy or other circumstances affecting quality of care or quality of life, including allegations of rights of violations. Each OCDD entity including LGEs or State Office are responsible for receiving, reporting, and responding to customer complaints. Each OCDD entity is responsible for training their staff, participants, their families, and providers regarding OCDD's policy on complaints. A complaint may be made in person or by phone, fax, e-mail or mail to an OCDD entity. When a complaint is received by an OCDD entity the complaint is reviewed to determine if the complaint can be resolved by OCDD or if the complaint needs to be referred to another agency (Bureau of Health Services Financing, Protective Services, etc.) for action/resolution. The initiation of the complaint review and follow-up occurs within two business days of receipt of the complaint. Actions to resolve the complaint will be completed within fifteen calendar days of receipt of the complaint, unless an extension is granted. A written response describing the actions in response to the complaint, is mailed to the complainant within five (5) business days of the complaint resolution/action. OCDD entities will continue to follow up with other agencies regarding complaint action/resolution. All complaints are entered into a database for tracking of complaints and quality management purposes.

Each OCDD entity will utilize complaint data from the complaint database to conduct quality reviews. A sample size of complaints is reviewed based on the number of complaints received and resolved each quarter. The reviews shall include contacting the complainants to assure their satisfaction with the resolution. The reports generated from the complaints database shall be evaluated to identify trends and patterns for determining appropriate strategies for improving services.

OCDD State Office shall conduct oversight activities to assure that OCDD entities comply with policy guidelines. At least five percent of the total complaints from OCDD entities are reviewed quarterly to assess whether the complaints were addressed according to requirements. Reports are evaluated to identify trends and patterns and to make recommendations for training, technical assistance or strategies for improving services.

The Health Standards Section (HSS) is responsible for the operation of grievance/complaints that involve the potential non-compliance of Home and Community Based licensing standards by the direct service provider.

- The HSS State Office maintains a toll free complaint line for receipt of complaints involving waiver participants as well as other home and community based services such as those provided through Medicaid State plan.
- The nature and scope of the complaint is at the discretion of the individual registering the complaint.
- The Health Standards toll free complaint line number, the LGE complaint line number and the number for protective services is printed on business cards, brochures, and fact sheet along with directions on what number to call depending upon the allegations being reported. It is given to participants and their legal representative(s) at intake by their support coordinator. During the pre-certification visit the LGE staff checks to make sure that the information has been given to them. The support coordinator reviews the information during quarterly face to face visits, and each year at the annual service plan team meeting, or whenever it is requested by the participant and his/her legal representative(s). A virtual meeting may be allowed if criteria is met as defined in the OCDD Policy and Procedures manual. If a virtual meeting is held, electronic verification is acceptable.
- HSS and LGE staff, as well as support agencies such as Families Helping Families distribute the HSS, LGE and protective services contact information when assisting participants and their legal representative(s). Direct service providers are also required to give the toll free numbers to all participants.
- Support coordinators are responsible for informing participants and their legal representative(s) initially, annually or whenever information about the system is requested that filing a grievance or complaint is not a pre-requisite or substitute for a Fair Hearing. LGE staff checks to make sure that this information has been relayed to them during the pre-certification visit.
- If LGE or State Office Staff is contacted by a participant/legal representative (s), other state agency, support coordinator or provider wishing to file a complaint, the entity staff will review and consider the information provided by the complainant and make a determination as to whether the complaint can be resolved by the LGE or whether additional action is required by HSS. If it is determined that there is evidence of non-compliance of the HCBS Licensing Standards, the LGE will refer the complainant to the HSS Complaint line within 24 hours.

HSS and the LGE triages all complaints in the following manner:

- Provider non-compliance licensing issues are resolved by HSS.
- Complaints identified as abuse, neglect, exploitation or extortion are referred immediately to the applicable protective services agency.

- All other types of complaints are referred to OCDD State Office for incident resolution. Complaints identified as critical events or incidents are investigated by the appropriate office within thirty days of receipt of such report.
- Pursuant to Louisiana Revised Statutes 40:2009.14 if the complaint involves provider non-compliance with HCBS licensing standards, HSS will investigate by on site visit or administrative desk review. A written report is sent to the complainant within 45 days of receipt of the completed investigation, if a response to the complaint is requested by the complainant.

Regarding dental services, please see LA.0005 Section A Part IV E Grievances.

Appendix G: Participant Safeguards

Appendix G-1: Response to Critical Events or Incidents

a. Critical Event or Incident Reporting and Management Process. Indicate whether the state operates Critical Event or Incident Reporting and Management Process that enables the state to collect information on sentinel events occurring in the waiver program. *Select one:*

- ☒ **Yes. The state operates a Critical Event or Incident Reporting and Management Process** (*complete Items b through e*)
- ☐ **No. This Appendix does not apply** (*do not complete Items b through e*)
- If the state does not operate a Critical Event or Incident Reporting and Management Process, describe the process that the state uses to elicit information on the health and welfare of individuals served through the program.

b. State Critical Event or Incident Reporting Requirements. Specify the types of critical events or incidents (including alleged abuse, neglect and exploitation) that the state requires to be reported for review and follow-up action by an appropriate authority, the individuals and/or entities that are required to report such events and incidents and the timelines for reporting. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Critical events or incidents that are required to be reported as required by Louisiana Revised Statute 14:403.2, which defines reporting criteria pertaining to any known or suspected abuse, neglect, exploitation or extortion, by the discoverer of the incident immediately upon discovery to the appropriate protective services agency for review and follow-up action are:

- Abuse (adult), as defined in Louisiana Revised Statute 15:503.
- Abuse (child), as defined in Louisiana Children's Code, Article 1003.
- Exploitation (adult), as defined in Louisiana Revised Statute 15:503.
- Extortion (adult), as defined in Louisiana Revised Statute 15:503.
- Neglect (adult), as defined in Louisiana Revised Statute 15:503.
- Neglect (child), as defined in Children's Code, Article 1003.

The following categories of incidents as defined in OCDD Operational Instruction #F-5: Critical Incident reporting, Tracking and Follow-up Activities for Waiver Services are required to be reported Statewide Incident reporting Management System (SIMS) by the provider or Support Coordinator:

- Death-determined by physician or coroner how issues the death certificate on all deaths are reportable
- Fall-occurs when the beneficiary is found on the floor or ground unintentionally or who comes to rest on the floor or ground unintentionally
- Involvement with Law Enforcement occurs when a participant, his/her staff, or others responsible for the participant's care, are involved directly or indirectly in an alleged criminal manner, resulting in law enforcement becoming involved
- Loss or Destruction of Home defined as damage to or loss of the participant's home that causes harm or the risk of harm to the participant.
- Major Behavioral Incident defined as an incident engaged in by a participant that is alleged, suspected, or witnessed by the reporter that can reasonably be expected to result in harm, or that may affect the safety and well-being of the participant
- Major Illness defined as any substantial change in health status, (suspected or confirmed) which requires medical treatment.
- Major Injury defined as any suspected or confirmed wound or injury to a participant of known or unknown origin requiring medical attention by a licensed health care provider.
- Missing-participant unable to be located
- Restraint Use defined as the application of a physical hold (personal restraints), mechanical device (mechanical restraint), and/or medication (chemical restraint) for the purpose of restricting or suppressing an individual's movement or preventing an individual access to their body.
- Medication Errors defined as the administration or self-administration of medication in an incorrect form, not as prescribed or ordered, or to the wrong person, or the failure to administer or self-administer a prescribed medication, which requires or results in medical attention by a physician, nurse, dentist, or any licensed health care provider.

The provider or support coordinator must create a critical incident report via the LDH incident reporting system by the close of the next business day after incident discovery.

The discoverer of suspected abuse, neglect, exploitation or extortion directed at a waiver participant must report the incident by telephone to the appropriate protective services hotline for entry into the protective services intake system.

The provider employee or Support Coordinator who discovers the incident must enter it into the LDH incident reporting system as directed in the OCDD Operational Instruction F-5.

The discoverer of any event that involves an OCDD waiver participant and meets the definition of one of the OCDD critical incident categories must either call in the incident or complete a hard-copy incident report and submit it to the Direct Service Provider or Support Coordinator to be entered into LDH incident reporting system as soon as possible, but no more than 10 business days after the discovery. The Direct Service Provider or Support Coordinator who receives the hard copy report must enter it in to LDH incident reporting system within 3 business days. A discoverer is defined as an employee of any support service for the waiver participant who receives reimbursement through the Medicaid waiver program, or an agent of the person who is participating in self-direction.

- c. Participant Training and Education.** Describe how training and/or information is provided to participants (and/or families or legal representatives, as appropriate) concerning protections from abuse, neglect, and exploitation, including how participants (and/or families or legal representatives, as appropriate) can notify appropriate authorities or entities when the participant may have experienced abuse, neglect or exploitation.

The state provides information to the participant, his/her family, authorized representative or authorized representative during initial waiver planning/certification and annually thereafter.

Abuse, neglect and exploitation is discussed with the participant and/or families or legal representative initially by the support coordination agency, the local governing entity, and the provider agency. During the initial planning process, participants receive information regarding their right to be free from abuse, neglect and exploitation and how to report suspected abuse, neglect, or exploitation or extortion.

Each participant and their legal guardian or authorized representative receives a copy of the OCDD Participant Rights and Responsibility form which contains the phone number to the Health Standards Complaint line and the OCDD Complaint Line, as well as the phone number to the different protective services agencies:(Elderly Protective Services (EPS), Adult Protective Services (APS) or Child Protected Services. CPS).

During the annual plan of care meeting process, the OCDD Rights and Responsibilities form is reviewed and discussed, which includes a conversation regarding abuse, neglect, and exploitation. A copy of the OCDD Rights and Responsibilities form is given to the participant/family and is retained in the home. The form contains the phone number to the Health Standards Complaint line as well as the phone number to the different protective services agencies. (Elderly Protective Services (EPS), Adult Protective Services (APS) or Child Protected Services. CPS).

Additionally, on a quarterly basis, the Support Coordinator is required to conduct a face to face or virtual visit with the participant (and/or families or authorized representatives as appropriate). As part of the visit, the Support Coordinator ensures that the Health Standards Complaint line number, the OCDD Complaint Line number and the toll-free telephone numbers for other protective services agencies are available to the participant.

OCDD will make on-line training modules available for provider agencies, support coordinators and waiver personnel. The modules will cover definitions of abuse, neglect and exploitation of minors and adults, the responsibility to report suspected abuse, neglect or exploitation, and the responsibilities of licensed providers and support coordinators to report, follow up and take corrective actions as deemed necessary by protective services. Initial and annual review attendance will be tracked by the OCDD Training Section.

- d. Responsibility for Review of and Response to Critical Events or Incidents.** Specify the entity (or entities) that receives reports of critical events or incidents specified in item G-1-a, the methods that are employed to evaluate such reports, and the processes and time-frames for responding to critical events or incidents, including conducting investigations.

When a critical incident occurs, the following actions are taken:

Provider:

- Takes immediate action to assure that the participant is protected from further harm and must respond to any emergency needs of the participant.
- Enters critical incident report information into the incident reporting system by close of business the next business day after notification of a critical incident;
- The provider must review each critical incident and record remedial actions taken in response to the incident within twenty-four (24) hours of the discovery of the incident, including reports made to protective services or law enforcement.
- Cooperates with the appropriate protective service agency once an investigation commences if abuse/neglect/exploitation/extortion is reported. Supplies relevant information, records, and access to members of the agency conducting the investigation.
- Participates in planning meetings to resolve each critical incident or to develop strategies to prevent or mitigate the likelihood of similar incidents in the future.
- Tracks critical incidents and outcomes in order to identify remediation needs and quality improvement goals and to determine the effectiveness of strategies employed for incident resolution.

Support Coordinator:

- Monitors critical incidents entered into the incident reporting system by the provider on a daily basis; Identifies and screens out reports that do not meet the criteria for critical incident.
 - Contacts the DSP within two (2) hours of discovery if the incident is discovered by the Support Coordinator,
 - Reports incidents involving abuse, neglect, exploitation, and extortion to Protective Services. Enters the critical incident into the LDH incident reporting system when Adult, Elderly or child protective services is involved.
 - Enters follow-up case note by close of the sixth (6th) business day after initial report;
- The Support Coordination Agency/ Support Coordinator is responsible for informing the waiver participants (or participant's family or legal representative, as appropriate) of investigation results due to abuse, neglect, and exploitation within (15) days after the final supervisor review and closure of an incident by the local governing entity.
- Continues to follow up with the DSP agency, the participant, the participant's guardian/authorized representative or natural supports, the LGE and any other entities involved, as necessary, and updates in the incident reporting system with case notes until the incident is resolved and the case is closed;
 - Submits to the LGE a request for extension of open case in circumstances defined in OCDD Operational Instruction F-5;
 - Convenes any planning meetings that may be needed to address remediation of the critical incident or develop strategies to prevent or mitigate the likelihood of similar critical incidents occurring in the future, and revise the POC accordingly;
 - Sends the participant and DSP a copy of the Incident Participant Summary within fifteen (15) days after LGE waiver office final supervisory review and closure. The Summary will not include the identity of the reporter or any sensitive or unsubstantiated allegations. The Participant Summary is not distributed in the event of deaths;
 - For transfer of open cases, the transferring support coordination agency must supply the accepting support coordination agency with the incident number(s) at the time of transfer of records. Additionally, the transferring support coordination agency must notify the accepting LGE. The accepting agencies must review, assign, take actions to resolve the incident, and enter into the case record in the incident reporting system until closure of the incident.
 - Tracks trends and patterns of critical incidents to identify remediation needs and quality improvement goals and to determine the effectiveness of strategies employed.

Local Governing Entity (LGE):

- Reviews all new incoming critical incident reports in the incident reporting system on a daily basis, and assigns incidents to medical certification specialists within 1 business day for monitoring, follow-up and recommendation for closure when remediation of the incident is evidenced.
- Identifies critical incidents as defined in OCDD Operational Instruction F-8, Risk Management Process for Waiver Services: Critical Incident Reviews that have crossed threshold for any participant and refers cases to the OCDD Critical Review Committee (CIRC).
- Assures that all activities occur within required timelines as detailed in OCDD Operational Instruction F-5 and F-8;
- Provides technical assistance to the support coordinator when timelines are not being met or the support coordinator reports an inability to identify necessary resources. Assists in making referrals to additional referral resources as needed;

- Immediately reports the incident to the appropriate protective service agency if the LGE suspects or becomes aware that a critical incident meets the definition of abuse, neglect, exploitation or extortion, and there is no documentation that the allegation has been reported to the appropriate protective services agency;
- Conducts follow-up monitoring of a sample of critical incidents where remedial actions required revision of the plan of care;
- Closes critical incident cases all necessary follow-up has occurred and documented in the critical incident report,
- The LGE may grant extensions to timelines for closure to open incidents in categories as permitted in OCDD Operational Instruction F-5;
- Tracks trends and patterns of critical incidents to identify systemic remediation needs and quality improvement goals and to determine the effectiveness of strategies employed.
- Develops system improvement strategies to address identified needs of waiver participants, service providers, or other support systems as a result of identified trends or patterns.
- Conducts final closure of critical incident cases after all necessary follow-up has occurred and documented in the critical incident report, within thirty (30) days.
- Grants extensions to timelines for closure to open incidents in categories as permitted in OCDD Operational Instruction F-5.
- Tracks trends and patterns of critical incidents to identify systemic remediation needs and quality improvement goals and to determine the effectiveness of strategies employed.

