<b>Non-Emergency Medical Transportation (NEMT) and Pharmacy Benefits Manager (PBM) Request for Comment</b>	
<b>RFI Question</b>	<b>Response</b>
If Medicaid were to change its current broker model for non-emergency medical transportation (NEMT), what changes would you recommend?	Better communication between the Broker and the NEMT Providers. We have waaaaay too many missed appointments because of the communication breakdown.  - rate increase  - implement a zoning system  - patients should be given freedom of choice. which will allow the existing companies to grow  - bonus system put in place for companies that abide by the rules  - utilize the Providers BEFORE going to a Lyft or Uber
If Medicaid were to change its current pharmacy benefit manager model, what changes would you recommend?	No comment
