LOUISIANA MEDICAID 2016 ANNUAL REPORT

For the 2015/2016 State Fiscal Year July 1, 2015 – June 30, 2016

Rebekah E. Gee MD, MPH
SECRETARY

State of Louisiana

Louisiana Department of Health Bureau of Health Services Financing

Dear Louisiana Citizen:

It is my privilege to present the 2016 Medicaid Annual Report. This report provides an overview of the efforts taken to ensure that Louisiana's most vulnerable populations remain the focus of the State's Medicaid program.

The Louisiana Medicaid Program is one of the largest state programs with total expenditures of approximately \$8.3 billion during fiscal year (FY) 16. During this time, the Louisiana Medicaid Program served approximately 1.6 million Louisianans, which is over 30 percent of the state's population.

Highlights of FY 16 include planning for the implementation of the expansion of Medicaid, in accordance with executive order JBE 16-01 and adding Specialized Behavioral Health coverage to the Healthy Louisiana Managed Care Plans. This merger of physical and behavioral coverage results in a more holistic approach to the care management of our members.

The State's Medicaid program continues to meet the medical and behavioral health needs for low-income families, and individuals with disabilities. This improves the overall health of the State's citizenry and helps to improve the economic health of the State.

Agency Overview

The **Secretary** of the Louisiana Department of Health (LDH), who is appointed by the Governor, provides leadership and overall support services while maximizing resources to fulfill the mission of the Department.

The **Undersecretary** of the Louisiana Department of Health is responsible for the management of the **Office of Management and Finance** (OMF) and is also appointed by the Governor. The Undersecretary reports to the Secretary and oversees several administrative bureaus and divisions, including the Bureau of Health Services Financing (Medicaid).

The **Medicaid Director** is a classified civil service position that reports to the Undersecretary and is responsible for administering the Medicaid program including, eligibility, program operations, financial

management and policy implementation and support.

The **Deputy Directors** hold a classified civil service position that reports to the Medicaid Director and are responsible for overseeing a single aspect of the Medicaid program which may consist of multiple sections.

The Bureau of Health Services Financing (BHSF) is the state agency responsible for the Medicaid Program, with regional offices (see page ii) that provide in-person assistance with Medicaid eligibility applications and information along with numerous application centers throughout Louisiana.

For additional agency information, please visit the Louisiana Department of Health website at www.dhh.louisiana.gov/.

Mission Statement

The mission of the Bureau of Health Services Financing, which administers Medicaid in Louisiana, is to anticipate and respond to the health needs of Louisiana's citizens by developing, implementing, and enforcing administrative and programmatic policy with respect to eligibility, reimbursement, and monitoring of quality-driven health care services, in concurrence with evidence-based best practices and federal and state laws and regulations.

Goals

The goals of the Bureau of Health Services Financing are to:

- ♦ Improve health outcomes by emphasizing medical homes and reducing the number of uninsured persons in Louisiana.
- Expand existing and develop additional community-based services as an alternative to institutional care,
- Ensure cost effectiveness in the delivery of healthcare services by using efficient management practices and maximizing revenue opportunities,
- ♦ Assure accountability through reporting and monitoring of the healthcare delivery system in an effort to promote the health and safety of Louisiana citizens,
- Streamline work processes and increase productivity through technology by expanding the utilization of electronic tools for both providers and Medicaid administrative staff,
- ♦ Implement measures that will constrain the growth in Medicaid expenditures while improving services and to secure alternative sources of funding for healthcare in Louisiana.

Highlights of State Fiscal Year 2015/16

Pharmacy

Diagnosis codes were converted from ICD-9 to ICD-10 codes. Many Medicaid pharmacy claims require diagnosis codes to adjudicate. The conversion, implemented in October of 2015, required extensive research, programming and notification.

A clinical pre-authorization requirement for behavioral health medications for recipients less than 6 years old was implemented in November of 2015. Behavioral health medications include antipsychotic and ADHD medications.

Clinical pre-authorization for Hepatitis C directacting antiviral agents was updated to include newer agents. This therapeutic class will continue to change as new products are marketed with broader indications and better dosing regimens.

Managed Care for Specialized Behavioral Health

On December 1, 2015, the Bayou Health Plans (now Healthy Louisiana) integrated specialized behavioral health services (SBH) into their coverage. Previously, these services were covered through the Louisiana Behavioral Health Partnership (LBHP) managed by Magellan, while Healthy Louisiana was responsible for acute medical care and nonspecialized behavioral health services. Integrating the SBH services into Healthy Louisiana improves health care coordination by reducing the overlap of services. This also allows individuals who were previously enrolled in LBHP to receive SBH coordination through Healthy Louisiana.

Medicaid Expansion

On January 12, 2016, Governor John Bel Edwards signed executive order JBE 16-01 to expand Medicaid coverage to low income adults in Louisiana beginning on July 1, 2016. Louisiana became the 31st State in the Union to expand Medicaid based on provisions of the 2010 Affordable Care Act (ACA) thus affording several hundred thousand Louisiana adults, who

previously did not qualify, full Medicaid coverage.

To meet the goal of having Medicaid cards in hand for the newly established adult group by July 1, 2016, through partnership with the Department of Children and Families (DCFS) and collaboration with the Centers for Medicare and Medicaid Services (CMS), Louisiana streamlined enrollment for SNAP recipients.

Residents with active SNAP benefits who met certain criteria went through an abbreviated application process, relying on the SNAP decision to facilitate expedited enrollment of this DCFS population as a cost-effective strategy.

Outreach events involving Medicaid Application Centers (MACs), Medicaid providers, LDH staff, and other partners such as the Louisiana Hospital Association (LHA) were held across the state to educate our partners and to spread the news of this new opportunity for access to care.

As a result of the successful launch of the Medicaid Expansion program, 186,799 adults that previously did not qualify had access to full Medicaid coverage on July 1, 2016.

Outstation Sites

Medicaid Expansion enrollment efforts included opting into the Outstation Program made available to states by the Centers for Medicaid and Medicare Services (CMS). This program allows Medicaid to partner with providers (hosts) to reach individuals in the community who might be eligible for Medicaid. Medicaid eligibility analysts dedicate their work time to the host's patient applicants. At the end of FY2016, there were 26 provider locations participating in this program spread throughout the state in 19 parishes. This move made Medicaid staff visible and more accessible in the community, making it easier for individuals who might not have been able to seek out Medicaid resources to contact an eligibility analyst. The use of Outstation Sites also reduced the need for additional office space in Medicaid offices. For a list of outstation locations, see:

dhh.louisiana.gov/index.cfm/page/2477.

Louisiana Medicaid Outcomes

The mission of the Bureau of Health Services Financing (BHSF), which administers Medicaid in Louisiana, is to respond to the health needs of Louisiana's citizens by developing, implementing and enforcing administrative and programmatic policy with respect to eligibility, licensure, reimbursement and monitoring of health care services, in compliance with federal and state laws and regulations. An additional goal for BHSF was to improve quality of care by the transition of Louisiana Medicaid from fee-for-service to a managed care system in 2012. Pursuant to these goals, BHSF regularly monitors the performance of Healthy Louisiana Managed Care Organizations (MCOs) on a number of Healthcare Effectiveness Data and Information Set (HEDIS®) quality metrics. HEDIS, established by the National Committee for Quality Assurance (NCQA), is used to evaluate plan performance, improvements and outcomes. These measures expressed in this report will include a performance rate or percentage by each plan, baseline data and benchmarks.

The HEDIS measures provide useful information on children and adults who are and who are not taking advantage of beneficial and potentially cost-saving preventive medical services. The use of preventive services could help improve the enrollee's health and longevity of life, as well as reduce costs to tax payers. The measures provided below are from HEDIS data collected by each of the five Managed Care Organization health plans for the reporting years 2014, 2015 and 2016 (measurement years 2013, 2014 and 2015). In addition, the 2012 pre-Healthy Louisiana Baseline (measurement year 2011) is provided to illustrate the starting point at the initiation of the program. The NCQA Quality Compass South Central Benchmark is provided to assess, compare and measure progress.

HEDIS Performance Measures

In reporting year 2016 (measurement year 2015), Healthy Louisiana MCOs performed above the South Central 50th percentile on 11 out of 22 HEDIS performance metrics. These include: Postpartum Care, Chlamydia Screening in Women, Immunization Status for Adolescents, Human Papillomavirus Vaccine for Female Adolescents, Breast Cancer Screening, Cervical Cancer Screening, Ambulatory Care-Outpatient Visits/1000Member Months, Antidepressant Medication Management-Acute Phase, Antidepressant Medication Management-

Continuation Phase, Adherence to Antipsychotic Medications for Individuals with Schizophrenia, and Well-Child Visits in the First 15 Months of Life-6+ Years.

Among 2016 HEDIS (2015 measurement year) metrics below the South Central 50th percentile, 9 measures had substantial improvement from the 2012 fee-for-service baseline. These include Adolescent Well-Care Visits, Comprehensive Diabetes Care-HbA1c Testing, Well Child Visits in the Third, Fourth, Fifth and Sixth Years of Life, Childhood Immunization Status-Combo #2, Childhood Immunization Status-Combo #3, Timeliness of Prenatal Care, Child and Adolescents' Access to Primary Care Practitioners 25 months-6 years, Child and Adolescents; Access to Primary Care Practitioners 7-11 years, and Child and Adolescents' Access to Primary Care Practitioners 12-19 years.

One measure below the 50th percentile showed a slight improvement from the 2012 baseline: Child and Adolescents' Access to Primary Care Practitioners (CAP) 12-14 months.

One measure was below the South Central 50th percentile AND worsened in 2016 when compared to baseline (inverse measure-lower is better): Ambulatory Care-ED Visits per 1000 Member Months.

Guidance for Reviewing Chart Illustrations

- The data presented in the following charts were reported to the External Quality Review Organization (EQRO) by the Healthy Louisiana MCO plans.
- Louisiana Healthcare Connections (LHC) acquired Community Health Solutions (CHS) during 2014. Therefore, there are no data from CHS from 2015 and 2016 for some measures.
- Aetna was a newly added plan in February 2015; and therefore, Aetna was unable to report because they had small denominators and/or did not have enough data to meet continuous enrollment for 2015 and 2016 for some measures.
- The 2012 Baselines (2011 measurement year) only exist for those measures that were reported at that time.

Adherence to Antipsychotic Medications for Individuals with Schizophrenia**

This measure calculates the percentage of members 19-64 years of age during the measurement year with schizophrenia who were dispensed and remained on an antipsychotic medication for at least 80% of the treatment period. The chart illustrates antipsychotic adherence rates for years 2015 and 2016 (measurement years 2014 and 2015, respectively).

^{**}This measure was newly reported for 2015, LHC did not report data to the External Quality Review Organization (EQRO) for 2015 and 2016. In addition, UHC did not report to the EQRO for 2015 but did report for 2016.

Adolescent Well-Care Visits

This measure is the percentage of enrolled members 12-21 years of age who had at least one comprehensive well-care visit with a PCP or an OB/GYN practitioner during the measurement year.² It is important for adolescents to visit a PCP or OB/GYN to assess any physical, emotional or social adolescent problems. The percentage of children who received adolescent well child visits for 2014, 2015 and 2016 (measurement years 2013, 2014, and 2015, respectively) are illustrated in the chart.

^{*}See Guidance for Reviewing Chart Illustrations on page ix.

Ambulatory Care—ED Visits/1000 Member Months

This measure reports the number of emergency department visits per 1,000 member months. Since this is an inverse measure, a lower rate indicates better performance. The utilization of ED visits for non-emergent care significantly increase costs. It is important to assess utilization and promote primary care and outpatient visits for non-emergencies. The chart illustrates the rates of ambulatory ED visits per 1000 member months.

Ambulatory Care (AMB)—Outpatient Visits/1000 Member Months

This measure assesses the utilization of ambulatory care Outpatient visits for 1000 Member Months.² The utilization of outpatient office visits and routine visits to the hospital outpatient departments is important in terms of service, preventative care and disease management. The chart illustrates the rates of ambulatory outpatient visits per 1000 member months.

^{*}See Guidance for Reviewing Chart Illustrations on page ix.

Antidepressant Medication Management—Acute Phase

This measure assesses the percentage of members aged 18 and older who were treated with antidepressant medication, had a diagnosis of major depression and who remained on an antidepressant medication for at least 84 days. The chart illustrates the antidepressant medication management rates for acute phase for years 2014, 2015 and 2016 (measurement years 2013, 2014, and 2015, respectively).

Antidepressant Medication Management—Continuation Phase

This measure assesses the percentage of members aged 18 and older who were treated with antidepressant medication, had a diagnosis of major depression and who remained on an antidepressant medication for at least 180 days. The chart illustrates the antidepressant medication management rates for the continuation phase for years 2014, 2015 and 2016 (measurement years 2013, 2014, and 2015, respectively).

^{*}See Guidance for Reviewing Chart Illustrations on page ix.

Breast Cancer Screening

This measure looks at the percentage of women 50-74 years of age who had a mammogram to screen for breast cancer. Regular screening can greatly improve the outcomes for women with breast cancer and lead to greater range of treatment options and lower health care costs. The rates of breast cancer screenings for 2015 and 2016 (measurement years 2014 and 2015, respectively) are illustrated in the chart.

Cervical Cancer Screening

This measure looks at the percentage of women 21-64 years of age who were screened for cervical cancer:

- Women 21-64 who had cervical cytology performed every 3 years
- Women 30-64 who had cervical cytology/HPV co-testing performed every 5 years

The rates of cervical cancer screenings for 2014, 2015 and 2016 (measurement years 2013, 2014, and 2015, respectively) are illustrated in the chart.

^{*}See Guidance for Reviewing Chart Illustrations on page ix.

Child and Adolescents' Access to Primary Care Practitioners (CAP) 12-24 months

This measure looks at the percentage of children aged 12-24 months who had a visit with a PCP during the measurement year. Patient visits allows members to receive counseling on various health care needs and maintains access to care. The chart illustrates child and adolescents' access to primary care practitioners 12-24 months.

Child and Adolescents' Access to Primary Care Practitioners 25 months-6 years

This measure examines the percentage of children aged 25 months to 6 years who had a visit with a PCP during the measurement year.² Patient visits allows members to receive counseling on various health care needs and maintains access to care. The chart illustrates child and adolescents' access to primary care practitioners 25 months-6 years.

^{*}See Guidance for Reviewing Chart Illustrations on page ix.

Child and Adolescents' Access to Primary Care Practitioners 7-11 years

This measure examines the percentage of children aged 7-11 years who had a visit with a PCP during the measurement year or the year prior to the measurement year.² Patient visits allows members to receive counseling on various health care needs and maintains access to care. The chart illustrates child and adolescents' access to primary care practitioners 7-11 years of age.

Child and Adolescents' Access to Primary Care Practitioners 12-19 years

This measure examines the percentage of adolescents aged 12-19 years who had a visit with a PCP during the measurement year or the year prior to the measurement year.² Patient visits allows members to receive counseling various health care needs and maintains access to care. The chart illustrates child and adolescents' access to primary care practitioners 12-19 years of age.