Department of Children & Family Services/ Child Protective Services (DCFS/CPS): Investigates allegations or reports of abuse, neglect or exploitation by a family member or legal guardian involving a waiver participant aged 0-17 years, based upon CPS policies and guidelines,

- Develops a protective plan and retains the authority to remove the minor participant from the home setting for his/her safety. The LGE will coordinate continued waiver services contingent on CPS plan of protection.

Office of Adult & Aging Services/Adult Protective Services (APS) Investigates allegations of abuse, neglect, exploitation, or extortion involving a participant aged 18-59 when the alleged perpetrator is a family member, legal guardian, or other natural support person not employed by a licensed provider agency, based upon APS policies and guidelines.

APS develops a protective plan and retains the authority to remove the participant from the home setting for his/her safety. The LGE will coordinate continued waiver services contingent on APS plan of protection.

Elderly Protective Services (EPS):

Investigates allegations of abuse, neglect, exploitation and extortion involving a participant aged 60 or older when the alleged perpetrator is a family member, legal guardian, or other natural support person not employed by a licensed provider agency, based upon EPS policies and guidelines.

EPS develops a protective plan and retains the authority to remove the participant from the home setting for his/her safety. The LGE offices will coordinate continued waiver services contingent on EPS plan of protection.

Health Standards Section (HSS):

HSS investigates allegations or reports of abuse, neglect, exploitation, or extortion when the alleged perpetrator is a provider licensed agency owner or employee, based upon HSS internal policy and guidelines.

HSS determines the level of jeopardy to waiver participants, issues findings and deficiencies, and requires a plan of correction from the provider to remediate the conditions that caused the incident. The LGE office and support coordination agency will coordinate waiver services contingent on the plan of correction.

Law Enforcement:

- The provider and support coordinator are required to ensure that they contact law enforcement in the event of any allegation of child abuse or neglect involving participants under the age of 18. Protective services contacts law enforcement in the event of a substantiated case of abuse or neglect according to their policies and procedures.
- In the event of a participant's arrest for a crime, the provider and support coordinator contact law enforcement to assure that information about the participant's health needs, medications or other risk factors are conveyed to assure safety while in police custody.

OCDD State Office:

- Provides technical assistance to LGE when all attempts to mitigate harm have been exhausted;
- Collaborates with protective service agencies, Health Standards, law enforcement and the judicial system to assure

coordination of activities to mitigate harm in individual cases;

- Monitors timely closure of critical incidents and adherence to OCDD critical incident operational instructions by the direct service providers, support coordinators and LGE;

- Conducts Critical Incident Review Committee (CIRC) case reviews for participants who experience repeated critical incidents as defined in OCDD Operational Instruction #F-8 Risk Management Process for Waiver Services: Critical Incident Reviews. CIRC has the authority to issue recommendations for further action to providers, support coordination agencies and LGE when it is discovered that practices by any one or combination of these entities have not sufficiently assured mitigation of potential harm. CRC may, at its discretion, request a follow-up report on progress towards mitigation within 60 day timeline;

- Conducts Mortality Review Committee (MRC) meetings to analyze deaths of waiver participants, as described in OCDD Operational Instruction #F-1 Mortality Review for Waiver Participants. MRC has the authority to issue a request for corrective action to providers, support coordination agencies and LGE when it is discovered that practices by any one or combination of these entities could potentially affect other participants negatively. The MRC request for corrective action can be issued in conjunction with corrective action plans issued by HSS.

e. Responsibility for Oversight of Critical Incidents and Events. Identify the state agency (or agencies) responsible for overseeing the reporting of and response to critical incidents or events that affect waiver participants, how this oversight is conducted, and how frequently.

OCDD is the State entity responsible for overseeing the operation of the incident management system.

A multi-agency Memorandum of Understanding between OCDD and LGE the day to day responsibility for oversight of the reporting and response to critical incidents or events that affect waiver participants.

OCDD maintains the services of support coordination agencies through contracts that stipulate the requirements for compliance with waiver regulations.

OCDD State Office Quality Section analyzes trends and patterns in critical incident reports to identify potential quality enhancement goals and utilizes the critical incident data to determine the effectiveness of OCDD Quality Enhancement strategies.

OCDD provides the State Medicaid Agency with aggregate quarterly reports which are used to identify trends and patterns.

The State Medicaid Agency oversees the maintenance and continual upgrading of the on-line critical incident reporting system.

Frequency of oversight activities:

The LGE, on a monthly basis, will pull a sample of critical incidents to review for adherence to policy including a review to determine if all necessary actions were taken to address and resolve critical incidents and perform annual analysis of data to determine the effectiveness of quality enhancement goals and activities.

The state uses critical incident reports to identify and prevent or reduce specific occurrences in the future by identifying trends and patterns, make recommendations for training, provide technical assistance and /or supports strategies to improve services. The LGE, on a monthly basis, will pull a sample of critical incidents to review for adherence to policy including a review to determine if all necessary actions were taken to address and resolve critical incidents and perform analysis of data to determine the effectiveness of quality enhancement goals and activities. The Direct Service Providers, Support Coordinators and LGE staff complete ongoing documentation and review of team meetings, discussions, referrals for additional services, and actual changes in the supports provided to the participant that occur as a result of the analyzed data in the critical incident.

OCDD State Office and the LGE jointly participate in the Human Services Accountability and Implementation Plan (AIP) to measure performance, report outcome measures and develop and implement quality enhancement strategies. LGE will report measures to OCDD quarterly and OCDD will conduct site visits to each LGE annually. The monitoring protocol and strategy for corrective action plans is described in OCDD Operational Instruction F-7: Quality Partnership: Reporting and Verification of Performance Measures and Quality Management Initiatives for Developmental Disability Services.

MPSW provides oversight and remediation enforcement of critical incident management through the Medicaid HCBS Oversight Committee which meets quarterly to review current performance reports for the all waiver assurances including health and welfare. Quality recommendations or issues which cannot be resolved at this level are placed on the agenda of the Medicaid/Program Offices Quarterly Meeting.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (1 of 3)

a. Use of Restraints. *(Select one): (For waiver actions submitted before March 2014, responses in Appendix G-2-a will display information for both restraints and seclusion. For most waiver actions submitted after March 2014, responses regarding seclusion appear in Appendix G-2-c.)*

☐ **The state does not permit or prohibits the use of restraints**

Specify the state agency (or agencies) responsible for detecting the unauthorized use of restraints and how this oversight is conducted and its frequency:

- ☉ **The use of restraints is permitted during the course of the delivery of waiver services.** Complete Items G-2-a-i and G-2-a-ii.

i. Safeguards Concerning the Use of Restraints. Specify the safeguards that the state has established concerning the use of each type of restraint (i.e., personal restraints, drugs used as restraints, mechanical restraints). State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

LDH BHSF HCBS Providers Minimum Licensing Standards(LAC 48:I.Chapter 50) §5029 establishes prohibitions to the use of chemical restraints, physical & mechanical restraints, seclusion or any procedure which denies food, drink, visits with family, or use of rest room facilities. Enrolled providers of waiver services are required to ensure that non-intrusive, positive approaches to address the meaning/origins of behaviors are used prior to the development of a restrictive plan, & cover any behavioral emergency & provide documentation of the event in an IR format. Restraint is a reportable CI as described in OCDD OI F-5: Critical Incident Reporting, Tracking & Follow-up Activities for Waiver Services.

- It is the policy of the Office for Citizens with Developmental Disabilities (OCDD) to allow the use of restraints only when necessary to protect an individual or others from injury and at the direction of a treating professional who has considered all other less intrusive options to protect the individual/others.

- Restraints may only be used in response to a situation that represents an imminent and grave risk of injury to self or others and only when necessary as a health-related protection.
- The use of restraints that limit mobility or access is strongly discouraged and limited to use as a last resort when other methods have been determined to be ineffective in assuring health and safety.
- The use and type of restraints must be the least restrictive and intrusive to the person's dignity, liberty and autonomy that are effective in preventing injury.
- Restraints can only be used under written orders and supervision of a licensed treating clinician.
- Restraints that may be applied and monitored by provider staff are limited to the use of helmets, mittens, splints, bed rails or other equipment for the purposes of healing or protection from injury. All other medical restraints (i.e., use of a papoose board to complete a medical procedure) must be initiated by a physician or dentist (or their staff) in the physician/dentist's office/hospital under the supervision of the physician/dentist. No other forms of restraint, personal or mechanical, may be used in waiver services unless considered and approved under the requirements of section V.C. of this policy.
- Chemical restraints are prohibited in waiver services. All psychotropic medication must be prescribed by a treating licensed clinician to address a diagnosed behavioral health condition or specific target behaviors consistent with standard practice.

The following practices are prohibited:

- Restraints may not be used in lieu of appropriate treatment and/or behavioral supports, as coercion, discipline, punishment or for the convenience of or retaliation by staff.
- The use of prone containment (face down), horizontal physical holds, and multi-point mechanical devices to prohibit mobility are strictly prohibited within Waiver Supports and Services (WSS) settings.
- Restraints may not be used as part of a behavior support plan as a contingent consequence to effect a behavior change.
- The use of exclusionary time-out is strictly prohibited within WSS settings.
- The use of seclusion is strictly prohibited within WSS settings.

The State's method for detecting the unauthorized use of restraints is through the OCDD OI F-5: Critical Incidents Reporting, Tracking and Follow-up Activities for waiver services. All restraints are required to be entered into the LDH incidents reporting system. The provider must verbally notify the Support Coordinator of the critical incident as soon as possible after taking all necessary actions to protect the participant from harm and responding to the emergency need of the participant.

- ii. State Oversight Responsibility.** Specify the state agency (or agencies) responsible for overseeing the use of restraints and ensuring that state safeguards concerning their use are followed and how such oversight is conducted and its frequency:

Providers are required to report measures implemented to mitigate the use of restraints and follow-up in regards to referrals to protective services (if necessary), changes to behavior supports, or staff training. The provider is responsible for reviewing incidents for trends and patterns within its own agency caseload to determine what quality initiatives may be necessary to provide alternate means of addressing situations which result in restraint at least quarterly.

The support coordination agency is responsible for tracking trends in restraint incidents involving providers who serve participants on the support coordination agency caseload at least quarterly. The support coordinator is responsible for addressing behavioral needs on a quarterly basis and amending the plan of care to ensure positive support strategies are implemented.

LGE are responsible for quarterly monitoring the reviews conducted by SCAs, to provide technical assistance and assist with referrals for additional services when necessary.

OCDD is responsible for reviewing aggregate data in the critical incident reporting system on the use of protective supports and procedures.

OCDD will present aggregate data to the OCDD Performance Review Committee to determine if any quality initiatives are necessary.

OCDD will provide MPSW with aggregate data and reports which are inclusive of any reported restraint use, remediation strategies and quality improvement initiatives and the results of quality improvement projects on a quarterly basis.

OCDD ensures that all applicable requirements are followed when there is misuse/ unauthorized use of restraint through review of LDH incident reporting system, complaints, Support Coordinator quarterly contacts with participants and families and Support Coordinator's unannounced visits.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (2 of 3)

b. Use of Restrictive Interventions. *(Select one):*

- ☒ **The state does not permit or prohibits the use of restrictive interventions**

Specify the state agency (or agencies) responsible for detecting the unauthorized use of restrictive interventions and how this oversight is conducted and its frequency:

The State prohibits the use of restrictive interventions. The state strategies for detecting unauthorized use of restraints is through review of critical incident reports, complaints, support coordinator quarterly contacts with participants and families and support coordinator unannounced visits.

- ☐ **The use of restrictive interventions is permitted during the course of the delivery of waiver services** Complete Items G-2-b-i and G-2-b-ii.

- i. Safeguards Concerning the Use of Restrictive Interventions.** Specify the safeguards that the state has in effect concerning the use of interventions that restrict participant movement, participant access to other individuals, locations or activities, restrict participant rights or employ aversive methods (not including restraints or seclusion) to modify behavior. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency.

- ii. State Oversight Responsibility.** Specify the state agency (or agencies) responsible for monitoring and overseeing the use of restrictive interventions and how this oversight is conducted and its frequency:

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (3 of 3)

- c. Use of Seclusion.** *(Select one): (This section will be blank for waivers submitted before Appendix G-2-c was added to WMS in March 2014, and responses for seclusion will display in Appendix G-2-a combined with information on restraints.)*

☒ **The state does not permit or prohibits the use of seclusion**

Specify the state agency (or agencies) responsible for detecting the unauthorized use of seclusion and how this oversight is conducted and its frequency:

The State prohibits the use of seclusion. The state strategies for detecting unauthorized use of seclusion is through review of critical incident reports, complaints, support coordinator quarterly contacts with participants and families, and support coordinator unannounced visits.

☐ **The use of seclusion is permitted during the course of the delivery of waiver services.** Complete Items G-2-c-i and G-2-c-ii.

- i. Safeguards Concerning the Use of Seclusion.** Specify the safeguards that the state has established concerning the use of each type of seclusion. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

- ii. State Oversight Responsibility.** Specify the state agency (or agencies) responsible for overseeing the use of seclusion and ensuring that state safeguards concerning their use are followed and how such oversight is conducted and its frequency:

Appendix G: Participant Safeguards

Appendix G-3: Medication Management and Administration (1 of 2)

This Appendix must be completed when waiver services are furnished to participants who are served in licensed or unlicensed living arrangements where a provider has round-the-clock responsibility for the health and welfare of residents. The Appendix does not need to be completed when waiver participants are served exclusively in their own personal residences or in the home of a family member.

a. Applicability. Select one:

- ☐ **No. This Appendix is not applicable** *(do not complete the remaining items)*
- ☒ **Yes. This Appendix applies** *(complete the remaining items)*

- Medication Management and Follow-Up**

- i. Responsibility.** Specify the entity (or entities) that have ongoing responsibility for monitoring participant medication regimens, the methods for conducting monitoring, and the frequency of monitoring.

