# Louisiana Medicaid Annual Report

State Fiscal Year 2014/15

John Bel Edwards GOVERNOR

Louisiana Department of Health Bureau of Health Services Financing

#### Dear Louisiana Citizen:

It is my privilege to present the 2015 Medicaid Annual Report. This report provides an overview of the efforts taken to ensure that Louisiana's most vulnerable populations remain the focus of the State's Medicaid program.

The Louisiana Medicaid Program is one of the largest state programs with total expenditures of approximately \$7.8 billion during fiscal year (FY) 15. During this time, the Louisiana Medicaid Program served approximately 1.4 million Louisianans, which is over 30 percent of the state's population.

Highlights of FY 15 include expanding coverage under the Bayou Health managed care organizations to include groups that were previously excluded and adding new services to Bayou Health to include in-home caregiving for children under 21 years of age, hospice care and non-emergency medical transportation. A dental benefits program was also added during the year. Under the dental benefits program, children are covered for medically necessary diagnostic, preventative and orthodontic services. Adults are covered for partial or complete dentures, denture repair and regular comprehensive oral examinations.

The State's Medicaid program meets the medical and behavioral health needs for low-income families, individuals who are elderly or who have disabilities. By covering the health needs of our fellow-citizens, Medicaid serves a greater purpose in helping individuals avoid becoming medically frail and reducing intergenerational poverty. This improves the overall health of the State's citizenry and helps to improve the economic health of the State.

Jen Steele Medicaid Director

### Overview of the Bureau of Health Services Financing

The **Secretary** of the Louisiana Department of Health (LDH), who is appointed by the Governor, provides leadership and overall support services while maximizing resources to fulfill the mission of the Department.

The **Undersecretary** of the Louisiana Department of Health is responsible for the management of the Office of Management and Finance (OMF) and is also appointed by the Governor. The Undersecretary reports to the Secretary and oversees several administrative bureaus and divisions, including the Bureau of Health Services Financing (Medicaid).

The **Medicaid Director** reports to the Undersecretary and is responsible for

administering the Medicaid program which includes the following functions: healthcare delivery systems, eligibility, medical program operations, financial management and policy implementation and support.

The **Deputy Directors**, who are responsible for various sections of Medicaid, report to the Medicaid Director. They are responsible for overseeing all functional aspects of the Medicaid program.

For additional agency information, please visit the Louisiana Department of Health website at www.dhh.louisiana.gov/.

#### **Mission Statement**

The mission of the Bureau of Health Services Financing, which administers Medicaid in Louisiana, is to respond to the health needs of Louisiana's citizens by developing, implementing and enforcing administrative and programmatic policy with respect to eligibility, licensure, reimbursement and monitoring of health care services, in compliance with federal and state laws and regulations.

#### Goals

The goals of the Bureau of Health Services Financing are to:

- Improve health outcomes by emphasizing primary care and reducing the number of uninsured persons in Louisiana,
- ♦ Expand existing and develop additional community-based services as an alternative to institutional care,
- ♦ Ensure cost effectiveness in the delivery of health care services by using efficient management practices and maximizing revenue opportunities,
- Assure the integrity and accountability of the health care delivery system in an effort to promote the health and safety of Louisiana citizens, and
- Implement measures that will constrain the growth in Medicaid expenditures while improving services to secure alternative sources of funding for health care in Louisiana.

## **Highlights of State Fiscal Year 2014/15**

#### **Bayou Health**

Over the course of SFY 2014/15, Bayou Health coverage was expanded to groups that were previously excluded. These previously excluded groups are Home and Community-Based Services (HCBS) waiver and Chisholm recipients, which are considered opt-in populations, meaning that they have the option to enroll in Bayou Health plans, but are not required to do so in order to continue receiving Medicaid services. Individuals who receive HCBS waivers were added in July 2014, while the Chisholm population was added in February 2015. New services were added to Bayou Health including in-home caregiving for children under 21 years of age, hospice care, and non-emergency medical transportation.

In July 2014, Louisiana Medicaid issued a request for proposals (RFP) to establish a new organizational structure for Bayou Health. Managed Care Organizations (MCOs) were required to apply based on the new RFP regardless of whether they had been part of Bayou Health already. Until February 2015, Bayou Health plans included two payment models: Shared Saving and Prepaid. Under the Shared Saving model, plans received a monthly management fee for coordinating members' healthcare, but all health care costs were paid by Medicaid under Fee-for-Service (FFS). The Prepaid model is risk bearing, where each MCO receives a Per Member Per Month capitation rate (PMPM) to provide Medicaid benefits and services to enrolled members. As of February 2015, the Shared Saving model was discontinued and all Bayou Health plans are Prepaid capitated plans. These changes are designed to improve budget predictability by reducing the variation in monthly costs.

Until February 2015, there were three Prepaid and two Shared Saving plans. All three Prepaid plans stayed on, and the Shared Saving plan of United Healthcare changed to a Prepaid model. The second Shared Saving plan Community Health was discontinued. Aetna Better Health was contracted as the fifth Prepaid Bayou Health plan. For more information on the SFY 2014/15 Bayou Health plans, please see the Bayou Health section of this report on page 32.

Also under the new Bayou Health, the Mixed Services Protocol (MSP), a method of determining financial responsibility for behavioral health services between Bayou Health and the Louisiana Behavioral Health Partnership (LBHP), was effective March 2015. Previously, responsibility

was determined based on diagnosis codes billed on a service claim. Under the MSP, responsibility is determined by the provider type or specialty. If the provider is a behavioral health provider type and specialty, such as any licensed behavioral health professional or specialist, then the services are the responsibility of LBHP. If not, they are the responsibility of Bayou Health.

#### **Louisiana Behavioral Health Partnership**

The Mixed Services Protocol implemented between Bayou Health and LBHP in the beginning of 2015 made it easier for the two organizations to coordinate care. As described above, MSP specifically states which MCO is in charge of providing coverage based on the provider type and/or specialty. LBHP is focused exclusively on behavioral health, while Bayou Health focuses on physical health. Therefore LBHP covers members when they receive services from a psychiatrist or other licensed mental health practitioner. This can include treatment at a psychiatric facility as well as routine inpatient and outpatient services and testing.

Beginning in August 2014, Louisiana Medicaid mandated that individuals who are enrolled in Louisiana Children's Health Insurance Program (LaCHIP) Phase IV or LaMOMS would be included in LBHP. LaCHIP Phase IV provides prenatal care services from conception until birth for uninsured women with incomes up to 209 percent of the Federal Poverty Guidelines (FPG) who are not otherwise eligible for Medicaid, including non-citizens. LaMOMS provides pregnancy-related services to pregnant women with incomes up to 133 percent of the FPG until 60 days after the end of their pregnancy.

In September 2014, Louisiana Medicaid increased the maximum number of beds at Therapeutic Group Homes (TGHs) from 8 to 10. Therapeutic Group Homes provide clients under the age of 21 with a structured living environment in a home-like psychiatric residential facility. The goal of TGH treatment is to keep clients engaged in their community while still receiving thorough psychiatric or psychological treatment. By increasing the number of beds available at TGHs, Louisiana Medicaid is providing more options for clients in need of intensive psychiatric care. Increased TGH capacity will also reduce the strain on Psychiatric Residential Treatment Facilities (PRTFs), which provide intensive, medically necessary treatment for clients under the age of 21 with severe psychiatric, psychological or substance abuse-related problems.

#### **Dental Benefits**

Beginning in July 2014, LDH contracted with Managed Care of North America (MCNA) for management of dental services. MCNA is paid separate PMPM capitation rates for children and adults for dental services. Children are covered under the Dental Benefits program for medically necessary diagnostic, preventative and orthodontic services, in addition to regular examinations and treatments. Adults are covered for services for partial and complete dentures, denture repair and regular comprehensive oral examinations.

#### **Supports Waiver**

The Supports waiver updated its billing process in January 2015 to allow participants to get paid for working partial days. The Supports waiver provides individuals over the age of 18 with developmental disorders with support so that they can live independent of an Intermediary Care Facility for the Developmentally Disabled (ICF/DD) institution. This includes Supported Employment, Day Habilitation and Pre-Vocational services. If the participant requires additional supervision or assistance while at a place of employment, attending day habilitation or prevocational training, the provider of that service can receive payment. Previously, units of service for these services were based only on full days. If a participant only attended for half a day, the provider would not have been eligible to receive payment at all. Now units of service is measured by 15-minute increments, which will give participants more flexibility and allow providers to bill for partial days.

# Intermediate Care Facilities for the Developmentally Disabled

In October 2014, Louisiana Medicaid implemented the Complex Care rate for Intermediate Care Facilities for the Developmentally Disabled (ICFs/DD). The Complex Care rate will allow non-state ICFs/DD to receive additional payments for providing services to fit the needs of medically or behaviorally complex patients. These services may include equipment such as a wheelchair, a direct service worker, nursing services or combination of the above.

#### **Physicians**

In October 2014, Louisiana Medicaid passed a rule allowing OB/GYN physicians to stock Long-Acting Reversible Contraceptives (LARCs) at their practices. LARCs are devices such as Intrauterine Devices (IUDs) and Nexplanon subcutaneous implants or injections such as Depo Provera, which must be applied by a physician. Previously, patients had to collect the LARC at a pharmacy

after receiving the prescription from a physician. The patient would then have to schedule a second visit with the physician so that the LARC could be applied. Many patients do not make the follow-up appointment. Now that physicians can keep the devices in stock, patients only need to make one appointment. This will save time for patients and physicians in addition to reducing medical waste and decreasing the number of needed physician visits.

#### **Take Charge Plus**

The Take Charge Plus state plan began in July 2014. Previously, Take Charge was a waiver service that provided family planning services such as birth control to women only. The new Take Charge Plus program provides services to men and women whose incomes do not exceed 133 percent of the Federal Poverty Guidelines (FPG). Specifically, Take Charge Plus services include sexually transmitted infection (STI) testing. treatment and prevention services, transportation to family planning appointments, cervical cancer screening and pre-cancer treatment such as vaccination for human papilloma virus (HPV), in addition to family planning services like birth control prescriptions and voluntary sterilization. The number of family planning services allowed per recipient have been increased from 4 to 7 per calendar year. All individuals who were enrolled in the previous Take Charge waiver and met the eligibility requirements for Take Charge Plus were moved into Take Charge Plus by the end of December 2014. The expanded program brings family planning services to a much larger population and increases the availability of STI prevention and treatment.

#### **Pharmacy**

Based on consultations with the Centers for Medicare and Medicaid Services (CMS) and Myers and Stauffer (M&S) actuaries, in August 2014 LDH reverted to its 2012 reimbursement method for pharmaceutical products. The reimbursement rates are determined by source and whether a given drug has been assigned an Average Acquisition Cost (AAC). If there is no AAC, the Wholesale Acquisition Cost (WAC) could be used. A single source drug may be reimbursed according to the lower price of the AAC/WAC plus a dispensing fee or the usual and customary charge. Multi-source drugs may be reimbursed based off of the lower of the AAC/WAC and a dispensing fee, the Federal Upper Limit and a dispensing fee or the usual and customary charge.

The pharmacy program has also focused on the use of prescriptions for behavioral health disorders, especially in children. Monitoring was improved so that utilization of treatments for Attention Deficit Disorder requires diagnostic testing and appropriate diagnosis codes.

The provider reimbursement rate for Hydroxyprogesterone (17p), a drug which has been proven to reduce the likelihood of premature births, was increased from \$19 to \$69 in June 2015 to cover the providers' cost of acquiring the drug. This increase is designed to incentivize physicians to provide this drug to women at risk of premature labor. Given that care for premature infants entails much higher costs than for full-term infants, higher utilization of Hydroxyprogesterone should reduce costs and result in more healthy babies.

#### **Medicaid Eligibility Changes**

4913 Coverage Group – This coverage group was provided for children who were receiving Social Security Insurance on August 22, 1996, but lost it after July 1, 1997 due to a change in the definition of disability for children. These children received Medicaid coverage until the age of 18. Upon aging out of the 4913 coverage group, individuals became eligible for Medicaid under CHAMP or LaCHIP. All individuals who had been in this group had aged out by September 2014. As such, this coverage group has been terminated.

#### **Louisiana Medicaid Outcomes**

The Louisiana Medicaid program has undertaken the task to promote preventive health care, condition-specific care and improve utilization of services to enhance quality of health care delivery in the state. Pursuant of these goals, Medicaid provides ongoing monitoring and evaluation of performance measures that assess the quality of health care provided through Managed Care Health Plans. The clinical measures used to show the Health Plans' performance are the Healthcare Effectiveness Data and Information Set (HEDIS) criteria, set by the National Committee for Quality Assurance (NCQA). The HEDIS criteria are standardized performance and report measures on important health issues. These measures are normally expressed as a proportion of the compliant Medicaid population to the Medicaid enrolled population based on date of service.

The HEDIS measures provide useful information on children and adults who are and who are not taking advantage of beneficial and potentially cost-saving preventive medical services. Knowing these measures offers an opportunity for Medicaid and Health Plans to help educate enrollees about the importance of taking advantage of these preventive services. The use of preventive services could help improve the enrollee's health and longevity of life, as well as reduce costs to tax payers in the long run.

The measures provided below are from HEDIS data collected by each of the five Managed Care Plans for its Medicaid membership for the 2014 calendar year. Out of these five plans, two of the Health Plans, Community Health Solutions and United Healthcare Community, are Shared Savings Plans. The other three Health Plans, Amerihealth Caritas of Louisiana, Amerigroup Louisiana and Louisiana Healthcare Connections, are Prepaid Plans (see Bayou Health on p.32 for more information on types of Health Plans). Louisiana Legacy Medicaid numbers represent the population enrolled in state Medicaid programs that are purely in Fee for Service (FFS) programs. The overall state numbers represent all Medicaid enrollees regardless of program or Managed Care Plan. Where possible, national Medicaid data from the NCQA is also provided.

