

Clinical Policy: Idecabtagene Vicleucel (Abecma)

Reference Number: LA.PHAR.481 Effective Date: 09.29.23 Last Review Date: 08.14.24 05.21.24 Line of Business: Medicaid

Revision Log

See <u>Important Reminder</u> at the end of this policy for important regulatory and legal information.

Please note: This policy is for medical benefit

Description

Idecabiagene vicleucel (Abecma[®]) is an anti-B cell maturation antigen (BCMA) chimeric antigen receptor (CAR) T-cell immunotherapy.

FDA Approved Indication(s)

Abecma is indicated for the treatment of adult patients with relapsed or refractory multiple myeloma after two or more prior lines of therapy, including an immunomodulatory agent, a proteasome inhibitor, and an anti-CD38 monoclonal antibody.

Policy/Criteria

Provider must submit documentation (such as office chart notes, lab results or other clinical information) supporting that member has met all approval criteria.

All requests reviewed under this policy require medical director review.

It is the policy of Louisiana Healthcare Connections[®] that Abecma is **medically necessary** when the following criteria are met:

I. Initial Approval Criteria

- A. Multiple Myeloma* (must meet all):
 - *Only for initial treatment dose; subsequent doses will not be covered.
 - 1. Diagnosis of relapsed or refractory multiple myeloma;
 - 2. Prescribed by or in consultation with an oncologist or hematologist;
 - 3. Age \geq 18 years;
 - 4. One of the following (a or b):
 - a. Member has measurable disease as evidenced by one of the following assessed within the last 30 days (i, ii, or iii):
 - i. Serum M-protein ≥ 0.5 g/dL;
 - ii. Urine M-protein $\geq 200 \text{ mg}/24 \text{ h}$;
 - iii. Serum free light chain (FLC) assay: involved FLC level ≥ 10 mg/dL (100 mg/L) provided serum FLC ratio is abnormal;
 - b. Member has progressive disease, as defined by the IMWG response criteria (see *Appendix D*), assessed within 60 days following the last dose of the last antimyeloma drug regimen received;
 - 5. Member has received ≥ 2 prior lines of therapy (*see Appendix B for examples*) that include all of the following (a, b, and c):

Page 1 of 7

CLINICAL POLICY connections. Idecabtagene Vicleucel a. One immunomodulatory agent (e.g., Revlimid[®], Pomalyst[®], Thalomid[®]); b. One proteasome inhibitor (e.g., bortezomib, Kyprolis[®], Ninlaro[®]); c. One anti-CD38 antibody (e.g., Darzalex[®]/Darzalex Faspro[™], Sarclisa[®]); *Prior authorization may be required. Induction with or without hematopoietic stem cell transplant and with or without maintenance therapy is considered a single regimen. 6. Member does not have known central nervous system (CNS) involvement with myeloma, or history or presence of clinically relevant CNS pathology (e.g., epilepsy, seizure, paresis, aphasia, stroke, severe brain injuries, dementia, Parkinson's disease, cerebellar disease, organic brain syndrome, or psychosis); 7. Member has not previously received treatment with anti-BCMA targeted therapy (e.g., Blenrep[™], Tecvayli[™]); 8. Member has not previously received treatment with CAR T-cell immunotherapy (e.g., Breyanzi[™], Carvykti[™], Kymriah[™], Tecartus[™], Yescarta[™]); 9. Abecma is not prescribed concurrently with other CAR T-cell immunotherapy (e.g., Breyanzi, Carvykti, Kymriah, Tecartus, Yescarta); 10. Dose does not exceed 510 x 10⁶ CAR-positive T-cells. Approval duration: 3 months (1 dose only, with 4 doses of tocilizumab (Actemra) if Formatted: Font: Bold requested at up to 800 mg per dose) **B.** Other diagnoses/indications (must meet 1 or 2): 1. If this drug has recently (within the last 6 months) undergone a label change (e.g., newly approved indication, age expansion, new dosing regimen) that is not yet reflected in this policy, refer to LA.PMN.255 2. If the requested use (e.g., diagnosis, age, dosing regimen) is NOT specifically listed

louisiana

 If the requested use (e.g., diagnosis, age, dosing regimen) is NOT specifically listed under section III (Diagnoses/Indications for which coverage is NOT authorized) AND criterion 1 above does not apply, refer to the off-label use policy for the relevant line of business: LA.PMN.53 for Medicaid.

II. Continued Therapy

- A. Multiple Myeloma
 - 1. Continued therapy will not be authorized as Abecma is indicated to be dosed one time only.