^{*}See Guidance for Reviewing Chart Illustrations on page ix.

Childhood Immunization Status—Combo #2

This measure looks at the percentage of children 2 years of age who had four diphtheria, tetanus and acellular pertussis (DTaP); three polio (IPV); one measles, mumps and rubella (MMR); three haemophilus influenza type B (HiB); three hepatitis B (HepB), and one chicken pox (VZV) vaccines by their second birthday.

Childhood Immunization Status—Combo #3

This measure assesses the percentage of children 2 years of age who had four diphtheria, tetanus and acellular pertussis (DTaP); three polio (IPV); one measles, mumps and rubella (MMR); three haemophilus influenza type B (HiB); three hepatitis B (HepB), one chicken pox (VZV), and four pneumococcal conjugate (PCV) vaccines by their second birthday.

^{*}See Guidance for Reviewing Chart Illustrations on page ix.

Chlamydia Screening in Women

This measure examines the percentage of women 16-24 years of age who were identified as sexually active and who had at least one test for Chlamydia during the measurement year. It is important for women to be screened for chlamydia to prevent adverse medical conditions such as pelvic inflammatory disease, infertility and ectopic pregnancy. The rates of chlamydia screening for 2014, 2015 and 2016 (measurement years 2013, 2014, and 2015, respectively) are illustrated in the chart.

Comprehensive Diabetes Care—HbA1c Testing

This measure looks at the percentage of members 18-75 years of age with diabetes (type 1 and type 2) who received an HbA1c test during the measurement year.² "Diabetes is one of the most costly and highly prevalent chronic diseases in the United States. Many complications can be prevented if detected and addressed in the early stages." The percentage of comprehensive diabetes care-HbA1c testing for 2014, 2015 and 2016 (measurement years 2013, 2014, and 2015, respectively) are illustrated in the chart.

^{*}See Guidance for Reviewing Chart Illustrations on page ix.

Human Papillomavirus Vaccine for Female Adolescents

This measure reports the percentage of female adolescents, 13 years of age, who had 3 doses of the human papillomavirus (HPV) vaccine by their 13th birthday. This vaccination has the potential to reduce the number of females diagnosed with HPV infections. The rates of HPV vaccination in female adolescents for 2014, 2015 and 2016 (measurement years 2013, 2014, and 2015, respectively) are illustrated in the chart. The MCO health plans were not required to report this measure until 2015.

Immunization Status for Adolescents

This measure assesses the percentage of adolescents who turned 13 during the measurement year and who received one dose of meningococcal conjugate vaccine and one tetanus, diphtheria toxoids and acellular pertussis (Tdap) vaccine or one tetanus, diphtheria toxoids vaccine (Td) by their 13th birthday. The immunizations helps protect children from potentially serious childhood illnesses. The rates of immunizations status for adolescents for 2014, 2015 and 2016 (measurement years 2013, 2014, and 2015, respectively) are illustrated in the chart.

^{*}See Guidance for Reviewing Chart Illustrations on page ix.

Postpartum Care

The measure is used to assess the percentage of deliveries between November 6 of the year prior to the measurement year and November 5 of the measurement year that had a postpartum visit on or between 21 and 56 days after delivery. It is important that women have a postpartum visit to receive a physical examination, family guidance and counselling. The rates of postpartum care for 2014, 2015 and 2016 (measurement years 2013, 2014, and 2015, respectively) are illustrated in the chart.

Timeliness of Prenatal Care

This measure examines the percentage of deliveries of live births that occurred between November 6 of the year prior to the measurement year and November 5 of the measurement year and received prenatal care in a timely manner. Timeliness of prenatal care is defined as either during the first trimester, if enrolled during that timeframe, or within 42 days of enrollment.

^{*}See Guidance for Reviewing Chart Illustrations on page ix.

Well-Child Visits in the First 15 Months of Life—6+ Visits

The measure assesses the percentage of members who turned 15 months old during the measurement year and who had the following number of well-child visits with a PCP during their first 15 months of life.³ The first year of life is particularly crucial for monitoring a child's development. These visits to the PCP helps detect physical, developmental and behavioral problems and provide or recommend treatment or guidance to parents. The percentage of children who received six well-child visits in the first 15 months of life for 2015 and 2016 (measurement years 2014 and 2015, respectively) are illustrated in the chart. Note: The MCO health plans were not required to report this measure for 2014.

Well Child Visits in the Third, Fourth, Fifth, and Sixth Years of Life

This measure is the percentage of members 3-6 years of age who had one or more well-child visits with a PCP during the measurement year.³ These visits provide preventive medical care and help the PCP detect vision, speech and language problems and provide or recommend the needed therapy or intervention program. The rates of children in Louisiana Medicaid between the ages of 3-6 visiting a PCP is illustrated in the chart.

The Legacy population is comprised of fewer members than are enrolled in Healthy Louisiana. Legacy includes members who are in Long-Term Care and utilize Medicaid services differently, impacting the rate.

Technical Notes

State Fiscal Year and Federal Fiscal Year

Louisiana's State Fiscal Year (SFY) runs from July 1 through June 30 of the following calendar year. The Federal Fiscal Year (FFY) begins October 1 and ends September 30 of the following calendar year. The information presented in this report is based on a SFY basis unless otherwise noted.

Expenditures versus Payments

The data in this report comes from two primary sources. The first source is the overall Medicaid program fiscal amounts drawn from the Integrated State Information System (ISIS), which is the statewide financial system. ISIS reports the program dollar amounts after all claims and financial adjustments have been made. Financial adjustments are amounts often paid in lump-sum that are not necessarily attributable to any specific individual. These financial adjustments could include transactions related to cost settlements including supplemental and Upper Payment Limit payments, Uncompensated Care Costs (UCC), pharmacy rebates received from pharmaceutical manufacturers and the amounts paid to Centers for Medicare and Medicaid Services (CMS) for Medicare Buy-ins and Part-D. ISIS does not capture recipient and provider-specific information.

To capture detailed recipient and provider related information, we use the second set of sources, the Medicaid Management Information System (MMIS) and Medicare Modernization Act (MMA) Response File from CMS. MMIS has a claims reporting system, known as the Management Administrative Reporting Subsystem (MARS) Data Warehouse, which is managed by the Medicaid program Fiscal Intermediary (FI). Recipient and provider-specific information is drawn from data extracted from MARS Data Warehouse (MDW) and is specifically derived for this Annual Report according to the criteria specified in this technical note. The Medicaid MDW reports paid claims to providers before the application of certain financial adjustments, as discussed under the first source. MMA Response File contains information about recipients on behalf of whom a Medicare Buy-in and/or Part-D/Clawback premium was paid to CMS.

Due to the above differences, dollar amounts drawn from the above two sources may not match

exactly. To differentiate amounts reported from different sources in this report, we define the term "EXPENDITURES" as fiscal information derived from ISIS and "PAYMENTS" as information drawn from the other primary sources.

In instances where total Fee-for-Service numbers are stated, this number includes payments made to Magellan for Louisiana Behavioral Health Partnership Fee-for-Service claims. This is done so as to not risk double-counting LBHP FFS payments as Prepaid payments. However, this means that FFS totals which do not include LBHP claims may not add up to the same total payments as those that do.

Enrollee, Recipient and Payment Counts

Enrollee and recipient counts are a large portion of this report. Enrollee refers to an individual who was enrolled in Medicaid during the SFY. Recipient refers to an individual on behalf of whom Medicaid made a payment during the SFY. Due to lag in claims processing, retroactive enrollment and other issues, it is possible to have payments made for recipients who were not enrollees during the SFY.

To have a complete perspective of enrollees, recipients and payments, all Medicare Buy-ins and Part-D duals data is included in enrollee and recipient counts and payment amounts in reports from SFY 2007/08 forward.

SFY 2015/16 enrollees, recipients and payments data include LaCHIP Affordable Plan (LAP) and Greater New Orleans Community Health Connection (GNOCHC). Reports prior to SFY 2012/13 do not include these two programs due to their data/information not being captured in the regular Medicaid claims processing system.

With respect to Managed Care, MDW claims payments show about \$138 million less than ISIS expenditures. There were two main reasons for this difference. The MDW does not capture offline payments made to Managed Care Organizations for the Health Insurance Provider Fee, which makes up \$41.7 million. Secondly, the MDW did not capture an offline payment of \$95 million for the May Date of Service PMPMs, which were processed in July 2016.

Year in Review

Expenditures

During State Fiscal Year (SFY) 2015/16, Louisiana Medicaid's programmatic expenditures totaled \$8.3 billion. This is the amount of final expenditures recorded in the state's accounting system (ISIS). This amount does not include administrative expenditures. Compared to SFY 2014/15, programmatic expenditures increased by \$454.9 million (5.5 percent). For a further breakdown of expenditures please see tables 2 to 5.

Payments

During SFY 2015/16, over \$7.2 billion payments were made on behalf of 1.5 million Medicaid recipients, averaging about \$4,933 per recipienti, which is approximately 2 percent more than the previous SFY (Figure 1). The nominal data reflects the actual dollar amount paid as of the year reported. The real data reflects the dollar amount adjusted for inflation, with SFY 2010/11 as the base period. The real overall annual payment per recipient was approximately \$4,282 for SFY 2015/16, which is a 1.6 percent increase from SFY 2014/15, but a 2.1 percent decrease compared to SFY 2010/11.

Total Medicaid payments for Louisiana increased by 5.79 percent between 2015 and 2016 (Figure 2). In comparison, the national growth of payments for the same period was 5.14 percent. Since 2006 Louisiana's total payments have increased by 74.9 percent without adjusting for inflation. This is less than the national payment growth of 85.0 percent over the same time period.

For a detailed explanation of the differences between expenditures and payments, please see the Technical Note on page xviii.

Enrollees and Recipients

During SFY 2015/16, 1,602,954 people - about 34 percent of Louisiana's population of 4,670,724 were enrolled in the Medicaid program and payments were made on behalf of 1,454,027 recipients (Figure 3). From the previous State Fiscal Year, there has been a 2.4 percent increase in the percentage of the state population enrolled in Medicaid, although total enrollment increased by 7.9 percent in the same time period. Overall, United States Medicaid enrollment increased by 2.32 percent (Figure 4) during SFY 2015/16.

Figure 1: Louisiana Medicaid Average Annual Payment Per Recipient

Average annual real cost per recipient is calculated based on Consumer Price Index (CPI). CPI source: Bureau of Labor Statistics. (2016). Consumer Price Index - All Urban Consumers - U.S. Medical Care, Series ID: CUUR0000SAM. Retrieved from http://data.bls.gov/cgi-bin/surveymost?cu

¹United States payment and enrollment growth reflects Medicaid Expansion beginning in 2014.

Medicaid Finances

Means of Finance

Medicaid is a means-tested, open-ended entitlement public assistance program established in 1965 by Title XIX of the Social Security Act, often referred to as "Title XIX". Since Medicaid is an entitlement program, the federal and state governments cannot limit the number of eligible people who meet the established criteria and enroll into the various eligibility categories in Medicaid.

The Medicaid program is funded through federal and state funds. The federal share is based on Federal Medical Assistance Percentages (FMAP), which are updated each Federal Fiscal Year (FFY). State FMAPs normally range from 50 percent to 83 percent of program cost based on their latest available three year average Per Capita Personal Income (PCPI) in relation to the national PCPI. During SFY 2015/16, Louisiana's regular blended FMAP was 62.17 percent. The regular FMAP is based on the FFY, so the blended FMAP is calculated to fit the State Fiscal Year by using 3 months of the previous FFY FMAP and 9 months of the current FFY FMAP. The federal government also offers an enhanced FMAP for recipients in the State Children's Health Insurance Program (SCHIP). Louisiana's SCHIP program, known as LaCHIP, had a blended enhanced FMAP of 90.77 percent (including a 9.23 percent increase) during SFY 2015/16.

Financial Factors

Medicaid enrollment numbers and corresponding expenditures are impacted by economic and

demographic (age, gender, etc.) factors. Examining these factors can help determine enrollment and financial characteristics of the Medicaid population. The percentage of population living in poverty, defined by the Federal Poverty Guidelines (FPG), influences the level of state population reliant on Medicaid program services. Based on an average of the Current Population Survey's Calendar Year 2014 and 2015 data, 20.85 percent of the Louisiana population was considered living under 100 percent of the FPG, while 40.90 percent were living below 200 percent of the FPG (Table 1). These percentages compare to 14.15 percent and 32.55 percent respectively for the U.S. population, which categorizes Louisiana as a low income state. In comparison to the 2014/15 poverty averages, Louisiana's percentages decreased from 21.15 percent living under 100 percent of the FPG and 42.9 percent living under 200 percent of the FPG.

In addition to poverty rates, unemployment rates are also a major factor in the state population reliant on Medicaid programs. As represented in Figure 5, the unemployment rates in Louisiana from SFY 1995/96 to SFY 2000/01 was above the national average. For the next 4 years, the Louisiana rate was consistent with the national average. The Louisiana unemployment rate spiked above the national average from SFY 2004/05 to SFY 2005/06. The Louisiana unemployment rate was below the national average from SFY 2006/07 until SFY 2014/15. In SFY 2015/16, Louisiana's average unemployment rate was 6.0 percent, which was higher than the national average unemployment rate of 5.0 percent.

Table 1: Population Poverty Status for All Income Levels, Average of Calendar Years 2014 and 2015

Poverty Level	Louisiana	United States
≤ 100% of Poverty	20.85%	14.15%
101% to 125% of Poverty	5.70%	4.50%
126% to 138% of Poverty	2.75%	2.40%
139% to 150% of Poverty	2.45%	2.25%
151% to 185% of Poverty	6.40%	6.55%
186% to 200% of Poverty	2.75%	2.70%
Total ≤ 200% of Poverty	40.90%	32.55%
Remainder of Population	59.10%	67.45%

U.S. Census Bureau. (2014). Current Population Survey: 2015 Annual Social and Economic Supplement, POV46 – Poverty Status by State: 2014. Income and Poverty in the United States: 2015. Retrieved from http://www.census.gov/data/tables/time-series/demo/income-poverty/cps-pov/pov-46.html

Figure 5: Average Unemployment Rate in Louisiana and the United States by State Fiscal Year

U.S. Department of Labor, Bureau of Labor Statistics. (2015). Not Seasonally Adjusted Unemployment Rate. Series ID: LNU04000000 retrieved from http://data.bls.gov/timeseries/LNU04000000 for United States and LAUST220000000000003 retrieved from http://data.bls.gov/timeseries/LAUST220000000000003 for Louisiana

Louisiana State University (LSU), through the Louisiana Population Data Center, projected that Louisiana's population will increase an average of 3 percent every five years! In addition to the increase in population, the population age mix is predicted to change greatly. The 65+ age group is projected to increase while the other age groups are projected to decrease.

The 2015 Louisiana Health Insurance Survey conducted by the LSU Public Policy Research Labii for the Louisiana Department of Health projected that 3.9 percent of Louisiana children (under the age of 19) and 22.8 percent of nonelderly (age 19 to 64) adults were uninsured in 2015. For children under the age of 19, this represented a decrease from the 4.4 percent rate reported in the previous survey in 2013, and was an increase in coverage for around 5,600 children. This is largely due to increased coverage for children under Medicaid and LaCHIP. For the adults age 19 to 64, the uninsured rate represented an increase from the 2013 estimate of 22.0 percent, which was a decrease in coverage for more than 26,000 adults.