#### **Childhood Immunization Status**

This measure examines the percentage of Louisiana Medicaid children who reached the age of two within the measurement year and received

Combination 2 or Combination 3 immunizations before their second birthday. Combination 2 is comprised of four doses of DTP or DTaP (diphtheria, tetanus and acellular pertussis), three doses of IPV (polio), one dose of MMR (measlesmumps-rubella), three doses of Hib (haemophilus influenza type b), three doses of hepatitis B, and one dose of VZV (chicken pox). Combination 3 consists of Combination 2 and four doses of PCV (pneumococcal conjugate). These vaccinations help prevent and protect children from potentially serious childhood diseases. In 2014, the rates for children in Louisiana Medicaid who received Combination 2 were:

- Community Health Solutions: 23.59 percent
- United Healthcare Community: 72.75 percent
- Amerihealth Caritas of Louisiana: 49.31 percent
- Amerigroup Louisiana: 73.84 percent
- Louisiana Healthcare Connections: 60.00 percent
- · Legacy Medicaid: 61.03 percent
- Overall Louisiana Medicaid: 71.19 percent
- National Medicaid average: 73.80 percent<sup>i</sup>

Combination 3 immunization rates were:

- Community Health Solutions: 21.79 percent
- United Healthcare Community: 71.53 percent
- Amerihealth Caritas of Louisiana: 47.92 percent
- Amerigroup Louisiana: 68.98 percent
- Louisiana Healthcare Connections: 55.48 percent
- Legacy Medicaid program, 57.72 percent
- Overall Louisiana Medicaid: 67.12 percent
- National Medicaid rate: 70.40 percent<sup>i</sup>

#### **Immunization Status for Adolescents**

This measure examines the percentage of adolescents who reached the age of 13 within the measurement year and received the Combination 1 immunizations. Combination 1 consists of one dose of Meningococcal vaccine and one Tetanus-Diphtheria-Pertussis (Tdap) vaccine or one Tetanus and Diphtheria toxoids (Td) vaccine. In 2014 the rates for adolescents who received the Combination 1 vaccinations were:

- Community Health Solutions: 67.16 percent
- United Healthcare Community: 88.59 percent
- Amerihealth Caritas of Louisiana: 86.11 percent
- Amerigroup Louisiana: 88.66 percent
- Legacy Medicaid program, 83.62 percent
- Overall Louisiana Medicaid: 87.91 percent
- National Medicaid rate: 71.40 percent<sup>i</sup>

National Quality Measures Clearinghouse. National Committee for Quality Assurance. (2015). HEDIS® 2015: Healthcare Effectiveness Data and Information. Retrieved from http://www.qualitymeasures.ahrg.gov/index.aspx

#### Well-Child Visits in the First 15 Months of Life

This measure looks at the percentage of children who turned 15 months old during the measurement year and who had six or more well-child visits with a Primary Care Provider (PCP). The first year of life is particularly crucial for monitoring a child's development. These visits help PCPs detect physical, developmental and behavioral problems and provide or recommend treatment or guidance to the parents<sup>ii</sup>. The percentage of children who received six well-child visits in the first 15 months of life as of 2014 were:

- Community Health Solutions: 49.94 percent
- United Healthcare Community: 65.34 percent
- Amerihealth Caritas of Louisiana: 49.77 percent
- Amerigroup Louisiana: 50.00 percent
- Louisiana Healthcare Connections: 52.64 percent
- Legacy Medicaid: 32.18 percent.
- Overall Louisiana Medicaid: 46.81 percent
- National Medicaid average: 58.90 percent<sup>i</sup>

# Well-Child Visits in the Third, Fourth, Fifth and Sixth Years of Life

This measure looks at the percentage of Medicaid children between three to six years of age who received at least one well-child visit within the measurement year. These visits provide preventive medical care and help the Primary Care Provider (PCP) to detect vision, speech and language problems, if any, and provide or recommend the needed therapy or intervention program<sup>ii</sup>. In 2014 the rates of children in Louisiana Medicaid between three and six years of age visiting a PCP were:

- Community Health Solutions: 66.21 percent
- United Healthcare Community: 63.40 percent
- Amerihealth Caritas of Louisiana: 62.21 percent
- Amerigroup Louisiana: 64.81 percent
- Louisiana Healthcare Connections: 60.82 percent
- Legacy Medicaid: 43.66 percent
- Overall Louisiana Medicaid: 56.94 percent
- National Medicaid rate: 71.90 percent<sup>i</sup>

#### **Adolescent Well-Care Visits**

This measure assesses the percentage of adolescents between 12 and 21 years of age who had a minimum of one comprehensive well-care visit within the measurement year. Adolescent well-care visits help physicians to offer needed/required treatment and counseling. The rates of adolescents receiving well-care visits in 2014 were:

- Community Health Solutions: 49.08 percent
- United Healthcare Community: 55.96 percent
- Amerihealth Caritas of Louisiana: 43.75 percent
- Amerigroup Louisiana: 43.75 percent
- Louisiana Healthcare Connections: 50.24 percent
- Legacy Medicaid: 17.89 percent
- Overall Louisiana Medicaid: 38.08 percent
- National Medicaid rate: 50.00<sup>i</sup>

#### Children's Access to Primary Care Providers

This measure looks at the number of children aged 12 to 24 months who had a minimum of one ambulatory or preventive care visit with a PCP within the measurement year. Accessibility and utilization of PCPs by children and adolescents help reduce preventable and incidence of illnesses such as asthma and influenza. There is a high utilization rate of PCP services by Louisiana Medicaid children. In 2014, the rates of children aged 12 months to 24 months with access to PCP were:

- Community Health Solutions: 96.32 percent
- United Healthcare Community: 96.34 percent
- Amerihealth Caritas of Louisiana: 94.55 percent
- Amerigroup Louisiana: 94.74 percent
- Louisiana Healthcare Connections: 94.66 percent
- · Legacy Medicaid: 84.20 percent
- Overall Louisiana Medicaid: 92.60 percent
- National Medicaid rate: 95.50 percent<sup>i</sup>

#### **Breast Cancer Screening**

This measure looks at the percentage of women aged 50 to 75 years of age who had at least one mammogram screening for breast cancer within the last two years. Regular screening can greatly improve the outcomes for women with breast cancer and lead to a greater range of treatment options and lower health care costs<sup>i</sup>. The rates of breast cancer screening in 2014 were:

- Community Health Solutions: 47.98 percent
- United Healthcare Community: 52.93 percent
- Amerihealth Caritas of Louisiana: 57.23 percent
- Amerigroup Louisiana: 52.98 percent
- Louisiana Healthcare Connections: 54.10 percent
- · Legacy Medicaid: 43.70 percent
- Overall Louisiana Medicaid: 50.90 percent
- National Medicaid rate: 58.80 percent<sup>i</sup>

<sup>&</sup>lt;sup>II</sup> National Quality Measures Clearinghouse. National Committee for Quality Assurance. (2015). HEDIS® 2015: Healthcare Effectiveness Data and Information. Retrieved from http://www.qualitymeasures.ahrg.gov/index.aspx

#### Chlamydia Screening in Women

This measure looks at the percentage of women 16 to 24 years of age who were identified as sexually active and had at least one test for chlamydia during the measurement year. Chlamydia is the most commonly reported bacterial sexually transmitted disease in the United States among adolescents, and can lead to serious and irreversible complications<sup>i</sup>. The rates of chlamydia screening among the selected population in 2014 were:

- Community Health Solutions: 60.06 percent
- United Healthcare Community: 56.12 percent
- Amerihealth Caritas of Louisiana: 59.35 percent
- Amerigroup Louisiana: 58.24 percent
- Louisiana Healthcare Connections: 57.78 percent
- Legacy Medicaid: 52.48 percent
- Overall Louisiana Medicaid: 57.09 percent
- National Medicaid rate: 54.60 percent

#### **Cervical Cancer Screening**

This measure looks at the percentage of women aged 24 to 64 years who had at least one pap test for cervical cancer within the measurement year. Pap tests help detect cell changes in the cervix caused by human papillomavirus (HPV) that might become cancerous in which early detection enables treatment. The rates of pap tests in 2014 were as follows:

- Community Health Solutions: 54.33 percent
- United Healthcare Community: 61.95 percent
- Amerihealth Caritas of Louisiana: 54.33 percent
- Amerigroup Louisiana: 54.57 percent
- Louisiana Healthcare Connections: 55.29 percent
- Legacy Medicaid: 49.87 percent
- Overall Louisiana Medicaid: 54.70 percent
- National Medicaid rate: 60.20 percent

#### **Comprehensive Diabetes Care**

This measure looks at the percentage of adults 18 to 75 years of age with diabetes (type 1 and type 2) who, in the measurement year, received testing for Hemoglobin A1c (HbA1c) testing and regular control, retinal eye exam, medical attention for nephropathy and blood pressure control. Proper management of diabetes is essential to reducing the risk of complications and prolonging the patient's life. In 2014 the rates of adults with diabetes who received these services were:

- Community Health Solutions: 83.66 percent
- United Healthcare Community: 80.54 percent
- Amerihealth Caritas of Louisiana: 83.51 percent
- Amerigroup Louisiana: 80.51 percent
- Louisiana Healthcare Connections: 81.86 percent
- Legacy Medicaid: 61.49 percent
- Overall Louisiana Medicaid: 73.39 percent
- National Medicaid rate: 86.30 percent<sup>i</sup>

#### **Decreasing Emergency Room Utilization**

Encouraging appropriate use of Emergency Department (ED) services is a key goal for Louisiana Medicaid and Bayou Health. The Bayou Health Plans in collaboration with LDH have conducted performance improvement projects to decrease ED visits to a level comparable to legacy Medicaid. The Bayou Health Plans as a whole had 71.75 visits per 1,000 member months in 2014. The individual breakdown of visits per 1,000 enrollees is as follows:

- Community Health Solutions: 67.35
- United Healthcare Community: 62.93
- Amerihealth Caritas: 76.23
- Amerigroup Louisiana: 78.21
- Louisiana Healthcare Connections: 74.04
- Legacy Medicaid: 30.63
- Overall Louisiana Medicaid: 61.99
- National Medicaid rate: 62.10

National Quality Measures Clearinghouse. National Committee for Quality Assurance. (2015). HEDIS® 2015: Healthcare Effectiveness Data and Information. Retrieved from http://www.qualitymeasures.ahrq.gov/index.aspx

#### **Technical Notes**

#### State Fiscal Year and Federal Fiscal Year

Louisiana's State Fiscal Year (SFY) runs from July 1 through June 30 of the following calendar year. The Federal Fiscal Year (FFY) begins October 1 and ends September 30 of the following calendar year. The information presented in this report is based on a SFY basis unless otherwise noted.

#### **Expenditures versus Payments**

The data in this report comes from two primary sources. The first source is the overall Medicaid program fiscal amounts drawn from the Integrated State Information System (ISIS), which is the statewide financial system. ISIS reports the program dollar amounts after all claims and financial adjustments have been made. Financial adjustments are amounts often paid in lump-sum that are not necessarily attributable to any specific individual. These financial adjustments could include transactions related to cost settlements including supplemental and Upper Payment Limit payments. Uncompensated Care Costs (UCC), pharmacy rebates received from pharmaceutical manufacturers and the amounts paid to Centers for Medicare and Medicaid Services (CMS) for Medicare Buy-ins and Part-D. ISIS does not capture recipient and provider-specific information.

To capture detailed recipient and provider related information, we use the second set of sources, the Medicaid Management Information System (MMIS) and Medicare Modernization Act (MMA) Response File from CMS. MMIS has a claims reporting system, known as the Management Administrative Reporting Subsystem (MARS) Data Warehouse, which is managed by the Medicaid program Fiscal Intermediary (FI). Recipient and provider-specific information is drawn from data extracted from MARS Data Warehouse (MDW) and is specifically derived for this Annual Report according to the criteria specified in this technical note. The Medicaid MDW reports paid claims to providers before the application of certain financial adjustments, as discussed under the first source. MMA Response File contains information about recipients on behalf of whom a Medicare Buy-in and/or Part-D/Clawback premium was paid to CMS.

Due to the above differences, dollar amounts drawn from the above two sources may not match exactly. To differentiate amounts reported from different sources in this report, we define the term

"EXPENDITURES" as fiscal information derived from ISIS and "PAYMENTS" as information drawn from the other primary sources.

In instances where total Fee-for-Service numbers are stated, this number includes payments made to Magellan for Louisiana Behavioral Health Partnership Fee-for-Service claims. This is done so as to not risk double-counting LBHP FFS payments as Prepaid payments. However, this means that FFS totals which do not include LBHP claims may not add up to the same total payments as those that do.

#### **Enrollee, Recipient and Payment Counts**

To have a complete perspective of enrollees, recipients and payments, all Medicare Buy-ins and Part-D duals data is included in enrollee and recipient counts and payment amounts in reports from SFY 2007/08 forward.

SFY 2014/15 enrollees, recipients and payments data include LaCHIP Affordable Plan (LAP) and Greater New Orleans Community Health Connection (GNOCHC). Reports prior to SFY 2012/13 do not include these two programs due to their data/information not being captured in the regular Medicaid claims processing system.

With respect to Managed Care Shared Savings, MDW claims payments show about \$15 million less than ISIS expenditures due to Shared Savings paid to the health plans which are not reflected in MDW. The Health Insurance Provider Fee paid on behalf of Managed Care Prepaid enrollees also is not reflected in MDW. Therefore ISIS expenditures show \$31.4 million more than MDW payments for Managed Care Prepaid Plans.

In the second and third quarters of SFY 2014/15, lump sum payments were made to the Managed Care Organizations (MCOs) to comply with the requirements of the Affordable Care Act (ACA) for enhanced Primary Care Physician (PCP) rates. These adjustments were made as a result of reconciliations of anticipated MCO expenditures to actual ACA PCP payments made by the MCOs for calendar years 2013 and 2014. These payments were partially offset by recoupments of ACA PCP advance payments which began in SFY 2013/14 but were carried forward into the first quarter of SFY 2014/15.

#### Year in Review

#### **Expenditures**

During SFY 2014/15, Louisiana Medicaid's programmatic expenditures totaled about \$7.8 billion. This amount refers to the final expenditures recorded by ISIS after all financial adjustments have been made such as rebates, Uncompensated Care Costs (UCC) to hospitals, and so forth. It does not include administrative expenditures. Compared to SFY 2013/14, programmatic expenditures increased by \$284.8 million. For a further breakdown of expenditures please see pages 12 and 13.

#### **Payments**

During SFY 2014/15, over \$6.7 billion payments were made on behalf of about 1.4 million Medicaid recipients, averaging about \$4,715 per recipient<sup>i</sup>, which is about 7 percent more than the previous SFY (Figure 1). In this figure the Nominal data shows the dollar amount paid as of that year. The Real data shows the dollar amount adjusted for inflation with SFY 2009/10 as the base period. The Real overall annual payment per recipient was about \$4,087 for SFY 2014/15, which is a 3.9 percent increase from SFY 2013/14, but an 8.4 percent decrease compared to SFY 2009/10. The increase in costs from SFY2013/14 is primarily due to the process of shifting Bayou Health Shared Savings members to Prepaid plans.

Total payments for Louisiana increased by 6 percent between 2014 and 2015 (Figure 2). In comparison, the national growth of payments for the same period was 9.6 percent. Since 2006 Louisiana's total payments have increased by 65.3 percent without adjusting for inflation. This is roughly consistent with the national payment growth of 67.9 percent over the same amount of time.

#### **Enrollees and Recipients**

During SFY 2014/15, 1,485,012 people – about 32 percent of Louisiana's population<sup>ii</sup> of 4,649,676 – were enrolled in the Medicaid program and payments were made on behalf of 1,434,739 recipients (Figure 3). Since the previous year, there has been a 1 percent increase in the percentage of the population enrolled in Medicaid, although total enrollment increased by 4.3 percent in the same time period. The number of recipients increased by 2 percent.

Overall United States Medicaid enrollment increased by 9.2 percent (Figure 4) during SFY 2014/15. The national trend is considerably higher than Louisiana's because it includes the 30 states which expanded their Medicaid eligibility standards to include all individuals whose incomes are less than 133 percent of the federal poverty guidelines per the Affordable Care Act. Louisiana did not opt to expand Medicaid during SFY2014/15.

