**CHAPTER 11: CERTIFIED COMMUNITY BEHAVIORAL HEALTH CLINICS**

---

**SECTION 11.4: ELIGIBILITY CRITERIA**

**PAGE(S) 1**

**ELIGIBILITY CRITERIA**

Certified Community Behavioral Health Clinic (CCBHC) services are available to all individuals seeking help for a mental health or substance use condition, including but not limited to individuals with serious mental illness, serious emotional disturbances, mild or moderate mental illness, and substance use disorders (SUDs) and individuals experiencing a mental health or substance use-related crisis. All individuals may walk into CCBHC clinics and be screened for service eligibility. The CCBHC may not deny services because of place of residence, insurance status, or inability to pay.

CCBHC services are available to individuals who meet the medical necessity criteria as outlined in each specific service section.