Medicaid Expenditures

As previously stated, the Medicaid program is jointly funded by federal and state funds with applicable FMAPs.

Medicaid expenditures are grouped into two types, Medical Vendor Payments (MVP) and Medical Vendor Administration (MVA). The means of finance for MVP expenditures is presented in Table 2. For this report, unless otherwise stated, Medicaid numbers include Medicaid Title XIX and LaCHIP Title XXI. The effective overall state match rate was approximately 34.2 percent while federal match rate was approximately 65.8 percent for SFY 2015/16. The actual state share of Medicaid expenditures varies based on qualified expenditures, and ranges from 100 percent Federal funds for items such as HIT (Health Information Technology) Electronic Health Records incentive payments, to 100 percent State Funds for Clawback (Medicare Part D) payments.

SFY 2015/16 Medicaid MVP \$8.3 billion expenditures by program appropriation are presented in Table 3. The Private provider program accounts for approximately 78.88 percent of MVP expenditures. Public provider program represents 2.36 percent, Buy-ins and supplements program represents 5.46 percent, and Uncompensated Care Costs accounts for 13.30 percent of MVP expenditures.

Louisiana State University. Louisiana Population Projections to 2030. Retrieved from http://www.louisiana.gov/Explore/Population_Projections/

ii Barnes, Stephen, Stephanie Virgets, Dek Terrell and Mike Henderson. 2015 Louisiana Health Insurance Survey. (May 2016) Retrieved from http://new.dhh.louisiana.gov/index.cfm/newsroom/detail/1586

Table 4 presents the Means of Finance for the MVA expenditures for SFY 2015/16. During SFY 2015/16, total Medicaid MVP expenditures were approximately \$8.3 billion for health care services

delivery. This means that, taking both MVA and MVP into account, about 97 cents of every Medicaid dollar was payment for medical services.

Table 2: MVP Expenditures Means of Finance by State Fiscal Year

Financing Category	2013/14		2014/15 2015			
Financing Category	Expenditures (\$)	Percent	Expenditures (\$)	Percent	Expenditures (\$)	Percent

¹Managed Care Expenditures are included in Private Providers for SFY 2014/15 and SFY 2015/16. SFY 2013/14 Managed Care expenditures are included in Buy-Ins/Supplements.

Major Budget Categories

The Appropriations Act allocates Medicaid MVP funds into four broad budget programs:

A. Private Providers

Payments to non-state owned providers and facilities, including city and parish owned, and Managed Care Organizations.

B. Public Providers

A: Private Providers

Payments to state providers and facilities, including certain Local Government Entities and school boards.

Expenditures (\$)

C. Medicare Buy-Ins & Supplements Payments to the Centers for Medicare and Medicaid Services (CMS) on behalf of dual

Private Providers

- A_01. Ambulatory Surgical Clinics: Provides surgical services not requiring hospitalization where expected stay of recipient does not exceed 24 hours.
- A_02. Applied Behavioral Analysis: Provides behavioral therapy to persons under 21 years of age who have been diagnosed with a condition for which ABA-based therapy services are recognized as therapeutically appropriate, including autism spectrum disorder, and have received prior authorization for these services.
- A_03. Case Management Services: Assists the recipient in prioritizing and defining desired personal outcomes, defining appropriate supports and services, and accessing these supports and services.
- **A_04. Durable Medical Equipment (DME):** Medically necessary equipment, appliances and supplies. DME providers must obtain prior authorization.
- A_05. Early and Periodic Screening, Diagnosis and Treatment (EPSDT): The child-specific component of Louisiana Medicaid designed to make health care available and accessible to children. The Health Services component of EPSDT provides evaluation and treatment for children, primarily through school-based and early intervention services providers. The Louisiana screening component of EPSDT provides a framework for routine health, mental health and developmental screening of children from birth to age 21 as well as evaluation and treatment for illness, conditions or disabilities.
- A_06. Early Steps: Louisiana's Early Intervention System that provides services to families with infants and toddlers from birth to three years who have a medical condition likely to result in or have a developmental delay. Services include family support coordination, occupational therapy, physical therapy, speech therapy, psychology and audiology.
- A_07. Family Planning: Services to Medicaid recipients for routine family planning services including doctor's visit, counseling, contraceptives, sexually transmitted infection (STI) screening and certain lab services.
- A_08. Federally Qualified Health Center (FQHC)
 Services: Services provided by a physician or other professional, as well as supplies incidental to the physician or other professional services. Commonly known as community health centers, migrant health centers and health care for the homeless programs. FQHCs must meet federal requirements of the U.S. Department of Health and Human Services (DHHS) prior to Medicaid enrollment.
- A_09. Hemodialysis Services: Dialysis treatment (including routine laboratory services), medically necessary nonroutine laboratory services and medically necessary injections reimbursed to free-standing End Stage Renal Disease (ESRD) facilities.
- **A_10. Home Health Services:** Intermittent or part-time skilled nursing services, personal care services, and

- physical, occupational and speech therapy services provided by a licensed home health agency in accordance with the plan of treatment ordered by a physician. Certain services may require prior authorization.
- **A_11. Hospice:** Palliative care for the terminally ill patient and support for the family.
- A_12. Hospital Inpatient Services: Inpatient hospital care and services. Inpatient services must be pre-certified in most instances if provided by an in-state hospital.
- A_13. Hospital Outpatient Services: Outpatient hospital care and services. Some outpatient services must be prior authorized.
- A_14. Intermediate Care Facilities for the Intellectually
 Disabled (ICF/ID) Community Homes: Homes for the
 long-term care of intellectually disabled recipients.
- **A_15.** Laboratory and X-Ray Services: Diagnostic testing performed by an independent laboratory or physician's office.
- A_16. Long Term Personal Care Services (LT-PCS):

 Optional services for elderly or disabled recipients over age 21 who qualify for nursing facility level of care. Personal care services are defined as services that provide assistance with the Activities of Daily Living (ADL) and the Instrumental Activities of Daily Living (IADL).
- **A_17. Nursing Facilities:** Facilities that provide professional nursing and rehabilitation services on a 24-hours-a-day basis.
- A_18. Program for All Inclusive Care for the Elderly (PACE): A service model that provides health services, as well as in-home supports to individuals who are 55 years of age or older, meet certain qualifications, and choose to participate.
- A_19. Pediatric Day Health Care (PDHC): Facilities that provide an array of services to meet the medical, social and developmental needs of children from birth until 21 years of age who have complex medical conditions requiring skilled nursing care and medical intervention on an ongoing basis. All PDHC services require prior authorization.
- A_20. Pharmaceutical Products and Services: Prescription services for prescriptions issued by a licensed physician, podiatrist, certified nurse practitioner or dentist.
- A_21. Physician Services: Physician and other professional services, including those of the following professionals: physicians (including specialists), certified registered nurse anesthetists, nurse midwives, nurse practitioners, optometrists and podiatrists.
- **A_22. Rural Health Clinics:** Provides physician or other professional services and supplies incidental to the physician or other professional services. Rural health

clinics must meet federal requirements of the U.S. DHHS prior to Medicaid enrollment.

A_23. Transportation - Emergency Ambulance:

Transportation provided by an ambulance for an unforeseen combination of circumstances which demands immediate attention at a medical facility to prevent serious impairment or loss of life. All services are subject to review for medical necessity of ambulance transportation.

A 24. Transportation – Non-Emergency Ambulance:

Transportation provided by an ambulance in which no other means of transportation is available and/or the recipient is unable to ride in any other type of vehicle. All services are subject to review for medical necessity of ambulance transportation.

- A_25. Transportation Non-Emergency Non-Ambulance: Nonemergency transportation to and from routine medical appointments.
- A_26. Waiverⁱ Adult Day Health Care (ADHC): Provides supervised care during part of the day to adults 22 years of age or older with disabilities or elders in a licensed day care facility.
- A_27. Waiver Children's Choice (CC): Provides supplemental support to children from birth through age 18 with developmental disabilities in their homes. Includes support coordination, center-based respite, environmental accessibility adaptations, and family training and family support.
- A_28. Waiver Community Choices (CCW): Provides services to elderly and disabled adults age 21 and older in their homes as an alternative to nursing home placement. Includes support coordination, personal assistance services, environmental modifications, adult day health care, home delivered meals and household supports.
- A_29. Waiver New Opportunities (NOW) Developmentally Disabled Community Services: Provides home and community-based care services to individuals, age 3 and older, with developmental disabilities, as an alternative to institutional care. Includes individual/family support, respite, community integration and development, environmental accessibility adaptations, specialized medical equipment and supplies, and others.
- A_30. Waiver Residential Options (ROW): Allows recipients to utilize the principles of self-determination and supplements the family and/or the community supports that are available to maintain the individual in the community rather than institutional care. Includes support coordination, community living supports, companion care, host home, shared living, transitional services and others.

- A_31. Waiver Supports (SW): Provides focused, individualized vocational services to individuals age 18 and older as an alternative to institutional care. Includes support coordination, day habilitation, prevocational services, respite, habilitation and personal emergency response system.
- A_32. Other Private Provider Services: Audiology, chiropractic, personal care attendant, physical and occupational therapy, prenatal clinics, psychology, social work and other services not covered above are included here.
- A_33. Supplemental Payments: Payments that the federal government allows states to reimburse set provider types (hospitals, physicians, graduate medical education, etc.) for certain uncompensated care provided under Medicaid at an amount equal to what Medicare would have paid for the same service.

Figure 6 presents the top ten Fee-for-Service private provider programs by Medicaid expenditures, excluding supplemental payments. The top four provider programs—nursing homes, hospital services, New Opportunities Waiver and ICF/DD—together account for 62.5 percent of the private provider FFS expenditures. The top ten private provider programs account for 81.88 percent of FFS private spending.

For more information and statistics concerning waivers, please refer to the HCBS Waivers Section on page 44.

Managed Care Providers

Managed Care provider programs include the following:

- A_34. Healthy Louisiana: Per Member Per Month (PMPM) payments for Louisiana Medicaid state plan core benefits and services provided through Medicaid managed care program. Healthy Louisiana Plans are operated by private providers.
- A_35. Dental Benefit Program: Specialized dental care services for adults and children provided through a system of care managed by Managed Care of North America.
- A_36. Louisiana Behavioral Health Partnership (LBHP): Specialized behavioral health services provided through a system of care managed by Magellan Health Services for adults and children.

Public Providers

Payments to the public provider program include:

- B_01. LSU Facilities: The LSU Medical Facilities have been transitioned to Private-Public Partnerships with the exception of Lallie Kemp Medical Center (Independence), which was still publically operated as of SFY 2015/16.
- B_02. LSU Physicians: Services through LSU-related providers which are not associated with LSU hospitals or distinct part psychiatric units. These may include clinics, professional services, lab work, etc.
- B_03. LDH State Developmentally Disabled (DD) Facilities: State-operated homes for developmentally disabled recipients.
- B_04. LDH Villa Feliciana Nursing Home: Stateoperated facility that provides professional nursing and rehabilitation services provided on a 24-hour basis at Villa Feliciana Medical Complex.
- **B_05. LDH Office of Public Health:** Provides preventive health services and screenings through community health programs.
- **B_06. LDH Office of Behavioral Health:** Provides services and supports for individuals with mental illness and addictive disorders.
- **B_07. LDH Human Services Districts:** 10 Regional entities that provide resources and programs for

- community support and rehabilitation such as supported living, support coordination, and vocational and rehabilitation services. The available programs vary by region.
- **B_08. State Education:** Louisiana Special Education Center and Louisiana School for the Deaf.
- B_09. Local Education Agencies for School Based Health Services: Services provided by local education agencies including physical therapy, occupational therapy, speech language therapy, audiology services, behavioral health services and nursing services.

Buy-Ins and Supplements

- C_01. Medicare Premiums and Supplements: Payments to CMS permit the state, as part of its total assistance plan, to provide medical insurance protection to designated categories of needy individuals who are eligible for Medicaid and also meet the Medicare eligibility requirements.
- C_02. Part-D Clawback: Mandatory state dollars paid to CMS beginning in January 2006 to help finance Medicare prescription drug coverage offered under Medicare Part-D for dual eligibles. The amount a state must pay depends on set guidelines the federal government has established under the Medicare Modernization Act of 2003 (MMA).
- C_03. Health Information Technology (HIT) Electronic Health Records (EHR): Incentive payments paid to eligible medical professionals and hospitals for adopting, implementing or upgrading certified EHR technology.

Uncompensated Care Costs

The following receive UCC payments:

- **D_01. LSU Facilities:** (For included hospitals refer to number B_01 under 'public providers').
- D_02. LDH Office of Behavioral Health
- D_03. Qualifying Private Hospitals
- D_04. Greater New Orleans Community Health Connection (GNOCHC): An 1115 Waiver established to provide primary and behavioral health services to those that live in the Greater New Orleans Area who are otherwise ineligible for Medicaid.

Medicaid Enrollment

Medicaid provides funding for health care to individuals and families who meet the eligibility criteria established by the state and approved by CMS. This report provides an overview of Louisiana Medicaid eligibility. For further details about the Louisiana Medicaid Program please visit our website at www.medicaid.dhh.louisiana.gov. The Medicaid Eligibility Manual is available online at http://bhsfweb.dhh.la.gov/onlinemanualspublic/. Information is also available when calling the toll-free line at 1-888-342-6207 or 1-877-252-2447.

Eligibility Requirements and the Enrollment Process

Medicaid is an entitlement program that pays for health care on behalf of those who meet the established criteria and are enrolled. Louisiana is a Section 1634 state, which means that all individuals who receive Supplemental Security Income (SSI) are automatically enrolled in Medicaid. In addition, families who receive financial assistance through Louisiana's Temporary Aid to Needy Families (TANF) program, also known as Family Independence Temporary Assistance Program (FITAP), are Medicaid eligible.

For an individual or family who does not receive SSI or FITAP (TANF), the eligibility process begins with the completion of a Medicaid application form. Either the prospective beneficiary or an authorized representative may apply online, by mail, at a local Medicaid office or at a Medicaid Application Center. A face-to-face interview is not required. Contact information for local offices is listed on pages ii and 77.

Individuals who are not automatically eligible and apply for Medicaid must meet all of the eligibility requirements of one or more programs. An overview of the Medicaid programs offered in Louisiana is presented in Table 7 on pages 12 and 13 of this document. For definitions of the abbreviations in this table please see Appendix C.

Each state sets an income limit within federal guidelines for Medicaid eligibility groups and determines what income counts toward that limit. Part of the financial qualification for Medicaid is based upon the family size and relation of monthly income to the Federal Poverty Guidelines (FPG). Federal Poverty Guidelines are established by the federal government regarding what is considered the poverty level standard of living. Table 6 shows 2016 Federal Poverty Guidelines, with annual and monthly incomes according to family size. For example, a four person family with an annual income

of \$24,300 is considered living at 100 percent of FPG.