If the participant does not self-administer, or if medication is not administered by family, a registered nurse shall authorize and monitor medication administration and non complex task performed by the DSW in accordance with LAC 48:I. Chapter 92 May 20, 2019.

Medication administration can only be delegated to a DSW by an RN if the participant receives daily monitoring by a family member, direct service worker, and/or other health care providers for the purposes of collecting critical information needed to assure the individual's welfare. Additionally, the participant health status must be stable and predictable as determined by the RN.

The direct service worker attends to participants that receives periodic assessment by a RN based on the person's health status and specified within the plan of care; in no case shall the periodic assessment be less than annually. A comprehensive assessment performed for a client in accordance with policies and procedures established by Medicaid or by a LDH program office may serve as the basis of the RN assessment but may not be used in lieu of the RN assessment.

- ii. Methods of State Oversight and Follow-Up.** Describe: (a) the method(s) that the state uses to ensure that participant medications are managed appropriately, including: (a) the identification of potentially harmful practices (e.g., the concurrent use of contraindicated medications); (b) the method(s) for following up on potentially harmful practices; and, (c) the state agency (or agencies) that is responsible for follow-up and oversight.

The LDH Office of Management and Finance, Health Standards Section conducts a survey/monitoring of provider agencies, which includes a review of participant's records. This review includes an assessment of services provided and their outcomes. Types of services reviewed include medications and treatments ordered by physicians and medication administration by unlicensed direct service workers. For every provider agency surveyed, HSS ensures all licensing regulations are followed for participants records reviewed, including medication administration. If citations are issued due to non-compliance, HSS issues a statement of deficiency and requires a corrective action plan.

Appendix G: Participant Safeguards

Appendix G-3: Medication Management and Administration (2 of 2)

c. Medication Administration by Waiver Providers

- i. Provider Administration of Medications.** *Select one:*

- ☐ **Not applicable.** *(do not complete the remaining items)*
- ☒ **Waiver providers are responsible for the administration of medications to waiver participants who cannot self-administer and/or have responsibility to oversee participant self-administration of medications.** *(complete the remaining items)*

- State Policy.** Summarize the state policies that apply to the administration of medications by waiver providers or waiver provider responsibilities when participants self-administer medications, including (if applicable) policies concerning medication administration by non-medical waiver provider personnel. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Louisiana Department of Health Bureau of Health Services Financing Direct Service Worker Registry (LAC 48:I. Chapter 92) provides for general requirements for the performance of medication administration and noncomplex tasks.

The Support Coordinator is responsible for including medications, entity responsible for medication administration, and oversight into the participant's plan of care.

Unlicensed direct care staff that performs administration of medications or procedures may currently do so under Registered Nurse (RN) delegation. The RN signs a written document which indicates the participant's procedures, medications, dosages, site of administration and instructions. This document verifies that the delegating RN has provided specific training and instructions to the direct care staff concerning the listed medications and/or procedures, and verifies that they are acting under the RN's authority. Each provider agency's administration has the responsibility for conducting on-site visits and assessments of all employees delegated by the RN to give medications. They must also provide oversight when a person self-medicates.

In addition, the LDH-OCDD administers the Certified Medication Attendant Program which provides for the training and certification of unlicensed direct care staff through certified nurse instructors who are also trained by LDH-OCDD. These persons are trained to administer medications to persons with developmental disabilities. The state statute provides for the qualifications of the drug administration course and course applicants/participants and specifies authorized and prohibited functions for such certified provider personnel. This program is available to both waiver and institutional providers of developmental disabilities services.

Waiver provider personnel are mandated to have a minimum of 16 hours of training prior to working with a participant in addition to continued education per licensing regulations including Nurse Delegation training.

- **Medication Error Reporting.** *Select one of the following:*
- ☒ **Providers that are responsible for medication administration are required to both record and report medication errors to a state agency (or agencies).**
Complete the following three items:

(a) Specify state agency (or agencies) to which errors are reported:

Medication errors are reported by waiver providers through the critical incident reporting system, which is accessed by the Health Standards Section and OCDD with follow-up for conducting corrective actions via the LGE staff and contracted Support Coordinators.

(b) Specify the types of medication errors that providers are required to *record*:

The administration of medication:

- In an incorrect form;
- Administered to wrong person;
- Administered but not as prescribed (dose & route);
- Ordered to the wrong person; or
- The failure to administer a prescribed medication.

If the error does NOT result in medical attention by a physician, nurse, dentist or any licensed health care provider, then the provider is required to record the error, but is not required to report the error to the State via the critical incident reporting process.

(c) Specify the types of medication errors that providers must *report* to the state:

Major medication incidents which include, the administration of medication in an incorrect form, not as prescribed or ordered to the wrong person or the failure to administer a prescribed medication, which requires or results in medical attention by a physician, nurse, dentist or any licensed health care provider must be reported to the State via the critical incident reporting process.

- **Providers responsible for medication administration are required to record medication errors but make information about medication errors available only when requested by the state.**

Specify the types of medication errors that providers are required to record:

- **State Oversight Responsibility.** Specify the state agency (or agencies) responsible for monitoring the performance of waiver providers in the administration of medications to waiver participants and how monitoring is performed and its frequency.

LDH Health Standards Section (HSS) is the State agency responsible for monitoring waiver providers which includes the administration of medications for those clients included in the monitoring sample and to assure that there is no negative outcomes.

HSS identifies problems in provider performance through their licensing and survey reviews of all Medicaid enrolled direct service providers. This includes a review of medication administration records, policy, and reporting policy.

Medication errors are a reportable incident category in the OCDD critical incident reporting system. Direct service providers and support coordinators are responsible for reporting medication errors that result in the need for medical intervention for the participant, within timelines specified in OCDD operational instruction F-5. Resolution of the incident requires documentation of immediate actions taken by the direct service provider to assure health & safety of the participant as well as preventative actions that improve systemic performance within the direct service provider agency. Aggregate totals of medication errors are reviewed by the LGE office and OCDD Quality Enhancement Section on a quarterly basis to identify patterns. The OCDD Mortality Review Committee reviews all waiver deaths monthly and identifies any concerns regarding medication administration; unexplained errors on the part of direct service provider staff are referred to the HSS for investigation.

OCDD will disseminate reports to LGE office management and the OCDD Performance Review Committee. These reports will be used to identify potentially harmful practices and implement training, technical assistance, and policy/procedural changes to improve quality statewide. The OCDD Quality Enhancement Section reports findings to the Medicaid agency (BHSF) quarterly.

OCDD's discovery of medication errors and related concerns may surface at any time and result from the support coordinator's and LGE's ongoing, real-time reviews of critical incident reports (which include medication errors), from LGE on-site visits or support coordinators quarterly on-site reviews and monthly contacts with participants, and from direct complaints lodged by participants, families or other stakeholders which may be phoned into OCDD State Office or the LGE office. As these medication-related concerns surface, the LGE staff follow up to assure that appropriate corrective actions have been implemented by waiver providers. The LGE staff follow up to critical incidents involving medication is entered into the incident reporting system data base which is automatically accessible to the State Medicaid Agency (SMA) and Health Standards Section.

When discovery of medication-related critical incidents involve abuse/neglect, immediate jeopardy to participants, fraudulent claims or other serious licensing deficiencies, they are immediately reported to the respective LDH Bureau, Section or Program Office with legal authority to investigate, sanction, recoup or take other actions to protect waiver participants (i.e., Protective Services offices; Health Standards Section; BHSF/Program Integrity Section).

MPSW reviews aggregated critical incident reports from the operating agency on a quarterly basis to determine if they were resolved appropriately and timely and to determine trends and patterns that indicate further action by MPSW. MPSW also monitors the data reports to see if remediation activities were effective in improving data results from the previous time period. If remediation activities were not effective, the MPSW will meet with the operating agency to address any changes needed to remediation strategies in order to improve results. The MPSW will continue to follow up with the operating agency to evaluate remediation for effectiveness.

Appendix G: Participant Safeguards

Quality Improvement: Health and Welfare

As a distinct component of the state's quality improvement strategy, provide information in the following fields to detail the state's methods for discovery and remediation.

a. Methods for Discovery: Health and Welfare

The state demonstrates it has designed and implemented an effective system for assuring waiver participant health and welfare.

i. Sub-Assurances:

a. Sub-assurance: *The state demonstrates on an ongoing basis that it identifies, addresses and seeks to*

prevent instances of abuse, neglect, exploitation and unexplained death.

Performance Measures

For each performance measure the state will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the state to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

G.a.i.a.1. Number and percent of abuse, neglect, exploitation, and unexplained death investigations that included evidence of effective resolution and preventative measures. Numerator = Number of investigations that included evidence of effective resolution and preventative measures; Denominator = All investigations completed and transferred to waiver staff

Data Source (Select one):

Critical events and incident reports

	☐ Other Specify:

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the state to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

Support coordination agencies periodically conduct unannounced visits to participant homes. If a concern is identified during the unannounced visit, then the LGE office is notified by the SCA, and the LGE office may request a plan of correction from the provider agency.

If a complaint is received by OCDD or the LGE that has the potential to affect the health and welfare of a participant then the Support Coordinator is notified to conduct an unannounced health and welfare check of all waiver participants served by the direct service provider. If additional problems are discovered that affect the health and safety of participants, then a complaint is reported to the Health Standards Section for follow-up.

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the state's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction and the state's method for analyzing information from individual problems, identifying systemic deficiencies, and implementing remediation actions. In addition, provide information on the methods used by the state to document these items.

For Performance Indicators G.a.i.a.1, G.a.i.a.2, G.a.i.b.1, G.a.i.c.1

There are several layers of remediation to address the issues identified in a Critical Incident Report (CIR). They include:

- Primary remediation occurs at the level of the provider agency, where immediate response is required in halting and correcting harmful, dangerous or potentially harmful or dangerous conditions at the time the condition is discovered.

- The support coordinator is responsible for determining any further remediation that can be implemented by way of strategies developed in team meetings with the participant and auxiliary support services
- The LGE offices are responsible for reviewing individual critical incidents on a daily basis involving death, attempted suicide, and major illness resulting in hospitalization for pneumonia, bowel obstruction, and uncontrolled seizures and assuring that support coordinators follow through as described in the previous paragraph. The LGE office provides technical support to support coordinators as necessary.
- OCDD State Office Quality Section conducts individual reviews of incidents involving waiver participants that meet the threshold for involvement at that level as required in OCDD policy. OCDD State Office generates recommendations to the LGE office where each participant resides to further assist in remediation. All critical incidents are tracked for closure by OCDD State Office. If during the OCDD periodic review an the LGE fails to close a CIR within the appropriate timelines, then OCDD may request a Corrective Action Plan for improvement.

Performance Indicator G.a.i.a.1

- Remediation of individual cases of substantiated abuse, neglect or exploitation is determined by the appropriate protective services agency (dependent on the waiver participant's age) and/or the LDH Health Standards Section as required in their policies and procedures.

Performance Indicator G.a.i.a.2

- The OCDD conducts individual reviews of all incidents resulting in the death of the waiver participant through the Mortality Review Committee. OCDD may determine the provider and/or support coordinator could improve services, and require a corrective action plan. Follow-up corrective action is also documented in the case file.

Performance Indicator G.a.i.d.1

LGE staff perform monitoring of Support Coordinator Agencies (SCA) at least annually utilizing the OCDD Support Coordination Monitoring Tools: Participant Interview; Participant Record Review; Support Coordinator Interview; and Agency Review. The processes for scoring and determining the necessity for corrective actions are located in the "Updated Guidelines for Scoring, Corrective Action and Follow-up Monitoring." After all elements are assessed and scored, the LGE reviewer documents the findings, including the Statement of Determination which delineates every POC remediation required and required responses/plans of correction expected from the SCA. Based on the scope and severity of findings, the SCA is assigned a Statement of Determination at Level I, Level II, or Level III. The LGE office and/or State Office follow-up according to timelines associated with each level to ensure that plans of correction are implemented and effective. Level III determinations are those having the actual or potential for immediate jeopardy. In these cases, the SCA must develop a plan of correction that includes the identification of the problem; full description of the underlying causes of the problem; actions/interventions that target each underlying cause; responsibility, timetable, and resources required to implement interventions; measurable indicators for assessing performance; and plans for monitoring desired progress and reporting results. In addition, OCDD takes enforcement action to assure the health and safety of participants. Actions include, but are not limited to: transfer of participants who are/may be in jeopardy; removal of SCA agency from the freedom of choice list; suspension of all new admissions; financial penalties; suspension of contract/certifications as a provider of SC services.

If a Plan of Correction, Progress Report and/or Follow-up Report remains unapproved by the time of the next annual review the agency is placed on the next level with more stringent requirements. With a finding of satisfactory or a recommendation for improvement no remediation is required. These remediation activities will be documented through tracking events in the Support Coordination Monitoring database.

Training will be necessary when trends are detected in plans of care that do not address: participant goals, needs (including health care needs), and preferences; how waiver and other services are coordinated; and identification of responsibilities to implement the plan. The training requirements depend on the Support Coordination Monitoring findings and are based on the criteria found in the OCDD Participant Record Review for support coordinators.

An unsatisfactory plan of care is one with criteria "not met" according to the OCDD Participant Record Review for support coordinators.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

Responsible Party(<i>check each that applies</i>):	Frequency of data aggregation and analysis(<i>check each that applies</i>):
☒ State Medicaid Agency	☐ Weekly

☐ Sub-State Entity	☒ Quarterly
☐ Other Specify:	☒ Annually

Responsible Party(<i>check each that applies</i>):	Frequency of data aggregation and analysis(<i>check each that applies</i>):
	☐ Continuously and Ongoing
	☐ Other Specify:

c. Timelines

When the state does not have all elements of the quality improvement strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of health and welfare that are currently non-operational.

☒ No

☐ Yes

Please provide a detailed strategy for assuring Health and Welfare, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix H: Quality Improvement Strategy (1 of 3)

Under Section 1915(c) of the Social Security Act and 42 CFR § 441.302, the approval of an HCBS waiver requires that CMS determine that the state has made satisfactory assurances concerning the protection of participant health and welfare, financial accountability and other elements of waiver operations. Renewal of an existing waiver is contingent upon review by CMS and a finding by CMS that the assurances have been met. By completing the HCBS waiver application, the state specifies how it has designed the waiver's critical processes, structures and operational features in order to meet these assurances.

- Quality improvement is a critical operational feature that an organization employs to continually determine whether it operates in accordance with the approved design of its program, meets statutory and regulatory assurances and requirements, achieves desired outcomes, and identifies opportunities for improvement.

