

RESOURCES

“You cannot hope to build a better world without improving the individuals.

To that end, each of us must work for our own improvement and, at the same time, share a general responsibility for all humanity, our particular duty being to aid those to whom we think we can be most useful.”

—Madame Marie Curie, Winner of two Nobel Prizes in Physics and Chemistry (1867-1934)

RESOURCES

This section offers an initial list of resources to obtain further information on the topics addressed in this publication. The list has been organized into **national, state and local** sources, some of which have further been categorized into specific subjects.

This list should be used as a place to start gathering more information. In the process, you will discover links to many more resources. You and your community will have begun the journey towards self-improvement and the betterment of all humanity, simply by acquiring more knowledge.