Figure 7 summarizes income requirements for many of the Medicaid programs. The major qualifying categories are listed along the bottom of the chart. Along the left axis of the chart is income as a percentage of the FPG. As shown in the eligibility chart, maximum income levels for different groupings of eligibility, such as age, disability and parental status, allow access to the Medicaid program depending upon the group in which the individual falls. While most eligibility categories allow access to the full array of Medicaid services, the individual's economic and medical circumstances may assign an enrollee to a more limited set of benefits. Table 7 includes a listing and description of the programs that make up the five major eligibility groupings:

- 1. Children (under age 19),
- 2. Families (Parents/Caretaker Relatives and Children),
- 3. Women (Pregnant and Breast or Cervical Cancer).
- 4. Aged (age 65 or older), Blind (corrected vision no better than 20/200) and Disabled (meet Social Security Administration's (SSA) disability criteria and have a physical or mental condition that is expected to prevent employment for a period of 12 consecutive months or that will result in death), and
- 5. Other

Eligibility determination is a federally approved process which is operated in the same manner throughout the state. In Louisiana, caseworkers in each of the nine regions of the Department of Health determine an individual's eligibility for Medicaid in accordance with standardized written policy. Processing times for applications vary depending on the coverage group and program under consideration, the amount of information the person is able to provide and how quickly all needed information is made available to Medicaid staff. Eligibility can be retroactive up to three months prior to the date of application. Eligibility is reviewed annually for most cases but more often in some programs. Decisions must be made within 45 days (90 days if a disability determination by the agency is required) from the date of application in most cases. Eligible individuals and families enrolled in the Louisiana Medicaid Program are issued a Medicaid identification card.

Figure 7: Louisiana Medicaid Coverage Groups and Income Eligibility Requirements

Table 7: Louisiana Medicaid Coverage Groups and Income Eligibility Requirements by Program

	Program	Description	Income Limit		
		Ages 0 to 18 (through 19 th birthday) with other insurance	142% of poverty; No assets test		
	A1. CHAMP – Low Income Children	Ages 0 to 18 (through 19 th birthday) uninsured. Individuals receive an enhanced LaCHIP rate.	> 108% and up to 142% of poverty; No assets test		
ren	A2. LaCHIP (Title XXI)	Ages 0 to 5	> 142% of poverty; No assets test		
Children	AZ. Lacilir (Title XXI)	Ages 0 to 18 (through 19th birthday)	> 142% and up to 212% of poverty; No assets test		
A. C	A3. LaCHIP Affordable Plan (LAP)	Ages 0 to 18 (through 19th birthday)	> 212% and up to 250% of poverty; Some cost sharing involved; No assets test		
	A4. Deemed Eligible Child	Age 0 (through first birthday)	Infants born to Medicaid eligible pregnant women		
	A5. CWO Children	Children under age 18 in Foster Care programs through the Department of Children & Family Services' Child Welfare Office (CWO)	Eligibility determined by the Child Welfare Office		
Idren	B1. Parent/Caretaker Relative Group (PCR)	Parent/Caretaker relative who lives with a dependent child	19% of poverty; No assets test		
ts and Children	B2. MAGI – Related Medically Needy	Children and families who have income below regular Medically Needy income standards and are ineligible for other MAGI-related groups	15% of poverty (individuals and couples); No assets test		
s - Parents	B3. MAGI – Related Spend down Medically Needy	Children and families who have more income than allowed but qualify once the amount spent on medical expenses is considered	No Limit. All income over 15% of poverty considered available to meet medical expenses for quarter; No assets test		
Families	B4. Temporary Aid for Needy Families (TANF) Recipients	Recipients of cash assistance as determined by the Department of Children & Family Services	15% of poverty; Assets limit: \$2,000		
В.	B5. Transitional Medicaid	Continues coverage for families who lost PCR or TANF eligibility because of an increase in earnings	No limit for first six months and 185% of poverty for coverage in seventh through twelfth month of transitional eligibility period; No assets test		
	C1. CHAMP/LaMOMS - Pregnant Woman	Covers each month of pregnancy and 2-month postpartum period	133% of poverty; No assets test		
. Women	C2. LaCHIP IV (Title XXI)	Covers conception to birth for low- income, pregnant mothers who are not otherwise eligible for Medicaid regardless of citizenship	209% of poverty; No assets test		
0	C4. Breast and Cervical Cancer	Women under 65 diagnosed with breast or cervical cancer, in a precancerous condition or early stage cancer	250% of poverty; No assets test		
Disabled	D1. Disabled Adult Child (DAC)	Individuals over age 18 who become blind or disabled before age 22, and lost SSI eligibility on or after 7/1/87, as a result of entitlement to or increase in Social Security Administration Child Insurance Benefits	Social Security benefits are disregarded in determining countable income with limit 74% of poverty (+\$20); Assets limit: \$2,000 individual and \$3,000 couple		
Blind and Di	D2. Disabled Widows/Widowers	Disabled individuals who lost SSI because of the 1984 Social Security Widow's/er's re-computation	Social Security 1984 Widow's/er's adjustment is disregarded in determining countable income with limit 74% of poverty (+\$20); Assets limit: \$2,000 individual and \$3,000 couple		
Aged, B	D3. SSI Recipients	Aged and/or disabled individuals receiving SSI cash payments as determined by SSA	74% of poverty (+\$20); Assets limit: \$2,000 individual and \$3,000 couple		
D. ,	D4. SGA Disabled Widows/Widowers / Surviving Divorced Spouse	Individuals who are not entitled to Medicare Part A and lost SSI because of receipt of Social Security Disabled Widow's/er's benefits	All cost of living raises and Social Security Disabled Widow's/er's benefits are disregarded in determining countable income with 74% of poverty (+\$20); Assets limit: \$2,000 individual and \$3,000 couple		

Table 7: Continued

	Program	Description	Income Limit			
	D5. PICKLE	Former SSI Recipients of two different groups of aged, blind and disabled who lost SSI eligibility due to Retirement, Survivors' and Disability Insurance (RDSI) cost of living increase	All cost of living raises are disregarded in determining countable income with limit 74% of poverty (+\$20); Assets limit: \$2,000 individual and \$3,000 couple			
	D6. Provisional Medicaid	Aged and disabled individuals who meet SSI criteria without first having a SSI determination made by SSA	74% of poverty (+\$20); Assets limit: \$2,000 individual and \$3,000 couple			
	D7. Early Widows/ Widowers	Individuals who lost SSI because of receipt of RSDI Early Widow's/er's Benefits	Social Security Early Widow's/er's benefits are disregarded in determining countable income with limit 74% of poverty (+\$20); Assets limit: \$2,000 individual and \$3,000 couple			
	D8. QMB – Qualified Medicare Beneficiary	Pays Medicare Part A and B premiums, deductibles and co-insurance	100% of poverty; Asset limit: \$7,160 individual and \$10,750 couple*			
	D9. SLMB – Specified Low-Income Medicare Beneficiary	Pays Medicare Part-B premium only	> 100% and up to 120% of poverty; Assets limit: \$7,160 individual and \$10,750 couple*			
	D10. QI-1 – Qualified Individual Category 1	Pays Medicare Part-B premium only	> 120% and up to 135% of poverty; Assets limit: \$7,160 individual and \$10,750 couple*			
	D11. QDWI – Qualified Disabled Working Individual	Pays Medicare Part-A for individuals under age 65 who lost SSA disability benefits and premium free Part-A coverage	200% of poverty; Assets limit: \$4,000 individual and \$6,000 couple			
	D12. Long Term Care (Home and Community Based Services, PACE and Institutions)	Recipients who meet criteria for institutional level of care (nursing homes and ICF/DD) or home and community-based services	222% of poverty (3 times the limit for SSI recipients); Assets limit: \$2,000 individual and \$3,000 couple (both reside in an institution); or \$119,220 for an institutional individual with a "community" spouse (one not residing an institution)			
	D13. Long Term Care and Home and Community-Based Services Medically Needy Spend-Down	Individuals who meet the level of care criteria for institutionalized care or home and community-based services	All income over 222% of poverty is considered available to meet medical expenses. Assets limit: \$2,000 individual and \$3,000 couple or \$119,220 for an institutionalized individual with a "community" spouse			
	D14. Non-MAGI Medically Needy Spend-Down	Qualified individuals and families who have more income than allowed but qualify once the amount spent on medical expenses is considered.	All income over 15% of poverty is considered available to meet medical expenses for quarter – For Long Term Care (institutions only) all income over 222% of poverty; Assets limit: \$2,000 individual and \$3,000 couple			
	D15. Acute Care	Individuals who have been or are expected to be in a medical institution for a continuous period of 30 days	74% of poverty (+\$20); Assets limit: \$2,000 individual and \$3,000 couple or \$119,220 for an institutionalized individual with a "community" spouse			
	D16. Medicaid Purchase Plan (MPP)	Working individuals that are age 16 to 64 with disabilities that matches SSA standards that can buy health coverage offered by Louisiana Medicaid	100% of poverty; Assets limit: \$10,000 individual/couple			
	D17. Family Opportunity Act (FOA)	Offers Medicaid Buy-in for children under age 19 with disabilities who are not eligible for SSI disability benefits due to income	300% of poverty; Families above 200% of poverty must pay a premium; No assets test			
	E1. TB infected	Persons who have been diagnosed as, or are suspected of being infected with tuberculosis	155% of poverty; No assets test			
E. Other	E2. Greater New Orleans Community Health Connection (GNOCHC)	Individuals age 19 to 64 who are residents of Greater New Orleans Area and are uninsured; eligible for a limited set of services	100% of poverty; No assets test			
	E3. Emergency Services for Illegal/Ineligible Aliens	Coverage of illegal/undocumented aliens and documented aliens under the Medicaid 5-year bar for life-threatening emergency situations and labor/delivery of newborns	Must meet all requirements of another Medicaid program except for U.S. citizenship			
	E4. Youth Aging Out of Foster Care	Individuals age 18 to 21 released from the Foster Care program due to turning age 18	No income or assets test			
	E5. Former Foster Children	Individuals age 18 to 26 released from the Foster Care program due to turning age 18	No income or assets test			
	E6. Louisiana Behavioral Health Partnership Adults	Individuals age 19 and older meeting categorical requirement and a behavioral health level of need but not otherwise eligible for Medicaid; coverage limited to certain behavioral health services	15% of poverty (individual) or when incurred medical expenses exceed any income over 15% of poverty; No assets test			
	E7. Take Charge Plus	Women and men of any age for family planning-related services	133% of poverty; No assets test			

^{*} These amounts changed to \$7,280/\$10,930 (respectively) on January 22, 2016.

Enrollment Statistics

Before presenting the statistical data, it is important to establish the difference between the terms Medicaid eligible, enrollee and recipient. These terms can seem synonymous, but they have distinct meanings within the context of Medicaid.

A 'Medicaid eligible' is a person who fits the established eligibility criteria of the program, whether or not the person applied for Medicaid.

A 'Medicaid enrollee' is a Medicaid eligible person who applied for and was approved by the Medicaid program to receive benefits regardless of whether he or she received any service and/or any claims or Managed Care encounters were filed on his or her behalf.

A 'Medicaid recipient' is an enrollee with at least one Per Member Per Month (PMPM) payment to a Managed Care Organization, a Fee-for-Service processed claim or any person with Medicare Buy-in and Part-D premiums paid on his or her behalf during the time period involved, in this case during SFY 2015/16 (July 1, 2015 to June 30, 2016). The recipient may not have been enrolled during the time the PMPM or claim was paid. For example, there may be a processed claim during this particular period for services that were provided in a prior period for an individual though his or her eligibility ended before this SFY.

The number of recipients reported in some categories (e.g. within a parish) may exceed the number of enrollees. An enrollee's case may have closed before SFY 2015/16 but a claim was paid on his or her behalf during SFY 2015/16. Thus, when a claim was paid in SFY 2015/16 for a person who received a service before SFY 2015/16, she or he will be counted as a recipient in SFY 2015/16 although this person is no longer eligible for Medicaid in SFY 2015/16. Providers may delay the submission of claims for many months. Medicaid's timely filing rule gives providers up to one year to submit a claim and up to two years for payment of the timely filed claim. Thus, it is possible for a claim paid in SFY 2015/16 to be for a service rendered

before SFY 2015/16. The payment could, therefore, occur long after the person identified as the recipient on the claim has left the program and is no longer an enrollee.

There are many ways to interpret enrollment under Medicaid, which will be discussed in the following sections.

Percentage of the Population

The percentage of the population enrolled in Louisiana Medicaid has consistently increased through the years (Table 8). During SFY 2015/16, 34.3 percent of Louisianans were enrolled in Medicaid. Figure 8 shows Medicaid enrollment as a percentage of the full population of Louisiana.

Table 1 in Appendix A (Table AA1) presents total population, enrollees, percentage of the population enrolled in Medicaid, percentage of the population in poverty, recipients, payments and payments per recipient by parish during SFY 2015/16. Parishes with low income per capitai have large percentages of Medicaid enrollment, especially in the Northeast region with East Carroll, Franklin, Madison, Morehouse, Tensas all having 50 percent or more of their population enrolled in Medicaid. Parishes with over 40 percent enrollment are Avoyelles, Bienville, Caldwell, Catahoula, Concordia, Evangeline, Franklin, Orleans, Red River, Richland, St. Bernard, St. John, St. Landry, St. Mary, Tangipahoa, Union, Washington, Webster and West Carroll, as shown in the map (Figure 9).

Cameron Parish had the smallest percentage of Medicaid enrolled with only 13% of the parish's population enrolled in Medicaid. East Baton Rouge Parish had the highest payments paid on behalf of their recipients at about \$649 million, while Cameron Parish had the least amount paid on behalf of their recipients at about \$2.4 million.

Tables AA2 and AA3 show population, enrollment, recipients and payment in each parish by race. The "Other" column includes individuals of two or more races as well as white and non-white Hispanics.

Table 8: Enrollment, Population and Percentage of Population Enrolled by State Fiscal Year

SFY	Census Population Estimate ¹	SFY Population Estimate ²	Medicaid Enrollment ³	Percent of Population Enrolled	
2010/11	4,544,125	4,559,446	1,346,504	29.6%	
2011/12	4,574,766	4,588,330	1,362,410	29.7%	
2012/13	4,601,893	4,613,682	1,414,370	30.7%	
2013/14	4,625,470	4,637,573	1,417,304	30.6%	
2014/15	4,649,676	4,660,200	1,485,012	31.9%	
2015/16	4,670,724	4,676,195	1,602,954	34.3%

²Enrollment data was obtained in January 2017 from MARS Data Warehouse. Enrollment will vary depending on the date extracted due to retroactive eligibility processing. Enrollment counts are **unduplicated** for each SFY.

U.S. Census Bureau, 2011-2015 American Community Survey. (2015). Selected Economic Characteristics. Retrieved from http://factfinder2.census.gov/.

