*All accounts might not be used
in this report

This report has been prepared for property record purposes and the computation of depreciation based on original cost.

With respect to the property record, original cost, and the computations made, the report is based on your June 30, 2012 report and the report of changes by you to June 30, 2013. These changes were incorporated into the June 30, 2012 property record and the enclosed represents a property record as of June 30, 2013.

The source codes used are as follows:

Depreciation Calculations

Method One – June 30, 2013
Current Year

Method Two – June 30, 2014
Projection

This report contains all assets acquired through June 30, 2013.

All calculations are based on the period beginning July 1, 2012 and ending June 30, 2013.

Basis of Calculations

All calculations are based on the straight-line method. *L. T. Annum calculates straight-line based on unrecovered cost over remaining life.*

Estimated Lives

The estimated lives are those presently in use by the State of Louisiana Department of Health and Hospitals.

Estimated lives for the fiscal year additions are based on the estimated life in years as suggested in the American Hospital Association publication “Estimated Useful Lives of Depreciable Hospital Assets”. We have used the AHA Revised 2008 Edition for the June 30, 2013 additions.

Salvage Value

Salvage value has been considered. In general it has been the practice of the department to exhaust the usefulness of its assets before disposition. As a result, predictable salvage value is negligible and is generally exceeded by the cost of disposition. Occasionally an asset will be disposed of prior to the exhaustion of its useful life. In these instances, it is anticipated that the department will make the appropriate adjustment at the time such dispositions occur.

Disposals

In the section tabbed “Annual Changes”, there is a summary and a detailed listing of reported fiscal year disposals. The calculations for these items are in accord with current department practice of one – half years depreciation in the year acquired, one – half years depreciation in year of disposal.

The current year’s depreciation of these disposals should be added to the current year’s depreciation of active file for reporting current expenses. The calculated accumulated depreciation can be used for profit or loss computations.

Medicare Requirements

In our judgment, the results in this report are determined in conformity of the Medicare regulations and requirements.

The report is compiled in sections as follows:

Certificate

This letter outlining the services performed

A reconciliation of original cost (rollforward)

A reconciliation of accumulated depreciation (rollforward)