#### **Medicaid Finances**

#### **Means of Finance**

Medicaid is a means-tested, open-ended entitlement public assistance program established in 1965 by Title XIX of the Social Security Act, often referred to as "Title XIX". Being an entitlement program, the federal and state governments cannot limit the number of eligible people who meet the established criteria and enroll into the various eligibility categories in Medicaid.

The Medicaid program is funded through federal and state funds. The federal share is based on Federal Medical Assistance Percentages (FMAP), which are updated each Federal Fiscal Year (FFY). State FMAPs normally range from 50 percent to 83 percent of program cost based on their latest available three year average Per Capita Personal Income (PCPI) in relation to the national average. During SFY 2014/15, Louisiana's regular blended FMAP was 61.78 percent. However, due to hurricanes/disasters, the effective enhanced disaster FMAP for July 2014 to September 2014 was 62.11 percent, while the regular FMAP for October 2014 to June 2015 was 62.05 percent, causing the states blended FMAP to be 62.06 percent. The federal government also offers an enhanced FMAP for recipients in the State Children's Health Insurance Program (SCHIP). Louisiana's SCHIP program, known as LaCHIP, had a blended enhanced FMAP of 73.25 percent during SFY 2014/15.

#### **Financial Factors**

Being an entitlement program, Medicaid enrollment numbers and corresponding expenditures are impacted by economic and demographic (age, gender, etc.) factors. Examining these factors can help determine enrollment and financial characteristics of the Medicaid population.

The percentage of population living in poverty. defined by the Federal Poverty Guidelines (FPG), influences the level of state population reliant on Medicaid program services. Based on the Current Population Survey's 2013/14 average, 21.15 percent of the Louisiana population was considered living under 100 percent of the FPG, while 42.9 percent were living below 200 percent of the FPG (Table 1). These percentages compare to 14.65 percent and 33.65 percent respectively for the U.S. population, which categorizes Louisiana as a low income state. In comparison to the SFY 2012/13 poverty averages, Louisiana's percentages increased from 20.15 percent and 38.3 percent respectively. About 32 percent of Louisiana's population was enrolled in Medicaid during SFY 2014/15.

In addition to poverty rates, unemployment rates are also a major factor in the state population reliant on Medicaid programs. Since Medicaid serves mostly low-income individuals, an increase in unemployment could result in more people being eligible for Medicaid. Figure 5 shows average unemployment rates in Louisiana compared to the U.S. average over time. After tracking above the national average for two decades, the Louisiana rate started tracking more closely to the national average in SFY 2001/02 and finally dipped below the national rate in SFY 2006/07. This dip below the U.S. average unemployment rate could be attributed to factors such as rebuilding jobs, population changes, etc. due to Hurricanes Katrina and Rita. For SFY 2014/15, Louisiana's average unemployment rate was 6.8 percent, which was higher than the national average unemployment rate of 5.7 percent. Overall, in SFY 2013/14 Louisiana's average unemployment rate increased compared to the previous SFY, while the national unemployment rate decreased.

Table 1: Population Poverty Status for All Income Levels, Average of Calendar Years 2013 and 2014

Poverty Level	Louisiana	United States
≤ 100% of Poverty	21.15%	14.65%
101% to 125% of Poverty	6.50%	4.65%
126% to 138% of Poverty	2.85%	2.55%
139% to 150% of Poverty	2.80%	2.35%
151% to 185% of Poverty	7.05%	6.70%
186% to 200% of Poverty	2.55%	2.75%
Total ≤ 200% of Poverty	42.90%	33.65%
Remainder of Population	57.10%	66.35%

Retrieved from http://www.census.gov/hhes/www/cpstables/032014/pov/pov46\_001.htm and (2015) Current Population Survey, Annual Social and Economic Supplement. Income and Poverty in the United States: 2014. Retrieved from http://www.census.gov/hhes/www/cpstables/032015/pov/pov46\_001.htm

Figure 5: Average Unemployment Rate in Louisiana and the United States by State Fiscal Year

U.S. Department of Labor, Bureau of Labor Statistics. (2014). Not Seasonally Adjusted Unemployment Rate. Series ID: LNU04000000 retrieved from http://data.bls.gov/timeseries/LNU0400000 for United States and LAUST22000000000003 retrieved from http://data.bls.gov/timeseries/LAUST220000000000003 for Louisiana

Louisiana State University (LSU), through the Louisiana Population Data Center, projected the state population for every five years from 2010 to 2030<sup>1</sup>. LSU projected that Louisiana's population will increase on average about 3 percent every five years. In addition to the increase in population, the population age mix is predicted to change greatly. The percentage growth of the 65+ age group is projected to increase while the other age groups are projected to decrease.

The 2015 Louisiana Health Insurance Survey conducted by the LSU Public Policy Research Labii for the Louisiana Department of Health showed that 3.9 percent of Louisiana children (under the age of 19) and 22.8 percent of nonelderly (age 19 to 64) adults were uninsured in 2015. For children under the age of 19, this rate represented a decrease from the 4.4 percent rate in 2013 and was an increase in coverage for around 5,600 children. This is largely due to increased coverage for children under Medicaid and LaCHIP. For the adults age 19 to 64, the uninsured rate represented an increase from the 2013 estimate of 22.0 percent, which was a decrease in coverage for more than 26,000 adults.

#### **Medicaid Expenditures**

As previously stated, the Medicaid program is jointly funded by federal and state funds with

applicable FMAPs. The following discusses how the Louisiana Medicaid Program is funded and where the money is spent.

Medicaid expenditures are grouped into two types, Medical Vendor Program (MVP) and Medical Vendor Administration (MVA). The means of finance for Medicaid MVP expenditures, excluding MVA expenditures is presented in Table 2. For this report, unless otherwise stated, Medicaid numbers include Medicaid Title XIX and LaCHIP Title XXI. Out of \$7.8 billion total MVP expenditures, the effective overall state match rate came to be about 36.9 percent while federal match rate came to be about 63.1 percent for SFY 2014/15. The actual state share of Medicaid expenditures varies based on qualified expenditures, and ranges from 100 percent Federal Funds for items such as HIT (Health Information Technology) Electronic Health Records incentive payments, to 100 percent State Match for Clawback (Medicare Part D) payments.

SFY 2014/15 Medicaid MVP \$7.8 billion expenditures by state appropriation are presented in Table 3. The Private provider program accounts for about 78.9 percent of MVP expenditures. Public provider program represents 2.8 percent, Buy-ins and supplements program represents 5.5 percent, and Uncompensated Care Costs accounts for 12.7 percent of MVP expenditures.

Louisiana State University. Louisiana Population Projections to 2030. Retrieved from http://www.louisiana.gov/Explore/Population Projections/

Barnes, Stephen, Stephanie Virgets, Dek Terrell and Mike Henderson. 2015 Louisiana Health Insurance Survey. (May 2016) Retrieved from <a href="http://new.dhh.louisiana.gov/index.cfm/newsroom/detail/1586">http://new.dhh.louisiana.gov/index.cfm/newsroom/detail/1586</a>

Table 4 presents the MVA \$233 million expenditures. During SFY 2014/15, total Medicaid MVP expenditures were about \$7.8 billion for health

care services delivery. This means that, taking both MVA and MVP into account, about 97 cents of every Medicaid dollar went to MVP.

Table 2: Medical Vendor Program Expenditures Means of Finance by State Fiscal Year

<sup>&</sup>lt;sup>1</sup>For SFY 2014/15 all Managed Care expenditures were placed in the Private Provider category. In previous years Managed Care was under Buy-ins/Supplements.

#### **Major Budget Categories**

The Appropriations Act allocates Medicaid MVP funds into four broad budget programs:

#### A. Private Providers

Payments to non-state owned providers and facilities, including city and parish owned, and Managed Care Organizations.

#### **B. Public Providers**

Payments to state providers and facilities, including certain Local Government Entities and school boards.

# C. Medicare Buy-Ins & Supplements Payments to CMS on behalf of dual eligibles for Part A, Part B and Clawback, and for Electronic

Total	Private Providers	\$6,209,977,512

Health Record (EHR) incentive payments paid to providers that participate in the EHR technology program.

#### D. Uncompensated Care Costs (UCC)

Payments toward compensation for care given in qualifying hospitals to uninsured individuals and those eligible for Medicaid with Medicaid reimbursement lower than the cost of service, and payments for GNOCHC waiver recipients who are otherwise ineligible for Medicaid.

Each of these broad budget appropriations are grouped into separate Budget Categories of Service (BCOS) and are presented in Table 5 along with their respective expenditures. The individual BCOSes are defined in more detail on page 14, grouped by budget program.

#### **Private Providers**

- A\_01. Ambulatory Surgical Clinics: Provides surgical services not requiring hospitalization where expected stay of recipient does not exceed 24 hours.
- **A\_02. Applied Behavioral Analysis:** Provides behavioral therapy to persons under 21 years of age who have been diagnosed with a condition for which ABA-based therapy services are recognized as therapeutically appropriate, including autism spectrum disorder.
- A\_03. Case Management Services: Assists the recipient in prioritizing and defining desired personal outcomes, defining appropriate supports and services, and accessing these supports and services.
- **A\_04. Durable Medical Equipment (DME):** Medically necessary equipment, appliances and supplies. DME providers must obtain prior authorization.
- A\_05. Early and Periodic Screening, Diagnosis and Treatment (EPSDT): The child-specific component of Louisiana Medicaid designed to make health care available and accessible to children. The Health Services component of EPSDT provides evaluation and treatment for children, primarily through school-based and early intervention services providers. The Louisiana screening component of EPSDT provides a framework for routine health, mental health and developmental screening of children from birth to age 21 as well as evaluation and treatment for illness, conditions or disabilities.
- **A\_06. Early Steps:** Louisiana's Early Intervention System that provides services to families with infants and toddlers from birth to three years who have a medical condition likely to result in or have a developmental delay. Services include family support coordination, occupational therapy, physical therapy, speech therapy, psychology and audiology.
- A\_07. Family Planning: Services to female Medicaid recipients for routine family planning services including doctor's visit, counseling, contraceptives, and certain lab services.
- A\_08. Federally Qualified Health Center (FQHC)
  Services: Services provided by a physician or other professional, as well as supplies incidental to the physician or other professional services. Commonly known as community health centers, migrant health centers and health care for the homeless programs. FQHCs must meet federal requirements of the U.S. Department of Health and Human Services (DHHS) prior to Medicaid enrollment.
- A\_09. Hemodialysis Services: Dialysis treatment (including routine laboratory services), medically necessary nonroutine laboratory services and medically necessary injections reimbursed to free-standing End Stage Renal Disease (ESRD) facilities.
- A\_10. Home Health Services: Intermittent or part-time skilled nursing services, personal care services, and physical, occupational and speech therapy services

- provided by a licensed home health agency in accordance with the plan of treatment ordered by a physician. Certain services may require prior authorization.
- **A\_11. Hospice:** Palliative care for the terminally ill patient and support for the family.
- A\_12. Hospital Inpatient Services: Inpatient hospital care and services. Inpatient services must be pre-certified in most instances if provided by an in-state hospital.
- A\_13. Hospital Outpatient Services: Outpatient hospital care and services. Some outpatient services must be prior authorized.
- A\_14. Intermediate Care Facilities for the Developmentally Disabled (ICF/DD) Community Homes: Homes for the long-term care of intellectually disabled recipients.
- A\_15. Laboratory and X-Ray Services: Diagnostic testing performed by an independent laboratory or physician's office.
- A\_16. Long Term Personal Care Services (LT-PCS):
   Optional services for elderly or disabled recipients
   over age 21 who qualify for nursing facility level of
   care. Personal care services are defined as services
   that provide assistance with the Activities of Daily
   Living (ADL) and the Instrumental Activities of Daily
   Living (IADL).
- A\_17. Nursing Facilities: Facilities that provide professional nursing and rehabilitation services on a 24-hours-a-day basis.
- A\_18. PACE Program for All Inclusive Care for the Elderly: A service model that provides health services, as well as in-home supports to individuals who are 55 years of age or older, meet certain qualifications, and choose to participate.
- A\_19. PDHC Pediatric Day Health Care: Facilities that provide professional nursing and rehabilitation services 7 days a week up to 12 hours a day to recipients aged 0 to 21 with medically fragile conditions.
- A\_20. Pharmaceutical Products and Services: Prescription services for prescriptions issued by a licensed physician, podiatrist, certified nurse practitioner or dentist. The net payments of this budget category may show as negative due to rebates from the pharmaceutical manufacturers.
- A\_21. Physician Services: Physician and other professional services, including those of the following professionals: physicians (including specialists), certified registered nurse anesthetists, nurse midwives, nurse practitioners, optometrists and podiatrists.
- A\_22. Rural Health Clinics: Provides physician or other professional services and supplies incidental to the physician or other professional services. Rural health clinics must meet federal requirements of the U.S. DHHS prior to Medicaid enrollment.

A\_23. Transportation - Emergency Ambulance:

Transportation provided by an ambulance for an unforeseen combination of circumstances which demands immediate attention at a medical facility to prevent serious impairment or loss of life. All services are subject to review for medical necessity of ambulance transportation.

A\_24. Transportation – Non-Emergency Ambulance:

Transportation provided by an ambulance in which no other means of transportation is available and/or the recipient is unable to ride in any other type of vehicle. All services are subject to review for medical necessity of ambulance transportation.

- A\_25. Transportation Non-Emergency Non-Ambulance: Nonemergency transportation to and from routine medical appointments.
- A\_26. Waiver<sup>i</sup> Adult Day Health Care (ADHC): Provides supervised care during part of the day to adults 22 years of age or older with disabilities or elders in a licensed day care facility.
- A\_27. Waiver Children's Choice (CC): Provides supplemental support to children from birth through age 18 with developmental disabilities in their homes. Includes support coordination, center-based respite, environmental accessibility adaptations, and family training and family support.
- A\_28. Waiver Community Choices (CCW): Provides services to elderly and disabled adults age 21 and older in their homes as an alternative to nursing home placement. Includes support coordination, personal assistance services, environmental modifications, adult day health care, home delivered meals and household supports.
- A\_29. Waiver New Opportunities (NOW) Developmentally Disabled Community Services: Provides home and community-based care services to individuals, age 3 and older, with developmental disabilities, as an alternative to institutional care. Includes individual/family support, respite, community integration and development, environmental accessibility adaptations, specialized medical equipment and supplies, and others.
- A\_30. Waiver Residential Options (ROW): Allows recipients to utilize the principles of self-determination and supplements the family and/or the community supports that are available to maintain the individual in the community rather than institutional care.

- Includes support coordination, community living supports, companion care, host home, shared living, transitional services and others.
- A\_31. Waiver Supports (SW): Provides focused, individualized vocational services to individuals age 18 and older as an alternative to institutional care. Includes support coordination, day habilitation, prevocational services, respite, habilitation and personal emergency response system.
- A\_32. Other Private Provider Services: Audiology, chiropractic, personal care attendant, physical and occupational therapy, prenatal clinics, psychology, social work and other services not covered above are included here.
- A\_33. Supplemental Payments: Payments that the federal government allows states to reimburse set provider types (hospitals, physicians, graduate medical education, etc.) for certain uncompensated care provided under Medicaid at an amount equal to what Medicare would have paid for the same service.