Figure 9: Percentage of Population Enrolled in Medicaid by Parish

Table 9 presents total population, enrollees, percentage of population enrolled, recipients, payments and payments per recipient by region during SFY 2015/16. The Greater New Orleans Area had 39 percent of their population enrolled in Medicaid, the highest numbers in the state. The Capital Area and Northshore had the smallest percentage of population enrolled in Medicaid at 31 percent.

The Greater New Orleans Area had the highest payments paid on behalf of their recipients at \$1.3 million, while Southwest Louisiana had the least amount paid on behalf of their recipients at \$428 million. South Central Louisiana had the lowest average rate of payments per recipient at \$4,253, while the highest ratio was in Central Louisiana with \$6,437 per recipient. Figure 10 shows more detail in the payments per recipient by parish.

Table 9: Population, Enrollees, Recipients and Payments by Region

Region	Payments ¹ (\$)	2015 Population ²	Medicaid Enrollees ³	Enrollees/Population		Medicaid	\$ per
Kegion				Ratio	Rank	Recipients ³	Recipient
1 - Greater New Orleans Area	1,268,316,319	894,795	346,036	39%	2	302,994	\$4,186

Figure 10: Parish Payment per Recipient

² Population estimates are based on census estimates for the beginning of the SFY. U.S. Census Bureau, Population Division. (March 2016). Census Bureau Midyear Population Estimates. Estimates for 2010-2015 April 1, 2010 to July 1, 2015. Retrieved from:

³ Individual region enrollee and recipient counts may not sum to the total state count due to movement between regions during the SFY; the state figures are unduplicated for entire state, while numbers are unduplicated within the region.

Age, Gender and Race

The breakdown of enrollees by age groups (Tables 13 through 16 and Figure 11) shows that the majority of Medicaid enrollees are children, with those aged 20 and under making up 55.5 percent of the total enrolled. Those between the ages of 21 and 64 comprised 36.7 percent of the enrolled population and account for 47.5 percent of payments; and those 65 and over made up the smallest component at 7.8 percent of enrollment but account for 18.5 percent of payments. Also, as expected, statistics reveal that certain age groups account for more costs than others. The reason for this is that the medical needs of these age groups tend to require more expensive services.

Overall there are more females than males enrolled in Medicaid (Figure 12). Though children age 18 and under are almost evenly split between female and male, for enrollees of ages 19 and above, women account for 68 percent of enrollment. This can probably be explained by the pregnant women programs, disproportionate number of female parents in very low income households, and longer life expectancy of females. These trends are true of all racial groups. Tables 14 through 16 break down regional payments, enrollees and recipients by race and gender.

Table 10: Payments, Enrollees and Recipients by Age Groups and Gender

¹ Payments are based on recipient region payments.
²Individual region enrollee and recipient counts may not sum to the total state count due to movement between regions during the SFY; the state figures are **unduplicated** for entire state, while numbers are **unduplicated** within the region.

Basis of Eligibility

During SFY 2015/16, there were 1,602,954 unduplicated Medicaid enrollees. All enrollees are placed into one of four Basis of Eligibility (BOE) categories depending on age or disability according to the hierarchy shown in Figure 13 below. Based on total payments by BOE, children and adults together

made up of 77.4 percent of enrollment, but only 38.5 percent of payments (Figure 13). The elderly category and disabled category collectively accounted for 22.6 percent of enrollment, but 61.5 percent of payments.

Figure 14: Percentage of Payments and Recipient Member Months by Basis of Eligibility

Tables 17 through 19 present BOE by race and gender. Table 17 shows the payments for each BOE by race and gender. The highest portion of payments went to disability with \$3.1 billion (43.1 percent), while the lowest went to adults with \$938.4 million (13.1 percent). As shown in Tables

18 and 19, Children account for the highest number of enrollees and recipients in the Medicaid program, with 830,346 (51.3 percent) in SFY 2015/16, more than the other three categories combined. Payments for children totaled \$1.8 billion (25.4 percent).

¹ Enrollee and recipient counts may not sum to the total due to movement between BOE categories during the SFY; the figures are **unduplicated** for each BOE, while numbers are **unduplicated** for total enrollee and recipient count.

Enrollment data for the last two state fiscal years by Basis of Eligibility (BOE) are presented in Table 20. Monthly and SFY total enrollment numbers are unduplicated for their respective periods of time. All categories except Disabled saw their enrollment numbers increase in SFY 2015/16. The highest increase was in the Adults category. Overall enrollment increased by 7.94 percent.

¹ Monthly totals may not equal the sum of monthly categories due to movement across categories, and SFY enrollee total counts may not equal the sum of monthly counts due to duplication across months. Both are pure **unduplicated** enrollee counts.

Recipients Ranked by Payments

Medicaid provides health care coverage to elderly, disabled and low income families. Since Medicaid is an entitlement program, Louisiana cannot limit the number of enrollees in Medicaid, nor can they be selective in who is allowed to receive services as long as the Medicaid eligibility requirements are met. Figure 14 shows the percentage of payments and recipients ranked by payments. The majority of recipients only require minimal services. A few recipients with intensive care needs account for a disproportionate share of total payments. During SFY 2015/16, of all Medicaid recipients accounted for 34 percent of all payments.

The cumulative top 50 percent of recipients accounted for approximately 86 percent of total

payments, while the least expensive recipients, the other 50 percent, only made up approximately 14 percent of total payments. Table 21 breaks down the top 3 percent of recipients based on their top 10 type cases. The majority of payments on behalf of this group go to Long-Term Care (LTC) or waiver services.

Table 22 presents the number of recipients and payments based on payment group. The top payment group consists of 6 recipients, each of whom had over \$500 thousand in payments made on their behalf. The bottom payment group consists of 168,410 recipients, each of whom had less than \$1,000 in payments made on their behalf. The total payments for the top payment group was \$4,002,498 and the total for the bottom payment group was \$48,289,909.

Medicaid Programs

Medicaid Data

Medicaid data can be presented either by "Date of Payment" or "Date of Service," in which results may differ based on the methodology employed. The difference between the two types of methodologies is given below.

- "Date of Payment" (DOP): Reported data, such as payments, services, recipients, etc., reflects claims that are paid during the period (July 2014 to June 2015) irrespective of the time the services were provided. Some of the payments made during this time period may be for services provided in the previous SFY. DOP is typically used for budget and financial analysis and is also known as "cash basis accounting."
- "Date of Service" (DOS): Reported data
 reflects the services provided during the period
 irrespective of the time payments were paid.
 Services may be provided during this particular
 period but payments may be paid during a
 subsequent period, say after one year. DOS is
 typically used for clinical/policy interventions
 and is also known as "accrual accounting."

Both approaches are valid and examine similar data, but each has a specific function in terms of analyzing results. Because they are set in different time frames, the analytical results may be different and the disparity may simply be that the data sets are obtained using different underlying methodologies.

In general, most of the Medicaid budgetary/financial statistics that are published are based on "Date of Payment"; therefore, most of the data in this report is presented on DOP methodology unless otherwise stated.

Managed Care and Fee for Service

In February 2012, Louisiana Medicaid initiated its transition from its legacy fee-for-service (FFS) program to a managed health care delivery system that offers medical services to many Louisiana Medicaid enrollees. Fee-for-Service (FFS) is a model of payment in which Louisiana Medicaid pays each service provider directly based on the services provided to Medicaid recipients. Providers submit claims to Medicaid which list the services provided, recipients, and costs of the services. Medicaid then pays the providers based on the claims information.

FFS enrollees are only considered recipients if they received a Medicaid-covered service. This means that some recipients will incur more costs than others. However, there are Medicaid eligible individuals who are not eligible for managed care services, or who choose to opt out of managed care. The following populations are excluded from managed care: dual-eligibles, waiver recipients, and individuals in long-term care programs. For more detailed information on FFS programs see pages 36-39.

The managed care programs use a Per-Member-Per-Month (PMPM) payment model, in which Louisiana Medicaid pays the managed care organizations a monthly fee to manage the health needs of the Medicaid population. Managed care providers are paid by the managed care health plans rather than being paid directly by Louisiana Medicaid. Services provided to managed care recipients are submitted to Medicaid as encounters.

Louisiana Medicaid includes three managed care programs: Healthy Louisiana, the Louisiana Behavioral Health Partnership (LBHP) and the Dental Benefits Program. The managed care programs can have overlapping enrollment, and some managed care enrollees may receive services through FFS.

Figure 16 shows the makeup of Medicaid enrollment according to managed care status: Fee for Service, Managed Care Specialized Behavioral Health (SBH) and Managed Care Acute and SBH. Enrollment in this case is measured by member months, where each month that an individual is enrolled is counted as one member month. Out of all Medicaid member months in SFY 2015/16, 72.6 percent were in a managed care program. Only 27.4 percent of all Medicaid enrollment was not in any managed care program.

Figure 16: Percentage of Enrollee Member Months by Medicaid Enrollment Groups

Managed Care Payments

This section presents the payments made to providers by managed care plans. Louisiana Medicaid pays the managed care companies a Per-Member-Per-Month fee to manage the health needs of the Medicaid population. Managed care providers are paid by the managed care health plans rather than being paid directly by Louisiana Medicaid. The information in this section comes from managed care encounter records, and shows how much the managed care plans paid to providers.

Top ten provider types of total Medicaid Managed Care payments grouped by in-state and out-of-state (OOS) are presented in Table 23. Due to the delay in processing encounters, the information provided in this section may be less than the actuals. Approximately \$2.8 billion (97 percent) of the total

\$2.9 billion in managed care payments were paid to providers within Louisiana, while approximately \$97.8 million (3 percent) of payments were made to out-of-state providers.

420 providers in this chart did not have a parish listed. For the purposes of this report, they were allocated to East Baton Rouge. These providers accounted for \$966 thousand in payments.

Table 24 presents the number of participating instate and out-of-state providers grouped by top ten provider types based on total encounter payments. Physician provider type accounted for 19,214 (52.5 percent) of the 24,244 total participating providers, making up the highest number of individual providers. With respect to in-state and out-of-state provider distribution, 33 percent of participating providers of all types are from out-of-state.

¹Providers with no Parish listed are included in In-State. \$966,000 in payments were made to these providers.

Table 26 presents managed care payments made to out-of-state providers, as well as the number of providers and recipients by state and Washington D.C. and Puerto Rico. Texas ranked the highest in out-of-state payments with \$18.6 million (21.0 percent).

Provider participation was represented by 48 states. New Hampshire and Vermont did not receive any managed care payments. Texas had the highest number of Louisiana recipients (73,435).

State provider and recipient counts may not sum to the total out-of-state count due to providers offering services in more than one state during the SFY and recipients receiving services in more than one state during the SFY. Total out-of-state figures are unduplicated for the entire out-of-state count, while other numbers are unduplicated for each state.

Healthy Louisiana

The Healthy Louisiana program, formerly known as Bayou Health, was implemented in an effort to improve health outcomes for Louisiana's Medicaid population, while improving budget predictability. In December 2015, the specialized behavioral health services provided under the Louisiana Behavioral Health Partnership (LBHP) were integrated into Healthy Louisiana.

Healthy Louisiana Plans are risk-bearing private entities that provide, at a minimum, Medicaid-covered benefits and services to enrolled members in exchange for a monthly capitation payment for each member. While all core benefits and services are maintained in all plans, each plan offers a different package of enhanced benefits such as eyeglasses or preventive dental care for adults. Healthy Louisiana recipients can receive specialized coverage based on what they require. The majority of enrollees receive coverage for both acute physical care and specialized behavioral health services (SBH).

Frequently asked questions regarding Healthy Louisiana are addressed through a series of informational bulletins on the "Making Medicaid Better" website, www.makingmedicaidbetter.com. Health Plan comparisons can be found on the Healthy Louisiana website, myplan.healthy.la.gov.

In Appendix A, table AA4 presents the payments made to the Healthy Louisiana Plans and the number of recipients by parish. During SFY 2015/16, total payments to Healthy Louisiana were \$3,661,471,915 on behalf of 1,239,839 recipients. Tables AA5 and AA6 show the payments and recipients by parish, race and gender. Note that some Healthy Louisiana recipients may also receive services through Dental Benefits, LBHP or Fee for Service programs.

Table 27 reflects the enrollment by region, health plan and service enrollment type. The majority of Healthy Louisiana enrollees received acute coverage (1.1 million). 122,141 Healthy Louisiana enrollees only received SBH coverage. Table 28 breaks down enrollment by health plan, age group and gender. Table 29 breaks down enrollment by age, race and gender. Figure 16 shows the proportion of enrollee member months by health plan and Figure 17 shows the proportion of enrollment by age group. 98 percent of total Bayou Health payments in 2015/16 went to the current plans. The remaining 2 percent (\$59,508) went to retroactive adjustments for Shared Plan services. The following tables do not include that \$59,508, since the Shared Plans ended January 31, 2015.

Figure 17: Percentage of Enrollee Member Months by Healthy Louisiana Plans

Figure 18: Healthy Louisiana Enrollee Member Months by Age Groups

Categories of Assistance

Healthy Louisiana enrollees are grouped into the following categories of assistance (CoA) for payment purposes:

Supplemental Security Income (SSI)-related seniors and people with disabilities

SSI includes individuals who are aged 65 and above as well as individuals of any age with disabilities.

Breast and Cervical Cancer

Includes uninsured women who have already been diagnosed by a Centers for Disease Control and Prevention (CDC)-approved screening entity with breast or cervical cancer or a precancerous condition and who are not otherwise eligible for Medicaid.

Home and Community Based Services

Includes individuals under age 21 who require inhome personal care, community hospice care, ABA recipients covered by the Chisholm court ruling and individuals who receive Home and Community Based Services (HCBS) waivers for acute care and have opted to join a managed health program.

Families and Children

The Families and Children group includes children and teens under the age of 19 whose basis of Medicaid or CHIP eligibility is age, as well as their parents/caregivers. It also includes pregnant women whose sole basis of eligibility for Medicaid

is pregnancy. This group does not include children who are eligible based on disability.

Foster Children

Foster Children are those who receive 24-hour substitute care from someone other than their parents or guardians and for whom the Department of Children and Family Services has responsibility for placement and care.

LaCHIP Affordable Plan (LAP)

The LaCHIP Affordable Plan group includes children and youth under the age of 19 with incomes over the limit of 212 percent of FPG for regular CHIP enrollment but with incomes lower than 250 percent of FPG. Families pay a monthly premium of \$50.

Maternity Kick Payments

Maternity Kick Payments are one-time payments made to the MCOs for each obstetrical delivery. This payment is intended to cover prenatal care, delivery, post-partum care, and normal newborn hospital costs.

Specialized Behavioral Health Services

Adults and Children who primarily require aid for specialized behavioral health services. The

majority of the people in this category were enrolled in Louisiana Behavioral Health Partnership prior to December 2015. Specialized Behavioral Health Services are provided to all managed care recipients, but this population is ineligible for full physical care services.

Appendix Table AA7 shows the Healthy Louisiana payments and recipients broken down by the Categories of Assistance. It is important to note that for this table, the payments for the Specialized Behavioral Health CoA are inflated. For the payments in January and February, immediately after SBH services were moved into Healthy Louisiana, SBH PMPMs were made as a separate payment for all Healthy Louisiana recipients. Therefore the SBH payments include payments made for some Healthy Louisiana members who actually received full benefits.

