

Contract Amendment #15 Attachment C15

Changes to Attachment C: Quality Performance Measures (Effective Measurement Year 2022)

Justification for items 1-2: Revisions are being made to retire two quality measures.

Justification for items 3-4: These measures are already reported as part of the CMS Child Core Set, and are being added to the list of required reported measures for consistency, as the other contraception measures were already included.

Item	Change From:		Change To:	
1	19. Elective Delivery or Early Induction Without Medical Indication	This measure assesses patients with elective vaginal deliveries or elective cesarean sections at >= 37 and < 39 weeks of gestation completed	19. Elective Delivery or Early Induction Without Medical Indication	This measure assesses patients with elective vaginal deliveries or elective cesarean sections at >= 37 and < 39 weeks of gestation completed [subsequent provisions renumbered]
2	26. Percentage of Eligibles Who Received Preventive Dental Services <i>(Note: CMS will calculate this measure and MCOs will not be required to report).</i>	The percentage of individuals ages 1 to 20 who are enrolled for at least 90 continuous days, are eligible EPSDT services, and who received at least one preventive dental service during the reporting period.	CMS	26. Percentage of Eligibles Who Received Preventive Dental Services <i>(Note: CMS will calculate this measure and MCOs will not be required to report).</i> [subsequent provisions renumbered]
3	<i>(new item added)</i>		<u>29. Contraceptive Care – All Women Ages 15-20</u>	<u>The percentage of women ages 15-20 who are at risk of unintended pregnancy and were provided a most or moderately effective method of contraception or were provided a LARC. Two rates are reported.</u>