Figure 6 presents the top 10 private provider programs by Medicaid expenditures, excluding supplemental payments. The top four provider programs—nursing homes, hospital services, New Opportunities Waiver and ICF/DD—together account for 64.47 percent of the private provider expenditures. The top ten private provider programs account for 91.59 percent of private spending.

Figure 6: Top Ten Private Provider Programs by Expenditures All Other\*\* Hospice **Pharmacy** \$56.5 \$297.0 \$105.9 8% 2% 3% Waiver: Community Choice **Nursing** \$109.6 Homes, 3% \$903.9, 26% EPSDT\_ \$193.3 5% LT - PCS\_ Hosp (IP + OP) \$638.8 \$235.4 18% 7% Waiver: ICF/DD **NOW** \$304.0 **Physicians** \$435.7 9% \$259.6 12% Dollars (\$) In 7% **Millions** \*\* All Other excludes \$365.4 million for Supplemental Payments

For more information and statistics concerning waivers, please refer to the HCBS Waivers Section on page 48.

#### **Managed Care Providers**

Managed Care provider programs include the following:

- A\_34. Bayou Health: Per Member Per Month (PMPM) payments for Louisiana Medicaid state plan core benefits and services provided through Medicaid managed care program. Bayou Health Plans are operated by private providers.
- A\_35. Dental Benefit Program: Specialized dental care services for adults and children provided through a system of care managed by Managed Care of North America.
- A\_36. Louisiana Behavioral Health Partnership (LBHP): Specialized behavioral health services provided through a system of care managed by Magellan Health Services for adults and children.

#### **Public Providers**

Payments to the public provider program include:

- B\_01. LSU Facilities: The LSU Medical Facilities have been transitioned to Private-Public Partnerships with the exception of Lallie Kemp Medical Center (Independence), which was still publically operated as of SFY 2014/15.
- B\_02. LSU Physicians: Services through LSU-related providers which are not associated with LSU hospitals or distinct part psychiatric units. These may include clinics, professional services, lab work, etc.
- B\_03. LDH State Developmentally Disabled (DD) Facilities: State-operated homes for developmentally disabled recipients, includes Special School District #1.
- B\_04. LDH Villa Feliciana Nursing Home: Stateoperated facility that provides professional nursing and rehabilitation services provided on a 24-hour basis at Villa Feliciana Medical Complex.
- **B\_05. LDH Office of Public Health:** Provides preventive health services and screenings through community health programs.
- B\_06. LDH Office of Behavioral Health: Provides services and supports for individuals with mental illness and addictive disorders.
- B\_07. LDH Human Services Districts: Regional entities that provide resources and programs for community support and rehabilitation such as supported living,

- support coordination, and vocational and rehabilitation services. The available programs vary by region.
- **B\_08. State Education:** Louisiana Special Education Center and Louisiana School for the Deaf.
- B\_09. Local Education Agencies for School Based Health Services: Services provided by local education agencies including physical therapy, occupational therapy, speech language therapy, audiology services, behavioral health services and nursing services

#### **Buy-Ins and Supplements**

- C\_01. Medicare Premiums and Supplements: Permits the state, as part of its total assistance plan, to provide medical insurance protection to designated categories of needy individuals who are eligible for Medicaid and also meet the Medicare eligibility requirements.
- C\_02. Part-D Clawback: Mandatory state dollars paid to the federal government beginning in January 2006 to help finance Medicare prescription drug coverage offered under Medicare Part-D for dual eligibles. The amount a state must pay depends on set guidelines the federal government has established under the Medicare Modernization Act of 2003 (MMA).
- C\_03. Health Information Technology (HIT) Electronic Health Records: Incentive payments paid to eligible medical professionals and hospitals for adopting, implementing or upgrading certified EHR technology.

#### **Uncompensated Care Costs**

The following receive UCC payments:

- D\_01. LSU Facilities: Health Care Services Division (For included hospitals refer to number B\_01 under 'public providers').
- D\_02. LDH Office of Behavioral Health
- D\_03. Qualifying Private Hospitals
- D\_04. Greater New Orleans Community Health Connection (GNOCHC): An 1115 Waiver established to provide primary and behavioral health services to those that live in the Greater New Orleans Area who are otherwise ineligible for Medicaid.

#### **Medicaid Enrollment**

Medicaid provides funding for health care to individuals and families who meet the eligibility criteria established by the state and approved by CMS. This report provides an overview of Louisiana Medicaid eligibility. For further details about the Louisiana Medicaid Program please visit our website at <a href="https://www.medicaid.dhh.louisiana.gov">www.medicaid.dhh.louisiana.gov</a>. The Medicaid Eligibility Manual is available online at <a href="https://bhsfweb.dhh.la.gov/onlinemanualspublic/">https://bhsfweb.dhh.la.gov/onlinemanualspublic/</a>. Information is also available when calling the toll-free line at 1-888-342-6207 or 1-877-252-2447.

#### Eligibility Requirements and the Enrollment Process

Medicaid is an entitlement program that pays for health care on behalf of those who meet the established criteria and are enrolled. Louisiana is a Section 1634 state, which means that all individuals who receive Supplemental Security Income (SSI) are automatically enrolled in Medicaid. In addition, families who get financial assistance from the Economic Stability Office (ESO) through Louisiana's Temporary Aid to Needy Families (TANF) program, also known as Family Independence Temporary Assistance Program (FITAP), are Medicaid eligible.

For an individual or family who does not get SSI or FITAP (TANF), the eligibility process begins with the completion of a Medicaid application form. Either the prospective beneficiary or an authorized representative may apply online, by mail, at a local Medicaid office or at a Medicaid Application Center. A face-to-face interview is not required. Contact information for local offices is listed on pages i and 89.

Individuals who are not automatically eligible and apply for Medicaid must meet all of the eligibility requirements of one or more programs. An overview of the Medicaid programs offered in Louisiana is presented in Table 7 on pages 19 and 20 of this document.

Each state sets an income limit within federal guidelines for Medicaid eligibility groups and determines what income counts toward that limit. Part of the financial qualification for Medicaid is based upon the family size and relation of monthly income to the Federal Poverty Guidelines (FPG). Federal Poverty Guidelines are legislated by the federal government regarding what is considered the poverty level standard of living. Table 6 shows 2015 Federal Poverty Guidelines, with annual and monthly incomes according to family size. For example, a four person family was considered living

at 100 percent of FPG if the household income was \$24,250 annually (\$2,021 per month) and at 200 percent of FPG if the household income was \$48,500 annually (\$4,042 per month).

Figure 7 summarizes income requirements for many of the Medicaid programs. The major qualifying categories are listed along the bottom of the chart. Along the left axis of the chart is income as a percentage of the FPG. As shown in the eligibility chart, maximum income levels for different groupings of eligibility, such as age, disability and parental status, allow access to the Medicaid program depending upon the group in which the individual falls. While most eligibility categories allow access to the full array of Medicaid services, the individual's economic and medical circumstances may assign an enrollee to a more limited set of benefits. Table 7 includes a listing and description of the programs that make up the five major eligibility groupings:

- 1. Children (under age 19),
- **2. Families** (Parents/Caretaker Relatives and Children),
- **3. Women** (Pregnant and Breast or Cervical Cancer).
- 4. Aged (age 65 or older), Blind (corrected vision no better than 20/200) and Disabled (meet Social Security Administration's (SSA) disability criteria and have a physical or mental condition that is expected to prevent employment for a period of 12 consecutive months or that will result in death), and
- 5. Other

Eliqibility determination is a federally approved process which is operated in the same manner throughout the state. In Louisiana, caseworkers in each of the nine regions of the Department of Health determine an individual's eligibility for Medicaid in accordance with standardized written policy. Processing times for applications vary depending on the coverage group and program under consideration, the amount of information the person is able to provide and how quickly all needed information is made available to Medicaid staff. Eligibility can be retroactive up to three months prior to the date of application. Eligibility is reviewed annually for most cases but more often in some programs. Decisions must be made within 45 days (90 days if a disability determination by the agency is required) from the date of application in most cases. Eligible individuals and families enrolled in the Louisiana Medicaid Program are issued a Medicaid identification card.

Table 7: Louisiana Medicaid Coverage Groups and Income Eligibility Requirements by Program

Tab		Coverage Groups and Income Eligibility	
	Program	Description	Income Limit
	A1. SSI-PSP (Section 4913)	Individuals under age 18 denied SSI cash because of a change in the definition of childhood disability	74% of poverty (+\$20); Assets limit: \$2,000 for individual
		Ages 0 to 5	142% of poverty; No assets test
n.	A2. CHAMP – Low Income Children	Ages 6 to 18 (through 19 <sup>th</sup> birthday). Individuals receive an enhanced LaCHIP rate	142% of poverty; No assets test
Children	A3. LaCHIP (Title XXI)	Ages 0 to 5	> 142% and up to 212% of poverty; No assets test
Ch	A3. Lachir (Title XXI)	Ages 6 to 18 (through 19th birthday)	> 108% and up to 212% of poverty; No assets test
A.	A4. LaCHIP Affordable Plan (LAP)	Ages 0 to 18 (through 19th birthday)	> 212% and up to 250% of poverty; Some cost sharing involved; No assets test
	A5. Deemed Eligible Child	Age 0 (through first birthday)	Infants born to Medicaid eligible pregnant women
	A6. CWO Children	Children under age 18 in Foster Care programs through the Department of Children & Family Services' Child Welfare Office (CWO)	Eligibility determined by the Child Welfare Office
ldren	B1. Parent/Caretaker Relative Group (PCR)	Parent/Caretaker relative who lives with a dependent child	19% of poverty; No assets test
ts and Children	B2. MAGI – Related Medically Needy	Children and families who have income below regular Medically Needy income standards and are ineligible for other MAGI-related groups	15% of poverty (individuals and couples); No assets test
s - Parents	B3. MAGI – Related Spend down Medically Needy	Children and families who have more income than allowed but qualify once the amount spent on medical expenses is considered	No Limit. All income over 15% of poverty considered available to meet medical expenses for quarter; No assets test
Families	B4. Temporary Aid for Needy Families (TANF) Recipients	Recipients of cash assistance as determined by the Department of Children & Family Services	15% of poverty; Assets limit: \$2,000
B.	B5. Transitional Medicaid	Continues coverage for families who lost PCR or TANF eligibility because of an increase in earnings	No limit for first six months and 185% of poverty for coverage in seventh through twelfth month of transitional eligibility period; No assets test
	C1. CHAMP/LaMOMS - Pregnant Woman	Covers each month of pregnancy and 2-month postpartum period	133% of poverty; No assets test
. Women	C2. LaCHIP IV (Title XXI)	Covers conception to birth for low- income, pregnant mothers who are not otherwise eligible for Medicaid regardless of citizenship	209% of poverty; No assets test
	C4. Breast and Cervical Cancer	Women under 65 diagnosed with breast or cervical cancer, in a precancerous condition or early stage cancer	200% of poverty; No assets test
isabled	D1. Disabled Adult Child (DAC)	Individuals over age 18 who become blind or disabled before age 22, and lost SSI eligibility on or after 7/1/87, as a result of entitlement to or increase in Social Security Administration Child Insurance Benefits	Social Security benefits are disregarded in determining countable income with limit 74% of poverty (+\$20); Assets limit: \$2,000 individual and \$3,000 couple
Blind and Di	D2. Disabled Widows/Widowers	Disabled individuals who lost SSI because of the 1984 Social Security Widow's/er's re-computation	Social Security 1984 Widow's/er's adjustment is disregarded in determining countable income with limit 74% of poverty (+\$20); Assets limit: \$2,000 individual and \$3,000 couple
Aged, B	D3. SSI Recipients	Aged and/or disabled individuals receiving SSI cash payments as determined by SSA	74% of poverty (+\$20); Assets limit: \$2,000 individual and \$3,000 couple
D.	D4. SGA Disabled Widows/Widowers / Surviving Divorced Spouse	Individuals who are not entitled to Medicare Part A and lost SSI because of receipt of Social Security Disabled Widow's/er's benefits	All cost of living raises and Social Security Disabled Widow's/er's benefits are disregarded in determining countable income with 74% of poverty (+\$20); Assets limit: \$2,000 individual and \$3,000 couple

E1. TB infected  Persons who have been diagnosed as, or are suspected of being infected with tuberculosis  155% of poverty; No assets test	
E2. Greater New Orleans Community Health Connection (GNOCHC)  Individuals age 19 to 64 who are residents of Greater New Orleans Area and are uninsured; eligible for a limited set of services  Coverage of illegal/undocumented aliens and	
E3. Emergency Services for Illegal/Ineligible Aliens  Coverage of illegal/undocumented aliens and documented aliens under the Medicaid 5-year bar for life-threatening emergency situations and labor/delivery of newborns  Coverage of illegal/undocumented aliens and documented aliens and labor/delivery of newborns  Must meet all requirements of another except for U.S. citizenship	r Medicaid program
E4. Youth Aging Out of Foster Care Individuals age 18 to 21 released from the Foster Care program due to turning age 18  No income or assets test	
E5. Louisiana Behavioral Health Partnership Adults  Individuals age 19 and older meeting categorical requirement and a behavioral health level of need but not otherwise eligible for Medicaid; coverage limited to certain behavioral health services  Individuals age 19 and older meeting categorical requirement and a behavioral health expenses exceed any income over 15 assets test	
E6. Former Foster Children  Individuals age 18 to 26 released from the Foster Care program due to turning age 18  No income or assets test	
Women and men of any age for family  123% of poverty: No constants	

#### **Enrollment Statistics**

Before presenting the statistical data, it is important to establish the difference between the terms Medicaid eligible, enrollee and recipient used in this report. These terms can seem interchangeable, but technically, especially in this report, they are not.

A 'Medicaid eligible' is a person who fits the established eligibility criteria of the program, whether or not the person applied for Medicaid.

On the other hand, a 'Medicaid enrollee' is a Medicaid eligible person who applied for and was approved by the Medicaid program to receive benefits regardless of whether he or she received any service and/or any claims were filed on his or her behalf.

Finally, a 'Medicaid recipient' is an enrollee with at least one processed claim during the time period involved, in this case during SFY 2014/15 (July 1, 2014 to June 30, 2015), whether or not he or she was enrolled on the date the claim was paid, but was enrolled at the time the service for the claim was provided, as well as any person with Medicare Buy-in and Part-D premiums paid on his or her behalf. For example, there may be a processed claim during this particular period for services that were provided in a prior period for an individual though his or her eligibility ended before this SFY.

In regards to data, in some categories (e.g. within a parish) the number of recipients reported may exceed the number of enrollees for two main reasons. Firstly, an enrollee's case may have closed before SFY 2014/15 but a claim was paid on his or her behalf during SFY 2014/15. Thus, when a claim was paid in SFY 2014/15 for a person who received a service before SFY 2014/15, she or he will be counted as a recipient in SFY 2014/15 although this person is no longer eligible for Medicaid in SFY 2014/15. Secondly, providers may delay the submission of claims for many months. Medicaid's timely filing rule gives providers up to one year to

submit a claim and up to two years for payment of the timely filed claim. Thus, it is possible for a claim paid in SFY 2014/15 to be for a service rendered before SFY 2014/15. The payment could, therefore, occur long after the person identified as the recipient on the claim has left the program and is no longer an enrollee.