Figure 18 compares the payments and enrollment member months for each category of assistance. Family and Children group has the majority of enrollment (81.8 percent) and payments (58.2 percent). Maternity Kick is not included in this figure since it is a one-time payment rather than continuing enrollment.

Louisiana Behavioral Health Partnership

To address the behavioral health needs of Louisiana citizens, Medicaid implemented the Louisiana Behavioral Health Partnership (LBHP) in March 2012. LBHP delivers and finances behavioral health services for Louisiana's children and adults through a fully integrated managed care system which draws on the strengths of the private, public and non-profit sectors. Prior to December 2015, the LBHP was operated by a contract through Magellan Health Services, Inc., the selected Statewide Management Organization (SMO). Beginning in December 2015, LBHP was integrated into managed care with the exception of Coordinated System of Care services.

LBHP is designed to serve the needs of individuals who comprise the following target populations: Children with extensive behavioral health needs either in or at-risk of out-of-home placement, children with medically necessary behavioral health needs who need coordinated care, and adults with severe mental illness and/or addictive disorders.

Before integrating into Healthy Louisiana, LBHP operated under an at-risk capitation contract to cover adults on a Per Member Per Month (PMPM) basis, with the exception of the Spenddown Medically Needy group. The children's and Spend-down Medically Needy populations were administrated on a non-risk basis by Magellan and paid to Magellan as Fee for Service (FFS).

Within the LBHP, the Coordinated System of Care (CSoC) is a specialized program for children and youth with the most complex behavioral health needs who are in or most at risk of out-of-home placement. CSoC offers a

comprehensive array of intensive services with the goal of enabling these children to remain in or return to their homes and communities. Wraparound Agencies (WAAs) provide individualized care planning and management through Child and Family Teams (CFTs), which are charged with the development of the plan of care. Family Support Organizations (FSOs) also have been formed to provide both parent and youth support and training.

The Louisiana Behavioral Health Partnership served a total of 405,544 recipients in SFY 2015/16 (Table AA9). Of these, 75,156 were children (18.5 percent) (Table AA11). 330,909 adults were covered through PMPMs and 163 adults were covered through FFS for a total of 331,072 (81.6 percent).

Table AA8 shows the LBHP FFS payments, recipients and providers by age group (Adult or Children) for each parish. It should be noted that the recipients are placed by parish of residence, not by where they received services. Therefore it is possible to have recipients in a parish without any providers. Table AA9 shows the total LBHP FFS and Adult PMPM payments and recipients by parish. Table AA10 breaks down the Adult PMPM population of LBHP by three payment groups: Dual-Eligibles, Disabled and Non-Disabled. Table AA11 breaks down the LBHP FFS payments and recipients by payment groups. LBHP FFS Adults are their own payment group, while FFS Children are split into CSoC. Disabled and Non-Disabled groups. Total enrollment in the LBHP has decreased since LBHP was integrated into managed care in December 2015.

Dental Benefits Plan

Louisiana Medicaid contracts with Managed Care of North America (MCNA) to provide dental benefits for Medicaid enrollees under the Dental Benefits Program (DBP). The DBP began to coordinate dental care for Medicaid recipients in July 2014. In its first year the program covered 1,242,400 recipients for a total of \$155 million.

The Dental Benefits Program includes children in EPSDT, the LaCHIP Affordable Plan (LAP) and adults. Children under the DBP receive preventive and diagnostic services such as regular exams and sealants as well as therapeutic services to treat dental medical problems. Adults receive denture services and comprehensive oral exams. All individuals except ICF/DD recipients who are eligible for full Medicaid benefits are eligible for the Dental Benefits Program. ICF/DD recipients receive dental care as a part of their per diem rate.

Children under the age of 21 account for the majority of payments to the Dental Benefits Program.

There are three payment groups in the Dental Benefits Plan: Adult Dentures, Early and Periodic Screening, Diagnostic and Treatment (EPSDT) and the LaCHIP Affordable Plan (LAP). The majority of payments and recipients are in EPSDT, with \$147,203,995 (94.8 percent) in payments on behalf of 865,565 recipients. Adult Dentures made \$7,467,310 (4.8 percent) in payments for 380,699 recipients. LAP is the smallest group with only \$640,035 (0.4 percent) in payments to 4,742 recipients.

Appendix Table AA12 shows DBP payments and recipients based on payment group. Tables AA13 and AA14 break down DBP payments and recipients by Parish, Race and Gender, Figures 20 and 21 below compare the payment groups by payment and recipients.

Fee-for-Service

Fee-for-Service (FFS) is a model of payment in which Louisiana Medicaid pays each service provider directly based on the services provided to Medicaid recipients. Louisiana Medicaid has been moving away from the FFS model in favor of managed care. However, there are still FFS programs and enrollees. Some populations are excluded from managed care, and some services provided through FFS which managed care may not always include. This section provides an overview of the FFS programs.

Applied Behavioral Analysis

Applied Behavioral Analysis (ABA) services were made available through Medicaid in 2014. The program provides community-based behavioral and psychological services to individuals under 21 years of age who have been diagnosed with a condition for which ABA services are considered appropriate, such as autism spectrum disorders. ABA services are highly specialized intervention programs which improve socially significant behavior in patients. Prior authorization by a physician or appropriate specialist must be obtained for any service deemed medically necessary. In 2015/16 a total of \$16,270,936 in payments were provided on behalf of 1,091 recipients. Table 30 shows recipient age groups and associated payments.

Table 30: Applied Behavior Analysis Payments and Recipients by Age Groups¹

Age	Payments	Recipients
18 - 36 months	\$4,057,226	276
37 - 48 months	2,814,165	230
5 - 6 years	3,549,202	296
7 - 12 years	3,993,374	398
13 - 17 years	1,618,242	125
18+	238,728	27
Total	\$16,270,936	1,091

¹Recipient counts are distinct and unduplicated for their given categories.

Family Opportunity Act

The Family Opportunity Act (FOA) Medicaid Buy-In Program was created through the Federal Deficit Reduction Act (DRA) of 2005. The program grants Medicaid access to children through age 18 for families up to 300 percent FPG who have a disability and are ineligible for Supplemental Security Income (SSI), Medicaid or LaCHIP because of parent income or private health insurance. Some cost sharing is associated with FOA through monthly premiums. The program offers full Medicaid benefits, though most of FOA enrollees have other health care coverage and only use the Medicaid coverage for wrap-around of services and benefits not covered through their

private plan. FOA enrollees are required to keep employer sponsored insurance if the employer is paying at least 50 percent of the total annual premium. During SFY 2015/16, a total of \$70,721 was collected in premiums charged to these families for their children's coverage and \$6,812,437 in payments were made on behalf of 786 recipients.

Take Charge Plus

The Take Charge waiver program was replaced with the Take Charge Plus state plan program in July 2014. Under this new state plan program women and men of any age with an income at or below 138 percent of the FPG are eligible to receive family planning services. These services include education and counseling, contraceptive medication and supplies, sexually transmitted infection (STI) screening and treatment, voluntary sterilization procedures and yearly physical exams. In SFY 2015/16, a total of \$16,018,892 payments were made on behalf of 58,898 recipients.

GNOCHC

Beginning in October 2010, Louisiana Medicaid implemented the Greater New Orleans Community Health Connection (GNOCHC) Waiver which is a 1115 Waiver Program that aims to provide primary care and behavioral health services to a population ineligible for existing Medicaid programs. The service area encompasses the Greater New Orleans area. In addition to extending medical services to area residents, GNOCHC helps to ensure that access to medical care is readily available by working with its provider base while ensuring that they have the funds needed to continue and expand their business practices. Finally, by sustaining a means to obtain primary care, GNOCHC hopes to reduce the amount of unnecessary ER visits. A total of \$14,619,006 was paid on behalf of 24,073 recipients during SFY 2015/16.

LaMOMS Program

The LaMOMS program increases access to prenatal care, to improve birth outcomes and to ultimately reduce the state's infant mortality rate. Medicaid pays for pregnancy-related services, delivery and care up to 60 days after the pregnancy ends, including doctor visits, lab work, lab tests, prescriptions and hospital care. LaMOMS covers women with an income of up to 138 percent FPG. The program provided payments of \$308,895,286 to 62,517 recipients in SFY 2015/16.

Louisiana Children's Health Insurance

Louisiana Children's Health Insurance Program (LaCHIP) is Louisiana's version of the federal State Children's Health Insurance Program (SCHIP) authorized by Title XXI of the Social Security Act. LaCHIP enrollees have the same enrollment process and benefit package as Title XIX Medicaid. To ensure stability of coverage and reduce "churning," the program provides twelve months of continuous eligibility, with the exception of LaCHIP IV, in which coverage is based on the pregnancy.

CMS pays enhanced FMAP for both services and program administration costs. LaCHIP is set up as a combination of a Medicaid expansion model for LaCHIP I, II & III, and a separate SCHIP model for LaCHIP IV and LaCHIP V (LAP).

LDH initiated the expansion LaCHIP model (LaCHIP I, II and III) in 1998 to provide quality health care coverage to additional uninsured children below 212 percent FPG and up to age 19 who are not covered by health insurance. The first phase was implemented in November 1998, the second in October 1999 and the third in January 2001. In May 2007, Louisiana implemented a SCHIP expansion program, LaCHIP IV, to extend coverage for children from conception to birth if their mothers were non-citizens and otherwise ineligible for Medicaid. Since December 2013,

LaCHIP IV has covered unborn children of citizens and non-citizens with an income of up to 209 percent FPG. In SFY 2015/16, LaCHIP IV recipients are also eligible for behavioral health services under LBHP.

In June 2008, through an expansion SCHIP model, Louisiana expanded coverage for children up to age 19 between 212 percent and 250 percent FPG, known as the LaCHIP Affordable Plan (LAP) or LaCHIP V. Some cost sharing is associated with LAP through monthly premiums of \$50 a month. In SFY 2015/16 a total of \$1,054,675 was collected in premiums charged to these families for their children's coverage. In SFY 2015/16 LAP paid \$6.731.462 on behalf of 5.136 recipients.

Table 31 presents Regular Medicaid (XIX) children and LaCHIP enrollees, recipients and payments by major age groupings. Of the age groups, those between the age 6 and 14 had the most enrollees, making up about 55 percent of the total enrolled Medicaid children under the age of

Also, Regular Medicaid children and LaCHIP enrollees, recipients and payments by parish are presented in Table AA15. For SFY 2015/16, LaCHIP provided \$309,097,760 in payments to 171,498 recipients.

Table 31: Regular Medicaid Children and LaCHIP Enrollees, Recipients and Payments by Age Group

Age				Regular Medi	Regular Medicaid Children (XIX)			Total (XXI & XIX Children)		
Groups ¹	Payments (\$)	Enrollees ³	Recipients ³	Payments (\$)	Enrollees ³	Recipients ³	Payments (\$)	Enrollees ³	Recipients ³	
Under 1	\$5,041,501	2,551	2,319	\$382,022,035	66,044	62,570	\$387,063,536	67,297	63,655

19 - 20	63,173,511	14,980	19,143	149,948,904	47,414	39,690	213,122,415	60,047	57,091	
Total	\$309,097,760	166,917	171,498	\$2,184,345,657	775,416	768,871	\$2,493,443,417	898,516	895,289	

Age as of January 1, 2016.

² LaCHIP recipient counts and payments are underestimated due to LAP's former payment methodology. Refer to technical note on page xviii for a detailed explanation. Also, LaCHIP includes the pregnant women who qualify for LaCHIP IV prenatal care services and those over the age 18 with continuous twelve month coverage.

3 Enrollee and recipient counts of LaCHIP and Regular Medicaid may not sum to the total Medicaid children count due to movement between the two types of Medicaid during the SFY; the figures are

unduplicated for each Medicaid type, while numbers are unduplicated for total Medicaid children.

Medicaid Purchase Plan

The Medicaid Purchase Plan (MPP), implemented in January 2004, allows working individuals with disabilities access to Louisiana Medicaid health coverage. This optional Medicaid program was authorized by the Ticket to Work Act and Work Incentives Improvement Act of 1999. Before SFY 2014/15, individuals whose income exceeded 100 percent of FPG were allowed to pay a premium to gain access to this program. As of July 2014, individuals were only allowed to take part in this program if they had an income of 100 percent of the FPG or less and do not pay any premiums. MPP provides full medical coverage. During SFY 2015/16, there were total payments of \$9,930,695 on behalf of 1,327 recipients.

Spend-Down Medically Needy

The Medically Needy Program (MNP) provides Medicaid coverage to individuals or families whose income is not sufficient to meet their medical needs despite being too high to qualify for categorical assistance programs. Within the MNP there are two groups of individuals or families whose medical expenses spend down (reduce) their income to levels at or below the Medically Needy Income Eligibility Standards (MNIES). The first of these is Spend-down Medically Needy, which can apply to Children, Parents and Caretaker Relatives as well as individuals who are aged, blind, or have a disability and are not institutionalized. The second Spenddown group is Long Term Care (LTC) Spend-down Medically Needy, which is available to individuals or couples residing in Medicaid LTC facilities whose resources are within Medicaid limits but whose income exceeds the special income limit. Similar to regular Spend-down Medically Needy, LTC Spenddown applicants must have a reduced income due to medical expenses. During SFY 2015/16 there were 9,360 recipients in the Spend-down Medically Needy group, with payments of \$42,772,705. The LTC Spend-down Medically Needy group provided payments of \$41,922,729 on behalf of to 2,188 recipients.

Provisional Medicaid

Provisional Medicaid was implemented in February 2014 to cover individuals with disabilities and those age 65 and older who meet criteria for Supplemental Security Income (SSI) but are not currently receiving it. This program allows individuals to receive full Medicaid services while their application for SSI is being considered by the Social Security Administration (SSA). Provisional Medicaid covers individuals with incomes of up to 74 percent of the FPG and assets of up to \$2,000 (\$3,000 for couples). In SFY 2015/16 payments of \$92,071,919 were made on behalf of 12,146 recipients.

Women Diagnosed with Breast or Cervical Cancer

The Breast and Cervical Cancer Program provides full Medicaid benefits to uninsured women who are identified through the Centers for Disease Control (CDC) National Breast and Cervical Cancer Early Detection Program. These women have been diagnosed with breast or cervical cancer or a precancerous condition and are in need of treatment. The Medicaid program does not have income or resource limits, but the CDC requires that the income be less than 200 percent of the FPG. After February 2016 most individuals covered by this program were eligible for Healthy Louisiana. During SFY 2015/16, a total of \$31,897,822 payments were made on behalf of 1,647 recipients.

Medicare Buy-in and Medicare Savings Program

Medicare Buy-in results in major cost avoidance for Louisiana Medicaid by making Medicare the primary payer for people who are eligible for both Medicare and Medicaid ("full" dual eligibles). Medicare Part-A premiums for those Medicaid enrollees receiving Supplemental Security Income (SSI) payments who become entitled to Medicare at age 65 are paid to the Center for Medicare and Medicaid Services (CMS). Medicare Part-B premiums are also paid to CMS for certain low income "full" dual eligibles. Medicare Part-D (Clawback) payments are paid to CMS for individuals receiving Part-D who are dual eligible.

