The State must adjust capitation rates to remove costs that are specific to any program or activity that is no longer authorized by law. If the DBPM works on a program or activity no longer authorized by law after the date the legal authority for the work ends, the DBPM will not be paid for that work. If the State paid the DBPM in advance to work on a no-longer-authorized program or activity and under the terms of this Contract the work was to be performed after the date the legal authority ended, the payment for that work should be returned to the State. However, if the DBPM worked on a program or activity prior to the date legal authority ended for that program or activity, and the State included the cost of performing that work in its payments to the DBPM, the DBPM may keep the payment for that work even if</u></p>	This addition is a CMS requirement to address situations where managed care activities have been vacated by a court. CMS issued this guidance as part of their ongoing effort to provide states greater transparency and consistency across CMS' managed care plan contract review process.