There are many ways to interpret enrollment under Medicaid, which will be discussed in the following sections.

#### Percentage of the Population

The percentage of the population enrolled in Louisiana Medicaid has consistently increased through the years (Table 8). During SFY 2014/15, 31.9 percent of Louisianans were enrolled in Medicaid.

Table 1 in Appendix A (Table AA1) presents total population, enrollees, percentage of the population enrolled in Medicaid, recipients, payments and payments per recipient by parish during SFY 2014/15. Parishes with low income per capita<sup>i</sup> seem to have large percentages of Medicaid enrollment, especially in the Northeast region with Caldwell, East Carroll, Franklin, Madison, Morehouse, Richland, Tensas and West Carroll all having 40 percent or more of their population enrolled in Medicaid, along with the parishes of Avoyelles. Bienville, Catahoula, Concordia, Evangeline, Orleans, Red River, St. Bernard, St. Landry, Tangipahoa and Washington, as shown in the map (Figure 8). Cameron Parish had the smallest percentage of Medicaid enrolled with only 11% of the parish's population enrolled in Medicaid. East Baton Rouge Parish had the highest payments paid on behalf of their recipients at about \$614 million. while Cameron Parish had the least amount paid on behalf of their recipients at about \$2 million.

Tables AA2 and AA3 show population, enrollment, recipients and payment in each parish by race. The "Other" column includes individuals of two or more races as well as white and non-white Hispanics.

Table 8: Enrollment, Population and Percentage of Population Enrolled by State Fiscal Year

SFY	Population Estimate <sup>1</sup>	Medicaid Enrollment <sup>2</sup>	Percent of Population Enrolled
2009/10	4,491,648	1,307,952	29.1%
2010/11	4,544,125	1,346,504	29.6%
2011/12	4,574,766	1,362,410	29.7%
2012/13	4,601,893	1,414,370	30.7%

Figure 8: Percentage of Population Enrolled in Medicaid by Parish

Table 9 presents total population, enrollees, percentage of population enrolled, recipients. payments and payments per recipient by region during SFY 2014/15. The Greater New Orleans Area and Northeast Louisiana both had 37 percent of their population enrolled in Medicaid, the highest numbers in the state. The Capital Area and Northshore had the smallest percentage of population enrolled in Medicaid at 29 percent. The Greater New Orleans Area had the highest payments paid on behalf of their recipients at

about \$1.2 billion, while Southwest Louisiana had the least amount paid on behalf of their recipients at about \$401 million. South Central Louisiana had the lowest average rate of payments per recipient at \$4,003, while the highest ratio was in Central Louisiana with \$6,225 per recipient. Figure 9 shows more detail in the payments per recipient by parish. Tables 10 through 12 break down regional payments, enrollees and recipients by race and gender.

#### Age, Gender and Race

The breakdown of enrollees by age groups (Tables 13 through 16 and Figure 10) shows that the majority of enrollees are children, with those aged 20 and under making up 57.6 percent of the total. Those between the ages 21 and 64 comprised 34.2 percent of the enrolled population and those 65 and over made up the smallest component at 8.2 percent. Also, as expected, statistics reveal that certain age groups absorb more costs than others. The reason for the difference is the medical needs of these age groups tend to require more expensive services.

Overall there are more females than males enrolled in Medicaid (Figure 11). Though children age 18 and under are almost evenly split between female and male, for enrollees of ages 19 and above, women comprised about 70 percent of enrollment. This can probably be explained by the pregnant women programs, disproportionate number of female parents in very low income households, and longer life expectancy of females. These trends are true of all racial groups.

#### **Basis of Eligibility**

During SFY 2014/15, there were 1,485,012 total unduplicated Medicaid enrollees. All enrollees are placed into one of four Basis of Eligibility (BOE) categories depending on age or disability status. Based on total payments by BOE, children and adults together made up only 36 percent of Medicaid payments (Figure 12). Conversely, the elderly

category and disabled category collectively accounted for 64 percent of payments. This is very different from what we see in the enrollment numbers. Children are the group with the highest enrollment, at 53 percent of the total (Figure 13). 23 percent were adults, 16 percent were disabled and 8 percent were elderly.

Tables 17 through 19 present BOE by race and gender. Table 18 shows the payments for each BOE by race and gender. The highest portion of payments went to disability with \$3,012,448,778, while the lowest went to adults with \$773,287,628, despite both having similar numbers of recipients.

Children account for the highest number of enrollees and recipients in the Medicaid program, with 804,788 in SFY 2014/15, more than the other three categories combined. Payments for children totaled \$1,702,247,390.

<sup>&</sup>lt;sup>1</sup> Enrollee and recipient counts may not sum to the total due to movement between BOE categories during the SFY; the figures are **unduplicated** for each BOE, while numbers are **unduplicated** for total enrollee and recipient count.

Enrollment data for the last two state fiscal years by Basis of Eligibility (BOE) are presented in Table 20. Monthly and SFY total enrollment numbers are unduplicated for their respective periods of time. All

categories except Disabled saw their enrollment numbers increase in SFY 2014/15. The highest increase was in the Adults category. Overall enrollment increased by 4.3 percent.

#### **Recipients Ranked by Payments**

Medicaid provides health care coverage to elderly, disabled and low income families. Since Medicaid is an entitlement program, Louisiana cannot limit the number of enrollees in Medicaid, nor can they be selective in who is allowed to get services as long as the Medicaid eligibility requirements are met. Figure 14 shows the percentage of payments and recipients ranked by payments. The vast majority of recipients only require minimal services. A few patients with intensive care needs account for a disproportionate amount of payments. During SFY 2014/15, of all Medicaid recipients, only 3 percent of all recipients accounted for 38 percent of all payments.

Based on the cumulative numbers in Figure 14, the cumulative top 50 percent of recipients accounted

for about 90 percent of total payments, while the least expensive recipients, the other 50 percent, only made up about 10 percent of total payments. Table 21 breaks down the top 3 percent of recipients based on their top 10 type cases. The majority of payments on behalf of this group go to Long-Term Care (LTC) or waiver services.

Table 22 presents the number of recipients and payments based on payment group. The top payment group consists of 3 recipients, each of whom had over \$1 million in payments made on their behalf. The bottom payment group consists of 326,321 recipients, each of whom had less than \$1,000 in payments made on their behalf. The total payments for the top payment group was \$3,848,838 and the total for the bottom payment group was \$142,040,861.

Long-Term Care (LTC) accounts for by far the largest share of payments in the top ten type cases. Figure 15 breaks down the Medicaid Long-Term Care (LTC) recipient percentages ranked by payment. LTC services provide Medicaid support and long-term care support to eligible people who, because of their medical conditions, require assistance with activities of daily living. In SFY 2014/15, the top 3 percent of LTC patients

accounted for 13 percent of the total payments. The cumulative top 50 percent of recipients accounted for 82 percent of all LTC payments, while the lower 50 percent only accounted for 18 percent. LTC payments made up 12 percent of total Medicaid payments. Table 23 breaks down the recipients and payments by payment group for LTC-related services only.

## **Bayou Health**

In February 2012, Louisiana Medicaid initiated its transition from its legacy fee-for-service program to a managed health care delivery system that offers medical services to many Louisiana Medicaid enrollees. Louisiana's Medicaid program was originally set up with little to no coordination. uneven quality of care, inequitable access to care and unpredictable costs. The Bayou Health program was implemented in an effort to improve health outcomes for Louisiana's Medicaid population eligible to enroll in a health plan, while improving budget predictability. Initially, Bayou Health consisted of two programs based on plan type: Shared Savings, an enhanced primary care management program, and Prepaid, a full riskbearing capitation program. Beginning February 2015, Bayou Health was reorganized, and now includes only Prepaid plans.

Shared Savings plans coordinated the health care needs of their enrolled members in exchange for a monthly management fee, but did not cover the cost of members' health care. Prepaid plans are risk-bearing entities that provide, at a minimum, Medicaid-covered benefits and services to enrolled members in exchange for a monthly capitation payment for each member. While all core benefits and services are maintained in all plans, each plan offered a different package of enhanced benefits such as eyeglasses or preventive dental care for adults.

Effective February 1, 2015, Bayou Health plans now must cover community hospice care and services, in-home personal care for children under 21 years of age and non-emergency medical transportation. Bayou Health services have also been made available to children under 21 who are waiting to receive home and community-based services, members receiving community hospice

care, and recipients of 1915(c) home and community-based service waivers for acute care. These new populations are not required to join a Bayou Health plan, but may choose to opt-in.

Frequently asked questions regarding Bayou Health are addressed through a series of informational bulletins on the Making Medicaid Better website, <a href="https://www.makingmedicaidbetter.com">www.makingmedicaidbetter.com</a> and also plan comparisons can be found on the Bayou Health website, <a href="https://www.bayouhealth.com">www.bayouhealth.com</a>.

In Appendix A, tables AA4 and AA5 present the payments made to the Bayou Health Plans and the number of recipients by parish. During SFY 2014/15, Bayou Health total payments were \$2,157,451,169 which consist of \$2,119,713,396 paid to Prepaid Plans (as PMPMs) on behalf of 1,075,778 recipients and \$37,737,774 paid to Shared Savings Plans for the management of 528,812 recipients. Since many of the recipients in Shared Plans were shifted to Prepaid Plans mid-year, the unduplicated total Bayou Health recipients may not equal the sum of the individual totals. Tables AA6 through AA9 show the Prepaid and Shared Savings payments and recipients by parish, race and gender. Note that some Bayou Health recipients may also receive services through Dental Benefits, LBHP or Fee for Service programs.

Tables 24 through 27 show the payments and recipients broken down by payment type as well as Age, Race and Gender. Tables 28 through 31 further break down individual plans by payment type, Age, Race and Gender. Figure 16 shows the proportion of payments made on behalf of each Prepaid and Shared Savings plan. 98 percent of total Bayou Health payments in 2014/15 went to Prepaid plans.

## **Prepaid Categories of Assistance**

Bayou Health Prepaid enrollees are grouped into the following categories of assistance (CoA) for payment purposes:

# Supplemental Security Income (SSI)-related seniors and people with disabilities

SSI includes individuals who are aged 65 and above as well as individuals of any age with disabilities.

#### **Breast and Cervical Cancer**

Includes uninsured women who have already been diagnosed by a Centers for Disease Control and Prevention (CDC)-approved screening entity with breast or cervical cancer or a precancerous condition and who are not otherwise eligible for Medicaid.

## **Home and Community Based Services**

Includes individuals under age 21 who require inhome personal care, community hospice care, Chisholm recipients and individuals who receive Home and Community Based Services (HCBS) waivers for acute care and have opted to join a managed health program.

#### **Families and Children**

The Families and Children group includes children and teens under the age of 19 whose basis of Medicaid or CHIP eligibility is age, as well as their parents/caregivers. It also includes pregnant women whose sole basis of eligibility for Medicaid is pregnancy. This group does not include children who are eligible based on disability.

#### **Foster Children**

Foster Children are those who receive 24-hour substitute care from someone other than their parents or guardians and for whom the Department of Children and Family Services has responsibility for placement and care.

### LaCHIP Affordable Plan (LAP)

The LaCHIP Affordable Plan group includes children and youth under the age of 19 with incomes over the limit of 212 percent of FPG for regular CHIP enrollment but with incomes lower than 250 percent of FPG. Families pay a monthly premium of \$50.

#### **Maternity Kick Payments**

Maternity Kick Payments are one-time payments made to the MCOs for each obstetrical delivery. This payment is intended to cover prenatal care, delivery, post-partum care, and normal newborn hospital costs.

## **Shared Savings Eligibility Groups**

Shared Savings Plan enrollees were divided into two groups for rate purposes. The Families and Children group covered parents and children whose basis of eligibility is not disability or pregnancy. Bayou Health plans received a management fee of \$10.24 per-member permonth for enrollees of this group. Supplemental Security Income covered individuals with disabilities, including children, and pregnant women whose sole basis of eligibility is pregnancy. For this group, plans received a management fee of \$15.74 per-member permonth.

Tables AA10 and AA11 show the payments and recipients by parish and category of assistance or eligibility group. Figures 17 through 20 show the proportion of each category of assistance or eligibility group within the plan types. In the Prepaid CoA tables and figures, the Family & Children category also includes Foster Children and LAP.

# **Louisiana Behavioral Health Partnership**

To address the behavioral health needs of Louisiana citizens, Medicaid implemented the Louisiana Behavioral Health Partnership (LBHP) in March 2012. LBHP delivers and finances behavioral health services for Louisiana's children and adults through a fully integrated managed care system which draws on the strengths of the private, public and non-profit sectors.

LBHP involves multiple agencies that have historically shared in the delivery of behavioral health services to the citizens of Louisiana. It is operated by a contract through Magellan Health Services, Inc., the selected Statewide Management Organization (SMO). LBHP includes a comprehensive array of rehabilitative behavioral health services and a full continuum of care intended to meet the needs of both children and adults. Through better coordination of services, LBHP is designed to increase access to community-based services, improve quality of care and health outcomes, and reduce unnecessary utilization of crisis-driven services such as emergency departments, hospitalizations, out-of-home placements, and institutionalizations.

LBHP is designed to serve the needs of individuals who comprise one of the following two target populations: (1) Medicaid-eligible individuals consisting of a) children with extensive behavioral health needs either in or at-risk of out-of-home placement, b) children with medically necessary behavioral health needs who need coordinated care, and c) adults with severe mental illness and/or addictive disorders; and (2) non-Medicaid children and adults who have severe mental illness and/or addictive disorders (not included in the following data). LBHP operates under an at-risk capitation contract to cover adults on a Per Member Per Month

(PMPM) basis, with the exception of the Spenddown Medically Needy group. The children's and Spend-down Medically Needy populations have been administrated on a non-risk basis by Magellan and paid to Magellan as Fee for Service (FFS).

Within the LBHP, the Coordinated System of Care (CSoC) is a specialized program for children and youth with the most complex behavioral health needs who are in or most at risk of out-of-home placement. CSoC offers a comprehensive array of intensive services with the goal of enabling these children to remain in or return to their homes and communities. Wraparound Agencies (WAAs) provide individualized care planning and management through Child and Family Teams (CFTs), which are charged with the development of the plan of care. Family Support Organizations (FSOs) also have been formed to provide both parent and youth support and training.

LBHP has made major strides to expand access to services and served a total of 436,964 recipients in SFY 2014/15 (30.8 percent of Medicaid recipients). Of these, 87,972 were children (10.5 percent of Medicaid children). 350,199 adults were covered through PMPMs and 603 adults were covered through FFS for a total of 350,802 (59.9 percent of Medicaid adults). Top ten provider types of LBHP Children's claims payments are presented in Table 32. Table AA12 shows the parish data for LBHP Children and Adult claims payments along with the respective recipients for SFY 2014/15. Table AA13 shows total FFS, Adult Prepaid, and overall total payments and recipients by parish. Tables AA14 and AA15 show parish payments and recipients by payment group. Tables AA16 through AA19 further break down PMPM and FFS payments and recipients by parish, race and gender.