CMS recognizes that a state's waiver quality improvement strategy may vary depending on the nature of the waiver target population, the services offered, and the waiver's relationship to other public programs, and will extend beyond regulatory requirements. However, for the purpose of this application, the state is expected to have, at the minimum, systems in place to measure and improve its own performance in meeting six specific waiver assurances and requirements.

It may be more efficient and effective for a quality improvement strategy to span multiple waivers and other long-term care services. CMS recognizes the value of this approach and will ask the state to identify other waiver programs and long-term care services that are addressed in the quality improvement strategy.

Quality Improvement Strategy: Minimum Components

The quality improvement strategy (QIS) that will be in effect during the period of the approved waiver is described throughout the waiver in the appendices corresponding to the statutory assurances and sub-assurances. Other documents cited must be available to CMS upon request through the Medicaid agency or the operating agency (if appropriate).

In the QIS discovery and remediation sections throughout the application (located in Appendices A, B, C, D, G, and I), a state spells out:

- The evidence based discovery activities that will be conducted for each of the six major waiver assurances; and
- The *remediation* activities followed to correct individual problems identified in the implementation of each of the

assurances.

In Appendix H of the application, a state describes (1) the *system improvement* activities followed in response to aggregated, analyzed discovery and remediation information collected on each of the assurances; (2) the correspondent *roles/responsibilities* of those conducting assessing and prioritizing improving system corrections and improvements; and (3) the processes the state will follow to continuously *assess the effectiveness of the OIS* and revise it as necessary and appropriate.

If the state's QIS is not fully developed at the time the waiver application is submitted, the state may provide a work plan to fully develop its QIS, including the specific tasks the state plans to undertake during the period the waiver is in effect, the major milestones associated with these tasks, and the entity (or entities) responsible for the completion of these tasks.

When the QIS spans more than one waiver and/or other types of long-term care services under the Medicaid state plan, specify the control numbers for the other waiver programs and/or identify the other long-term services that are addressed in the QIS. In instances when the QIS spans more than one waiver, the state must be able to stratify information that is related to each approved waiver program. Unless the state has requested and received approval from CMS for the consolidation of multiple waivers for the purpose of reporting, then the state must stratify information that is related to each approved waiver program, i.e., employ a representative sample for each waiver.

Appendix H: Quality Improvement Strategy (2 of 3)

H-1: Systems Improvement

a. System Improvements

- i. Describe the process(es) for trending, prioritizing, and implementing system improvements (i.e., design changes) prompted as a result of an analysis of discovery and remediation information.

The state of Louisiana utilizes a collaborative approach to develop and maintain the Quality Improvement System (QIS). The Medicaid agency in Louisiana, Bureau of Health Services Financing Medicaid Program Support and Waivers (BHSF/MPSW) has oversight for the implementation of Home and Community Based Services (HCBS) Waivers. The Office for Citizens with Developmental Disabilities (OCDD) is the operating agency, and the local operating arm for HCBS Waivers is the local Governing Entity (LGE). The LGE provides oversight and monitoring of the contracted support coordination agencies; the contracted support coordination agencies provide oversight and monitoring of service utilization. All of the above mentioned entities also work collaboratively with Louisiana protective services agencies, Health Standards Section (HSS) and/or law enforcement as deemed necessary. The process of trending, prioritizing and implementing system improvement activities are required on all levels with upward reporting to the operating agency for oversight and management of the Quality Improvement System including a summary of root cause analysis completed at each level and recommendations for design changes or other system improvements. This approach provides opportunities for continued communication and review of performance measures, discovery and remediation activities.

The Quality Improvement System (QIS) for the Residential Options Waiver (ROW) is part of a cross-waiver function of the Office of Aging and Adult Services (OAAS) and the Office for Citizens with Developmental Disabilities (OCDD). The purpose of the QIS is to assess and promote the quality of waiver programs serving older persons and adults with physical, intellectual and developmental disabilities. Additionally, beginning in 2018 with the amendment of the Residential Options Waiver (LA.0472.R01.04), OCDD began utilizing composite sampling and consolidated evidence reporting across its four developmental disabilities waivers in accordance with CMS' quality memo "Modifications to Quality Measures and Reporting in §1915(c) Home and Community-Based Waivers" released in 2014. These changes served to streamline monitoring, remediation, and reporting for all four waivers and results in increased efficiency to discovery methods and implementing systemic improvements.

The QIS assures a consistent and high standard of quality across waiver programs through:

- Adoption of common standards and performance measures against which waiver programs are evaluated.
- Development of policies, tools, practices, training, protocols, contracts and agreements that embody sound approaches to managing, delivering and assessing HCBS services and supports. To the extent possible, HCBS waiver policies and practices have shared purposes, language and expectations.
- Streamlining and consolidation of functions to strengthen the collection and analysis of timely and reliable data on waiver performance.
- A transparent system of reporting performance data for use by program managers, policymakers, consumers, providers, and other stakeholders.
- A structured and coordinated process to identify improvement opportunities, set priorities, allocate resources, and implement effective strategies.
- A coordinated approach for evaluating the effectiveness of the QIS in meeting program goals.

OCDD has a multi-tiered system for quality improvement. Each level (Direct Service Provider Agency, Support Coordination Agency, LGE, OCDD State Office, and BHSF) within the system is required to design and implement a Quality Management Strategy which is further described below.

Direct Service Provider and Support Coordination Agency Processes:

Direct Service Provider and Support Coordination Agencies are required to have a Quality Management Strategy that includes collecting information and data to learn about the quality of services, analyzing and reviewing data to identify trends and patterns, prioritizing improvement goals, implementing the strategies and actions on their quality enhancement plan, and evaluating the effectiveness of the strategies. At a minimum, agencies must review: 1) critical incident data, 2) complaint data, 3) data from case record reviews, and 4) interview/survey data from participants and families. The review process must include review by internal review team(s) composed of agency programmatic and management staff and an external review by the board of directors with stakeholder representation or a separate committee that includes stakeholders. Annually, agencies must submit to OCDD documentation to verify that they engage in ongoing, continuous quality review and enhancement activities.

LGE Processes:

The LGE is the operating arm for managing the Residential Options Waiver (ROW), and they are also required to have a Quality Management Strategy. This entity represents the primary source for discovery and remediation information regarding the waiver. They are required to collect information on performance indicators, conduct remediation as needed, aggregate data and review to identify trends and patterns and areas in which improvement is needed, and prioritize needed improvements. They are required to design and implement quality enhancement strategies and evaluate the effectiveness of those strategies. Each LGE has a Quality Specialist whose function is to facilitate data analysis and review. Within each LGE, data review is conducted by programmatic and

management staff and by the Regional Advisory Committee which is composed of stakeholders. OCDD State Office staff visit each LGE annually to validate the quarterly/annual data reported to State Office on performance indicators, to assure that remediation and system improvements occur as needed, and to provide technical assistance. When performance falls below the outlined measure, the LGE submits evidence to the operating agency, OCDD, with documentation of the quality improvement activities that have been implemented to improve performance. If the performance is not improved as outlined in the established benchmark, technical assistance will be provided to the LGE.

OCDD State Office Processes:

Aggregate data for waiver performance indicators are reviewed for trends and patterns on a quarterly or annual basis by the OCDD Waiver Section (program personnel) and Quality Section. These groups review data to ensure remediation is being completed by the LGE and to analyze the data for systemic concerns across waivers and across LGE's. Upon completion of the analysis, a representative from these teams presents data to the OCDD Performance Review Committee, with recommendations for system improvement. The OCDD Performance Review Committee is composed of designated members from each of the OCDD sections: Quality, Business Analytics, Clinical, Waiver, Early Intervention, and other members as designated by the OCDD Executive Management Staff. This provides the committee with expertise from several disciplines when reviewing recommendations. It also affords OCDD the opportunity to utilize existing expertise, processes, and tools to address new concerns, recommend strategies, and recommend systemic improvement that is best practice to ensure quality improvement and success. These recommendations are presented to OCDD Executive Management for consideration and approval. When significant system changes are proposed, the OCDD Core Stakeholder Group is convened and given the opportunity to review the proposed systemic changes and provide input regarding the recommendations. . The Core Stakeholder Group is comprised of waiver participants, families of waiver participants, advocacy groups, including the state DD Council, and a representative from the Governor's office, and meets as needed based on system improvement activities. Recommendations, performance indicator data reports, and quality improvement initiatives status reports are also submitted to the Bureau of Health Services Financing (BHSF) on a quarterly basis.

BHSF/MPSW Processes:

Medicaid/Program Offices Quarterly Meeting – This group convenes at least quarterly to perform executive level oversight of the performance of HCBS waivers, assure their effectiveness and efficiency, and discuss any other programmatic issues common to the program offices and Medicaid. Goals are to act upon issues and recommendations received from the Medicaid HCBS Oversight Committee and other HCBS workgroups. This meeting is a forum for executive level problem resolution, planning, and development of quality redesign strategies. Members include representatives from MPSW, the Medicaid Director or Deputy Director, the OCDD Assistant Secretary or Deputy Assistant Secretary, and other designated staff.

Medicaid HCBS Oversight Committee – meets at least quarterly with the specific purpose to ensure proper oversight of the OAAS and OCDD operated HCBS Medicaid programs. Goals are to review current performance reports, determine need for new activities concerning quality and oversight in waiver programs, and ensure adequate remediation enforcement. Quality recommendations or issues which cannot be resolved at this level are placed on the agenda of the Medicaid/Program Offices Quarterly Meeting. Oversight members include HCBS quality management staff from MPSW and OCDD and are chaired by the MPSW Section Chief or designee. The committee meets at least quarterly with the following standing agenda items:

- OCDD operating agency staff present their analysis of all performance measure findings, remediation activities, and systemic improvements to MPSW as defined in the 1915© waiver quality strategy
- MPSW Section Chief or designee indicates approval or disapproval of quarterly/annual data and activities;
- Based on evidence presented, MPSW staff provides technical assistance, guidance, and support to the operating agency staff;
- MPSW performs administrative oversight functions for OCDD HCBS program.

MPSW/OCDD/HCBS Data Contractor Meetings – facilitates monthly meetings with OCDD and Medicaid data contractor to discuss waiver issues, problems, and situations which have arisen and do not comport with program policy. At these meetings, solutions are formulated, corrective actions are agreed upon, and follow-up implemented by OCDD as necessary in the form of internal policy or provider policy.

Ad Hoc Cross-Population HCBS Oversight Meetings – Additional meetings will be held jointly between MPSW, OCDD, and the Office of Aging and Adult Services (OAAS) on an as needed basis for the following purposes:

- Collaborate on design and implementation of a robust system of cross-population continuous quality improvement
- Present Quality Improvement Projects (QIP)
- Share ongoing communication of what works, doesn't work, and best practices.

ii. System Improvement Activities

Responsible Party <i>(check each that applies):</i>	Frequency of Monitoring and Analysis <i>(check each that applies):</i>
☒ State Medicaid Agency	☐ Weekly
☒ Operating Agency	☐ Monthly
☐ Sub-State Entity	☒ Quarterly
☐ Quality Improvement Committee	☒ Annually
☒ Other Specify: Medicaid HCBS Oversight Committee	☐ Other Specify:

b. System Design Changes

- i. Describe the process for monitoring and analyzing the effectiveness of system design changes. Include a description of the various roles and responsibilities involved in the processes for monitoring & assessing system design changes. If applicable, include the state's targeted standards for systems improvement.

OCDD Process:

Following system design changes, data on performance indicators are reviewed by the Waiver and Quality program staff, as well as the OCDD Performance Review Committee to assure that the information is useful and accurate and to determine if performance has improved. Input is sought, as appropriate, from Support Coordination and Direct Service Provider Agencies, participants and their families, and other stakeholders, to determine whether the system design change is helping to improve efficiency and effectiveness of waiver supports and services. At this point, the Core Stakeholder Group may be convened, if needed, to address if system improvement has resulted from the system design/improvement activities.

BHSF/MPSW Processes:

Medicaid HCBS Oversight Committee – meets at least quarterly with the specific purpose to ensure proper oversight of the OAAS and OCDD operated HCBS Medicaid programs. Goals are to review current performance reports, determine need for new activities concerning quality and oversight in waiver programs, and ensure adequate remediation enforcement. Quality recommendations or issues which cannot be resolved at this level are placed on the agenda of the Medicaid/Program Offices Quarterly Meeting. Oversight members include HCBS quality management staff from MPSW and OCDD and the committee is chaired by the MPSW Section Chief or designee. The committee meets at least quarterly with the following standing agenda items:

- OCDD operating agency staff present their analysis of all performance measure findings, remediation activities, and systemic improvements to MPSW as defined in the 1915© waiver quality strategy
- MPSW Section Chief or designee indicates approval or disapproval of quarterly/annual data and activities;
- Based on evidence presented, MPSW staff provides technical assistance, guidance, and support to the operating agency staff;
- MPSW performs administrative oversight functions for OCDD HCBS program.

- ii. Describe the process to periodically evaluate, as appropriate, the quality improvement strategy.

The Medicaid Program Support and Waivers Section works in collaboration with the operating agency, OCDD, to periodically review the quality improvement strategies. Meetings are held to review and evaluate the performance indicators, discovery methods, remediation strategies, systemic issues, policies, procedures and any other issues that have surfaced as a result monitoring activities. Technical assistance is provided to the operating agency as needed by Bureau of Health Services Financing Medicaid Program Support and Waivers (BHSF/MPSW). The operating agency, OCDD, has a Performance Review Committee which meets at least quarterly and provides ongoing oversight and management of the Quality Improvement System. OCDD participates in the annual National Core Indicator (NCI) surveys which are addressed to a random sample of participants and families of participants to gauge their satisfaction with OCDD waiver services, and with the performance of support coordinators, LGE and providers. OCDD aggregates findings to identify areas of concern in service delivery in order to initiate quality improvement strategies. Findings from this annual review will be analyzed by the Performance Review Committee to revise the QIS. Modifications may be made to quality standards and measures, data collection tools and methods, report formats documenting performance, or dissemination strategies for sharing performance data. New priority projects may be identified to better align the QIS to the needs of waiver managers, LGE, program staff, support coordinators and providers and, most significantly, to improve desired outcomes for HCBS waiver participants. The modifications and priorities identified by the Performance Review Committee will be implemented or facilitated by the OCDD Quality Enhancement Section.