The Medicare Savings Program also provides Medicare Buy-in benefits to people with Medicare who are not eligible for full Medicaid services but have limited income and assets. Depending on income, an individual may be classified as a Qualified Medicare Beneficiary (QMB), which covers both the Medicare Part A and B premiums and some co-payments and deductibles; Specified Low Medicare Beneficiary (SLMB), which covers the

Medicare Part-B premium only; or Qualified Individual (QI-1), which covers the Medicare Part-B premium through 100 percent federal dollars. All three programs automatically entitle the enrollee to Low Income Subsidy (LIS) or "Extra Help" status for the Medicare Prescription Drug Plan (Part-D, which is all state funds).

Medicare standard base premium and deductible amounts are presented in Table 32. Due to the cost efficiency of having Medicare as the first payer, a concerted effort is ongoing to ensure that anyone meeting the Medicare Savings Program eligibility criteria is enrolled. All recipients must be currently enrolled in Part-A Medicare to receive assistance on Part-B or Part-D.

Table 33 presents the income eligibility requirements for each buy-in program. Table 34 presents the expenditures and recipients for the Medicare Buy-In program over three State Fiscal Years. During SFY 2015/16, Louisiana Medicaid paid \$37,124,553 on behalf of 10,221 individuals for Part-A, \$261,255,835 on behalf of 205,102 individuals for Part-B and \$141,490,250 on behalf of 125,579 individuals for Part-D (all state funds).

² Part A is free to those who have worked for more than 10 years of Medicare-covered employment.

³ Part-D expenditures are all state funds.

⁴ All recipient data comes from MMA Response File from CMS and is **unduplicated** by each type.

Fee-for-Service Providers

During SFY 2015/16, over 23,000 Fee-for-Service (FFS) providers participated and offered services to Louisiana Medicaid enrollees.

Figure 19 represents total FFS payments to private and public providers (excluding managed care). The hospital category includes inpatient and outpatient services. Nursing facility payments rank at the top with 34.2 percent, personal care attendant waiver payments in second with 16.1 percent and ICF/DD payments in third place with 13.4 percent of total payments.

Top ten provider types of total Medicaid FFS payments grouped by in-state and out-of-state (OOS) are presented in Table 35 in addition to

managed care payments and payments to the Centers for Medicare and Medicaid Services (CMS). About \$2.8 billion (98.6 percent) of the total \$2.9 billion in payments (excluding managed care and CMS payments) were paid as FFS to providers within Louisiana, while about \$39.5 million (1.4 percent) of payments were made to out-of-state providers.

Managed care payments accounted for \$3.9 billion for SFY 2015/16, which is about 54 percent of the total \$7.2 billion payments. Other than Table 35, all provider tables in this section exclude managed care and CMS payments. For managed care provider information, please see page 28.

Table 35: Payments (In-State and Out-of-State) for the Top Ten Provider Types Based on FFS Payments

Table 36 presents the number of participating instate and out-of-state providers grouped by top ten provider types based on total FFS payments. Physician provider type accounted for 11,277 (47.7 percent) of the 23,666 total participating providers, making up the highest number of individual providers. With respect to in-state and out-of-state provider distribution, about 6.5 percent of

participating providers of all types are from out-ofstate.

Figure 20 shows a map of the ratios of provider parish payments to recipient parish payments from Table 37 for SFY 2015/16. This relationship gives a perspective on how well a parish is meeting the medical needs of their Medicaid recipients.

Table 36: Number of FFS Providers (In-State and Out-of-State) for the Top Ten Provider Types Based on Payments

Provider Type	Number of Providers ¹			Ratio of each Program			Ratio Between In- State & OOS

Table 37 presents (A) Provider Parish Payments which represent payments made to providers located in a parish regardless of the recipients' residing parish; (B) Recipient Parish payments which represent payments made on behalf of recipients residing in that parish regardless of where they received services; and (C) The ratio of provider parish payments to recipient parish payments times 100.

A ratio of 100 indicates that the sum of payments made to the providers of the parish is equal to the sum of payments made on behalf of recipients of that parish.

A ratio of less than 100 means that some of the payments made on behalf of the recipients of that parish went to providers outside of their respective parish. For example, a ratio of 95 indicates that about 5% of payments made on behalf of recipients of the parish are going out of that parish.

A ratio greater than 100 implies that providers of that parish received some payments made on behalf of recipients of other parishes. For example, a ratio of 120 implies that about 20% of payments made to the providers of that parish are made on behalf of recipients from other parishes.

¹ Provider parish is based on service provider's enrolled location on file at the time of payment.

Table 38 shows a regional comparison of FFS payments made on behalf of the top ten provider types based on total payments. For the remainder of this section, unless otherwise stated, all data is based on the service providers' enrolled location (parish/region/state) on file at the time of payment. The Greater New Orleans Area ranked number one, with about \$421.1 million in payments going into the region. Payments to the top ten providers in each region will differ according to a variety of factors (e.g., availability of providers, medical need of the population, etc.).

Appendix A Tables AA16 through AA19 show parish-level data about the top ten provider types.

Table AA16 reports payment distribution across provider parishes to the top ten provider types in the state based on total payments. East Baton Rouge Parish ranked number one with about \$287 million (10 percent of total) in payments going into the parish, while Tensas Parish ranked last with \$415,350 (0.02 percent) in payments going to service providers in the parish. Table AA17 presents the number of service providers by parish, Table AA18 presents the number of recipients by parish and Table AA19 presents payments per recipient by parish for the top ten provider types based on payments during this SFY.

¹The "All Others" OOS category includes payments made to CMS for Medicare Buy-ins and Part-D premiums.

Table 39 presents FFS payments made to out-ofstate providers, as well as the number of providers and recipients by state. Arizona ranked the highest in out-of-state payments with \$22.9 million (58 percent). Provider participation was represented by 43 states. Texas had the highest number of Louisiana recipients (16,038) due to being a neighboring state.

¹ State provider counts and recipient counts may not sum to the total out-of-state count due to providers offering services in more than one state during the SFY and recipients receiving services in more than one state during the SFY. Total out-of-state figures are **unduplicated** for the entire out-of-state count, while other numbers are **unduplicated** for each state.

Medicaid Home and Community-Based Service Waivers

In 1981, the Federal Government created Title XIX Home and Community-Based Services (HCBS) in order to provide home and community-based services to the elderly and persons with physical disabilities, developmental disabilities and/or mental illnesses. Since this act made an exception to the traditional Medicaid requirements, it required a "waiver." Waivers allow flexibility for states to develop and test creative alternatives for operating their Medicaid programs that are cost neutral compared to what Medicaid would have paid in absence of the waiver.

The administration of the HCBS programs was divided into two offices, Office for Citizens with Developmental Disabilities (OCDD) and Office of Aging and Adult Services (OAAS). OCDD has the responsibility of administering the waiver programs that serve persons with developmental disabilities, which includes Children's Choice Waiver, New Opportunities Waiver, Residential Options Waiver and Supports Waiver. OAAS has the responsibility of administering the waivers that serve the elderly and persons with adult onset disabilities, which includes the Adult Day Health Care Waiver and the. Community Choices Waiver

These waiver programs allow Louisiana residents to receive Medicaid State Plan benefits while having greater flexibility to choose where they want to live and to choose the waiver services and supports that best suit their needs. They also allow individuals to preserve their independence by staying out of institutional settings and maintaining ties to families and friends. The types of HCBS Waivers available in Louisiana during the SFY 2015/16 included:

Adult Day Health Care (ADHC) Waiver

The ADHC Waiver provides health care services and activities for elderly and disabled adults at a licensed facility for five or more hours per day. This waiver thereby allows family members to assist in the care of the recipient while maintaining employment and other daily responsibilities. Transportation is provided to and from the facility. In SFY 2015/16, a total of 626 slots were filled with total payments of about \$19.2 million for waiver (\$8.9m) and non-waiver services (\$10.3m).

Community Choices Waiver (CC)

The Community Choices Waiver, which was transitioned from the Elderly and Disabled Adult (EDA) Waiver on October 1, 2011, provides a more diverse and flexible array of cost effective services such as home-delivered meals, in-home sensor monitoring, assistive devices/technology, and nursing and skilled maintenance therapies. CC also provides the services that were offered

under the EDA waiver which included support coordination, transition intensive support coordination, companion services, environmental accessibility adaptations, personal emergency response system, adult day health care and transitional services. The program filled a total of 4,333 slots in SFY 2015/16 with total payments of almost \$141.2 million for waiver (\$111.9m) and non-waiver services (\$29.3m).

Children's Choice Waiver

The Children's Choice Waiver is designed to help families who provide in-home care and support for their children with developmental disabilities. The waiver, which is capped at \$16,410 for direct waiver payments per year for each waiver slot, provides family support, support coordination, family training, environmental accessibility adaptations and center based respite to disabled children from birth through age 18. During SFY 2015/16, a total of 1,235 slots were filled with total payments of about \$37.4 million for waiver (\$11.9m) and non-waiver services (\$25.5m).

New Opportunities Waiver (NOW)

The New Opportunities Waiver provides individual and family support services, center-based respite, accessibilities adaptations modifications, employment training and transportation, community integration and development, day habilitation, emergency response systems and specialized medical equipment to disabled children and adults from age three and up. During SFY 2015/16, a total of 8,670 slots were filled with total payments of about \$503.5 million for waiver (\$443.4m) and non-waiver services (\$60.1m).

Supports Waiver (SW)

The Supports Waiver provides supported employment, day habilitation, prevocational services, respite, habilitation and personal emergency response systems to recipients age 18 and older with a developmental disability which manifested prior to age 22. The Supports Waiver filled a total of 1,841 slots in SFY 2015/16 with total payments of about \$23.1 million for waiver (\$12.1m) and non-waiver services (\$11.0m).

Residential Options Waiver (ROW)

The Residential Options Waiver provides an opportunity for individuals with developmental disabilities to transition from ICFs/DD and provides residential and other comprehensive supports for people with complex needs. Some of the services provided by the waiver are support coordination, community living supports, prevocational services, respite, day habilitation, and supported employment. ROW also focuses to prevent institutionalization through "crisis diversion" services and to rebalance the system

by converting private ICF/DD beds into ROW shared living waiver homes. During SFY 2015/16, a total of 24 slots were filled with total payments of about \$1.7 million for waiver (\$652,088) and non-waiver services (\$1.0m).

Waivers are offered on a first-come, first-serve basis (except for the limited number of emergency slots) through the Request for Services Registry. Each waiver has limitations on the number of participants and approval for participation is subject to CMS criteria and the availability of slots and/or state funds.

Table 40 shows the types of HCBS Waivers, with the eligible population description and income limit of each waiver available during SFY 2015/16 in Louisiana. Table 41 shows the number of allocated and filled slots along with the recipients and payments for the last five state fiscal years (Figures 21, 22 and 23). Due to recipients leaving and joining waiver programs throughout the year, some waivers may have higher total recipients than the number of slots available. During SFY 2015/16, 16,729 slots were filled under the HCBS waiver programs, continuing the trend of delivering services outside an institutional facility.

Table 40: Home and Community-Based Service Waivers Eligible Populations and Income Limits

Waiver	Eligible Population	Income Limit
Adult Day Health Care Waiver (ADHC)	Age 65 or older (22 - 64 with a disability) that meets nursing facility level of care requirements	222% of poverty (3 times the SSI amount); Assets limit: \$2,000 for individual, \$3,000 for a couple who needs LTC, and \$117,240 for a community spouse not receiving LTC
Community Choice Waiver (CC)	Age 65 or older (21 - 64 with a physical disability) that meets nursing facility level of care requirements	222% of poverty (3 times the SSI amount); Assets limit: \$2,000 for individual and \$3,000 for a couple who needs LTC, or \$119,220 for an institutionalized individual with a community spouse not receiving LTC
Children's Choice Waiver	Age birth through age 18; Meets ICF/DD level of care for medical and/or psychological criteria, and meets the Louisiana definition for developmental disability	222% of poverty (3 times the SSI amount); Assets limit: \$2,000 individual
New Opportunities Waiver (NOW)	Age 3 and older with a developmental disability which manifested prior to age 22; Meets ICF/DD level of care for medical and/or psychological criteria and meets the Louisiana definition for developmental disability	222% of poverty (3 times the SSI amount); Assets limit: \$2,000 individual and \$3,000 for a couple who needs ICF/DD level of care
Supports Waiver (SW)	Age 18 and older with a developmental disability which manifested prior to age 22; Meets ICF/DD level of care for medical and/or psychological criteria and meets the Louisiana definition for developmental disability	222% of poverty (3 times the SSI amount); Assets limit: \$2,000 individual and \$3,000 for a couple who needs ICF/DD level of care
Residential Options Waiver (ROW)	Age birth and older with a developmental disability which manifested prior to age 22; Meets ICF/DD level of care for medical and/or psychological criteria and meets the Louisiana definition for developmental disability	222% of poverty (3 times the SSI amount); Assets limit: \$2,000 individual and \$3,000 for a couple who needs ICF/DD level of care

Recipient counts are based on waiver services payments.
 Total payments including Medicare Buy-in premiums, Part-D and LBHP are based on Type Case. Waiver services payments are based on waiver Budget Category of Service (BCOS) while non-waiver payments represent all other payments other than waiver services payments.

¹ Population estimates are based on census estimates for the beginning of the SFY. U.S. Census Bureau, Population Division. (March 2016). Census Bureau Midyear Population Estimates. Estimates for 2010-2015 April 1, 2010 to July 1, 2015. Retrieved from: factfinder.census.gov/faces/tableservices/jsf/pages/productview.xhtml?pid=PEP_2015_PEPANNRES&src=pt
2 Individual parish enrollee and recipient counts may not sum to the total state count due to movement between parishes during the SFY; the state figures are unduplicated for entire state, while numbers are unduplicated within the parish.

Table AA3: Recipients and Payments by Parish and Race

			by Parish and Payme						
	Parish	African- American	White	Other	Total	African- American	White	Other	Total

¹ Payments are based on recipient parish payments.
² Parish recipient counts may not sum to the total state count due to movement between parishes during the SFY; the state figures are unduplicated for the entire state, while numbers are unduplicated within the parish.

Payment total does not include \$59,508 paid for Shared Plan retroactive adjustments.

Payment recipient counts may not sum to the total state count due to movement between parishes during the SFY; the state figures are unduplicated for the entire state, while numbers are unduplicated within the parish. Also, the individual plans recipient counts may not sum to the total plan type counts due to movement between the plans during the SFY.

To	rish recipient counts m								•		-		

¹ Parish recipient counts may not sum to the total state count due to movement between parishes during the SFY; the state figures are unduplicated for the entire state, while numbers are unduplicated within the parish. The individual plans recipient counts may not sum to the total plan type counts nor will the prepaid and shared recipient counts sum to the total MCO count due to movement between the plans during the SFY and the elimination of Shared Plans in February 2015.