Table 32: LBHP Children Payments, Number of Providers and Recipients<sup>1</sup> by Top Ten Provider Types Based on Payments

Provider Type	Providers	Recipients	Payments
Mental Health Rehabilitation	104	26,773	\$104,262,711

Psychiatric Residential Treatment Facility	4	308	5,945,962
Licensed Clinical Social Worker	159	7,798	4,898,991
Other	524	32,253	18,834,368
Total	2,038	87,371	\$269,720,082

<sup>&</sup>lt;sup>1</sup> Provider type recipient counts may not add up to the state totals due to recipients receiving services from multiple provider types throughout the SFY. Total counts are **unduplicated** for the entire state, while other numbers are **unduplicated** for each provider type.

## **Dental Benefits Program**

Louisiana Medicaid contracts with Managed Care of North America (MCNA) to provide dental benefits for Medicaid enrollees under the Dental Benefits Program (DBP). The DBP began to coordinate dental care for Medicaid recipients in July 2014. In its first year the program covered 1,196,756 recipients for a total of \$149 million.

The Dental Benefits Program recipients include children in EPSDT, the LaCHIP Affordable Plan (LAP) and adults. Children under the DBP receive preventive and diagnostic services such as regular exams and sealants as well as therapeutic services to treat dental medical problems. Adults receive denture services and comprehensive oral exams. All individuals except ICF/DD recipients who are eligible for full Medicaid benefits are eligible for the Dental Benefits Program. ICF/DD recipients receive dental care as a part of their per diem rate.

Children under the age of 21 account for the majority of payments to the Dental Benefits Program (Table 33). \$144 million of all \$149 million payments made through the DBP went to children's services. However, the payments for children are generally more per recipient than those for adults. Adults make up roughly 30 percent of all recipients of DBP services. (Table 34).

There are three payment groups in the DBP: Adult Dentures, EPSDT and LAP. (Table AA20) The majority of payments and recipients are in EPSDT, with \$144,322,950 in payments on behalf of 839,049 recipients. Adult Dentures made \$5,528,914 in payments for 360,825 recipients. LaCHIP is the smallest group with only \$452,184 payments to 4,132 recipients. Table AA21 breaks down DBP payments by Parish, Race and Gender, and Table AA22 does the same for recipients.

## **Medicaid Fee for Service Programs**

#### **Medicaid Data**

Medicaid data can be presented either by "Date of Payment" or "Date of Service," in which results may differ based on the methodology employed. The difference between the two types of methodologies is given below.

- "Date of Payment" (DOP): Reported data, such as payments, services, recipients, etc., reflects claims that are paid during the period (July 2014 to June 2015) irrespective of the time the services were provided. Some of the payments made during this time period may be for services provided in the previous SFY. DOP is typically used for budget and financial analysis and is also known as "cash basis accounting."
- "Date of Service" (DOS): Reported data reflects the services provided during the period irrespective of the time payments were paid. Services may be provided during this particular period but payments may be paid during a subsequent period, say after one year. DOS is typically used for clinical/policy interventions and is also known as "accrual accounting."

Both approaches are valid and examine similar data, but each has a specific function in terms of analyzing results. Because they are set in different time frames, the analytical results may be different and the disparity may simply be that the data sets are obtained using different underlying methodologies.

In general, most of the Medicaid budgetary/financial statistics that are published are based on "Date of Payment"; therefore, most of the data in this report is presented on DOP methodology unless otherwise stated.

## **Medicaid Programs**

The Louisiana Medicaid Program serves a wide range of the population, from children to pregnant women to persons with disabilities. This section will describe some of the Medicaid programs offered in Louisiana and will provide some statistical data.

Information in this document is general in regards to Medicaid programs. For detailed information about Louisiana Medicaid Programs please visit our website, <a href="www.medicaid.dhh.louisiana.gov">www.medicaid.dhh.louisiana.gov</a>, or call the toll free Medicaid Customer Service line at 1-888-342-6207.

#### **Applied Behavioral Analysis**

Applied Behavioral Analysis (ABA) services were made available through Medicaid in 2014. SFY 2014/15 was the first full fiscal year that ABA was available. The program provides communitybased behavioral and psychological services to individuals under 21 years old who have been diagnosed with a condition for which ABA services are considered appropriate, such as autism spectrum disorders. ABA services are highly specialized intervention programs which improve socially significant behavior in patients. Prior authorization by a physician or appropriate specialist must be obtained for any service deemed medically necessary. In 2014/15 a total of \$4,779,915 in payments were provided on behalf of 438 recipients. Table 35 shows recipient age as compared to payments.

Table 35: Applied Behavior Analysis Payments and Recipients by Age<sup>1</sup>

recipionic by rigo								
Age	Payments	Recipients						
18 - 36 months	\$1,211,662	109						
37 - 48 months	841,139	92						
5 - 6 years	1,022,829	111						
7 - 12 years	1,157,330	147						
13 - 17 years	421,377	49						
18+	125,579	11						
Total	\$4,779,915	438						

<sup>1</sup>Due to movement between programs recipient counts may not add up to total number of recipients. Recipient counts are distinct and unduplicated for their given categories.

### **Family Opportunity Act**

The Family Opportunity Act (FOA) Medicaid Buy-In Program was created through the Federal Deficit Reduction Act (DRA) of 2005. The program grants Medicaid access to children through age 18 for families up to 300 percent FPG who have a disability and are ineligible for Supplemental Security Income (SSI), Medicaid or LaCHIP because of parent income or private health insurance. Some cost sharing is associated with FOA through monthly premiums. The program offers full Medicaid benefits, though most of FOA enrollees have other health care coverage and only use the Medicaid coverage for wrap-around of services and benefits not covered through their private plan. FOA enrollees are required to keep employer sponsored insurance if the employer is paying at least 50 percent of the total annual premium. During SFY 2014/15, a total of \$88,491 was collected in premiums charged to these families for their children's coverage and \$5,452,099 in payments were made on behalf of 953 recipients.

### **Take Charge Plus**

The Take Charge waiver program was replaced with the Take Charge Plus state plan in July 2014.

Under the new state plan women and men of any age with an income at or below 138 percent of the poverty level are eligible to receive family planning services. These services include education and counseling, contraceptive medication and supplies, sexually transmitted infection (STI) screening and treatment, voluntary sterilization procedures and yearly physical exams. In SFY 2014/15, a total of \$9,290,671 was paid on behalf of 41,631 Take Charge Plus recipients.

#### **GNOCHC**

Beginning in October 2010, Louisiana Medicaid implemented the Greater New Orleans Community Health Connection (GNOCHC) Waiver which is a 1115 Waiver Program that aims to provide primary care and behavioral health services to a population ineligible for existing Medicaid programs. The service area encompasses the Greater New Orleans area, which is still in the process of rebuilding its medical care capabilities in the wake of Hurricane Katrina. In addition to extending medical services to area residents, GNOCHC helps to ensure that access to medical care is readily available by working with its provider base while ensuring that they have the funds needed to continue and expand their business practices. Finally, by sustaining a means to obtain primary care, GNOCHC hopes to reduce the amount of unnecessary ER visits. A total of \$14,834,468 was paid on behalf of 24,186 GNOCHC recipients during SFY 2014/15.

#### **LaMOMS Program**

The Medicaid program for pregnant women was renamed LaMOMS in 2003. The LaMOMS program increases access to pre-natal care, to improve birth outcomes and to ultimately reduce the state's infant mortality rate. Medicaid pays for pregnancy-related services, delivery and care up to 60 days after the pregnancy ends, including doctor visits, lab work, lab tests, prescriptions and hospital care. LaMOMS covers women with an income of up to 138 percent FPG. The program provided payments of \$271,781,415 to 80,969 recipients in SFY 2014/15.

# Louisiana Children's Health Insurance Program

Louisiana Children's Health Insurance Program (LaCHIP) is Louisiana's version of the federal State Children's Health Insurance Program (SCHIP) authorized by Title XXI of the Social Security Act. LaCHIP enrollees have the same

enrollment process and benefit package as Title XIX Medicaid. To ensure stability of coverage and reduce "churning," the program provides twelve months of continuous eligibility, with the exception of LaCHIP IV, in which coverage is based on the pregnancy.

CMS pays enhanced FMAP for both services and program administration costs. LaCHIP is set up as a combination of a Medicaid expansion model for LaCHIP I, II & III, and a separate SCHIP model for LaCHIP IV and LaCHIP V (LAP).

DHH initiated the expansion LaCHIP model (LaCHIP I, II and III) in 1998 to provide quality health care coverage to additional uninsured children below 212 percent FPG and up to age 19 who are not covered by health insurance. The first phase was implemented in November 1998, the second in October 1999 and the third in January 2001. In May 2007, Louisiana implemented a SCHIP expansion program, LaCHIP IV, to extend coverage for children from conception to birth if their mothers were non-citizens and otherwise ineligible for Medicaid. Since December 2013. LaCHIP IV has covered unborn children of citizens and non-citizens with an income of up to 209 percent FPG. In SFY 2014/15, LaCHIP IV recipients are also eligible for behavioral health services under LBHP.

In June 2008, through an expansion SCHIP model, Louisiana expanded coverage for children up to age 19 between 212 percent and 250 percent FPG, known as the LaCHIP Affordable Plan (LAP) or LaCHIP V. Some cost sharing is associated with LAP through monthly premiums. In SFY 2014/15 a total of \$1,154,425 was collected in premiums charged to these families for their children's coverage.

Table 36 presents Regular Medicaid (XIX) children and LaCHIP enrollees, recipients and payments by major age groupings. Of the age groups, those between the age 6 and 14 had the most enrollees, making up about 55 percent of the total enrolled Medicaid children under the age of 19.

Also, Regular Medicaid children and LaCHIP enrollees, recipients and payments by parish are presented in Table AA23. For SFY 2014/15, LaCHIP provided \$279,248,691 in payments to 157,105 recipients (refer to technical note on page 7 in regards to underestimation).

Table 36: Regular Medicaid Children and LaCHIP Enrollees, Recipients and Payments by Age Group

Age	La	CHIP (XXI)2		Regular Med	licaid Childre	en (XIX)	Total (X)	(I & XIX Child	dren)

Age as of January 1, 2015.

#### **Medicaid Purchase Plan**

The Medicaid Purchase Plan (MPP), implemented in January 2004, allows working individuals with disabilities access to Louisiana Medicaid health coverage. This optional Medicaid program was authorized by the Ticket to Work Act and Work Incentives Improvement Act of 1999. Before SFY 2014/15, individuals whose income exceeded 100 percent of FPG were allowed to pay a premium to gain access to this program. As of July 2014, individuals were only allowed to take part in this program if they had an income of 100 percent of the FPG or less and do not pay any premiums. MPP provides full medical coverage. During SFY 2014/15, there were total payments of \$13,520,312 on behalf of 2,624 recipients (Table 37).

unduplicated for each Medicaid type, while numbers are unduplicated for total Medicaid children.

Table 37: Medicaid Purchase Plan Payments, Enrollees and Recipients<sup>1</sup>

SFY	Payments (\$)	Recipients		
2010/11	\$22,955,014	3,261		
2011/12	\$23,598,373	3,536		
2012/13	\$23,704,687	3,584		
2013/14	\$22,160,672	3,973		
2014/15	\$13,520,312	2,624		

<sup>1</sup>Due to movement between programs recipient counts may not add up to total number of recipients. Recipient counts are distinct and unduplicated for their given categories.

#### **Spend-Down Medically Needy**

The Medically Needy Program (MNP) provides Medicaid coverage to individuals or families whose income is not sufficient to meet their medical needs despite being too high to qualify for categorical assistance programs. Within the MNP there are two groups of individuals or families whose medical expenses spend down (reduce) their income to levels at or below the Medically Needy Income Eligibility Standards (MNIES). The first of these is Spend-down Medically Needy, which can apply to Children, Parents and Caretaker Relatives as well as individuals who are aged, blind, or have a disability and are not institutionalized. The second Spend-down group is Long Term Care Spend-down

Medically Needy, which is available to individuals or couples residing in Medicaid LTC facilities whose resources are within Medicaid limits but whose income exceeds the special income limit. Similar to regular Spend-down Medically Needy, LTC Spend-down applicants must have a reduced income due to medical expenses. During SFY 2014/15 there were 10,078 recipients in the Spend-down Medically Needy group, with payments of \$43,964,486. The LTC Spend-down Medically Needy group provided payments of \$39,050,670 for services to 2,234 recipients.

#### **Provisional Medicaid**

Provisional Medicaid was implemented in February 2014 to cover individuals with disabilities and those age 65 and older who meet criteria for Supplemental Security Income (SSI) but are not currently receiving it. This program allows individuals to receive full Medicaid services while their application for SSI is being considered by the Social Security Administration (SSA). Provisional Medicaid covers individuals with incomes of up to 74 percent of the FPG and assets of up to \$2,000 (\$3,000 for couples). In SFY 2014/15 payments of \$70,042,284 were made on behalf of 6,743 Provisional Medicaid recipients.

# Women Diagnosed with Breast or Cervical Cancer

The Breast and Cervical Cancer Program provides full Medicaid benefits to uninsured women who are identified through the Centers for Disease Control (CDC) National Breast and Cervical Cancer Early Detection Program (NBCCEDP). These women have been diagnosed with breast or cervical cancer or a pre-cancerous condition and are in need of treatment. The Medicaid program does not have income or resource limits, but the CDC requires that the income be less than 200 percent of the federal poverty guidelines. During SFY 2014/15, a total of \$29,876,778 payments were made on behalf of 1,794 recipients.

<sup>&</sup>lt;sup>2</sup> LaCHIP recipient counts and payments are underestimated due to LAP's former payment methodology. Refer to technical note on page 7 for a detailed explanation. Also, LaCHIP includes the pregnant women who qualify for LaCHIP IV prenatal care services and those over the age 18 with continuous twelve month coverage.

<sup>3</sup> Enrollee and recipient counts of LaCHIP and Regular Medicaid may not sum to the total Medicaid children count due to movement between the two types of Medicaid during the SFY; the figures are

## Medicare Buy-in and Medicare Savings Program

Medicare Buy-in results in major cost avoidance for Louisiana Medicaid by making Medicare the primary payer for people who have both Medicare and Medicaid ("full" dual eligibles). Medicare Part-B premiums are paid directly to the Center for Medicare and Medicaid Services (CMS) for certain low income "full" dual eligibles. Medicare Part-A premiums are also paid for those Medicaid enrollees receiving Supplemental Security Income (SSI) payments who become entitled to Medicare at age 65. Medicaid also sends a monthly Clawback payment to CMS for individuals receiving Part-D who are dual eligible.

The Medicare Savings Program also provides Medicare Buy-in benefits to people with Medicare who are not eligible for full Medicaid services but have limited income and assets. Depending on income, an individual may be classified as a Qualified Medicare Beneficiary (QMB), which covers both the Medicare Part A and B premiums and some

co-payments and deductibles; Specified Low Medicare Beneficiary (SLMB), which covers the Medicare Part-B premium only; or Qualified Individual (QI-1), which covers the Medicare Part-B premium through 100 percent federal dollars. All three programs automatically entitle the enrollee to Low Income Subsidy (LIS) or "Extra Help" status for the Medicare Prescription Drug Plan (Part-D).