Appendix H: Quality Improvement Strategy (3 of 3)

H-2: Use of a Patient Experience of Care/Quality of Life Survey

a. Specify whether the state has deployed a patient experience of care or quality of life survey for its HCBS population in the last 12 months (*Select one*):

- ☐ No
- ☒ Yes (*Complete item H.2b*)

b. Specify the type of survey tool the state uses:

- ☐ HCBS CAHPS Survey :
- ☒ NCI Survey :
- ☐ NCI AD Survey :
- ☐ Other (*Please provide a description of the survey tool used*):

Appendix I: Financial Accountability

I-1: Financial Integrity and Accountability

Financial Integrity. Describe the methods that are employed to ensure the integrity of payments that have been made for waiver services, including: (a) requirements concerning the independent audit of provider agencies; (b) the financial audit program that the state conducts to ensure the integrity of provider billings for Medicaid payment of waiver services, including the methods, scope and frequency of audits; and, (c) the agency (or agencies) responsible for conducting the financial audit program. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Electronic Visit Verification (EVV), electronically verifies service visit occurrences and documents the precise time services begin/end via web-enabled smart devices. The purpose of EVV is to verify individuals receive services authorized in their plans of care, reduce inappropriate billing/payment, safeguard against fraud and improve program oversight. The state contracts for its EVV solution and has an open system for providers. If a provider elects to use their own system instead of the state-sponsored EVV system, the provider and vendor must first complete testing with the state to demonstrate that they can transmit all required EVV data elements to the state. EVV is required for in-home personal care services (Community Living Supports). The state defines compliance for EVV using a utilization threshold assessed over a 90-day look back period. If a provider doesn't meet the utilization threshold, the provider receives an alert message listing all non-EVV records. Non-EVV records outside of the allowed error rate will be blocked for payment until the provider reaches compliance (i.e. meets the EVV utilization threshold). Once compliance is reached, previously blocked service units will be released for payment. Providers who are routinely out of EVV compliance may be subject to further action including, but not limited to fines and sanctions.

To ensure compliance among Medicaid providers and prevent fraud and misuse in HCBS waiver programs, stringent measures are in place. The Single Audit Act obligates Medicaid providers to meet specific standards, with the Louisiana Legislative Auditor conducting periodic audits to maintain enrollment. Providers receiving certain funds must submit independent audits annually to retain Medicaid eligibility. Failure to do so can lead to disenrollment. Additionally, the Program Integrity's Surveillance and Utilization Review (SURS) Unit, part of the Louisiana Department of Health (LDH), conducts post-payment reviews of fee-for-service Medicaid providers, as per the Louisiana Surveillance and Utilization Review Subsystem (SURS) Rule and the Medical Assistance Program Integrity Law (MAPIL). This ensures proper use of Medicaid funds and eligible individuals receive healthcare. The SURS Unit has four primary functions: Data Analytics, Prepayment Reviews, Special Investigations, and Auditing Services. Data Analytics involves skilled staff ensuring compliance with regulations, while Prepayment Reviews use coding checks to verify payments. Auditing Services conducts comprehensive audits and addresses fraud, waste, and abuse. Alerts, such as Provider Federal Exclusion Match and Beneficiary Duplicate Services, assist in detecting potential violations. The Provider Profile provides insights into waiver providers. An array of alerts is utilized, each serving a specific purpose, such as identifying provider billing patterns. Preliminary investigations by LDH's Special Investigations team examine flagged cases for billing anomalies. SURS conducts preliminary investigations when complaints or questionable practices are identified. Law enforcement referrals and program assessments are also part of the process. Full investigations follow detailed audits, involving record acquisition, and aim to identify issues like overpayments, fraud, and medical necessity concerns. SURS is compliant with regulations, such as referring cases of suspected provider fraud to Medicaid fraud control units and verifying services with recipients. Providers can self-report policy violations to mitigate risk exposure. SURS Unit Functions: The Data Analytics unit is comprised of highly technically skilled staff knowledgeable in systems, reporting, data warehousing, programming, statistical research, etc. as well as, acute, primary, and behavioral healthcare regulations. With these skill sets, the data analytics team is primarily responsible for all analytic/technical functions of Program Integrity and assisting, where appropriate, other sections within Medicaid. This unit insures that the state complies with 42 CFR §456.3, the System Admin will support the current SURS system to insure compliance. This regulation requires that the Medicaid agency implement a statewide surveillance and utilization control program safeguards against unnecessary or inappropriate use of Medicaid services and against excess payments, assesses the quality of those services, provides for the control of the utilization of all services provided under the plan in accordance with subpart B of this part; and provides for the control of the utilization of inpatient services in accordance with subparts C through I of this part. The pre-payment review process in Medicaid claims aims to ensure the correct payment of Medicaid services before funds are released. The utilization of National Correct Coding Initiative (NCCI) edits and claim checks is central to this procedure. The National Correct Coding Initiative (NCCI) edits were instituted by the Centers for Medicare & Medicaid Services (CMS) to standardize coding practices and curb incorrect coding that could result in inappropriate payments. Central to this system are the Procedure-to-Procedure (PTP) Edits, which identify services that shouldn't be billed concurrently for the same beneficiary due to their inherent overlap or clinical improbability. Another key component is the Medically Unlikely Edits (MUEs), which set limits on the number of times a specific service can be billed for one beneficiary in a single day, reflecting its medical implausibility under regular circumstances. Complementing NCCI edits in the Medicaid pre-payment review process are claim checks. These automated checks ensure that the services billed align with the diagnosis given, are covered by Medicaid, and aren't duplicate bills for the same beneficiary by the same or different providers. Furthermore, these checks authenticate both the provider's authority to bill Medicaid and the beneficiary's eligibility for Medicaid on the service date. To bolster program integrity, the primary functions of Audit Services are carried out by experienced clinical staff, with the overarching objective being to shield Medicaid from fraud, waste, and abuse. Their responsibilities span a gamut of activities, including executing comprehensive audits, engaging in informal hearings and appeals, pinpointing and reclaiming overpayments, and educating providers. A key facet of their work revolves around comprehensive audits of Medicaid providers. Such audits demand a profound understanding of Medicaid's diverse program policies, rules, and regulations. When preliminary examinations spotlight patterns of incorrect billing, full audits, as mandated by sections 42 CFR 455.15(c) and 42 CFR 455.16, are initiated. These meticulous reviews often involve procuring records, whether via mail or direct onsite visits. Upon completion of full reviews, potential issues such as overpayments, questions of medical

necessity, suspected fraud, and system discrepancies are assessed. If improprieties are identified, several courses of action can be pursued as prescribed by 42 CFR 455.16 and La. R.S. 46:437.1. Actions might include issuing warning letters, suspending or terminating provider participation in Medicaid, reclaiming incorrect payments, or even implementing additional state-specific sanctions. The objective is to ensure that every case is thoroughly investigated and resolved, upholding the integrity and fiscal responsibility of the Medicaid program.

Detecting Potential Violations: In contrast to claim-processing subsystems that handle claims on an individual basis, the Surveillance Utilization Review Subsystem (SURS) distinguishes itself by its ability to analyze post-payment data for multiple claims simultaneously, facilitating the identification of suspicious provider billing patterns. This capability aligns with federal regulations mandating states to establish a post-payment review process empowering state personnel to construct and assess provider service profiles, including exception criteria: 1.Provider Demographics 2.Fraud, Waste, and Abuse (FWA) Indicators 3.Enrollment and Address Summaries 4.Provider Risk Score 5.Claims Summary 6.Claims Detail Report 7.Claims Visualizer 8.Provider Groups Information 9.Provider Profile Map 10. Alert Information11. Complaints and Tips Data 12.Historical Audit Records The multifaceted Provider Profile equips LDH with a comprehensive perspective on provider activities, enhancing their ability to identify and address potential risks and anomalies within the healthcare billing ecosystem. To bolster healthcare fraud detection and prevention, an extensive array of alerts has been meticulously developed. These alerts harness the power of machine learning algorithms, leveraging peer comparisons, statistical analysis, and outlier detection to serve as potent instruments in safeguarding against fraud, waste, and abuse within the healthcare system. Here is a concise compilation of these vital alerts: 1. Provider Federal Exclusion Match: This alert identifies providers listed on federal exclusion databases (LEIE or GSA SAM), with severity ranked by the total paid dollars associated with post-exclusion claims. 2. Beneficiary Duplicate Services: It detects beneficiaries with duplicate claims for specific services on the same date but with different billing providers, ranking them based on total paid dollars. 3. Provider Providers with High Volume of Traveling Beneficiaries (Treatment Based): This alert flags providers with a significant percentage of beneficiaries traveling for treatment, with ranking determined by the paid amount for traveling beneficiaries. 4. Provider Peer Comparison - Claims/Encounters Per Beneficiary: It highlights providers with an unusually high number of claims or encounters per beneficiary compared to their peers. The top 1% providers with higher risk and above-average claims are identified. 5. Provider Providers with Spikes in Billing Activity: This alert identifies providers with substantial spikes in billed amounts relative to their historical billing, ranking them based on the magnitude of these spikes. 6. Provider Overlapping Outpatient Services with Inpatient Stay: It identifies providers with claims for outpatient services during inpatient hospital care (excluding admission/discharge dates), with ranking based on the total paid dollars for overlapping claims. 7. Provider Physician Services Time Outlier: This alert flags providers with an abnormal number of service dates with extended services, ranking them based on the total paid amount for excessive days. 8. Provider Procedure-to-Procedure Conflicts: It identifies providers billing for conflicting HCPCS codes that should not typically be reported together, ranking them based on the total paid dollars associated with claims/encounters in conflict. 9. Beneficiary with High-Risk Drugs from Multiple Prescribers and/or Pharmacies: This alert identifies beneficiaries with multiple opioid prescriptions from multiple prescribers and pharmacies, ranking them based on the quantities dispensed for opioid prescriptions. 10. Provider Prescriber with Spikes in Prescribing Activity: It detects prescribers with significant spikes in prescribing activity compared to historical data, with ranking indicating the extent of the spike.

Continued in Optional Section

Appendix I: Financial Accountability

Quality Improvement: Financial Accountability

As a distinct component of the state's quality improvement strategy, provide information in the following fields to detail the state's methods for discovery and remediation.

a. Methods for Discovery: Financial Accountability Assurance:

The state must demonstrate that it has designed and implemented an adequate system for ensuring financial accountability of the waiver program.

i. Sub-Assurances:

a. Sub-assurance: The state provides evidence that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver and only for services rendered.

Performance Measures

For each performance measure the state will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the state to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

I.a.i.a.1. Number and percentage of waiver claims that are paid in accordance with the approved rate methodology. Numerator= Number of waiver claims paid in accordance with the approved rate methodology; Denominator= Total number of paid claims.

Data Source (Select one):

Other

If 'Other' is selected, specify:

MPSW Tracking System

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the state to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

--

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the state's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction and the state's method for analyzing information from individual problems, identifying systemic deficiencies, and implementing remediation actions. In addition, provide information on the methods used by the state to document these items.

I.a.i.a.1. BHSF determines all waiver payment amounts/rates in collaboration with OCDD, Division of Health Economics, and as necessary the Rate & Audit section. At the time of each requested rate change, MPSW and the Rate and Audit section reviews evidence that the rate adjustment was applied according to the methodology described in the waiver document. When a rate adjustment proposal is submitted without documentation which supports the current methodology it will not be approved and MPSW will offer technical guidance.

I.a.i.b.1 Upon annual review and analysis of all waiver claims payments through Medicaid Data Warehouse report generation, any discrepancies are resolved individually and systemically in collaboration with Medicaid Information Management Systems staff who oversee the Fiscal Intermediary.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

Responsible Party (check each that applies):	Frequency of data aggregation and analysis (check each that applies):

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (1 of 3)

a. Rate Determination Methods. *In two pages or less, describe the methods that are employed to establish provider payment rates for waiver services and the entity or entities that are responsible for rate determination. Indicate any opportunity for public comment in the process. If different methods are employed for various types of services, the description may group services for which the same method is employed. State laws, regulations, and policies referenced in the description are available upon request to CMS through the Medicaid agency or the operating agency (if applicable).*

The Non-federal-Additional Needed Information (Optional). Rates for the ROW are initiated by the OCDD w/ input from a group of interested parties, including but not limited to prvdrs &/or prvdr groups, participants, advocates, & Medicaid reps. OCDD's process for developing rates for ROW waiver services is based on rates for similar services in other waivers w/ review by Medicaid for appropriateness. The overall budget cap for each person in the ROW is established based on overall ICAP score. This allows flexibility for each indiv's plan to include an array of services needed w/in the overall budget cap. If Medicaid concurs that the rates are feasible, can be utilized w/in the indiv's overall budget & represent cost neutrality, then they are submitted to the Medicaid Dir. as part of the waiver application for final review & approval. Subsequently the reimbursement methodology is included in the Medicaid rulemaking process. This rulemaking process includes further opportunity for public comment. As rates are proposed for each service in the ROW, OCDD presents the rates & service definitions to the Medicaid liaison as part of the waiver application review. OCDD recommends rates to Medicaid based on the following hierarchy of factors: a) If there is a comparable service already existing in another OCDD program (waiver) that rate is mirrored. b) If there is no existing comparable service, OCDD explores the rates that are compatible w/ other similar services which are provided by Medicaid (i.e. nursing services). c) If no comparable Medicaid services & rates exist, OCDD explores services in the general community that are comparable & attempts to match the prevailing competitive rates. 2. Based on the choices available in #1 above, OCDD recommends the service rate to Medicaid where it is reviewed & a determination made of the fiscal impact & budget availability for funding w/a final determination made on the service rate. ROW budgets follow the ICAP rates which were rebased & are developed w/in Medicaid. Therefore, the Medicaid Dir. has not only oversight, but direct control over the rate determination process. No rate can be implemented w/out the approval of the Medicaid Agency. Rates for each service are based on the following: *Adult Day Health Care (ADHC) methodology for calculating each indiv component of the overall ADHC rate is a product of the median cost multiplied by an index factor. The resultant calculations provide reasonable & adequate reimbursement required to cover the costs of economic & efficient ADHC services. The base rate is calculated using the most recent audit or desk review cost for all ADHC prvdrs filing acceptable full year cost reports & includes the following components: a. Direct care-calculated at 115% of the median cost trended forward to rate year; b. Care related costs-calculated at 105% of the median trended forward to the rate year; c. Administrative & operating costs-calculated at 105% of the median trended forward to the rate year; d. Property/capital costs-calculated at the median cost; & e. Transportation costs-calculated for each based on their cost report. The cost report process is conducted yearly. Because of the wide variation in transportation cost, which is influenced by the rural or urban location of the ADHC center & the number of participants using the ADHC's transportation services versus other means of transportation (e.g. transportation provided by family, etc.), the transportation component of ADHC reimbursement is calculated & paid indivly to each ADHC center. Rates may be updated when additional funding is appropriated by the legislature using the most recent audited cost reports at that time. For inflationary increases the state uses various sources of data. For Administrative & operating cost component we use the CPI-All Items (South Region) index & for the Direct Care Cost Component we use the Consumer Price Index-Medical Services (South Region) index. *Community Living Supports (CLS), Community Integration Development & Out-of-Home Respite rates were negotiated based upon the estimated prvdr cost of rendering the service & similar services provided in other waivers. Cost of transportation is built into the CLS rate. When CLS is self-directed, the method of rate determination differs from when the service is prvdr managed. The prvdr-managed rate includes a cost component in addition to the rate paid for the services delivered. This additional cost component serves as an "administrative fee" which is payable to the CLS prvdr for exercising oversight, monitoring, & facilitating an agreement between the CLS prvdr & CLS worker. This cost component is absent when this service is self-directed. Otherwise, these rates for self-direction are initiated by OCDD & submitted to Medicaid in the same manner & in accordance w/ the same processes, including opportunity for public comment, as other service rates. In addition, Factor D charts in Appendix J of the ROW Application reflect a weighted average cost/unit for each year which includes the average of shared rates for CLS. *Professional Services & Nursing rates were based upon several factors: the cost to prvdrs to provide the service, the cost to secure the service in the community, the cost of similar services in current OCDD contracts, & state payment rates for FTE employees. *Services & rates for dental services were taken from an existing packaged plan of dental services as offered to Medicaid recipients under EPSDT, Pregnant Woman & Adult Denture programs. *LA considered the following factors in establishing its ROW day habilitation (DH), prevocational (PREVOC) services & supported employment (SE) rates as part of its negotiations w/ prvdrs & w/ input from other stakeholders: 1) allowances for direct support worker (DSW) & other staff wages; 2) the prvdr's overhead costs; 3) transportation costs (per mile) from the vocational agency to all work sites; & (4) a profit margin for the prvdr. The rate allowed by the State for SE, DH, & PREVOC services take the following factors into consideration when determining the rate: wages (55%) administrative (10%); overhead, which includes costs for building, equipment, supplies, insurance, & gas (30%); & profit margin (5%). The value of the profit margin is consistent w/ & comparable to that of similar services provided in the community. The State's estimated profit margin is at 5% of the rate. The value of the admin & overhead costs are consistent w/ & comparable to that of similar services provided in the community. *Transportation rates for Community Access were based on transportation rates payable in other waivers.

