<b>Non-Emergency Medical Transportation (NEMT) and Pharmacy Benefits Manager (PBM) Request for Comment</b>	
<b>RFI Question</b>	<b>Response</b>
If Medicaid were to change its current broker model for non-emergency medical transportation (NEMT), what changes would you recommend?	Nothing. Does not apply.
If Medicaid were to change its current pharmacy benefit manager model, what changes would you recommend?	“Pass-through” PBM model. Rebate models are a bait and switch because of spread pricing. PBM’s started out as processors of claims. The rebate program cost more to the state and the plan holders.
