**PROVIDER REQUIREMENTS****Classification of Providers**

Non-Emergency Medical Transportation (NEMT) is provided to Medicaid beneficiaries through four classifications of NEMT providers. The transportation broker shall consider scheduling NEMT providers in the following order:

1. Public;
2. Gas reimbursement;
3. Non-profit; and
4. For-Profit.

*Public providers* include city and parish intrastate mass transit systems (e.g., bus, train).

*Gas reimbursement providers* are individuals, including friends or family members. *Non-profit providers* include those providers who are operated by or affiliated with a public organization such as state, federal, parish or city entities, community action agencies, or parish Councils on Aging. If a provider qualifies as a non-profit entity according to Internal Revenue Service (IRS) regulations, they may only enroll as non-profit providers.

*For-profit providers* include corporations, limited liability companies, partnerships, or sole proprietors. For-profit providers must comply with all state laws and the regulations of any governing state agency, commission, or local entity to which they are subject as a condition of enrollment and continued participation in the Medicaid program.