*PERS rates are based on the actual cost of providing the service. *One Time Transitional Services are paid at the cost of the provision of services w/ an annual cap. This cap was set based on historical cost allowed for providing the service in other waivers. *Environmental Accessibilities Adaptations & Assistive Technology/Specialized Medical Equipment & Supplies costs are based on historical expenditures for the services in waivers serving similar populations. *Companion Care(CC)rate is paid to prvdrs at a daily rate. This rate includes the cost of payment to the CC worker for services delivered plus an additional cost component payable to the CC prvdr for oversight, monitoring, & facilitating an agreement between the prvdr & Companion worker. The rate was based on the limited services expected to be provided, the anticipated users of the service & their level of need, plus an estimate of the amount of actual direct care service hours to be provided each day. *Host Home(HH) service are graduated according to level of need. The HH rates were determined by the increased complexity of the indivs' needs & the associated responsibilities of the HH dictated by the score on the ICAP. *Shared Living (SL) & SL-Conversion rates are based on several factors: employee costs, including wages & benefits; indirect costs such as transportation & administration; & staffing requirements & occupancy. All rates are graduated according to the intensity of the need of the indiv. SL rates were determined by the staffing level/ratio required for the increasing acuity level of the indivs being served. The greater the acuity level, the greater the amount of staffing needed. The acuity level was determined by each indiv's score on an ICAP. ROW per diem rates & annual budget amounts are calculated based on State Fiscal Year ICAP rates used to determine ICF/IID funding under four acuity levels of recipient needs (intermittent, limited, extensive & pervasive), minus applicable adjustments (prvdr fees & patient liability). ROW rates per acuity level are based on each participant's ICAP score & set the overall budget amount (or cap) a ROW participant must fall w/in when choosing an array of services & tailoring a support plan to meet indiv needs. Although the budget amounts set overall caps on expenditures per acuity level, there is much flexibility in choosing indiv services which have minimal to no caps placed upon them. *Support Coordination (SC)Services Rate is contracted monthly service rate paid to SC prvdrs. The monthly rate is based upon the average service utilization billed. The monthly rate reflects the cost of average units a nationally recognized rate-setting consultant who surveyed prvdrs relative to their time, activities performed, staffing requirements, general administrative & indirect expenses. *Housing Stabilization & Housing Stabilization Transition Service rates are based on the rate paid to SC agencies which employ indivs who have obtained a bachelors degree & are qualified to provide two levels of supervision. An agency trainer or nurse consultant who meets the requirements a support coordinator can also be reimbursed a per quarter rate for services provided. Admin support, travel & office operating expenses are included in the 15min billing rate. OCDD's process for developing rates for ADHC waiver services is based on rates for similar services in other waivers w/ review by Medicaid personnel for appropriateness. If Medicaid personnel concur that the rates are feasible & will help facilitate cost neutrality, then they are submitted to the Medicaid Dir. as part of the waiver application for final review & approval. Subsequently, the reimbursement methodology is included in the Medicaid rulemaking process. This rulemaking process includes further opportunity for public comment. All proposed rates are then factored into a cost projection & model to produce & estimated total program cost & average cost per recipient which is then used to determine the effects of these rates on program cost effectiveness. Rates are then renegotiated or changed as needed. *Monitored In Home Caregiving(MIHC) is based on Nursing Home daily rates. Level 1 was 40% of the average NH per diem (after subtracting the prvdr tax). Level 2 was 60% of the average NH per diem rate (after subtracting the prvdr tax). Payment rates are available to participants through prvdr agencies, support coordinators & agencies, as well as through publication in the La Register, the official journal for the state of LA. Participants may also receive information on service rates by contacting their LGE office. OCDD solicited public input from recipients, prvdrs, & advocacy organizations to determine rate, structure methodology, etc. This is accomplished through meetings w/ these entities around the state. The State used the existing rate for MIHC in the Medicaid system. However, basis of the rate will be adjusted to the average daily rate of the state's private intermediate care facilities (ICF-DD). Rate for level one will be 40% of that calculated rate & level two will be 60% of that same rate. The data for the calculation will come for the Medicaid MARS Data Warehouse for the state fiscal year. The average will be a simple calculation, total private ICF payments divided by the total number of unduplicated recipients. Please see Main Optional for dental and FMS.

- b. Flow of Billings.** Describe the flow of billings for waiver services, specifying whether provider billings flow directly from providers to the state's claims payment system or whether billings are routed through other intermediary entities. If billings flow through other intermediary entities, specify the entities:

Billings for waiver services provided to participants in the waiver program are submitted first to the Medicaid data contractor for post authorization. After services are authorized, providers bill directly to the Medicaid fiscal intermediary for payment.

For services utilizing Electronic Visit Verification (EVV), the state's data and prior authorization contractor has incorporated the EVV data collection within the Louisiana Service Reporting System (LaSRS). The state has set a compliance level for EVV. If a provider does not meet the compliance level, an alert message to the provider is generated and includes the total threshold percentage of all records counted against the threshold for the month. Providers who do not meet compliance, service unit payment will be blocked for services manually entered over the set allowance via the post authorization process. These service units will not be forwarded to Fiscal Intermediary claims for payment processing. Once the provider begins reporting services through EVV within the set allowance to meet EVV compliance, previously blocked service unit payment will be released for payment with these units being processed through Fiscal Intermediary claims processing. Providers who are routinely out of EVV compliance will not have their service units forwarded to Fiscal Intermediary for claims process and will also be subject to further action including, but not limited to fines and sanctions.

Self-direction time sheets are submitted to the agency with choice representative for processing. After time sheets are reviewed, all time records are submitted to the data contractor for post authorization of services. After prior authorizations are released, the agency with choice will bill the Medicaid fiscal intermediary for payment of all prior authorized and approved services. Payments for services rendered will be submitted to the agency with choice.

Billings for dental services are submitted directly by provider(s) to the Dental Benefit Plan/PAHP. The plan is required per contract to submit encounters to the State's MMIS.

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (2 of 3)

c. Certifying Public Expenditures (select one):

- ☒ No. state or local government agencies do not certify expenditures for waiver services.
- ☐ Yes. state or local government agencies directly expend funds for part or all of the cost of waiver services and certify their state government expenditures (CPE) in lieu of billing that amount to Medicaid.

Select at least one:

- ☐ Certified Public Expenditures (CPE) of State Public Agencies.

Specify: (a) the state government agency or agencies that certify public expenditures for waiver services; (b) how it is assured that the CPE is based on the total computable costs for waiver services; and, (c) how the state verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR § 433.51(b). (Indicate source of revenue for CPEs in Item I-4-a.)

- ☐ Certified Public Expenditures (CPE) of Local Government Agencies.

Specify: (a) the local government agencies that incur certified public expenditures for waiver services; (b) how it is assured that the CPE is based on total computable costs for waiver services; and, (c) how the state verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR § 433.51(b). (Indicate source of revenue for CPEs in Item I-4-b.)

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (3 of 3)

d. Billing Validation Process. Describe the process for validating provider billings to produce the claim for federal financial participation, including the mechanism(s) to assure that all claims for payment are made only: (a) when the individual was eligible for Medicaid waiver payment on the date of service; (b) when the service was included in the participant's approved service plan; and, (c) the services were provided:

The Bureau of Health Services Financing (BHSF) utilizes a prior authorization and post authorization system maintained by a contracted entity to ensure that services provided to waiver participants are provided and paid for within the scope, duration, and frequency as specified in the approved plan of care. Electronic Visit Verification (EVV) is required for in-home personal care services. EVV is used to verify that individuals are receiving the services authorized in their plans of care, reduce inappropriate billing/payment, safeguard against fraud and improve program oversight. Medicaid eligibility for services is also checked and reviewed by the prior authorization entity.

Regarding dental services, each dental plan receives a monthly file from the SMA indicating which individuals are eligible to receive services and what services they may receive. Adult waiver participants enrolled with a dental plan are identified with a linkage type indicating their covered services.

Services are prior authorized according to the Plan of Care in quarterly increments and post authorized for payment after services have been rendered.

1. The prescribed services identified in the Plan of Care are entered in quarterly increments into the prior authorization system.
2. Upon the provision of services to the participant, the provider submits the service utilization data to the post authorization entity.
3. The post authorization entity checks the service utilization record against the participant's approved Plan of Care which identifies the prior authorized services.
4. Post authorization for payment is released to the Fiscal Intermediary when services are properly rendered to participants per the approved Plan of Care and prior authorization. However, for providers who have not met EVV compliance, service unit payment will be blocked for services manually entered over the set allowance via the post authorization process. Once the provider begins reporting services through EVV within the set allowance to meet EVV compliance, previously blocked service unit payment will be released for payment.
5. The provider then submits claims for approved services to the Fiscal Intermediary for adjudication and payment.
6. Services provided to participants that are not listed on the prior authorization system are rejected and ineligible for payment until all discrepancies are resolved.

In Program Integrity's SURS unit, cases are opened once a month; however, a case may be opened sooner depending on the priority or type of case. Some production runs are performed monthly and some are performed quarterly. Data mining is performed on a weekly basis, and projects are opened throughout the year. Complaints and internal referrals are received daily and are prioritized. The scope of a case may vary from being recipient-focused to a general review of the provider's billing, or it may be in-between as in limited to specific billing codes depending on what the evidence reveals.

e. Billing and Claims Record Maintenance Requirement. Records documenting the audit trail of adjudicated claims (including supporting documentation) are maintained by the Medicaid agency, the operating agency (if applicable), and providers of waiver services for a minimum period of 3 years as required in 45 CFR § 92.42.

Appendix I: Financial Accountability

I-3: Payment (1 of 7)

a. Method of payments -- MMIS (select one):

- ☐ **Payments for all waiver services are made through an approved Medicaid Management Information System (MMIS).**
- ☒ **Payments for some, but not all, waiver services are made through an approved MMIS.**

Specify: (a) the waiver services that are not paid through an approved MMIS; (b) the process for making such payments and the entity that processes payments; (c) and how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

Dental Services paid by LA.0005-Dental services are the only waiver service not paid directly through the state MMIS. Dental providers will receive payment through their contracted PAHP and will not receive payments directly from the Medicaid agency. Each PAHP contracts with providers to deliver dental services utilizing a risk-based payment methodology. PAHPs are required to submit encounter data for each claim to the state's MMIS.

- ☐ **Payments for waiver services are not made through an approved MMIS.**

Specify: (a) the process by which payments are made and the entity that processes payments; (b) how and through which system(s) the payments are processed; (c) how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

- ☐ **Payments for waiver services are made by a managed care entity or entities. The managed care entity is paid a monthly capitated payment per eligible enrollee through an approved MMIS.**

Describe how payments are made to the managed care entity or entities:

Appendix I: Financial Accountability

I-3: Payment (2 of 7)

b. Direct payment. In addition to providing that the Medicaid agency makes payments directly to providers of waiver services, payments for waiver services are made utilizing one or more of the following arrangements (select at least one):

- ☐ **The Medicaid agency makes payments directly and does not use a fiscal agent (comprehensive or limited) or a managed care entity or entities.**
- ☒ **The Medicaid agency pays providers through the same fiscal agent used for the rest of the Medicaid program.**
- ☒ **The Medicaid agency pays providers of some or all waiver services through the use of a limited fiscal agent.**

Specify the limited fiscal agent, the waiver services for which the limited fiscal agent makes payment, the functions that the limited fiscal agent performs in paying waiver claims, and the methods by which the Medicaid agency oversees the operations of the limited fiscal agent:

A fiscal/employer agent will provide fiscal management services to Self-Direction participants, as an administrative activity. Payments will be made to employees for direct services to the waiver self-direction participants related to the service Community Living Supports. The entities contracted to provide fiscal management services are Acumen Fiscal Agent and Morning Sun Financial Services.

Electronic Visit Verification (EVV) is utilized to verify that individuals are receiving the services authorized in their plans of care, reduce inappropriate billing/payment, safeguard against fraud and improve program oversight. EVV is required for in-home personal care services (Community Living Supports).

The fiscal/employer agent will process participants' employer-related payroll and withhold and deposit the required employment-related taxes. The State's fiscal/employer agent (FEA) for the self-direction program is enrolled as a Medicaid Provider. As a Medicaid Provider, the provider has access to the Medicaid Services Manual. Chapter one of this manual details general and administrative information including instructions on how to file claims/bill the State Medicaid Agency by the Medicaid Fiscal Intermediary.