Approval duration: Not applicable

B. Other diagnoses/indications (must meet 1 or 2):

- 1. If this drug has recently (within the last 6 months) undergone a label change (e.g., newly approved indication, age expansion, new dosing regimen) that is not yet reflected in this policy, refer to LA.PMN.255
- If the requested use (e.g., diagnosis, age, dosing regimen) is NOT specifically listed under section III (Diagnoses/Indications for which coverage is NOT authorized) AND criterion 1 above does not apply, refer to the off-label use policy for the relevant line of business: LA.PMN.53 for Medicaid.

Formatted: Font color: Text 1 Formatted: Indent: Left: 0.75", No bullets or numbering

III. Diagnoses/Indications for which coverage is NOT authorized:

- **A.** Non-FDA approved indications, which are not addressed in this policy, unless there is sufficient documentation of efficacy and safety according to the off label use policies LA.PMN.53 for Medicaid or evidence of coverage documents;
- **B.** Known CNS involvement with myeloma, or history or presence of clinically relevant CNS pathology (e.g., epilepsy, seizure, paresis, aphasia, stroke, severe brain injuries, dementia, Parkinson's disease, cerebellar disease, organic brain syndrome, or psychosis).

Therapeutic alternatives are listed as Brand name[®] (generic) when the drug is available by brand name only and generic (Brand name[®]) when the drug is available by both brand and generic.

Appendix C: Contraindications/Boxed Warnings

• Contraindication(s): none reported

Appendix D: General Information

- Patients with CNS involvement with their multiple myeloma were excluded from the pivotal KarMMa trial.
- The IMWG response criteria for multiple myeloma definition of progressive disease requires only one of the following:
 - o Increase of 25% from lowest response value in any of the following:
 - Serum M-component (absolute increase must be ≥ 0.5 g/dL), and/or
 - Urine M-component (absolute increase must be $\geq 200 \text{ mg}/24 \text{ h}$), and/or
 - Only in patients without measurable serum and urine M-protein levels: the difference between involved and uninvolved FLC levels (absolute increase must be > 10 mg/dL)
 - Only in patients without measurable serum and urine M protein levels and without measurable disease by FLC levels, bone marrow plasma cell percentage irrespective of baseline status (absolute increase must be $\geq 10\%$)
 - Appearance of a new lesion(s), $\geq 50\%$ increase from nadir in SPD (sum of the products of the maximal perpendicular diameters of measured lesions) of > 1 lesion, or $\geq 50\%$ increase in the longest diameter of a previous lesion >1 cm in short axis;
 - \circ ≥ 50% increase in circulating plasma cells (minimum of 200 cells per µL) if this is the only measure of disease

Important Reminder

This clinical policy has been developed by appropriately experienced and licensed health care professionals based on a review and consideration of currently available generally accepted standards of medical practice; peer-reviewed medical literature; government agency/program approval status; evidence-based guidelines and positions of leading national health professional organizations; views of physicians practicing in relevant clinical areas affected by this clinical policy; and other available clinical information. LHCC makes no representations and accepts no liability with respect to the content of any external information used or relied upon in developing this clinical policy. This clinical policy is consistent with standards of medical practice current at the time that this clinical policy was approved.

Formatted Table

The purpose of this clinical policy is to provide a guide to medical necessity, which is a component of the guidelines used to assist in making coverage decisions and administering benefits. It does not constitute a contract or guarantee regarding payment or results. Coverage decisions and the administration of benefits are subject to all terms, conditions, exclusions, and limitations of the coverage documents (e.g., evidence of coverage, certificate of coverage, policy, contract of insurance, etc.), as well as to state and federal requirements and applicable LHCC administrative policies and procedures.

This clinical policy is effective as of the date determined by LHCC. The date of posting may not be the effective date of this clinical policy. This clinical policy may be subject to applicable legal and regulatory requirements relating to provider notification. If there is a discrepancy between the effective date of this clinical policy and any applicable legal or regulatory requirement, the requirements of law and regulation shall govern. LHCC retains the right to change, amend or withdraw this clinical policy, and additional clinical policies may be developed and adopted as needed, at any time.

This clinical policy does not constitute medical advice, medical treatment, or medical care. It is not intended to dictate to providers how to practice medicine. Providers are expected to exercise professional medical judgment in providing the most appropriate care and are solely responsible for the medical advice and treatment of members. This clinical policy is not intended to recommend treatment for members. Members should consult with their treating physician in connection with diagnosis and treatment decisions.

Providers referred to in this clinical policy are independent contractors who exercise independent judgment and over whom LHCC has no control or right of control. Providers are not agents or employees of LHCC.

This clinical policy is the property of LHCC. Unauthorized copying, use, and distribution of this clinical policy or any information contained herein are strictly prohibited. Providers, members, and their representatives are bound to the terms and conditions expressed herein through the terms of their contracts. Where no such contract exists, providers, members and their representatives agree to be bound by such terms and conditions by providing services to members and/or submitting claims for payment for such services.