Medicare standard base premium and deductible amounts are presented in Table 38. Due to the cost efficiency of having Medicare as the first payer, a concerted effort is ongoing to ensure that anyone meeting the Medicare Savings Program eligibility criteria is enrolled. All recipients must be currently enrolled in Part-A Medicare to receive assistance on Part-B premiums.

Table 39 presents the income eligibility requirements for each buy-in program. During SFY 2014/15, Louisiana Medicaid paid premiums for 10,138 individuals for Part-A and 201,811 individuals for Part-B, and Part-D expenditures (all state funds) for 121,483 individuals (Table 40).

Table 38: Medicare Premiums and Deductibles<sup>1</sup>

Calendar Year	Part-A Mon	thly Premiums²		Part-B		Part-D

<sup>&</sup>lt;sup>1</sup> 2014 Annual Report of the Board of Trustees of the Federal Hospital Insurance and Federal Supplementary Medical Insurance Trust Funds. (2014). Retrieved from http://www.cms.gov/Research-Statistics-Data-and-Systems/Statistics-Trends-and-Reports/ReportsTrustFunds/downloads/tr2014.pdf

<sup>&</sup>lt;sup>2</sup> Part A is free to those who have worked for more than 10 years of Medicare-covered employment.

<sup>&</sup>lt;sup>3</sup> Part-D expenditures are all state funds. Part-D numbers are overstated due to Take Charge Plus members accidentally being counted as recipients. This is corrected in the SFY 2015/16 payments.

<sup>&</sup>lt;sup>4</sup> All recipient data comes from MMA Response File from CMS and is unduplicated by each type.

## **Medicaid Providers**

During SFY 2014/15, over 26,000 FFS providers participated and offered services to Louisiana Medicaid enrollees.

Figure 21 represents total FFS payments to public and private providers and CMS (excluding managed care). The hospital category includes inpatient and outpatient services. Nursing facility payments rank at the top with 19.4 percent, hospital payments in second with 14.4 percent and pharmacy payments in third place with 10.4 percent of total payments.

Top ten provider types of total Medicaid payments grouped by in-state and out-of-state (OOS) are presented in Table 41 in addition to managed care

payments. About \$3.8 billion (89.5 percent) of the total \$4.3 billion in payments (excluding managed care payments) were paid as FFS to providers within Louisiana, while about \$456.8 million (10.5 percent) of payments were made to OOS providers.

Out of State providers must register with Louisiana Medicaid to be eligible for Medicaid payments. In some cases, such as LBHP and Dental Benefits, services are located in-state but the provider is headquartered elsewhere. Managed care payments accounted for \$2.4 billion for SFY 2014/15, which is about 35.9 percent of the total \$6.7 billion payments. Other than Table 41, all provider tables in this section exclude managed care payments.

Table 41: Payments by In-State and Out-of-State for the Top Ten Provider Types Based on Payments and Managed Care

<sup>&</sup>lt;sup>1</sup> The "All Others" OOS category includes payments made to CMS for Medicare Buy-ins and Part-D premiums.

Table 42 presents the number of participating instate and OOS providers grouped by top ten provider types based on total FFS payments. Physician provider type accounted for 11,582 (44 percent) of the 26,295 total participating providers. With respect to in-state and OOS provider distribution, about 8.2 percent of participating providers of all types are from OOS. The OOS

category "all others" (500 providers) includes CMS along with 499 other providers.

Figure 22 shows a map of the ratios of provider parish payments to recipient parish payments from Table 43 for SFY 2014/15. This relationship gives a perspective on how well a parish is meeting the medical needs of their Medicaid recipients.

Table 42: Number of Providers by In-State and Out-of-State for the Top Ten Provider Types Based on Payments

Total		\$4,730,911,264	\$4,331,078,733	\$4,331,078,733

Table 43 presents (A) Provider Parish Payments which represent payments made to providers located in a parish regardless of the recipients' residing parish; (B) Recipient Parish payments which represent payments made on behalf of recipients residing in that parish regardless of where they received services; and (C) The ratio of provider parish payments to recipient parish payments times 100.

A ratio of 100 indicates that the sum of payments made to the providers of the parish is equal to the sum of payments made on behalf of recipients of that parish.

A ratio of less than 100 means that some of the payments made on behalf of the recipients of that parish went to providers outside of their respective parish. For example, a ratio of 95 indicates that about 5% of payments made on behalf of recipients of the parish are going out of that parish.

A ratio greater than 100 implies that providers of that parish received some payments made on behalf of recipients of other parishes. For example, a ratio of 120 implies that about 20% of payments made to the providers of that parish are made on behalf of recipients from other parishes.

<sup>&</sup>lt;sup>1</sup> Provider parish is based on service provider's enrolled location on file at the time of payment.

Table 44 shows a regional comparison of payments made on behalf of the top ten provider types based on total payments. For the remainder of this section, unless otherwise stated, all data is based on the service providers' enrolled location (parish/region/state) on file at the time of payment. The Greater New Orleans Area ranked number one, with about \$680.5 million in payments going into the region. Payments to the top ten providers in each region will differ according to a variety of factors (e.g., availability of providers, medical need of the population, etc.).

Appendix A Tables AA24 through AA27 show parish-level data about the top ten provider types.

Table AA24 reports payment distribution across provider parishes to the top ten provider types in the state based on total payments. East Baton Rouge Parish ranked number one with about \$418 million in payments going into the parish, while Cameron Parish ranked last with \$504,896 in payments going into the parish. Table AA25 presents the number of service providers by parish, Table AA26 presents the number of recipients by parish and Table AA27 presents payments per recipient by parish for the top ten provider types based on payments during this SFY.

<sup>&</sup>lt;sup>1</sup>The "All Others" OOS category includes payments made to CMS for Medicare Buy-ins and Part-D premiums.

Table 45 presents payments made to out-of-state providers, as well as the number of providers and recipients by state. In regards to payments, Washington, D.C. out-ranked all other states with \$392.2 million (85.9 percent) due to the CMS payments for Medicare Buy-in and Part-D. If CMS payments were excluded, Arizona would have had

the highest payments with about \$17.5 million (3.8 percent) followed by Texas with about \$12.6 million (2.8 percent). Provider participation was represented by all but 2 states: Hawaii and Delaware. Next to Washington, D.C., Texas had the highest number of Louisiana recipients due to them being a neighboring state.

<sup>&</sup>lt;sup>1</sup> State provider counts may not sum to the total out-of-state count due to providers offering services in more than one state during the SFY. Also, state recipient counts may not sum to the total out-of-state count due to recipients receiving services in more than one state during the SFY. Total out-of-state figures are **unduplicated** for the entire out-of-state count, while other numbers are **unduplicated** for each state.

## **Medicaid Home and Community-Based Service Waivers**

In 1981, the Federal Government created Title XIX Home and Community-Based Services (HCBS) in order to provide home and community-based services to the elderly and persons with physical disabilities, developmental disabilities and/or mental illnesses. Since this act made an exception to the traditional Medicaid requirements, it required a "waiver." Waivers allow flexibility for states to develop and test creative alternatives for operating their Medicaid programs that are cost neutral compared to what Medicaid would have paid in absence of the waiver.

The administration of the waiver programs was divided into two offices, Office for Citizens with Developmental Disabilities (OCDD) and Office of Aging and Adult Services (OAAS). OCDD has the responsibility of administering the waiver programs that serve persons with developmental disabilities, which includes Children's Choice Waiver, New Opportunities Waiver, Residential Options Waiver and Supports Waiver. OAAS has the responsibility of administering the waivers that serve the elderly and persons with adult onset disabilities, which includes the Community Choices Waiver and the Adult Day Health Care Waiver.

These waiver programs allow Louisiana residents to receive Medicaid State Plan benefits while having greater flexibility to choose where they want to live and to choose the waiver services and supports that best suit their needs. They also allow individuals to preserve their independence by staying out of institutional settings and maintaining ties to families and friends. The types of HCBS Waivers available in Louisiana during the SFY 2014/15 included:

#### Adult Day Health Care (ADHC) Waiver

The ADHC Waiver provides health care services and activities for elderly and disabled adults at a licensed facility for five or more hours per day. This waiver thereby allows family members to assist in the care of the recipient while maintaining employment and other daily responsibilities. Transportation is provided to and from the facility. In SFY 2014/15, a total of 699 slots were filled with total payments of about \$20.1 million for waiver (\$9.3m) and non-waiver services (\$10.8m).

#### Community Choices Waiver (CC)

The Community Choices Waiver, which was transitioned from the Elderly and Disabled Adult (EDA) Waiver on October 1, 2011, provides a more diverse and flexible array of cost effective services such as home-delivered meals, in-home sensor monitoring, assistive devices/technology, and nursing and skilled maintenance therapies. CC also provides the services that were offered

under the EDA waiver which included support coordination, transition intensive support coordination, companion services, environmental accessibility adaptations, personal emergency response system, adult day health care and transitional services. The program filled a total of 4,513 slots in SFY 2014/15 with total payments of almost \$145 million for waiver (\$113.2m) and non-waiver services (\$31.8m).

#### Children's Choice Waiver

The Children's Choice Waiver is designed to help families who provide in-home care and support for their children with developmental disabilities. The waiver, which is capped at \$16,410 for direct waiver payments per year for each waiver slot, provides family support, support coordination, family training, environmental accessibility adaptations and center based respite to disabled children from birth through age 18. During SFY 2014/15, a total of 1,220 slots were filled with total payments of about \$34.7 million for waiver (\$11.6m) and non-waiver services (\$23.1m).

#### **New Opportunities Waiver (NOW)**

The New Opportunities Waiver provides individual and family support services, center-based respite, accessibilities adaptations modifications, employment training and transportation, community integration and development, day habilitation, emergency response systems and specialized medical equipment to disabled children and adults from age three and up. During SFY 2014/15, a total of 8,591 slots were filled with total payments of about \$501.6 million for waiver (\$444.1m) and non-waiver services (\$57.5m).

#### Supports Waiver (SW)

The Supports Waiver provides supported employment, day habilitation, prevocational services, respite, habilitation and personal emergency response systems to recipients age 18 and older with a developmental disability which manifested prior to age 22. The Supports Waiver filled a total of 1,618 slots in SFY 2014/15 with total payments of about \$21.4 million for waiver (\$12m) and non-waiver services (\$9.4m).

### **Residential Options Waiver (ROW)**

The Residential Options Waiver provides an opportunity for individuals with developmental disabilities to transition from ICFs/DD and provides residential and other comprehensive supports for people with complex needs. Some of the services provided by the waiver are support coordination, community living supports, prevocational services, respite, day habilitation, and supported employment. ROW also focuses to prevent

institutionalization through "crisis diversion" services and to rebalance the system by converting private ICF/DD beds into ROW shared living waiver homes. During SFY 2014/15, a total of 29 slots were filled with total payments of about \$2.1 million for waiver (\$834,409) and non-waiver services (\$1.3m).

Waivers are offered on a first-come, first-serve basis (except for the limited number of emergency slots) through the Request for Services Registry. Each waiver has limitations on the number of participants and approval for participation is subject to CMS criteria and the availability of state funds.

Table 46 shows the types of HCBS Waivers, with the eligible population description and income limit of each waiver available during SFY 2014/15 in Louisiana. Table 47 shows the number of allocated and filled slots along with the recipients and payments for the last five state fiscal years (Figures 23, 24 and 25). Due to recipients leaving and joining waiver programs throughout the year, some waivers will have higher total recipients than the number of slots available. During SFY 2014/15, 16,670 slots were filled under the HCBS waiver programs, continuing the trend of delivering services outside an institutional facility.

Table 46: Home and Community-Based Service Waivers Eligible Populations and Income Limits

Table 46: Hom	e and Community-Based Service Waivers Eligible Population	ons and Income Limits
Waiver	Eligible Population	Income Limit
Adult Day Health Care Waiver (ADHC)	Age 65 or older (22 - 64 with a disability) that meets nursing facility level of care requirements	222% of poverty (3 times the SSI amount); Assets limit: \$2,000 for individual, \$3,000 for a couple who needs LTC, and \$117,240 for a community spouse not receiving LTC
Community Choice Waiver (CC)	Age 65 or older (21 - 64 with a physical disability) that meets nursing facility level of care requirements	222% of poverty (3 times the SSI amount); Assets limit: \$2,000 for individual and \$3,000 for a couple who needs LTC, or \$119,220 for an institutionalized individual with a community spouse not receiving LTC
Children's Choice Waiver	Age birth through age 18; Meets ICF/DD level of care for medical and/or psychological criteria, and meets the Louisiana definition for developmental disability	222% of poverty (3 times the SSI amount); Assets limit: \$2,000 individual
New Opportunities Waiver (NOW)	Age 3 and older with a developmental disability which manifested prior to age 22; Meets ICF/DD level of care for medical and/or psychological criteria and meets the Louisiana definition for developmental disability	222% of poverty (3 times the SSI amount); Assets limit: \$2,000 individual and \$3,000 for a couple who needs ICF/DD level of care
Supports Waiver (SW)	Age 18 and older with a developmental disability which manifested prior to age 22; Meets ICF/DD level of care for medical and/or psychological criteria and meets the Louisiana definition for developmental disability	222% of poverty (3 times the SSI amount); Assets limit: \$2,000 individual and \$3,000 for a couple who needs ICF/DD level of care
Residential Options Waiver (ROW)	Age birth and older with a developmental disability which manifested prior to age 22; Meets ICF/DD level of care for medical and/or psychological criteria and meets the Louisiana definition for developmental disability	222% of poverty (3 times the SSI amount); Assets limit: \$2,000 individual and \$3,000 for a couple who needs ICF/DD level of care

Population estimates are based on the beginning of the SFY. U.S. Census Bureau, Population Division. (March 2014). Annual Estimates of the Resident Population for Counties of Louisiana: July 1, 2014. Retrieved from http://www.census.gov/popest/data/counties/totals/2014/index.html. Individual parish enrollee and recipient counts may not sum to the total state count due to movement between parishes during the SFY; the state figures are unduplicated for entire state, while numbers are unduplicated within the parish. Payments are based on recipient parish payments.

	ividual parish enrollee and									

<sup>1</sup> Individual parish enrollee and recipient counts will not sum to the total state count due to movement between parishes during the SFY; the state figures are unduplicated for entire state, while numbers are unduplicated within the parish. Also, LaCHIP and Regular Medicaid enrollee and recipient counts will not sum to the total Medicaid children count due to movement between the two types of Medicaid during the SFY.

# **Appendix B: Glossary**

**Bayou Health:** The term used for the Managed Care Health Plans which coordinate physical healthcare for Medicaid recipients. Bayou Health consists of five health plans which have the same core benefits and services, but may offer recipients enhanced benefits.

Child Health and Maternity Program (CHAMP) – Child: Medicaid eligibility for poverty-level children under the age of 19 who are eligible for Medicaid if they meet all program requirements.

Child Health and Maternity Program (CHAMP) – Pregnant Woman: Medicaid eligibility for a CHAMP Pregnant Woman may begin at any time during a medically verified pregnancy and as early as three months prior to the month of the application if all requirements of the program are met.

Centers for Medicare and Medicaid Services (CMS): The federal agency charged with overseeing and approving states' implementation and administration of the Medicaid and Medicare programs.