Oversight is conducted through reports and since this is a contracted agent, oversight is conducted pursuant to all applicable state regulations for contracted services. Reports are submitted bi-weekly and include the amount paid to employee, amount of taxes withheld, and the employee rate of pay. These reports are reviewed to ensure the employee was paid appropriately.

- ☒ **Providers are paid by a managed care entity or entities for services that are included in the state's contract with the entity.**

Specify how providers are paid for the services (if any) not included in the state's contract with managed care entities.

Providers delivering dental services are paid through one on the State's contracted PAHPS. Reference LA.0005

Appendix I: Financial Accountability

I-3: Payment (3 of 7)

c. Supplemental or Enhanced Payments. Section 1902(a)(30) requires that payments for services be consistent with efficiency, economy, and quality of care. Section 1903(a)(1) provides for Federal financial participation to states for expenditures for services under an approved state plan/waiver. Specify whether supplemental or enhanced payments are made. Select one:

- ☐ **No. The state does not make supplemental or enhanced payments for waiver services.**
- ☒ **Yes. The state makes supplemental or enhanced payments for waiver services.**

Describe: (a) the nature of the supplemental or enhanced payments that are made and the waiver services for which these payments are made; (b) the types of providers to which such payments are made; (c) the source of the non-Federal share of the supplemental or enhanced payment; and, (d) whether providers eligible to receive the supplemental or enhanced payment retain 100% of the total computable expenditure claimed by the state to CMS. Upon request, the state will furnish CMS with detailed information about the total amount of supplemental or enhanced payments to each provider type in the waiver.

Louisiana Department of Health (LDH) through the Office for Citizens with Developmental Disabilities (OCDD) will implement eight incentive payments. The performance period will be on a calendar year cycle starting January 2025. The Non-federal funding sources will be made from state general fund realized through the temporary 10 percentage point increase to the federal medical assistance percentage (FMAP) under section 9817 of the American Rescue Plan Act for seven of the value based payment incentives and one of the incentives will be funded with the Money Follows the Person Capacity Building 100% federal funding. Long term, permanent funding would be appropriated by the Louisiana legislature and reflected in the Department's existing operating budget.

The State distributed information to stakeholders through various communication channels and in-person/virtual meetings/webinars. Communication channels include: email blasts, social media platforms, newsletters, and provider relations distribution lists. In-person and virtual meetings. In addition, the department established a VBP Ad Hoc Committee with representatives from the provider, self-advocate/family and advocacy communities to provide feedback in input on all nine incentives, as well as distribute information. The State will continue to distribute information via the established channels described above as well as add VBP information in the provider enrollment process to educate new providers, Medicaid DD Provider Waiver Manual, and request ongoing feedback via surveys and continued engagement with the VBP Committee.

The Office for Citizens with Developmental Disabilities contractors will collect and monitor incentive data. The State is in the process of creating standard reporting templates based on stakeholder feedback, which providers will access for data reporting and collection. All providers will use the same submission process for data collection and reporting to maintain consistency. The State will have a uniform process to analyze data reported to ensure consistency in reports completed and provider notification protocol. The Office for Citizens with Developmental Disabilities will make the final determination that a payment is earned.

1. Establish Incentive Payments for LDH/OCDD direct support providers who demonstrate their staff is National Association for the Dually Diagnosed (NADD) certified direct support professionals.

- i. Payments are made to OCDD provider for each direct support professional who has completed the DSP Certification are recognized by meeting competencies through the certification process.
- ii. This incentive payment is applicable to direct support provider agencies who are licensed to provide at least one of the following: Individual and Family Supports, Community Living supports, Family Supports, Day Habilitation, Community Living Engagement, Supported Employment and Center-based Respite.
- iii. There will be three payments mechanisms available.

- 1. One payment of \$750 when the direct support worker meets the prerequisites to sit for the NADD online certification exam.
- 2. Another payment of \$750 upon certification.
- 3. A payment for \$500 in instances where a direct support provider employs a direct support professional who is NADD certified upon employment. The direct support professional must be employed at least six months.
- iv. HCBS waiver providers retain all 100% of the value based payment incentive supplemental, including the Federal and State Share.

2. Establish Incentive Payments for LDH/OCDD direct support providers who demonstrate their non-licensed professional staff who deliver home and community based serves have maintained continuous employment for a certain time.

- i. The incentive payment is applicable when a direct support provider maintains continuous employment of at least 60% of staff for at least 18 months with the same employer.

- 1. Staff must be currently employed and work at least 16 hours each month.
- 2. Staff also must have at least one electronic visit verification (EVV) clock in 30 days prior to the evaluation period.
- 3. LDH/OCDD will consider exceptions for staff employed but unable to work 30 days prior to the evaluation period.

4. Staff who provide direct care with or without supervisory responsibilities are considered employees.

5. Employees can be either full time or part time.

- ii. LDH/OCDD will use EVV data to determine whether a provider has met the 60% retention threshold.

iii. This incentive payment is applicable to direct support provider agencies who are licensed to provide at least one of the following: Individual and Family Supports, Community Living supports, Family Supports, Day Habilitation, Community Living Engagement, Supported Employment and Center-based Respite.

- iv. Incentive payment amount is equivalent to agency's pro rata percentage of population serviced during the evaluation period.
- 3. Establish incentive payments for direct support providers implementing person-centered hiring practices.
 - i. Incentive payments will be made to direct support providers who submit all of the following as evidence of person-centered hiring practices:
 - 1. examples of an individual staff matching tool used in hiring, evidence that the individual was included in the interview process
 - 2. examples of job descriptions with clear statements related to relationship building, emotional and physical wellness, meaningful work/volunteer contributions and learning
 - 3. Agency monitoring forms/policies and/or examples of staff evaluations that clearly show evaluative elements related to person centered outcomes related to relationship building, emotional and physical wellness, meaningful work/volunteer contributions and learning.

Appendix I: Financial Accountability

I-3: Payment (4 of 7)

d. Payments to state or Local Government Providers. Specify whether state or local government providers receive payment for the provision of waiver services.

- ☐ No. State or local government providers do not receive payment for waiver services. Do not complete Item I-3-e.
- ☒ Yes. State or local government providers receive payment for waiver services. Complete Item I-3-e.

Specify the types of state or local government providers that receive payment for waiver services and the services that the state or local government providers furnish:

The Louisiana State Legislature has re-named the OCDD Developmental Centers as Regional Service Centers in order to capture their current mission of providing a full range of community-based services. The OCDD Regional Service Centers will provide services to ROW waiver participants and will be paid for those services. Those ROW services will include shared living, supported employment, prevocational services, day habilitation, and professional services. These waiver services delivered by the Regional Service Centers are not located in institutional-based settings.

Appendix I: Financial Accountability

I-3: Payment (5 of 7)

e. Amount of Payment to State or Local Government Providers.

Specify whether any state or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed its reasonable costs of providing waiver services and, if so, whether and how the state recoups the excess and returns the Federal share of the excess to CMS on the quarterly expenditure report. Select one:

- ☒ The amount paid to state or local government providers is the same as the amount paid to private providers of the same service.
- ☐ The amount paid to state or local government providers differs from the amount paid to private providers of the same service. No public provider receives payments that in the aggregate exceed its reasonable costs of providing waiver services.
- ☐ The amount paid to state or local government providers differs from the amount paid to private providers of the same service. When a state or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed the cost of waiver services, the state recoups the excess and returns the federal share of the excess to CMS on the quarterly expenditure report.

Describe the recoupment process:

Appendix I: Financial Accountability

I-3: Payment (6 of 7)

f. Provider Retention of Payments. Section 1903(a)(1) provides that Federal matching funds are only available for expenditures made by states for services under the approved waiver. Select one:

- ☒ **Providers receive and retain 100 percent of the amount claimed to CMS for waiver services.**
- ☐ **Providers are paid by a managed care entity (or entities) that is paid a monthly capitated payment.**

Specify whether the monthly capitated payment to managed care entities is reduced or returned in part to the state.

Appendix I: Financial Accountability

I-3: Payment (7 of 7)

g. Additional Payment Arrangements

i. Voluntary Reassignment of Payments to a Governmental Agency. Select one:

- ☒ **No. The state does not provide that providers may voluntarily reassign their right to direct payments to a governmental agency.**
- ☐ **Yes. Providers may voluntarily reassign their right to direct payments to a governmental agency as provided in 42 CFR § 447.10(e).**

Specify the governmental agency (or agencies) to which reassignment may be made.

ii. Organized Health Care Delivery System. Select one:

- ☒ **No. The state does not employ Organized Health Care Delivery System (OHCDS) arrangements under the provisions of 42 CFR § 447.10.**
- ☐ **Yes. The waiver provides for the use of Organized Health Care Delivery System arrangements under the provisions of 42 CFR § 447.10.**

Specify the following: (a) the entities that are designated as an OHCDS and how these entities qualify for designation as an OHCDS; (b) the procedures for direct provider enrollment when a provider does not voluntarily agree to contract with a designated OHCDS; (c) the method(s) for assuring that participants have free choice of qualified providers when an OHCDS arrangement is employed, including the selection of providers not affiliated with the OHCDS; (d) the method(s) for assuring that providers that furnish services under contract with an OHCDS meet applicable provider qualifications under the waiver; (e) how it is assured that OHCDS contracts with providers meet applicable requirements; and, (f) how financial

accountability is assured when an OHCDs arrangement is used:

iii. Contracts with MCOs, PIHPs or PAHPs.

- ☐ The state does not contract with MCOs, PIHPs or PAHPs for the provision of waiver services.
- ☐ The state contracts with a Managed Care Organization(s) (MCOs) and/or prepaid inpatient health plan(s) (PIHP) or prepaid ambulatory health plan(s) (PAHP) under the provisions of section 1915(a)(1) of the Act for the delivery of waiver and other services. Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the state Medicaid agency.

Describe: (a) the MCOs and/or health plans that furnish services under the provisions of section 1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.

- ☒ This waiver is a part of a concurrent section 1915(b)/section 1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The section 1915(b) waiver specifies the types of health plans that are used and how payments to these plans are made.
- ☐ This waiver is a part of a concurrent section 1115/section 1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The section 1115 waiver specifies the types of health plans that are used and how payments to these plans are made.
- ☐ If the state uses more than one of the above contract authorities for the delivery of waiver services, please select this option.

In the text box below, indicate the contract authorities. In addition, if the state contracts with MCOs, PIHPs, or PAHPs under the provisions of section 1915(a)(1) of the Act to furnish waiver services: Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the state Medicaid agency. Describe: (a) the MCOs and/or health plans that furnish services under the provisions of section 1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (1 of 3)

a. State Level Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the state source or sources of the non-federal share of computable waiver costs. Select at least one:

- ☒ Appropriation of State Tax Revenues to the State Medicaid Agency
- ☐ Appropriation of State Tax Revenues to a State Agency other than the Medicaid Agency.

If the source of the non-federal share is appropriations to another state agency (or agencies), specify: (a) the state

entity or agency receiving appropriated funds and (b) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if the funds are directly expended by state agencies as CPEs, as indicated in Item I-2-c:

☐ **Other State Level Source(s) of Funds.**

Specify: (a) the source and nature of funds; (b) the entity or agency that receives the funds; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by state agencies as CPEs, as indicated in Item I-2-c:

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (2 of 3)

b. Local Government or Other Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the source or sources of the non-federal share of computable waiver costs that are not from state sources. Select One:

☒ **Not Applicable.** There are no local government level sources of funds utilized as the non-federal share.

☐ **Applicable**

Check each that applies:

☐ **Appropriation of Local Government Revenues.**

Specify: (a) the local government entity or entities that have the authority to levy taxes or other revenues; (b) the source(s) of revenue; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement (indicate any intervening entities in the transfer process), and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

☐ **Other Local Government Level Source(s) of Funds.**

Specify: (a) the source of funds; (b) the local government entity or agency receiving funds; and, (c) the mechanism that is used to transfer the funds to the state Medicaid agency or fiscal agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (3 of 3)

c. Information Concerning Certain Sources of Funds. Indicate whether any of the funds listed in Items I-4-a or I-4-b that

make up the non-federal share of computable waiver costs come from the following sources: (a) health care-related taxes or fees; (b) provider-related donations; and/or, (c) federal funds. Select one:

☒ **None of the specified sources of funds contribute to the non-federal share of computable waiver costs**

☐ **The following source(s) are used**

Check each that applies:

☐ **Health care-related taxes or fees**

☐ **Provider-related donations**

☐ **Federal funds**

For each source of funds indicated above, describe the source of the funds in detail:

Appendix I: Financial Accountability

I-5: Exclusion of Medicaid Payment for Room and Board

a. **Services Furnished in Residential Settings.** Select one:

☐ **No services under this waiver are furnished in residential settings other than the private residence of the individual.**

☒ **As specified in Appendix C, the state furnishes waiver services in residential settings other than the personal home of the individual.**

b. **Method for Excluding the Cost of Room and Board Furnished in Residential Settings.** The following describes the methodology that the state uses to exclude Medicaid payment for room and board in residential settings:

Fixed rates for these services do not include any margin for room and board related expenses. The provider contracts specify that room and board expenses must be covered from sources other than Medicaid, such as consumer fees, donations, fund raising, or state funded programs. Providers of waiver services are contractually prohibited from billing for room and board expenses through Medicaid.

Appendix I: Financial Accountability

I-6: Payment for Rent and Food Expenses of an Unrelated Live-In Caregiver

Reimbursement for the Rent and Food Expenses of an Unrelated Live-In Personal Caregiver. Select one:

☒ **No. The state does not reimburse for the rent and food expenses of an unrelated live-in personal caregiver who resides in the same household as the participant.**

☐ **Yes. Per 42 CFR § 441.310(a)(2)(ii), the state will claim FFP for the additional costs of rent and food that can be reasonably attributed to an unrelated live-in personal caregiver who resides in the same household as the waiver participant. The state describes its coverage of live-in caregiver in Appendix C-3 and the costs attributable to rent and food for the live-in caregiver are reflected separately in the computation of factor D (cost of waiver services) in Appendix J. FFP for rent and food for a live-in caregiver will not be claimed when the participant lives in the caregiver's home or in a residence that is owned or leased by the provider of Medicaid services.**

The following is an explanation of: (a) the method used to apportion the additional costs of rent and food attributable to the unrelated live-in personal caregiver that are incurred by the individual served on the waiver and (b) the method used to reimburse these costs:

Appendix I: Financial Accountability**I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (1 of 5)**

a. Co-Payment Requirements. Specify whether the state imposes a co-payment or similar charge upon waiver participants for waiver services. These charges are calculated per service and have the effect of reducing the total computable claim for federal financial participation. Select one:

- ☒ **No. The state does not impose a co-payment or similar charge upon participants for waiver services.**
☐ **Yes. The state imposes a co-payment or similar charge upon participants for one or more waiver services.**

i. Co-Pay Arrangement.

