If Medicaid were to change its current broker model for non-emergency medical transportation (NEMT), what changes would you recommend?	N/A
If Medicaid were to change its current pharmacy benefit manager model, what changes would you recommend?	We would recommend that they streamline the enrollment process as some of the pharmacy benefit managers have an extensive lag time in getting facilities enrolled. Also we would recommend that these companies be required to pay the minimum payment set by LDH as they are often reimbursing much less.