**Co-payment:** A fixed dollar amount paid by a Medicaid enrollee at the time of receiving a covered service from a participating provider.

United States Department of Health and Human Services (DHHS): DHHS administers many of the "social" programs at the federal level that deal with the health and welfare of citizens of the United States. It is the federal department responsible for the Centers for Medicare and Medicaid Services.

**Disproportionate Share (DSH):** Payments made by the Medicaid program to hospitals designated as serving a disproportionate share of low-income or uninsured patients. DSH payments are in addition to regular Medicaid payments for providing care to Medicaid beneficiaries. The maximum amount of federally matched funds available annually to individual states for DSH payments is specified in the federal Medicaid statute.

**Disabled Adult Child (DAC):** Provides Medicaid coverage to individuals over the age of 18 who became blind or disabled before the age of 22 and has lost SSI eligibility on or after July 1, 1987, as the result of entitlement to or increase in Retirement, Survivors and Disability Insurance (RSDI).

**Disabled Widows and Widowers:** Provides Medicaid coverage to disabled widows/widowers (between the ages of 50 and 59) who would be eligible for SSI had there been no elimination of the

reduction factor in the federal formula and no subsequent cost-of-living adjustments.

**Deficit Reduction Act of 2005 (DRA):** Enacted in February 2006 to reduce the rate of federal and state Medicaid spending growth through new flexibility on Medicaid premiums, cost sharing and benefits, along with tighter controls on asset transfers in order to qualify for long-term care through Medicaid.

**Direct Waiver Payments:** Payments made on behalf of HCBS Waiver recipients for services, such as support coordination, assistive devices, home health care, respite care, personal care attendant, supported employment, environmental modifications, personal emergency response systems, companion service, transition and transportation to and from services and/or medical care, etc.

**Dual Eligible:** Individuals who are entitled to Medicare and are eligible for full or partial Medicaid benefits. Medicaid may pay for all or a portion of Medicare Part A and B premiums, co-payments and deductibles for dual eligibles.

**Eligible:** A person who is qualified for Medicaid but may or may not be enrolled.

**Enrollee:** A person who is Medicaid eligible, has applied for and was approved by the Medicaid program to receive benefits regardless of whether he or she received any service and/or any claims were filed on his or her behalf. Refer to the technical note on page 7 for more details.

**Expenditure:** In this report, expenditure refers to fiscal information derived from the financial system of the Integrated State Information System (ISIS). ISIS reports the program expenditures after all claims and financial adjustments have been taken into account.

Family Independence Temporary Assistance
Program (FITAP): In Louisiana, Temporary
Assistance for Needy Families (TANF) is provided
under a program known as the FITAP. This program
provides temporary assistance for needy pregnant
women and families with minor children under Title
IV-A of the Social Security Act. The program
provides eligible individuals with cash assistance
and supportive services if those families meet
eligibility requirements and are otherwise complying
with FITAP requirements.

Family Opportunity Act (FOA): Implemented in October 2007 under the DRA, FOA is a buy-in program that grants Medicaid access to children who have a disability, but have maxed out their private health insurance or are ineligible for Supplemental Security Income (SSI), Medicaid, or LaCHIP because of parent income or private health insurance. FOA covers children up to 300 percent of the FPG.

**Federal Fiscal Year (FFY):** The FFY starts October 1 and ends September 30 of the next calendar year.

Federal Medical Assistance Percentage (FMAP): FMAP is the percentage the federal government will match on state money spent on Medicaid; also known as Federal Financial Participation (FFP).

**Financial Eligibility:** Limits on the amount of income and the amount of resources an individual is allowed to have in order to qualify for coverage.

**Full Dual Eligible:** Medicare beneficiary who is eligible for full Medicaid services. Medicaid pays the deductible and co-payments for Medicare services and may cover other Medicaid services not covered by Medicare.

Parents and Caretaker Relative Group: Provides Medicaid coverage to individuals living with and assuming primary responsibility for the care of a dependent child under the age of 18. This group includes individuals with income less than or equal to 19 percent of the FPG.

**Personal Care Waiver Services:** Services that provide companion services offered by Home and Community-Based Service (HCBS) Waivers.

**Inflation:** Inflation is an overall general price level increase of goods and services in an economy, usually measured by the Consumer Price Index (CPI) and the Producer Price Index (PPI) by the Bureau of Economic Analysis.

**LaMOMS:** Medicaid program that provides pregnancy-related services, delivery and care up to 60 days after delivery for pregnant women with income up to 133 percent of the FPG.

Louisiana Behavioral Health Partnership (LBHP):

A fully integrated managed care system for behavioral health. LBHP coordinates services across multiple agencies and is operated by Magellan Health Services, Inc.

**Long-Term Care (LTC):** An applicant/recipient may be eligible for Medicaid services in the LTC program

if he or she requires medical assistance for a defined activity of daily living (ADL) such as dressing, eating, bathing, ambulation, etc. These services may be provided either in a facility, in an individual's home or in the community.

Louisiana Children's Health Insurance Program (LaCHIP): As a result of the Federal Balanced Budget Act of 1997 and the Social Security Act, the federal government has provided states with funding for a state children's health insurance program with enhanced FMAP. In Louisiana, the program is called LaCHIP. LaCHIP is a Medicaid expansion that covers children less than 19 years old and up to 212 percent of the FPG.

**LaCHIP Affordable Plan (LAP):** A stand-alone program that provides Medicaid coverage for children under the age of 19 not covered by health insurance and is below 250 percent FPG. Some cost sharing is associated with LAP through monthly premiums and co-payments.

Low Income and Needy Care Collaboration
Agreement (LINCCA): Are agreements between
private hospitals, and public state and local
hospitals, and hospital districts that allow private
hospitals to take on services for low-income and
needy patients which alleviates the financial strain
upon the government entities that can then utilize
those funds to supplement the Medicaid program
and draw down federal financial participation. There
is no legal obligation to contribute funding to the
Medicaid supplemental payment program and is
done at their sole discretion.

**Managed Care:** A health care delivery system that manages the delivery of Medicaid services through contracted arrangements between state Medicaid and Managed Care Organizations (MCOs).

Mandatory Services: In order to receive federal Medicaid funding, each state must agree to provide mandatory services to the Medicaid eligible population. Along with mandatory services, states are free to offer optional services and receive federally matched funds for all of them. Some programs are limited by eligibility requirements or service limits, but all Medicaid services must be provided to enrolled children under age 21 if the services are deemed medically necessary.

**Medicaid Purchase Plan (MPP):** Allows working individuals up to 100 percent of the FPG with disabilities to "buy in" to Louisiana Medicaid health coverage.

Medically Needy Program (MNP): Provides Medicaid coverage in a categorical assistance program when income and resources of the individual or family are sufficient to meet basic needs, but are not sufficient to meet medical needs according to the state's established Medically Needy standards.

**Medicare:** Like Medicaid, Medicare was created by the Social Security Act of 1965, but the two programs are different. Medicare is a federally paid and administrated insurance program that has four parts of coverage: Part-A, Part-B, Part-C and Part-D.

**Medicare Part-A:** The hospital insurance portion of Medicare. Part-A covers inpatient hospital care, skilled nursing facility care, some home health agency services and hospice care.

**Medicare Part-B:** The supplementary or "physicians" insurance portion of Medicare. Part-B covers services of physicians/other suppliers, outpatient care, medical equipment and supplies, and other medical services not covered by the hospital insurance part of Medicare.

**Medicare Part-C:** Provides for a managed care delivery system for Medicare services.

Medicare Part-D: Provides Medicare beneficiaries with assistance paying for prescription drugs. It was enacted as part of the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (MMA) and went into effect on January 1, 2006. Unlike coverage in Medicare Parts A and B, Part-D coverage is not provided within the traditional Medicare program. Instead, beneficiaries must affirmatively enroll in one of the many hundreds of Part-D plans offered by private companies.

**Non-Waiver Payments:** All other payments, besides those for direct waiver services, made on behalf of HCBS Waiver recipients, such as physician, hospital, pharmacy, etc.

**Partial dual eligible:** Medicare beneficiary who does not qualify for full Medicaid services. Medicare Savings Program serves the partial eligibles by assisting with Medicare premium and cost sharing programs through the Medicaid program.

**Payment:** Refers to information derived from the claims-based data sets produced by the Medicaid fiscal intermediary and the Medicare Buy-in and Part-D premiums. Refer to the technical note on page 7 for a detailed explanation.

Personal Care Services (LTC/PCS/PAS): Services under the state plan, that offers EPSDT, Long Term Care, Personal Assistance Services and Personal Care Services.

**Prepaid Health Plan:** An entity that is risk-bearing, Managed Care Organization health care delivery system that is responsible for the provision of specified Medicaid State Plan services.

**Prior Authorization:** A management tool used to verify whether proposed treatments/services are medically necessary and appropriate for the patient.

Program for All-Inclusive Care for the Elderly (PACE): Program that coordinates and provides all needed preventive, primary, acute and long term care services so that older individuals can continue to live in the community.

**Provider:** A person, group or agency that provides a covered Medicaid service to a Medicaid recipient.

### **Qualified Medicare Beneficiary (QMB):**

Individuals who have income up to 100% of the FPG or less, have resources that do not exceed twice the limit for SSI eligibility. Medicaid pays their Medicare Part-A premiums, if any, Medicare Part-B premiums, Part-D, Medicare deductibles and coinsurance for Medicare services provided by Medicare providers.

Qualifying Individuals – 1 (QI-1): Qualifying Individuals – 1 went into effect January 1, 1998. There is an annual cap on the amount of money available, which may limit the number of individuals in the group. These individuals are entitled to Medicare Part-B, have income of 120% to 135% of FPG, have resources that do not exceed twice the limit for SSI eligibility and are not otherwise eligible for Medicaid.

**Recipient:** A person is considered a 'recipient' if any claims related transaction(s) or Medicare Buy-in or Part-D premium payment(s) occurred on behalf of that person during the state fiscal year. The data for this report is based on a claim's date of payment (DOP). Refer to the technical note on page 7 for a detailed explanation.

**Shared Savings Health Plan:** An entity that serves as a primary care manager by providing enhanced primary care case management in addition to contracting with primary care providers for primary care management.

**Slot:** Medicaid Waivers are limited to a certain number of recipients based on funding availability

and recommendations by CMS. The available positions are referred to as slots.

**Specified Low-Income Medicare Beneficiary** (**SLMB**): Medicaid pays their Medicare Part-B premium only. The eligibility requirements are the same as for the Qualified Medicare Beneficiary (QMB) except that income limits fall between 100% and 120% of FPG.

**Spend-Down:** When an individual may qualify for Medicaid coverage even though their countable income is higher than the specified income standard by "spending down." Under this process, the medical expenses that an individual incurs during a specified period are deducted from the individual's income during that period. Once the individual's income has been reduced to a state-specified level, the individual qualifies for Medicaid benefits for the remainder of the period.

**State Fiscal Year (SFY):** The SFY is a 12-month calendar that begins July 1 and ends June 30 of the following calendar year.

**State Plan:** The State Plan is the formal agreement between Louisiana and Centers for Medicare and Medicaid Services (CMS) regarding the policies governing the administration of the state's Medicaid program. Amendments to the State Plan must be submitted to CMS for review and approval no later than the end of the quarter in which the amendment becomes effective. Federal financial participation (FFP) for any added costs is not available to the state until the amendment is approved.

**Supplemental Payments**: Payments that the federal government allows states to reimburse set provider types (hospitals, physicians and ambulance) for certain uncompensated care provided under Medicaid at an amount equal to what Medicare would have paid for the same service.

Supplemental Security Income (SSI): A federal cash assistance program for low-income aged, blind and disabled individuals established by Title XVI of the Social Security Act. States may use SSI income limits to establish Medicaid eligibility.

**System of Care:** A spectrum of effective, community-based services and supports for children

and youth with or at risk for mental health or other challenges and their families, that is organized into a coordinated network, builds meaningful partnerships with families and youth, and addresses their cultural and linguistic needs, in order to help them to function better at home, in school, in the community and throughout life.

Temporary Assistance for Needy Families (TANF): TANF, commonly known as welfare, is the monthly cash assistance program for poor families with children under the age of 18. The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA) (Pub. L. 104-193), as amended, is the welfare reform law that established the TANF program.

Uncompensated Care Costs (UCC): Payments to hospitals for providing inpatient and outpatient care for uninsured and low income individuals who are not financially capable of paying for the medical services they receive. These hospitals are Disproportionate Share Hospitals (DSH), meaning they provide a certain percentage of their total patient care to the indigent population.

**Unduplicated (Eligible/Recipient):** An unduplicated eligible/recipient is a uniquely counted eligible/recipient who is counted only once during a given period for any particular category of interest.

Upper Payment Limit (UPL): Payments that the federal government allows states to reimburse hospitals for certain uncompensated care provided under Medicaid at an amount equal to what Medicare would have paid for the same service, which is typically at a higher amount. UPL is financed with both state and federal matched funds.

**Waiver:** A Medicaid waiver grants states permission to waive certain federal requirements in order to operate a specific kind of program. Federal law allows states to enact two types of Medicaid waivers: 1) Program Waivers [1915 (b), 1915 (c)] and 2) Research and Demonstration Waivers [1115].

Youth Aging Out of Foster Care: Provides Medicaid coverage to youth between the ages of 18 and 21 who are transitioning out of foster care.

# **Medicare and Medicaid**

	Medicare	Medicaid (XIX)		
Program	Health Insurance or 65+/ Disabled (Title XVIII 1965)	Needs-based Entitlement (Title XIX 1965)		
Eligibility	Have contributed to system	Must meet categorical income/asset test		
Finance	Trust Funds which those covered have paid into	Federal, state and local tax		
Cost to Patient	Small premium, co-payments and deductibles	Federal, state and local tax		
Coverage	Uniform across the states	Varies by state		
Administration		State/local Government with broad federal guidelines		

There are different types of Medicare and each type provides different services. See table below.

Medicare Type	Provided Services			
Medicare Part-A	Provides coverage of inpatient hospital services, skilled nursing facilities, home health services and hospice care			
Medicare Part-B	Helps pay for the cost of physician services, outpatient hospital services, medical equipment and supplies and other health services and supplies			
Medicare Part-C	Provides managed care			
Medicare Part-D	Pays for pharmaceuticals for qualified individuals			

Medicaid is required to provide certain services by CMS, while others are optional. See table below.

Medicaid Mandatory Services	Medicaid Optional Services
Inpatient Hospital	ICF/DD (Community Homes)
Outpatient Hospital	All HCBS Waivers
Rural Health Clinics	Inpatient Mental Health
Lab and X-Ray	Mental Health Rehabilitation
Long Term Care Facilities	Pharmacy
Early Periodic Screening, Diagnostic and Treatment (EPSDT)	Long Term Personal Care
Physician Services	Hemodialysis
Private Family Planning	Certified RN Anesthetists
Federally Qualified Health Centers	Adult Dentures
Nurse-Midwife Services	Case Management
Nurse Practitioner	Rehabilitation
Home Health	Ambulatory Surgical
Durable Medical Equipment	Hospice
Medical Transportation