¹ Parish recipient counts may not sum to the total state count due to movement between parishes during the SFY; the state figures are unduplicated for the entire state, while numbers are unduplicated within the parish. The individual plans recipient counts may not sum to the total plan type counts nor will the prepaid and shared recipient counts sum to the total MCO count due to movement between the plans during the SFY and the elimination of Shared Plans in February 2015.

		. , ,	,	,	ount due to movemen	,	·	. , , ,	,	,

¹ Individual parish enrollee and recipient counts will not sum to the total state count due to movement between parishes during the SFY; the state figures are unduplicated for entire state, while numbers are unduplicated within the parish. Also, LaCHIP and Regular Medicaid enrollee and recipient counts will not sum to the total Medicaid children count due to movement between the two types of Medicaid during the SFY.

Table AA16: Payments by Provider Parish for the Top Ten Provider Types Based on FFS Payments

ubic	Parish	Nursing Facility	Personal Care Attendant -	ICF/DD - Group Home	Hospital	Personal Care Services	Pharmacy

¹ Individual parish recipient counts may not sum to the total state count due to recipients receiving services in more than one parish during the SFY; the state figures are unduplicated for entire state, while other numbers are unduplicated for each parish. Also, provider type recipient counts may not add up to the parish totals due to recipients receiving services from multiple provider types throughout the SFY.

Appendix B: Glossary

Bayou Health: See Healthy Louisiana.

Child Health and Maternity Program (CHAMP) – Child: Medicaid eligibility for poverty-level children under the age of 19 who are eligible for Medicaid if they meet all program requirements.

Child Health and Maternity Program (CHAMP) – Pregnant Woman: Medicaid eligibility for a CHAMP Pregnant Woman may begin at any time during a medically verified pregnancy and as early as three months prior to the month of the application if all requirements of the program are met.

Centers for Medicare and Medicaid Services (CMS): The federal agency charged with overseeing and approving states' implementation and administration of the Medicaid and Medicare programs.

Co-payment: A fixed dollar amount paid by a Medicaid enrollee at the time of receiving a covered service from a participating provider.

United States Department of Health and Human Services (DHHS): DHHS administers many of the "social" programs at the federal level that deal with the health and welfare of citizens of the United States. It is the federal department responsible for the Centers for Medicare and Medicaid Services.

Disproportionate Share (DSH): Payments made by the Medicaid program to hospitals designated as serving a disproportionate share of low-income or uninsured patients. DSH payments are in addition to regular Medicaid payments for providing care to Medicaid beneficiaries. The maximum amount of federally matched funds available annually to individual states for DSH payments is specified in the federal Medicaid statute.

Disabled Adult Child (DAC): Provides Medicaid coverage to individuals over the age of 18 who became blind or disabled before the age of 22 and has lost SSI eligibility on or after July 1, 1987, as the result of entitlement to or increase in Retirement, Survivors and Disability Insurance (RSDI).

Disabled Widows and Widowers: Provides Medicaid coverage to disabled widows/widowers (between the ages of 50 and 59) who would be eligible for SSI had there been no elimination of the reduction factor in the federal formula and no subsequent cost-of-living adjustments.

Deficit Reduction Act of 2005 (DRA): Enacted in February 2006 to reduce the rate of federal and state Medicaid spending growth through new flexibility on Medicaid premiums, cost sharing and benefits, along with tighter controls on asset transfers in order to qualify for long-term care through Medicaid.

Direct Waiver Payments: Payments made on behalf of HCBS Waiver recipients for services, such as support coordination, assistive devices, home health care, respite care, personal care attendant, supported employment, environmental modifications, personal emergency response systems, companion service, transition and transportation to and from services and/or medical care, etc.

Dual Eligible: Individuals who are entitled to Medicare and are eligible for full or partial Medicaid benefits. Medicaid may pay for all or a portion of Medicare Part A and B premiums, co-payments and deductibles for dual eligibles.

Eligible: A person who is qualified for Medicaid but may or may not be enrolled.

Enrollee: A person who is Medicaid eligible, has applied for and was approved by the Medicaid program to receive benefits regardless of whether he or she received any service and/or any claims were filed on his or her behalf. Refer to the technical note on page xviii for more details.

Expenditure: In this report, expenditure refers to fiscal information derived from the financial system of the Integrated State Information System (ISIS). ISIS reports the program expenditures after all claims and financial adjustments have been taken into account.

Family Independence Temporary Assistance
Program (FITAP): In Louisiana, Temporary
Assistance for Needy Families (TANF) is provided
under a program known as the FITAP. This program
provides temporary assistance for needy pregnant
women and families with minor children under Title
IV-A of the Social Security Act. The program
provides eligible individuals with cash assistance
and supportive services if those families meet
eligibility requirements and are otherwise complying
with FITAP requirements.

Family Opportunity Act (FOA): Implemented in October 2007 under the DRA, FOA is a buy-in program that grants Medicaid access to children

who have a disability, but have maxed out their private health insurance or are ineligible for Supplemental Security Income (SSI), Medicaid, or LaCHIP because of parent income or private health insurance. FOA covers children up to 300 percent of the FPG.

Federal Fiscal Year (FFY): The FFY starts October 1 and ends September 30 of the next calendar year.

Federal Medical Assistance Percentage (FMAP): FMAP is the percentage the federal government will match on state money spent on Medicaid; also known as Federal Financial Participation (FFP).

Financial Eligibility: Limits on the amount of income and the amount of resources an individual is allowed to have in order to qualify for coverage.

Full Dual Eligible: Medicare beneficiary who is eligible for full Medicaid services. Medicaid pays the deductible and co-payments for Medicare services and may cover other Medicaid services not covered by Medicare.

Healthy Louisiana: The term used for the Managed Care Health Plans which coordinate physical healthcare for Medicaid recipients. Healthy Louisiana consists of five health plans which have the same core benefits and services, but may offer recipients enhanced benefits.

Parents and Caretaker Relative Group: Provides Medicaid coverage to individuals living with and assuming primary responsibility for the care of a dependent child under the age of 18. This group includes individuals with income less than or equal to 19 percent of the FPG.

Personal Care Waiver Services: Services that provide companion services offered by Home and Community-Based Service (HCBS) Waivers.

Inflation: Inflation is an overall general price level increase of goods and services in an economy, usually measured by the Consumer Price Index (CPI) and the Producer Price Index (PPI) by the Bureau of Economic Analysis.

LaMOMS: Medicaid program that provides pregnancy-related services, delivery and care up to 60 days after delivery for pregnant women with income up to 133 percent of the FPG.

Louisiana Behavioral Health Partnership (LBHP): A fully integrated managed care system for behavioral health. LBHP coordinates services across multiple agencies and is operated by Magellan Health Services, Inc.

Long-Term Care (LTC): An applicant/recipient may be eligible for Medicaid services in the LTC program if he or she requires medical assistance for a defined activity of daily living (ADL) such as dressing, eating, bathing, ambulation, etc. These services may be provided either in a facility, in an individual's home or in the community.

Louisiana Children's Health Insurance Program (LaCHIP): As a result of the Federal Balanced Budget Act of 1997 and the Social Security Act, the federal government has provided states with funding for a state children's health insurance program with enhanced FMAP. In Louisiana, the program is called LaCHIP. LaCHIP is a Medicaid expansion that covers children less than 19 years old and up to 212 percent of the FPG.

LaCHIP Affordable Plan (LAP): A stand-alone program that provides Medicaid coverage for children under the age of 19 not covered by health insurance and is below 250 percent FPG. Some cost sharing is associated with LAP through monthly premiums and co-payments.

Low Income and Needy Care Collaboration Agreement (LINCCA): Are agreements between private hospitals, and public state and local hospitals, and hospital districts that allow private hospitals to take on services for low-income and needy patients which alleviates the financial strain upon the government entities that can then utilize those funds to supplement the Medicaid program and draw down federal financial participation. There is no legal obligation to contribute funding to the Medicaid supplemental payment program and is done at their sole discretion.

Managed Care: A health care delivery system that manages the delivery of Medicaid services through contracted arrangements between state Medicaid and Managed Care Organizations (MCOs).

Mandatory Services: In order to receive federal Medicaid funding, each state must agree to provide mandatory services to the Medicaid eligible population. Along with mandatory services, states are free to offer optional services and receive federally matched funds for all of them. Some programs are limited by eligibility requirements or service limits, but all Medicaid services must be provided to enrolled children under age 21 if the services are deemed medically necessary.

Medicaid Purchase Plan (MPP): Allows working individuals up to 100 percent of the FPG with disabilities to "buy in" to Louisiana Medicaid health coverage.

Medically Needy Program (MNP): Provides Medicaid coverage in a categorical assistance program when income and resources of the individual or family are sufficient to meet basic needs, but are not sufficient to meet medical needs according to the state's established Medically Needy standards.

Medicare: Like Medicaid, Medicare was created by the Social Security Act of 1965, but the two programs are different. Medicare is a federally paid and administrated insurance program that has four parts of coverage: Part-A, Part-B, Part-C and Part-D.

Medicare Part-A: The hospital insurance portion of Medicare. Part-A covers inpatient hospital care, skilled nursing facility care, some home health agency services and hospice care.

Medicare Part-B: The supplementary or "physicians" insurance portion of Medicare. Part-B covers services of physicians/other suppliers, outpatient care, medical equipment and supplies, and other medical services not covered by the hospital insurance part of Medicare.

Medicare Part-C: Provides for a managed care delivery system for Medicare services.

Medicare Part-D: Provides Medicare beneficiaries with assistance paying for prescription drugs. It was enacted as part of the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (MMA) and went into effect on January 1, 2006. Unlike coverage in Medicare Parts A and B, Part-D coverage is not provided within the traditional Medicare program. Instead, beneficiaries must affirmatively enroll in one of the many hundreds of Part-D plans offered by private companies.

Non-Waiver Payments: All other payments, besides those for direct waiver services, made on behalf of HCBS Waiver recipients, such as physician, hospital, pharmacy, etc.

Partial dual eligible: Medicare beneficiary who does not qualify for full Medicaid services. Medicare Savings Program serves the partial eligibles by assisting with Medicare premium and cost sharing programs through the Medicaid program.

Payment: Refers to information derived from the claims-based data sets produced by the Medicaid fiscal intermediary and the Medicare Buy-in and

Part-D premiums. Refer to the technical note on page xviii for a detailed explanation.

Personal Care Services (LTC/PCS/PAS): Services under the state plan, that offers EPSDT, Long Term Care, Personal Assistance Services and Personal Care Services.

Prepaid Health Plan: An entity that is risk-bearing, Managed Care Organization health care delivery system that is responsible for the provision of specified Medicaid State Plan services.

Prior Authorization: A management tool used to verify whether proposed treatments/services are medically necessary and appropriate for the patient.

Program for All-Inclusive Care for the Elderly (PACE): Program that coordinates and provides all needed preventive, primary, acute and long term care services so that older individuals can continue to live in the community.

Provider: A person, group or agency that provides a covered Medicaid service to a Medicaid recipient.

Qualified Medicare Beneficiary (QMB):

Individuals who have income up to 100% of the FPG or less, have resources that do not exceed twice the limit for SSI eligibility. Medicaid pays their Medicare Part-A premiums, if any, Medicare Part-B premiums, Part-D, Medicare deductibles and coinsurance for Medicare services provided by Medicare providers.

Qualifying Individuals – 1 (QI-1): Qualifying Individuals – 1 went into effect January 1, 1998. There is an annual cap on the amount of money available, which may limit the number of individuals in the group. These individuals are entitled to Medicare Part-B, have income of 120% to 135% of FPG, have resources that do not exceed twice the limit for SSI eligibility and are not otherwise eligible for Medicaid.

Recipient: A person is considered a 'recipient' if any claims related transaction(s) or Medicare Buy-in or Part-D premium payment(s) occurred on behalf of that person during the state fiscal year. The data for this report is based on a claim's date of payment (DOP). Refer to the technical note on page xviii for a detailed explanation.

Shared Savings Health Plan: An entity that serves as a primary care manager by providing enhanced primary care case management in addition to contracting with primary care providers for primary care management.

Slot: Medicaid Waivers are limited to a certain number of recipients based on funding availability and recommendations by CMS. The available positions are referred to as slots.

Specified Low-Income Medicare Beneficiary (SLMB): Medicaid pays their Medicare Part-B premium only. The eligibility requirements are the same as for the Qualified Medicare Beneficiary (QMB) except that income limits fall between 100% and 120% of FPG.

Spend-Down: When an individual may qualify for Medicaid coverage even though their countable income is higher than the specified income standard by "spending down." Under this process, the medical expenses that an individual incurs during a specified period are deducted from the individual's income during that period. Once the individual's income has been reduced to a state-specified level, the individual qualifies for Medicaid benefits for the remainder of the period.

State Fiscal Year (SFY): The SFY is a 12-month calendar that begins July 1 and ends June 30 of the following calendar year.

State Plan: The State Plan is the formal agreement between Louisiana and Centers for Medicare and Medicaid Services (CMS) regarding the policies governing the administration of the state's Medicaid program. Amendments to the State Plan must be submitted to CMS for review and approval no later than the end of the quarter in which the amendment becomes effective. Federal financial participation (FFP) for any added costs is not available to the state until the amendment is approved.

Supplemental Payments: Payments that the federal government allows states to reimburse set provider types (hospitals, physicians and ambulance) for certain uncompensated care provided under Medicaid at an amount equal to what Medicare would have paid for the same service.

Supplemental Security Income (SSI): A federal cash assistance program for low-income aged, blind and disabled individuals established by Title XVI of the Social Security Act. States may use SSI income limits to establish Medicaid eligibility.

System of Care: A spectrum of effective, community-based services and supports for children and youth with or at risk for mental health or other challenges and their families, that is organized into a coordinated network, builds meaningful partnerships with families and youth, and addresses their cultural and linguistic needs, in order to help them to function better at home, in school, in the community and throughout life.

Temporary Assistance for Needy Families

(TANF): TANF, commonly known as welfare, is the monthly cash assistance program for poor families with children under the age of 18. The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA) (Pub. L. 104-193), as amended, is the welfare reform law that established the TANF program.

Uncompensated Care Costs (UCC): Payments to hospitals for providing inpatient and outpatient care for uninsured and low income individuals who are not financially capable of paying for the medical services they receive. These hospitals are Disproportionate Share Hospitals (DSH), meaning they provide a certain percentage of their total patient care to the indigent population.

Unduplicated (Eligible/Recipient): An unduplicated eligible/recipient is a uniquely counted eligible/recipient who is counted only once during a given period for any particular category of interest.

Upper Payment Limit (UPL): Payments that the federal government allows states to reimburse hospitals for certain uncompensated care provided under Medicaid at an amount equal to what Medicare would have paid for the same service, which is typically at a higher amount. UPL is financed with both state and federal matched funds.

Waiver: A Medicaid waiver grants states permission to waive certain federal requirements in order to operate a specific kind of program. Federal law allows states to enact two types of Medicaid waivers: 1) Program Waivers [1915 (b), 1915 (c)] and 2) Research and Demonstration Waivers [1115].

Youth Aging Out of Foster Care: Provides Medicaid coverage to youth between the ages of 18 and 21 who are transitioning out of foster care.
