

Clinical Policy: Panitumumab (Vectibix)

Reference Number: LA.PHAR.321 Effective Date: <u>11.04.23</u> Last Review Date: <u>04.22.24</u> <u>06.26.23</u> Line of Business: Medicaid

Coding Implications Revision Log

See <u>Important Reminder</u> at the end of this policy for important regulatory and legal information.

Please note: This policy is for medical benefit

Description

Panitumumab (Vectibix[®]) is an epidermal growth factor receptor (EGFR) antagonist.

FDA Approved Indication(s)

Vectibix is indicated for the treatment of patients with wild-type *RAS* (defined as wild-type in both *KRAS* and *NRAS* as determined by an FDA-approved test for this use) metastatic colorectal cancer (CRC):

- In combination with FOLFOX for first-line treatment
- As monotherapy following disease progression after prior treatment with fluoropyrimidine-, oxaliplatin-, and irinotecan-containing chemotherapy

Limitation(s) of use: Vectibix is not indicated for the treatment of patients with *RAS*-mutant metastatic CRC or for whom *RAS* mutation status is unknown.

Policy/Criteria

Provider must submit documentation (such as office chart notes, lab results or other clinical information) supporting that member has met all approval criteria.

It is the policy of Louisiana Healthcare Connections[®] that Vectibix is **medically necessary** when the following criteria are met:

I. Initial Approval Criteria

- A. Colorectal Cancer (must meet all):
 - 1. Diagnosis of advanced, recurrent, or metastatic CRC;
 - 2. Prescribed by or in consultation with an oncologist;
 - 3. Age \geq 18 years;
 - 4. Disease is one of the following (a, b, or c):
 - a. Wild-type *RAS* (defined as wild-type in both *KRAS* and *NRAS*);
 - b. BRAF wild-type;

υ.	bith white type,	
c.	BRAF V600E mutation positive;	 Formatted: Font: Italic
~		

Formatted: Font: Italic

5. One of the following (a, b, or c)*:
 a. Request is for first-line treatment: Prescribed in combination with FOLFOX,

CapeOX, or FOLFIRI (off-label);

CLINICAL POLICY

Panitumumab

- Request is for subsequent line treatment: Prescribed as a single agent, in combination with FOLFIRI or FOLFOX, or in combination with irinotecan (offlabel);
- c. Request is for BRAF V600E mutation positive disease: Prescribed in combination with Braftovi[®] (off-label);
- *Prior authorization may be required.
- <u>6. For colon cancer that is *KRAS/NRAS/BRAF* wild-type: colon cancer is left-sided only (*see Appendix D*);</u>
- 6.7.Request meets one of the following (a or b):*
 - a. Dose does not exceed 6 mg/kg every 14 days;
 - b. Dose is supported by practice guidelines or peer-reviewed literature for the relevant off-label use (prescriber must submit supporting evidence).
 *Prescribed regimen must be FDA-approved or recommended by NCCN
- Approval duration: 6 months
- **B.** Other diagnoses/indications (must meet 1 or 2):
 - 1. If this drug has recently (within the last 6 months) undergone a label change (e.g., newly approved indication, age expansion, new dosing regimen) that is not yet reflected in this policy, refer to LA.PMN.255
 - 2. If the requested use (e.g., diagnosis, age, dosing regimen) is NOT specifically listed under section III (Diagnoses/Indications for which coverage is NOT authorized) AND criterion 1 above does not apply, refer to the off-label use policy LA.PMN.53

II. Continued Therapy

- A. Colorectal Cancer (must meet all):
 - 1. Currently receiving medication via Louisiana Healthcare Connections benefit or documentation supports that member is currently receiving Vectibix for a covered indication and has received this medication for at least 30 days;
 - 2. Member is responding positively to therapy;
 - 3. If request is for a dose increase, request meets one of the following (a or b):*
 - a. New dose does not exceed 6 mg/kg every 14 days;
 - b. New dose is supported by practice guidelines or peer-reviewed literature for the relevant off-label use (prescriber must submit supporting evidence).
 *Prescribed regimen must be FDA-approved or recommended by NCCN
 - Approval duration: 12 months

B. Other diagnoses/indications (must meet 1 or 2):

- 1. If this drug has recently (within the last 6 months) undergone a label change (e.g., newly approved indication, age expansion, new dosing regimen) that is not yet reflected in this policy, refer to one LA.PMN.255
- 2. If the requested use (e.g., diagnosis, age, dosing regimen) is NOT specifically listed under section III (Diagnoses/Indications for which coverage is NOT authorized) AND criterion 1 above does not apply, refer to the off-label use policy LA.PMN.53

Appendix B: Therapeutic Alternatives This table provides a listing of preferred alternative th

This table provides a listing of preferred alternative therapy recommended in the approval criteria. The drugs listed here may not be a formulary agent for all relevant lines of business and may require prior authorization.