Specify the types of co-pay arrangements that are imposed on waiver participants (check each that applies):

Charges Associated with the Provision of Waiver Services (if any are checked, complete Items I-7-a-ii through I-7-a-iv):

- ☐ **Nominal deductible**
☐ **Coinsurance**
☐ **Co-Payment**
☐ **Other charge**

Specify:

Appendix I: Financial Accountability**I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (2 of 5)**

a. Co-Payment Requirements.

ii. Participants Subject to Co-pay Charges for Waiver Services.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability**I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (3 of 5)**

a. Co-Payment Requirements.

iii. Amount of Co-Pay Charges for Waiver Services.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability**I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (4 of 5)**

a. Co-Payment Requirements.

iv. Cumulative Maximum Charges.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (5 of 5)

b. Other State Requirement for Cost Sharing. Specify whether the state imposes a premium, enrollment fee or similar cost sharing on waiver participants. Select one:

- ☒ **No. The state does not impose a premium, enrollment fee, or similar cost-sharing arrangement on waiver participants.**
- ☐ **Yes. The state imposes a premium, enrollment fee or similar cost-sharing arrangement.**

Describe in detail the cost sharing arrangement, including: (a) the type of cost sharing (e.g., premium, enrollment fee); (b) the amount of charge and how the amount of the charge is related to total gross family income; (c) the groups of participants subject to cost-sharing and the groups who are excluded; and, (d) the mechanisms for the collection of cost-sharing and reporting the amount collected on the CMS 64:

Appendix J: Cost Neutrality Demonstration

J-1: Composite Overview and Demonstration of Cost-Neutrality Formula

Composite Overview. Complete the fields in Cols. 3, 5 and 6 in the following table for each waiver year. The fields in Cols. 4, 7 and 8 are auto-calculated based on entries in Cols 3, 5, and 6. The fields in Col. 2 are auto-calculated using the Factor D data from the J-2-d Estimate of Factor D tables. Col. 2 fields will be populated ONLY when the Estimate of Factor D tables in J-2-d have been completed.

Level(s) of Care: ICF/IID

Col. 1	Col. 2	Col. 3	Col. 4	Col. 5	Col. 6	Col. 7	Col. 8
Year	Factor D	Factor D'	Total: D+D'	Factor G	Factor G'	Total: G+G'	Difference (Col 7 less Column4)
1		9419.70	9419.70	93722.70	5139.00	98861.70	89442.00

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (2 of 9)

b. Average Length of Stay. Describe the basis of the estimate of the average length of stay on the waiver by participants in item J-2-a.

In developing estimates for the ROW, information from an existing CMS approved waiver was used as much as possible. The estimate for the average length of stay given for the ROW is based on La.'s data from the New Opportunities Waiver which serves a similar population.

Historical ALOS data from the ROW was also considered for estimates.

The factor D and D' prime estimates for WY 3-5 were based on data drawn from the state's Medicaid data warehouse for the anticipated population that would be eligible for transfer in addition to information for the existing ROW participants. The following data and sources were used:

- Historical utilization and expenditure data for ADHC services.
- Historical utilization and expenditure data for personal care assistance services under CCW
- Historical utilization and expenditure data for state plan personal care services
- Historical utilization and expenditure data for support coordination services

The original ROW application used the NOW average length of stay because of the similarities between the populations served by the two waivers. However, there is insufficient data in the ROW that would allow its own average length of stay calculation from the CMS 372 report to be used.

The current ROW average length of stay from the WY 5 2016-2017 CMS 372 is 311 days.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (3 of 9)

c. Derivation of Estimates for Each Factor. Provide a narrative description for the derivation of the estimates of the following factors.

i. Factor D Derivation. The estimates of Factor D for each waiver year are located in Item J-2-d. The basis and methodology for these estimates is as follows:

Under the state's CMS approved tiered waiver system, the state experienced a significant growth in the ROW. This growth is expected to continue to increase over the next few years. The states estimates provided attempt to capture the growth in the number of unduplicated recipients of service.

Factor D estimates are based on the projected participants, service utilization, and proposed rates for each service under the waiver. Some of the utilization and costs per service assumptions were based on similar services in other waivers serving the population of persons with developmental disabilities. Services such as environmental modifications, specialized medical equipment, and other services similar to other waivers were considered in the assumption of utilization.

An estimated cost per service is derived by multiplying these estimates by actual service rates. This dollar amount is then totaled and divided by the number of unduplicated recipients for an average cost per recipient. A utilization inflation factor is thereby applied to each subsequent year based on program history and assumptions based on best professional judgment.

The State identified nearly 260 persons who could possibly transfer from the Adult Day Health Care and Community Choices Waiver. OCDD analysts then used SAS to query the Medicaid MARS Data Warehouse to identify the waiver services along with long-term personal care services used by these individuals for a 24-month period. After establishing total annual services per recipient of each service, these services were cross-walked to the Residential Options Waiver. These total services were then combined with service data from the ROW 2016 or 2017 372 Reports and new utilization estimates were created. After setting the foundation for the base estimates, OCDD analysts along with programmatic experts made adjustments to these base estimates to accommodate expected changes in programmatic growth, changes in CMS approved waiver structures for the state, and increased demand for services previously under-utilized.

Under the state's CMS approved tiered waiver system, the state expects the ROW to experience large growth in the next few years. The estimates provided attempt to capture that growth in the number of unduplicated recipients of service.

Factors D and D' were derived from two data sources. The first source is the ROW 372 Report for 2016-2017. All of the existing ROW services were based on our Part X addendum for the 372 report that gives utilization data the feeds into the other sections of the standard report. There were two data sources used: CMS 372 Reports for 14-15, 15-16, and 16-17 and data from SAS Queries from the MARS Data Warehouse. This was the process used for each service estimate. Included is the basic spreadsheet that ultimately determines what information goes into Section J. Also included are the 372 Reports. The query data for this exercise is no longer available but included are the basic spreadsheets. All of the years were put into the utilization model and subsequent years were then used and averaged in.

Factor D estimates were based on the utilization percentages established for year one and only trended forward for the increase in unduplicated recipients. The utilization percentages are detailed on the provided spreadsheet. This increase is based on utilization of services by incoming waiver participants. Utilization of personal care service data for the incoming waiver program transition participants indicated an increase in CLS services based on their previous service usage. It is also anticipated that there will be an increase in future utilization of ROW recipients as more people enter into the program who would possibly have been in our New Opportunities Waiver. Individuals in the NOW have historically used greater amounts of personal care services than in the ROW. The state assumed that it would be prudent to reflect a greater amount of usage in Section J now with intent to examine the results as the waiver progresses through each waiver year.

For the individuals transferring to the ROW, data was used from the Medicaid MARS Data Warehouse. Utilization data was collected for a 24 month period starting July 2015 to June 2017 for the ADHC services, personal care assistance services, state plan personal care services, and support coordination services.

ADHC Service - The state looked at 24 months of claims data for the identified ADHC persons who were possible transfers to the ROW. The time period analyzed was LDH state fiscal years 2015 to 2017. The source of this information was the Medicaid MARS Data Warehouse

Personal care assistance services under CCW for those persons transitioning to ROW. -The state looked at 24 months of claims data for the identified OAAS-CCW persons who were possible transfers to the ROW. The time period analyzed was LDH state fiscal years 2015 to 2017. The source of this information was the Medicaid MARS Data Warehouse.

Historical utilization and expenditure data for state plan personal care services - The state looked at 24 months of state long-term personal care service claims data for the identified ADHC and OAAS-CCW persons who were possible transfers to the ROW. The time period analyzed was LDH state fiscal years 2015 to 2017. The source of this information was the Medicaid MARS Data Warehouse.

Historical utilization and expenditure data for support coordination services. The state looked at 24 months of support coordination claims data for the identified ADHC and OAAS-CCW persons who were possible transfers to the ROW. The time period analyzed was LDH state fiscal years 2015 to 2017. The source of this information was the Medicaid MARS Data Warehouse. Support Coordination services for persons in the ADHC waiver and the Community Choices Waiver are paid on a monthly basis. Support Coordination services in the ROW are paid in 15 minute increments. Since there was no one to one service equivalent, some assumptions had to be made as to how many 15 minute service units are actually used in the monthly rate of the ADHC and Community Choices Waivers. That estimated number of units was then added to the total units identified on Part X per ROW recipient and then divided by the estimated number of ROW unduplicated recipients to get the average number of units of service. That number was then multiplied by the cost per service to get the estimated total cost.

- 2015-2017 CMS 372 report for the ROW

The state uses an in-state only document called Part X addendum to the annual CMS 372 report to estimate the utilization for ROW services. This sheet is not required by CMS and is not included with the submitted report. It creates a recipient, services, and payment by procedure code for each ROW service that is the basis for the numbers reported in the actual 372 report.

For Community Living Supports, the state used MARS Data Warehouse data for the previously mentioned 24 month period to estimate the total number of personal care units (PCA and PCS) used by the persons projected to be transferred from the ADHC and Community Choice Waivers. A historical monthly average utilization rate was calculated per person and then multiplied by the number of persons transferring to get a total number of units for the transferring group. The total units were then added to the total number of units identified on the Part X report and divided by the new estimated number of unduplicated recipients to get an average number of units per recipient. That number was then multiplied by the cost per service to get the estimated total cost.

Monitored In-Home Caregiving is a new service for the ROW, so there was no previous data to be considered in this making this estimate. Therefore, the state made reasonable estimates based on other daily rate programs and use of Companion Care in other waiver program. As the more information comes in, the State will adjust the numbers if needed to reflect more accurately the utilization.

The state increased the rate for Support Coordination in the ROW. The state also moved to a monthly payment platform for Support Coordination in the ROW from the previously used 15 minute increments.

Dental services were added effective 7/1/22 (WY 5). Rates are based on an estimated monthly capitation payment and assume a 3% growth rate annually. The growth/trend rate of 3% is the actual trend rate included in LA.0005 (Dental Benefit Program 1915b waiver) and is used for all capitated dental rates under the waiver. The trend was developed using a regression methodology and general industry trends. The number of users represents the total projected number of adult participants for the waiver year and factors in the average length of stay for the waiver. A monthly capitation payment will be paid for every adult each month they are enrolled in the waiver. Children are excluded from this estimate as they already receive comprehensive dental benefits through the State Plan EPSDT benefit.

All of our average cost per user is based on data pulled from the CMS 372 reports and data run from the Louisiana Medicaid MARS data warehouse. The State has seen some growth in these areas and the additional persons added to system reduces the average number of days of usage.

The methodology for calculating estimated costs for Financial Management Services includes 1) the projected number of users were calculated based on the current number of participants electing to self-direct their services and projections were trended for future years based on historical enrollment data; 2) the average units per user were calculated by multiplying the number of months in a year (based on the monthly unit type) by the average length of stay for the waiver; and 3) the average cost/unit is the rate established for this service.

ii. Factor D' Derivation. The estimates of Factor D' for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Factor D' is an estimate based on the actual participant expenditures for all other Medicaid services outside of waiver services. This dollar amount is totaled and then divided by the number of waiver participants to get an estimated average cost. A utilization inflation factor is thereby applied to each subsequent year based on program history and assumptions based on best professional judgment. Factor D' is calculated by taking the total non-waiver Medicaid expenditures for persons in the waiver and dividing it by the total unduplicated recipients in these facilities. We then apply a growth factor to represent the possible increase in cost due to various environmental and rate factors.

The State used data from existing waiver populations, with the assumption that these populations are comparable to the population served by ROW. Specifically, the population for this waiver will be existing ICF-DD participants, present and possible, as well as individuals on the DD Request for Services Registry. Therefore, the States dual eligibles will essentially be nearly the same or a similar population as identified in the Supports Waiver and NOW.

To exclude Medicare Part D Pharmacy cost from our cost effectiveness calculations we:

1. Identified all ROW participants who had dual eligibility for Medicaid and Medicare services;
2. Developed an independent query to identify pharmacy related Part D acute care expenditures;
3. Based on these expenditures, an estimate for average annual Part D expenditure per participant was derived; and
4. Deducted this amount from the average acute care cost per waiver participant.

iii. Factor G Derivation. The estimates of Factor G for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Factor G is an estimate based on the actual Medicaid expenditures for all private intermediate care facilities for individuals with intellectual disabilities (ICF/IID). This dollar amount is totaled and then divided by the number of waiver participants to get an estimated average cost. A utilization inflation factor is thereby applied to each subsequent year based on program history and other factors. 2016-17 372 reports is the source for the state's estimates. The basis of the growth rate in Factor G has been changes in the per diem rate of the State's public and private ICF-DDs. We have accounted for this possibility by applying an inflationary factor on the subsequent years from the average cost calculated on the CMS 372 report.

The factor D and D' prime estimates for WY 3-5 were based on data drawn from the state's Medicaid data warehouse for the anticipated population that would be eligible for transfer in addition to information for the existing ROW participants. The following data and sources were used:

- Historical utilization and expenditure data for ADHC services.
- Historical utilization and expenditure data for personal care assistance services under CCW
- Historical utilization and expenditure data for state plan personal care services
- Historical utilization and expenditure data for support coordination services

iv. Factor G' Derivation. The estimates of Factor G' for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Factor G' is an estimate based on the actual Medicaid expenditures for all other Medicaid services provided to citizens residing in intermediate care facilities for individuals with developmental disabilities (ICF/DD). This dollar amount is totaled and then divided by the number of waiver participants to get an estimated average cost. A utilization inflation factor is thereby applied to each subsequent year based on program history and other factors. 2016-17 372 reports are the source for the state's estimates. These "other factors" refer to assumptions based on best professional judgement. The growth rate in Factor G' has been changes in the cost of Medicaid acute care services. Utilization and population mix generally account for the cost increase. We normally apply an inflation factor between 2 and 4 percent historically.

To exclude Medicare Part D Pharmacy cost from our cost effectiveness calculations we:

1. Identified all ICF/DD individuals who had dual eligibility for Medicaid and Medicare services;
2. Developed an independent query to identify pharmacy related Part D acute care expenditures;
3. Based on these expenditures, an estimate for average annual Part D expenditure per recipient was derived; and
4. Deducted this amount from the average acute care cost per ICF/DD individual.
