LDH is committed to fostering, cultivating and preserving a culture of equity, diversity and inclusion. Our human capital is the most valuable asset we have. The collective sum of the individual differences, life experiences, knowledge, inventiveness, innovation, self-expression, unique capabilities and talent that our employees invest in their work represents a significant part of not only our culture, but our Department’s reputation and achievement as well.

If there is a discrepancy between an LDH Policy and a Program Office or facility policy, the LDH policy shall govern/override/supersede the conflicting section within the Program Office or facility policy.

I. PURPOSE

The intent of this policy is to prescribe standards under which client and participant Protected Health Information (PHI) can be used and disclosed if information that can identify an individual has been removed or restricted to a limited data set. The Louisiana Department of Health (LDH) staff and workforce members should refer to LDH Policy #72 (Public Information) prior to any use or disclosure of Protected Health Information. If the workforce member determines that there is a conflict between that policy and LDH HIPAA Privacy Policies, the workforce member must contact their supervisor prior to the use or disclosure. The supervisor shall then consult with the Privacy Officer and other appropriate LDH executive management.

II. APPLICABILITY

LDH's HIPAA Privacy Policies are applicable to LDH's workforce and its Business Associates.

III. EFFECTIVE DATE

The implementation date of these policies is April 14, 2003.

IV. DEFINITIONS

The Definitions are included in the body of these policies.

V. RESPONSIBILITIES

LDH's workforce and its Business Associates are responsible for assuring that LDH's HIPAA Privacy Policies are followed. The LDH Privacy Officer and the Program Privacy Officers are responsible for the implementation, resolution and enforcement of all aspects related to LDH HIPAA Privacy Policies.

VI. EXCEPTIONS

The exceptions are listed in the policies.

VII. POLICY: DE-IDENTIFICATION OF CLIENT AND PARTICIPANT INFORMATION AND USE OF LIMITED DATA SETS

- A. De-identified information is client or participant health information from which LDH or another entity has deleted, redacted, or blocked identifiers so that the remaining information cannot reasonably be used to identify an individual.
 - 1. Unless otherwise restricted or prohibited by other Federal or State law, LDH can use and share health information as appropriate for the work of LDH, without further restriction if LDH or another entity has taken steps to de-identify the information consistent with the requirements and restrictions of policy in Section VII F.
 - 2. LDH may use or disclose a limited data set that meets the requirements of Section VII. H of this Policy, if LDH enters into a data use agreement with the limited data set recipient (or with the data source, if LDH will be the recipient of the limited data set) in accordance with the requirements of this Policy.
 - 3. LDH may disclose a limited data set only for the purposes of research, or nongovernmental public health purposes and must obtain a Data Use Agreement. However, unless LDH has obtained a limited data set that is subject to a data use agreement, LDH is not restricted to using a limited data set for its own activities or operations.

4. If LDH knows of a pattern or activity or practice of the limited data set recipient that constitutes a material breach or violation of a data set agreement, LDH will take reasonable steps to cure the breach or end the violation and, if such steps are unsuccessful, LDH will discontinue disclosure of information to the recipient and report the problem to the United States Department of Health and Human Services (LDHS), Office for Civil Rights.