Drug Name	Drug Name Dosing Regimen Dose Limit/					
		Maximum Dose				
Modified	Day 1: oxaliplatin 85 mg/m ² IV	See dosing				
FOLFOX 6	Day 1: Folinic acid 400 mg/m ² IV	regimen				
	Days 1–3: 5-FU 400 mg/m ² IV bolus on day 1, then					
	$1,200 \text{ mg/m}^2/\text{day} \times 2 \text{ days}$ (total 2,400 mg/m ² over					
	46-48 hours) IV continuous infusion					
	Repeat cycle every 2 weeks.					
CapeOX	Day 1: Oxaliplatin 130 mg/m ² IV	See dosing				
	Days 1-14: Capecitabine 1,000 mg/m ² PO BID	regimen				
	Repeat cycle every 3 weeks.					
FOLFIRI	Day 1: Irinotecan 180 mg/m ² IV	See dosing				
	Day 1: Leucovorin 400 mg/m ² IV	regimen				
	Day 1: FlurouracilFluorouracil 400 mg/m ² IV	_				
	followed by 2,400 mg/m ² continuous IV over 46					
	hours					
	Repeat cycle every 14 days.					
FOLFOXIRI	Day 1: Irinotecan 165 mg/m ² IV, oxaliplatin 85	See dosing				
	mg/m^2 IV, leucovorin 400 mg/m ² IV,	regimen				
	flurouracilfluorouracil 1,600 mg/m ² continuous IV	_				
	for 2 days (total 3,200 mg/m ²)					
	Repeat cycle every 2 weeks.					
Braftovi	300 mg PO once daily in combination with	450 mg/day				
(Encorafenib)	panitumumab (6 mg/kg IV every 14 days) until					
	disease progression or unacceptable toxicity.					

Page **3** of **6**

Therapeutic alternatives are listed as Brand name® (generic) when the drug is available by brand name only and generic (Brand name®) when the drug is available by both brand and generic.

Appendix C: Contraindications/Boxed Warnings

- Contraindication(s): none reported
- Boxed warning(s): dermatologic toxicity

Appendix D: KRAS/NRAS/BRAF Wild-Type Colon Cancer

• The NCCN Colon Cancer Guidelines recommend that panitumumab should only be used for left-sided tumors in *KRAS/NRAS/BRAF* wild-type colon cancer. The NCCN defines the left side of the colon as splenic flexure to rectum. Evidence suggests that patients with tumors originating on the right side of the colon (hepatic flexure through cecum) are unlikely to respond to panitumumab. Data on the response to panitumumab in patients with primary tumors originating in the transverse colon (hepatic flexure to splenic flexure) are lacking.

V. Dosage and Administration

••	2 obuge and 1				· · · · · · · · · · · · · · · · · · ·
	Indication	Dosing Regimen	Maximum Dose	•	Formatted Table
	CRC	6 mg/kg IV over 60 minutes (\leq 1,000 mg) or 90 minutes	6 mg/kg		
		(> 1,000 mg) every 14 days			

VI. Product Availability

Single-dose vial for injection: 100 mg/5 mL, 400 mg/20 mL

Panitumumab	

Reviews, Revisions, and Approvals	Date	LDH Approval Date
Converted corporate policy to local policy	06.26.23	<u>10.05.23</u>
Annual review simplified criteria by removing criterion qualifier	04.22.24	
"first-line treatment" as it overlaps with subsequent-line treatment		
regimens and to align with NCH criteria; added CapeOx as		
potential combination regimen per NCCN; added criterion that		
disease is left-sided only for colon cancer that is		
KRAS/NRAS/BRAF wild-type per NCCN & NCH, along with		
rationale in Appendix D; references reviewed and updated.		

Important Reminder

This clinical policy has been developed by appropriately experienced and licensed health care professionals based on a review and consideration of currently available generally accepted standards of medical practice; peer-reviewed medical literature; government agency/program approval status; evidence-based guidelines and positions of leading national health professional organizations; views of physicians practicing in relevant clinical areas affected by this clinical policy; and other available clinical information. LHCC makes no representations and accepts no liability with respect to the content of any external information used or relied upon in developing this clinical policy. This clinical policy is consistent with standards of medical practice current at the time that this clinical policy was approved.

The purpose of this clinical policy is to provide a guide to medical necessity, which is a component of the guidelines used to assist in making coverage decisions and administering benefits. It does not constitute a contract or guarantee regarding payment or results. Coverage decisions and the administration of benefits are subject to all terms, conditions, exclusions and limitations of the coverage documents (e.g., evidence of coverage, certificate of coverage, policy, contract of insurance, etc.), as well as to state and federal requirements and applicable LHCC administrative policies and procedures.

This clinical policy is effective as of the date determined by LHCC. The date of posting may not be the effective date of this clinical policy. This clinical policy may be subject to applicable legal and regulatory requirements relating to provider notification. If there is a discrepancy between the effective date of this clinical policy and any applicable legal or regulatory requirement, the requirements of law and regulation shall govern. LHCC retains the right to change, amend or withdraw this clinical policy, and additional clinical policies may be developed and adopted as needed, at any time.

This clinical policy does not constitute medical advice, medical treatment or medical care. It is not intended to dictate to providers how to practice medicine. Providers are expected to exercise professional medical judgment in providing the most appropriate care, and are solely responsible for the medical advice and treatment of members. This clinical policy is not intended to recommend treatment for members. Members should consult with their treating physician in connection with diagnosis and treatment decisions.
